PART 1381—SOFTWOOD LUMBER

[Rev. MPR 161,[1] Amendment 1]

WEST COAST LOGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

A new § 1381.164 (c) is added as set forth below:

§ 1381.164 *Effective date.* * * *

(c) Notwithstanding any other provision of this Revised Regulation, the requirements of § 1381.153 (a) and (b) as to delivery shall not apply to No. 1 and No. 2 grades of Sitka Spruce logs produced under the two contracts described below. As to these grades and species of logs produced under these contracts, the maximum prices applying to those logs as listed in the price tables of § 1381.154 shall be f. o. b. rail cars at Forks, Washington, loaded at the seller's expense:

(1) Contract No. 1, dated August 7, 1942, between the State of Washington and Olympic Logging Company (formerly Eagle Logging Company) of Seattle, Washington, covering 2,400,000 ft., log scale, of spruce timber located in Section 30, Township 27 North, Range 10 West, W. M., in Jefferson County, Washington.

(2) Contract No. 3, dated August 7, 1942, between the State of Washington and Noon and Crippen, of Port Angeles, Washington, covering 1,250,000 feet, log scale, of spruce timber located in Section 19, Township 27 North, Range 11 West, W. M., in Jefferson County, Washington.

This Amendment No. 1 shall become effective March 15, 1943.

PART 1381—SOFTWOOD LUMBER

[Rev. MPR 161,[1] Amendment 2]

WEST COAST LOGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1381.159 is amended by adding a new paragraph (c) as set forth below:

§ 1381.159 *Prohibited practices.* * * *

(c) *Service commissions.* It is unlawful for any person to charge, receive or pay a commission for the service of procuring, buying, selling or locating logs, or for any related service (such as "expediting") which does not involve actual physical handling of logs, if the commission plus the purchase price results in a total payment by the buyer of logs which is higher than the maximum price of the logs. For purposes of this regulation, a commission is any service charge or payment which is figured either directly or indirectly on the basis of the quantity, price or value of the logs in connection with which the service is performed.

This amendment shall become effective March 15, 1943.

FUEL OIL RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

New paragraphs (f) and (g) are added to § 1394.5305, as set forth below:

Auxiliary Rations

§ 1394.5305 *Same: Issuance of auxiliary heat ration.* * * *

(f) In any case where the allowable auxiliary ration for heating residential premises is 100 gallons or more, the board shall issue such ration only if the applicant shows that one or more of the following conditions exist:

(1) A coal or wood heating stove, or the fuel for such stove, is not available; or

(2) The purchase of a coal or wood heating stove and the fuel for such stove will cause the applicant unreasonable expense; or

(3) No member of the household is physically able to operate a coal or wood heating stove; or

(4) There is no flue or chimney or other provision for venting a coal or wood heating stove in the space to be heated.

(g) In any case where the allowable auxiliary ration for heating premises other than residential premises is 100 gallons or more, the board shall issue such ration only if the applicant shows that one or more of the following conditions exist:

(1) A coal or wood heating stove, or the fuel for such stove, is not available; or

(2) The purchase of a coal or wood heating stove and of the fuel for such stove will cause the applicant unreasonable expense; or

(3) It would be impracticable for the applicant to use a coal or wood heating stove for the purpose; or

(4) The venting of a coal or wood stove in the space to be heated would cause the applicant unreasonable expense.

This amendment shall become effective on March 15, 1943.

PART 1442—CORDAGE

[MPR 340]

JUTE AND ISTLE YARN, ROVE AND ROPE

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

§ 1442.1 *Maximum prices for jute and istle yarn, rove and rope.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 340 (Jute and Istle Yarn, Rove and Rope), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1442.1 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

11. Prohibited practices.
12. Adjustable pricing.
Appendix A: Freight delivery zones.

SECTION 1. *Sales of jute and istle yarn, rove and rope at higher than maximum prices prohibited.* (a) On and after March 10, 1943, regardless of any contract or other obligation no person shall sell or deliver and no person shall buy or receive in the course of trade or business, any commodity for which a maximum price is established by this regulation at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer or attempt to do any of these things;

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *To what products, transactions and geographical areas this regulation applies*—(a) *What products are covered by this regulation*—(1) *No. I jute yarn or rove sold for manufacture into rope.* "No. I jute yarn or rove" means yarn or rove for use in the manufacture of rope, spun from a raw jute fiber mix having a weighted average cost per pound (without regard to in-freight, cost of oils or emulsions, or loss of weight in processing) of not less than $.1065 determined by the use of the raw jute fiber prices announced by Defense Supplies Corporation on December 31, 1942.

(2) *No. II jute and istle yarn or rove sold for manufacture into rope.* "No. II jute and istle yarn or rove" means yarn or rove, for use in the manufacture of rope, spun from a raw fiber mix composed of jute or istle or any combination of jute and istle fiber: *Provided*, That if the mix contains jute, the raw jute fiber used therein shall have a weighted average cost per pound (without regard to in-freight, cost of oils or emulsions, or loss of weight in processing) of not less than $.0935 determined by the use of the raw jute fiber prices announced by Defense Supplies Corporation on December 31, 1942.

(3) *No. I jute rope.* "No. I jute rope" means rope manufactured from No. I jute yarn or rove.

(4) *No. II jute and istle rope.* "No. II jute and istle rope" means rope manufactured from No. II jute and istle yarn or rove.

(b) *What transactions are covered by this regulation*—(1) *Yarn and rove.* This regulation covers all sales of No. I jute yarn and rove and No. II jute and istle yarn and rove.

(2) *Rope.* This regulation covers all sales of No. I jute rope and No. II jute and istle rope by a manufacturer or by a jobber.

Manufacturers' and jobbers' sales of such rope are divided into three categories: (i) sales to jobbers; (ii) sales to industrial users; (iii) sales to retail stores.

The term "jobber" means a person who purchases rope for the purpose of resale to industrial users and retail stores.

The term "industrial user" means any person who in 1942 was treated by the seller as an industrial user of rope as evidenced by price quotations and business correspondence, and any other person purchasing rope is substantially similar quantities and under substantially similar circumstances. The term is limited to a person who purchases rope for use and not for resale, and in general refers to persons who purchase rope in substantial quantities. In addition, the term includes the War Department, the Department of the Navy, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department of the United States or any agency of the foregoing.

The term "retail store" means a person who purchases rope for the purpose of resale to ultimate users other than industrial users.

(c) *What geographical areas are covered.* This regulation shall be applicable to the continental United States, and to the District of Columbia, but not to the territories and possessions of the United States.

SEC. 3. *Maximum prices for jute and istle yarn and rove*—(a) *No. I jute yarn or rove.* The maximum price for No. I jute yarn or rove shall be 17¼ cents per pound, f. o. b. spinner's mill.

(b) *No. II yarn or rove.* The maximum price for No. II jute and istle yarn or rove shall be 16 cents per pound, f. o. b. spinner's mill.

(c) *Terms.* The maximum prices established by this regulation for rove and yarn are net prices and no discounts or allowances therefrom need be granted.

(d) *Put-ups.* The maximum prices enumerated herein for yarn and rove are prices per pound on the basis of gross weight of yarn or rove if put up on paper tubes provided that the total weight of tubes and packing material included in the gross weight shall not exceed 2% of the gross weight; and are on the basis of the net weight of yarn or rove if put up on permanent tubes which either remain the property of the seller, or are supplied by the purchaser (in either case return freight on empty tubes to be paid by the purchaser of the yarn or rove).

(e) *Sales on a delivered basis.* A delivered price in excess of the applicable maximum price, f. o. b. spinner's mill may be charged, consisting of such maximum price plus the actual amount paid to the carrier, if delivery is made by common carrier, or if delivery is made by a vehicle owned or controlled by the seller, an amount not to exceed the lowest available commercial carrier rate for the identical shipment: *Provided*, That an invoice or other memorandum shall be delivered to the purchaser showing the amount added for delivery charges.

SEC. 4 *Maximum prices for jute and istle rope.* The maximum prices at which manufacturers and jobbers may sell jute and istle rope are:

NOTE: A description of the five freight delivery zones is set forth in Appendix A, and a map showing their boundaries has been filed with the Division of the Federal Register.

(c) *Cash discount.* The maximum prices established by this section for jute and istle rope are subject to a cash discount of 2 per cent 10 days.

(d) *Prices on gross weight basis.* The prices enumerated herein for rope are based upon gross weight provided that tare, consisting of wrapping and lashings, shall not exceed 2 per cent of gross weight.

SEC. 5 *Duty to mark rope for identification.* No manufacturer shall deliver any rope for which a maximum price is established by this regulation unless such rope is marked for identification by either of the following methods:

(a) Inclusion therein of a strand or yarn of paper or fiber, colored blue in the case of No. I jute rope and red in the case of No. II jute and istle rope, which strand or yarn is readily discernible by contrast with the remainder of the rope; or

(b) Attaching to each length of rope delivered a tag or label which states that the rope is No. I or No. II rope as the case may be.

SEC. 6 *Relation to other regulations*—(a) *General Maximum Price Regulation.* Any sale or delivery for which a maximum price is established by this regulation is not subect to the provisions of the General Maximum Price Regulation.[3]

(b) *Maximum Price Regulation No. 188.* The provisions of Maximum Price Regulation No. 188[4] shall not apply and this regulation shall apply to any sale or delivery of rope for which a maximum price is established by this regulation.

(c) *Revised Maximum Export Price Regulation.* The maximum price for export sales of any of the commodities covered by this regulation is governed by the Revised Maximum Export Price Regulation, issued by the Office of Price Administration.

SEC. 7. *Enforcement.* (a) Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942.

(b) War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. "War procurement agencies" include the War Department, the Department of the Navy, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

SEC. 8 *Licensing and registration.* The provisions of Supplementary Order No. 36,[5] licensing sellers of yarns, textiles, textile products, and services related thereto, shall apply to every seller of yarn, rove and rope subject to this regulation. Supplementary Order No. 36 provides, in brief, that a license is necessary in order to make sales, other than at retail, of any yarns, textiles, textile products or services for which maximum prices are established by this and certain other regulations. A license is automatically granted to all sellers making such sales. It is not necessary to apply for the license, but sellers may later be required to register. Licenses may be suspended for violations in connection with the sale of any commodity which the seller is licensed to sell by Supplementary Order No. 36. No person whose license is suspended may sell any of such commodities during the period of suspension.

SEC. 9 *Records and reports.*[6]—(a) *Records.* Every seller must keep a record of every sale for which a maximum price is established by this regulation, including a description of the commodity sold, the name and address of the buyer, the date of the sale and the price. Every buyer shall keep similar records with regard to purchases in the course of trade or business, including the name and address of the seller. They must be kept for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect.

(b) *Reports.* Any person affected by this regulation shall submit such reports as the Office of Price Administration may, from time to time, require.

SEC. 10 *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* (1) The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." It also includes any subcontract under this kind of contract.

(2) Any person who has made or intends to make a "government contract" and who thinks that a maximum price established by this regulation is impeding or threatens to impede production of any commodity for which a maximum price is established by this regulation which is essential to the war program and which is or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6,[7] issued by the Office of Price Administration.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[8] issued by the Office of Price Administration.

SEC. 11 *Prohibited practices.* Any practice which is used as a device to effect a higher-than-ceiling price without actually raising the dollars and cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

SEC. 12 *Adjustable pricing.* Any person may offer or agree to adjust or fix

PART 1305—ADMINISTRATION

[Supplementary Order 38]

ACCOMMODATION SALES OF SERVICE

A statement to accompany this Supplementary Order No. 38 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, *It is hereby ordered,* That:

§ 1305.51 *Accommodation sales of service.* (a) Any person who in March 1942 had a fixed practice of making accommodation sales of services is hereby authorized to charge, and any person purchasing accommodation services is hereby authorized to pay, for such services, rates, charges, fees and compensation therefor in an amount not exceeding the aggregate of the cost of direct labor at legally permitted wage rates and materials at actual cost thereof to the seller or at the ceiling price thereof, whichever is lower, for the service sold or supplied.

(b) As used in this supplementary order, "accommodation sales of service" means a sale made entirely without profit and for the convenience or benefit of the purchaser. It does not include sales by cooperatives, nonprofit or other organizations which make sales initially above cost but later give refunds, bonuses, dividends or other allowances to purchasers.

(c) This Supplementary Order No. 38 (§ 1305.51) shall become effective March 15, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1305—ADMINISTRATION

[General Ration Order 7, Amendment 1]

METHOD OF SURRENDER AND DEPOSIT OF RATION STAMPS AND COUPONS

A rationale for this amendment has been issued herewith and has been filed with the Division of the Federal Register.*

General Ration Order 7 is amended in the following respects:

1. Section 1.7 is added, to read as follows:

SEC. 1.7 *Additional prohibitions.* (a) No person shall offer, solicit, attempt, or agree to do any act in violation of this order.

(b) No person shall forge, mutilate, alter or destroy any sealed envelope in which stamps or coupons are enclosed pursuant to this order, except in accordance with this or any other order of the Office of Price Administration.

2. Section 1.8 is added, to read as follows:

SEC. 1.8 *Office of Price Administration may issue suspension orders.* (a) Any person who violates this order may, by administrative suspension order, be prohibited from receiving any transfers or deliveries of, or selling or using or otherwise disposing of, any rationed product or facility. Such suspension order shall be issued for such period as in the judgment of the Administrator, or such person as he may designate for such purpose, is necessary or appropriate in the public interest and to promote the national security.

This amendment shall become effective March 9, 1943.

PART 1341—CANNED AND PRESERVED FOODS

[MPR 181,[1] as Amended March 9, 1943]

NEW-FORMULA CONDENSED SOUPS PACKED UNDER WPB CONSERVATION ORDER M-81

A new paragraph (d) is added to § 1341.51 so that Maximum Price Regulation No. 181 shall read as follows:

In the judgment of the Price Administrator, the maximum prices established by the General Maximum Price Regulation[3] for the sale of canned soups are not applicable to those canned condensed soups whose packing in tin plate or terneplate after June 30, 1942, is governed and alone permitted under Conservation Order M-81, and amendments thereto, issued by the War Production Board.

This Maximum Price Regulation No. 181 is issued by the Price Administrator in order to establish for the canners and other sellers of such canned condensed soups maximum prices which are fair and equitable and which will effectuate the purposes of the Emergency Price Control Act of 1942.

The maximum prices established herein are not below prices which will reflect to producers of the agricultural commodities from which canned condensed soups are manufactured, a price for their products equal to the highest of any of the following prices therefor as determined and published by the Secretary of Agriculture: (1) 110 per centum of the parity price for such commodity, adjusted by the Secretary of Agriculture for grade, location, and seasonal differentials; (2) the market price prevailing for such commodity on October 1, 1941; (3) the market price prevailing for such commodity on December 15, 1941; or (4) the average prices for such commodity during the period July 1, 1919 to June 30, 1929.

A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, Maximum Price Regulation No. 181 is hereby issued.

Sec.

1341.51 Prohibition against selling or buying, above maximum prices, new-formula condensed soups packed under WPB Conservation Order M-81.
1341.52 Canner's maximum prices for new-formula condensed soups packed under WPB Conservation Order M-81.
1341.53 Wholesaler's and retailer's maximum prices for new-formula condensed soups packed under WPB Conservation Order M-81.

§ 1341.51 *Prohibition against selling or buying, above maximum prices, new-formula condensed soups packed under WPB Conservation Order M-81.* (a) On and after July 18, 1942, regardless of any contract or other obligation, no person shall sell or deliver any canned condensed soup which it is permissible to pack after June 30, 1942, under Conservation Order M-81, and amendments thereto, at a price higher than the maximum prices established by this Maximum Price Regulation No. 181;

(b) No person in the course of trade or business shall buy or receive any such canned condensed soup at a price higher than the maximum prices established by this Maximum Price Regulation No. 181;

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

(d) However, any person may offer or agree to adjust any selling price to a price not higher than the maximum price in effect at the time of delivery. Where a petition for amendment requires extended consideration, the Price Administrator may, upon application in an appropriate situation, grant permission to agree to adjust prices upon deliveries made while the petition is pending in accordance with the disposition of the petition.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that the prohibition contained in any price regulation against buying or receiving any commodity or service at a price higher than the maximum price permitted by such regulation shall not apply to any war procurement agency, or government whose defense is vital to the defense of the United States.]

§ 1341.52 *Canner's maximum prices for new-formula condensed soups packed under WPB Conservation Order M-81.* (a) Except as hereinafter provided in paragraph (c) of this section, the canner in computing his maximum price per dozen for each variety and can size of canned condensed soup which it is permissible to pack after June 30, 1942, under Conservation Order M-81, and amendments thereto,

(1) Shall divide the weighted average price per dozen charged during the calendar year 1941 for the related variety of canned soup then sold, in the can size which had the largest retail sale for that variety during the calendar year 1941, by the weighted average direct cost per dozen of such soup during the calendar year 1941; and

(2) Shall multiply the figure so obtained by the direct cost per dozen of the variety and can size of canned condensed soup being priced hereunder.

(b) In determining the canner's maximum price:

(1) The "weighted average price" for any canned soup packed during the calendar year 1941 shall be the total gross sales dollars charged for each variety and can size divided by the number of dozens sold of such variety and can size during the calendar year 1941.

(2) The "weighted average direct cost per dozen" for any canned soup packed during the calendar year 1941 shall be the following costs in dollars and cents per dozen which entered into the production of canned soups up to and including the putting of the finished product in a warehouse on behalf of the canner: Raw material, can, carton, label, direct labor, and factory expenses, including maintenance, rent, heat, light, power, water, refrigeration, and indirect labor. The weighted average direct cost per dozen for each variety shall be the total direct cost divided by the number of dozens of such variety of canned soups produced during the calendar year 1941.

(3) The "direct cost per dozen" of any canned condensed soup being priced hereunder shall be computed in dollars and cents per dozen for the following factors which enter into the production of canned condensed soups up to and including the putting of the finished product in a warehouse on behalf of the canner: Raw material, can, carton, label, direct labor, and factory expenses, including maintenance, rent, heat, light, power, water, refrigeration, and indirect labor, provided that, with the exception of raw material, such direct costs shall be determined on the basis of material prices, labor rates, and overhead rates in effect on March 30, 1942. If the canner is actually producing or has actually produced any canned condensed soup being priced hereunder, he shall to that extent determine the direct cost per dozen of such canned condensed soups in dollars and cents based upon his actual production experience. If the canner is not actually producing or has not actually produced any canned condensed soup being priced hereunder, he shall estimate to the best of his ability the direct cost per dozen in accordance with his customary system of determining direct cost. The maximum price based upon such estimated direct cost shall be subject to adjustment by the Office of Price Administration at any time.

(c) If since January 1, 1941, a canner at any time sold and delivered all or part of his canned soups at a uniform price, he may sell and deliver all or part of his canned condensed soups at one or more uniform maximum prices, as hereinafter determined. The maximum price per dozen cans for the canned condensed soups, governed by this Maximum Price Regulation No. 181, which are to be sold on any uniform price line basis shall be:

(1) The average of the respective maximum prices for the varieties and can sizes of the canned condensed soups which are to be included in the uniform price line, as individually determined under paragraph (b) of this section; weighted according to

(2) The number of dozens of the related varieties of canned soups which were sold during the one-year period immediately preceding the date of computation hereunder, without regard to can size, except that in case of any price revision made under paragraph (d) of this section the number of dozens of the varieties and can sizes of canned condensed soups included in the price line which have been sold during such period shall also be included.

(d) If during any three-months period subsequent to October 1, 1942, the total sales volume, since the last price computation hereunder, of any variety sold as part of a price line has varied more than 25% in proportion to the total sales volume, during the same period, of all soups included in the price line, the canner must recompute his uniform maximum price at the end of such three-months period in accordance with the provisions of paragraph (c) of this section. But in no event shall the maximum price thus computed exceed the maximum price for such price line as first computed hereunder.

(e) No canner shall change his customary allowances, discounts, or other price differentials unless such change results in the same or a lower price.

(f) Any canner who sold any item partly on an f. o. b. factory basis and partly on a delivered basis, during the calendar year 1941, shall separately calculate for the item a maximum price f. o. b. factory and a maximum delivered price. Any canner who sold on a delivered basis by zones shall calculate a separate maximum delivered price for each zone. For the purpose of this paragraph, the canner shall accordingly segregate his 1941 prices for the item when calculating weighted average 1941 prices.

[Paragraph (f) added by Amendment 2, 7 F.R. 10470]

§ 1341.53 *Wholesaler's and retailer's maximum prices for new-formula condensed soups packed under WPB Conservation Order M-81.*—(a) Every wholesaler and retailer, in computing the maximum price per dozen or per can for each brand, variety, and can size of canned condensed soup which it is permissible to pack after June 30, 1942, under Conservation Order M-81, and amendments thereto:

(1) Shall divide his maximum price per dozen or per can, as determined under the General Maximum Price Regulation, for the same brand, related variety, and that can size which had the largest sale during the calendar year 1941, by his replacement cost per dozen or per can of that soup, or, at his election, by the actual cost per dozen or per can of those units of such soup for which the price charged during March 1942 determined his maximum price under the General Maximum Price Regulation; and

[Paragraph (1) as amended by Amendment 1, 7 F.R. 5775]

(2) Shall multiply the figure so obtained by the maximum price per dozen or per can which some person, selected by him, from whom he was regularly purchasing such related canned soup during the first three months of the year 1942, is entitled to charge him under this Maximum Price Regulation No. 181 for the canned condensed soup being priced hereunder.

(b) No canned condensed soup shall be sold by any wholesaler or retailer until he has computed hereunder his maximum price for such soup, and when computed such maximum price shall be his maximum price from that time forward.

(c) No wholesaler or retailer shall change his customary allowances, dis-

counts, or other price differentials unless such change results in the same or a lower price.

(d) *Fractions of a cent.* When calculating a maximum price, the retailer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent.

[Paragraph (d) added by Amendment 2, 7 F.R. 10470]

[NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for the purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

[NOTE: Supplementary Order No. 34 (7 F.R. 10779) permits special packing expenses to be added to maximum prices on sales to procurement agencies of the United States.]

§ 1341.54 *Inability to fix maximum prices under preceding sections.* (a) If the seller's maximum price for any item cannot be determined under §§ 1341.52 and 1341.53, his maximum price shall be the maximum price of the most closely competitive seller.

(b) If the seller's maximum price for any item cannot be determined under §§ 1341.52 and 1341.53 or under paragraph (a) of this section, the maximum price shall be a price determined after specific authorization from the Office of Price Administration, Washington, D. C., on application setting forth (1) a detailed description of the brand, variety and can size; and (2) a statement of the facts which differentiate it from the most similar item for which he has determined a maximum price, identifying the similar item and stating the maximum price determined for it. When authorization is given, it will be accompanied by instructions for determining the maximum price. Within ten days after the price has been determined, the seller shall report it to the Office of Price Administration, Washington, D. C. This price shall be subject to adjustment at any time by the Office of Price Administration.

[§ 1341.54 as amended by Amendment 2, 7 F.R. 10470]

§ 1341.55 *Information and advice to purchasers from canners and wholesalers.* (a) Any person, except a retailer, selling canned condensed soups covered by this Maximum Price Regulation No. 181 shall, before making any sales of such soups to any person to whom he was regularly selling any related variety of canned soup during the first three months of the year 1942, disclose in writing all maximum prices which he is entitled to charge such purchaser under this Maximum Price Regulation No. 181.

(b) Any person, except a retailer, selling canned condensed soups covered by this Maximum Price Regulation No. 181 shall, within 5 days after the receipt by him of the text or copy thereof, of Instructions to Wholesalers and Retailers, to be distributed to canners by the Office of Price Administration, prepare and supply a copy of such Instructions to every person to whom he actually or regularly sells the canned condensed soups covered by this Maximum Price Regulation No. 181. The text of such Instructions will be prepared by the Office of Price Administration and will include specific directions to wholesalers and retailers as to the manner in which maximum prices shall be computed hereunder.

§ 1341.56 *Distinctive labeling.* Every canner, and any other person for whose account canned condensed soups covered by this Maximum Price Regulation No. 181 are packed or labeled, shall label each such soup sold by him in a manner calculated clearly to distinguish it, in the eyes of the ordinary casual purchaser at retail, from canned soups not covered by this Maximum Price Regulation No. 181, and shall file with the Office of Price Administration, Washington, D. C., on or before August 15, 1942 a sample of each new label required hereunder together with a sample of each label heretofore used, during the calendar years 1941 and 1942, on those respective canned soups not covered by this Regulation which were the most closely related to the canned condensed soups sold under this Maximum Price Regulation No. 181.

§ 1341.57 *Transfers of business or stock in trade.* If the business, assets, or stock in trade of a canner are sold or otherwise transferred on or after July 18, 1942, and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of § 1341.60.

§ 1341.58 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 181 may be charged, demanded, paid, or offered.

§ 1341.59 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 181 shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to canned soups, alone or in conjunction with any other commodity or by way of any commission, service transportation, or other charge, or discount, premium, or other privilege, by tying-agreement, or other trade understanding, or otherwise.

§ 1341.60 *Records and reports.* (a) Every person who makes sales of canned condensed soups shall:

(1) Preserve for examination by the Office of Price Administration all their existing records which were the basis for the computations required by § 1341.52 and § 1341.53, and (2) preserve all records of the same kind as he has customarily kept, relating to the prices which he charged for canned condensed soups sold on and after July 18, 1942, and (3) file with the appropriate field office of the Office of Price Administration on or before August 15, 1942, for canners, and within 20 days respectively after the maximum prices for all canned condensed soups sold by them can first be determined hereunder, for wholesalers, a statement certified under oath or affirmation showing the maximum prices determined hereunder for each variety and can size of canned condensed soups, and all his customary allowances, discounts, and other price differentials, with the qualification that except as hereinafter provided retailers shall not be required to file their maximum prices, and (4) preserve a true copy of such statement for examination by any person during ordinary business hours. Any person who claims that substantial injury would result to him from making such statement available to any other person shall so notify the appropriate field office of the Office of Price Administration, and if he is a retailer he shall include with the notification a true copy of such certified statement. The information contained in such a statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this Maximum Price Regulation No. 181.

[NOTE: Supplementary Order No. 23 (7 F.R. 8478), provides that on and after October 24, 1942, no report filed with the Office of Price Administration pursuant to any price regulation need be notarized.]

(b) In addition to the foregoing, every canner who makes sales of canned condensed soups shall file with the Office of Price Administration, Washington, D. C., on or before August 15, 1942, a statement certified under oath or affirmation showing:

(1) The weighted average direct cost per dozen, as defined in § 1341.52 hereof, of those varieties of canned soups packed during the calendar year 1941 which are related to the canned condensed soups being priced hereunder, in the respective can sizes which had the largest retail sale during the calendar year 1941;

(2) The weighted average price per dozen, as defined in § 1341.52 hereof, charged by the canner during the calendar year 1941 for the canned soups specified in paragraph (b) (1);

(3) The direct cost per dozen, as defined in § 1341.52 hereof, of the canned condensed soups which are being priced hereunder. If all or part of the direct cost is estimated by the canner a statement shall also be submitted showing the basis for such estimates;

(4) The maximum price for each variety and can size of such canned condensed soups, as determined under this Maximum Price Regulation No. 181;

(5) The uniform maximum price for any price line established under this Maximum Price Regulation No. 181, together with a schedule showing the varieties and can sizes of canned condensed soup included in such price line and the total sales volume of each such soup during the one-year period immediately preceding the date on which the uniform maximum price was computed hereunder; and

(6) A schedule showing the percentage of dry solids and the recommended dilution with water for:

(i) The canned condensed soups being priced hereunder; and

(ii) The related varieties of canned soups sold during the calendar year 1941.

(c) In addition to the foregoing, every canner whose uniform maximum price for the canned condensed soups included in any price line is revised under § 1341.52, paragraph (d) hereof shall within 20 days after the termination of the three-months period specified in such section and paragraph file with the Office of Price Administration in Washington, D. C.,

(1) The uniform maximum price, as revised;

(2) A statement of the extent to which the sales volume of each variety included in the price line has changed since the preceding price computation; and

(3) A statement of the respective sales volumes, in dozens of cans of each of the soups included in the price line, during the one-year period immediately preceding the termination of the three-months period specified above.

§ 1341.61 *Licensing; applicability of the registration and licensing provisions of the General Maximum Price Regulation.* The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person selling at wholesale or retail any canned condensed soup covered by this Maximum Price Regulation No. 181. When used in this section the terms "selling at wholesale" and "selling at retail" have the definitions given to them by §§ 1499.20 (p) and 1499.20 (o) respectively of the General Maximum Price Regulation.

§ 1341.62 *Marking, posting and filing by retailers; applicability of the marking, posting and filing provisions of the General Maximum Price Regulation.* The marking, posting and filing provisions of § 1499.13 of the General Maximum Price Regulation are applicable to every person selling at retail any canned condensed soup covered by this Maximum Price Regulation No. 181. When used in this section, the term "selling at retail" has the definition given to it by § 1499.20 (o) of the General Maximum Price Regulation.

[§ 1341.62 as amended by Amendment 2, 7 F.R. 10470]

§ 1341.63 *Enforcement.* Persons violating any provision of this Maximum Price Regulation No. 181, are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided by the Emergency Price Control Act of 1942.

§ 1341.64 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 181 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.[4]

[§ 1341.64 as amended by Supplementary Order 26, 7 F.R. 8948]

[NOTE: Procedural Regulation No. 6 (7 F.R. 5087, 5665) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Supplementary Order No. 9 (7 F.R. 5444) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, with the exception of those on scrap, waste, and salvage materials.]

[NOTE: Supplementary Order No. 28 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

§ 1341.65 *Applicability.* The provisions of this Maximum Price Regulation No. 181 shall be applicable to the United States, its territories and possessions, and the District of Columbia.

§ 1341.66 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 181 supersede the provisions of the General Maximum Price Regulation, § 1341.62 hereof, with respect to the sales and deliveries of canned condensed soups packed in tinplate or terneplate for which maximum prices are established by this Maximum Price Regulation No. 181.

§ 1341.67 *Export sales.* The maximum price at which a person may export any canned condensed soup otherwise governed by this Maximum Price Regulation No. 181 shall be determined in accordance with the provisions of the Maximum Export Price Regulation[5] issued by the Office of Price Administration.

§ 1341.68 *Definitions.* (a) When used in this Maximum Price Regulation No. 181 the term:

(1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successors or representatives of any of the foregoing, the United States, any agency thereof, any other Government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Canner" means a person who purifies by heat and hermetically seals in containers made in whole or in part of tinplate, terneplate, or blackplate or any combination thereof, but not including nonmetal containers even though the closures, crowns, or caps of such nonmetal containers are made in whole or in part of tinplate, terneplate, or blackplate.

(3) "Canned condensed soup" means any condensed soup, purified by heat and hermetically sealed in the metal containers heretofore referred to in paragraph (a) (2) of this section, of a kind and formula which it is permissible to pack after June 30, 1942, under the provisions of Conservation Order M-81, and amendments thereto, issued by the War Production Board, whether such soup was packed before or after June 30, 1942.

(4) "Price per dozen" shall mean "price per dozen f. o. b. factory" or "delivered price per dozen" according to the seller's customary practice, during the calendar year 1941, of charging for the item being priced.

[Paragraph (4) as amended by Amendment 2, 7 F.R. 10470]

(5) "Related variety" of canned soup means that canned soup which was the most similar in formula to the canned condensed soup as to which a maximum price is being determined.

(6) "Replacement cost" shall be the net price paid by the seller, on June 30, 1942, or the net price which the seller would have had to pay to replace such commodity on that date.

(7) "Retail sale" means a sale, by other than a canner and in the original can, to an ultimate consumer other than an industrial or commercial user.

(8) "Appropriate field office of the Office of Price Administration" means the district office for the district (or in the absence of such district office, the state office for the State) in which is located the seller's place of business from which his sales are made.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1341.69 *Effective date.* This Maximum Price Regulation No. 181 (§§ 1341.51 to 1341.69 inclusive) shall become effective July 18, 1942.

vised Procedural Regulation No. 1,[1] issued by the Office of Price Administration.

(b) *Applications for adjustment.* The Office of Price Administration or any duly authorized representative thereof may adjust any of the maximum prices established herein except those established for eggs as listed in § 1351.801, paragraph (b) of the regulation, where the applicant files an application pursuant to Revised Procedural Regulation No. 1 showing that:

(1) Such maximum price is abnormally low in relation to the maximum prices of the same or similar commodities established pursuant to this regulation for other sellers, and

(2) This abnormality subjects him to hardship.

(c) *Joint applications.* Manufacturers or processors of the commodities listed in § 1351.801 except eggs, and persons who purchase those commodities from them for resale, may file joint applications for adjustment under paragraph (b) above pursuant to § 1300.14 of Revised Procedural Regulation No. 1.

(d) *Limitation on application for adjustment.* No application for adjustment pursuant to paragraph (b) above will be granted unless it is filed within:

(1) Sixty days of the effective date of this section, or

(2) Sixty days after an application for adjustment is granted pursuant to the terms of this paragraph to a person from whom the applicant purchases one of the items referred to in paragraph (b) above.

(e) Each regional administrator is authorized to make adjustments or act upon applications for adjustment under paragraph (b) above where the applicant is a wholesaler or a retailer.

PART 1421—IRON AND STEEL FOUNDRY PRODUCTS

[MPR 244, Amendment 3]

GRAY IRON CASTINGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Paragraph (a) of § 1421.157 is amended, paragraph (b) of § 1421.157 is revoked, a new paragraph (e) is added to § 1421.157, a new subparagraph (12) is added to § 1421.164 (a), all to read as set forth below:

§ 1421.157 *Petitions and applications for amendment, adjustment or exception.* (a) Any seller of gray iron castings may file an application for adjustment of his maximum prices for any or all such castings: *Provided*, That he is prepared to show:

(1) That his maximum prices for such castings are below his costs of producing them, or are inadequate to maintain continued production of such castings, and

(2) That such castings are necessary to the war effort, and either

(3) That he has entered into or proposes to enter into Government contracts or subcontracts under such contracts for the sale of such castings, or

(4) That unless adjustment is granted applicant will cease or will not undertake production of such castings, and as a result the purchaser will be materially handicapped in its operations for one or more of the following reasons:

(i) Applicant possesses special knowledge and experience in the production of such castings,

(ii) No other foundry properly equipped to produce such castings is located within a convenient distance of purchaser,

(iii) There is a general shortage in the type of facility possessed by applicant for the production of such castings,

(iv) The purchaser will be unable to procure such castings from another satisfactory source except at prices higher than those requested by applicant.

Such adjustments may be granted by the administrator or, in an appropriate case, by the regional administrator for the appropriate regional office of the Office of Price Administration, and shall be based upon a consideration of changes in applicant's costs of production, his over-all returns and such other circumstances as may be pertinent to the maintenance of an adequate supply of gray iron castings needed for the war effort.

Applications for adjustment under this paragraph (a) shall be filed in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration, except that they shall be filed with the appropriate regional office of the Office of Price Administration. Such applications shall be submitted on Form 344:3-A or on Forms 344:3-A and 344:3-B, whichever is applicable, in accordance with the instructions accompanying said forms. Copies of these forms may be obtained from the Office of Price Administration, Washington, D. C., or from any of its field offices.

* * * * * *

(e) *Supplementary Order No. 9*[1] *and Procedural Regulation No. 6*[2] *not to apply.* Supplementary Order No. 9 issued by the Office of Price Administration dealing with applications for adjustment under Procedural Regulation No. 6 of maximum prices of sales pursuant to government contracts or subcontracts shall not apply to applications for the adjustment of the maximum prices of a gray iron casting.

PART 310—MERCHANT MARINE TRAINING

PAY OF UNITED STATES MERCHANT MARINE CORPS CADETS

War Shipping Administration emergency regulations governing the appointment and training of cadets in the United States Merchant Marine Cadet Corps.

Section 310.57 is amended to read:

§ 310.57 *Pay.* (a) Cadets will receive pay at the rate of $65 per month from the W. S. A. while at the Academy, basic schools, or places of special shore training. Pay while at the Academy or basic schools will commence on the date of attachment to the Academy or to basic schools: *Provided*, That the successful completion of the preliminary course is a prerequisite to the right of a Cadet to receive any pay or compensation. Cadets initially assigned to basic schools or the Academy for preliminary training and basic Naval Science shall not receive their balance of pay until after the date of their detachment from basic schools for assignments to ships or places of special shore training. Periods spent at places of special shore training shall be considered the same as time spent at the Academy or at basic schools.

(b) Cadets assigned to ships on or after March 15, 1943 will receive pay, while attached to such vessel, at the rate of $82.50 per month from their steamship company employers which represents the minimum basic monthly wage of $65.00 and includes the additional emergency compensation of $17.50, without regard to the port from which a vessel departs.

(c) Cadets will not receive pay from the W. S. A. when not attached to the Academy or to basic schools or assigned to places of special shore training, except when specially authorized by the Supervisor.

(d) Cadets assigned to the Academy or basic schools for advanced courses or license preparation or while waiting assignment or while at places of special shore training shall receive their pay at the end of each calendar month and on the date of their detachment from the Academy, basic school or place of special shore training.

(e) The Supervisor may place any cadet on a non-pay basis for disciplinary reasons while assigned to the Academy, basic schools, or places of special shore training.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 220—EMBARGOES

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 2d day of March 1943.

The matter of continuous and adequate service by motor common carriers of property, and sections 204 (a) and 216 (b), being under consideration,

It is ordered, That:

Sec.
220.1 Carriers to give public notice of embargoes.
220.2 Notice of delay in performing service.
220.3 Carrier's duty to transport unaffected.

AUTHORITY: §§ 220.1 to 220.3 inclusive, issued under Secs. 204 (a) (1) and (6), 49 Stat. 546; § 4, 52 Stat. 1237; 49 U.S.C. 304 (a) (1) and (6).

§ 220.1 *Carriers to give public notice of embargoes.* (a) Whenever any motor common carrier of property subject to the Interstate Commerce Act finds that because of a lack of facilities or personnel, or because it is required to give preference and precedence to other traffic legally entitled to such priority, or because of other compelling circumstances not within the control of the carrier, it is or will be unable to perform all authorized transportation services requested of it, and that it will be necessary for it temporarily to suspend the offering of service in the transportation of any commodity, commodities, or class of traffic, to or from any territory, point, shipper, consignee, or connecting carrier, or over any route, it shall immediately give public notice of such fact by a written notice of an embargo, specifying the extent thereof, the date the embargo is to become effective, its duration, if known, and the reasons why the placing of the embargo is necessary.

(b) Immediately upon the issuance of a notice of an embargo as required by paragraph (a) of § 220.1, one copy of such notice shall be mailed to the Bureau of Motor Carriers, Interstate Commerce Commission, Washington, D. C., two copies shall be mailed or delivered to the District Director of the Interstate Commerce Commission in the district where the principal headquarters of the carrier is located, one copy shall be posted for public inspection in each office of the carrier where the embargo is to be made effective, one copy shall be served upon

*Copies may be obtained from the Office of Price Administration.

each connecting carrier with whom the issuing carrier interchanges traffic in cases where traffic so interchanged is affected, and, so far as is reasonably practicable in each case, the embargo shall be brought to the attention of interested shippers and consignees.

(c) Except in instances when the notice of an embargo specifies the date of its expiration, a notice of the termination or modification of an embargo shall be issued, posted, and filed by the carrier, and notice of such termination shall be given to interested shippers, consignees, and connecting lines, in the same manner as prescribed for notice of the establishment of an embargo in paragraph (b) of this section.

§ 220.2 *Notice of delay in performing service.* In all instances, other than those specified in § 220.1 of this chapter, when a motor common carrier of property subject to the Interstate Commerce Act, is unable to perform authorized transportation promptly upon request, it shall notify the person requesting the service of the anticipated delay and the reason therefor, and shall promptly notify the Bureau of Motor Carriers, Interstate Commerce Commission, Washington, D. C., and the District Director of the Bureau of Motor Carriers, Interstate Commerce Commission, in the district where the carrier has its principal headquarters, of any inability to perform requested transportation within a reasonable time, and the reason therefor. Upon the termination of the conditions which render the carrier unable to perform desired transportation within a reasonable time, the carrier shall notify the Bureau of Motor Carriers and the District Director, mentioned above, of the changed conditions.

§ 220.3 *Carrier's duty to transport unaffected.* The provisions of §§ 220.1 and 220.2 of this chapter shall not be construed to relieve any carrier of the duty to furnish transportation service, nor to relieve any carrier of the duty to observe all requirements of law and the regulations prescribed by the Commission.

And it is further ordered, That this order shall become effective April 15, 1943, and shall continue in effect until the further order of the Commission.

By the Commission, Division 5.

THORNTON AND COMPANY

ORDER REVOKING LICENSE AND DIRECTING ITS SURRENDER

In the matter of Thornton and Company, licensee. Proceeding for revocation of license.

To: Thornton and Company, R. D. #2, Mechanicsburg, Pennsylvania. Based upon the records in this matter, I, R. R. Sayers, Director of the Bureau of Mines, make the following findings of fact.

1. On February 2, 1943, a Specification of Charges against you, setting forth violations of the Federal Explosives Act (55 Stat. 863) and the regulations pursuant thereto of which you were accused, was mailed to you at the above, your last known address, giving you notice to mail an answer within 15 days demanding a hearing if you wished to be heard on the charges against you.

2. More than 25 days have elapsed since the giving of said notice. The length of time required for mail to be delivered to the Bureau of Mines, Washington, D. C., from Mechanicsburg, Pennsylvania, does not exceed 3 days. You have failed to answer the charges against you or to demand a hearing.

3. The charges against you are true.

Now, therefore, by virtue of the authority vested in me by sections 8 and 18 of the Federal Explosives Act (55 Stat. 863) and § 301.22 of the regulations thereunder (7 F.R. 5901), *It is hereby ordered,* That Purchaser's License No. 404040 and all other licenses, if any, issued to you under the Federal Explosives Act (55 Stat. 863), be and they are hereby revoked as of midnight, March 15, 1943;

That prior to midnight, March 15, 1943, you shall dispose of all of your explosives or ingredients thereof by selling them to properly licensed persons, by using them, or by destroying them; and

That prior to midnight, March 15, 1943, you shall surrender all licenses and certified or photographic copies thereof, if any, issued to you under the Federal Explosives Act, by delivering or mailing the same to me at the Interior Department, Washington, D. C., attaching to the licenses a sworn statement showing the manner of disposition of the explosives and ingredients, the names and addresses of the persons, if any, to whom you sold the explosives and ingredients, the Federal explosives license numbers of such persons, and the amounts and kinds of explosives and ingredients sold to each of them.

Failure to comply with any of the provisions of this Order will constitute a violation of the Federal Explosives Act, punishable by a fine of not more than $5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

Dated: March 4th, 1943.

DEPARTMENT OF LABOR

Wage and Hour Division.

MISCELLANEOUS TEXTILE, LEATHER, FUR, STRAW, AND RELATED PRODUCTS INDUSTRIES.

NOTICE OF HEARING

Notice of hearing on the minimum wage recommendation of Industry Committee No. 55 for the miscellaneous textile, leather, fur, straw, and related products industries to be held March 30, 1943.

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on February 11, 1943, by Administrative Order No. 175, appointed Industry Committee No. 55 for the Miscellaneous Textile, Leather, Fur, Straw, and Related Products Industries, composed of an equal number of representatives of the public, employers in the industry and employees in the industry, such representatives having been appointed with due regard to the geographical regions in which the industry is carried on; and

Whereas Industry Committee No. 55, on March 2, 1943, recommended a minimum wage rate for the Miscellaneous Textile, Leather, Fur, Straw, and Related Products Industries and duly adopted a report containing such recommendations and reasons therefor and filed such report with the Administrator on March 5, 1943, pursuant to section 8 (d) of the Act and § 511.19 of the regulations issued under the Act; and

Whereas the Administrator is required by section 8 (d) of the Act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the recommendation of Industry Committee No. 55 if he finds that the recommendation is made in accordance with law and is supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the industry committee, will carry out the purposes of section 8 of the Act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 55 is as follows:

Wages at a rate of not less than 40 cents an hour shall be paid under Section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Miscellaneous Textile, Leather, Fur, Straw, and Related Products Industries (as defined in Administrative Order No. 175) who is engaged in commerce or in the production of goods for commerce.

II. The definition of the Miscellaneous Textile, Leather, Fur, Straw, and Related Products Industries as set forth in Administrative Order No. 175, issued February 11, 1943, is as follows:

(a) The coating, impregnating, and other processing of textiles, including, but without limitation, the production of oilcloth, artificial leather, linoleum, and felt base floor coverings.

(b) The manufacture of any product from textile yarn or fabric (made from any animal, mineral, vegetable or synthetic fiber or mixtures of any of these fibers), impregnated or coated textiles, hair, bristles, straw, leather, feathers, and similar materials; except the weaving of fabric from mineral fibers or yarn.

(c) The dressing, dyeing, and other processing or handling of fur skins or pelts, and the manufacture of any product from fur skins or pelts.

(d) The manufacture of men's or boys' straw or harvest hats, the term "straw" being used in the trade sense and not being confined to materials made from natural fibers,

Provided, however, That this industry shall not include any product or part (other than men's and boys' straw or harvest hats) the manufacture of which is covered by the definition of an industry for which a wage order has been issued or for which an industry committee has been appointed under the Fair Labor Standards Act.

III. The full text of the report and recommendation of Industry Committee No. 55 is and will be available for inspection by any person between the hours of 9:00 a. m. and 4:00 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

Copies of the committee's report and recommendation may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York, New York.

IV. A public hearing will be held on March 30, 1943, before Major Robert N. Campbell, Presiding Officer, at 10:00 a. m. in Room 1001, 165 West 46th Street, New York, New York, for the purpose of taking evidence on the following question: Whether the recommendation of Industry Committee No. 55 should be approved or disapproved.

V. Any interested person supporting or opposing the recommendation of Industry Committee No. 55 may appear at the aforesaid hearing to offer evidence, either on his behalf or on behalf of any other person: *Provided,* That not later than March 25, 1943, such person shall file with the Administrator at New York, New York, a notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.
2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.
3. Whether such person poposes to appear for or against the recommendation of Industry Committee No. 55.
4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York, New York, and shall be deemed filed upon receipt thereof.

VI. Any person interested in supporting or opposing the recommendation of Industry Committee No. 55 may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York, New York, or by consulting with attorneys representing the Administrator who will be available for that purpose at the Office of the Solicitor, United States Department of Labor, in Washington, D. C., and New York, New York.

VII. Copies of the following document relating to the Miscellaneous Textile, Leather, Fur, Straw, and Related Products Industries will be made available on request for inspection by any interested person who intends to appear at the aforesaid hearing:

Report entitled, *Memorandum to Industry Committee No. 55 for the Miscellaneous Textile, Leather, Fur, Straw, and Related Products Industries,* prepared by the Economics Branch, Wage and Hour Division, United States Department of Labor, February 1943.

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or the Presiding Officer as are deemed appropriate.

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York, New York.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice, he will not be permitted to offer evidence at any other time except by special permission of the Presiding Officer.

3. At the discretion of the Presiding Officer, the hearing may be continued from day to day, or adjourned to a later date, or to a different place by announcement thereof at the hearing by the Presiding Officer or by other appropriate notice.

4. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the Presiding Officer has closed the hearing before him, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the Presiding Officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statment as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the Presiding Officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer, the original document together with two copies of those portions of the document intended to be put in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The Presiding Officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the Presiding Officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the Presiding Officer.

12. Before the close of the hearing, the Presiding Officer shall receive written requests from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. These requests will be for-

warded to the Administrator by the Presiding

If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings, and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing, the Presiding Officer shall forthwith file a complete record of the proceedings with the Administrator. The Presiding Officer shall not file an intermediate report unless so directed by the Administrator. If a report is filed it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at New York, New York, this 9th day of March 1943.

Whereas pursuant to Vesting Order Number 205 of October 2, 1942, the undersigned vested as property in which a resident of The Netherlands, and therefore a national of a foreign country, had an interest, among other things, the patent application identified as follows:

Serial No.	Filing date	Inventor	Title
318,328	2/10/40	E. Eichwald	Process for manufacturing viscous products suitable for lubrication.

Whereas pursuant to Vesting Order Number 291 of November 2, 1942, the undersigned vested as property in which residents of The Netherlands, and therefore nationals of a foreign country, had interests, among other things, the patent applications identified in Exhibit A attached hereto and made a part hereof;

Whereas further investigation has revealed that all of the aforesaid patent applications were, on the respective dates they were vested as aforesaid, in fact owned by Shell Development Company, a corporation of the United States, and that the instruments of assignment evidencing the conveyances to said company of title to all of such patent applications have been recorded in the United States Patent Office; and the undersigned has no knowledge of any interest therein held by any national of any foreign country other than Shell Development Company and its subsidiaries;

Whereas had the undersigned, on the respective dates he issued the aforesaid vesting orders, known the facts subsequently revealed and hereinbefore recited, he would not have included in such vesting orders any of the aforesaid patent applications.

Now, therefore, those parts of said vesting orders numbered 205 and 291 pertaining to the aforesaid patent applications are hereby rescinded and declared null and void. The recision herein contained shall, with respect to each such vesting order, be effective as of the date of issuance of such order, and all right, title and interest in and to such patent applications held by any and all persons immediately prior to the issuance of such orders shall be deemed to be restored to such persons to be held and enjoyed as though such patent applications had never been included in vesting orders numbered 205 and 291.

All provisions of said vesting orders numbered 205 and 291 relating to property other than the patent applications hereinbefore described, and all action taken by or on behalf of the undersigned in reliance thereon, pursuant thereto and under the authority thereof, are hereby ratified and confirmed.

Executed at Washington, D. C. on March 4, 1943.

CONTRACT BETWEEN I. G. FARBENINDUSTRIE A. G. AND PEN-CHLOR, INC.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that I. G. Farbenindustrie A. G., a corporation organized under the laws of Germany and doing business at Frankfort-on-the-Main, Germany, is a national of a foreign country (Germany);

2. Finding that said I. G. Farbenindustrie A. G., is the owner of the interest described in subparagraph 3 hereof;

3. Finding therefore that the property described as follows:

The interest of I. G. Farbenindustrie A. G. in and to an agreement dated April 29, 1935, by and between I. G. Farbenindustrie A. G. and Pen-Chlor, Inc., a corporation organized under the laws of Delaware, relating to the manufacture of pure anhydrous ferric chloride under a secret process owned by I. G. Farbenindustrie A. G. and under such patents as might be obtained thereon in the future, together with all accrued royalties and other monies payable or held with respect to such interest,

is property payable or held with respect to a patent or rights related thereto in which an interest is held by, and such property itself constitutes an interest held therein by, a national of a foreign country (Germany);

4. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

5. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 3, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

TRUST UNDER WILL OF LOUISA L. S. BAGG

In re: Trust under the will of Louisa L. S. Bagg, deceased; File No. D-28-1765; E. T. sec. 931.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Ethel Mather Salter, formerly Ethel Mather Bullard, of Washington, D. C., and Louise de Rosales, formerly of Washington, D. C., whose present address is London, W. 1, England, acting under the judicial supervision of the Probate Court, Hampden County, Massachusetts;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely, Elsa Oppitz whose last known address is Germany;

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Elsa Oppitz in and to a trust created under the will of Louisa L. S. Bagg, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and interests and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property and interests or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 70-646, 59-63]

UTAH POWER & LIGHT CO.

NOTICE OF FILING, ETC.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 8th day of March, A. D., 1943.

In the matter of Utah Power & Light Company, Utah Light and Traction Company, The Western Colorado Power Company, File No. 70–646, and Electric Bond and Share Company, Electric Power & Light Corporation, Utah Power & Light Company, Utah Light and Traction Company, The Western Colorado Power Company, Respondents, File No. 59–63.

Notice of filing and order for hearing: notice of and order for hearing pursuant to sections 11(b) (2), 12 (c), 15 (f), and 20 (a) of the Public Utility Holding Company Act of 1935 and order consolidating proceedings.

Notice is hereby given that a declaration and application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the Utah Power & Light Company (hereinafter referred to as "Utah Company"), a registered holding company, and its subsidiaries, Utah Light and Traction Company (hereinafter referred to as "Traction Company"), and The Western Colorado Power Company (hereinafter referred to as "Colorado Company").

All interested persons are referred to the application and declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which may be summarized as follows:

(1) Traction Company and Colorado Company will transfer all of their properties and assets to Utah Company. It is contemplated that in consideration of such transfer Utah Company will assume all the liabilities of Traction Company and Colorado Company, will forgive their indebtedness to itself, will cancel all of their capital stock and will effect their dissolution.

(2) Utah Company will issue $37,000,000 principal amount of First Mortgage Bonds, % Series due 1973, and $7,000,000 principal amount of General Mortgage % Bonds due 1958 secured by a second lien on the property of the company. The above bonds will be sold by competitive bidding.

The proceeds of these new securities will be applied to retire or redeem in accordance with their terms: (a) Utah Company's Thirty-Year First Mortgage Five Per Cent Gold Bonds due 1944, of which $28,307,000 principal amount was outstanding at October 31, 1942; (b) Utah Company's First Lien and General Mortgage Gold Bonds, Series of "4½'s due 1944," of which $4,068,000 principal amount was outstanding at October 31, 1942; (c) Traction Company's Thirty-Year First and Refunding Mortgage Gold Bonds, Series A, Five Per Cent due 1944,

guaranteed as to principal and interest by Utah Company, of which $11,849,000 principal amount was outstanding at October 31, 1942.

In the event that proceeds from the sale of the new securities proposed to be issued by Utah Company are not sufficient for the foregoing purposes, any additional amount required will be provided from the corporate funds of Utah Company.

It appearing to the Commission that it is appropriate and in the public interest and the interests of investors and consumers that a hearing be held with respect to said declaration and application, that said declaration shall not become effective nor said application be granted except pursuant to further order of the Commission, and that at said hearings there be considered, among other things, the various matters hereinafter set forth; and

The Commission having data in its official files and records establishing or tending to establish the following matters:

(1) Utah Company is a corporation organized under the laws of the State of Maine which has its principal office in Salt Lake City, State of Utah. It is engaged in the generation, transmission and sale of electricity in the States of Utah, Wyoming, and Idaho. It is an electric utility company within the meaning of section 2 (a) (3) of the Public Utility Holding Company Act of 1936 (hereinafter referred to as the "Act") and is a subsidiary of Electric Power & Light Corporation (hereinafter referred to as "Electric"), a registered holding company under the Act. Electric is in turn a subsidiary company of Electric Bond and Share Company (hereinafter referred to as "Bond and Share"), likewise a registered holding company under the Act.

(2) Utah Company is also a registered holding company having as its subsidiary companies: (a) Traction Company, a corporation organized under the laws of the State of Utah maintaining its principal office in Salt Lake City, State of Utah; and (b) Colorado Company, a corporation organized under the laws of the State of Colorado maintaining its principal office in the City of Montrose, State of Colorado.

(3) Both Traction Company and Colorado Company are electric utility companies within the meaning of section 2 (a) (3) of the Act. Colorado Company engages in the generation, transmission and sale of electricity in the State of Colorado. The electric properties of Traction Company, as well as certain steamheating properties, are leased to and operated by Utah Company. Traction Company is actively engaged in the transportation business in Salt Lake City and its environs.

(4) The lease for the electric properties of Traction Company between Utah Company and Traction Company provides inter alia that the annual rental to be paid by Utah Company to Traction Company shall be (a) $350,000 paid in quarterly installments of $87,500 each, and (b) a sum sufficient to make net earnings of Traction Company, including the $350,000 payable under (a), equal to the interest charges on its outstanding bonds.

(5) The capitalization and surplus per books of Utah Company, Traction Company and Colorado Company at September 30, 1942 were respectively as follows:

	Utah Company	Traction Company	Colorado Company
Long term debt:			
5% first mortgage bonds, due 1944	$28,696,000		
4½% first lien and general mortgage bonds, due 1944	4,078,000

7 Preferred, cumulative, no par		[4] 20,780,219	
Total preferred stock	24,958,787		
Total long term debt and preferred stock	62,732,787	18,405,451	5,384,000
Common stock and surplus:			
Common stock	30,000,000	1,150,875	3,500,000
Earned surplus	5,653,950	(443,839)	(115,193)
Total common stock and surplus	35,653,950	707,036	3,384,807
Total capitalization	98,386,737	19,112,487	8,768,807

[1] Payment of principal and interest guaranteed by Utah Company.
[2] Carried in current liabilities on balance sheet.
[3] Liquidating value $4,192,100. Arrears at September 30, 1942, amounted to $1,172,827.50 or $27.50 per share.
[4] Liquidating value $20,760,500. Arrears at September 30, 1942, amounted to $6,660,660.42 or $33.08½ per share.

(6) The $7 and $6 preferred stocks of Utah Company rank equally as to dividends and liquidation preferences. Each class has a claim in liquidation of $100 per share plus unpaid cumulative dividends. Each share of preferred stock is entitled to one vote, but no special voting rights inure in the event of dividend defaults.

(7) Of the securities of Utah Company outstanding at September 30, 1942, Electric, either in its own name or in the name of nominees, owned 2,100 shares of $7 preferred stock and 3,000,000 shares of no par common stock of a stated value of $30,000,000, each such share being entitled to one vote. The stock held by Electric presently represents 92.39% of the voting rights in Utah. On the above date Bond and Share owned $300,000 face amount of the Utah Company 5% First Mortgage Bonds which were purchased in 1934 in the open market at a cost of $202,791.25.

(8) At September 30, 1942 Utah Company owned all the outstanding securities of Colorado Company and all the common stock of Traction Company except directors' shares. By virtue of such stock ownership Utah has a 99.97% voting control over Colorado Company and a 99.98% voting control over Traction Company.

(9) Certain intra-system transactions concerning the early development of Utah Company, and the origin of Electric's interest in Utah Company were as follows:

(a) In September 1912 Bond and Share organized Utah Securities Corporation (hereinafter referred to as "Securities Corporation"), Utah Company and Utah Power Company (hereinafter referred to as "Power Company"). Throughout its existence Securities Corporation was controlled by Bond and Share through the medium of interlocking officers, directors and employees, and until 1922 through a voting trust of the common stock established in September 1912 which was controlled by Bond and Share. Throughout its existence Power Company was controlled by Bond and Share and was successively a direct subsidiary of Bond and Share, Securities Corporation and Utah Company.

(b) In order to finance Securities Corporation, Bond and Share undertook to obtain subscribers to $27,500,000 principal amount of 10 Year 6% Notes of Securities Corporation. Such notes were to be sold at par with a bonus of an equal par value of common stock of Securities Corporation, to be furnished by Bond and Share as hereinafter set forth in paragraph (e); 30% of the subscription was to be paid upon allotment and the balance upon call. For its services in this connection, Bond and Share received $201,900 in cash from Securities Corporation, and its associates were also compensated for their services in cash.

(c) In September 1912 Bond and Share transferred to Power Company properties costing it approximately $3,000,000 receiving in exchange therefor the following securities of Power Company of a par value or principal amount totaling approximately $8,500,000.

Description:	*Principal amount or par value*
Notes	$2,500,000
Preferred stock	1,000,000
Common stock	5,000,000
Total	8,500,000

(d) In September and October 1912 Bond and Share transferred to Securities Corporation the securities of Power Company which had cost it approximately $3,000,000, as aforesaid, and certain other securities which had cost it approximately $3,950,000, receiving in exchange therefor cash and securities of Securities Corporation approximately totaling $36,950,000 as follows:

Description:	*Principal amount or par value*
Common stock	$30,000,000
(Approximate) cash	6,950,000
Total	36,950,000

(e) The $30,000,000 of common stock of Securities Corporation received by Bond and Share was disposed of approximately as follows:

To purchasers of Securities Corporation Notes as referred to above (other than Bond and Share)	$24,280,000
Retained by Bond and Share as purchaser of $3,220,000 of Securities Corporation Notes	3,220,000
To associates of Bond and Share as additional compensation in connection with distribution of notes of Securities Corporation	1,512,500
Retained by Bond and Share as additional compensation for distribution of notes	987,500
Total	30,000,000

Thus Bond and Share received reimbursement in cash from Securities Corporation for all or approximately all of its cash costs; and in addition held $4,217,500 par value of common stock of Securities Corporation at no cash cost, and received $201,900 in cash as a commission for finding purchasers of Securities Corporation Notes.

(f) Between 1912 and 1925 Securities Corporation and/or Power Company transferred to Utah Company properties and securities which had cost the system approximately $15,500,000 including therein the securities referred to in paragraphs (c) and (d) above, in exchange for cash and securities of Utah Company of approximately $48,184,000 as follows:

Description:	*Principal amount or par value*
Notes	$9,500,000
Preferred stock	6,644,000
Common stock	30,000,000
Cash	2,040,000
Total	48,184,000

Through these transactions and the subsequent disposition of a part of the above securities, Securities Corporation realized cash approximately equivalent to its cost (exclusive of the $30,000,000 of common stock, the issuance of which is described in paragraph (d) above) and had remaining at the time of the transfer of its assets to Electric, as hereinafter described, $30,000,000 of common stock and $2,949,000 of preferred stock of Utah Company.

(g) Upon its organization in March 1925, Electric acquired the assets of Securities Corporation by assuming the liabilities of Securities Corporation and exchanging four shares of its own common stock having a stated value of $25 per share, plus $10 in cash, for each share of Securities Corporation's common stock having a par value of $100 per share. Electric reimbursed itself for substantially all of its cash outlay to the stockholders of Securities Corporation by selling all but $210,000 par value of the preferred stock of Utah Company acquired from Securities Corporation. Bond and Share received from Electric $421,750 in cash and $4,217,500 of stated value common stock of Electric in return for its holding of $4,217,500 par value of common stock of Securities Corporation obtained at no cash cost as set out in paragraph (e) above.

(h) During the years 1925 to 1932 Electric as owner of all of the common stock of Utah Company received dividends thereon aggregating $7,200,000 in addition to regular dividends on the preferred stock of Utah Company which it owned. For the years 1933 to 1940 Utah Company paid only partial or no dividends on its preferred stock held by the public and Electric, resulting in accumulated dividend arrearages of $7,813,488 referred to in paragraph (5) above.

(i) Further profits inured to the system at the expense of Utah Company by (a) the purchase by Securities Corporation of $9,548,127 face amount of notes of Utah Company at a discount of $1,481,000; and (b) profits realized in connection with service, construction and management contracts.

(j) In April 1927 Electric caused Utah Company to change its common stock from $100 par value to no par value and split 10 shares for one, each new share having a stated value of $10 and carrying one vote. The effect of this split was to reduce the voting power of the preferred stock as a class from 42% to 7% and increase that of the common stock from 58% to 93%.

(10) As a result of the above enumerated transactions, and other minor transactions, the property account of Utah Company at September 30, 1942 contained approximately $29,600,000 of write-ups and excess costs, and the investment account of Utah Company contained write-ups of approximately $8,700,000.

(11) At September 30, 1942, the electric plant account of Traction Company contained write-ups and excess costs of approximately $3,600,000 and the plant account of Colorado Company contained approximately $4,300,000 of write-ups.

(12) The capitalization of Traction Company at September 30, 1942 adjusted to reflect the removal of estimated write-ups and excess costs is as follows:

	Amount	Percent of total
Long term debt:		
5% First and Refunding Mortgage Bonds	$11,979,000	77.2
Contractual liability	248,059	1.6
Notes and loans payable to Utah Company	6,178,392	39.8
Total long term debt	18,405,451	118.6
Common stock and surplus:		
Common stock	1,150,875	
Surplus	(4,043,839)	
Total common stock and surplus	(2,892,964)	(18.6)
Total capitalization	15,512,487	100.0

(13) The capitalization of Colorado Company at September 30, 1942 adjusted to reflect the removal of estimated write-ups from the property account is as follows:

	Amount	Percent of total
Long term debt:		
5% First Mortgage Bonds	$3,884,000	86.9
Note payable to Utah Company	1,500,000	33.6
Total long term debt	5,384,000	120.5
Common stock and surplus:		
Common stock	3,500,000	
Earned surplus	(4,415,193)	
Total common stock and surplus	(915,193)	(20.5)
Total capitalization	4,468,807	100.0

(14) The capitalization of Utah Company at September 30, 1942, without adjustment for possible inadequate depreciation but adjusted to reflect (a) the removal of property account write-ups and excess costs referred to in paragraph (10) above, (b) the restatement of its investments in subsidiaries to adjusted underlying book value as reflected in paragraphs (12) and (13) above, and (c) the restatement of preferred stocks to liquidating value, and (d) preferred dividend arrearages, is as follows:

	Amount	Percent of total
Long term debt:		
5% first mortgage bonds	$28,696,000	51.3
4½% first lien and general mortgage bonds	4,078,000	7.3
6% Gold debenture bonds	5,000,000	9.0
Total long term debt	37,774,000	67.6
Preferred stock:		
$6 preferred stock	4,192,100	7.5
$7 preferred stock	20,760,500	37.1
Arrearages	7,313,488	13.0
Total preferred stock and arrearages	32,766,088	58.6
Common stock and surplus:		
Common stock	30,000,000	
Earned surplus	(14,662,223)	
Total common stock and surplus	15,337,777	(26.2)
Total capitalization	55,877,865	100.0

(15) Traction Company accrues on its books for depreciation of only its motor coach and automotive equipment. Abandonments and retirements of other transportation properties are charged to surplus. Accruals for the depreciation of the leased electric properties of Traction Company are reflected on the books of Utah Company.

(16) The depreciation reserve of Colorado Company at September 30, 1942 was $299,237 or 6.7% of total property as adjusted for the write-ups referred to in paragraph (11). The reserve was approximately $1,600,000 less than such reserve would have been had Colorado Company accrued on its books amounts equal to those allowed or claimed for income tax purposes.

(17) The depreciation receive of Utah Company at September 30, 1942 representing accruals on its own electric

properties and those leased from Traction Company was $9,514,297 or 13.9% of electric property accounts as adjusted for the write-ups and excess costs referred to in paragraphs (10) and (11) above. Such reserve is approximately $15,000,000 less than it would have been had Utah Company accrued on its books amounts equal to those allowed or claimed for income tax purposes.

(18) If adjustments be made in the accounts of Utah Company and subsidiaries, on a consolidated basis, to reflect (a) the removal of property account write-ups and excess costs items, (b) the restatement of preferred stock to liquidating value and (c) preferred stock dividend arrearages and additionally to reflect the excess of income tax accruals for depreciation over book accruals for depreciation, the capitalization as of September 30, 1942 would be as follows:

	Amount	Per-cent of total
Long term debt:		
6% First mortgage bonds, due 1944	$28,696,000	52.8
4½% First Lien and General Mortgage Bonds, due 1944	4,078,000	7.5
5% First and refunding mortgage bonds, due 1944	11,979,000	22.1
6% Gold debenture bonds, due 2022	5,000,000	9.2
Contractual liability	248,059	.5
Total long term debt	50,001,059	92.1
Preferred stock:		
$6 Preferred stock	4,192,100	7.7
$7 Preferred stock	20,760,500	38.3
Arrearages	7,813,488	14.4
Total preferred stock and arrearages	32,766,088	60.4
Common stock and surplus:		
Common stock	30,000,000	
Earned surplus	(58,487,801)	
Total common stock and surplus	(28,497,801)	(52.5)
Total capitalization	54,269,346	100.0

(19) The consolidated earnings of Utah Company for the latest five years available were as follows:

(000 omitted)	1937	1938	1939	1940	1941
Gross income	4,641	4,139	4,190	4,770	4,705

(20) The Public Service Commission of the State of Utah has instituted proceedings against Utah Company to determine a just and proper rate base and a fair and reasonable rate of return on such base. These proceedings are presently pending.

It appearing to the Commission in the light of the foregoing that it is appropriate in the public interest and the interest of investors and consumers that proceedings be instituted against Electric, Utah Company, Traction Company and Colorado Company under section 11 (b) (2), 12 (e), 15 (f) and 20 (a) of the Act to determine whether orders should be entered pursuant to the provisions of any of said sections, all as hereafter set forth; and

It further appearing to the Commission that the proceedings referred to in the preceding paragraph are related to and contain common questions of law and fact with the proceedings on the application and declaration heretofore referred to; that evidence offered in respect of each of said proceedings may have a bearing on the other; and that substantial savings in time, effort, and expense will result if said proceedings are consolidated so that they may be heard as one matter and so that evidence adduced in each matter may stand as evidence in the others for all purposes; and

It further appearing to the Commission that evidence bearing on the matters recited above and upon the questions to be determined, is contained in the record of proceedings before this Commission entitled "In the Matter of Electric Bond and Share Company, File No. 59–12":

It is ordered, That proceedings be and the same hereby are instituted under sections 11 (b) (2), 12 (c), 15 (f) and 20 (a) of the Act against Electric, Utah Company, Traction Company and Colorado Company and that such proceedings be consolidated with the proceedings with respect to the application and declaration herein filed and that a hearing on such consolidated proceedings under the applicable provisions of the said Act and the Rules and Regulations of the Commission thereunder be held on the 5th day of April at 10:00 A. M., E.W.T., at the office of the Securities and Exchange Commission, 16th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk will advise as to the room where such hearing will be held.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the consolidated hearing in such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a Trial Examiner under the Commission's Rules of Practice.

It is further ordered, That any person desiring to be heard in connection with these consolidated proceedings or proposing to intervene herein shall file with the Secretary of the Commission on or before the 29th day of March his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to the parties herein, the regulatory Commissions of the States of Utah, Colorado, Wyoming and Idaho and interested municipalities and political subdivisions of such states; and that notice to all persons be given by publication of this order in the FEDERAL REGISTER.

It is further ordered, That without limiting the scope of the issues presented in the said consolidated proceedings particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the first and second mortgage bonds proposed to be issued are (a) reasonably adapted to the security structure of the Utah Company as presently constituted or as it is proposed to be constituted; (b) reasonably adapted to the earning power of the Utah Company and its subsidiaries; (c) necessary or appropriate to the economical and efficient operation of the electric, transportation and steam heating businesses in which Utah Company and its subsidiaries are presently engaged.

(2) Whether the fees, commissions, or other renumerations to be paid in connection with the issue, sale or distribution of the foregoing securities are reasonable.

(3) Whether, in the event that the declaration is permitted to become effective, it is necessary to impose any terms or conditions to assure compliance with the standards of the Act.

(4) Whether and to what extent proceeds from the proposed sale of bonds may be used by Utah Company to redeem securities held by Bond and Share.

(5) Whether the proposed acquisition by Utah Company of the assets and facilities of Colorado Company and Traction Company is in conformity with the provisions and standards of Section 10 of the Act, requiring no adverse findings under section 10 (b) and permitting the findings required under section 10 (c).

(6) Whether the allegations contained in Part II hereof are true and correct.

(7) Whether it is necessary or appropriate pursuant to section 11(b)(2) of the Act that Utah Company, Traction Company and Colorado Company take steps to redistribute voting power fairly and equitably among their respective security holders and whether such steps should include a reorganization of said companies or any of them and the substitution of new securities, in whole or in part, for their presently outstanding debt and equity securities.

(8) What treatment should be accorded to securities of Utah Company held by Bond and Share or Electric in any reorganization of Utah Company or any revision or simplification of its capital structure.

(9) Whether it is necessary pursuant to section 12 (c) to restrict the payment of dividends on any of the outstanding stock of Utah Company.

(10) Whether it is necessary or appropriate to require that Utah Company, Traction Company, and Colorado Company take action pursuant to section 15 (f) of the Act, to segregate, dispose of or otherwise eliminate the write-ups, intangibles and other inflationary items contained in their plant and investment accounts to set up adequate reserves for retirement and depreciation of plant and property and to make such other adjustments in their accounts as may be necessary or appropriate to secure compliance with the standards of the Act.

It is further ordered, In the interest of expeditious procedure that all evidence with respect to Electric, Utah Company, Traction Company and Colorado Company contained in the record of the proceedings entitled "In the Matter of Electric Bond and Share Company et al., File No. 59–12", so far as relevant to the issues above stated, shall be incorporated in the record of the proceedings herein ordered, and shall be regarded as evidence duly adduced in the present proceedings, subject to the same objections and exceptions preserved in the record of the proceeding in which first introduced.

It is further ordered, That the Commission reserves the right, if at any time it appears conducive to an orderly, efficient or economic disposition of any proceeding or proceedings herein, to order a separate hearing concerning any of the issues in the consolidated proceeding, to close the record with respect to any of such issues, or to take action on any such issue, prior to the closing of the record on the other issues thereon.

By the Commission.

The President

EXECUTIVE ORDER 9312

DEFINING THE FOREIGN INFORMATION ACTIVITIES OF THE OFFICE OF WAR INFORMATION

Under and by virtue of the authority vested in me by Title I of the First War Powers Act, 1941, approved December 18, 1941 (Public Law 354—77th Congress), and as Commander in Chief of the Army and Navy and as President of the United States, it is hereby ordered as follows:

1. The Office of War Information will plan, develop, and execute all phases of the federal program of radio, press, publication, and related foreign propaganda activities involving the dissemination of information. The program for foreign propaganda in areas of actual or projected military operations will be coordinated with military plans through the planning agencies of the War and Navy Departments, and shall be subject to the approval of the Joint Chiefs of Staff. Parts of the foreign propaganda program which are to be executed in a theater of military operations will be subject to the control of the theater commander. The authority, functions and duties of the Office of War Information shall not extend to the Western Hemisphere, exclusive of the United States and Canada.

2. The military order of June 13, 1942, establishing the Office of Strategic Services, is hereby modified to the extent necessary to make this order effective.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 4830]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

WISCONSIN DELUXE DOLL & DRESS COMPANY, ETC.

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* In connection with offer, etc., in commerce, of respondent's novelty or other merchandise, (1) selling, etc., blankets, clocks, lamps, kitchen ware, fishing tackle, household goods, or any other merchandise, accompanied by a Bingo set or any similar device to be used, or which may be used, by the purchaser of said merchandise, or others, as a means of disposing of said merchandise by means of a game of chance, gift enterprise or lottery scheme; (2) supplying, etc., others with Bingo sets or similar devices, either with assortments of blankets, clocks, lamps, kitchen ware, fishing tackle, household goods, or any other merchandise, or separately, which said Bingo sets or similar devices are to be used or may be used in selling or distributing said merchandise to the public; and (3) selling, etc., any merchandise by means of a game of chance, gift enterprise or lottery scheme; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Wisconsin DeLuxe Doll & Dress Company, etc., Docket 4830, March 5, 1943].

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of March, A. D. 1943.

In the matter of Wisconsin Deluxe Doll & Dress Company, a corporation trading as Wisconsin Deluxe Corporation.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint and states that it waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Wisconsin Deluxe Doll & Dress Company, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of novelty or other merchandise in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Selling or distributing blankets, blocks, lamps, kitchen ware, fishing tackle, household goods, or any other merchandise, accompanied by a Bingo set or any similar device to be used, or which may be used, by the purchaser of said merchandise, or others, as a means of disposing of said merchandise by means of a game of chance, gift enterprise or lottery scheme.

(2) Supplying to or placing in the hands of others, Bingo sets or similar devices, either with assortments of blankets, clocks, lamps, kitchen ware, fishing tackle, household goods, or any other merchandise, or separately, which said Bingo sets or similar devices are to be used or may be used in selling or distributing said merchandise to the public.

(3) Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That respondent shall within sixty (60) days after service upon it of this order file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON
Secretary.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5240]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

AMENDMENTS RELATING TO CERTAIN FISCAL YEAR TAXPAYERS

In order to conform Regulations 103 [Part 19, Title 26, Code of Federal Regulations, 1940 Sup.] to section 140 of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, such regulations are amended as follows:

There is inserted immediately preceding the heading "Computation of Net Income" which immediately precedes section 111 the following:

SEC. 140. CERTAIN FISCAL YEAR TAXPAYERS. (Revenue Act of 1942, Title I.)

(a) *Computation of tax for year ending in 1942.* The Internal Revenue Code is amended by inserting after section 107 the following new section:

SEC. 108. TAXABLE YEARS BEGINNING IN 1941 AND ENDING AFTER JUNE 30, 1942.

(a) *General rule.* In the case of a taxable year beginning in 1941 and ending after June 30, 1942, the tax imposed by sections 11, 12, 13, 14, and 15 shall be—

(1) *Corporations.* In the case of a corporation an amount equal to the sum of—

(A) that portion of a tentative tax, computed without regard to section 140 of the Revenue Act of 1942, which the number of days in such taxable year before July 1, 1942, bears to the total number of days in such taxable year, plus

(B) that portion of a tentative tax, computed as if the amendments made by section 105 (a) and the amendments made by sections 105 (b) (other than those relating to dividends on the preferred stock of public utilities) (c), (d), and (e) (1) of the Revenue Act of 1942 were applicable to such taxable year, which the number of days in such taxable year after June 30, 1942, bears to the total number of days in such taxable year.

(2) *Taxpayers other than corporations.* In the case of a taxpayer other than a corporation, an amount equal to the sum of—

(A) that portion of a tentative tax, computed without regard to section 140 of the Revenue Act of 1942, which the number of days in such taxable year before July 1, 1942, bears to the total number of days in such taxable year, plus

(B) that portion of a tentative tax, computed as if the amendments made by sections 102 and 103 of the Revenue Act of 1942 were applicable to such taxable year, which the number of days in such taxable year after June 30, 1942, bears to the total number of days in such taxable year.

(b) *Special classes of taxpayers.* This section shall not apply to an insurance company subject to Supplement G, an investment company subject to Supplement Q, or a Western Hemisphere Trade Corporation, as defined in section 109.

(b) *Taxable years to which amendment applicable.* The amendment made by this section shall be applicable to taxable years beginning in 1941 and ending after June 30, 1942.

§ 19.108–1 *Computation of tax for taxable years beginning in 1941 and ending after June 30, 1942.* For a taxable year beginning in 1941 and ending after June 30, 1942, the normal tax imposed under sections 11, 13 and 14 and the surtax imposed under sections 12 and 15 shall be computed as follows:

(a) *Corporations.* In the case of a corporation the normal tax and the surtax shall be the sum of the following:

(1) That portion of a tentative normal tax and a tentative surtax, computed under the law applicable to a taxable year beginning on January 1, 1941, which the number of days in such taxable year before July 1, 1942, bears to the total number of days in such taxable year.

(2) That portion of a tentative normal tax and a tentative surtax computed under the law applicable to a taxable year beginning on January 1, 1941, as if the amendments made by sections 105 (a), relating to normal tax on corporations, 105 (b) (other than those relating to dividends on the preferred stock of public utilities), relating to surtax on corporations, 105 (c), relating to nondeductibility of excess-profits tax, 105 (d), relating to credit for income subject to the tax imposed by Subchapter E of Chapter 2 (the excess-profits tax), and 105 (e) (1), relating to credit for dividends received, of the Revenue Act of 1942 were applicable to such taxable year, which the number of days in such taxable year after June 30, 1942, bears to the total number of days in such taxable year.

(b) *Taxpayers other than corporations.* In the case of a taxpayer other than a corporation the normal tax and the surtax shall be the sum of the following:

(1) That portion of a tentative normal tax and a tentative surtax, computed under the law applicable to a taxable year beginning on January 1, 1941, which the number of days in such taxable year before July 1, 1942, bears to the total number of days in such taxable year.

(2) That portion of a tentative normal tax and a tentative surtax, computed under the law applicable to a taxable year beginning on January 1, 1941, as if the amendments made by section 102, relating to normal tax on individuals, and section 103, relating to surtax on individuals, of the Revenue Act of 1942 were applicable to such taxable year, which the number of days in such taxable year after June 30, 1942, bears to the total number of days in such taxable year.

The provisions of section 108 apply to estates, trusts, and nonresident alien individuals. The provisions of section 108, however, do not apply to individuals who make their returns under Supplement T, or to nonresident alien individuals, not engaged in trade or business within the United States and not having an office or place of business therein, whose aggregate gross income from the sources specified in section 211 (a) (1) (A) is $23,000 or less. The method of computation prescribed by section 108 is likewise not applicable to an insurance company subject to Supplement G prior to amendment by the Revenue Act of 1942, an investment company subject to Supplement Q prior to amendment by the Revenue Act of 1942, or a Western Hemisphere Trade Corporation, as defined in section 109.

The provisions of section 103 apply to a taxable year beginning in 1941 and ending after June 30, 1942, whether or not such taxable year is one of less than twelve months, but they do not apply to a taxable year beginning in 1941 and ending before July 1, 1942, or to a taxable year beginning in 1942. In the case of a taxpayer other than a corporation, who is subject to the provisions of section 108 and who, due to a change in his accounting period, has a taxable year of less than twelve months, the net income shall be placed on an annual basis for the purposes of computing the tentative taxes provided in section 108 (a) (2) (A) and section 108 (a) (2) (B), and both such tentative taxes shall be computed thereon under the provisions of section 47 applicable to a taxable year beginning on January 1, 1941 (see § 19.47–2); however, in the case of a taxpayer other than a corporation, who, due to any reason other than a change in his accounting period, and in the case of a corporation which, due to any reason, has a taxable year of less than twelve months, the net income shall not be placed on an annual basis.

The amendments made by section 150 (c) of the Revenue Act of 1942 to section 117 (c), relating to alternative taxes with respect to capital gains, shall not apply in the computation of the tax for any taxable year subject to the provisions of section 108, but section 117 (c), prior to its amendment by section 150 (c) of the Revenue Act of 1942, shall apply in such computation.

In the case of a corporation subject to the provisions of section 108, dividends received on the preferred stock of a public utility corporation shall be included, for purposes of the computation of each of the two tentative taxes provided in section 108 (a) (1) (A) and section 108 (a) (1) (B), in computing the credit for dividends received provided in section 26 (b). However, in the computation of each such tentative tax there shall not be allowed the credit provided in section 108 (h) for dividends paid on certain preferred stock of certain public utility corporations.

In the case of a corporation whose taxable year begins in 1941 and ends after June 30, 1942, the excess-profits tax, for purposes of the computation of the tentative tax provided in section 108 (a) (1) (A), shall be the tentative tax computed under section 710 (a) (3) (A). Likewise, the credit for income subject to the tax imposed by Subchapter E of Chapter 2 (the excess-profits tax) shall be, for the purposes of the computation of the tentative tax provided in section 108 (a) (1) (B), the adjusted excess-profits net income used in computing the tentative tax provided in section 710 (a) (3) (B), except that in the case of a taxable year of less than twelve months such credit shall be the amount of which the tentative excess-profits tax for such year computed under the provisions of section 710 (a) (3) (B) (without regard to the 80 percent limitation provided in section 710 (a) (1) (B)) is 90 percent, and except that in the case a corporation computing such excess-profits tax under section 721 (relating to abnormalities in income in the taxable period), section 726 (relating to corporations completing

contracts under the Merchant Marine Act of 1936), section 731 (relating to corporations engaged in mining strategic minerals), or section 736 (b) (relating to corporations with income from long-term contracts), such credit shall be the amount of which the tentative tax computed under the provisions of section 710 (a) (3) (B) (without regard to the 80 percent limitation provided in section 710 (a) (1) (B)) is 90 percent.

Inasmuch as the net income for purposes of the second tentative tax provided in section 108 (a) (1) (B) is computed without regard to any deduction for excess-profits tax, all deductions which are limited to a fixed percentage of net income, e. g., charitable contributions (section 23 (q)) and percentage depletion (sections 23 (m) and 114 (b), (3) and (4)), shall be so determined on the basis of a net income computed without regard to any deduction for excess-profits tax.

In the case of a taxpayer other than a corporation subject to section 108, the credits against net income, for purposes of the computation of each of the tentative taxes provided in section 108 (a) (2) (A) and section 108 (a) (2) (B), shall be the same as those applicable to a taxable year beginning on January 1, 1941.

Example. Corporation X is a domestic corporation which makes its income tax returns on a fiscal year basis. For the fiscal year ending November 30, 1942, it has a gross income of $500,000; during such fiscal year it received no dividends on securities of other corporations, nor any interest on any obligations of the United States or of any Government corporation. Its allowable deductions, not including any deduction for excess-profits tax, are $100,000. Its applicable excess-profits credit is $345,000, and no adjustments are to be made under section 711. Its adjusted excess-profits net income for purposes of the computation of the tentative tax provided in section 710 (a) (3) (A) is $50,000, and such tentative excess-profits tax is $19,000. Its adjusted excess-profits net income for purposes of the computation of the tentative excess-profits tax provided in section 710 (a) (3) (B) is likewise $50,000, and such tentative excess-profits tax is $45,000. The normal tax and surtax of Corporation X for the fiscal year ending November 30, 1942, are $88,321.32 and $38,819.29, respectively, computed as follows:

Subchapter B—Estate and Gift Taxes

[T. D. 5239]

PART 81—REGULATIONS RELATING TO ESTATE TAXES

MISCELLANEOUS AMENDMENTS

In order to conform Regulations 105 [Part 81, Title 26, Code of Federal Regulations, 1942 Sup.] to certain sections of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, and to the Joint Resolution of December 17, 1942 (Public Law 809, 77th Congress), such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 81.2 the following:

SEC. 414. SPECIFIC EXEMPTION. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amount of exemption.*—Section 935 (c) (relating to the exemption for the purposes of the additional estate tax) is amended by striking out "$40,000" and inserting in lieu thereof "$60,000".

* * * * *

SEC. 412. EXEMPTION OF ESTATES OF NONRESIDENTS NOT CITIZENS. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Exemption.*—Section 861 (a) (relating to deductions in case of estates of nonresidents not citizens) is amended by inserting at the end thereof the following new paragraph:

(4) *Exemption.*—An exemption of $2,000.

(b) *Technical amendment with respect to property previously taxed.*—For technical amendment with respect to property previously taxed, see section 405 (c) of this Act.

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 2. Section 81.2 is amended as follows:

(A) By striking out the last sentence of the third paragraph and by inserting in lieu thereof the following sentences:

For the purpose of the basic estate tax, a specific exemption of $100,000 is authorized in the case of a resident or citizen of the United States, and a specific exemption of $2,000 is authorized in the case of a nonresident not a citizen of the United States who died after October 21, 1942, the date of the enactment of the Revenue Act of 1942. No specific exemption is authorized in the case of a nonresident not a citizen of the United States who died on or before October 21, 1942.

(B) By striking out the last sentence of the fourth paragraph and by inserting in lieu thereof the following sentences:

For the purpose of the additional tax, in the case of a resident or citizen, a specific exemption of $60,000 is authorized if the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, or $40,000 if the decedent died on or before such date. In the case of a nonresident not a citizen a specific exemption of $2,000 is authorized if the decedent died after October 21, 1942, but no specific exemption is allowed if the decedent died on or before such date.

(C) By striking out the last sentence of the fifth paragraph.

PAR. 3. Section 81.3 is amended to read as follows:

§ 81.3 *Gross estate.* In addition to the general provisions of subsection (a) of section 811 requiring the inclusion in the gross estate of property (except real property situated outside the United States) to the extent of the interest therein of the decedent, other subsections of section 811 more specifically include in the gross estate for the purpose of the estate tax, as more fully explained hereafter in these regulations, certain transfers made during the decedent's life without an adequate and full consideration in money or money's worth, joint estates with right of survivorship, tenancies by the entirety, community property, life insurance even though payable to beneficiaries other than the estate, property over which the decedent possessed a power of appointment, and dower or curtesy of the surviving spouse or statutory estate in lieu thereof.

PAR. 4. Section 81.4 is amended by striking out the last sentence and by inserting in lieu thereof the following sentences:

There is no basis for tax if the value of the gross estate does not exceed the total amount of the authorized deductions, but whether taxable or not, a return must be filed for every estate, unless the value of the gross estate at the date of the decedent's death does not exceed the amount of the applicable specific exemption. For regulations relative to the specific exemption in the case of a resident or citizen see § 81.48, and in the case of a nonresident not a citizen see § 81.55.

PAR. 5. Section 81.6 is amended by changing the second paragraph thereof to read as follows:

If the decedent was a resident or citizen of the United States, a net estate computed with a specific exemption of $100,000 must be determined for the purpose of the basic estate tax, and another net estate computed with a specific exemption of $60,000 in case the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, or $40,000 in case the decedent died on or before October 21, 1942, must be determined for the purpose of the additional estate tax. If the decedent was a nonresident not a citizen of the United States, a net estate computed with a specific exemption of $2,000 must be determined both for the purpose of the basic estate tax and for the purpose of the additional estate tax in case the decedent died after October 21, 1942, but no specific exemption is allowed if such decedent died on or before such date.

PAR. 6. Section 81.7 is amended as follows:

(A) By changing the last sentence of the second paragraph to read as follows:

In the case of a resident or citizen of the United States, the value of the net estate determined for the purpose of the basic tax differs from the value of the net estate determined for the purpose of the additional tax, since for the former a specific exemption of $100,000 is authorized while for the latter the amount of the specific exemption is $60,000 if the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, or $40,000 if the decedent died on or before such date.

(B) By inserting at the end of the first paragraph of *Example* (3) the following sentence:

(In the case of a decedent who died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, the credit for gift tax paid should be subtracted from the gross basic tax after the subtraction of credit for State inheritance taxes, instead of before, as set forth in this example. See § 81.9.)

PAR. 7. There is inserted immediately preceding § 81.8 the following:

SEC. 410. PRIORITY OF CREDIT FOR LOCAL DEATH TAXES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amendment to credit for 1924 gift tax.* Section 813 (a) (1) (relating to credit for estate tax of gift tax paid under 1924 Act) is amended by inserting after "subchapter" where it occurs the second time the following: "(after deducting from such tax the credit provided by section 813 (b))".

(b) *Amendment to credit for 1932 and Chapter 4 gift tax.* Section 813 (a) (2) (A) (relating to credit for estate tax of gift tax paid under 1932 Act or Chapter 4) is amended by inserting after "860" where it occurs the second time the following: "(after deducting from such tax the credits provided by section 813 (a) (1) and (b))".

(c) *80 per centum limit on local death tax computed before allowance of gift tax credit.* Section 813 (b) (relating to credit for local estate, succession, legacy, and inheritance taxes) is amended by striking out "(after deducting from such tax the credits provided by section 813 (a) (2))" and inserting in lieu thereof "(before deducting from such tax the credits provided by section 813 (a) (1) and (2))".

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 8. Section 81.8 is amended as follows:

(A) By inserting "(1)" immediately after "(a) *Credit against the basic tax imposed by section 810 or section 860.*—"

(B) By inserting immediately after "gross basic tax" in the first sentence of "(a)", the following: "(reduced, in the case of estates of decedents dying after October 21, 1942, by credits, as provided in the next paragraph)".

(C) By inserting immediately after the last sentence of "(a)", the following paragraph:

(2) With respect to estates of decedents dying on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, the credit for gift tax authorized under section 813 (a) (1) is to be deducted first and then the credit authorized under section 813 (a) (2) is to be deducted, with both credits for gift taxes to be deducted from the basic tax *before* deducting the credit for estate, inheritance, legacy or succession taxes. With respect to the estates of decedents dying after the date of enactment of the Revenue Act of 1942, the credit for estate, inheritance, legacy or succession taxes is to be deducted first and then the credits under section 813 (a) (1) and section 813 (a) (2) are to be deducted in that order.

(D) By striking out "subsequent to the effective date of the gift tax imposed by chapter 4 of the Internal Revenue Code" in the second sentence of the paragraph following the paragraph designated (b), and by inserting in lieu thereof "in 1941".

PAR. 9. Section 81.9 is amended by changing the third sentence of the first paragraph to read as follows:

The credit is limited to 80 percent of such Federal estate tax, after deduction of the credits allowed, if any, against such tax for Federal gift taxes paid in case the decedent died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, and to 80 percent of such Federal estate tax before deduction of the credits allowed for gift tax paid in case the decedent died after October 21, 1942.

PAR. 10. There is inserted immediately after section 802 of the Internal Revenue Code, and preceding section 302 (c) of the Revenue Act of 1926 (as originally enacted), which precede § 81.15, the following:

SEC. 402. COMMUNITY INTERESTS. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Transfers of community property in contemplation of death, etc.* Section 811 (d) (relating to revocable transfers) is amended by adding at the end thereof the following new paragraph:

(5) *Transfers of community property in contemplation of death, etc.* For the purposes of this subsection and subsection (c), a transfer of property held as community property by the decedent and surviving spouse under the law of any State, Territory, or possession of the United States, or any foreign country, shall be considered to have been made by the decedent, except such part thereof as may be shown to have been received as compensation for personal services actually rendered by the surviving spouse or derived originally from such compensation or from separate property of the surviving spouse.

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 11. Section 81.15 is amended by inserting immediately after the first paragraph thereof the following paragraph:

In the case of estates of decedents dying after October 21, 1942, a transfer to a third party or third parties of property held as community property by the decedent and spouse under the law of any State, Territory, or possession of the United States, or any foreign country, shall be considered, in accordance with section 811 (d) (5), as added by section 402 (a) of the Revenue Act of 1942, for the purposes of this section and §§ 81.16 through 81.21, inclusive, to have been

made by the decedent, except such part thereof as may be shown to have been received as compensation for personal services actually rendered by the spouse or derived originally from such compensation or from separate property of the spouse. The same statutory provisions apply in the case of a division of such community property between the decedent and spouse into separate property, and in the case of a transfer of any part of the community property into separate property of such spouse; in such cases, the value of the property which becomes the separate property of such spouse, with the exception stated in the preceding sentence, shall be included in the gross estate of the decedent under section 811 (c) or section 811 (d), if the other conditions of taxability under such sections exist. If in the case of a decedent who died after October 21, 1942, property held as community property by such decedent and his spouse is transferred to themselves as joint tenants or as tenants by the entirety, the transfer is taxable under section 811 (c), except with respect to such part of the property so transferred as is attributable to the spouse under the exception stated in the first sentence of this paragraph. With respect to the meaning of property derived originally from such compensation or from separate property of the spouse and to the identification required, see § 81.23.

PAR. 12. There is inserted immediately preceding § 81.22 the following:

SEC. 402. COMMUNITY INTERESTS. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(b) *General rule.* Section 811 (e) (relating to joint interests) is amended as follows:

(1) By striking out "(e) *Joint interests.*—" and inserting in lieu thereof "(e) *Joint and community interests.*—(1) Joint interests.—".

(2) By inserting at the end thereof the following new paragraph:

(2) *Community interests.* To the extent of the interest therein held as community property by the decedent and surviving spouse under the law of any State, Territory, or possession of the United States, or any foreign country, except such part thereof as may be shown to have been received as compensation for personal services actually rendered by the surviving spouse or derived originally from such compensation or from separate property of the surviving spouse. In no case shall such interest included in the gross estate of the decedent be less than the value of such part of the community property as was subject to the decedent's power of testamentary disposition.

(c) *Cross reference.* For treatment of life insurance acquired with community property, see amendment to section 811 (g) made by section 404 of this Act.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 13. Section 81.22 is amended by inserting at the end thereof those paragraphs of § 81.23 (prior to its amendment by paragraph 14 of this Treasury decision) which follow the heading "*Taxable portion.*—", and the following paragraph:

For the purpose of determining the taxable portion to be included in accordance with the above rules in the gross estate of a decedent who died after October 21, 1942, where the joint tenancy or tenancy by the entirety was created by the transfer of property held as community property by such decedent and his spouse, such decedent is considered as the original owner of all of the community property so transferred, except such part thereof as may be shown to have been received as compensation for personal services rendered by his spouse or derived originally from such compensation or from such separate property of such spouse. Thus, if in the case of a decedent who died after October 21, 1942, property held as community property by such decedent and his spouse was transferred to themselves as joint tenants or as tenants by the entirety, the entire value of such property at the time of the decedent's death is includible in his gross estate, with the exception stated in the preceding sentence. With respect to the meaning of property derived originally from such compensation or from separate property of the spouse and to the identification required, see § 81.23.

PAR. 14. Section 81.23 is amended to read as follows:

§ 81.23 *Community property.* In the case of estates of decedents dying after October 21, 1942, the gross estate includes the entire community property held by the decedent and surviving spouse under the law of any State, Territory, or possession of the United States, or any foreign country, except such part thereof as may be shown to have been received as compensation for personal services actually rendered by the spouse or derived originally from such compensation or from separate property of the spouse. Section 811 (e) (2) also provides that in no case shall such interest included in the gross estate of the decedent be less than the value of such part of the community property as was subject to the decedent's power of testamentary disposition.

Property derived originally from compensation for personal services actually rendered by the spouse or from separate property of the spouse includes property that may be identified as (1) income yielded by property received as such compensation or by such separate property, and (2) property clearly traceable (by reason of acquisition in exchange, or other derivation) to property received as such compensation, to such separate property, or to such income. The rule established by this statute for apportioning the respective contributions of the spouses is applicable regardless of varying local rules of apportionment, and State presumptions are not operative against the Commissioner. The burden of identifying the property which may be excluded from the community interest rests upon the executor.

As to the inclusion of transfers of community property during life, see § 81.15, and for treatment of life insurance acquired with community property, see §§ 81.25 and 81.27.

PAR. 15. There is inserted immediately after section 802 of the Internal Revenue Code and preceding section 302 (f) of the Revenue Act of 1926 (as originally enacted), as set forth preceding § 81.24, the following:

SEC. 403. POWERS OF APPOINTMENT. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *General rule.* Section 811 (f) (relating to powers of appointment) is amended to read as follows:

(f) *Powers of appointment.*

(1) *In general.* To the extent of any property (A) with respect to which the decedent has at the time of his death a power of appointment, or (B) with respect to which he has at any time exercised or released a power of appointment in contemplation of death, or (C) with respect to which he has at any time exercised or released a power of appointment by a disposition intended to take effect in possession or enjoyment at or after his death, or by a disposition under which he has retained for his life or any period not ascertainable without reference to his death or for any period which does not in fact end before his death (i) the possession or enjoyment of, or the right to the income from, the property, or (ii) the right, either alone or in conjunction with any person, to designate the persons who shall possess or enjoy the property or the income therefrom; except in case of a bona fide sale for an adequate and full consideration in money or money's worth.

(2) *Definition of power of appointment.* For the purposes of this subsection the term "power of appointment" means any power to appoint exercisable by the decedent, either alone or in conjunction with any person, except

(A) a power to appoint within a class which does not include any others than the spouse of the decedent, spouse of the creator of the power, descendants of the decedent or his spouse, descendants (other than the decedent) of the creater of the power or his spouse, spouses of such descendants, donees described in section 812 (d), and donees described in section 861 (a) (3). As used in this subparagraph, the term "descendant" includes adopted and illegitimate descendants, and the term "spouse" includes former spouse; and

(B) a power to appoint within a restricted class if the decedent did not receive any beneficial interest, vested or contingent, in the property from the creator of the power or thereafter acquire any such interest, and if the power is not exercisable to any extent for the benefit of the decedent, his estate, his creditors, or the creditors of his estate.

If a power to appoint is exercised by creating another power to appoint, such first power shall not be considered excepted under subparagraph (A) or (B) from the definition of power of appointment to the extent of the value of the property subject to such second power to appoint. For the purposes of the preceding sentence the value of the property subject to such second power to appoint shall be its value unreduced by any precedent or subsequent interest not subject to such power to appoint.

(3) *Date of existence of power.* For the purposes of this subsection the power of appointment shall be considered to exist on the date of the decedent's death even though the exercise of the power is subject to a precedent giving of notice or even though the exercise of the power takes effect only on the expiration of a stated period after its exercise, whether or not on or before the date of the decedent's death notice has been given or the power has been exercised.

* * * * *

(d) *Powers with respect to which amendments not applicable.* (1) The amendments made by this section shall not apply with respect to a power to appoint, created on or before the date of the enactment of this Act, which is other than a power exercisable in favor of the decedent, his estate, his creditors, or the creditors of his estate, unless such power is exercised after the date of the enactment of this Act.

(2) The amendments made by this section shall not become applicable with respect to a power to appoint created on or before the date of enactment of this Act, which is exercisable in favor of the decedent, his estate, his creditors, or the creditors of his estate, if at such date the donee of such power is under a legal disability to release such power, until six months after the termination of such legal disability. For the purposes of the preceding sentence, an individual in the military or naval forces of the United States shall, until the termination of the present war, be considered under a legal disability to release a power to appoint.

(3) The amendments made by this section shall not apply with respect to any power to appoint created on or before the date of the enactment of this Act if it is released before January 1, 1943, or within the time limited by paragraph (2) in cases to which such paragraph is applicable; or if the decedent dies before January 1, 1943, or within the time limited by paragraph (2) in cases to which such paragraph is applicable, and such power is not exercised.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

JOINT RESOLUTION. (Public Law 809, 77th Congress, enacted December 17, 1942.)

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That section 403 (d) (3) of the Revenue Act of 1942 is amended by striking out "January 1, 1943" wherever it appears and inserting in lieu thereof "July 1, 1943" * * *.

PAR. 16. Section 81.24 is amended as follows:

(A) By striking out the heading "*Property passing under general power of appointment*" and by inserting in lieu thereof "*Property subject to power of appointment by decedent*".

(B) By inserting immediately before the first sentence thereof, the following:

(a) *Estates of decedents dying on or before October 21, 1942.* The regulations prescribed under this paragraph are applicable only with respect to estates of decedents who died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942.

(C) By striking from the second sentence of the second paragraph "or his creditors" and by inserting in lieu thereof "his creditors, or the creditors of his estate."

(D) By inserting immediately after the second sentence of the second paragraph thereof, the following sentence:

A power of appointment exercisable to meet the estate tax, and any other taxes, debts, or charges which are enforceable against the estate is included within the meaning of a power of appointment exercisable in favor of the decedent's estate or the creditors of his estate.

(E) By inserting at the end thereof, the following:

(b) *Estates of decedents dying after October 21, 1942.* The regulations prescribed under this subsection are applicable only with respect to estates of decedents who died after October 21, 1942, the date of enactment of the Revenue Act of 1942.

(1) *In general.* With the exceptions stated under (2) and (3) hereunder, section 811 (f) of the Internal Revenue Code, as amended by section 403 of the Revenue Act of 1942, requires the inclusion in the gross estate of a decedent who died after October 21, 1942, of the value of all property with respect to which he has at the time of his death any power of appointment exercisable by him, including any power exercisable by him in conjunction with any person. The value of such property is includible in the gross estate whether or not the power is exercised. The statute also requires, except as stated hereunder and except in case of a bona fide sale for an adequate and full consideration in money or money's worth, the inclusion in the gross estate of property with respect to which the decedent has, either alone or in conjunction with any person, at any time exercised or released any such power (i) in contemplation of death, (ii) with the intention that the disposition shall take effect in possession or enjoyment at or after his death, (iii) with the retention or reservation by the decedent for his life or any period not ascertainable without reference to his death or for any period which does not in fact and before his death (A) of the use, possession, right to the income, or other enjoyment of the property or (B) of the right, either alone or in conjunction with any person, to designate the person or persons who shall possess or enjoy the property or the income therefrom. For example, if a decedent who has a life estate in property with power to appoint the remainder, releases such power during his lifetime and after June 30, 1943, the value of such property is includible in his gross estate. Similarly, if such decedent had, instead, exercised the power at any time by appointing the remainder to his wife if she survives him, otherwise to his estate, the value of such property is includible in his gross estate.

The term "power of appointment" includes all powers which are in substance and effect powers of appointment regardless of the nomenclature used in creating the power and local property law connotations. For example, if a settlor transfers property in trust for the life of his wife, with a power in the wife to appropriate or consume the principal of the trust, the wife has a power of appointment. Another example is a case in which A transfers property in trust for the life of his son B, directing that the income be paid to B and that B shall have a power exercisable at any time to alter, amend, revoke, or terminate the trust in any respect but only with the consent of the trustee. Upon the death of B, the entire value of the property is includible in B's gross estate. Assuming that the trustee is a disinterested third party not receiving any beneficial interest upon such transfer, the value of the property is not includible in his personal estate if he should predecease B. Similarly, if property is transferred in trust by a grantor reserving the power to alter, amend, revoke or terminate the trust with the consent of the trustee who is a disinterested party not receiving any beneficial interest upon the transfer, the value of the property is not includible in such trustee's personal estate if he should predecease the grantor. Ordinarily, powers of management with respect to property in trust, such as the determination of whether distributions shall be annually or quarterly, the making of investments and reinvestments, or the determination of items of income and principal under recognized rules of accounting, are not powers of appointment over property under section 811 (f).

Section 811 (f) applies also to powers to appoint, exercisable only during the decedent's lifetime and terminable at his death. A power of appointment shall be considered to exist on the date of the decedent's death where the time for the exercise of the power is determined by the date of his death. It shall be considered to exist on the date of the decedent's death even though its exercise is subject to a precedent giving of notice or even though the exercise takes effect only on the expiration of a stated period after its exercise, whether or not on or before the date of the decedent's death notice has been given or the power has been exercised.

A release of a power of appointment need not be express or formal in character. For example, the failure to exercise a power of appointment within a specified time, resulting in the termination of the power, is taxable if the other conditions of taxability prescribed in section 811 (f) are present. A power to appoint is exercised where the property subject thereto is appointed to the taker in default of appointment, regardless of whether or not the appointed interest and the interest in default of appointment are identical, and regardless of whether or not the appointee renounces any right to take under the appointment.

(2) *Powers to appoint excepted from general provisions.* Section 811 (f) (2) excepts from the general provisions of section 811 (f) (1) two classes of powers to appoint which the decedent either had at the time of his death or had exercised or released during his life. The decedent has an excepted power if the power to appoint is not exercisable to any extent for the benefit of the decedent, his estate, his creditors, or the creditors of his estate and if it is exercisable in favor of only one or more other persons or objects (i) within a class which does not include any others than the spouse of the decedent, spouse of the creator of the power, descendants of the decedent or his spouse, descendants of the creater of the power or his spouse, spouses of such descendants, and charitable, etc., organizations described in sections 812 (d) and 861 (a) (3), or (ii) within a restricted class if the decedent did not receive any beneficial interest, vested or contingent, in the property

from the creator of the power or thereafter acquire any such interest.

With respect to the power referred to in the preceding paragraph under (i), the term "descendant" includes adopted and illegitimate descendants, and the term "spouse" includes former spouse. The treatment of adopted and illegitimate descendants as descendants within the terms of such excepted power is intended to include adopted and illegitimate children (and their descendants and their adopted and illegitimate children) as descendants, if such children would be descendants had they been born as legitimate children in the station to which they are adopted or born.

A power to appoint within a restricted class applies to a power possessed by a disinterested trustee or one occupying a similar status to appoint within a relatively small class. For example, a power to appoint to a class composed of A's children would be a power to appoint within a restricted class, but a power to appoint to anyone except A and his family would not be a power confined to a restricted class. The restricted character of a class is not affected by the fact that the decedent has power to appoint to any number of appointees (charitable, etc., organizations) described in sections 812 (d) and 861 (a) (3). A power to appoint is not confined to a restricted class merely because it is not exercisable in favor of the decedent, his estate, his creditors, or the creditors of his estate, or all of them.

If a power to appoint is exercised by creating another power to appoint, to the extent of the value of the property subject to such second power to appoint, the property subject to such first power shall not be considered excepted or excluded from inclusion in the gross estate. For this purpose, the statute prescribes that the value of the property subject to such second power to appoint shall be its value, unreduced by any precedent or subsequent interest not subject to such power to appoint. Thus, if the decedent has a power to appoint a fund of $100,000 within a class consisting only of his children (which is one of the excepted powers) and by his will exercises such power by giving one child a power to appoint $25,000 of such fund and by making an outright appointment of $75,000, only $25,000 is includible in the decedent's gross estate. If, however, the decedent had appointed the income from the entire fund to such child for life with power in such child to appoint the remainder in his will, the whole $100,000 would be included in the decedent's gross estate. Under section 811 (f) (2), this provision is applicable whether or not the newly created power to appoint falls within either of the two excepted classes of powers.

(3) *Exceptions applicable to powers of appointment created on or before October 21, 1942.* The amendments made by section 403 of the Revenue Act of 1942 (as amended by the Joint Resolution of December 17, 1942) are applicable with respect to powers of appointment created on or before October 21, 1942, the date of enactment of such Revenue Act, except in the case of the following:

(i) The release, or possession at death without exercise, of a power of appointment which is other than a power exercisable in favor of the decedent, his estate, his creditors, or the creditors of his estate. This exception does not apply if such power is exercised after October 21, 1942 (see (2) of this section).

(ii) The release, or possession at death without exercise, of a power of appointment which is exercisable in favor of the decedent, his estate, his creditors, or the creditors of his estate, if on October 21, 1942 the decedent was under a legal disability to release such power and if the release thereof is effected, or the decedent dies, prior to the day after the expiration of six months immediately following the termination of such legal disability.

(iii) The release, or possession at death without exercise, of any such power of appointment if such release is effected, or the decedent dies, before July 1, 1943. It is presumed that all general powers of appointment are releasable, unless the local law on the subject is to the contrary; and it is presumed that the method employed to release the power is effective, unless it is not in accordance with the local law on the subject (or, in the absence of such local law, is not in accordance with the local law relating to similar transactions). The legal disability referred to is determined under local law and may include the disability of an insane person, a minor, or an unborn child. The fact that a power of appointment of the type possessed by the decedent actually was not generally releasable under the local law does not place the decedent under a legal disability within the meaning of section 403 (d) (2) of the Revenue Act of 1942. Until the termination of the present war, an individual in active service in the military or naval forces of the United States on October 21, 1942, shall be considered under a legal disability to release a power to appoint while such individual is in such service.

In the case of a power created on or before October 21, 1942 which was not exercised prior to July 1, 1943, such power will be considered an excepted power under section 811 (f) (2) (A) or (B) if on July 1, 1943 or, in the case of a decedent dying prior to July 1, 1943, if at the date of the decedent's death, the requirements of section 811 (f) (2) (A) or (B) are satisfied. If in such case, however, the decedent was under a legal disability on October 21, 1942, as described in the preceding paragraph, the day after the expiration of six months immediately following the termination of such legal disability shall, if such date is later than July 1, 1943, be substituted for "July 1, 1943" in applying the rule stated in the preceding sentence. For the purpose of determining whether a power created on or before October 21, 1942, satisfies the requirements of section 811 (f) (2) (B) on July 1, 1943 (or other applicable date determined under the preceding two sentences), the fact as to whether the decedent received any beneficial interest in the property is to be ascertained without regard to the power to appoint which the decedent received.

The fact that a power is exercised or released only in part, so that at some time the power could be exercised only in favor of donees described in section 811 (f) (2) (A) or (B), does not preclude the value of the property subject to the power from being included in the decedent's gross estate under section 811 (f) (1) if such power was not a power described in section 811 (f) (2) (A) or (B) on the following applicable date:

(A) The date of creation of the power, in the case of a power created after October 21, 1942;

(B) July 1, 1943, in the case of a power created on or before October 21, 1942, except where on October 21, 1942 the decedent was under a legal disability heretofore described and the day after the expiration of six months immediately following the termination of the period of legal disability is later than July 1, 1943; or

(C) The day after the expiration of six months immediately following the termination of the period of legal disability heretofore described if such day is later than July 1, 1943, in the case of a power created on or before October 21, 1942, where on October 21, 1942 the decedent was under such legal disability.

For example, if a decedent who has a general power of appointment reduces such power after June 30, 1943 (or on or after the day specified in (C) of this paragraph in a case described in (C) to a power to appoint within one of the excepted classes described in section 811 (f) (2) (A) or (B), the value of the property subject to the power is includible in his gross estate under section 811 (f) (1) (B) or (C).

(4) *Instruments to be filed with return.* Duplicate copies of the instrument granting the power and, if the power was exercised or released by an instrument, such instrument, one of each to be certified or verified, must be filed with Form 706 in all cases, unless the decedent was a nonresident, in which case only one copy of each instrument, certified or verified, is required. The copies must be filed even though it is contended that the power was an excepted one under section 811 (f) (2) (A) or (B) and the property is not returned for tax.

PAR. 17. There is inserted immediately preceding § 81.25 the following:

SEC. 404. PROCEEDS OF LIFE INSURANCE (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *General rule.* Section 811 (g) (relating to life insurance) is amended to read as follows:

(g) *Proceeds of life insurance.*—

(1) *Receivable by the executor.*—To the extent of the amount receivable by the executor as insurance under policies upon the life of the decedent.

(2) *Receivable by other beneficiaries.* To the extent of the amount receivable by all other beneficiaries as insurance under policies upon the life of the decedent (A) purchased with premiums, or other consideration, paid directly or indirectly by the decedent, in proportion that the amount so paid by the decedent bears to the total premiums paid for the insurance, or (B) with respect to which the decedent possessed at his death any of the incidents of ownership, exercisable either alone or in conjunction with any other person. For the purposes of clause (A) of this paragraph, if the decedent transferred, by assignment or otherwise, a policy of insurance, the amount paid directly or indirectly by the decedent shall be reduced by an amount which bears the same ratio to the amount paid directly or indirectly by the decedent as the consideration in money or money's worth received by the decedent for the transfer bears to the value of the policy at the time of the transfer. For the purposes of clause (B) of this paragraph, the term "incident of ownership" does not include a reversionary interest.

(3) *Transfer not a gift.* The amount receivable under a policy of insurance transferred, by assignment or otherwise, by the decedent shall not be includible under paragraph (2) (A) if the transfer did not constitute a gift, in whole or in part, under Chapter 4, or, in case the transfer was made at a time when Chapter 4 was not in effect, would not have constituted a gift, in whole or in part, under such chapter had it been in effect at such time.

(4) *Community property.* For the purposes of this subsection, premiums or other consideration paid with property held as community property by the insured and surviving spouse under the law of any State, Territory, or possession of the United States, or any foreign country, shall be considered to have been paid by the insured, except such part thereof as may be shown to have been received as compensation for personal services actually rendered by the surviving spouse or derived originally from such compensation or from separate property of the surviving spouse; and the term "incidents of ownership" includes incidents of ownership possessed by the decedent at his death as manager of the community.

* * * * *

(c) *Decedents to which amendments applicable.* The amendments made by subsection (a) shall be applicable only to estates of decedents dying after the date of the enactment of this Act; but in determining the proportion of the premiums or other consideration paid directly or indirectly by the decedent (but not the total premiums paid) the amount so paid by the decedent on or before January 10, 1941, shall be excluded if at no time after such date the decedent possessed an incident of ownership in the policy.

PAR. 18. Section 81.25 is amended to read as follows:

§ 81.25 *Life insurance.* Section 811 (g) provides for the inclusion in the gross estate of insurance on the decedent's life (a) receivable by or for the benefit of the estate (for which see § 81.26), and (b) receivable by other beneficiaries (for which see § 81.27).

The term "insurance" refers to life insurance of every description, including death benefits paid by fraternal beneficial societies operating under the lodge system.

Life insurance not includible in the gross estate under the provisions of paragraph (g) of section 811 and §§ 81.26, 81.27, or this section may, depending upon the facts of the particular case, be includible under some other paragraph of section 811 and the sections of these regulations pertaining thereto. Thus in the case of insurance upon his own life which the decedent fully paid up prior to January 10, 1941, the date of Treasury Decision 5032, and which he gratuitously transferred prior to such date in contemplation of death, the insurance proceeds are includible in his gross estate under section 811 (c). Similarly, in the case of a decedent who never paid any premiums upon an insurance policy upon his life but possessed incidents of ownership therein (other than a reversionary interest), if he gratuitously transferred all rights in such policy in contemplation of death or gratuitously made a transfer of such rights reserving a reversionary interest whereby the proceeds are made payable to his estate if the transferees (or beneficiaries) do not survive him, the proceeds are includible in his gross estate under section 811 (c).

PAR. 19. Section 81.27 is amended to read as follows:

§ 81.27 *Insurance receivable by other beneficiaries.*—(a) *In case of decedent dying after October 21, 1942.* The regulations prescribed under this paragraph (except as otherwise indicated herein or in paragraph (b) of this section) are applicable only in the case of decedents who died after October 21, 1942, the date of the enactment of the Revenue Act of 1942. In such cases, the amount of the aggregate proceeds of all insurance on the life of the decedent not receivable by or for the benefit of his estate must also be included in his gross estate, as follows:

(1) Such insurance (not includible under (2) of this paragraph) purchased with premiums, or other consideration, paid directly or indirectly by the decedent, in the proportion that the amount so paid by the decedent bears to the total premiums paid for the insurance, and

(2) Such insurance with respect to which the decedent possessed at his death any of the incidents of ownership, exercisable either alone or in conjunction with any person.

The purchase of insurance upon the life of the decedent is attributed to the decedent even though the premiums, or other consideration, are paid only indirectly by the decedent. As thus used, the phrase "paid indirectly by the decedent" is intended to be broad in scope. For example, if the decedent transfers funds to his wife so that she may purchase insurance on his life, and she purchases such insurance, the payments are considered to have been made by the decedent even though they are not directly traceable to the precise funds transferred by the decedent. A decedent similarly pays the premiums or other consideration if payment is made by a corporation which is his alter ego or by a trust whose income is taxable to him, as, for example, a funded insurance trust. A payment is also made by the decedent if the decedent's employer makes the payment as compensation for services.

For the purposes of this paragraph, premiums or other consideration paid with property held as community property by the insured and spouse under the law of any State, Territory, or possession of the United States, or any foreign country, shall be considered to have been paid by the insured, except such part thereof as may be shown to have been received as compensation for personal services actually rendered by the decedent's spouse or derived originally from such compensation or from separate property of such spouse. With respect to the meaning of property derived originally from such compensation or from separate property of the decedent's spouse, referred to in the preceding sentence, and to the identification required, see § 81.23.

The amount receivable under a policy of insurance transferred, by assignment or otherwise, by the decedent shall be includible under (1) of this paragraph if the transfer constituted a gift to any extent under chapter 4 of the Internal Revenue Code, or, in case the transfer was made at a time when such chapter was not in effect, would have constituted a gift to any extent under such chapter had it been in effect at such time. The determination of whether a transfer constitutes (or would have constituted) a gift to any extent under chapter 4 is to be made with respect to the concept of gifts under chapter 4 and not with respect to the taxability of a particular transfer as a gift under chapter 4 by reason of the amount of any exclusion or specific exemption allowed under such chapter. Thus, if the decedent transferred a policy to his creditors in consideration of the discharge of his obligations, and there was no element of donative intent in the transfer, no part of the proceeds would be includible in the gross estate. If the transfer conforms to any extent to the concept of a gift under chapter 4, the formula stated in the next paragraph for determining the portion of the proceeds includible in the gross estate is applicable.

For the purpose of determining the portion of the insurance purchased by the decedent where the decedent transferred, by assignment or otherwise, a policy of insurance, the amount paid directly or indirectly by the decedent shall be reduced by an amount which bears the same ratio to the amount paid directly or indirectly by the decedent before such transfer as the consideration in money or money's worth received by the decedent for the transfer bears to the value of the policy at the time of the transfer. For example, assume the decedent purchased for a single premium of $600 an insurance policy paying $1,200 upon his death. If at a time when the replacement cost of the same or a similar policy is $900, the decedent gives such policy to his wife for a partial consideration of $600, the $600 premium originally paid by the decedent would be reduced by an amount which bears the same ratio to $600 (the amount paid by the decedent) as $600 (the consideration paid by the wife) bears to $900, or by $400. Therefore, the decedent will be considered to have paid $200 in premiums and 200/600 of the $1,200 proceeds, or $400, will be included in his gross estate.

For the purposes of (1) of this paragraph, in determining the proportion of the premiums or other consideration paid directly or indirectly by the decedent (but not the total premiums paid) the amount so paid by the decedent on or before January 10, 1941, shall be ex-

cluded if at no time after such date the decedent possessed an incident of ownership in the policy. For the purpose of the preceding sentence a reversionary interest is an incident of ownership. For a description of this and other incidents of ownership, see the following paragraph and paragraph (b) of this section.

For the purposes of this section, the term "incidents of ownership" is not confined to ownership in the technical legal sense. For example, a power to change the beneficiary reserved to a corporation of which the decedent is sole stockholder is an incident of ownership in the decedent. For the purposes of this subsection, the term "incidents of ownership" includes the incidents of ownership described in paragraph (b) (except as provided in the next sentence) and, in addition, includes incidents of ownership possessed by the decedent as manager of the community where the insurance policy is property held as community property by the decedent and spouse. Section 811 (g) (2), as added by the Revenue Act of 1942, expressly provides that for the purposes of section 811 (g) (2) (B), (see (2) of this paragraph) but not for the purposes of section 811 (g) (2) (A), (see (1) of this paragraph), the term "incidents of ownership" does not include a reversionary interest. However, an assignment of an insurance policy by a decedent possessing other incidents of ownership therein under which he reserves a reversionary interest may result in the proceeds of the policy being includible in his gross estate under section 811 (c). See § 81.25.

(b) *In case of decedent dying on or before October 21, 1942.* The regulations prescribed under this paragraph (except as otherwise indicated herein or in paragraph (a) of this section) are applicable only in the case of decedents who died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942. In such cases, the amount in excess of $40,000 of the aggregate proceeds of all insurance on the decedent's life not receivable by or for the benefit of his estate must be included in his gross estate, as follows:

(1) To the extent to which such insurance was taken out by the decedent upon his own life (see next paragraph) after January 10, 1941, the date of Treasury Decision 5032, and

(2) To the extent to which such insurance was taken out by the decedent upon his own life (see next paragraph) on or before January 10, 1941, and with respect to which the decedent possessed any of the incidents of ownership at any time after such date, or, in the case of a decedent dying on or before such date, at the time of his death.

If the decedent died on or before October 21, 1942, insurance receivable by beneficiaries other than the estate is includible under the provisions of section 811 (g) only to the extent that it was taken out by the decedent upon his own life. Such insurance is considered to have been taken out by the decedent where he paid, either directly or indirectly, all the premiums or other consideration wherewith the insurance was acquired, whether or not he made the application for such insurance. Such insurance is not considered to have been so taken out, even though the application was made by the decedent, if no part of the premiums or other consideration was paid either directly or indirectly by him. Where a portion of the premiums or other consideration was actually paid by another and the remaining portion by the decedent, either directly or indirectly, such insurance is considered to have been taken out by the latter in the proportion that the payments therefor made by him bear to the total amount paid for the insurance. For examples of indirect payments by the decedent, see paragraph (a), and, for computation of the proportion referred to in the preceding sentence, see paragraph (a) and the example at the end of this paragraph.

Incidents of ownership in the policy include, for example, the right of the insured or his estate to its economic benefits, the power to change the beneficiary, to surrender or cancel the policy, to assign it, to revoke an assignment, to pledge it for a loan, or to obtain from the insurer a loan against the surrender value of the policy, etc. The insured possesses an incident of ownership if his death is necessary to terminate his interest in the insurance, as, for example, if the proceeds would become payable to his estate, or payable as he might direct, should the beneficiary predecease him.

The estate is entitled to only one exemption of $40,000 in cases to which this subsection applies. For instance, if the decedent left life insurance otherwise includible under the provisions of this subsection and payable to three such beneficiaries in amounts of $10,000, $40,000, and $50,000 (total, $100,000), the full amount should be listed on the return and therefrom subtracted the $40,000 exemption as provided in the appropriate schedule of Form 706. The word "beneficiaries", as used in reference to this $40,000 exemption, means persons entitled to the actual enjoyment of the insurance money.

Example. Insurance on the life of a decedent who died after January 10, 1941, the date of Treasury Decision 5032, and before October 22, 1942, the day after the enactment of the Revenue Act of 1942, totaled $200,000. It was payable to his son as beneficiary and the decedent never possessed any of the incidents of ownership therein. Premiums aggregating $100,000 were paid for the insurance, of which the decedent paid $50,000 before the date of Treasury Decision 5032 and $30,000 after that date. The remaining premiums of $20,000 were paid by the son. The extent to which the insurance was taken out by the decedent after the date of the Treasury decision is the proportion of $200,000 that the amount of the premiums paid by him after such date, $30,000, bears to the total amount of the premiums paid for the insurance, $100,000. Such proportion is three-tenths of $200,000, or $60,000. As the decedent possessed none of the incidents of ownership in the insurance at any time after the date of the Treasury decision, $100,000 of the insurance, the extent to which it was taken out by the decedent before such date $\left\{\frac{\$50,000 \times \$200,000}{\$100,000}\right\}$, is excluded from the estate. The amount of $40,000, the extent to which the insurance was not taken out by the decedent $\left\{\frac{\$20,000 \times \$200,000}{\$100,000}\right\}$, is also excluded from the gross estate. The amount of the insurance taken out by the decedent after the date of the Treasury decision, $60,000, is reduced by $40,000, the special insurance exemption, and the amount of the insurance included in the gross estate is $20,000.

SEC. 405. DEDUCTIONS NOT ALLOWABLE IN EXCESS OF CERTAIN PROPERTY OF ESTATE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *General rule.* Section 812 (b) (relating to estate tax deductions) is amended by inserting after the second sentence the following new sentences: "There shall be disallowed the amount by which the deductions specified in paragraphs (1), (2), (3), (4), and (5) exceed the value, at the time of the decedent's death, of property subject to claims. For the purposes of this section the term 'property subject to claims' means property includible in the gross estate of the decedent which, or the avails of which, would, under the applicable law, bear the burden of the payment of such deductions in the final adjustment and settlement of the estate; and, for the purposes of this definition, the value of the property shall be reduced by the amount of the deduction under the next sentence attributable to such property."

SEC. 406. CHARITABLE PLEDGES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Pledges in case of citizens.* Section 812 (b) (relating to deductions in computing net estate) is amended by inserting before the period at the end of the second sentence thereof the following: "; except that in any case in which any such claim is founded upon a promise or agreement of the decedent to make a contribution or gift to or for the use of any donee described in subsection (d) for the purposes specified therein, the deduction for such claim shall not be so limited, but shall be limited to the extent that it would be allowable as a deduction under subsection (d) if such promise or agreement constituted a bequest".

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 21. Section 81.29 is amended as follows:

(A) By changing the next to the last sentence of the first paragraph to read as follows:

If a claim against the estate, an unpaid mortgage, or an indebtedness is founded upon a promise or agreement, the deduction therefor is limited to the extent that the liability was contracted bona fide and for an adequate and full consideration in money or money's worth, except that in the case of a decedent who died after October 21, 1942, any such enforceable claim founded upon a promise or agreement of the decedent to make a contribution or gift to or for the use of any donee described in section 812 (d) (charitable, etc., organizations) for the purposes specified therein is deductible to the extent that it would be deductible under section 812 (d) if such promise or agreement constituted a bequest. See § 81.36.

(B) By inserting immediately after the first paragraph the following paragraph:

In case the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, the amount by which the deductions specified in paragraphs (1), (2), (3), (4), and (5) of section 812 (b) exceed the value of property includible in the gross estate subject to claims shall be disallowed. "Property subject to claims" is the property includible in the gross estate which, or the avails of which, under the applicable law, would bear the burden of the payment of such deductions in the final adjustment and settlement of the estate; and, for the purposes of this definition, the value of property subject to claims shall be first reduced by the amount of the deduction allowed for estate tax purposes for any losses, incurred during the settlement of the estate from fires, storms, shipwrecks, or other casualties, or from theft, attributable to such property. For example, if an item of property is included in such a decedent's gross estate at a value of $5,000 upon which there is an unpaid mortgage for $10,000, the excess of which is not enforceable against other property of the estate, the amount of the mortgage is allowable as a deduction only to the extent of $5,000. Likewise, in such a case where the gross estate is composed of real estate valued at $100,000, and proceeds of life insurance in the amount of $100,000 exempt from general claims, if the only deductions under section 812 (b) are claims of creditors totaling $200,000, only $100,000 of such claims is allowable as deductions.

PAR. 22. Section 81.36 is amended by striking out the fourth and fifth sentences and by inserting in lieu thereof the following:

Except as hereinafter stated, if the claim is founded upon a promise or agreement, the deduction therefor is limited to the extent that the liability was contracted bona fide and for an adequate and full consideration in money or money's worth. A pledge or a subscription, evidenced by a promissory note or otherwise, even though enforceable against the estate, is deductible only to the extent that liability therefor was contracted bona fide and for an adequate and full consideration in cash or its equivalent, except that if the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, a pledge or a subscription enforceable against the estate is deductible if the decedent's promise or agreement was to make a contribution or gift to or for the use of any donee described in section 812 (d) (charitable, etc., organizations) for the purposes specified in such section, but such deduction is limited to the extent that it would be allowable under section 812 (d) if such promise or agreement constituted a bequest.

PAR. 23. There is inserted immediately preceding § 81.41 the following:

SEC. 405. DEDUCTIONS NOT ALLOWABLE IN EXCESS OF CERTAIN PROPERTY OF ESTATE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(b) *Prior taxed property.* The second sentence of the second paragraph of section 812 (c) (relating to deduction for prior taxed property) is amended to read as follows: "The deduction under this subsection shall be reduced by an amount which bears the same ratio to the amounts allowed as deductions under subsections (a) and (d) and the amounts of general claims allowed as deductions under subsection (b) as the amount otherwise deductible under this subsection bears to property subject to general claims. If the property includible in the gross estate to which the deduction under this subsection is attributable is not wholly property subject to general claims—

(1) Before the application of the preceding sentence, the amount of the deduction under this subsection shall be reduced by that part of such amount as the value, at the time of the decedent's death, of such property (to which such deduction is attributable) subject to claims but not to general claims is of the value, at the time of the decedent's death, of such property, and

(2) In the application of the preceding sentence in reducing the balance, if any, of such deduction, "the amount otherwise deductible under this subsection" shall be only that part of such amount otherwise deductible (determined without regard to clause (1) of this paragraph) as the value, at the time of the decedent's death, of such property (to which such deduction is attributable) subject to general claims is of the value, at the time of the decedent's death, of such property.

For the purposes of the two preceding sentences and this sentence, "general claims" are the amounts allowed as deductions under subsection (b) which, under the applicable law, in the final adjustment and settlement of the estate may be enforced against any property subject to claims, as defined in subsection (b), and "property subject to general claims" is the value, at the time of the decedent's death, of property subject to claims, as defined in subsection (b), reduced by the value, at the time of the decedent's death, of that part of such property against which amounts allowed as deductions under subsection (b) which are not general claims may be enforced, under the applicable law, in the final adjustment and settlement of the estate.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

SEC. 407. DEDUCTION ON ACCOUNT OF PROPERTY PREVIOUSLY TAXED. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amendments to Internal Revenue Code provisions relating to property previously taxed.* (1) The first paragraph of section 812 (c) is amended to read as follows:

(c) *Property previously taxed.* An amount equal to the value of any property (1) forming a part of the gross estate situated in the United States of any person who died within five years prior to the death of the decedent, or (2) transferred to the decedent by gift within five years prior to his death, where such property can be identified as having been received by the decedent from the donor by gift, or from such prior decedent by gift, bequest, devise, or inheritance, or which can be identified as having been acquired in exchange for property so received. Property includible in the gross estate of the prior decedent under section 811 (f) and property included in total gifts of the donor under section 1000 (c) received by the decedent described in this subsection shall, for the purposes of this subsection, be considered a bequest of such prior decedent or gift of such donor. This deduction shall be allowed only where a gift tax imposed under Chapter 4, or under Title III of the Revenue Act of 1932, 47 Stat. 245, or an estate tax imposed under this chapter or any prior Act of Congress, was finally determined and paid by or on behalf of such donor, or the estate of such prior decedent, as the case may be, and only in the amount finally determined as the value of such property in determining the value of the gift, or the gross estate of such prior decedent, and only to the extent that the value of such property is included in the decedent's gross estate, and only if in determining the value of the net estate of the prior decedent no deduction was allowable under this subsection, section 861 (a) (2), or the corresponding provisions of any prior Act of Congress, in respect of the property or property given in exchange therefor.

(2) The first sentence of the second paragraph of section 812 (c) is amended to read as follows:

Where a deduction was allowed of any mortgage or other lien in determining the gift tax, or the estate tax of the prior decedent, which was paid in whole or in part prior to the decedent's death, then the deduction allowable under this subsection shall be reduced by the amount so paid.

* * * * *

(c) *Effective dates.*

(1) The amendments made by subsection (a) (1) shall be applicable to estates of decedents dying after the date of enactment of this Act, except that the reference therein to "an estate tax imposed under this chapter or any prior Act of Congress," shall be applicable with respect to estates of decedents dying after February 10, 1939.

(2) The amendment made by subsection (a) (2) shall be applicable with respect to estates of decedents dying after February 10, 1939.

* * * * *

PAR. 24. Section 81.41 is amended as follows:

(A) By inserting at the end of (a) (1) of the first paragraph the following sentence:

Section 812 (c), as amended by the Revenue Act of 1942, specifically provides that property includible in the gross estate of the prior decedent under powers of appointment (section 811 (f)) and property included in total gifts of the donor under a power of appointment (section 1000 (c)) received by the decedent (as the appointee under the exercise

of the power or as remainderman under the release, or nonexercise, of such power) shall, for the purposes of this deduction, be considered a bequest of such prior decedent or gift of such donor.

(B) By amending (b) (3) of the first paragraph to read as follows:

(3) If the decedent died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, the deduction is further reduced by the amount of that proportion of the deductions allowed under paragraphs (a), (b), and (d) of section 812 which the amount otherwise deductible for property previously taxed bears to the value of the decedent's gross estate. If the decedent died after October 21, 1942, the deduction (the amount ascertained after applying the limitations set forth in (b) (1) and (2) of this section of the regulations) is to be reduced by an amount which bears the same ratio to the amounts allowed as deductions under paragraphs (a) and (d) of section 812 and the amounts of general claims allowed as deductions under paragraph (b) of section 812 as the amount otherwise deductible for property previously taxed bears to property subject to general claims. However, before applying the rule in the preceding sentence, if the property previously taxed includible in the gross estate is not wholly subject to general claims, the amount otherwise deductible (the amount ascertained after applying the limitations set forth in (b) (1) and (2) of this section of the regulations) is first subject to further adjustments as hereinafter set forth.

(C) By striking from the second sentence of the second paragraph "A donor" and by inserting in lieu thereof "In 1941, a donor".

(D) By inserting immediately after the second paragraph the following paragraph:

Section 812 (c), as amended by the Revenue Act of 1942, provides for the allowance of the deduction for property previously taxed not only in cases where the basic estate tax had been paid upon the prior estate but also in cases where only the additional estate tax was paid upon the prior estate under the provisions of the Revenue Act of 1932 or chapter 3 of the Code. See § 81.96 with respect to provisions made for the refund or credit of overpayments in cases where such deductions had been disallowed.

(E) By changing the first sentence of the last paragraph thereof to read as follows:

Subchapter B provided in this case for a specific exemption of $40,000.

(F) By inserting at the end thereof the following paragraphs:

In the case of a decedent who died after October 21, 1942, the amount otherwise allowable as a deduction for property previously taxed is to be reduced, in a manner similar to that illustrated in the preceding two paragraphs, by the amount of other deductible items which may be allocated to the value of such property. However, under section 812 (c), as amended by section 405 (b) of the Revenue Act of 1942, in such cases there is taken into account the fact that, under the applicable law, in the final adjustment and settlement of the estate some deductions under section 812 (b) are claims enforceable first, or solely, against specified property, and the value, in whole or in part, of some property included in the gross estate (including the property previously taxed) is exempt from claims of creditors. Thus, in the case of decedents dying after October 21, 1942, if the property previously taxed includible in the gross estate is not wholly subject to general claims, the amount otherwise deductible (the amount ascertained after applying the limitations in (b) (1) and (2) of this section) is first reduced by that part of such amount as the value of the property previously taxed includible in the gross estate subject to claims but not to general claims bears to the total value of the property previously taxed includible in the gross estate. The balance, if any, of the amount of deduction thus obtained is then to be reduced by a proportionate part of the amount otherwise deductible determined from a ratio, such as that illustrated in the two preceding paragraphs but limited as provided in (b) (3) of this section in the case of decedents dying after October 21, 1942. For this purpose, "the amount otherwise deductible" is only that part of such amount otherwise deductible (the amount ascertained after applying the limitations in (b) (1) and (2) but not (3) of this section) as the value of the property previously taxed subject to general claims bears to the value of property previously taxed included in the gross estate. For the purposes of this section, "general claims" are those which may be enforced against any of the property subject to claims and "property subject to general claims" is the value of property subject to claims reduced by the value of that part of such property against which amounts allowed as deductions under section 812 (b) which are not general claims may be enforced in the final adjustment and settlement of the estate. For the purposes of this section, the "value" of property includible in the decedent's gross estate or of property subject to general claims is the value at the date of the decedent's death or, in case the executor elects a valuation date or dates subsequent to the date of death as authorized by section 811 (j), it is the value prescribed by § 81.11.

The application of the second paragraph of section 812 (c), as amended by section 405 (b) of the Revenue Act of 1942, may be illustrated by the following example:

Example. The gross estate and deductions allowable other than under section 812 (c) are as follows:

Gross estate:	
Decedent's residence	$25,000
Other real property	30,000
Proceeds of life insurance	50,000
Other property	105,000
Deductions:	
Specific exemption (basic estate tax)	100,000
Mortgage on decedent's residence	9,000
Mortgage on other real property	35,000
Funeral, administration, etc., expenses	4,000
Charitable bequests	6,000

The decedent's residence was inherited by him from his father who had died within five years prior to the decedent's death. Such residence had been included in the gross estate of the decedent's father at a value of $20,000. A Federal estate tax had been paid upon such prior estate. The mortgage of $9,000 was placed upon such residence since the death of the decedent's father. Under the local law, such residence is exempt from claims of creditors to the extent of $1,000 and the life insurance proceeds are fully exempt from claims of creditors. The mortgage of $35,000, after satisfaction out of the other real property subject thereto (having a value of $30,000), is enforceable against any other property in the estate. The amount otherwise deductible under section 812 (c), before reduction under the second paragraph of such section, is $20,000, the value of the residence included in the prior estate. The following steps are to be taken in reducing this amount:

First: Since the value of the property previously taxed is not wholly subject to general claims, the amount of $20,000 otherwise deductible is to be first reduced by that part thereof as the value of the property previously taxed includible in the gross estate subject to claims but not to general claims, $9,000, is of the total value of the property previously taxed includible in the gross estate, $25,000. This reduction is $9,000/$25,000 of $20,000, or $7,200. By subtracting such amount from $20,000, the balance is found to be $12,800.

Second: The balance of $12,800 is to be reduced further by the proportion of the deductions allowed under section 812 (a) and (d) and the general claims under section 812 (b) as the amount otherwise deductible bears to the value of property subject to general claims. For this purpose, "the amount otherwise deductible" is only that part of such amount otherwise deductible, determined before the application of the first step above, as the value of the property previously taxed subject to general claims is of the value of the property previously taxed includible in the gross estate. The property previously taxed subject to general claims is $15,000 ($25,000 minus the $9,000 mortgage and the $1,000 homestead exemption). Thus, the proportion is $15,000/$25,000 of $20,000 or $12,000, which represents "the amount otherwise deductible" for purposes of computing the further reduction. For the same purpose, the property subject to general claims is $120,000, the sum of $105,000, the value of "other property", and $15,000 the value of the "decedent's residence" in excess of the $9,000 mortgage and the $1,000 homestead exemption. General claims consist of $4,000 of "funeral, administration, etc., expenses" and $5,000 of the $35,000 mortgage, the extent to which such mortgage exceeds the value of the "other real property" subject thereto. These general claims total $9,000, and such amount plus the charitable bequests of $6,000 and the specific exemption of $100,000 equal $115,000. Therefore, using the amounts thus determined, the balance of $12,800 is to be reduced fruther by $12,000/$120,000 of $115,000, or by $11,500.

For the purpose of the basic estate tax therefore, the deduction under section 812 (c) is $1,300 as shown below:

Amount otherwise deductible after applying limitations in (b) (1) and (2) of this section of the regulations	$20,000
Reduction by application of first limitation ($9,000/$25,000 of $20,000)	7,200
	12,800
Reduction by application of second limitation ($12,000/$120,000 of $115,000)	11,500
Amount deductible	1,300

For the purpose of the additional estate tax (computed with a specific exemption of $60,000 instead of $100,000) the deduction under section 812 (c) will be $5,300, computed by reducing the amount of $20,000, otherwise allowable, by the sum of $7,200 and $7,500. The latter amount, $7,500, is the product of $75,000 (the sum of $60,000+$5,000+$4,000+$6,000) times $12,000/120,000.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 26. Section 81.44 is amended as follows:

(A) By inserting immediately preceding the period at the end of the first paragraph ", and no substantial part of the activities of such trustee or trustees, or of such fraternal society, order, or association, is carrying on propaganda, or otherwise attempting, to influence legislation".

(B) By inserting immediately after such first paragraph the following paragraphs:

The amount of the bequest, legacy, devise or transfer, for which a deduction is allowable under the provisions of this section, includes the interest which falls into any such bequest, legacy, devise, or transfer as a result of an irrevocable disclaimer of a bequest, legacy, devise, transfer, or power, if the disclaimer is made prior to the date prescribed for the filing of the estate tax return. The disclaimer must not only be made prior to the date prescribed for the filing of the estate tax return (including such date as may be prescribed in an extension of time granted for the filing of such return), but must be irrevocable at the time the deduction is allowed. Ordinarily, a disclaimer made by a person not under any legal disability will be considered irrevocable when filed with the probate court. A disclaimer is a complete and unqualified refusal to accept the rights to which one is entitled. Thus, if the beneficiary uses these rights for his own purposes, as by receiving a consideration for his formal disclaimer, he has not refused the rights to which he was entitled. There can be no disclaimer after an acceptance of such rights, expressly or impliedly. The disclaimer of a power described in this paragraph is to be distinguished from the release or exercise of a power. In the case of the estate of the creator of a power, the release or exercise of the power by the donee of the power in favor of a person or object described in the preceding paragraph does not cause any deduction under this section of the value of the property subject to such power. See section 81.46.

Property includible in the gross estate under section 811 (f), relating to powers of appointment, received by a donee described in section 812 (d) is for the purposes of section 812 (d) considered a bequest of the decedent, whether or not the decedent died before, on, or after the date of enactment of the Revenue Act of 1942. This rule applies only where the donee described in section 812 (d) is the appointee under the exercise of the decedent's power or the remainderman upon the release (or nonexercise) of the power by the decedent.

PAR. 27. There is inserted immediately preceding § 81.48 the following:

SEC. 414. SPECIFIC EXEMPTION. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amount of exemption.* Section 935 (c) (relating to the exemption for the purposes of the additional estate tax) is amended by striking out "$40,000" and inserting in lieu thereof "$60,000".

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 28. Section 81.48 is amended by striking out the last two sentences and by inserting in lieu thereof the following sentences:

The specific exemption deductible in determining the net estate of a citizen or resident upon which the additional tax is imposed by section 935 of the Internal Revenue Code (subchapter B), and by such section as amended by section 414 of the Revenue Act of 1942, is $40,000 if the decedent died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, and $60,000 if the decedent died after October 21, 1942. For regulations relative to the specific exemption in the case of a nonresident not a citizen, see § 81.55.

PAR. 29. There is inserted immediately preceding § 81.51 the following:

SEC. 406. CHARITABLE PLEDGES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(b) *Pledges by nonresidents not citizens.* Section 861 (a) (1) (relating to deductions in computing net estate) is amended to read as follows:

(1) *Expenses, losses, indebtedness, and taxes.* That proportion of the deductions specified in section 812 (b) (other than the deductions described in the following sentence) which the value of such part bears to the value of his entire gross estate, wherever situated. Any deduction allowable under section 812 (b) in the case of a claim against the estate which was founded upon a promise or agreement but was not contracted for an adequate and full consideration in money or money's worth shall be allowable under this paragraph to the extent that it would be allowable as a deduction under paragraph (3) if such promise or agreement constituted a bequest.

SEC. 407. DEDUCTION ON ACCOUNT OF PROPERTY PREVIOUSLY TAXED. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amendments to Internal Revenue Code provisions relating to property previously taxed.*

* * * * *

(3) The first two sentences of section 861 (a) (2) are amended to read as follows:

(2) Property previously taxed.—An amount equal to the value of any property (A) forming a part of the gross estate situated in the United States of any person who died within five years prior to the death of the decedent, or (B) transferred to the decedent by gift within five years prior to his death, where such property can be identified as having been received by the decedent from the donor by gift, or from such prior decedent by gift, bequest, devise, or inheritance, or which can be identified as having been acquired in exchange for property so received. Property includible in the gross estate of the prior decedent under section 811 (f) and property included in total gifts of the donor under section 1000 (c) received by the decedent described in this paragraph shall, for the purposes of this paragraph, be considered a bequest of such prior decedent or gift of such donor. This deduction shall be allowed only where a gift tax imposed under Chapter 4, or under Title III of the Revenue Act of 1932, 47 Stat. 245, or an estate tax imposed under this chapter or any prior Act of Congress, was finally determined and paid by or on behalf of such donor, or the estate of such prior decedent, as the case may be, and only in the amount finally determined as the value of such property in determining the value of

the gift, or the gross estate of such prior decedent, and only to the extent that the value of such property is included in that part of the decedent's gross estate which at the time of his death is situated in the United States, and only if in determining the value of the net estate of the prior decedent no deduction was allowable under this paragraph; section 812 (c), or the corresponding provisions of any prior Act of Congress, in respect of the property or property given in exchange therefor.

* * * * *

(c) *Effective dates.*

* * * * *

(3) The amendments made by subsection (a) (3) shall be applicable to estates of decedents dying after the date of enactment of this Act, except that the reference therein to "an estate tax imposed under this chapter or any prior Act of Congress," shall be applicable with respect to estates of decedents dying after February 10, 1939.

SEC. 405. DEDUCTIONS NOT ALLOWABLE IN EXCESS OF CERTAIN PROPERTY OF ESTATE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(c) *Prior taxed property of nonresidents not citizens.* The next to the last sentence of section 861 (a) (2) (relating to deduction for prior taxed property of nonresidents not citizens of the United States) is amended to read as follows: "The deduction under this paragraph shall be reduced by an amount which bears the same ratio to the amounts allowed as deductions under paragraphs (3) and (4) and the amount of general claims allowed as deduction under paragraph (1) of this subsection as the amount otherwise deductible under this paragraph bears to property subject to general claims. If the property includible in the gross estate to which the deduction under the paragraph is attributable is not wholly property subject to general claims:

(A) before the application of the preceding sentence, the amount of the deduction under this paragraph shall be reduced by that part of such amount as the value, at the time of the decedent's death, of such property (to which such deduction is attributable) subject to claims but not to general claims is of the value, at the time of the decedent's death, of such property, and

(B) in the application of the preceding sentence in reducing the balance, if any, of such deduction, "the amount otherwise deductible under this paragraph" shall be only that part of such amount otherwise deductible (determined without regard to subparagraph (A)) as the value, at the time of the decedent's death, of such property (to which such deduction is attributable) subject to general claims is of the value, at the time of the decedent's death, of such property.

For the purposes of the two preceding sentences and this sentence, "general claims" are the amounts allowed as deductions under paragraph (1) of this subsection which, under the applicable law, in the final adjustment and settlement of the estate may be enforced against that part of any property subject to claims, as defined in subsection (b) of section 812 which at the time of the decedent's death is in the United States, and "property subject to general claims" is the value, at the time of the decedent's death, of such property subject to claims, reduced by the value, at the time of the decedent's death, of that part of such property subject to claims against which amounts allowed as deductions under paragraph (1) of this subsection which are not general claims may be enforced, under the applicable law, in the final adjustment and settlement of the estate.

* * * * *

(b) *Nonresidents not citizens.* Section 861 (a) (3) (relating to deduction for bequests, etc., to charity) is amended by inserting before the period at the end of the first sentence the following: ", and no substantial part of the activities of such trustee or trustees, or of such fraternal society, order, or association, is carrying on propaganda, or otherwise attempting, to influence legislation."

SEC. 412. EXEMPTION OF ESTATES OF NONRESIDENTS NOT CITIZENS. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Exemption.* Section 861 (a) (relating to deductions in case of estates of nonresidents not citizens) is amended by inserting at the end thereof the following new paragraph:

(4) Exemption.—An exemption of $2,000.

(b) *Technical amendment with respect to property previously taxed.* For technical amendment with respect to property previously taxed, see section 405 (c) of this Act.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 30. Section 81.52 is amended by striking out subdivision (*a*) and by inserting in lieu thereof the following:

(*a*) In case the decedent died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, only that proportion of the aggregate deductions for administration expenses, claims, etc., is deductible which the value of that part of the gross estate situated (within the meaning of the statute) in the United States, bears to the value of the entire gross estate, wherever situated (see § 81.55), and any claim against decedent's estate founded upon a promise or agreement, even though for charitable uses, where the liability was not contracted for an adequate and full consideration in money or money's worth is not allowable. (See § 81.36.) In case the decedent died after October 21, 1942, only the proportion of the deductions specified in section 812 (b) (other than those deductions for claims hereinafter described) is deductible which the value of that part of the gross estate situated (within the meaning of the statute) in the United States bears to the value of decedent's entire gross estate wherever situated. If the decedent died after October 21, 1942, any claim against the estate founded upon an enforceable promise or agreement to make a contribution or gift to or for the use of any donee described in section 861 (a) (3) (charitable, etc., organizations) for the purposes specified in such section, where the liability was not contracted for an adequate and full consideration in money or money's worth, is allowable under section 861 (a) (1), as amended, to the extent that it would be allowable under section 861 (a) (3) if such promise or agreement constituted a bequest. (See § 81.36.)

PAR. 31. Section 81.53 is amended by striking out subparagraph (3) and by inserting in lieu thereof the following:

(3) In case the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, with respect to the third limitation involving property previously taxed, set forth under § 81.41 (*b*), wherever paragraph (a), (b), or (d) of section 812 is referred to, subparagraph (4), (1), or (3), respectively, of section 861 (a), as amended, should be substituted. In case the decedent died on or before October 21, 1942, instead of the amount of the deduction being reduced in accordance with the third limitation set forth under § 81.41 (*b*), the amount of the deduction is reduced by the proportion of the total other deductions, allowed under subparagraphs (1) and (3) of paragraph (a) of section 861, which the amount otherwise deductible for property previously taxed bears to the value of the part of the gross estate situated in the United States at the time of the decedent's death.

PAR. 32. Section 81.55 is amended as follows:

(A) By striking out the heading "*Determination of net estate*" and by inserting in lieu thereof the following:

Specific exemption and determination of net estate.

(a) *Specific exemption.* A specific exemption of $2,000 is deductible in the case of a nonresident not a citizen of the United States if such decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942. This exemption applies both for the purposes of the basic tax and the additional tax. No specific exemption is authorized in the case of a nonresident not a citizen of the United States if such decedent died on or before October 21, 1942.

(b) *Determination of net estate.*

(B) By changing, in the original first paragraph, that part of the sentence which precedes the computation to read as follows:

If the decedent died on or before October 21, 1942, the following result is accordingly obtained:

(C) By inserting immediately after the computation the following sentence:

If the decedent died after October 21, 1942, an exemption of $2,000 is also deductible, resulting in a net estate of $143,000.

PAR. 33. There is inserted immediately preceding § 81.57 the following:

SEC. 414. SPECIFIC EXEMPTION. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amount of exemption.* Section 935 (c) (relating to the exemption for the purposes of the additional estate tax) is amended by striking out "$40,000" and inserting in lieu thereof "$60,000".

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 34. Section 81.57 is amended as follows:

(A) By changing the first sentence to read as follows:

A preliminary notice is required to be filed in the case of every citizen or resident whose gross estate exceeded $60,000 in value at the date of death, if the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, or $40,000 if the decedent died on or before such date.

(B) By striking out "$40,000" in the last sentence and by inserting in lieu thereof "$60,000 or $40,000, as the case may be".

PAR. 35. Section 81.60 is amended as follows:

(A) By changing the first sentence to read as follows:

In estates of nonresidents not citizens, notice on Form 705, copies of which may be obtained from the Commissioner of Internal Revenue, Washington, D. C., or from any collector of internal revenue, is required if any part of the gross estate was situated (see § 81.50) in the United States (1) provided, in the case of a decedent who died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, the part of the gross estate situated in the United States exceeded a value of $2,000 at the date of death, and (2) regardless of such value in the case of a decedent who died on or before October 21, 1942.

(B By striking out the third sentence.

PAR. 36. Section 81.62 is amended by striking out the fourth and fifth sentences and by inserting in lieu thereof the following sentences:

Except as hereinafter stated, no domestic corporation or its transfer agent should transfer stock registered in the name of a nonresident decedent without first requiring a transfer certificate covering all of the decedent's stock of the corporation and showing that such transfer may be made without liability, and banks, trust companies and others in actual or constructive possession of property of nonresident decedents should require transfer certificates before transferring such property. If the decedent died after October 21, 1942, a transfer certificate is not required in case the total value, as of the date of the decedent's death, of the part of his gross estate situated in the United States is not in excess of $2,000. In the case of a decedent who died after October 21, 1942, such corporation, transfer agent, bank, trust company or other person will not incur liability for the transfer of such property without the issuance of a transfer certificate, if such corporation or other person first receives a statement from the executor or other responsible person, who may be reasonably regarded as in possession of the pertinent facts, showing that the total value, as of the date of the decedent's death, of the part of his gross estate situated in the United States is not in excess of $2,000, and if such corporation or other person has no information to the contrary.

PAR. 37. There is inserted immediately preceding § 81.63 the following:

SEC. 414. SPECIFIC EXEMPTION. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Amount of exemption.* Section 935 (c) (relating to the exemption for the purposes of the additional estate tax) is amended by striking out "$40,000" and inserting in lieu thereof "$60,000".

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 38. Section 81.63 is amended by changing the first sentence to read as follows:

A return on Form 706 is required in the case of every citizen or resident, whose gross estate, as defined in the statute, exceeded $60,000 in value at the date of death if the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, or $40,000 if the decedent died on or before such date.

PAR. 39. There is inserted immediately preceding § 81.67 the following:

SEC. 412. EXEMPTION OF ESTATES OF NONRESIDENTS NOT CITIZENS. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(c) *Returns.* Section 864 (a) (1) (relating to returns of executors of estates of nonresidents not citizens) is amended to read as follows:

(1) *Returns by executor.* In the case of the estate of every nonresident not a citizen of the United States any part of whose gross estate situated in the United States exceeds the amount of the specific exemption provided by section 861 (a) (4), the executor shall make a return under oath in duplicate, setting forth (A) the value of that part of the gross estate of the decedent situated in the United States at the time of his death; (B) the deductions allowed under section 861; (C) the value of the net estate of the decedent as defined in section 861; (D) the tax paid or payable thereon; or such part of such information as may at the time be ascertainable and such supplemental data as may be necessary to establish the correct tax.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 40. Section 81.67 is amended by striking out the first sentence and by inserting in lieu thereof the following sentences:

A return on Form 706 must be filed for the estate of every nonresident not a citizen any part of whose gross estate was situated (see section 81.50) in the United States, (1) provided, in the case of a decedent who died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, the part of the gross estate situated in the United States exceeded a value of $2,000 at the date of death, and (2) regardless of such value in the case of a decedent who died on or before October 21, 1942. Copies of Form 706 may be obtained from the Commissioner of Internal Revenue, Washington, D. C., or from any collector of internal revenue.

PAR. 41. There is inserted immediately preceding § 81.73 the following:

SEC. 413. PERIOD FOR FILING PETITION EXTENDED IN CERTAIN CASES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Period extended.* Section 871 (a) (1) (relating to period for filing petition with Board of Tax Appeals) is amended by inserting at the end thereof the following new sentence: "If the notice is addressed to an executor outside the States of the Union and the District of Columbia, the period specified in this paragraph shall be one hundred and fifty days in lieu of ninety days."

(b) *Effective date.* The amendment made by this section shall be applicable with respect to notices of deficiency mailed after the date of the enactment of this Act.

SEC. 504. CHANGE OF NAME OF BOARD OF TAX APPEALS. (Revenue Act of 1942, Title V, enacted October 21, 1942.)

(a) *The Tax Court of the United States.* Effective on the day after the date of enactment of this Act, section 1100 (relating to status of Board of Tax Appeals) is amended by inserting at the end thereof the following new sentence: "The Board shall be known as The Tax Court of the United States and the members thereof shall be known as the presiding judge and the judges of The Tax Court of the United States."

(b) *Powers, tenure, etc., unchanged.* The jurisdiction, powers, and duties of The Tax Court of the United States, its divisions and its officers and employees, and their appointment, including the designation of its officers

and the immunities, tenure of office, powers, duties, rights and privileges of the presiding judge and judges of The Tax Court of the United States shall be the same as by existing law provided in the case of the Board of Tax Appeals. The Commissioner shall continue to be represented by the same counsel in the same manner abefore the Court as he has heretofore been represented in proceedings before the Board of Tax Appeals and the taxpayer shall continue to be represented in accordance with rules of practice prescribed by the Court. No qualified person shall be denied admission to practice before such Court because of his failure to be a member of any profession or calling.

(c) *References.*—All references in any statute (except this section), or in any rule, regulation, or order, to the "Board of Tax Appeals" or to the "Board" when used in the sense of "Board of Tax Appeals", or to the "member", "members", or "chairman" thereof shall be considered to be made to The Tax Court of the United States, the judge, judges, and presiding judge thereof, respectively.

PAR. 42. Section 81.73 is amended by inserting at the end of the fourth paragraph the following:

If the registered letter is mailed after October 21, 1942, the date of the enactment of the Revenue Act of 1942, and is addressed to an executor outside the States of the Union and the District of Columbia, a period of 150 days (not counting Sunday or a legal holiday in the District of Columbia as the last day of the period) is authorized in which the executor may file a petition with the Board of Tax Appeals.

PAR. 43. There is inserted immediately preceding § 81.83 the following:

SEC. 403. POWERS OF APPOINTMENT. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(c) *Liability of recipient of property over which decedent had power of appointment.* Section 826 (relating to collection of unpaid tax) is amended by adding at the end thereof the following new subsection:

(d) *Liability of recipient of property over which decedent had power of appointment.* Unless the decedent directs otherwise in his will, if any part of the gross estate upon which the tax has been paid consista of the value of property included in the gross estate under section 811 (f), the executor shall be entitled to recover from the person receiving such property by reason of the exercise, nonexercise, or release of a power of appointment such portion of the total tax paid as the value of such property bears to the sum of the net estate and the amount of the exemption allowed in computing the net estate, determined under section 935 (c), or section 861, as the case may be. If there is more than one such person the executor shall be entitled to recover from such persons in the same ratio.

* * * * *

SEC. 404. PROCEEDS OF LIFE INSURANCE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(b) *Liability of life insurance beneficiaries.* Section 826 (c) (relating to apportionment of liability of beneficiaries) is amended to read as follows:

(c) *Liability of life insurance beneficiaries.* Unless the decedent directs otherwise in his will, if any part of the gross estate upon which tax has been paid consists of proceeds of policies of insurance upon the life of the decedent receivable by a beneficiary other than the executor, the executor shall be entitled to recover from such beneficiary such portion of the total tax paid as the proceeds of such policies bear to the sum of the net estate and the amount of the exemption allowed in computing the net estate, determined under section 935 (c). If there is more than one such beneficiary the executor shall be entitled to recover from such beneficiaries in the same ratio.

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 44. Section 81.84 is amended by striking out the second sentence and by inserting in lieu thereof the following sentence:

For specific provisions giving the executor the right to reimbursement from life insurance beneficiaries and from recipients of property over which the decedent had a power of appointment, see section 826 (c) and (d).

PAR. 45. There is inserted immediately preceding § 81.85 the following:

SEC. 411. LIABILITY OF CERTAIN TRANSFEREES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Imposition of liability.* Section 827 (b) is amended to read as follows:

(b) *Liability of transferee, etc.* If the tax herein imposed is not paid when due, then the spouse, transferee, trustee, surviving tenant, person in possession of the property by reason of the exercise, nonexercise, or release of a power of appointment, or beneficiary, who receives, or has on the date of the decedent's death, property included in the gross estate under section 811 (b), (c), (d), (e), (f), or (g), to the extent of the value, at the time of the decedent's death, of such property, shall be personally liable for such tax. Any part of such property sold by such spouse, transferee, trustee, surviving tenant, person in possession of property by reason of the exercise, nonexercise, or release of a power of appointment, or beneficiary, to a bona fide purchaser for an adequate and full consideration in money or money's worth shall be divested of the lien provided in section 827 (a) and a like lien shall then attach to all the property of such spouse, transferee, trustee, surviving tenant, person in possession, or beneficiary, except any part sold to a bona fide purchaser for an adequate and full consideration in money or money's worth.

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 46. Section 81.85 is amended by striking out the provisions designated "(d)" and "(e)" and by inserting in lieu thereof the following:

(*d*) In case the decedent died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, such property as was received from the decedent as a transfer by trust or otherwise in contemplation of or intended to take effect in possession or enjoyment at or after his death, or under which he has retained for his life or for any period not ascertainable without reference to his death or for any period which does not in fact end before his death (1) the possession or enjoyment of, or the right to the income from, the property or (2) the right, either alone or in conjunction with any person, to designate the persons who shall possess or enjoy the property or the income therefrom (except in case the transfer was a bona fide sale for an adequate and full consideration in money or money's worth), and was sold by the transferee or trustee to a bona fide purchaser for such a consideration. In such case the lien attaches to all the property of the transferee or trustee except such thereof as may be sold to a bona fide purchaser for such a consideration.

(*e*) In case the decedent died after October 21, 1942, the date of the enactment of the Revenue Act of 1942, such property as was included in the gross estate under the provisions of section 811 (b), (c), (d), (e), (f), or (g), and was sold to a bona fide purchaser for an adequate and full consideration in money or money's worth by the spouse, transferee, trustee, surviving tenant, person in possession of the property by reason of the exercise, nonexercise, or release of a power of appointment, or beneficiary. In such case the lien attaches to all the property of the spouse, transferee, trustee, surviving tenant, person in possession of the property by reason of the exercise, nonexercise, or release of a power of appointment, or beneficiary, except such thereof as may be sold to a bona fide purchaser for such a consideration.

(f) If a certificate releasing such lien is issued. (See § 81.86.)

PAR. 47. Section 81.93 is amended as follows:

(A) By inserting immediately after "90 days" in the fifth sentence thereof "or, if the notice is mailed after October 21, 1942 to an executor outside the States of the Union and the District of Columbia, 150 days".

(B) By changing "ninetieth" in the parenthetical clause of the fifth sentence thereof to read "last".

(C) By inserting immediately after "90 days" in the eighth sentence thereof "or 150 days, whichever is applicable".

(D) By changing "90-day period" each time it appears in the eighth sentence thereof to read "period".

PAR. 48. There is inserted immediately preceding § 81.96 the following:

SEC. 407. DEDUCTION ON ACCOUNT OF PROPERTY PREVIOUSLY TAXED. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(d) *Overpayments.* If the refund or credit of any overpayment to the extent resulting from the application of subsections (a), (b), and (c) of this section, is prevented on the date of enactment of this Act or within one year from such date, then, notwithstanding any other provision of law or rule of law (other than this subsection of this section and other than section 3761 of the Internal Revenue Code or section 3229 of the Revised Statutes, or such section as amended by section 815 of the Revenue Act of 1938, relating to compromises), such overpayment shall be refunded or credited in the same manner as in the case of an estate tax erroneously collected if claim therefor is filed within one year from the date of enactment of this Act.

SEC. 415. OVERPAYMENT FOUND BY BOARD. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

The second sentence of section 912 (relating to overpayment found by the Board of Tax Appeals) is amended by striking out "or the filing of the petition" and inserting in lieu thereof "or the mailing of the notice of deficiency".

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

SEC. 503. SUIT AGAINST COLLECTOR BAR IN OTHER SUITS. (Revenue Act of 1942, Title V, enacted October 21, 1942.)

Section 3772 (relating to suits) is amended by inserting at the end thereof the following new subsection:

(d) *Suits against collector a bar.* A suit against a collector (or former collector) or his personal representative for the recovery of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty claimed to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected shall be treated as if the United States had been a party to such suit in applying the doctrine of res judicata in all suits instituted after June 15, 1942, in respect of any internal revenue tax, and in all proceedings in the Board and on review of decisions of the Board where the petition to the Board was filed after such date.

PAR. 49. Section 81.96 is amended as follows:

(A) By striking out the first sentence of the third paragraph and by inserting in lieu thereof the following sentences:

In the case of the estate of a decedent dying on or before October 21, 1942, the amount of the refund shall not exceed the portion of the tax paid during the three year period immediately preceding the filing of the claim, or the filing of the petition with the Board of Tax Appeals, whichever is earlier. In the case of estates of decedents dying after October 21, 1942, the amount of the refund shall not exceed the portion of the tax paid during the three year period immediately preceding the filing of the claim or the mailing of the notice of deficiency, whichever is earlier. In the case of an overpayment found by the Board, the above amounts also include any portions of tax paid after the mailing of the notice of deficiency.

(B) By striking out the fourth paragraph and by inserting in lieu thereof the following paragraphs:

In case a refund or credit of any overpayment involving a deduction for property previously taxed to the extent resulting from the application of paragraph (a) of section 407 of the Revenue Act of 1942, is prevented on October 21, 1942, or within one year from such date, then, notwithstanding any other provision of law or rule of law (other than paragraph (d) of section 407 of the Internal Revenue Code relating to compromises), such overpayment shall be refunded or credited in the same manner as in the case of an estate tax erroneously collected if claim therefor is filed within one year from October 21, 1942.

If a petition was filed with the Board of Tax Appeals for the redetermination of a deficiency, as provided by section 871 (a), if the Board finds that the executor has made an overpayment of the tax, and if the Board further determines as part of its decision that, in the case of estates of decedents dying after October 21, 1942, any portion of the overpayment was made within three years before the filing of the claim for refund or the mailing of the notice of deficiency, whichever is earlier, or, in the case of estates of decedents dying on or before October 21, 1942, any portion of the overpayment was made within three years before the filing of the claim for refund or the filing of the petition, whichever is earlier, or if the Board further determines as part of its decision that any portion was paid after the mailing of the deficiency, the amount of such portion of the overpayment will be refunded.

PAR. 50. There is inserted immediately preceding § 81.99 the following:

SEC. 411. LIABILITY OF CERTAIN TRANSFEREES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

(a) *Imposition of liability.* Section 827 (b) is amended to read as follows:

(b) *Liability of transferee, etc.* If the tax herein imposed is not paid when due, then the spouse, transferee, trustee, surviving tenant, person in possession of the property by reason of the exercise, nonexercise, or release of a power of appointment, or beneficiary, who receives, or has on the date of the decedent's death, property included in the gross estate under section 811 (b), (c), (d), (e), (f), or (g), to the extent of the value, at the time of the decedent's death, of such property, shall be personally liable for such tax. * * *

* * * * *

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act

PAR. 51. Section 81.99 is amended by striking out the last paragraph and by inserting in lieu thereof the following paragraphs:

In case the decedent died on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, if the tax in respect of a transfer of property includible in the gross estate under the provisions of section 811 (c), or in respect of insurance receivable by a beneficiary other than the estate and includible in the gross estate under the provisions of section 811 (g), is not paid when due, then the transferee, trustee, or beneficiary shall be personally liable for such tax.

In case the decedent died after October 21, 1942, if the tax imposed upon the entire estate is not paid when due, then the spouse, transferee, trustee, surviving tenant, person in possession of the property by reason of the exercise, nonexercise, or release of a power of appointment, or beneficiary, who receives, or has on the date of the decedent's death, property included in the gross estate under section 811 (b), (c), (d), (e), (f), or (g), shall be personally liable for such tax to the extent of the value of such property includible in the gross estate.

PAR. 52. There is inserted immediately preceding § 81.102 the following:

SEC. 411. LIABILITY OF CERTAIN TRANSFEREES. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

* * * * *

(b) *Definition of transferee.* Section 900 (e) is amended to read as follows:

(e) *Definition of "transferee".* As used in this section, the term "transferee" includes heir, legatee, devisee, and distributee, and includes a person who, under section 827 (b), is personally liable for any part of the tax.

SEC. 401. ESTATES TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part I, enacted October 21, 1942.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 53. Section 81 102 is amended by changing the second paragraph of subsection (*b*) thereof to read as follows:

The term "transferee" as used in section 900 includes an heir, legatee, devisee, and distributee of an estate of a deceased person, and also includes a person who under section 827 (b) is personally liable for any part of the tax.

PAR. 54. There is inserted immediately after section 840 and preceding section 3791 of the "Miscellaneous Provisions", which follow § 81.105, the following:

[*Cross Reference.* For provisions of law and regulations authorizing the postponement by reason of war of the performance of certain acts required or permitted under the estate tax law, see section 507 of the Revenue Act of 1942 and regulations pertaining thereto separately promulgated.]

(Sec. 3791 of the Internal Revenue Code (53 Stat. 467, 26 U.S.C. 3791) and sections 401, 402, 403, 404, 405, 406, 407 (a), (c) (1), (2) and (3) and (d), 408, 409, 410, 411, 412, 413, 414, 415, 503, 504, and 507 of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, and the Joint Resolution of December 17, 1942 (Public Law 809, 77th Congress))

[SEAL] GUY T. HELVERING,
Commissioner of Internal Revenue.

Approved: March 10, 1943.

[T.D 5241]

PART 85—GIFT TAX UNDER THE REVENUE ACT OF 1932, AS AMENDED

POWERS OF APPOINTMENT, ETC., AMENDMENTS

In order to conform Regulations 79 (1936 Edition) [Part 85, Title 26, Code of Federal Regulations], and such regulations as made applicable to the Internal Revenue Code (53 Stat., Part 1; 26 U.S.C.) by Treasury Decision 4885, approved February 11, 1939 [Chapter I, note, Title 26, Code of Federal Regulations, 1939 Sup.], to certain sections of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, and the Joint Resolution of December 17, 1942 (Public Law 809, 77th Congress), such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding article 1 [§ 85.1 of such Title 26] the following:

SEC. 452. POWERS OF APPOINTMENT. (Revenue Act of 1942, Title IV, Part II, enacted October 21, 1942.)

(a) *General rule.* Section 1000 (relating to imposition of gift tax) is amended by inserting at the end thereof the following new subsection:

(c) *Powers of appointment.* An exercise or release of a power of appointment shall be deemed a transfer of property by the individual possessing such power. For the purposes of this subsection the term "power of appointment" means any power to appoint exercisable by an individual either alone or in conjunction with any person, except—

(1) a power to appoint within a class which does not include any others than the spouse of such individual, spouse of the creator of the power, descendants of such individual or his spouse, descendants (other than such individual) of the creator of the power or his spouse, spouses of such descendants, donees described in section 1004 (a) (2), and donees described in section 1004 (b). As used in this paragraph, the term "descendant" includes adopted and illegitimate descendants, and the term "spouse" includes former spouse; and

(2) a power to appoint with a restricted class if such individual did not receive any beneficial interest, vested or contingent, in the property from the creator of the power or thereafter acquire any such interest, and if the power is not exercisable to any extent for the benefit of such individual, his estate, his creditors, or the creditors of his estate.

If a power to appoint is exercised by creating another power to appoint, such first power shall not be considered excepted under paragraph (1) or (2) from the definition of power of appointment to the extent of the value of the property subject to such second power to appoint. For the purposes of the preceding sentence the value of the property subject to such second power to appoint shall be its value unreduced by any precedent or subsequent interest not subject to such power to appoint.

(b) *Powers with respect to which amendments not applicable.*

(1) The amendments made by this section shall not apply with respect to a power to appoint, created on or before the date of enactment of this Act, which is other than a power exercisable in favor of the donee of the power, his estate, his creditors, or the creditors of his estate, unless such power is exercised after the date of enactment of this Act.

(2) The amendments made by this section shall not become applicable with respect to a power to appoint created on or before the date of enactment of this Act, which is exercisable in favor of the donee of the power, his estate, his creditors, or the creditors of his estate, if at such date the donee of such power is under a legal disability to release such power, until six months after the termination of such legal disability. For the purposes of the preceding sentence, an individual in the military or naval forces of the United States shall, until the termination of the present war, be considered under a legal disability to release a power to appoint.

(c) *Release on or Before January 1, 1943.*

(1) A release of a power to appoint before January 1, 1943, shall not be deemed a transfer of property by the individual possessing such power.

(2) This subsection shall apply to all calendar years prior to 1943.

SEC. 453. GIFTS OF COMMUNITY PROPERTY. (Revenue Act of 1942, Title IV, Part II.)

Section 1000 (relating to tax on gifts) is amended by inserting at the end thereof the following new subsection:

(d) *Community property.* All gifts of property held as community property under the law of any State, Territory, or possession of the United States, or any foreign country shall be considered to be the gifts of the husband except that gifts of such property as may be shown to have been received as compensation for personal services actually rendered by the wife or derived originally from such compensation or from separate property of the wife shall be considered to be gifts of the wife.

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part II.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

JOINT RESOLUTION. (Public Law 809, 77th Congress, enacted December 17, 1942.)

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That * * * section 452 (c) of the Revenue Act of 1942 is amended to read as follows:

(c) *Release on or Before July 1, 1943.*

(1) A release of a power to appoint before July 1, 1943, shall not be deemed a transfer of property by the individual possessing such power.

(2) This subsection shall apply to all calendar years prior to 1943 and to that part of the calendar year 1943 prior to July 1, 1943.

PAR. 2. Article 2 [§ 85.2 of such Title 26], as amended by Treasury Decision 5041, approved March 1, 1941, is further amended as follows:

(A) By inserting immediately before the first sentence thereof the following: "(a) *In general.*"

(B) By inserting at the end thereof the following new paragraph:

(b) *Transfers under power of appointment.* The exercise of a power of appointment after June 6, 1932 and before January 1, 1943 constitutes a gift by the individual possessing the power if the power is exercisable in favor of any person or persons in the discretion of such individual, or, however limited as to the persons or objects in whose favor the appointment may be made, if it is exercisable in favor of the individual possessing the power, his estate, his creditors, or the creditors of his estate. The release of a power to appoint before July 1, 1943 is excepted from the application of the tax by reason of the express provisions of section 452 (c) of the Revenue Act of 1942, as amended by the Joint Resolution of December 17, 1942. It is presumed that all general powers of appointment are releasable, unless the local law on the subject is to the contrary; and it is presumed that the method employed to release the power is effective, unless it is not in accordance with the local law on the subject (or, in the absence of such local law, is not in accordance with the local law relating to similar transactions). Section 452 (c) of the Revenue Act of 1942, however, does not apply to any release of a power reserved, directly or indirectly, by a donor upon a transfer, as distinguished from a donee of a power of appointment who releases the power which he had received from another person. See article 3 with respect to the taxability of the relinquishment of reserved powers.

During the calendar year 1943 and any calendar year thereafter, section 1000 (c), as added by the Revenue Act of 1942, applies, subject, however, to section 452 (c) of such Act, as amended by the Joint Resolution of December 17, 1942. That is, during such years an exercise or release (other than a release prior to July 1, 1943), without an adequate and full consideration in money or money's worth, of a power of appointment by the individual possessing such power (including any power to appoint exercisable in conjunction with another person) constitutes a gift, except in the case of the following:

(1) The exercise or release of a power to appoint which is not exercisable to any extent for the benefit of such individual, his creditors, his estate, or the creditors of his estate, and which is exercisable in favor of only one or more other persons or objects:

(i) Within a class which does not include any others than the spouse of such individual, spouse of the creator of the power, descendants of such individual or his spouse, descendents of the creator of the power or his spouse, spouses of such descendants, charitable, etc., organizations described in section 1004 (a) (2) and charitable, etc., organizations described in section 1004 (b); or

(ii) Within a restricted class if such individual did not receive any beneficial interest, vested or contingent, in the property from the creator of the power or thereafter acquire any such interest. For the purposes of this paragraph, the term "descendant" includes adopted and illegitimate descendants, and the term "spouse" includes former spouse. The treatment of adopted and illegitimate descendants as descendants is intended to include adopted and illegitimate children (and their descendants and their adopted and illegitimate children) as descendants, if such children would be descendants had they been born as legitimate children in the station to which they are adopted or born. The provisions of (ii) apply to a power possessed by a disinterested trustee or one occupying a similar status to appoint within a relatively small class. For example, a power to appoint within a class composed of A's children would be a power to appoint within a restricted class. On the other hand, a power to appoint to anyone except A and his family would not be a power confined to a restricted class. The restricted character of a class is not affected by the fact that the decedent has power to appoint to any number of charitable, etc., organizations described in section 1004 (a) (2) or (b). A power to appoint is not confined to a restricted class merely because the power is not exercisable in favor of such individual, his creditors, his estate, or the creditors of his estate, or all of them.

(2) The release of a power to appoint created on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, which is not a power exercisable in favor of the donee of the power (who is the appointor), his estate, his creditors, or the creditors of his estate.

(3) The release of a power to appoint created on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, which power is exercisable in favor of the donee of the power (who is the appointor), his creditors, his estate, or the creditors of his estate, if on such date such appointor was under a legal disability to release such power and if the release thereof is effected prior to July 1, 1943 or the day after six months immediately following the termination of the legal disability, whichever is later. The legal disability referred to is determined under local law and may include the disability of an insane person, a minor, or an unborn child. The fact that a power of appointment of the type possessed by the individual was not generally releasable under the local law does not place the individual under a legal disability within the meaning of section 452 (b) (2) of the Revenue Act of 1942. Until the termination of the present war, an individual in active service in the military or naval forces of the United States on October 21, 1942, shall be considered under a legal disability to release a power to appoint while such individual is in such service.

If a power to appoint is exercised by creating another power to appoint, to the extent of the property subject to such second power to appoint, such first power shall not be considered excepted under preceding subparagraph (1). For this purpose the statute prescribes that the value of the property subject to such second power to appoint shall be its value unreduced by any precedent or subsequent interest not subject to such power to appoint. Thus, if the donor has a power to appoint a fund of $100,000 within a class consisting only of his children (which is one of the excepted powers) and during his lifetime exercises such power by giving one child a power to appoint $25,000 of such fund and by making an outright appointment of $75,000, only $25,000 is considered a gift. If, however, the individual had appointed the income from the entire fund to such child for life with power in such child to appoint the remainder in his will, the whole $100,000 would be considered a gift. This provision applies whether or not the newly created power to appoint is of a kind described in preceding subparagraph (1).

The term "power of appointment" includes any power received by the appointor from another person which is in substance and effect a power to appoint regardless of the nomenclature used in creating the power and local property law connotations. For example, if a settlor transfers property in trust for the life of his wife with a power in the wife to appropriate or consume the principal of the trust, the wife has a power of appointment and the release of such a power constitutes a taxable transfer. On the other hand, if, for example, a power of appointment with respect to the remainder, exercisable by the life tenant, is subject to the consent of the trustee who is a disinterested third party not receiving any beneficial interest upon such transfer, upon the exercise or release of the power by the life tenant no part of the gift of such remainder is attributable to the trustee personally. Similarly, if property is transferred in trust by a grantor reserving the power to alter, amend, revoke, or terminate the trust with the consent of the trustee who is a disinterested party not receiving any beneficial interest upon the transfer, the exercise or relinquishment of such power by the grantor with the consent of such trustee is not a taxable transfer by the latter. Ordinarily, powers of management with respect to property in trust, such as the determination of whether distributions shall be made annually or quarterly, the making of investments and reinvestments, or the determination of items of income or principal under recognized rules of accounting, are not powers of appointment over property under section 1000 (c).

A power to appoint is exercised where the property subject thereto is appointed to the taker in default of appointment, regardless of whether or not the appointed interest and the interest in default of appointment are identical, and regardless of whether or not the appointee renounces any right to take under the appointment. For the purposes of section 1000 (c), a release of a power of appointment need not be express or formal in character. For example, the failure to exercise a power of appointment within a specified time, resulting in the termination of the power of appointment, is taxable if other conditions imposed by section 1000 (c) are present.

The reduction in scope of a power of appointment, as defined in section 1000 (c), to an excepted power under section 1000 (c) (1) or (2), which is not a power of appointment as thus defined, constitutes the release of the power of appointment. In such case, the release is effected at such time as under the applicable law the power cannot be exercised in favor of persons or objects other than those described in section 1000 (c) (1) or (2). If such release is effected prior to July 1, 1943 (or, in a case described in subparagraph (3) of (b) of this article, relating to persons under a legal disability, prior to the date specified therein), a taxable transfer does not result. For the purpose of determining whether a power created on or before October 21, 1942 satisfied the requirements of section 1000 (c) (2) on July 1, 1943 (or other applicable date in a case described in subparagraph (3) of (b) of this article), the fact as to whether the individual received any beneficial interest in the property is to be ascertained without regard to the power to appoint which he received. If such release is effected on or after July 1, 1943 (or, in a case described in subparagraph (3) of (b) of this article, relating to persons under a legal disability, on or after the date specified therein), a taxable transfer results.

Section 1000 (c) does not apply to a power reserved, directly or indirectly, by a donor upon a transfer, as distinguished from the possessor of a power of appointment received from another person. See article 3 with respect to the taxability of reserved powers.

(c) *Transfers of community property after 1942.* During the calendar year 1943 and any calendar year thereafter any gift of property held as community property under the law of any State, Territory, or possession of the United States, or any foreign country constitutes a gift of the husband for the purpose of the gift tax statute (regardless of whether under the terms of the transfer the husband alone or the wife alone is designated as the donor or whether both are so designated as donors), except to the extent that such property is shown (1) to have been received as compensation for personal services actually rendered by the wife or derived originally from such compensation, or (2) to have been derived originally from separate property of the wife. The entire property comprising the gift is prima facie a gift of the husband, but any portion thereof which is shown to be economically attributable to the wife as prescribed in the preceding sentence constitutes a gift of the wife.

The rule stated in the preceding paragraph applies alike to a transfer by way of gift of community property to a third party or third parties, to a division of such community property between husband and wife into the separate property of each, and to a transfer by the husband and wife of any part of such community property into the separate property either of the husband or of the wife, or into a joint estate or tenancy by the entirety of both spouses. In all of such cases the value of the property so transferred or so divided, as the case may be, is a gift by the husband to the extent that it exceeds the aggregrate amount of the value of that portion which is shown to be economically attributable to the wife, as prescribed in the preceding paragraph, and of the value of the husband's interest in such property after such transfer or division. The value of the property so transferred or so divided, as the case may be, is a gift by the wife to the extent that the portion of such value which is shown to be economically attributable to her, as prescribed in the preceding paragraph, exceeds the value of her interest in such property after such transfer or division. See examples (7) and (8) of (a) of this article. No gift tax results from a transfer on or after January 1, 1943 of separate property of either spouse into community property.

Property derived originally from compensation for personal services actually

rendered by the wife or from separate property of the wife includes property that may be identified as (1) income yielded by property received as such compensation or by such separate property, and (2) property clearly traceable (by reason of acquisition in exchange, or other derivation) to property received as such compensation, to such separate property, or to such income. The rule established by this statute for apportioning the respective contributions of the spouses is applicable regardless of varying local rules of apportionment, and State presumptions are not operative against the Commissioner.

PAR. 3. ARTICLE 5 [§ 85.5 of such Title 26], as amended by Treasury Decision 5090, approved October 17, 1941, is further amended by changing the fifth sentence thereof to read as follows:

In determining the aggregate sum of the net gifts for each of the preceding calendar years, the total amount of the specific exemption claimed and allowed for such preceding years should be deducted, except that if tax is being computed for the calendar year 1943 or for any calendar year thereafter such deduction can not exceed $30,000, or if the tax is being computed for a calendar year subsequent to 1935 and prior to 1943 such deduction can not exceed $40,000.

PAR. 4. Article 7 [§ 85.7 of such Title 26], amended by Treasury Decision 5090, is further amended by striking from the sentence, in the last paragraph, which begins "As stated in article 5 * * *," the following: "or for any calendar year thereafter,".

PAR. 5. There is inserted immediately preceding article 9 [§ 85.9 of such Title 26] the following:

SEC. 454. EXCLUSION FOR NET GIFTS REDUCED. (Revenue Act of 1942, Title IV, Part II.)

Section 1003 (b) (2) (relating to exclusion of gifts) is amended to read as follows:

(2) *Gifts after 1938 and prior to 1943.* In the case of gifts (other than gifts in trust or of future interests in property) made to any person by the donor during the calendar year 1939 and subsequent calendar years prior to 1943, the first $4,000 of such gifts to such person shall not, for the purposes of subsection (a), be included in the total amount of gifts made during such year.

(3) *Gifts after 1942.* In the case of gifts (other than gifts of future interests in property) made to any person by the donor during the calendar year 1943 and subsequent calendar years, the first $3,000 of such gifts to such person shall not, for the purposes of subsection (a), be included in the total amount of gifts made during such year.

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part II.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

PAR. 6. Article 10 [§ 85.10 of such Title 26], as amended by Treasury Decision 4830, approved July 18, 1938, is further amended to read as follows:

ART. 10. *Total amount of gifts.* Except with respect to any gift of a future interest in property, the first $3,000 of gifts made to any one donee during the calendar year 1943 or during any calendar year thereafter shall be excluded in determining the total amount of gifts for such calendar year. In the case of a gift in trust, the beneficiary of the trust is the donee of the gift. Except with respect to any gift in trust or of a future interest in property, the first $4,000 of gifts made to any one donee during any one of the calendar years 1939 to 1942, inclusive, shall be excluded in determining the total amount of gifts for any such calendar year. Except with respect to any gift of a future interest in property, the first $5,000 of gifts made to any one donee during the calendar year 1938 or during any calendar year prior thereto shall be excluded in determining the total amount of gifts for such calendar year. The entire value of any gift of a future interest in property, and the entire value of any gift made by a transfer in trust during the calendar years 1939 to 1942, inclusive, must be included in the total amount of gifts for the calendar year in which such a gift is made.

PAR. 7. There is inserted immediately preceding article 12 (§ 85.12 of such Title 26] the following:

SEC. 455. SPECIFIC EXEMPTION OF GIFTS REDUCED. (Revenue Act of 1942, Title IV, Part II.)

That part of section 1004 which precedes paragraph (2) of subsection (a) is amended to read as follows:

SEC. 1004. DEDUCTIONS.

In computing net gifts for the calendar year 1942 and preceding calendar years, there shall be allowed (except as otherwise provided in paragraph (1) of subsection (a)) such deductions as are provided for under the gift tax laws applicable to the years in which the gifts were made.

In computing net gifts for the calendar year 1943 and subsequent calendar years, there shall be allowed as deductions:

(a) *Residents.* In the case of a citizen or resident—

(1) *Specific exemption.* An exemption of $30,000, less the aggregate of the amounts claimed and allowed as specific exemption in the computation of gift taxes for the calendar year 1932 and all calendar years intervening between that calendar year and the calendar year for which the tax is being computed under the laws applicable to such years. This exemption shall be applied in all computations in respect of the calendar year 1942 and previous calendar years for the purpose of computing the tax for the calendar year 1943 or any calendar year thereafter.

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part II.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

PAR. 8. Article 12 [§ 85.12 of such Title 26] is amended as follows:

(A) By changing the first sentence to read as follows:

In determining the amount of net gifts of a given calendar year there may be deducted, if the donor was a resident or citizen of the United States at the time the gifts were made, a specific exemption of $30,000 ($40,000 if the calendar year is after 1935 and before 1943, or $50,000 if the calendar year is before 1936), less the sum of the amounts claimed and allowed as an exemption in prior calendar years.

(B) By changing the third sentence to read as follows: In determining the aggregate sum of the net gifts for the preceding calendar years (see article 5), the total amount of the specific exemption claimed and allowed for such preceding years should be deducted, except that if tax is being computed for the calendar year 1943 or for any calendar year thereafter such deduction cannot exceed $30,000, or if the tax is being computed for a calendar year subsequent to 1935 and prior to 1943 such deduction cannot exceed $40,000.

PAR. 9. Article 18, as amended by Treasury Decision 4955, approved November 20, 1939, is further amended by striking out "(See § 531 (b).)" in the second paragraph and by inserting in lieu thereof "(See article 76 (b).)".

PAR. 10. Article 20 [§ 85.20 of such Title 26], as amended by Treasury Decision 4830, is further amended by striking out the first sentence and by inserting in lieu thereof the following:

Any individual resident or citizen of the United States who within the calendar year 1943, or within any calendar year thereafter, makes a transfer or transfers by gift to any one donee of a value or total value in excess of $3,000 (or regardless of value in the case of a gift of a future interest in property) must file a gift tax return for such year on Form 709. Any individual resident or citizen of the United States who within any one of the calendar years 1939 to 1942, inclusive, makes a transfer or transfers by gift to any one donee of a value or total value in excess of $4,000 (or regardless of value in the case of a gift in trust or of a future interest in property) must file a gift tax return for such year on Form 709.

PAR. 11. Article 23 [§ 85.23 of such Title 26], as amended by Treasury Decision 4830, is further amended by striking out the third sentence and by inserting in lieu thereof the following:

If the return is filed for the calendar year 1943, or for any calendar year thereafter, it must set forth every transfer by gift to any one donee during such calendar year which singly or in the aggregate exceeds $3,000 in value (or regardless of value in the case of a gift of a future interest in property). A return filed for the calendar year 1939, or for any calendar year thereafter prior to the calendar year 1943, must set forth every transfer by gift to any one donee during such calendar year which singly or in the aggregate exceeds $4,000 in value (or regardless of value in the case of a gift in trust or of a future interest in property).

PAR. 12. There is inserted immediately preceding article 41 [§ 85.41 of such Title 26] the following:

SEC. 456. PERIOD FOR FILING PETITION EXTENDED IN CERTAIN CASES. (Revenue Act of 1942, Title IV, Part II, enacted October 21, 1942.)

(a) *Period extended.* Section 1012 (a) (1) (relating to period for filing petition with Board of Tax Appeals) is amended by inserting at the end thereof the following new sentence: "If the notice is addressed to a donor outside the States of the Union and the District of Columbia, the period specified in this paragraph shall be one hundred and fifty days in lieu of ninety days."

(b) *Effective date.* The amendment made by this section shall be applicable with respect to notices of deficiency mailed after the date of the enactment of this Act.

SEC. 504. CHANGE OF NAME OF BOARD OF TAX APPEALS. (Revenue Act of 1942, Title V, enacted October 21, 1942.)

(a) *The Tax Court of the United States.* Effective on the day after the date of enactment of this Act, section 1100 (relating to status of Board of Tax Appeals) is amended by inserting at the end thereof the following new sentence: "The Board shall be known as The Tax Court of the United States and the members thereof shall be known as the presiding judge and the judges of The Tax Court of the United States."

(b) *Powers, tenure, etc., unchanged.* The jurisdiction, powers, and duties of The Tax Court of the United States, its divisions and its officers and employees, and their appointment, including the designation of its officers, and the immunities, tenure of office, powers, duties, rights, and privileges of the presiding judge and judges of The Tax Court of the United States shall be the same as by existing law provided in the case of the Board of Tax Appeals. The Commissioner shall continue to be represented by the same counsel in the same manner before the Court as he has heretofore been represented in proceedings before the Board of Tax Appeals and the taxpayer shall continue to be represented in accordance with rules of practice prescribed by the Court. No qualified person shall be denied admission to practice before such Court because of his failure to be a member of any profession or calling.

(c) *References.* All references in any statute (except this section), or in any rule, regulation, or order, to the "Board of Tax Appeals" or to the "Board" when used in the sense of "Board of Tax Appeals", or to the "member", "members", or "chairman" thereof shall be considered to be made to The Tax Court of the United States, the judge, judges, and presiding judge thereof, respectively.

PAR. 13. Article 41 [§ 85.41 of such Title 26] is amended by changing the third, fourth and fifth sentences thereof to read as follows:

Within 90 days after the notice of deficiency is mailed (or within 150 days after the notice of deficiency is mailed in case such notice is mailed after October 21, 1942, addressed to a donor outside the States of the Union and the District of Columbia), a petition may be filed with the Board of Tax Appeals for a redetermination of the deficiency. In determining such prescribed period, Sunday or a legal holiday in the District of Columbia is not to be counted as the last day thereof. Except as stated in subparagraphs numbered (1), (2), (3), (4), and (5) of this article, no assessment of deficiency in respect of the tax shall be made until such notice has been mailed to the donor, nor until the expiration of the period prescribed for the filing of a petition with the Board, nor, if a petition has been filed, until the decision of the Board has become final.

PAR. 14. Article 45 [§ 85.45 of such Title 26], as amended by Treasury Decision 4830, is further amended as follows:

(A) By changing the third sentence of the second paragraph thereof to read as follows:

The donor may file a petition with the Board for a redetermination of the amount of the deficiency within 90 days after such notice is mailed (or within 150 days after mailing in case such notice is mailed after October 21, 1942, addressed to a donor outside the States of the Union and the District of Columbia), and in determining such prescribed period Sunday or a legal holiday in the District of Columbia is not to be counted as the last day thereof.

(B) By striking "90-day" from the eighth sentence of the third paragraph the first time it appears therein.

(C) By striking "the 90-day period" from the eighth sentence of the third paragraph the second time it appears therein, and by inserting in lieu thereof "such period".

(D) By striking "90-day period" from the ninth sentence of the third paragraph and by inserting in lieu thereof "period provided for the filing of such petition".

PAR. 15. There is inserted immediately preceding article 62 [§ 85.62 of such Title 26] the following:

SEC. 451. OVERPAYMENT FOUND BY BOARD. (Revenue Act of 1942, Title IV, Part II.)

The second sentence of section 1027 (d) (relating to overpayment found by the Board of Tax Appeals) is amended by striking out "or the filing of the petition" and inserting in lieu thereof "or the mailing of the notice of deficiency".

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title IV, Part II.)

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

SEC. 503. SUIT AGAINST COLLECTOR BAR IN OTHER SUITS. (Revenue Act of 1942, Title V.)

Section 3772 (relating to suits) is amended by inserting at the end thereof the following new subsection:

(d) *Suits against collector a bar.* A suit against a collector (or former collector) or his personal representative for the recovery of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty claimed to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected shall be treated as if the United States had been a party to such suit in applying the doctrine of res judicata in all suits instituted after June 15, 1942, in respect of any internal revenue tax, and in all proceedings in the Board and on review of decisions of the Board where the petition to the Board was filed after such date.

PAR. 16. Article 68 [§ 85.68 of such Title 26], as amended by Treasury Decision 4830, is further amended by changing the first sentence of (b) (1) thereof to read as follows:

If the Board finds that the tax has been overpaid for the year to which the notice of the deficiency relates, if the decision of the Board as to the amount overpaid becomes final, and if the Board determines as part of its decision that, as to gifts made during the calendar year 1943 or thereafter, any portion of the overpayment was made within three years before the filing of the claim for refund or the mailing of the notice of deficiency, whichever is earlier, or, as to gifts made during the calendar year 1942 or prior thereto, any portion of the overpayment was made within three years before the filing of the claim for refund or the filing of the petition, whichever is earlier, the amount of such portion of the overpayment will be credited or refunded.

PAR. 17. There is inserted at the end of article 75 [§ 85.75 of Title 26] the following sentence:

For provisions of law and regulations authorizing the postponement by reason of war of the performance of certain acts required or permitted under the gift tax law, see section 507 of the Revenue Act of 1942 and regulations pertaining thereto separately promulgated.

PAR. 18. There is inserted immediately preceding article 76 [§ 85.76 of such Title 26] the following:

SEC. 458. DEFINITION OF PROPERTY IN UNITED STATES. (Revenue Act of 1942, Title IV, Part II.)

(a) *Technical amendment to definition.* Section 1030 (b) is amended to read as follows:

(b) *Property within the United States.* Stock in a domestic corporation owned and held by a nonresident not a citizen of the United States shall be deemed property situated within the United States.

(b) *Effective date of amendment.* The amendment made by this section shall be effective as of February 10, 1939.

PAR. 19. Article 76 [§ 85.76 of such Title 26] is amended by changing the first sentence of (b) thereof to read as follows:

Stock in a domestic corporation owned and held by a nonresident not a citizen of the United States, shall be deemed property situated in the United States for the purposes of the gift tax.

(Secs. 1000, 1029 and 3791 of the Internal Revenue Code (53 Stat. 144, 157, 487; 26 U.S.C. 1000, 1029, 3791), sec. 451, 452, 453, 454, 455, 456, 457, 458, and 507 of the Revenue Act of 1942 (Pub. Law 753, 77th Cong.), approved October 21, 1942, the Joint Resolution of December 17, 1942 (Pub. TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[General Docket 25]

PART 318—MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN ALL DISTRICTS

PART 317—REGISTRATION OF DISTRIBUTORS

Order of the Director in the matter of amending § 318.2 (j) of the marketing rules and regulations, as prescribed in General Docket No. 15, and § 317.10 (c) of the rules and regulations for the registration of distributors, as prescribed in General Docket No. 12.

Upon the findings and conclusions set forth in the Opinion of the Director, filed simultaneously herewith, wherein it appears that the Bituminous Coal Division instituted the proceeding herein to determine whether and to what extent § 318.2 (j) of the Marketing Rules and Regulations and § 317.10 (c) and related sections of the Rules and Regulations for the Registration of Distributors should be amended, and pursuant to sections 2 (a), 4 II (h) and other provisions of the Bituminous Coal Act of 1937.

It is hereby ordered, That § 318.2 (j) of the Marketing Rules and Regulations, and §§ 317.3 (d) (7) and 317.10 (c) of the Rules and Regulations for the Registration of Distributors are amended to read as follows:

§ 318.2 *Sales agents.* • • •

(j) No commission may be paid to a sales agent by a code member for the sale of coal to any person who is owned or controlled by or who owns or controls the sales agent or who is owned or controlled by another person or group of persons who also own or control the sales agent, unless the Director, pursuant to application by a code member or the sales agent has authorized the payment of such commission upon a showing by the code member or sales agent that the payment thereof would not violate paragraphs 11 and 12 of section 4 II (i) of the Act and the Code or any other provision of the Act, the Code or the Rules and Regulations of the Division: *Provided*, That, where the relationship does not involve control and consists of the ownership of less than 10 percent of the voting securities of the sales agent, purchaser, or both, as the case may be, such commission may be paid and no application need be filed by the code member or sales agent. The Director may, upon suitable showing by the applicant, grant the application, or, after notice and hearing grant, deny or otherwise dispose of such application. Any application may be accompanied by a request that relief be retroactive to the date of filing the application or by a request for the approval of escrow or other specified arrangements pending disposition of the application. Any change in the relationship disclosed in the application shall be reported by the applicant to the Division within ten days from the date thereof.

§ 317.3 *Terms of "Agreement by Registered Distributor"* • • •

Agreement by Registered Distributor

• • • • • •

(7) Not to accept or retain a distributor's discount on coal purchased by the distributor for resale to any person who is owned or controlled by or who owns or controls the distributor or who is owned or controlled by another person or group of persons who also own or control the distributor, unless the Director, pursuant to application by the distributor has authorized the acceptance or retention of such discount upon a showing by the distributor that the allowance thereof would not violate paragraphs 11 and 12 of section 4 II (i) of the Act and the Code or any other provision of the Act, the Code or the Rules and Regulations of the Division: *Provided*, that, where the relationship does not involve control and consists of the ownership of less than 10 percent of the voting securities of the distributor, purchaser, or both, as the case may be, such discount may be accepted and retained and no application need be filed by the distributor. (The Director may, upon suitable showing by the applicant, grant the application or after notice and opportunity for hearing, grant, deny or otherwise dispose of such application. Any application may be accompanied by a request that relief be retroactive to the date of filing the application or by a request for the approval of escrow or other specified arrangements pending disposition of the application. Any change in the relationship disclosed in the application shall be reported by the applicant to the Division within ten days from the date thereof.)

§ 317.10 *Miscellaneous provisions.* • • •

(c) No distributor's discount may be accepted or retained by a distributor on coal purchased by the distributor for resale to any person who is owned or controlled by or who owns or controls the distributor or who is owned or controlled by another person or group of persons who also own or control the distributor, unless the Director, pursuant to application by the distributor, has authorized the acceptance or retention of such discount upon a showing by the distributor that the allowance thereof would not violate paragraphs 11 and 12 of section 4 II (i) of the Act and the Code or any other provision of the Act, the Code or the Rules and Regulations of the Division: *Provided*, That, where the relationship does not involve control and consists of the ownership of less than 10 per cent of the voting securities of the distributor, purchaser, or both, as the case may be, such discount may be accepted and retained and no application need be filed by the distributor. The Director may, upon suitable showing by the applicant, grant the application, or after notice and opportunity for hearing, grant, deny or otherwise dispose of such application. Any application may be accompanied by a request that relief be retroactive to the date of filing the application or by a request for approval of escrow or other specified arrangements pending disposition of the application. Any change in the relationship disclosed in the application shall be reported by the applicant to the Division within ten days from the date thereof.

It is further ordered, That § 317.1 *Meaning of terms* of the Rules and Regulations for the Registration of Distributors be amended to include the following additional paragraph:

(f) *Control.* The possession, direct or indirect of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

It is further ordered, That the foregoing amendments shall be effective thirty (30) days from the date hereof.

Dated: March 6, 1943.

[SEAL] DAN H. WHEELER,
Director.

TITLE 32—NATIONAL DEFENSE

Chapter XI—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-249]

WALLIS PLUMBING CO.

AUTHORITY: Regulations in this subchapter issued under P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.

The Wallis Plumbing Company, Inc., 2218 Pennsylvania Avenue, Baltimore, Maryland, is a corporation engaged in the plumbing and heating supply business. Subsequent to May 23, 1942, the Wallis Plumbing Company, Inc., having knowledge of the provisions of Limitation Order L-79, sold and delivered numerous items of new metal plumbing equipment and new metal heating equipment to ultimate consumers in wilful violation of that order. On June 9, 1942 the Wallis Plumbing Company, Inc., having knowledge of the provisions of Preference Rating Order P-84, in wilful violation thereof, extended an A-10 preference rating under Preference Rating Order P-84 for the purchase of certain plumbing and heating materials which it knew were not to be used, and were not to replace materials which had been used, for emergency repairs.

These violations of Limitation Order L-79 and Preference Rating Order P-84 have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.249 *Suspension Order S-249.* (a) Deliveries of material to The Wallis Plumbing Company, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to The Wallis Plumbing Company, Inc., its successors and assigns, of any material, the supply or distribution of which is covered by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) The Wallis Plumbing Company, Inc., its successors and assigns, are hereby prohibited from accepting deliveries of, receiving, delivering, selling, transferring, trading, or dealing in any new metal plumbing or heating equipment as defined in Limitation Order L-79, except with the specific approval of the Regional Compliance Chief, War Production Board, Philadelphia, Pennsylvania.

(d) Nothing contained in this order shall be deemed to relieve the Wallis Plumbing Company, Inc. from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on March 13, 1943, and shall expire on June 13, 1943.

Issued this 10th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Amendment 1 to Suspension Order S-219]
S-219]

E. C. JOHNSTON

E. C. Johnston, Longview, Texas, has appealed from the provisions of Suspension Order S-219, issued January 18, 1943. In his appeal he submitted certain evidence not previously submitted showing that his violation of Conservation Order M-68 was not intentional but was caused by his careless disregard of the provisions of that order. As a result of the evidence submitted in this appeal, it has been determined that Suspension Order S-219 should be modified so as to expire at an earlier date than now specified.

In view of the foregoing, paragraph (d) of § 1010.219, Suspension Order S-219, issued January 18, 1943, is hereby amended to read as follows:

(d) This order shall take effect on January 22, 1943, and shall expire on March 15, 1943, at which time the restrictions contained in this order shall be of no further effect.

Issued this 9th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 933—COPPER

[Supplementary Order M-9-b, as Amended March 11, 1943]

§ 933.3 *Supplementary Order M-9-b*—(a) *Definitions.* For the purposes of this supplementary order:

(1) "Scrap" means all copper or copper-base alloy materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason.

(2) "Copper clad steel scrap" means all copper or copper-base alloy clad or coated steel materials or objects in which the cladding or coating amounts to 3% or more by weight and which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason.

(3) "Copper" means copper metal which has been refined by any process of electrolysis or fire refining to a grade and in a form suitable for fabrication such as cathodes, wire bars, ingot bars, ingots, cakes, billets, wedge bars or other refined shapes, or copper shot or other forms produced by a refiner.

(4) "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(5) "Alloy ingot" means an alloy ingot or other shape for remelting which has been cast primarily from copper-base alloy or scrap.

(6) "Brass mill scrap" means that scrap which is a waste or by-product of industrial fabrication of products of brass mills.

(7) "Brass mill" means any person who rolls, draws or extrudes castings of copper or copper-base alloys; it does not include a mill which rerolls, redraws or reextrudes products produced from refinery shapes or castings of copper or copper-base alloys.

(8) "Foundry" means any person casting copper or copper-base alloy shapes or forms suitable for ultimate use without rolling, drawing, extruding, or forging. The process of casting includes the removal of gates, risers and sprues, and sand blasting, tumbling or dipping, but does not include any further machining or processing.

(9) "Scrap dealer" means any person regularly engaged in the business of buying and selling scrap.

(10) "Public utilities" means any person furnishing telephone, telegraph or electric light and power services to the public or city, suburban or inter-city electrically operated public carrier transportation.

(b) *Delivery or acceptance of scrap, copper clad steel scrap or alloy ingots.* Notwithstanding any preference rating, no person shall deliver or accept the delivery of any scrap, copper clad steel scrap or alloy ingots except in accordance with the following directions:

(1) Brass mill scrap shall be delivered only to a scrap dealer or to a brass mill; a scrap dealer who accepts delivery of brass mill scrap shall in turn deliver such scrap only to a brass mill or another scrap dealer.

(2) No. 1 or No. 2 copper scrap shall be delivered only to a scrap dealer, or to a person specifically authorized by the Director General for Operations to receive deliveries of such quantities of No. 1 or No. 2 copper scrap.

(3) Copper clad steel scrap and unreloadable fired artillery cases, cartridge cases or bullet jackets, which have been manufactured from copper, copper-base alloys or copper clad steel, in excess of ten (10) pounds, or copper base alloy scrap containing 0.1% or more of beryllium by weight, shall be delivered only to persons specifically authorized or directed by the Director General for Operations to receive such deliveries.

(4) Scrap other than that specified in paragraphs (b) (1) through (3) above shall be delivered only to a scrap dealer, or to a person specifically authorized by the Director General for Operations to receive deliveries of such quantities of scrap.

(5) Alloy ingots shall be delivered only to a person specifically authorized by the Director General for Operations to receive deliveries of such quantities of alloy ingots.

(6) No person shall accept delivery of alloy ingots, copper clad steel scrap or unreloadable fired artillery cases, cartridge cases or bullet jackets, which have been manufactured from copper, copper-base alloys or copper clad steel, in excess of ten (10) pounds, or of copper base alloy scrap containing 0.1% or more of beryllium by weight, except as specifically authorized by the Director General for Operations.

(7) A person other than a brass mill or dealer shall accept a delivery of scrap, other than that specified in paragraph (b) (6) above, only pursuant to a specific authorization of the Director General for Operations.

(8) A brass mill shall accept no delivery of scrap other than brass mill scrap without the specific authorization of the Director General for Operations.

(9) A scrap dealer shall accept delivery of scrap only if:

(i) Such scrap is not of a kind or grade specified in paragraph (b) (6) above, and

(ii) Such scrap dealer shall during the preceding 60 days, have sold or otherwise disposed of scrap to an amount at least equal in weight to the scrap inventory of such scrap dealer on the date of acceptance of delivery of scrap (which inventory shall exclude such delivery), and

(iii) Such scrap dealer shall have filed with the Bureau of Mines, College Park, Maryland, by the 10th of each month, Form PD-249, and

(iv) Such scrap dealer shall have supplied such other information as the Director General for Operations may from time to time require.

(10) No person shall dispose of any material, the delivery of which he accepted as scrap, other than as scrap in the manner provided in this paragraph (b), except with the specific authorization of the Director General for Operations.

(c) *Melting or processing of scrap, copper clad steel scrap or alloy ingots.* (1) No person other than a brass mill shall melt or process scrap, copper clad steel scrap or alloy ingots, without the specific authorization of the Director General for Operations.

(2) No brass mill shall melt or process any scrap other than brass mill scrap, without the specific authorization of the Director General for Operations.

(3) Any person accepting a delivery of scrap, copper clad steel scrap or alloy ingots shall use such scrap, copper clad steel scrap or alloy ingots only for the purposes for which acceptance of such delivery is authorized by the Director General for Operations.

(d) *Delivery to or acceptance of copper by foundries and makers of alloy ingots.* Notwithstanding any preference rating, no person shall deliver any copper to a foundry or to a maker of alloy ingots, and no foundry or maker of alloy ingots shall accept any such delivery,

except as specifically authorized by the Director General for Operations.

(e) *Authorization*—(1) *Basis of authorization.* Authorization to receive deliveries of, melt or process copper, scrap, copper clad steel scrap, or alloy ingots will be given by the Director General for Operations to assure the satisfaction of the most essential war requirements.

(2) *Application for authorization.* (i) Any person desiring to obtain an authorization, pursuant to this order, to accept the delivery of, melt or process copper, alloy ingot, scrap or more than ten (10) pounds of unreloadable fired artillery cases, cartridge cases or bullet jackets which have been manufactured from copper or copper base alloys, should make application on Form PD–59, Copper Division, War Production Board, by the 5th of each month.

(ii) Any person applying for an authorization to accept delivery of copper clad steel scrap or more than ten (10) pounds of unreloadable fired artillery cases, cartridge cases or bullet jackets which have been manufactured from copper clad steel must furnish the Director General for Operations with a letter setting forth the kind and grade of material, the tonnage, the period during which deliveries must be received, and the end use into which products produced out of such material will go.

(3) *Proof of authorization*—(i) *Refined copper.* Any foundry or ingot maker authorized to purchase specified amounts of refined copper under the terms of an allocation certificate must submit the allocation certificate issued to him to his supplier at the time of placing his order. If the order is placed with a dealer, the allocation certificate must be surrendered to the dealer. If the order is placed with a refiner, the allocation certificate must be endorsed by the refiner, specifying the quantity of refined copper which the refiner will deliver.

(ii) *Alloy ingot, scrap or copper clad steel scrap.* Any person authorized to purchase specified amounts of alloy ingot, scrap or copper clad steel scrap may notify his supplier of his right to make a purchase by endorsing on, or attaching to, each contract or purchase order placed by him under the terms of the authorization, a certification in the following form signed by an official duly authorized for such purpose:

Certification: The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to purchase the items shown on this purchase order pursuant to Allocation Certificate, Serial No. ——— for the month of ——— and that receipt of these items, together with all other orders placed by him, will not result in his receiving more alloy ingot, scrap or copper clad steel scrap, than he has been authorized to receive for the month indicated by such purchase order pursuant to said Allocation Certificate.

Name of purchaser	Address
Signature and title of duly authorized official	Date

The person receiving the certification shall be entitled to rely on such certification unless he knows or has reason to believe it to be false. Each person supporting a purchase order by such a certification must maintain at his regular place of business all documents, including purchase orders and preference rating orders and certificates, upon which he relies as entitling him to make such purchases, segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection.

(f) *Disposal of scrap or copper clad steel scrap, generated through fabrication or accumulated through obsolescence.* No person shall use, melt, or dispose of any scrap or copper clad steel scrap generated in his plant through fabrication or accumulated in his operations through obsolescence, in any way other than by sale or delivery to a person authorized to accept such delivery, without the specific authorization of the Director General for Operations. In no event shall any person keep on hand more than thirty days' accumulation of scrap or copper clad steel scrap unless such accumulation aggregates less than one ton. All persons generating scrap or copper clad steel scrap through fabrication or accumulating scrap or copper clad steel scrap through obsolescence, in excess of five hundred pounds in any calendar month, shall report on Form PD–226 on or before the 5th day of the following month, to the War Production Board, Ref: M–9–b, setting forth inventory of scrap and copper clad steel scrap at the beginning of the previous calendar month, accumulations and sales during such month, inventory at the end of such month and such other information as the Director General for Operations may request from time to time. Nothing herein contained shall prohibit any public utility from using in its own operations wire or cable which has become scrap by obsolescence provided the lengths of such wire or cable are in excess of five feet and the quantity of such material so used by such public utility in any calendar month does not exceed five tons or such other amount as the Director General for Operations may specifically authorize.

(g) *Toll agreement.*. No person shall deliver scrap, copper clad steel scrap or alloy ingots and no person shall accept same for converting, remelting or other processing under any existing or future toll agreement, conversion agreement or other form of agreement by which title remains vested in the person delivering the scrap, copper clad steel scrap or alloy ingots or causing the scrap, copper clad steel scrap or alloy ingots to be delivered, or which agreement is contingent upon return of processed material in any quantities, equivalent or otherwise, to the person delivering or causing the scrap, copper clad steel scrap or alloy ingots to be delivered, unless and until such an agreement shall have been approved by the Director General, for Operations. Any person desiring to have such an agreement approved must furnish the War Production Board a letter setting forth the names of the parties to such agreement, the material involved as to kind and grade, the form of same, the estimated tonnage involved, the estimated rate of delivery, the length of time such agreement or other similar agreement has been in force, the duration of the agreement, the purpose for which the processed material is to be used, and any other pertinent data that would justify such approval.

(h) *Restriction on acceptance of copper-base alloys or castings, including alloy ingots, made therefrom.* No person shall knowingly accept delivery of copper-base alloys or castings, including alloy ingots, made therefrom, which have been obtained by melting and processing scrap or copper clad steel scrap delivered to a melter or processor contrary to the provisions of this order.

(i) *Specific directions.* The Director General for Operations may from time to time issue specific directions to any person as to the source, destination, amount, or grade of scrap, copper clad steel scrap or alloy ingots to be delivered, acquired or used by such person.

(j) *Reports.* In addition to the reports specified in this order, each ingot maker shall file by the 5th of each month, Form PD–751, Ingot Makers Report of Copper Base Alloy Ingot and each foundry shall file by the 5th of each month, Form PD–59–B, Copper Foundries: Monthly Report of Copper Base Alloy Ingot Inventory.

(k) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or using material under priority control and may be deprived of priorities assistance.

(l) *Addressing of communications.* All applications, statements, or other communications filed pursuant to this order or concerning the subject matter hereof, should be addressed Copper Division, War Production Board, Ref: M–9–b, Washington, D. C.

Issued this 11th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1052—KITCHEN, HOUSEHOLD AND OTHER MISCELLANEOUS ARTICLES

[Interpretation 1 to Supplementary Limitation Order L–30–a, as Amended Feb. 11, 1943]

GALVANIZED WARE AND NON-METAL COATED METAL ARTICLES

The following interpretation is hereby issued by the Director General for Operations with respect to § 1052.2, Supplementary Limitation Order L–30–a, as amended February 11, 1943:

Paragraph (b) (4) of Order L–30–a, as amended February 11, 1943, refers to "liquid and dry measures (other than oil measures with flexible spouts) . . ." Oil measures which contain spouts of rigid construction but contain hinges which permit the spouts to be raised, lowered, or otherwise moved, are to be considered "measures with flexible spouts" pursuant to paragraph (b) (4) of L–30–a.

Issued this 11th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1133—MOLYBDENUM

[Interpretation 1 of General Preference Order M–110, as Amended Jan. 9, 1943]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 1133.1, General Preference Order M–110, as amended January 9, 1943.

Attention has been called to a misunderstanding current among some of the producers of molybdenum chemicals and their customers, relative to the extent to which molybdenum bearing chemical compounds are covered by the provisions of General Preference Order M–110. The definition of molybdenum in paragraph (a) (1) of the order, contains the following language:

(ii) ------ and all chemical or other combinations of the element molybdenum with other materials ------, from which molybdenum is commercially recoverable, ------.

The words "chemical or other combinations" are modified by the phrase "from which molybdenum is commercially recoverable." The test, therefore, for determining whether or not a given chemical compound is within the definition of molybdenum is the commercial practicability of recovering molybdenum from such compound. In general, the only chemical compounds from which molybdenum is considered to be commercially recoverable for the purposes of administering order M–110, are primary chemical compounds such as those which are required to be reported on Form PD–359, prescribed pursuant to the order, viz, calcium molybdate, molybdenum oxide, molybdenum oxide briquettes, molybdenum trioxide, molybdenum sulphide, molybdenum silicide, ammonium molybdate and sodium molybdate. On the other hand, molybdenum is not considered to be commercially recoverable from secondary chemical products resulting from the further processing of one or more of the primary forms of molybdenum-bearing chemical compounds such as, for example, inks and manufactured colors.

It follows, therefore, that all persons engaging in transactions in the types of primary molybdenum chemicals exemplified by the products listed on Form PD–359 are required to comply with the provisions of General Preference Order M–110 and that by the same token, such persons are entitled to the applicable exemptions set forth in Supplementary Order M–110–a.

Issued this 11th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of aluminum, chromium, copper, nickel, and other materials required for the production of replacement parts for passenger automobiles, light, medium and/or heavy motor trucks, truck trailers, passenger carriers, off-the-highway motor vehicles and motorized fire equipment for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1297.1 *Limitation Order L–158*—(a) *Applicability of War Production Board regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(1) *Protection of production schedules.* Producers of replacement parts under the terms of this order must, notwithstanding the provisions of Priorities Regulation No. 1 (Part 944), schedule their production of replacement parts as if the orders therefor bore a rating of AA–2X.

(2) *Sequence of deliveries.* Notwithstanding the provisions of Priorities Regulation No. 1 (Part 944), delivery of replacement parts may be made by producers and distributors without regard to orders bearing preference ratings of AA–3 or lower.

(3) *Correction of critical shortages.* Whenever the Director General for Operations determines that a critical shortage exists in respect to replacement parts, he may order any producer to schedule and deliver his production in such manner as will relieve the shortage.

(b) *Definitions.* For the purposes of this order:

(1) "Replacement parts" for passenger automobiles, light, medium and heavy motor trucks, truck-trailers, passenger carriers, off-the-highway motor vehicles and motorized fire equipment means only the following enumerated parts (including components entering into such parts) used for the repair or maintenance of such vehicles, but does not include any parts specially designed for military vehicles:

(i) For all such vehicles: (1) engines (component parts only), (2) clutches, (3) transmissions, (4) propeller shafts, (5) universal joints, (6) axles, (7) braking systems, (8) wheels, (9) tire valve assemblies, (10) starting apparatus, (11) frame and spring suspension assemblies, except spring covers and spring clip cover tubes, (12) shock absorbers, (13) speedometers, (14) driving mirrors, (15) windshield wiper assemblies, (16) steering apparatus, (17) exhaust systems, (18) cooling systems including radiator shells supporting radiator cores, (19) fuel systems, but not locking type gas caps, (20) bulk tubing for fuel, oil, brake and door-actuating lines, but not copper tubing unless permitted under Limitation Order L–106, (21) lubricating systems, (22) electrical systems including generators, motors, lights, reflectors, signal horns and bulk or spool primary wire, spark plug wire, battery cable and magnet wire, (23) safety glass and channels, (24) hood, door and rear deck actuating devices.

(ii) In addition, but only for medium and heavy motor trucks, truck-trailers, passenger carriers, off-the-highway motor vehicles, and motorized fire equipment: (25) power dividers and take-offs, (26) governors, (27) transfer cases, (28) fusees and flares, (29) directional signals, (30) coupling devices, (31) trailer

landing gears, (32) cabs and seats, (33) front fenders (only that type which supports built-in lighting), (34) defroster heaters, (35) truck refrigeration units, (36) liquid measuring gauges, (37) body mechanical and hydraulic hoists (component parts only), (38) tachometers, (39) doors and door hardware.

(iii) In addition, but only for passenger carriers and motorized fire equipment: (40) body structural repair parts, (41) sash, (42) destination signs, (43) fare boxes, (44) guards and grab rails, (45) door-operating mechanisms, (46) signaling devices, (47) heating and ventilating equipment.

(2) "Rebuilt or reconditioned parts" means any replacement parts (defined in paragraph (b) (1) above) which have been used and restored for use through rebuilding or reconditioning operations.

(3) "Parts consumed in use" means those replacement parts whose function in the operation of the vehicle results in a dissipation or deterioration of material, either in whole or in part, so that the residue has no salvage value.

(4) "Passenger automobile" means any passenger vehicle, including station wagons and taxicabs propelled by an internal combustion engine and having a seating capacity of less than eleven (11) persons.

(5) "Light truck" means a complete motor truck or truck-tractor with a maximum gross vehicle weight rating of less than 9,000 pounds, as authorized by the manufacturer thereof, or the chassis therefor.

(6) "Medium and/or heavy motor truck" means a complete motor truck or truck-tractor with a maximum gross vehicle weight rating of 9,000 pounds or more, as authorized by the manufacturer thereof, or the chassis therefor.

(7) "Truck trailer" means a complete semi-trailer or full trailer designed for transportation of property or persons, or the chassis therefor.

(8) "Passenger carrier" means a complete motor coach for passenger transportation, having a seating capacity of not less than eleven (11) persons.

(9) "Off-the-highway motor vehicle" means a motor truck, truck-tractor and/or trailer, operating off the public highway, normally on rubber tires and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

(10) "Motorized fire equipment" means the chassis of a passenger automobile, light, medium or heavy motor truck, truck-tractor or trailer, used for the transportation of fire-fighting personnel or equipment.

(11) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(12) "Producer" means any individual, partnership, association, corporation, or other form of business enterprise engaged in the manufacture of replacement parts as defined in paragraph (b) (1) above.

(13) "Distributor" means any person not a producer whose business consists, in whole or in part, of the sale of replacement parts, as defined in paragraph (b) (1) above, from inventory. Distributor includes wholesalers, jobbers, dealers, retailers and other persons performing a similar function including garages and service stations.

(14) "Consumer" means the owner or operator of the automotive vehicle for which replacement parts are acquired, or the user of such replacement parts for any other purpose.

(15) "Inventory" means a stock of replacement parts, as defined in paragraph (b) (1) above, on hand, on consignment, or held for the account of the owner thereof in any other name, manner or place. Inventory is not to include any rebuilt or reconditioned parts.

(c) *Prohibitions on production.* No producer shall manufacture any parts for passenger automobiles, light, medium and heavy trucks, truck-tractors, truck-trailers, passenger carriers, off-the-highway motor vehicles, and motorized fire equipment except the replacement parts enumerated in paragraph (b) (1) above, items 1 to 47 inclusive.

(2) In the production of replacement parts, no materials shall be used which are prohibited by any orders or other restrictions on use of critical materials now or hereafter ordered by the Director General for Operations.

(d) *Restrictions on production and purchases.* (1) On and after April 1, 1943, no producer may manufacture or purchase replacement parts at such a rate that his production and purchases increase his inventory of finished replacement parts at dollar cost value at the end of any quarter of 1943 above his inventory on April 1, 1943. Producers shall have a period of sixty (60) days following the end of each quarter within which to determine inventory and to increase or decrease production or purchases so as to bring the inventory into compliance with this paragraph.

(2) Until April 1, 1943 the production of replacement parts shall be governed by the provisions of paragraph (e) (2) and (f) (2) of Limitation Order L-158, as amended January 25, 1943.

(e) *Standardization of production.* On and after April 1, 1943, production of the replacement parts named below shall be made only according to the following standards:

(1) Pistons as components of engines shall be produced only in standard sizes and the following oversizes: .005, .020, .030, .040, .060, and semi-finished.

(2) Piston pins as components of engines shall be produced only in standard sizes and the following oversizes: .003, .005.

(3) Piston rings as components of engines shall be produced only in standard sizes and the following oversizes: .020, .030, .040, .060, and in addition for medium and heavy duty trucks and buses, .080, .100.

(4) Engine bearings as components of engines shall be produced only in standard sizes and the following oversizes: .002, .010, .020, .030, semi-finished; in addition, the above sizes may be produced in the following oversizes on outside diameter in those types of connecting rod bearings that oscillate in the connecting rod: Standard, .005, .010 oversize. In addition, the "special length Ford main bearings" may be produced.

(f) *Return of replacement parts.* Replacement parts, returned by a distributor to a producer or to another distributor, if not included in the inventory of the person receiving the parts during the calendar quarter in which received, shall be included in his inventory in the next succeeding calendar quarter.

(g) *Restrictions on sales to consumers.* (1) No producer or distributor shall sell or deliver any replacement part to a consumer unless the consumer delivers to the producer or distributor concurrently with the purchase a used replacement part (excepting in the case of cab assemblies and parts consumed in use, lost or stolen) of similar kind and size for each replacement part delivered to a consumer. No replacement part shall be sold or delivered to a consumer to replace a part which the producer or distributor can recondition by use of available reconditioning facilities.

(2) Notwithstanding the provisions of paragraph (g) (1) above, a producer or distributor may sell and deliver any replacement part to a consumer without receiving a used part in exchange therefor, *Provided*, That:

(i) The producer or distributor does not install such part in the consumer's vehicle (except that he may sell and install any of the following replacement parts: for all vehicles—oil filters; for medium and heavy trucks, truck-tractors, truck trailers, passenger carriers, off-the-highway motor vehicles and motorized fire equipment — auxiliary springs, trailer connections, brakes, fifth wheels, auxiliary fuel tanks, governors, and landing gears; provided the installation of such parts will either improve the efficiency of the vehicle, increase its gross vehicle weight capacity or convert the type of vehicle to a use needed in the consumer's locality); and

(ii) The consumer signs and delivers to the producer or distributor concurrently with each purchase order (or on the written confirmation thereof if such order is placed by telephone or telegram) a certificate in the following form:

CONSUMER'S CERTIFICATE

I hereby certify that: (a) The replacement parts specified in this order are essential for the maintenance or repair of vehicle(s) I now own or operate; (b) these parts will be used for replacement of parts which, to the best of my knowledge, cannot be reconditioned by use of available facilities; and (c) I will, within thirty days after receiving the new part(s), dispose of through scrap channels a used part(s) (excepting in the case of cab assemblies and parts consumed in use, lost or stolen) of similar kind and size for each new replacement part delivered to me, except as to those parts described in paragraph (g) (2) (i) of Order L-158, which I further certify will either improve the efficiency of the vehicle, increase its gross vehicle weight capacity, or convert it to a type needed in this locality.

Dated _____

The foregoing certificate must be retained by the producer or distributor making the sale to the consumer as part of his records. The provisions of this paragraph (g) as to the return of used parts shall not apply to any Federal or Territorial Department, Bureau or Agency, or to a State or political subdivision thereof, which is forbidden by law from making such disposal of replacement parts.

(h) *Restrictions on distributors' inventories.* (1) No distributor, whose place of business is located in the Eastern or Central war time zone, shall order more than a thirty-day (30) supply of replacement parts. No such distributor shall accept delivery of replacement parts which, in combination with his existing inventory of replacement parts measured in total dollar cost value, will exceed a sixty-day (60) supply. Sixty-day supply means a supply in dollar cost value equal to two-thirds of the distributors total sales, at his cost of such parts, in the preceding quarterly period.

(2) No distributor, whose place of business is located in any other war time zone, shall order more than a forty-five (45) day supply of replacement parts. No such distributor shall accept delivery of replacement parts which, in combination with his existing inventory of replacement parts measured in total dollar cost value, will exceed a ninety-day (90) supply. Ninety-day supply means a supply in dollar cost value, equal to the distributor's total sales, at his cost of such parts, in the preceding quarterly period.

(3) Irrespective of the restrictions in subparagraphs (1) and (2) above, a distributor may accept delivery of specific items of replacement parts even though his inventory then exceeds, or will by reason of such acceptance exceed, his maximum permissible inventory as specified in subparagraphs (1) and (2) above. The quantity of such specific items in dollar cost value shall not exceed the dollar cost value of his sales of such items during the preceding thirty days or the last thirty-day period in which a sale was made if the distributor is located in the Eastern or Central war time zones, and forty-five days in all other zones.

(4) No distributor may keep in his inventory, in his possession or under his control, for a period of more than thirty days, any used, traded-in, imperfect or condemned replacement parts which cannot be reconditioned, but he must dispose of the same through the customary disposal or scrap channels. Traded-in parts shall be reconditioned as quickly as minimum quantities will permit. Used parts acquired by a distributor to be sold in "as is" condition need not be included in the distributor's inventory.

(5) Replacement parts consigned to a distributor are not to be considered as part of the distributor's inventory.

(i) *Emergency orders for replacement parts.* Notwithstanding the provisions of paragraph (h) above, a distributor may order and accept delivery of any replacement part which he does not have in stock when the same is required for repair of a designated vehicle which cannot be operated without such part. In such emergency, to secure a replacement part under this paragraph (i), a distributor must file with his order to the producer for said part a certificate in the following form:

CERTIFICATE FOR EMERGENCY ORDER

I hereby certify that the replacement part specified in the attached order is essential for the repair of the following vehicle, which cannot now be operated without such part:
Make _____ Engine number: _____

(Signed) _____
Firm, partnership or corporation

(By) _____
Title of individual

Dated _____ _____
Address of firm, partnership or corporation

A copy of each such certificate must be retained by the distributor issuing such certificate as a part of his records. A producer or other distributor to whom any such emergency order is submitted must give such order precedence in shipment over other orders not of an emergency nature.

(j) *Certificate by distributor required.* Whenever a distributor places an order for replacement parts, each order must be accompanied by a certificate in the following form:

CERTIFICATE OF COMPLIANCE WITH ORDER L-158

The quantity of replacement parts ordered on the attached purchase order does not exceed the quantity which I am entitled to purchase under the provisions of Limitation Order L-158, with the terms of which I am familiar.

(Signed) _____
Firm, partnership or corporation

(By) _____
Title of individual

Dated _____ _____
Address of firm, partnership or corporation

A copy of each such certificate must be retained by the distributor as part of his records.

(k) *Preference ratings required on sales by distributors to Army, Navy and Maritime Commission.* Irrespective of the provisions of any of the paragraphs of this order, no distributor shall sell any replacement parts, as defined in paragraph (b) (1) above, to or for the account of the Army or Navy of the United States or the United States Maritime Commission, except upon receipt of an order bearing a preference rating of AA-1 or higher.

(l) *Exceptions to applicability of this order.* The terms and restrictions of this order, except paragraph (a) (2) shall not apply, except as provided for in paragraph (k) above, to any replacement parts sold to or produced under contracts or orders for delivery to or for the account of:

(1) The Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Offices of Scientific Research and Development;

(2) The government of any of the following countries: Belgium, China, Czechoslovakia, Free French, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies, and Protectorates, and Yugoslavia;

(3) Any agency of the United States Government, for delivery to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(4) Any person located outside of the forty-eight States and the District of Columbia.

(m) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(n) *Reports.* All persons affected by this order, shall execute and file with the War Production Board such reports and questionnaires as the Board shall from time to time request. No reports or questionnaires are to be filed by any person until forms therefor are prescribed by the War Production Board.

(o) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(p) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(q) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for appeal.

(r) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Automotive Division, Washington, D. C., Ref.: Order L-158.

Issued this 11th day of March 1943.

PART 3201—MINING EQUIPMENT

[Limitation Order L–269]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the production of mining equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3201.1 *Limitation Order L–269*—(a) *Definitions.* For the purposes of this order:

(1) "Mining equipment" means any complete equipment or apparatus of the types, descriptions, and classifications set forth on List A hereto annexed.

(2) "Repair part" means any part manufactured for use in the repair and maintenance of mining equipment.

(3) "Manufacturer" means any person who constructs or manufactures mining equipment to the extent that he is engaged in such construction or manufacture.

(b) *Production and deliveries of mining equipment.* (1) On or before March 25, 1943, and on or before the 15th of each succeeding calendar month, each manufacturer shall file in triplicate on form PD–815 a schedule of proposed production and deliveries and a report of the previous calendar month's shipments and orders.

(2) On and after April 1, 1943, each manufacturer shall produce and deliver mining equipment only in accordance with the schedule filed pursuant to paragraph (b) (1) or as the same may be changed by the Director General for Operations.

(3) With respect to mining equipment the Director General for Operations may:

(i) Direct the return or cancellation of any order on the books of a manufacturer.

(ii) Direct changes in the production or delivery schedule of a manufacturer.

(iii) Allocate orders placed with one manufacturer to another manufacturer, or

(iv) Take such other action, as he deems necessary, with respect to the placing of orders for, or the production or delivery of, mining equipment.

(c) *Repair parts.* The Director General for Operations may direct the quantity and type of repair parts to be produced or delivered by any manufacturer in any calendar month, and he may direct changes in any manufacturer's production or delivery schedule for mining equipment so as to provide for adequate production or delivery of repair parts.

(d) *Substitution and conservation of critical materials.* In the manufacture of any item of mining equipment or repair parts, no manufacturer shall use rubber, aluminum, copper, zinc or alloy steels, except in bearings, electrical conductors, or parts subject to high stress, shock, abrasion, wear or corrosion.

(e) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to War Production Board, Mining Equipment Division, Washington, D. C., Reference L–269.

(4) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Records and reports.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning the manufacture, sale and delivery of and orders for mining equipment and repair parts. All persons affected by this order shall execute and file with the Director General for Operations, War Production Board, such reports and questionnaires as said Director shall from time to time require.

Issued this 11th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 3211—BISMUTH CHEMICALS

[General Preference Order M–295]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of bismuth chemicals for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3211.1 *General Preference Order M–295*—(a) *Definitions.* (1) "Bismuth chemicals" means any chemical compound of bismuth, in crude or refined form, including, but not limited to, bismuth subcarbonate, bismuth subnitrate, bismuth subsalicylate, bismuth nitrate, bismuth hydrate, sodium bismuthate, etc. The term does not include standard dosage forms (tablets, capsules, ampoules, liquid preparations, etc.).

(2) "Producer" means any person engaged in the production of bismuth chemicals, and includes any person who imports bismuth chemicals or has bismuth chemicals produced for him pursuant to toll agreement.

(3) "Distributor" means any person who purchases bismuth chemicals solely for the purpose of resale without further processing and without changing the form thereof.

(b) *Restrictions on deliveries and use.* (1) On and after April 1, 1943, no person shall deliver, accept delivery of, or use bismuth chemicals, except as specifically authorized or directed by the Director General for Operations.

(2) Authorizations or directions with respect to deliveries or use in each calendar month will so far as practicable be issued by the Director General for Operations prior to the commencement of such month, but the Director General for Operations may at any time at his discretion and notwithstanding the provisions of paragraph (c) hereof, issue directions with respect to, deliveries to be made or accepted, or with respect to use or uses which may or may not be made of bismuth chemicals to be delivered or then on hand. Such authorizations or directions may be made by the Director General for Operations without regard to preference ratings applicable to particular orders.

(3) Each person specifically authorized to use or accept delivery of bismuth chemicals shall use such material for the purpose authorized, and only for such purpose, except as otherwise specifically directed by the Director General for Operations.

(4) Bismuth chemicals allocated for inventory shall not be used except as specificially directed by the Director General for Operations. Bismuth chemicals allocated to fill a specified order or class of orders shall, where and to the extent that such order or class of orders is not for any reason filled, revert to inventory as though allocated therefor.

(c) *Exceptions to requirement for authorization.* Notwithstanding the provisions of paragraph (b) (1), specific authorization of the Director General for Operations shall not be required for:

(1) Delivery by any producer or distributor to any person in any calendar month, and acceptance of delivery by any person from any producer or distributor in any calendar month, of not more than 25 lbs. of any bismuth chemical;

(2) Use by any person in any calendar month of not more than 25 lbs. of any bismuth chemical;

(3) Delivery to, or acceptance of delivery by, any person of bismuth chemicals packaged in containers of one pound or less, for resale to retail druggists, and delivery to, or acceptance of delivery by retail druggists of bismuth chemicals so packaged;

(4) Delivery of bismuth chemicals by, or use of bismuth chemicals by, the United States Army or Navy, the Coast Guard, the United States Maritime Commission and War Shipping Administration;

(5) Delivery of bismuth chemicals by any person to another person for compounding into standard dosage forms pursuant to toll agreement, where the person making delivery has received specific authority to compound such bismuth chemicals and retains title to such bismuth chemicals and to the product made therefrom; also the acceptance of delivery of bismuth chemicals by such other person for such purpose and under such terms, and the use by such other person in compounding bismuth chemicals into standard dosage forms.

(d) *Applications and reports.* (1) Each person seeking authorization to accept delivery of, or to use bismuth chemicals during any calendar month beginning with April, 1943, whether for his own consumption or resale, shall file application therefor on or before the 15th of the preceding month on Form PD–600, in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form PD–600 may be obtained at local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which three shall be forwarded to War Production Board, Chemicals Division, Washington, D. C., Ref.: M–295, one forwarded to the producer or distributor with whom applicant's order is placed, and the fifth retained for applicant's file. At least one of the copies filed with War Production Board shall be signed by applicant by a duly authorized official. Where the application is solely for authorization to use, no copy will be sent to the producer or distributor.

(iii) In the heading, under "Name of chemical," specify "Bismuth chemicals" under "WPB Order No.", specify "M–295;" under "Indicate unit of measure," specify "pounds".

(iv) In heading at top of Table I, specify the month and year for which authorization for acceptance of delivery or use is sought.

(v) In Columns 1, 11 and 19, specify grade and quality; for example, subcarbonate, nitrate, sodium bismuthate, USP, etc.

(vi) In Column 3 (Primary Product), applicant will specify the exact name of the product or products in the manufacture or preparation of which he will use bismuth chemicals or in which he will incorporate bismuth chemicals. Distributors ordering bismuth chemicals for resale, will specify "Resale". If purchase is for inventory, specify "Inventory".

(vii) In Column 4, applicant will specify in each case (including case where his purchase is for "resale") ultimate use to be made of product (as, for example, "medicinal"), and will also specify in each case whether his customer is Army, Navy, other government agency, Lend-Lease, or commercial customer. If application is for bismuth chemicals for inventory, leave Column 4 blank.

(2) Each producer or distributor seeking authorization to make delivery of bismuth chemicals during any month, beginning with April, 1943, shall file application therefor on or before the 20th day of the preceding month. Such application shall be made on Form PD–601 in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form PD–601 may be obtained at local field offices of the War Production Board.

(ii) Four copies shall be prepared, of which three shall be forwarded to War Production Board, Chemicals Division, Washington, D. C., Ref.: M–295, the fourth to be retained by the producer or distributor.

(iii) Each producer who has filed application on Form PD–600 specifying himself as his supplier, shall list his own name as customer on Form PD–601 and shall list his request for allocation in the manner prescribed for other customers.

(iv) In the heading under "Name of chemical", specify "Bismuth chemicals"; under "WPB Order No.", specify "M–295"; under "This schedule is for deliveries to be made during month of ----------", specify month and year during which deliveries covered by application are to be made; under "Indicate unit of measure", specify "pounds".

(v) In Column 1, list customers and if it is necessary to use more than one sheet, number each sheet in order and show grand totals for all sheets on the last sheet, which is the only one that need be certified. It is not necessary, however, to list names of customers to whom deliveries are to be made during the next month pursuant to paragraphs (c) (1) and (c) (3) of this order, but insert in Column 1 "Total small order and small package deliveries (estimated)", and in Column 4, state the estimated quantity. Although under paragraph (c) (4), deliveries to the government agencies there listed need not be authorized, proposed deliveries to such agencies should be listed separately in Column 1, and the quantity to be delivered specified in Column 5.

(vi) In Columns 3 and 8, the producer or distributor will specify grades and quality, as indicated in the Forms PD–600 filed with him by his customers.

(vii) The producer or distributor may, if he wishes, leave Column 5 blank.

(3) The Director General for Operations may require each person affected by this order to file such other reports as may be prescribed, and may issue special directions to any such person with respect to preparing and filing Forms PD–600 and PD–601.

(e) *Notification of customers.* Each supplier shall notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to War Production Board, Chemicals Division, Washington, D. C., Ref.: M–295.

Issued this 11th day of March 1943.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 285,[1] as Amended March 10, 1943]

IMPORTED FRESH BANANAS, SALES EXCEPT AT RETAIL

By Amendment 2, §§ 1351.1252 (a) and 1351.1267 are amended, and §§ 1351.1253 (e) and 1351.1261 (c) are added, so that Maximum Price Regulation 285 shall read as follows:

In the judgment of the Price Administrator, war shipping conditions and other factors affecting the sale of fresh bananas by importers and by wholesalers have resulted in the establishment under the General Maximum Price Regulation of maximum prices for such sales which are not best calculated to assist in securing equitable distribution of fresh bananas. The Price Administrator has determined to replace these maximum prices by maximum prices established in this regulation. In the issuance of this regulation, the Price Administrator has ascertained and given due consideration to the prices of fresh bananas prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representatives of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices herein established for importers and wholesalers of fresh bananas are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.[2]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 258 is hereby issued.

Sec.

1351.1251 Applicability of this Maximum Price Regulation No. 285.
1351.1252 How an importer establishes his maximum price for each kind of fresh bananas.
1351.1253 How a wholesaler calculates his maximum price for each kind of fresh bananas as set forth in Appendix A.

AUTHORITY: §§ 1351.1251 to 1351.1267, inclusive, issued under Pub. Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871.

[1] Statements of considerations are also issued simultaneously with issuance of amendments. Requests for copies should be addressed to Office of Price Administration.

§ 1351.1251 *Applicability of this Maximum Price Regulation No. 285*—(a) *Commodity to be priced under this regulation.* This regulation applies only to fresh bananas, imported for sale within the continental limits of the United States.

(b) *To what types of sellers this regulation applies.* This regulation applies to importers and all wholesalers, as defined herein, of fresh bananas.

(c) *Purposes of this regulation.* The purposes of this regulation are to replace the maximum prices established by the General Maximum Price Regulation for importers and wholesalers by maximum prices set forth as follows:

(1) Section 1351.1252 sets forth maximum prices for importers for each kind of fresh bananas, per cwt., f. o. b. port of entry.

(2) Appendix A, § 1351.1267, sets forth the figures which all wholesalers must use in calculating maximum prices.

(d) *Prohibition against sales above maximum prices.* On and after December 18, 1942, regardless of any contract or other obligation, no person shall sell or deliver fresh bananas at prices higher than the maximum prices established by this regulation, and no person shall buy or receive fresh bananas in the course of trade or business at prices higher than the maximum prices. Lower prices than the maximum prices may be charged and paid.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that the prohibition contained in any price regulation against buying or receiving any commodity or service at a price higher than the maximum price permitted by such regulation shall not apply to any war procurement agency, or government whose defense is vital to the defense of the United States.]

§ 1351.1252 *How an importer establishes his maximum price for each kind of fresh bananas.* (a) The maximum price per cwt. at which any importer may sell, offer to sell or deliver each kind of fresh bananas, f. o. b. any port of entry within the continental limits of the United States shall be:

Country of origin (Kind of fresh bananas)	*Maximum prices per cwt. f. o. b. port of entry per cwt.*
Costa Rica, Panama, Guatamala, Honduras	$5 50
Mexico: States of Chiapas and Tabasco	4 50
All other bananas from Mexico	3 25
Bananas from any country not listed above	4 00

(b) If an importer makes a sale of any kind of fresh bananas for delivery to a place other than the port of entry to or through which the fresh bananas being priced were originally shipped from the country of origin, his maximum price shall be the price set forth in paragraph (a) of this section, plus his actual transportation charges, which shall not exceed the lowest available common carrier rate, from the port of entry to the place where such kind of fresh bananas are to be delivered; however, no charge or cost for local unloading or local hauling shall be included. In no case shall the importer add to the maximum prices, f. o. b. port of entry, any transportation charges, whether paid by him or not, from the country of origin to the port of entry.

(c) The maximum price, per cwt. at which any sales of any kind of fresh bananas may be made at the New York, N. Y., Philadelphia, Pa., and Baltimore, Md., auction markets shall be as follows:

(1) The maximum price per cwt., f. o. b. port of entry, as set forth in paragraph (a) of this section; plus

(2) The actual transportation charges, at lowest available common carrier rates, from the port of entry to the auction market where the fresh bananas are to be sold; multiplied by

(3) 1.085. The resulting figure shall be the maximum price for any sale and delivery at auction: *Provided*, That trade discounts for auction sales heretofore in effect shall be subtracted from the maximum price established herein for auction sales.

§ 1351.1253 *How a wholesaler calculates his maximum price for each kind of fresh bananas as set forth in Appendix A.* (a) For the purposes of this regulation, "wholesaler" means any wholesale seller, including, but not limited to, service and cash-and-carry wholesalers, retailer-owned cooperatives, jobbers or any other persons who purchase for the purpose of resale, except importers and retailers, and who take title and make sales to any person who is not the ultimate consumer. The term "ultimate consumer" does not include institutional, commercial or industrial users.

(b) The wholesaler shall calculate his maximum price on the effective date of this regulation and on Monday of each week thereafter for each kind of fresh bananas as follows:

(1) The wholesaler shall determine his "largest single purchase" of each kind of fresh bananas, as set forth in § 1351.1252, made during the seven days prior to Monday of each week.

(2) "Largest single purchase" means the greatest quantity (in pounds) of the kind of fresh bananas which the wholesaler is pricing, and which was purchased by him during the seven days prior to Monday of each week. For the purposes of this paragraph, "Purchase" by a wholesaler shall be deemed to have been made when actual delivery has been made to him.

(3) The wholesaler shall then determine the "delivered price" of his "largest single purchase", as defined above, of the kind of fresh bananas being priced. "Delivered price" means the maximum price, f. o. b. port of entry, for the kind of fresh bananas he is purchasing plus the actual cost of transportation from the port of entry at lowest available common carrier rates, as defined herein, to his customary receiving point, less all discounts allowed him except the discount for prompt payment; however no charge or cost for local unloading or local hauling shall be included.

(4) The wholesaler shall then multiply his "delivered price", as defined above, by the figures set forth in Appendix A applicable to him. The resulting figure is the maximum price which the wholesaler is permitted to charge.

(c) If a wholesaler purchases fresh bananas at any of the following auction markets, New York, N. Y., Philadelphia, Pa., and Baltimore, Md., he shall apply the provisions of this section to such fresh bananas purchased at auction, except that the figure by which he multiplies his "delivered price" shall be the figure set forth in Appendix A for wholesalers who purchase at auction. "Delivered price" in the case of auction sales means the maximum price per cwt., f. o. b. port of entry, plus the actual transportation charges from the port of entry to the auction market multiplied by 1.085, as set forth in § 1351.1252 (c) hereof.

(d) If the wholesaler makes no purchase of fresh bananas during any particular seven-day period his maximum price shall be based on his most recent "largest single purchase", as defined herein.

(e) If a wholesaler's maximum price as calculated under the provisions of this section and § 1351.1267 is less than the result of the following computation, the result of the following computation shall be the maximum price:

The maximum price, per cwt. f. o. b. port of entry, plus the actual cost of transportation from the port of entry, at lowest available common or contract carrier rates, to the wholesaler's customary receiving point, plus $1.50 per cwt. when sold in stems, or $1.85 per cwt., when sold in hands.

[NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

[NOTE: Supplementary Order No. 34 (7 F.R. 10779) permits special packing expenses to be added to maximum prices on sales to procurement agencies of the United States.]

§ 1351.1254 *Information which each importer and wholesaler must pass on to his purchaser.* Whenever an importer or wholesaler makes a sale and delivery after the effective date of this regulation, he shall supply to his purchaser an invoice, or any other written evidence of the sale, setting forth in writing the following information:

(a) The importer shall set forth:

(1) The kind of fresh bananas being sold (i. e., the country of origin as set forth in § 1351.1252 hereof).

(2) The maximum prices per cwt., f. o. b. port of entry, and actual transportation charges, if any, paid by the seller.

(3) In cases of purchases or sales at auction, the auction maximum price, as set forth in § 1351.1252 (c).

(b) The wholesaler shall state his selling price, not exceeding his maximum price.

The invoice or other written evidence of the sale, when containing the above required information, shall be deemed to be proper notification to the purchaser.

§ 1351.1255 *Fractions of cents.* Any calculation of a maximum price per cwt. by a wholesaler which results in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

§ 1351.1256 *Customary allowances.* No importer or wholesaler is permitted to change his customary allowances, discounts and price differentials, including allowances, discounts, and price differentials for different classes of purchasers, unless such change results in a lower net price. Trade discounts for auction sales heretofore in effect shall not be changed unless such change results in a lower net price.

§ 1351.1257 *Relationship between this regulation and the General Maximum Price Regulation.*[1] (a) The provisions of this Maximum Price Regulation No. 285 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries by importers and wholesalers of fresh bananas. However, the following provisions of the General Maximum Price Regulation, as well as any amendments thereto, continue to be applicable to every importer and wholesaler selling fresh bananas:

(1) Transfers of business or stock in trade (§ 1499.5)

(2) Federal and state taxes (§ 1499.7)

(3) Current records (§ 1499.12)

(4) Sales slips and receipts (§ 1499.14)

(5) Definitions (§ 1499.20)

(b) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this regulation.

§ 1351.1258 *Evasion.* The price limitations which are set forth in this Maximum Price Regulation No. 285 shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relationship to imported fresh bananas, alone or in conjunction with any other commodity or by way of commission, service, transportation, discount, premium, or other

§ 1351.1261 *Records and reports.* (a) Every person selling fresh bananas for which maximum prices are established by this regulation shall:

(1) Preserve for examination by the Office of Price Administration all his records, including invoices or other written evidences of a sale and delivery, relating to the prices which he charges pursuant to the provisions of this regulation.

(2) Prepare on or before December 31, 1942, on the basis of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement showing all of his customary allowances, discounts and other price differentials.

(b) Every person making a sale of fresh bananas for which maximum prices are established by this regulation shall keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, records of the same kind as he has customarily kept relating to the prices which he charges for fresh bananas after the effective date of this regulation and in addition records showing as precisely as possible the basis upon which he determined the maximum prices for fresh bananas.

(c) Each importer selling fresh bananas produced on plantations owned or operated by it or any affiliated person in Honduras, Guatemala, Costa Rica, and Panama shall:

(1) Submit to the Office of Price Administration, Washington, D. C. on or before April 15, 1943, a statement under oath setting forth in detail

(i) The total number of acres of banana plantations cultivated under full maintenance in each of the countries of origin during the year 1941 and each calendar month thereafter;

(ii) The total number of acres of banana plantations carried under reduced maintenance in each of the countries of origin during the year 1941 and during each calendar month thereafter;

(iii) The total number of employees in each of the countries of origin during the year 1941 and during each calendar month thereafter;

(iv) The average monthly payroll during the year 1941 for each of the countries of origin and the total monthly payroll during each calendar month thereafter;

(v) The amount spent for the control of disease (Sigatoka) during the year 1941 and during each calendar month thereafter, including a full and complete statement of labor and material costs;

(vi) The amount spent for maintenance of plantations, other than that reported under subdivision (v) hereof; and

(vii) A comprehensive statement of profits and/or losses covering banana operations for the years 1941 and 1942 and for the first three-month period of 1943.

(2) Submit to the Office of Price Administration, Washington, D. C. on or before the last day of each month commencing April 30, 1943, a statement under oath, setting forth in detail for the preceding calendar month, the information required by subdivisions (i) to (vi) of paragraph (c) (1) hereof. The information required by subdivision (vii) of paragraph (c) (1) shall be submitted on or before the last day of the month following each three-month period.

§ 1351.1262 *Export sales.* The maximum prices at which a person may export fresh bananas covered by this Maximum Price Regulation No. 285 shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation [8] issued by the Office of Price Administration.

§ 1351.1263 *Exempt sales.* This regulation shall not apply to sales at retail.

§ 1351.1264 *Definitions.* (a) When used in this Maximum Price Regulation No. 285 the term:

(1) "Person" means individuals, corporations, partnerships, associations, or other organized groups of persons, or legal successors, or representatives of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Importer" means any person who imports fresh bananas from the country of origin into the United States or who makes the first sale and delivery thereof after such importation.

(3) "Auction" means any sale and delivery of fresh bananas made pursuant to competitive bidding in the auction markets of the cities of New York, N. Y., Philadelphia, Pa., and Baltimore, Md.

(4) "Fresh bananas" means the imported fresh fruit of the banana tree.

(5) "Kind of fresh bananas" means bananas produced in certain countries or territories, such as, but not limited to, Costa Rica, Guatemala, Honduras, and Mexico.

(6) "Actual cost of transportation" shall include the actual cost of freight from the port of entry to the wholesaler's customary receiving point, and shall include charges for protective services, such as heating, icing, and messenger service.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used in this regulation.

§ 1351.1265 *Geographic applicability.* The provisions of this Maximum Price Regulation No. 285 shall apply to the forty-eight States of the United States and the District of Columbia.

§ 1351.1266 *Effective date.* This Maximum Price Regulation No. 285 (§§ 1351.1251 to 1351.1267, inclusive) shall become effective with respect to sales of fresh bananas except by wholesalers on December 18, 1942 and with respect to sales by wholesalers on December 28, 1942.

PART 1367—FERTILIZERS

[Rev. MPR 108]

NITROGENOUS FERTILIZER MATERIALS

The title, preamble and section numbers of Maximum Price Regulation No. 108—Nitrate of Soda, Sulphate of Ammonia and Cyanamid,[1] are amended, and renumbered to read as set forth herein.

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices of ammonium nitrate, ammonium phosphate, castor pomace, calcium cyanamide, fish meal, fish scrap, nitrate of soda, nitrate of soda-potash, sulphate of ammonia, and urea compound, when marketed or sold as an aid to the growth of crops or plants, which differ in certain areas of the country, from those heretofore established by applicable maximum price regulations. Former Maximum Price Regulation No. 108 applied only to nitrate of soda, sulphate of ammonia and cyanamid and did not apply in the States of Washington, Oregon, California, Montana, Wyoming, Idaho, Nevada, Utah, Colorado, and Arizona. In the judgment of the Price Administrator it is in the public interest to include in the same regulation all of the nitrogenous fertilizer materials which are enumerated above and to apply the regulation in all of the States as well as in the District of Columbia and Puerto Rico.

So far as practicable the Price Administrator has ascertained and given due consideration to the prices of nitrogenous fertilizer materials prevailing between October 1 and 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this regulation has been prepared, issued simultaneously herewith, and has been filed with the Division of the Federal Register.[4] Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1,[3] issued by the Office of Price Administration, Revised Maximum Price Regulation No. 108 is hereby issued.

1367.29 Appendix A: Maximum prices of nitrogenous fertilizer materials.

AUTHORITY: §§ 1367.21 to 1367.29, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1367.21 *To what products, transactions, persons and geographical areas this regulation applies.*—(a) *What products are covered.* This regulation covers ammonium nitrate, ammonium phosphate, castor pomace, calcium cyanamide, fish meal, fish scrap, nitrate of soda, nitrate of soda-potash, sulphate of ammonia, and urea compound, whether domestic or imported, designated herein as nitrogenous fertilizer materials, when marketed or sold as an aid to the growth of crops or plants.

(b) *What transactions are covered.* This regulation covers all sales of nitrogenous fertilizer materials (1) by domestic fertilizer manufacturers and their agents, and by domestic dealers, in quantities of more than 100 pounds to a consumer, and (2) all sales by fertilizer manufacturers in individual containers of 100 pounds or more to a dealer, except a sale where the nitrogenous fertilizer material has been received before March 15, 1943, by a carrier other than one owned or controlled by the seller, for shipment to a consumer, agent or dealer, in which case the shipment remains subject to the provisions of the maximum price regulation applicable at time of shipment.

(c) *What persons are covered.* Domestic fertilizer manufacturers and their agents, and domestic dealers making the sales covered by this regulation are subject to it.

(d) *Geographical areas.* The provisions of this regulation shall be applicable to the forty-eight States, the District of Columbia, and the Territory of Puerto Rico.

§ 1367.22 *Sales of nitrogenous fertilizer materials at higher than maximum prices prohibited.* On and after March 15, 1943, regardless of any contract, agreement, lease or other obligation, no fertilizer manufacturer or dealer shall sell or deliver nitrogenous fertilizer material in quantities of more than 100 pounds to a consumer, and no fertilizer manufacturer shall sell nitrogenous fertilizer material in individual containers of 100 pounds or more to a dealer, and no person in the course of trade or business shall buy or receive such nitrogenous fertilizer material at prices higher than the maximum prices set forth in Appendix A incorporated herein as § 1367.29, and no person shall agree, offer, solicit or attempt to make such a sale, purchase or delivery.

§ 1367.23 *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This includes devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

§ 1367.24 *Records and reports.* (a) Every person subject to this regulation (including a dealer, agent or other person) making a sale of nitrogenous fertilizer material, in quantities of 250 pounds or more to a consumer or dealer, after March 15, 1943, shall keep for inspection by the Office of Price Adminis-

tration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, complete and accurate records of each sale, showing the date thereof; the name and address of the buyer, of the person making the sale, and of the producer, importer, jobber or fertilizer manufacturer from whom the material was received; the quantity, grade and kind of the nitrogenous fertilizer material sold; the kind and size of bags or containers in which delivered; the price charged or received therefor; the terms of payment (time, cash, discounts, and maturities); and the method and conditions of delivery.

(b) (1) Not later than March 25, 1943, every fertilizer manufacturer who is engaged in the business of selling nitrogenous fertilizer material to consumers or dealers, whether by or through any agent or other person, shall file with the Office of Price Administration in Washington, D. C., a price schedule showing his maximum prices of the nitrogenous fertilizer materials offered for sale, basis f. o. b. his plant or warehouse, and where applicable, basis f. o. b. production point or delivered to buyer's delivery point; and each such price schedule shall be accompanied by a statement showing the calculations by which such maximum prices were determined by the fertilizer manufacturer under this regulation.

(2) When a fertilizer manufacturer offers to sell to consumers or dealers a nitrogenous fertilizer material for which his maximum price, determined as herein provided, has not been filed under (1) above, or when his maximum price for a nitrogenous fertilizer material is changed under the provisions of this regulation, he shall file with the Office of Price Administration in Washington, D. C., a price schedule showing such maximum price and a statement showing the calculations by which the maximum price was determined.

(3) Every fertilizer manufacturer selling nitrogenous fertilizer material covered by this regulation through agents to consumers, or to dealers, shall furnish each of his agents or dealers to whom he issues, or quotes, prices of such materials a copy of this regulation. Copies of this regulation for such distribution will be furnished sellers upon request addressed to Office of Price Administration, Washington, D. C.

(4) Each agent and dealer shall post at his place of business a list of his maximum prices to consumers.

(5) Each fertilizer manufacturer selling direct to consumers shall post at his office, plant and warehouse his maximum prices to consumers in effect for the area served by each such plant, office, or warehouse.

(c) Persons subject to this regulation shall submit such other information to the Office of Price Administration as it may, from time to time, require, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

§ 1367.25 *Enforcement and licensing.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250.

(b) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest district, State, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(c) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation[1] are applicable to every person selling at wholesale or retail any nitrogenous fertilizer material covered by this regulation.

§ 1367.26 *Petitions for amendment*—(a) *Amendments.* Persons seeking any modification of this regulation or an adjustment or exception not provided for herein may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[2] issued by the Office of Price Administration.

(b) *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. Where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1367.27 *Relation to other regulations.* (a) The maximum prices for sales of nitrogenous fertilizer materials established by this regulation are not subject to the General Maximum Price Regulation, nor to Revised Maximum Price Regulation 73 as amended.[4]

(b) The maximum prices for export sales of nitrogenous fertilizer materials are governed by the Revised Maximum Export Price Regulation.[5]

§ 1367.28 *Definitions.* (a) When used in this regulation the term:

(1) "Person" includes an individual, corporation, partnership, association, farmers' or consumers' cooperative or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Producer" means a person who manufactures or processes nitrogenous fertilizer material.

(3) "Importer" means a person who imports nitrogenous fertilizer material from a foreign country for resale to fertilizer manufacturers.

(4) "Jobber" means a person who is engaged in the business of purchasing nitrogenous fertilizer material from a producer for resale to fertilizer manufacturers.

(5) "Fertilizer manufacturer" means a person who produces, mixes, or processes mixed fertilizer or who markets mixed fertilizer for his own account and under his own brand or trade name, and who purchases nitrogenous fertilizer material from a producer, importer or jobber for resale to consumers or to dealers; and also includes any person who, prior to the effective date of this regulation, had been allocated nitrogenous fertilizer material by War Production Board for resale to consumers or to dealers.

(6) "Dealer" means a person other than a fertilizer manufacturer as defined herein who purchases nitrogenous fertilizer material for resale to consumers.

(7) "Agent" means a person who acts on behalf of another person in making sales of nitrogenous fertilizer material to consumers.

(8) "Consumer" means a person purchasing nitrogenous fertilizer material for use in aiding the growth of crops or plants and not for resale.

(9) "Production point" means the basing point, port, or actual place of production which may be used by the producer, importer, or jobber in determining his maximum price of nitrogenous fertilizer material.

(10) "Buyer's delivery point" means the destination to which nitrogenous fertilizer material is shipped direct from production point at request of buyer or agent.

(11) "Selling at wholesale" means a sale of nitrogenous fertilizer material to a dealer.

(12) "Selling at retail" means a sale of nitrogenous fertilizer material to a consumer.

(13) "Spring season" means the fertilizer selling season from December 1 of any calendar year to and including June 30, of the next succeeding calendar year.

(14) "Fall season" means the fertilizer selling season from July 1 to November 30, inclusive, of any calendar year.

(15) "Margin" means the amount of markup which may be added by a fertilizer manufacturer to the fertilizer manufacturer's cost, and by a dealer to the dealer's cost.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1367.29 *Appendix A: Maximum prices of nitrogenous fertilizer materials.* (a) For deliveries in the District of Columbia, the Territory of Puerto Rico, and in all States except Washington, Oregon, California, Montana, Wyoming, Idaho, Nevada, Utah, Colorado, and Arizona.

(1) *Sales by domestic fertilizer manufacturers to consumers.* The maximum price for a cash sale of nitrogenous fertilizer material by a fertilizer manufacturer, direct or through agents, to a consumer shall be:

(i) The maximum price the producer or jobber may charge the fertilizer manufacturer for the domestically produced nitrogenous fertilizer material being sold or the price paid by the fertilizer manufacturer to the importer or foreign producer for the imported nitrogenous fertilizer material being sold, plus

(ii) An amount equal to the fertilizer manufacturer's additional expenditure, if any, for transportation from production point direct to the fertilizer manufacturer's plant or warehouse or direct to the buyer's delivery point, plus

(iii) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, the fertilizer manufacturer's plant, plus

(iv) $1.50 per ton for grinding castor cake or unground fish scrap if such grinding is done by the fertilizer manufacturer, plus

(v) The actual cost of bags used and $1.00 per ton when such nitrogenous fertilizer material is received in bulk by the fertilizer manufacturer and resold in bags, plus

(vi) An amount equal to the cost of State tax tags, if any, and the attaching thereof, or State tonnage or inspection tax, but not license costs or registration fees, plus

(vii) A maximum margin of: $4.00 per ton if such cost (subdivisions (i) through (vi) is less than $40.00 per ton; $5.00 per ton if such cost is $40.00 but less than $50.00 per ton; $6.00 per ton if such cost is $50.00 but less than $60.00 per ton; $7.00 per ton if such cost is $60.00 but less than $70.00 per ton; $8.00 per ton if such cost is $70.00 or more per ton; plus

(viii) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, a warehouse operated by the fertilizer manufacturer or his agent, plus

(ix) An amount equal to the actual transportation expense incurred in making delivery from the plant or warehouse of the fertilizer manufacturer or from the buyer's delivery point, to the consumer.

(2) *Sales by domestic fertilizer manufacturers to dealers.* The maximum price for a cash sale of nitrogenous fertilizer material by a fertilizer manufacturer to a dealer shall be:

(i) The fertilizer manufacturer's cost as set forth in subdivisions (i) to (vi), inclusive, of paragraph (a) (1) above, plus

(ii) A maximum margin of: $2.00 per ton if such cost is less than $40.00 per ton; $2.50 per ton if such cost is $40.00 but less than $50.00 per ton; $3.00 per ton if such cost is $50.00 but less than $60.00 per ton; $3.50 per ton if such cost is $60.00 but less than $70.00 per ton; $4.00 per ton if such cost is $70.00 or more per ton, plus

(iii) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, a warehouse operated by the fertilizer manufacturer, plus

(iv) An amount equal to the actual transportation expense incurred in making delivery from the plant or warehouse of the fertilizer manufacturer to the fertilizer manufacturer's plant or warehouse.

(3) *Sales by domestic dealers to consumers.* The maximum price for a cash sale of nitrogenous fertilizer material by a dealer to a consumer shall be:

(i) The maximum cash price the fertilizer manufacturer or the producer may charge the dealer for the nitrogenous fertilizer material being sold, plus

(ii) An amount equal to the dealer's actual additional expenditure, if any, for transportation of the nitrogenous fertilizer material to the dealer's rail or boat destination or warehouse, plus

(iii) A maximum margin of: $2.00 per ton if the dealer's cost (subdivisions (i) and (ii)) is less than $42.00 per ton; $2.50 per ton if such cost is $42.00 but less than $52.50 per ton; $3.00 per ton if such cost is $52.50 but less than $63.00 per ton; $3.50 per ton if such cost is $63.00 but less than $73.50 per ton; $4.00 per ton if such cost is $73.50 or more per ton, plus

(iv) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, a warehouse operated by the dealer, plus

(v) An amount equal to the actual transportation expense incurred by the dealer in making delivery to the consumer.

(b) *For deliveries in Washington, Oregon, California, Montana, Wyoming, Idaho, Nevada, Utah, Colorado, and Arizona*—(1) *Sales by domestic fertilizer manufacturers to consumers.* The maximum price for a cash sale of nitrogenous fertilizer material by a fertilizer manufacturer, direct or through agents, to a consumer shall be:

(i) The maximum price the producer or jobber may charge the fertilizer manufacturer for the domestically produced nitrogenous fertilizer material being sold, or the price paid by the fertilizer manufacturer to the importer or foreign producer for the imported nitrogenous fertilizer material being sold, plus

(ii) An amount equal to the fertilizer manufacturer's additional expenditure, if any, for transportation from production point direct to the fertilizer manufacturer's plant or warehouse or direct to the buyer's delivery point, plus

(iii) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, the fertilizer manufacturer's plant, plus

(iv) $1.50 per ton for grinding castor cake or unground fish scrap if such grinding is done by the fertilizer manufacturer, plus

(v) The actual cost of bags used and $1.00 per ton when such nitrogenous fertilizer material is received in bulk by the fertilizer manufacturer and resold in bags, plus

(vi) An amount equal to the cost of State tax tags, if any, and the attaching thereof, or State tonnage or inspection tax, but not license costs or registration fees, plus

(vii) A maximum margin of: $7.00 per ton if such cost (subdivisions (i) through (vi)) is less than $50.00 per ton; $8.00 per ton if such cost is $50.00 but less than $60.00 per ton; $9.00 per ton if such cost is $60.00 but less than $70.00 per ton; $10.00 per ton if such cost is $70.00 but less than $80.00 per ton; $11.00 per ton if such cost is $80.00 or more per ton, plus

(viii) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from a warehouse operated by the fertilizer manufacturer or his agent, plus

(ix) An amount equal to the actual transportation expense incurred in making delivery from the plant or warehouse of the fertilizer manufacturer, or from the buyer's delivery point, to the consumer.

(2) *Sales by domestic fertilizer manufacturers to dealers.* The maximum price for a cash sale of nitrogenous fertilizer material by a fertilizer manufacturer to a dealer shall be:

(i) The fertilizer manufacturer's cost as set forth in subdivisions (i) to (vi), inclusive, of paragraph (b) (1) above, plus

(ii) A maximum margin of: $4.50 per ton if such cost is less than $50.00 per ton; $5.00 per ton if such cost is $50.00 but less than $60.00 per ton; $5.50 per ton if such cost is $60.00 but less than $70.00 per ton; $6.00 per ton if such cost is $70.00 but less than $80.00 per ton; $6.50 per ton if such cost is $80.00 or more per ton, plus

(iii) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, a warehouse operated by the fertilizer manufacturer, plus

(iv) An amount equal to the actual transportation expense incurred in making delivery from the plant or warehouse of the fertilizer manufacturer to the dealer.

(3) *Sales by domestic dealers to consumers.* The maximum price for a cash sale of nitrogenous fertilizer material by a dealer to a consumer shall be:

(i) The maximum cash price the fertilizer manufacturer or the producer may charge the dealer for the nitrogenous fertilizer material being sold, plus

(ii) An amount equal to the dealer's actual additional expenditure, if any, for transportation of the nitrogenous fertilizer material to the dealer's rail or boat destination or warehouse, plus

(iii) A maximum margin of: $2.50 per ton if the dealer's cost (subdivisions (i) and (ii)) is less than $54.50 per ton; $3.00 per ton if such cost is $54.50 but less than $65.00 per ton; $3.50 per ton if such cost is $65.00 but less than $75.50 per ton; $4.00 per ton if such cost is $75.50 but less than $86.00 per ton; $4.50 per ton if such cost is $86.00 or more per ton, plus

(iv) $0.50 per ton if the nitrogenous fertilizer material is stored in, and delivered from, a warehouse operated by the dealer, plus

(v) An amount equal to the actual transportation expense incurred by the dealer in making delivery to the consumer.

(c) *Federal transportation tax.* (1) Whenever provision is made in this regulation for the addition of transportation or freight charges in determining maximum prices hereunder and whenever any other reference is herein made to such charges, the tax imposed by section 620 of the Revenue Act of 1942 (Pub. Law 753—77th Cong., approved October 21, 1942) shall be deemed to be a part of and shall be included in said charges with like effect as if it were a like increase in the rate or amount charged by the carrier for the transportation in question.

(2) The provisions of Supplementary Order No. 31[1] issued by the Office of Price Administration on November 26, 1942 (Document Number 7623) shall have no application to this regulation.

(d) *Credit sales.* In the case of credit sales, credit terms shall not be more onerous on Spring season sales than those in effect and applicable to such dealer or consumer for the period from February 16, 1942, to February 20, 1942, inclusive, and for Fall season sales, credit terms shall not be more onerous than those in effect and applicable to such dealer or consumer for the period from October 1, 1941, to October 15, 1941, inclusive.

(e) *Less than maximum prices.* Lower prices than those set forth in § 1367.29 may be charged, demanded, offered, paid or received.

This regulation shall become effective March 15, 1943, except within the Territory of Puerto Rico where it shall become effective April 25, 1943.

Issued this 10th day of March 1943.

[MPR 240,[1] Amendment 1]

PHOSPHATE ROCK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

The title of the regulation is amended to read as set forth above, and § 1367.115 is added to read as set forth below:

§ 1367.115 *Appendix C: Maximum prices for Florida hard phosphate rock.* The miner may charge any person for Florida hard phosphate rock upon the terms and conditions, and for the grades and descriptions, the prices, all as set forth in the following schedule:

Unground phosphate rock:

Size: Run of mine in carload lots—crushed, washed, dried and unground.

Price: Basis gross ton (2240 lbs.) F. O. B. cars or F. A. S. vessel at Fernandina, Florida.

Quality: Bone phosphate of lime (B. P. L. on a dry basis, and not more than 4% combined oxide of iron and alumina (when determined separately on a dry basis) and not more than 3% moisture.

Grades:

72/70% B. P. L.—$7.10 basis 72% B. P. L., 15¢ per unit rise to 74% maximum and 30¢ per unit fall to 68% minimum, fractions in proportion.

75/74% B. P. L.—$7.85 basis 75% B. P. L., 20¢ per unit rise to 76% maximum and 40¢ per unit fall to 74% minimum, fractions in proportion.

77/76% B. P. L.—$8.60 basis 77% B. P. L., 25¢ per unit rise to 81% maximum and 50¢ per unit fall to 76% minimum, fractions in proportion.

Wet rock: Deduct $2.70 per gross ton from the grade price for wet rock not dried F. O. B. cars at the mines.

Car door boards: Add $2.00 per car for boarding up car doors.

This amendment shall become effective March 15, 1943.

PART 1382—HARDWOOD LUMBER

[MPR 146,[2] Amendment 11]

APPALACHIAN HARDWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1382.3 and paragraph (f) of § 1382.11 are amended to read as set forth below:

§ 1382.3 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1382.11 *Appendix A: Maximum prices for Appalachian hardwood lumber in standard or near standard grades.*

* * *

(f) A delivered price in excess of the maximum f. o. b. mill prices set forth in paragraphs (b) and (c) hereof, may be charged, consisting of such maximum prices, plus the transportation charges set forth below: *Provided,* That the invoice contains the point of origin of the shipment, the destination, the applicable rail or truck rate, or if shipment is by private truck, the amount added for transportation, and the words "direct-mill shipment".

(1) *Common or contract carrier.* When shipment is by common or contract carrier, the following rules govern:

(i) When estimated weights are used, the rate times the estimated weight is the proper transportation charge. Estimated weights may be used only if they have been filed with the Office of Price Administration, Washington, D. C. The weights must be the weights used by the seller during the period October 1 to October 15, 1941. The estimated weight must be the weight for the exact kind of lumber actually shipped; for example, green weights may not be used if dry lumber is shipped. The transportation charge may be evened out to the nearest quarter-dollar per M.

(ii) When estimated weights are not used, the amount added for transportation must not be more than the amount actually paid to the common or contract carrier, evened out to the nearest quarter-dollar per M.

(2) *Private truck.* When shipment is by truck owned or controlled by the seller, the amount added for transportation may not be more than the actual cost to the seller of delivery by truck; and, no matter what the actual cost is, the amount added may not be more than the railroad charge at the carload rate for the most similar haul. However, if this railroad charge is less than $1.50, and if the actual cost of delivery is more than $1.50, a transportation charge of $1.50 may be made.

(3) *Trucking to railhead.* When a truck haul precedes rail shipment, as when a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for the truck haul. However, in the following three cases a mill may apply for special permission to make an addition;

(i) Where the mill was located away from rail connections because it specialized in water-borne lumber, and where shortage of shipping has forced it to operate by rail;

(ii) Where the mill prior to the shortage of tires and gasoline shipped lumber to the particular final destination principally by all-truck haul, and now wishes to convert to truck-and-rail haul to save tires and gasoline;

(iii) Where a mill's rail connection has been abandoned since September 5, 1941.

The application should be made by letter to the Lumber Branch of the Office of Price Administration, Washington, D. C. The addition may not be made on quotations or sales until permission has been received.

(4) *Truck delivery after rail haul.* When truck delivery follows a rail haul, the actual cost of truck delivery may be added.

(5) *All-truck haul.* When an all-truck haul ends in delivery to the job site, no special addition may be made above the charges provided in subparagraphs (1) and (2) of this paragraph, since in this case delivery to the job site involves no extra expense.

This amendment shall become effective March 16, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.)

Issued this 10th day of March 1943.

Administrator.

PART 1382—HARDWOOD LUMBER

[MPR 155,[1] Amendment 4]

CENTRAL HARDWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1382.53 and paragraph (f) of § 1382.61 are amended to read as set forth below:

§ 1382.53 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1382.61 *Appendix A: Maximum prices for North Central hardwood lumber in standard or near standard grades.*

* * *

(f) A delivered price in excess of the maximum f. o. b. mill prices set forth in paragraphs (b) and (c) hereof, may be charged, consisting of such maximum prices, plus the transportation charges set forth below: *Provided,* That the invoice contains the point of origin of the shipment, the destination, the applicable rail or truck rate, or if shipment is by private truck, the amount added for transportation, and the words "Direct-mill Shipment".

(1) *Common or contract carrier.* When shipment is by common or contract carrier, the following rules govern:

(i) When estimated weights are used, the rate times the estimated weight is the proper transportation charge. Estimated weights may be used only if they have been filed with the Office of Price Administration, Washington, D. C. The weights must be the weights used by the seller during the period October 1 to October 15, 1941. The estimated weight must be the weight for the exact kind of lumber actually shipped; for example, green weights may not be used if dry lumber is shipped. The transportation charge may be evened out to the nearest quarter-dollar per M.

(ii) When estimated weights are not used, the amount added for transportation must not be more than the amount actually paid to the common or contract carrier, evened out to the nearest quarter-dollar per M.

(2) *Private truck.* When shipment is by truck owned or controlled by the seller, the amount added for transportation may not be more than the actual cost to the seller of delivery by truck; and, no matter what the actual cost is, the amount added may not be more than the railroad charge at the carload rate for the most similar haul. However, if this railroad charge is less than $1.50, and if the actual cost of delivery is more than $1.50, a transportation charge of $1.50 may be made.

(3) *Trucking to railhead.* When a truck haul precedes a rail shipment, as when a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for the truck haul. However, in the following three cases a mill may apply for special permission to make an addition:

(i) Where the mill was located away from rail connections because it specialized in water-borne lumber, and where shortage of shipping has forced it to operate by rail;

(ii) Where the mill prior to the shortage of tires and gasoline shipped lumber to the particular final destination principally by all-truck haul, and now wishes to convert to truck-and-rail haul to save tires and gasoline;

(iii) Where a mill's rail connection has been abandoned since September 5, 1941.

The application should be made by letter to the Lumber Branch of the Office of Price Administration, Washington, D. C. The addition may not be made on quotations or sales until permission has been received.

(4) *Truck delivery after rail haul.* When truck delivery follows a rail haul, the actual cost of truck delivery may be added.

(5) *All-truck haul.* When an all-truck haul ends in delivery to the job site, no special addition may be made above the charges provided in subparagraphs (1) and (2) of this paragraph, since in this case delivery to the job site involves no extra expense.

This amendment shall become effective March 16, 1943.

PART 1388—DEFENSE-RENTAL AREAS

[Supp. Amendment 9A to Maximum Rent Regulations]

HOTELS AND ROOMING HOUSES

Maximum Rent Regulations Nos. 21A, 22A, 23A, 29A, 30A, 31A, 32A, 34A, 36A, 38A, 40A, 42A, 44A, 46A, 48A, 50A, 54A, 56A, 58A, 59A, 61A, and 63A are amended in the following respects:

1. Subparagraph (4) is added to paragraph (b) of §§ 1388.1502, 1388.1552, 1388.1602, 1388.1852, 1388.1902, 1388.1952, 1388.2002, 1388.3002, 1388.4002, 1388.5002, 1388.6002, 1388.7002, 1388.8002, 1388.9002, 1388.82, 1388.132, 1388.332, 1388.432, 1388.632, 1388.732, 1388.832, and 1388.932 of the said Maximum Rent Regulations, respectively, to read as follows:

(4) Where, since October 1, 1942, a room, cabin or similar accommodations in a tourist camp, cabin camp, auto court or similar establishment has been or is hereafter rented to the same tenant for a continuous period of 60 days or longer on a daily or weekly basis, the landlord shall offer such room, cabin or other accommodations for rent for a monthly term of occupancy, regardless of the provisions of subparagraph (2) of this paragraph. The room, cabin or other accommodations shall be offered for rent on a monthly basis for each number of occupants for which it is offered by the landlord for any other term of occupancy. Any tenant of such room, cabin or other accommodations on a daily or weekly basis shall on request be permitted by the landlord to change to a monthly term of occupancy.

Notwithstanding the provisions of § ------[1] (c) of this maximum rent regulation, if no maximum rent is established for such room, cabin or other accommodations for a monthly term of occupancy or for a particular number of occupants for such term, the Administrator on his own initiative may enter an order fixing the maximum rent for that term and number of occupants and specifying the minimum services. This maximum rent shall be fixed on the basis of the rent generally prevailing in the defense-rental area for comparable housing accommodations on ------.[2]

2. In the first unnumbered paragraph and paragraphs (a) (4), (a) (5), (c) (1), and (d) of §§ 1388.1505, 1388.1555, 1388.1605, 1388.1855, 1388.1905, 1388.1955, 1388.2005, 1388.3005, 1388.4005, 1388.5005, 1388.6005, 1388.7005, 1388.8005, 1388.9005, 1388.85, 1388.135, 1388.335, 1388.435, 1388.635, 1388.735, 1388.835, and 1388.935 of the said maximum rent regulations, respectively, the words "housing accommodations" are substituted for the word "rooms" wherever the word "rooms" appears.

3. Paragraph (d) (2) of §§ 1388.1506, 1388.1556, 1388.1606, 1388.1856, 1388.1906, 1388.1956, 1388.2006, 1388.3006, 1388.4006, 1388.5006, 1388.6006, 1388.7006, 1388.8006, 1388.9006, 1388.86, 1388.136, 1388.336, 1388.436, 1388.636, 1388.736, 1388.836, and 1388.936 of the said maximum rent regulations, respectively, is amended to read as follows:

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis: *Provided,* That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to § ------[3] (b) (3) or (4).

This Supplementary Amendment No. 9A shall become effective March 10, 1943.

(Pub. Law 421, 77th Cong.)

Issued this 10th day of March 1943.

§ 1400.81 subparagraph (16) of paragraph (a) is amended; in § 1400.82 subparagraph (3) of paragraph (e) is revoked, subdivision (v) of subparagraph (2) of paragraph (i) is amended by adding one sentence, subparagraph (5) of paragraph (j) is added, Table IX of paragraph (q) is amended, subparagraph (1) and the footnote to Table X of paragraph (r) are amended and new subparagraphs (2), (3), and (4) of paragraph (r) are added, paragraph (s) is amended, and new paragraphs (t), (u) and (v) are added by Amendment 10 so that Maximum Price Regulation No. 127 as amended by Amendment 10 shall read as follows:

In the judgment of the Price Administrator, the prices of finished piece goods have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of finished piece goods prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations[1] involved in the issuance of this regulation has been prepared, issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, Maximum Price Regulation No. 127 is hereby issued.

[2] Revised: 7 F.R. 8961.

§ 1400.71 *Maximum prices for finished piece goods.* On and after May 4, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver finished piece goods, and no person shall buy or receive finished piece goods in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1400.82; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of finished piece goods to a purchaser if prior to May 4, 1942 such finished piece goods had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser, or if within the terms of the Worth Street Rules title to such finished piece goods had passed to the purchaser prior to May 4, 1942.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that the prohibition contained in any price regulation against buying or receiving any commodity or service at a price higher than the maximum price permitted by such regulation shall not apply to any war procurement agency, or government whose defense is vital to the defense of the United States.]

§ 1400.72 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1400.82) may be charged, demanded, paid or offered.

§ 1400.73 *Conditional agreements.* No seller of finished piece goods shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1400.82, in the event that this Maximum Price Regulation No. 127 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or for exception under § 1400.82 (i) (3)) has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or for exception under § 1400.82 (i) (3)).

§ 1400.74 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 127 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to finished piece goods, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1400.75 *Records.* (a) On and after May 4, 1942, every person making a purchase, sale or delivery of finished piece goods in the course of trade or business, or otherwise dealing in finished piece goods shall keep for inspection by the Office of Price Administration, for a period of not less than two years, complete and accurate records of each such purchase, sale, or delivery, showing the date thereof, the terms of sale, the name and address of the buyer or seller, the price paid or received, and the quantity of each type, quality and finish of finished piece goods purchased or sold, and including (in the case of the seller) a record of all items necessary to verify the computation of the maximum price for the finished piece goods.

(b) Persons required to submit reports under § 1400.76 shall, in addition to the records required above, keep for inspection by the Office of Price Administration, for a period of not less than two years, complete and accurate records of all items necessary to verify such reports.

§ 1400.76 *Reports.* (a) Persons subject to this Maximum Price Regulation No. 127 shall submit such reports as the Office of Price Administration may from time to time require.

§ 1400.77 *Details required in contract of sale or invoice.* (a) Every seller of finished piece goods shall, with respect to each sale thereof, deliver to the purchaser and the purchaser shall retain as a part of his records, either a contract of sale or an invoice which shall contain, in addition to the terms thereof, a full description of each type, quality and finish of finished piece goods sold, or a style number or symbol sufficient to identify in the seller's records maintained pursuant to § 1400.75 hereof, the full details of the construction so delivered.

(b) If the seller is the converter of the fabric sold, the contract of sale or invoice shall contain a statement of the division factor (as specified in § 1400.82 (g)) used in determining the maximum price.

(c) If the seller is a wholesaler, jobber or converter-jobber selling jobbed goods, the contract of sale or invoice shall contain:

(1) If the purchaser is a person other than a wholesaler, jobber, converter-jobber or export merchant, a statement of the division factor used in computing the selling price or a statement that the net selling price does not exceed the maximum price permitted under Maximum Price Regulation No. 127;

(2) If the purchaser is a wholesaler, jobber, converter-jobber, or export merchant, a statement showing:

(i) The selling price; and

(ii) The exact maximum price which the seller would be entitled to charge Class I and Class II purchasers.

[§ 1400.77 as amended by Amendment 2 7 F.R. 4180]

§ 1400.79 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 127 are subject to the civil and criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 127 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

[NOTE: The provisions of Supplementary Order No. 36, (8 F.R. 1798), licensing sellers of yarns, textiles, textile products and services relating thereto, are applicable to sellers whose sales are subject to Maximum Price Regulation No. 127.]

§ 1400.80 *Petitions for amendment or adjustment.* (a) Any person seeking an amendment of any provisions of this Maximum Price Regulation No. 127 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[Paragraph (a) as amended by Supplementary Order 26, 7 F.R. 8948]

(b) A petition for adjustment may be filed by any converter whose production of finished piece goods is sold predominantly to manufacturers exclusively engaged in the production of relatively expensive dresses and who, by virtue of the terms of this Maximum Price Regulation No. 127, would suffer hardship with respect to his entire business: *Provided,* That

(1) Any such petition shall contain or be accompanied by a sworn statement showing:

(i) A list of the names and addresses of the dress manufacturers to whom the petitioner sells the principal part of his production.

(ii) The percentage of his total production which is sold to the enumerated customers.

(iii) The petitioner's gross sales during the years 1940 and 1941.

(iv) A full statement of all facts upon which petitioner relies in showing that hardship will result from the operation of this Maximum Price Regulation No. 127.

(v) A specific statement of the adjustment requested.

(2) Any person who has properly filed a petition for adjustment under this paragraph, and who has received notice that such petition has been docketed may, pending formal action upon such petition by the Office of Price Administration, sell and deliver finished piece goods in accordance with the prices which would be permissible under the General Maximum Price Regulation: *Provided, however,* That final settlement shall be made at prices no higher than are finally approved by the Office of Price Administration, and, if required, refunds shall be made.

EXPLANATORY NOTE:—For the purpose of this paragraph, the Office of Price Administration has determined that only a dress manufacturer whose minimum wholesale price line is $16.00 or more would constitute a "manufacturer of relatively expensive dresses" except that in the case of dresses produced from all cotton fabrics such price line may be as low as $3.75.

(3) The Price Administrator may grant such adjustment upon such terms and conditions as shall appear reasonable and necessary under all the circumstances.

[Paragraph (b) as amended by Amendment 6, 7 F.R. 5364]

(c) [Revoked by Amendment 10, March 10, 1943]

[NOTE: Procedural Regulation No. 6 (7 F.R. 5087, 5665) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Supplementary Order No. 9 (7 F.R. 5444) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, with the exception of those on scrap, waste, and salvage materials.]

[NOTE: Supplementary Order No. 28 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

§ 1400.81 *Definitions.* (a) When used in this Maximum Price Regulation No. 127, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Finished piece goods" means woven fabrics, more than 12 inches in width, bleached, dyed, printed, mercerized or otherwise finished or processed, composed—in the amount of seventy-five percent or more by weight—of either cotton fibre or chemically produced yarn or fibre made from cellulose or with a cellulose base, or of any mixtures thereof, regardless of what other material may be included in the fabric.

[Paragraph (2) as amended by Amendment 2, 7 F.R. 4180]

(3) "Class I purchaser" includes an export merchant, foreign purchaser or agent of a foreign purchaser, any agency of the federal government, any agency of a state, county or municipal government, a cutter, manufacturer, converter-jobber, jobber or wholesaler (except as provided in subparagraph (4) of this paragraph), and any similar class of purchaser not specifically enumerated herein.

[Paragraph (3) as amended by Amendments 2 and 5, 7 F.R. 4180, 4762]

(4) "Class II purchaser" includes a retailer (whether independent retailer, chain store or mail order house), private hospital or other similar private institution, hotel, steamship company, canvasser, tailor supply store, tailor trimming store, decorative goods jobber, interior decorator, milliners' supply house, dressmakers' supply house, custom shirtmakers' supply house, and any similar class of purchaser not specifically enumerated herein.

[Paragraph (4) as amended by Amendment 6, 7 F.R. 5364]

(5) "Converter" means a person who sells finished piece goods after having finished such goods or after causing them to be finished for his account.

(6) "Sales at retail" means sales to the ultimate consumer: *Provided,* That no cutter, manufacturer, purchaser for resale, or other commercial user shall be deemed to be an ultimate consumer.

(7) "Export merchant" means a jobber of finished piece goods engaged in exporting finished piece goods (either exclusively or in addition to selling such goods in the domestic market) who (i) buys goods for his own account, (ii) takes title to the goods, (iii) sells them direct, or through customary trade channels, to foreign purchasers or agents of foreign purchasers, and (iv) assumes all risks of loss until title to the goods passes to the foreign buyer according to the terms of the sale.

(8) "Decorative goods jobber" means a person customarily engaged in the business of and whose principal business consists of selling upholstery fabrics, drapery fabrics, slip cover fabrics and other finished piece goods, in cut lengths of specified yardage, to interior decorators.

(9) "Converter-jobber" means a converter who is also regularly engaged in performing, in addition to his converting business, the function of a jobber or wholesaler, and includes a jobber or wholesaler controlling, controlled by or under common control with a converter.

(10) "Atlantic seaboard States" means Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, District of Columbia, West Virginia, North Carolina, South Carolina, Georgia, Tennessee, Florida, Kentucky, Alabama and Mississippi.

[Paragraphs (9) and (10) added by Amendment 2, 7 F.R. 4180]

(11) "Women's shoe fabric supplier" means a person engaged in the business of and whose principal business consists of supplying to shoe manufacturers and shoe ornament manufacturers fabrics destined for use as outer fabrics, heel coverings, linings and ornaments for women's novelty shoes (a substantial part of such business being done in outer fabrics), and who, by business custom, has customarily given to such manufacturer a warranty that the fabric is suitable as a shoe fabric.

(12) "Ecclesiastical fabrics" means finished piece goods woven, printed, dyed or embossed in colors, patterns or designs prescribed by religious law or tradition, and sold exclusively for use in the manufacture of religious accessories.

(13) "Metallic fabrics" means finished piece goods which contain woven metal in the amount of five percent or more by weight.

[Paragraphs (11) through (13) added by Amendment 6, 7 F.R. 5364]

(14) "Loom-finished fabrics" means yarn-dyed or warp-printed piece goods which (i) are woven on a non-automatic loom; (ii) are made from warps of 800 yards or less; (iii) are woven on the basis of 6 looms or less per weaver; (iv) are produced in quantities of 5000 yards or less per warp design per month; (v) require no finishing other than calendering or framing after leaving the loom; and (vi) constitute a type not commercially traded in as grey goods.

[Paragraph (14) added by Amendment 6, 7 F.R. 5364, and amended by Amendment 9, 7 F.R. 9823]

(15) "Furrier supplier" means a person customarily engaged in the business of and whose principal business with respect to finished piece goods consists of supplying to manufacturers, repairers and alterers of fur garments, finished piece goods in cut lengths of specified yardage, and includes any person engaged exclusively in supplying to manufacturers, repairers and alterers of fur garments fabrics constructed and processed especially for fur linings.

[Paragraph (15) added by Amendment 6, 7 F.R. 5364, and amended by Amendment 7, 7 F.R. 5675]

(16) (i) "War procurement agency" means the War Department, the Department of the Navy, the United States Maritime Commission, and the Lend-Lease Section in the Procurement Division of the Treasury Department; or any agency of the foregoing, and shall be deemed to include stores operated as Army Canteens, post exchanges or ship's service activities. The term "war procurement agency" shall also include "contractor" and "subcontractor" as defined in subdivision (ii) of this subparagraph.

(ii) "Contractor" and "subcontractor" means any person who contracts to sell finished piece goods or a commodity processed or made from such goods to, respectively, any war procurement agency or any person who physically incorporates such goods or a commodity processed or made from such goods in an article being processed or made for any war procurement agency.

(17) "Tailor trimming store" includes a tailor supply house, and means a person engaged in the business of and whose principal business consists of supplying finished piece goods in cut lengths of specified yardage and other supplies to tailors engaged in the production of individually ordered items of apparel or in the repairing or alteration thereof.

(18) "Dressmakers' supply house" means a person engaged in the business of and whose principal business consists of supplying finished piece goods in cut lengths of specified yardage and other supplies to dressmakers engaged in the production of individually ordered items of apparel or in the repairing or alteration thereof.

(19) "Milliners' supply house" means a person engaged in the business of and whose principal business consists of supplying finished piece goods in cut lengths of specified yardage and other supplies to persons engaged in the producing, repairing or altering of millinery.

[Paragraphs (16) through (19) added by Amendment 6, 7 F.R. 5364]

(20) "Artificial flower manufacturers' supplier" means a person engaged in the business of and whose business with respect to finished piece goods consists exclusively of supplying specially finished piece goods for use in the manufacture of artificial flowers, to persons engaged in such manufacture.

[Paragraph (20) added by Amendment 7]

(21) "Producer" means the person in whose mill grey or colored-yarn goods are woven, and includes any agent of the producer and any person controlling, controlled by, or under common control with the producer.

[Paragraph (21) added by Amendment 9, 7 F.R. 9823]

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1400.82 *Appendix A: Maximum prices for finished piece goods*—(a) *Method of determining maximum prices.* Except as otherwise specifically provided in this section, the maximum net selling price, f. o. b. point of shipment[9] for finished piece goods shall be the aggregate of the five items set forth below in this paragraph (subparagraphs (1) to (5), inclusive) divided by the appropriate division factor set forth in paragraph (g) of this section:

(1) Basic grey goods cost, determined in accordance with paragraph (b) of this section.

(2) The grey freight, determined in accordance with paragraph (c) of this section.

(3) Working allowance, determined in accordance with paragraph (d) of this section.

(4) Finishing cost, determined in accordance with paragraph (e) of this section.

(5) Put up charges, determined in accordance with paragraph (f) of this section.

[Paragraph (a) as amended by Amendment 2, 7 F.R. 4180]

(b) *Basic grey goods cost.* (1) Except as otherwise specifically provided in this paragraph and in paragraph (d) of this section, the basic grey goods cost to be used in determining the maximum price for finished piece goods shall be no higher than the established maximum price therefor on the day the contract for the sale of finished piece goods is made, or on the day the goods enter into the finishing process, whichever is earlier.

[Paragraph (1) as amended by Amendment 6, 7 F.R. 5364]

(2) For persons, commonly called vertical organizations, customarily engaged in processing their own goods or goods owned by subsidiaries or affiliates, the basic grey goods cost to be used in computing the maximum price under paragraph (a) shall be determined as follows:

(i) For grey or partially finished goods acquired from an outside source other than a subsidiary or affiliate, the basic grey goods cost shall be computed in accordance with subparagraph (1) above.

(ii) For grey goods produced by such person or by a subsidiary or affiliate, for which maximum prices are established by Revised Price Schedule No. 11,[10] Revised Price Schedule No. 35,[11] or Revised Price Schedule No. 23, as Amended,[12] the basic grey goods cost shall be no higher than the established maximum price therefor on the day the contract for the sale of finished piece goods is made, or on the day the goods enter into the finishing process, whichever is earlier.

(iii) For any other grey goods produced by such person or by a subsidiary or affiliate,[13] the basic grey goods cost shall be no higher than the maximum price which would be applicable for a sale of such grey goods to a converter on the day the contract for the sale of finished piece goods is made, or on the day the goods enter into the finishing process, whichever is earlier.

(3) For finished piece goods which are produced from grey goods produced in and imported from a foreign country, the basic grey goods cost shall be no higher than the actual landed, duty paid, cost of such grey goods.

[Paragraphs (2) and (3) as amended by Amendment 2, 7 F.R. 4180]

[9] Where a converter or a subsidiary or affiliate of a converter, sells converted goods from a point of shipment which is located outside of the Atlantic Seaboard States, and the finishing operations with respect to such goods are performed in any of such Atlantic Seaboard States, the seller may add to the otherwise applicable maximum price the actual transportation charges incurred in bringing the finished piece goods to such point of shipment. If the goods are transported to such point of shipment in a conveyance other than a common carrier, the charge shall not exceed the charge which would be applicable in an identical shipment at the lowest available commercial transportation rate.

[10] 7 F.R. 1231, 1836, 2000, 2132, 2737, 3163, 5519, 7434, 8936, 8948, 10009, 10534; 8 F.R. 262, 361, 2206.

[11] 8 F.R. 1963.

[12] 7 F.R. 2899, 2966, 2945, 4342, 3481, 6771, 8948.

[13] This includes, but is not limited to, grey goods which would, if sold, be subject to Maximum Price Regulation No. 118—Cotton Products. 7 F.R. 3038, 3211, 3522, 3578, 3824, 3905, 4405, 5224, 5405, 5567, 5836, 6005, 6484.

(4) If for any reason the basic grey goods cost cannot be determined under subparagraphs (1) and (2) of this paragraph, then the basic grey goods cost shall be no higher than the established maximum price for such grey goods on July 14, 1942.

[Paragraph (4) as amended by Amendment 6, 7 F.R. 5364]

(5) [Revoked by Amendment 6, 7 F.R. 5364]

(c) *Grey freight.* (1) Subject to the other provisions of this paragraph (c), the grey freight which may be included in computing the maximum price under paragraph (a) of this section shall be no higher than actual transportation charges paid by the seller of the finished piece goods (not absorbed by the finisher) incurred in transporting the basic grey goods to the finishing plant where the finishing process is begun.

(2) In the event the grey goods are transported in a conveyance owned or operated by the converter, or the finisher, or by a person controlling, controlled by, or under common control with the converter or the finisher, and the charges are not absorbed by the finisher, the freight charge shall not exceed the charge which would be applicable to an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate.

(3) Where goods are shipped from the grey goods mill to a point other than the finishing plant where the finishing process is begun, only the actual freight (which is not absorbed by the finisher) incurred in the final shipment from such other point to the finishing plant where the finishing process is begun may be used in determining the maximum price under paragraph (a) of this section.

(4) Where goods are trans-shipped from one finishing plant to another (after the goods are partially or wholly finished), the freight charges on such trans-shipments shall not be included in computing the maximum price under paragraph (a) of this section: *Provided,* That if partially-finished goods are trans-shipped from one finishing plant to another for the purpose of screen printing, flock printing, or lacquer printing at the second plant, then the freight charges on such trans-shipment may be included in computing the maximum price under paragraph (a) of this section.

(5) For the purpose of determining a grey freight charge in order to quote prices for and make sales of finished piece goods in advance of actual shipment of the grey goods a seller of finished piece goods may use the following allowance for grey freight:

(i) *Grey goods containing more than 50% cotton by weight.* For shipments from any point in Zone I [14] to any point in Zone II [15] or shipments from any point in Zone II to any point in Zone I, an allowance of 55¢ per hundred pounds less any inward freight allowance made by the finisher; for shipments from any point in Zone I to a point in Zone I or for shipments from any point in Zone II to a point in Zone II, an allowance of 20¢ per hundred pounds, less any inward freight allowance made by the finisher.

(ii) *Grey goods containing 50% cotton or less by weight.* For shipments from any point in Zone I to any point in Zone II or for shipments from any point in Zone II to any point in Zone I, an allowance of 85¢ per hundred pounds less any inward freight allowance made by the finisher; for shipments from any point in Zone I to a point in Zone I, or for shipments from any point in Zone II to a point in Zone II, an allowance of 25¢ per hundred pounds, less any inward freight allowance made by the finisher: *Provided,* That in all cases where a forward sale is made upon the basis provided herein, the price may not be subsequently altered after an actual determination of grey freight charges has been made.

[Paragraph (c) as amended by Amendment 2, 7 F.R. 4180]

[NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

(d) *Working allowance*—(1) *For finished piece goods containing 50% or more of rayon by weight.* Except as provided in subparagraphs (3) and (4) of this paragraph, the working allowance which may be used in determining the maximum price under paragraph (a) of this section shall be the actual figure specified by the finisher in his contract: *Provided,* That if the working allowance specified in the contract shall exceed the actual shrinkage of the fabric as determined by the increase of finished pick count over grey goods pick count plus not more than 2% tolerance for physical loss of goods occasioned by handling and processing the fabric, then such actual shrinkage plus such 2% tolerance shall constitute the maximum working allowance to be used in determining the maximum price for the finished piece goods.

In the event that there is a net yardage gain as a result of the finishing process, such gain must be deducted from the basic grey goods cost under paragraph (b) of this section.

(2) *For finished piece goods containing less than 50% of rayon by weight.* Except as provided in subparagraphs (3) and (4) of this paragraph, the working allowance which may be used in determining the maximum price under paragraph (a) of this section shall be the actual working allowance specified by the finisher in his contract.

In the event that there is a net yardage gain as a result of the finishing process, such gain must be deducted from the basic grey goods cost under paragraph (b) of this section.

(3) *For vertical organizations.* For persons, commonly called vertical organizations, customarily engaged in processing their own goods or goods owned by subsidiaries or affiliates, the working allowance used in determining the maximum price under paragraph (a) of this section shall not exceed the allowance which would be applicable had the finishing operation been performed by an independent finisher.

(4) *For any new construction or for any new finishing process.* The working allowance for any new construction or for any new finishing process may be determined in a preliminary manner from the actual yield of a carefully controlled lot of not less than 1,000 yards of the finished goods: *Provided,* That the working allowance to be used in determining the maximum price for the finished piece goods shall not exceed the shrinkage determined by the actual yield of the first 10,000 yards of finished fabric.

(e) *Finishing cost.* Subject to the following provisions, the finishing cost shall be the price specified in the finishing contract and actually paid by the seller of the finished goods and shall not include any finishing costs incurred by any person prior to the acquisition of the goods by such seller.

(1) If the price specified in the finishing contract is made on a "silk basis" or a "store door delivered basis", (i. e., including put up and delivery charges) then such price shall, for the purpose of determining the appropriate division factor, be reduced by ¼¢ per yard: *Provided,* That the total finishing cost may be included in the final computation of the maximum price for the finished piece goods.

(2) If the price specified in the finishing contract is made on a "cotton basis" (that is, f. o. b. finishing plant) such price, exclusive of charges for cases, papers and tubes, shall, for the purposes of determining the appropriate division factor, constitute the finishing cost.

(3) [Revoked by Amendment 10, March 10, 1943]

(4) Where fabrics are printed both face and back, whether register-printed or not, the finishing cost which may be used in determining the appropriate division factor under paragraph (g) of this section shall be 75% of the price specified in the finishing contract and actually paid by the converter: *Provided,* That the full cost of such printing may be included in the final computation of the maximum price for the finished piece goods.

(5) For persons, commonly called vertical organizations, customarily engaged in processing their own goods or goods owned by subsidiaries or affiliates, the finishing cost used in determining the appropriate division factor under paragraph (g) of this section shall not exceed the amount which such persons are entitled to charge under Maximum Price Regulation No. 128 [16] Processing Piece Goods: *Provided,* That if such persons have finishing operations performed by independent finishers, the finishing cost shall be determined in accordance with the foregoing provisions of this section.

(6) Extra charges actually made for special folding such as doubling and rolling and book fold, may be included in the finishing cost for the purpose of determining the division factor and the maximum price: *Provided,* That if such special folding is done by a person other than the person performing the finishing operations, the amount which may be included shall be no more than ¼¢ per yard.

[Paragraph (6) added by Amendment 2, 7 F.R. 4180]

(f) *Put-up charges.* (1) Except as provided in subparagraph (3) of this paragraph, the put-up charges which may be used under paragraph (a) (5) of this section shall include only the charges for papers, boards, tubes and packing cases and, in the case of sales for export, the charges for export packing. In no event (except for export sales) shall charges for wooden shells be included in such computation.

(2) For persons, commonly called vertical organizations, customarily engaged in processing their own goods or goods owned by subsidiaries or affiliates, the put-up charges used under paragraph (a) (5) of this section in determining the maximum price for finished piece goods shall not exceed the charges which would be applicable had such services been performed and such material furnished by an independent finisher.

(3) Where the finishing cost is on a "cotton basis," a seller of finished piece goods may, for the purpose of determining a put-up charge as defined in subparagraph (1) of this paragraph, in order to quote prices for and make sales of finished piece goods in advance of actual production thereof, use a put-up charge of .0020 per yard: *Provided,* That in all cases where a forward sale is made upon the basis provided herein, the price may not be subsequently altered after an actual determination of the put-up charges has been made.

[Paragraph (f) as amended by Amendment 2, 7 F.R. 4180]

[NOTE: Supplementary Order No. 34 (7 F.R. 10779) permits special packing expenses to be added to maximum prices on sales to procurement agencies of the United States.]

(g) *Tables of division factors*—(1) *In general.* (i) Table I set forth below is to be used with respect to finished piece goods containing 75% or more of cotton by weight unless 4% or more of coverage of the warp or 4% or more of coverage of the filling in the finished goods is yarn dyed or stock dyed. In the latter case, reference must be made to Tables III and IV below. The division factor is determined by reference to the finishing cost (see paragraph (e) of this section), the class of purchaser to whom the sale is made, and the type of finish that is applied.

(ii) Table II set forth below is to be used with respect to finished piece goods containing less than 75% cotton by weight unless 4% or more of coverage of the warp or 4% or more of the coverage in the filling in the finished goods is yarn dyed or stock dyed. In the latter case reference must be made to Tables III and IV below. The division factor is determined by reference to the finishing cost (see paragraph (e) of this section), the class of purchaser to whom the sale is made, and the type of finish that is applied.

(iii) Table III set forth below is to be used with respect to finished piece goods of which 4% or more of coverage of the warp in the finished goods is yarn dyed or stock dyed, and of which none of the filling is yarn dyed or stock dyed and with respect to finished piece goods of which 4% or more of coverage of the filling is yarn dyed or stock dyed and of which none of the warp is yarn dyed or stock dyed, regardless of the rayon or cotton content, and regardless of the finish that is applied thereto. The division factor is determined by reference to the finishing cost (see paragraph (e) of this section), the class of purchaser to whom the sale is made, and the type of finish that is applied.

(iv) Table IV set forth below is to be used with respect to finished piece goods of which 4% or more of coverage of the warp in the finished goods is yarn dyed or stock dyed, and of which some part of the filling is yarn dyed or stock dyed, regardless of the rayon or cotton content, and regardless of the finish that is applied thereto. The division factor is determined by reference to the percentage of coverage of colored yarn in both the warp and filling and the class of purchaser to whom the sale is made.

[Paragraph (1) (i) through (iv) as amended by Amendment 2]

(v) A converter whose production of finished piece goods during the years 1939, 1940 and 1941 consisted predominantly of better cotton wash fabrics which (*a*) are composed 100% of cotton, (*b*) are sold to manufacturers of women's and children's dresses, suits and sportswear and to retail outlets, and (*c*) are of a type that, during the period from August 1, 1941, to September 30, 1941, inclusive, were sold at a price of 27½ cents or more per yard, net after discount, may use Table Ia set forth below with respect to such fabrics: *Provided,* That no converter shall use Table Ia unless, on or before December 15, 1942, he shall have filed his name and address with the Office of Price Administration, Washington, D. C., certifying that he meets the above qualifications, and shall have received written acknowledgment of that fact.

[Paragraph (v) added by Amendment 9, 7 F.R. 9823]

(2) *Cotton finished piece goods.*—(i) *General.* Except for yarn dyed fabrics covered by subparagraph (4), Tables III and IV, this Table I is to be used for all finished piece goods containing 75% or more cotton by weight.

46 to 60.99	.805	.755
61 to 75.99	.79	.74
76 and over	.78	.73

[1] Table IV shall be used for all finished piece goods (irrespective of the percentage of cotton or rayon content) of which 4% or more of coverage of the warp is yarn dyed or stock dyed and of which any percentage of the filling is yarn dyed or stock dyed.

(h) *Credit terms.* (1) The maximum prices established by this Maximum Price Regulation No. 127 are net selling prices.

(2) If a seller desires to sell on a discount basis of 2% off ten days, sixty days extra, he may compute the maximum price on such a sale by dividing the net price by .97: *Provided*, That if any such sale is made, the seller must allow the buyer the following discounts:

(i) If payment is made within 10 days after delivery, a discount of 3%;

(ii) If payment is made within the next sixty days, a discount of 2% plus ½ of 1% per month for any portion of the sixty days which is anticipated.

(3) If a seller desires to sell on a discount basis of net 10 days, sixty days extra, he may compute the maximum price on such a sale by dividing the net price by .99: *Provided*, That if any such sale is made, the seller must allow the buyer the following discounts:

(i) If payment is made within 10 days after delivery, a discount of 1%.

(ii) If payment is made within the next 60 days, a discount of ½ of 1% per month for any portion of the sixty days which is anticipated.

[Paragraph (3) as amended by Amendment 2, 7 F.R. 4180]

(4) The maximum net prices may be increased by an appropriate division factor (in accordance with the formula set forth in subparagraphs (2) and (3) of this paragraph) in any case where the credit terms do not exceed a discount of 3 percent nor a time period in excess of 70 days from the date of the invoice but may not otherwise be increased for the purpose of granting other credit or discount terms.

[Paragraph (4) as amended by Amendment 7, 7 F.R. 5675]

(i) *Wholesalers and jobbers*—(1) *General provisions.* Subject to the other provisions of this paragraph, the maximum price for finished piece goods sold in the performance of a recognized distributive function [17] by a wholesaler, jobber or converter-jobber selling jobbed goods, shall be computed by dividing the actual cost [18] by .83 if the sale is to a Class I purchaser: *Provided*, That contracts entered into between May 4, 1942, and June 3, 1942, at prices in compliance with the provisions of this Maximum Price Regulation No. 127 (§§ 1400.71 to 1400.84, inclusive), as then in force, may be carried out at the contract price.

[Paragraph (1) as amended by Amendment 5, 7 F.R. 4762]

(2) *Restrictions on jobbers' and wholesalers' mark-up.* No part of the mark-up provided for in subparagraph (1) of this paragraph, may be charged:

(i) [Revoked by Amendment 2, 7 F.R. 4180].

(ii) On a sale by a wholesaler or jobber to a converter or a converter-jobber;

[Paragraph (ii) as amended by Amendment 2]

(iii) [Revoked by Amendment 2].

(iv) On an export sale by an export merchant;

(v) On a sale of jobbed goods to any person by a converter-jobber unless and until authorized under subparagraph (3) of this paragraph: [19] *Provided*, That a converter-jobber who has properly filed a petition for exception under subparagraph (3) of this paragraph, and has been notified by the Secretary of the Office of Price Administration that his petition has been docketed, may, until such time as the petition is acted upon by the Office of Price Administration, sell and deliver the goods which he purchases or has purchased as a jobber or wholesaler in accordance with other provisions of this paragraph (i): *Provided, however*, That on and after July 1, 1942, the percentage of such jobbing business shall be no greater in relation to his total sales of finished piece goods than the average percentage of such business during the years 1939, 1940, and 1941, or during such part thereof as he acted as a converter-jobber. The restrictions imposed by this subdivision (v) shall not be applicable to a jobber whose converting business consists solely of sales of finished piece goods to a war procurement agency.

[Paragraph (v) as amended by Amendments 2 and 10]

(vi) On a resale of finished piece goods by a cutter or manufacturer: *Provided*, That this restriction shall not apply (*a*) where such a resale is made in pursuance of an established trade practice by which the cutter or manufacturer is required, as a necessary part of making sales of his cut or manufactured articles, to furnish to his buyers an additional quantity of piece goods identical with or similar to the goods from which such articles are cut or manufactured; or, (*b*) where a cutter or manufacturer who, as a separate and substantial portion of his business has regularly been engaged in wholesaling or jobbing, resells finished piece goods purchased exclusively for the purpose of resale and not for use in connection with his cutting or manufacturing operations. Every cutter or manufacturer falling within the category defined in (*b*) above shall, on or before December 15, 1942, file his name and address with the Office of Price Administration, Washington, D. C.

[Paragraph (vi) as amended by Amendment 9, 7 F.R. 9823]

(3) *Petitions for exception by a converter-jobber.* Any converter-jobber, as defined in § 1400.81 hereof, who desires to continue operating as such, may petition the Office of Price Administration for an exception from the provisions of § 1400.82 (i) (2) (v), and for permission so to do. The Price Administrator may grant such exception upon such terms and conditions as shall appear reasonable and necessary under all the circumstances: *Provided*, That no such petition will be considered unless it is filed in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

[Paragraph (3) as amended by Amendment 2, 7 F.R. 4180]

(4) Where a sale is made by a converter-jobber, wholesaler or jobber to another converter-jobber, wholesaler or jobber or to an export merchant, the maximum price which the purchaser may charge on a domestic resale shall be no higher than the price which the original wholesaler, jobber or converter-jobber would be entitled to charge.

[Paragraph (4) added by Amendment 2, 7 F.R. 4180]

(5) *Charges for special folding by a wholesaler or jobber.* The actual cost, but not more than ½¢ per yard, may be added to the selling price of finished piece goods by a wholesaler, jobber or converter-jobber selling jobbed goods, for special folding such as doubling and rolling and book fold: *Provided*, That, (i) special folding has not been performed before the goods were purchased by the wholesaler, jobber or converter-jobber;

(ii) Special folding was performed by or for the account of the wholesaler, jobber or converter-jobber;

(iii) No part of the mark-up provided for in subparagraph (1) of this paragraph may be applied to the cost of such special folding; and

(iv) The portion of the total selling price attributable to special folding shall be itemized separately in an invoice or similar document which shall be delivered to the purchaser of the goods.

(j) *Export sales.* The maximum price at which a person may sell or deliver finished piece goods for export shall be determined in accordance with the provisions of the Maximum Export Price Regulation issued by the Office of Price Administration on April 25, 1942.

(k) *Redyeing, reprinting and overprinting.* No charges for reprinting, redyeing or overprinting subsequent to the original finishing operation shall be or may be added to or included in the computation of the maximum prices established by this Regulation except for screen printing, flock printing, and lacquer printing.

(l) *Substandard goods.* The maximum prices above set forth shall be discounted for substandard goods as follows:

(1) Finishers' seconds and shorts (i. e. finished piece goods which are substandard as a result of finishing process):

Regular sized pieces discounted by 10%.

20 to 40 yard lengths discounted by 15%.

10 to 19.99 yard lengths discounted by 20%.

1 to 9.99 yard lengths discounted by 30%.

(m) *Exceptions.* Boott Mills, Lowell, Massachusetts may deliver bleached and shrunk Type C twill, 29'' wide, Specification 27 T 25, to the Department of the Navy of the United States, pursuant to Navy Contract NXS 5699, in a quantity not exceeding the amount called for by such contract, at a price not exceeding that specified in such contract.

[Paragraph (m) added by Amendment 4 7 F.R. 4587]

(n) *Premiums*—(1) *Sales of cut lengths.* A premium not exceeding 10% of the otherwise applicable maximum net price may be charged on the sale of cut lengths less than 20 yards when such lengths are cut from a larger piece to fill a specific order: *Provided*, That such premium may not be charged where the finished piece goods are produced in such cut lengths as a part of the original finishing operation: *Provided further*, That such premium may not be charged on a sale to a wholesaler or jobber.

[Paragraph (n) added by Amendment 6, 7 F.R. 5364]

(o) *Averaging of prices by converters.* Where a converter produces various colors of the same pattern or style, and where the maximum prices for such colors vary, or where a converter produces separate lots of the same pattern or style with a resulting variation in the maximum prices for such lots, he may after computing the maximum price separately for each color or each lot, determine and use as his maximum price for the entire pattern or style a weighted average of such varying prices.

[Paragraph (o) added by Amendment 7, 7 F.R. 5675]

(p) *Specific prices for shoe-lining fabrics.* (1) On and after August 26, 1942, notwithstanding any of the provisions of §§1400.77 and 1400.78 and any other provision of this § 1400.82 of this Maximum Price Regulation No. 127, and regardless of any contract, agreement, lease or other obligation the base maximum prices for the following fabrics when sold to shoe manufacturers for use as shoe linings shall be as set forth in Tables V, VI, and VIII hereof:

[Table IX as amended by Amendment 10]

(2) The maximum prices established herein shall apply to contracts of sale entered into on or after August 26, 1942, and also to all deliveries made on or after that date against contracts entered into on or after May 4, 1942.

[Paragraphs (p) and (q) added by Amendment 8, 7 F.R. 6653]

(r) *Specific prices for private sales of certain Government-specification goods.* (1) Notwithstanding any of the provisions of §§ 1400.77 and 1400.78 and any other provisions of this § 1400.82 except

[17] No sale is made "in the performance of a recognized distributive function" within the meaning of this Maximum Price Regulation No. 127 unless it advances the goods sold to the next stage of distribution.

[18] The actual cost may include only (a) the invoice price of the finished piece goods less all discounts taken (which must not, for any purchases made on or after May 4, 1942, exceed the maximum price established by this Maximum Price Regulation No. 127) and (b) the actual transportation charges incurred by the wholesaler or jobber with respect to such finished piece goods. If the goods are transported in a conveyance other than a commercial carrier, the transportation charge shall not exceed the charge which would be applicable in an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate.

A wholesaler, jobber or converter-jobber, where he mingles in his inventory separate lots of the same pattern of printed goods or separate lots of the same bleached goods, or separate lots of the same dyed goods, which he acquired at varying prices, may take the weighted average cost of such mingled lot for the purpose of determining his actual cost thereof: *Provided*, That if any unsold portion of a lot on which an average cost has been determined is subsequently combined with another lot, the previously determined weighted average cost of such unsold portion shall be used for such unsold portion in computing the weighted average cost of the newly mingled lot.

[19] It is the intention of the Office of Price Administration that this subparagraph shall apply to converters who also act as jobbers and wholesalers and to wholesalers or jobbers who also do some converting.

paragraph (i), and regardless of any contract, agreement, lease or other obligation, the maximum prices for finished piece goods of the types and made with reference to the specifications (in their present form or as hereafter amended) listed below, when such goods are sold to any person other than a war procurement agency, shall be as set forth in Table X hereof. The maximum prices so set forth are based on the widths therein indicated, and shall be reduced or increased in proportion to any reduction or increase in such widths which may be authorized or required by such specifications.

*The maximum prices and width bases for goods so marked shall be the price and width specified in the last contract therefor awarded to the particular seller prior to August 26, 1942, by a war procurement agency, as defined in § 1400.81 (a) (16) (i) of this regulation. If the particular seller was not awarded any such contract prior to August 26, 1942, then his maximum prices and width bases shall be the price and width specified in the first contract therefor awarded to the particular seller on or subsequent to August 26, 1942, by a war procurement agency.

(2) The above maximum prices shall be discounted as follows:

(i) If the finished piece goods are rejects which are not finishers' seconds and are:

30 yards and up, discount by 5%.
20 to 30 yards, discount by 20%.
10 to 20 yards, discount by 30%.
1 to 10 yards, discount by 40%.

(ii) If the finished piece goods are finishers' seconds which are not rejects, they shall be discounted by the appropriate percentages set forth in § 1400.82 (l) (1);

(iii) If the finished piece goods are finishers' seconds of rejects, they shall first be discounted by the appropriate percentages set forth in subdivision (i) of this subparagraph and then by the appropriate percentages set forth in § 1400.82 (l) (1).

(3) When used in this subparagraph, "rejects" means finished piece goods which are rejected by a war procurement agency because they are made from defective grey goods, or are classified by the producer as grey goods which are below the standard required by the specification referred to in Table X.

(4) The maximum prices established by subparagraphs (1) and (2) of this paragraph are subject to credit terms as set forth in paragraph (h) of this section.

[Paragraph (r) added by Amendment 8, 7 F.R. 6653 and amended by Amendment 9, 7 F.R. 9823 and Amendment 10, March 10, 1943]

(s) *Restrictions on sales of finished piece goods by certain producers.* (1) After March 15, 1943, the percentage of the total business [20] of any producer during any calendar year which is represented by dollar sales of finished piece goods to persons other than cutters, manufacturers, retailers or war procurement agencies shall be no greater in relation to his total business than the average percentage of such dollar sales during the years 1939, 1940 and 1941. Sales of finished piece goods by a producer which are made after January 1, 1943, in fulfilment of firm commitments for the sale of such goods entered into prior to December 1, 1942, shall not be included by the producer in determining the percentage of his sales which are restricted.

(2) The restrictions contained in subparagraph (1) of this paragraph shall not apply to a producer:

(i) Whose total dollar sales of finished piece goods during the years 1939, 1940 and 1941 were greater than 50% of his aggregate dollar sales of grey and finished piece goods; or

(ii) Whose sales of finished piece goods consist solely of sales to a war procurement agency and of sales of rejects of such finished piece goods.

(3) Every producer selling finished piece goods shall, on or before April 15, 1943, file with the Office of Price Administration, Washington, D. C., his name, address, and a statement of whether or not he comes within the restrictions of this paragraph. Every producer who comes within the restrictions of this paragraph, shall retain for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, accurate records for each year after 1942 and such records as he has for each of the years 1939, 1940 and 1941 of his aggregate dollar sales of all grey and finished piece goods; his total dollar sales of finished piece goods; and his total dollar sales of finished piece goods to persons other than cutters, manufacturers, retailers or war procurement agencies.

[Paragraph(s) added by Amendment 9, 7 F.R. 9823 and amended by Amendment 10, March 10, 1943]

(t) *"Designer-converters" of certain yarn dyed or stock dyed cotton finished piece goods.* (1) Any person selling yarn dyed or stock dyed carded cotton finished piece goods shall be regarded as a "designer-converter" as to those fabrics if he

(i) Is not the producer of the goods; and

(ii) Creates the style and supplies the producer with the design, pattern, construction and other specifications and is the person for whom the fabrics so styled are exclusively produced (devising slight or immaterial differences in

[20] "Total business" means the aggregate sales of all grey and finished piece goods.

color, pattern, construction or the like, from existing current styles, shall not be deemed style creation); and

(iii) Purchases such fabrics as are of first quality from the producer in full warp sets only; and

(iv) Customarily receives delivery of such fabrics from the producer in installments according to a contract providing a predetermined schedule of delivery.

(2) Any producer who himself styles and sells yarn dyed or stock dyed cotton finished piece goods of the type customarily styled and sold by designer-converters, shall also be regarded as a designer-converter as to those fabrics.

(3) All designer-converters may use the division factors provided in Tables III and IV of paragraph (g) of this section in computing their maximum prices for fabrics of the above type. All wholesalers or jobbers other than designer-converters, who sell such fabrics shall be subject to the provisions of § 1400.82 (l).

(4) *Registration of designer-converters.* (i) No designer-converter shall sell or deliver any fabrics of the above type under the provisions of this paragraph unless he shall have filed, with the Office of Price Administration, Washington, D. C., his name, address, and the certification referred to in subdivision (ii) or (iii) of this paragraph, and have received written acknowledgment that the certification is proper.

(ii) If the registrant is not the producer of the fabrics as to which he is a designer-converter, his registration shall be accompanied by the certifications of the producers from whom he purchases such fabrics. The certifications shall list each of the qualifications for designer-converters under the provisions of subparagraph (1) of this paragraph and the producers shall certify that the registrant meets each of those qualifications.

(iii) If the registrant is the producer of the fabrics as to which he is a designer-converter, his registration shall be accompanied by his certification to the effect that he meets the qualifications for designer-converters under the provisions of subparagraph (2) of this paragraph.

(u) *Specific prices for moleskins and suedes*—(1) *Specific prices for moleskins.* On and after March 16, 1943, notwithstanding any of the provisions of §§ 1400.77 and 1400.82 except paragraph (i), the maximum prices for the following fabrics shall be as set forth in Tables XI and XII of this paragraph:

(3) The maximum prices established by subparagraphs (1) and (2) shall apply to all contracts of sale entered into on or after March 16, 1943.

(4) For any moleskins or suedes which are not specifically set forth in subparagraph (1) of this paragraph, the maximum price shall be a price in line with [21]

[21] As used herein, the term "in line with" means (1) based upon and having a justifiable relationship to, and (2) appropriately increased or decreased to take account of differences in construction, finish, dye, color and such other material factors as, in sound cost determination, are considered to have a direct bearing on the cost of production of the respective fabrics.

the maximum price established in those subparagraphs for the most nearly related type, construction, finish, color and dye. The seller shall make no sale or delivery based upon such price until he has submitted to the Office of Price Administration, Washington, D. C., the proposed price, a complete description of the specifications as set forth in Tables XI, XII, or XIII, whichever is applicable, and the way in which the price was calculated, and until the proposed price has been approved

(5) The maximum prices for moleskins and suedes included in this paragraph shall be subject to terms of three percent 10 days, f. o. b. mill.

(v) *Restrictions on sales of finished piece goods by certain cutters or manufacturers.* (1) After March 15, 1943, no cutter or manufacturer may sell more than 1000 yards of finished piece goods during any calendar month, except that this restriction shall not apply:

(i) To sales of finished piece goods to another cutter or manufacturer or to a retailer; or

(ii) To finished piece goods which the cutter or manufacturer has had in his possession for more than six months; or

(iii) Where a cutter or manufacturer who, as a separate and substantial portion of his business has regularly been engaged in wholesaling or jobbing, resells finished piece goods purchased exclusively for the purpose of resale and not for use in connection with his cutting or manufacturing operations.

The registration and record keeping requirements of this Amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 1400.83 *Temporary Maximum Price Regulation No. 10—Finished Piece Goods Made of Cotton, Rayon and Mixtures Thereof.* On the effective date provided in § 1400.84, this Maximum Price Regulation No. 127 replaces and revokes Temporary Maximum Price Regulation No. 10 [2]—Finished Piece Goods Made of Cotton, Rayon and Mixtures thereof, issued by the Price Administrator. Until such date Temporary Maximum Price Regulation No. 10 remains in full force and effect as set forth in § 1400.12 thereof.

§ 1400.84 *Effective date.* This Maximum Price Regulation No. 127 (§§ 1400.71 to 1400.84, inclusive) shall become effective May 4, 1942.

[Order 211 Under § 1499.18 (b) of GMPR]

ROCKWOOD AND CO.

Order No. 211 under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF3–2702.

For the reasons set forth in an opinion issued simultaneously herewith, *It is hereby order:*

§ 1499.1811 *Adjustment of maximum prices for Chocolate Bits sold by Rockwood and Company.* (a) Rockwood and Company, Washington, Park and Waverly Avenues, Brooklyn, New York, may sell and deliver, and any person may buy and receive from Rockwood and Company the following commodities at prices not higher than those set forth below.

(1) "Chocolate Bits," packed one dozei 7 ounce packages to the box at $1.10 per box delivered.

(2) Rockwood and Company shall continue the customary quantity discounts, allowances or other price differentials existing in March, 1942.

(b) Wholesalers of "Chocolate Bits" are hereby authorized to increase their prices to correspond to the 5¢ per box increase granted to Rockwood and Company. In no event may a sale of "Chocolate Bits" be made at retail at a price higher than that determined for the retail seller under paragraph (a) of section 2 of the General Maximum Price Regulation, or as adjusted under any other regulation issued by The Office of Price Administration.

(c) At the time of the first delivery of "Chocolate Bits" following the effective date of this order, Rockwood and Company shall supply to any retailer or wholesaler taking such delivery a written notice and shall also include such written notice in each box of "Chocolate Bits" packages. If such notice is enclosed within the shipping package, a legend shall be attached outside the package to read "Ceiling Price Notice Enclosed." The written notice shall read as follows:

A new delivered maximum price of $1.10 a box of twelve packages of "Chocolate Bits" has been authorized for us by the Office of Price Administration. This increase was granted because our March, 1942 price was abnormally low in relation to the prices charged by our competitors. Our new price is subject to all allowances, discounts and trade practices which we had in effect in March, 1942 with respect to "Chocolate Bits." Wholesalers may add 5¢ to their March, 1942 prices. Retailers are in no event to increase their prices above March, 1942 ceilings.

(d) All prayers of the petition not granted herein are denied.

(e) This Order No. 211 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 211 shall become effective March 11, 1943.

PART 1351—FOODS AND FOOD PRODUCTS

[MPR 280,[1] Amendment 16]

MAXIMUM PRICES FOR SPECIFIC FOOD PRODUCTS

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 280 is amended in the following respects:

1. Section 1351.803 is amended by adding paragraph (h) to read as follows:

§ 1351.803 *Maximum prices.* * * *

(h) The provisions of this Maximum Price Regulation No. 280 do not apply to fluid milk sold at wholesale other than in glass or paper containers to stores, hotels, restaurants, and institutions in the "New York Metropolitan Area." Maximum prices for such sales are set in subdivision (ii) of § 1499.73 (a) (1), Supplementary Regulation 14 to the General Maximum Price Regulation. (Amendment No. 134 to Supplementary Regulation 14.)

2. Section 1351.808 is amended by adding a new paragraph (l) to read as follows:

§ 1351.808 *Exempt sales.* This maximum price regulation shall not apply to the following:

* * * * *

(l) Fluid milk sold at wholesale in bulk (other than in glass or paper containers) to stores, hotels, restaurants, and institutions, in the New York Metropolitan Area. Maximum prices for such sales are set in subdivision (ii) of § 1499.73 (a) (1), Supplementary Regulation 14 to the General Maximum Price Regulation. (Amendment No. 134 to Supplementary Regulation 14.)

3. Section 1351.816 (a) is amended by adding a new subparagraph (9), to read as follows:

§ 1351.816 *Definitions.* (a) When used in this Maximum Price Regulation 280, the term:

* * * * *

(9) "New York Metropolitan Area" means the territory included in the City of New York, Counties of Nassau, Suffolk (except Fisher's Island) and Westchester, all in the State of New York.

This amendment shall become effective March 11, 1943 and terminate on April 1, 1943.

PART 1429—POULTRY AND EGGS

[MPR 333,[1] Amendment 2]

EGGS AND EGG PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 333 is amended in the following respects:

1. Section 1429.54 (c) is amended to read as follows:

(c) Except as provided in §§ 1429.69 (b) (3), 1429.69 (c) (2), 1429.71 (b), and 1429.74 (e) hereof, the maximum prices established by this regulation are maximum prices per dozen eggs or per pound of egg products delivered to the buyer as herein provided and the provisions of this regulation shall not be evaded by selling such eggs or egg products at a price f. o. b. the seller's shipping point.

2. A new § 1429.69 (b) (3) is added to read as follows:

(3) Maximum prices of shell eggs of procurement grades sold to the United States or any agency thereof f. o. b. the seller's shipping point in "Area 1" shall be the maximum prices per dozen for eggs of the particular grade, size and other identification set forth in Table D of this section for the week of shipment plus the "transportation factor" from Chicago, Illinois to the point of shipment.

3. Section 1429.69 (c) (1) is amended to read as follows:

(1) From the maximum price in the basing point city reflecting the highest price of shell eggs of the procurement grade sold for the week in which they are to be delivered, the "transportation factor" for such grade of eggs from the point of delivery to the basing point city shall be subtracted. The resulting figure is the maximum price of such eggs delivered at their destination.

4. A new § 1429.69 (c) (2) is added to read as follows:

(2) Maximum prices of shell eggs of procurement grades sold to the United States or any agency thereof f. o. b. the seller's shipping point in "Area 2" shall be the maximum prices per dozen for eggs of the particular grade, size and other identification in the basing point city reflecting the highest price for the week in which they are to be shipped, selected from Table C of this section less the "transportation factor" from the basing point city to the point of shipment.

5. Table C of § 1429.69 (d) is amended insofar as it relates to maximum prices in basing point cities for the month of March, 1943, to read as follows:

MARCH

Grade	1	8	15	22	29
I	43	43	43	43	43
II	42.5	42.5	42.5	42.5	42.5
III	42	42	42	42	42
IV	41.5	41.5	41.5	41.5	41.5

6. Table D of § 1429.69 (e) is amended insofar as it relates to maximum prices in Chicago for the month of March 1943 to read as follows:

MARCH

Grade	1	8	15	22	29
I	41.4	41.4	41.4	41.4	41.4
II	40.9	40.9	40.9	40.9	40.9
III	40.4	40.4	40.4	40.4	40.4
IV	39.9	39.9	39.9	39.9	39.9

7. A new § 1429.69 (e) (2) is added to read as follows:

(2) Shell eggs of procurement grades when treated with a mineral oil for purposes of preservation may sell at 1¢ above the price for the particular grade, size and other indentification determined as provided herein.

8. A new § 1429.78 is added to read as follows:

§ 1429.78 *Period this amendment shall continue in effect.* Sections 1429.54 (c), 1429.69 (b) (3), 1429.69 (c) (1), 1429.69 (c) (2), 1429.69 (e) (2), and this section shall continue in force until altered or revoked by further order of the Administrator. The remaining provisions of this amendment shall continue in effect until 12 o'clock midnight on March 23, 1943, at which time the original maximum prices for the month of March set forth in Table C of § 1429.69 (d) and Table D of § 1429.29 (e) of Maximum Price Regulation No. 333 as issued on February 25, 1943, shall be reinstated automatically and without further order of the Administrator and such remaining provisions shall cease and determine.

This amendment shall be effective as of March 9, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 10th day of March 1943.

AUTHORITY: §§ 501.280 to 501.294, inclusive, issued under E.O. 8989, 9156, 9214, and 9294; 6 F.R. 6725; 7 F.R. 3349, 6097; 8 F.R. 221.

§ 501.280 *Definitions.* As used in this order (§§ 501.280 to 501.294, inclusive), or in any order, permit or regulation issued hereunder, the term:

(a) "Person" means any individual, partnership, corporation, association, joint-stock company, business trust, or other organized group of persons, and includes any agency of the United States or of any other government, the Insular Government of Puerto Rico or any political subdivision or agency thereof, or any trustee, receiver, assignee or personal representative;

(b) "Commercial motor vehicle" means (1) (i) a straight truck, (ii) a combination truck-tractor and semi-trailer, (iii) a full trailer, (iv) any combination thereof, or (v) any other rubber-tired vehicle, excluding motorcycles, propelled or drawn by mechanical power and built (or rebuilt) or used primarily for the purpose of transporting property, and (2) any bus, taxicab, jitney, or other rubber-tired vehicle, excluding motorcycles, propelled or drawn by mechanical power, used or licensed for use in the transportation of persons upon the highways for hire, or available for public rental, including ambulances and hearses;

(c) "Property" means anything, except persons, capable of being transported by a commercial motor vehicle;

(d) "Fleet" means two or more commercial motor vehicles owned or operated by one person.

§ 501.281 *Applicability.* The provisions of this order shall be applicable only within the Island of Puerto Rico.

§ 501.282 *Certificate of War Necessity required.* On and after the effective date hereof, no person shall operate any commercial motor vehicle within the Island of Puerto Rico unless there is in force with respect to such commercial motor vehicle a Certificate of War Necessity issued by the Office of Defense Transportation governing such operation.

§ 501.283 *Application for certificate.* Application for a Certificate of War Necessity shall be made in writing to the local office of the Office of Defense Transportation for the area in which the home office or principal place of business of applicant is located, unless the applicant is directed to make application to some other office of the Office of Defense Transportation. Any such application shall be made on forms provided by the Office of Defense Transportation, and shall contain such information as the Office of Defense Transportation shall require.

§ 501.284 *Issuance of Certificate of War Necessity.* (a) A Certificate of War Necessity will be issued by the Office of Defense Transportation to any qualified applicant therefor.

(b) Such certificate, when issued in respect of a single commercial motor vehicle, shall at all times be carried on such vehicle. When such certificate is issued in respect of a fleet, a fleet unit certificate shall at all times be carried on each commercial motor vehicle covered by such fleet certificate.

§ 501.285 *Contents and conditions of certificate.* Each Certificate of War Necessity issued under this order shall specify the name and address of the person to whom issued, and the vehicle or vehicles covered thereby. When deemed necessary by the Office of Defense Transportation, such certificate shall also specify:

(a) Limitations of milcage or of motor fuel, or requirements as to loads, or any one or more of such limitations or requirements, in order that such operations (1) shall be confined to those that are necessary to the war effort or to the maintenance of essential civilian economy, (2) shall be so conducted as to assure maximum utilization in such service of the commercial motor vehicle or vehicles of the applicant, and (3) shall conserve and providently utilize

rubber or rubber substitutes and other critical materials used in the manufacture, maintenance and operation of such vehicles;

(b) The purposes for which and the conditions under which such vehicle or vehicles may be operated;

(c) Such other terms or conditions as the Office of Defense Transportation may from time to time specify.

§ 501.286 *Certificate of War Necessity not transferable.* No Certificate of War Necessity shall be transferable. In the event of the sale or other transfer of a commercial motor vehicle, or a substantial change in the character of its use or the conditions under which it is used, the purchaser or transferee or owner thereof shall forthwith make application to the Regional Director, Office of Defense Transportation, San Juan, Puerto Rico, for a new certificate, upon the issuance of which the previously issued certificate appertaining to such vehicle shall be surrendered for cancellation.

§ 501.287 *Motor fuel and commercial motor vehicle parts, tires, or tubes.* On and after the effective date hereof, no person shall:

(a) Transfer any motor fuel to, or transfer, mount, or install any part, tire, or tube, in or upon any commercial motor vehicle, unless the operator thereof, at the time of such transfer or installation, shall present to such person for inspection a valid Certificate of War Necessity pertaining to such vehicle, issued by the Office of Defense Transportation.

(b) Transfer or deliver any motor fuel for the use of, or transfer, mount, install, or deliver any part, tire, or tube for the use of, any commercial motor vehicle, unless the operator of such commercial motor vehicle shall, at the time thereof, sign a written receipt, in duplicate, for such motor fuel, part, tire, or tube, and endorse on each copy of such receipt the number of the Certificate of War Necessity pertaining to the commercial vehicle or vehicles in or upon which such motor fuel, part, tire, or tube is to be used: *Provided*, That when existing conditions render it impracticable to issue or sign such receipt, such operator shall furnish to the person making the transfer, delivery or installation, his name, address and the number of the Certificate of War Necessity pertaining to such motor vehicle, and such person shall endorse the operator's name, address and number upon the invoice covering such transaction. In the event such transfer, delivery, or installation is for the use of a fleet of commercial motor vehicles, the number of the Certificate of War Necessity pertaining to such fleet shall be endorsed on each such written receipt or invoice. The original receipt or the first copy of the invoice shall be retained by the person making the transfer, delivery, or installation, and a copy of the receipt or the original of the invoice retained by the operator of such commercial motor vehicle. Such receipts and invoices shall be available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

(c) The provisions of this § 501.287 shall not apply to the sale, transfer, or delivery of motor fuel, parts, tires, or tubes, to any person for the purpose of resale.

§ 501.288 *Records and reports.* Any person operating a commercial motor vehicle in respect of which a Certificate of War Necessity has been issued shall prepare and permanently maintain such records, and make such reports, and in such manner and form, as the Office of Defense Transportation may hereafter prescribe, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942. All such records shall be available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

§ 501.289 *Enforcement officers authorized to report violations.* Any enforcement officer of the Insular Government of Puerto Rico, or of any subdivision thereof, who, on or after the effective date hereof, finds any commercial motor vehicle being operated which at such time does not have in such vehicle, available for inspection and examination, a valid Certificate of War Necessity issued under this order, or which is in any other way being operated in violation of any order of the Office of Defense Transportation, or any term or condition of a Certificate of War Necessity governing its operations, is authorized to make a report thereof to the Regional Director, Office of Defense Transportation, San Juan, Puerto Rico, stating the name of the person operating such vehicle, the owner or lessee thereof, and such other information as the Office of Defense Transportation may specify. Such reports may be made on forms prescribed by the Office of Defense Transportation.

§ 501.290 *Suspension or revocation of certificates.* Each Certificate of War Necessity issued under this order shall be effective from the date specified therein and shall remain in effect according to its terms until amended, modified, recalled, suspended, cancelled, or revoked in whole or in part by the Office of Defense Transportation for willful violation of any order of the Office of Defense Transportation or for other good cause.

§ 501.291 *Exemptions.* (a) The provisions of this order shall not apply to or include the following:

(1) A commercial motor vehicle operated by or under the direction of the armed forces of the United States, the United States Maritime Commission, the War Shipping Administration, or the armed forces of Puerto Rico organized pursuant to section 61 of the National Defense Act, as amended;

(2) A commercial motor vehicle operated by a dealer exclusively for the purpose of selling such vehicle;

(3) A motor vehicle having a capacity of not to exceed 7 passengers operated by a person between his or her home and place of work and used in transporting other persons between their homes and their places of work, if such motor vehicle is not used for any other purpose for compensation.

(b) The provisions of §§ 501.282 to 501.290, inclusive, shall not apply to or include the following:

(1) Industrial motor vehicles equipped with solid rubber tires or pneumatic tires, not designed for use on the highways, and used within industrial plants, warehouses, docks and terminals for intraplant movement of property; motor graders, scrapers, scoops, bulldozers, and other similar vehicles equipped with solid rubber tires or pneumatic tires and used in construction or maintenance work; planters, broadcast seeders, fertilizer distributors, sprayers, and other similar machines equipped with solid rubber tires or pneumatic tires and used in farming operations; farm trailers and semi-trailers, and other trailers and semi-trailers equipped with solid rubber tires or pneumatic tires, regularly drawn or powered by private passenger automobiles;

(2) Driveaway commercial motor vehicles operated by a manufacturer or dealer, or by a carrier upon behalf of a manufacturer or dealer, exclusively for the purpose of sale by such manufacturer or dealer; commercial motor vehicles operated in the course of movement from a place of storage to another place of storage, or to a place of storage upon repossession or upon seizure by competent governmental authority; commercial motor vehicles used by the United States or any agency thereof, or the Insular Government of Puerto Rico or any agency or political subdivision thereof, in testing tires, fuels, or equipment; commercial motor vehicles used exclusively for the experimental testing of synthetic or natural rubber tires by manufacturers or producers of such tires; and commercial motor vehicles operated in the course of manufacture or assembly for the purpose of testing such vehicles or in the course of movement within o. between plants engaged in their manufacture or assembly.

§ 501.292 *Suspension of provisions.* The provisions of this order or any part thereof may be suspended, from time to time, by order of the Office of Defense Transportation.

§ 501.293 *Communications.* Communications concerning this order should refer to "General Order ODT 34" and should be addressed to the Regional Director, Office of Defense Transportation, San Juan, Puerto Rico.

§ 501.294 *Effective date.* This General Order ODT 34 shall become effective April 1, 1943: *Provided, however*, That the Regional Director for Puerto Rico shall, if found by him to be necessary or desirable in the public interest, by general or special order, postpone the effective date of this order to such time after April 1, 1943, as he shall prescribe, but not beyond June 1, 1943.

Notices

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket Nos. A-1846 and A-1846, Part II]

DISTRICT BOARD 18

MEMORANDUM OPINION, ETC.

In the matter of the petition of District Board No. 18 for the establishment of certain price classifications and minimum prices for coals produced in Subdistricts 2, 3, 4, 5, 6, 7 and 8 in District No. 18.

In the matter of the petition of District Board No. 18 for the establishment of certain price classifications and minimum prices for coals produced in Subdistrict 1 in District No. 18.

Memorandum opinion and order severing Docket No. A-1846, Part II, from Docket No. A-1846, and notice of and order for hearing in Docket No. A-1846, Part II.

The original petition in the above-entitled matter, filed with this Division pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, on January 23, 1943, and amended on February 24, 1943, requests the establishment of certain price classifications and minimum prices for coals produced in Subdistricts 1, 2, 3, 4, 5, 6, 7, and 8 in District No. 18 for shipment by rail into all market areas other than those specifically set forth in the Schedule of Effective Minimum Prices for District No. 18 for All Shipments.

As indicated in a separate order issued in Docket No. A-1846, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except as to the establishment of the price classifications and minimum prices proposed in the original petition for the coals produced in Subdistrict 1, in District No. 18.

It appears that the price classifications and minimum prices proposed by petitioner in this matter for coals produced in Subdistrict 1 are lower than the effective minimum prices for coals in the corresponding size groups for shipment by rail into Market Area 236, the home market area for Subdistrict 1 coals. No sufficient reason having been advanced by petitioner to justify this lower level of prices for Subdistrict 1 coals, it appears that no price classifications or minimum prices should be established for such coals, for shipment by rail into all market areas to which those coals have not heretofore been priced, without a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A-1846 relating to the coals produced and shipped from mines in Subdistrict 1 in District No. 18 be, and it hereby is, severed from the remainder of Docket No. A-1846 and designated as Docket No. A-1846, Part II.

It is further ordered, That a hearing in Docket No. A-1846, Part II, under the applicable provisions of said Act and the rules and regulations of the Division, be held on April 2, 1943, at 10 a. m. in the forenoon of that day at a hearing room of the Bituminous Coal Division, Washington, D. C.

It is further ordered, That Travis Williams or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer or officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to continue said hearing from time to time and to prepare and submit proposed findings of fact and proposed conclusions of law and a recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party of this proceeding may file a petition of intervention in accordance with the Rules and Regulations of the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before March 30, 1943.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of the original petition.

The matter concerned herewith is in regard to the petition of District Board No. 18 for the establishment of the following price classifications and minimum prices in cents per net ton for the coals, produced in Subdistrict 1 in District No. 18, for shipment by rail into all market areas to which such coals have not heretofore been priced:

FREEBROOK CORPORATION

ORDER RESTORING CODE MEMBERSHIP

A written complaint dated February 4, 1942, having been filed on February 10, 1942, by the Bituminous Coal Producers Board for District No. 1, complainant, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, alleging wilful violation by Freebrook Corporation, a code member, Kittanning, Pennsylvania, of the Bituminous Coal Act and the rules and regulations promulgated thereunder; and

An Order having been issued herein on July 31, 1942, revoking and cancelling the code membership of said Freebrook Corporation in the Bituminous Coal Code, and providing, pursuant to section 5 (c) of the Bituminous Coal Act, for the payment to the United States of a tax in the amount of $8,500.08 as a condition precedent to the restoration of Freebrook Corporation to membership in the Code; and

An application dated August 14, 1942, having been filed with the Division by Freebrook Corporation for restoration to membership in the Code, effective as of the effective date of said revocation, supported by an agreement dated August 13, 1942, between said code member and the Collector of Internal Revenue, providing for payment of said tax in installments; and

Said application dated August 14, 1942, having been granted by order of the Division issued August 15, 1942, conditionally restoring the membership of said Freebrook Corporation in the Code effective as of the effective date of said order of revocation, upon the following terms and conditions:

In the event of default by Freebrook Corporation in making any installment payment as provided in said agreement made August 13, 1942, between said Freebrook Corporation and Walter L. Miller, Collector of Internal Revenue, such conditional restoration of code membership shall become wholly ineffective as of August 16, 1942, the entire balance of said tax then owing shall become due and payable and that all coal sold or otherwise disposed of by said Freebrook Corporation on and after August 16, 1942, shall be subject to 19½% tax provided by section 3520 (b) (1) of the Internal Revenue Code; and

Said order conditionally restoring code membership, dated August 15, 1942, of Freebrook Corporation, having provided for restoration of said Freebrook Corporation to full and unconditional membership in the Code upon payment of said tax in full in accordance with the terms of said agreement; and

The Bureau of Internal Revenue having filed a statement with the Bituminous Coal Division on February 25, 1943, showing that the final installment of said tax was paid on February 15, 1943.

Now, therefore, it is ordered, That the code membership of Freebrook Corporation be and the same is hereby fully and unconditionally restored, effective as of the effective date of said revocation of code membership.

Dated: March 9, 1943.

VALLEY CHEMICAL COMPANY

APPROVAL OF MAXIMUM PRICE

Order No. 5 under § 1363.62 (a) (5) (ii) of Maximum Price Regulation No. 74, as Amended—Animal Product Feedingstuffs.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the provisions of § 1363.62 (a) (5) (ii) of Maximum Price Regulation No. 74, as amended, *It is ordered:*

(a) *Approval of maximum price for sales of meat scaps by Valley Chemical Company with a guaranteed minimum protein content of 52 per cent.* Valley Chemical Company, Mount Pleasant, Michigan, may sell and deliver and any person may buy and receive from Valley Chemical Company, meat scraps with a guaranteed minimum protein content of 52 per cent at a maximum price of $70.42 per ton, f. o. b. conveyance at production plant of Valley Chemical Company, located in Zone 4.

(b) *Price adjustments where actual analysis differs from guaranteed minimum protein content.* In any sale made pursuant to the provisions of this order if the actual analysis differs from the guaranteed minimum percentage of protein permitted by this order, then:

(1) If above the guaranteed minimum percentage of protein, no increase in maximum prices is permitted.

(2) If one per cent or less below the guaranteed minimum percentage of protein, deduct $1.50 per ton from the selling price.

(3) If more than one per cent below the guaranteed minimum percentage of protein deduct from the selling price, $1.50 per ton for the first per cent and $3.00 per ton for each additional per cent or fraction thereof.

(c) *Notification of maximum prices.* Valley Chemical Company shall provide the following notice of the maximum price established by this order with the first delivery to each buyer of meat scraps having a guaranteed minimum protein content of 52 per cent:

The Office of Price Administration has permitted us to sell meat scraps with a guaranteed minimum protein content of 52 per cent at a maximum price of $70.42 per ton, f. o. b. our production plant, which is in line with the maximum prices established for the product by Maximum Price Regulation No. 74, as amended. The Office of Price Administration has not permitted you or any other seller to raise maximum prices for sales of these meat scraps.

(d) All prayers and requests contained in the application of Valley Chemical Company which have not been granted herein are denied.

(e) This Order No. 5 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 5 shall become effective March 11, 1943.

SEATTLE BOX COMPANY

SPECIAL ADDITION FOR LOCAL SALES OF SHOOK FOR METROPOLITAN FACTORIES

Order No. 3 under § 1377.110 (d)—Maximum Price Regulation No. 186—Western Wooden Agricultural Containers.

Pursuant to the provisions of § 1377.110 (d) of Maximum Price Regulation No. 186, Western Wooden Agricultural Containers, Seattle Box Company has shown by letter that it is located within the city limits of Seattle, Washington, one of the designated cities, and that at least 66 percent of its total 1942 box production was industrial boxes, and that it is entitled to qualify as a metropolitan factory and, as such, make the special addition of $5.00 per thousand feet to the basic price on local sales of shook.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order 9250, and pursuant to § 1377.110 (d) of Maximum Price Regulation No. 186, *It is hereby ordered*, That the Seattle Box Company, Seattle, Washington, be permitted to make a special addition of not more than $5.00 per thousand feet to the basic price on local sales of shook.

The effective date of this order is February 9, 1943.

Issued this 10th day of March 1943.

PRENTISS M. BROWN,
Administrator.

Order No. 37 under Revised Price Schedule No. 6—Iron and Steel Products—Docket No. 3006-38.

On February 5, 1943, Keystone Steel & Wire Company, Peoria, Illinois, filed a petition for exception to Revised Price Schedule No. 6, as amended, pursuant to § 1306.7 (c) thereof. Due consideration has been given to the petition and an opinion in support of this Order No. 37 has been issued simultaneously herewith and filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1, *It is hereby ordered*:

(a) The maximum base price at which Keystone Steel & Wire Company may sell to Acme Steel Company, Chicago, Illinois, and at which Acme Steel Company may purchase from Keystone Steel & Wire Company rerolling grade billets shall be the maximum Chicago, Illinois, basing point base price, f. o. b. Peoria, Illinois.

(b) The provisions of paragraph (a) hereof shall be applicable on all shipments made on or after February 5, 1943.

(c) All prayers of the petition not granted herein are denied.

(d) This Order No. 37 may be revoked or amended by the Price Administrator at any time.

(e) The definitions set forth in § 1306.8 of Revised Price Schedule No. 6 shall apply to the terms used herein.

(f) This Order No. 37 shall be effective as of February 5, 1943.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of March, A. D. 1943.

In the Matter of Kaiden-Kazanjian Studios, Inc., a Corporation, also Trading as Keystone News & Photo Service and Frances Kaiden, as President and Secretary of Kaiden-Kazanjian Studios, Inc., and also Trading Individually as Keystone News & Photo Service, and Aram Kazanjian, as Vice-President and Treasurer of Kaiden-Kazanjian Studios, Inc., and Trading Individually as Keystone News & Photo Service

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondents, and a stipulation as to the facts entered into upon the record between counse for the Federal Trade Commission and counsel for the respondents, which provides among other things that the Commission may proceed upon said statement of facts to make its report stating its findings as to the facts (including inferences which it may draw from said stipulated facts) and its conclusion based thereon and enter its order disposing of the proceeding without the presentation of argument or the filing of briefs, and which waives the filing of a report upon the evidence by the trial examiner; and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent Kaiden-Kazanjian Studios, Inc., a corporation, its officers, representatives, agents, and employees, and respondents Frances Kaiden and Aram Kazanjian, individually and as officers of Kaiden-Kazanjian Studios, Inc., and their respective representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution of photographs and miniatures in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the terms "News Service" or any other terms of similar import or meaning in any trade name or in any other manner to designate or describe any organization or business which is not engaged in the gathering and disseminating of news for newspapers, magazines, or other periodicals.

2. Representing in any manner, either directly or by implication, that the respondents are engaged in the service of gathering or disseminating news or of photographs to be used in conjunction therewith by any newspaper, magazine, or other periodical unless respondents' business consists in the rendering of such service.

3. The use of the name of any newspaper, magazine, or other periodical upon letterheads or in any other manner without the consent and permission of such magazine, newspaper, or periodical.

4. The use of the term "Goldtone" or any other term of similar import or meaning to designate or describe a photographic reproduction which is not a product resulting from a process involving the use of a toning bath employing salts of chloride of gold.

5. Representing either directly or by implication that respondents have prepared or have placed on exhibit any photograph or miniature of any purchaser or prospective purchaser unless such photograph or miniature has in fact been produced and placed on exhibit.

6. Representing as "special" or "reduced prices," prices which are in fact the regular and customary price charged by respondents for such products.

7. Representing that any photograph or miniature has a retail value or price in excess of the actual value or price at which such products are regularly and customarily offered for sale and sold in the normal and usual course of business.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 29—LABOR

Chapter V—Wage and Hour Division

[Administrative Order 181 [1]]

LEARNER REGULATIONS AND DETERMINATIONS

AMENDMENTS FOR VARIOUS INDUSTRIES

In the matter of amendments of Learner Regulations and Determinations applicable to the Hosiery Industry, Women's Apparel Industry, Single Pants, Shirts and Allied Garments Industry, Textile Industry, Knitted and Men's Woven Underwear and Commercial Knitting Industry, Knitted Outerwear Industry, Gloves and Mittens Industry, and the Sportswear and Other Odd Outerwear and the Belts Divisions of the Apparel Industry.

Whereas, written requests were received setting forth grounds for amendments of learner regulations and determinations applicable to the above industries to meet conditions of abnormal labor turnover in individual plants in these industries resulting from the war emergency, and it appeared to the Administrator that reasonable grounds exist for reconsidering the rates for learners established in the learner regulations and determinations applicable to these industries; and

Whereas, pursuant to notice (7 F.R. 8303) a public hearing was held on October 26 and 27, 1942, before Presiding Officer Merle D. Vincent, a duly authorized representative of the Administrator, who found that data were presented at the hearing which showed the need in the above industries for provision, within the regulations, for abnormal labor turnover which is occurring in certain localities, and for a change in the subminimum wage rate at which learners are to be employed, and recommended the following amendments of the learner regulations and determinations applicable to the aforementioned industries to be effective for the duration of the war emergency:

1. Special learner certificates may be issued upon individual applications of employers: *Provided*, That it is satisfactorily shown that:

(a) Experienced labor is not available in the locality from which the employer customarily draws his labor supply;

(b) Learners are available for employment at the established subminimum learner wage rate;

(c) The issue of a certificate will not tend to impair working or wage standards established for experienced workers in the industry;

(d) The issue of such certificates will not create unfair competitive labor cost advantages;

(e) The number of learners applied for will not tend to impair the statutory minimum wage rate in such plant;

(f) The applicant's piece work or hourly wage rates yield average earnings to experienced workers substantially above the minimum wage rate.

2. The subminimum wage rate which may be provided in special learner certificates shall be not less than 35 cents per hour.

3. The effective period for special learner certificates shall not exceed six months.

4. Authorization to employ a number or percentage of learners for labor turnover in excess of that provided in industry regulations may be granted to the extent of the actual need of an individual applicant, when that need is due to an abnormal labor turnover resulting from the war emergency.

5. All outstanding certificates shall be amended by administrative order to change the subminimum wage rate for learners to 35 cents per hour.

Whereas, on January 27, 1943 I issued a notice (8 F.R. 1241) of opportunity to show cause on or before February 15, 1943 why the aforementioned recommendations of Presiding Officer Vincent should not be adopted; and

Whereas, I have examined all objections, statements and briefs filed on behalf of interested parties in response to said notice and, upon the basis of the entire record, find that the findings of Presiding Officer Vincent are supported by the evidence and that his recommendations should be adopted except for the six months limitation on the effective period of learner certificates, *Now, therefore, it is ordered*, That:

I. The regulations and determinations applicable to the employment of learners in the Hosiery Industry, Women's Apparel Industry, Single Pants, Shirts and Allied Garments Industry, Textile Industry, Knitted and Men's Woven Underwear and Commercial Knitting Industry, Knitted Outerwear Industry, Gloves and Mittens Industry, and the Sportswear and Other Odd Outerwear and the Belts Divisions of the Apparel Industry be and hereby are amended insofar as they are inconsistent with the following provisions, to be effective for the duration of the war emergency:

1. Special learner certificates may be issued upon individual applications of employers provided that it is satisfactorily shown that:

(a) Experienced labor is not available in the locality from which the employer customarily draws his labor supply;

(b) Learners are available for employment at the established subminimum learner wage rate;

(c) The issue of a certificate will not tend to impair working or wage standards established for experienced workers in the industry;

(d) The issue of such certificates will not create unfair competitive labor cost advantages;

(e) The number of learners applied for will not tend to impair the statutory minimum wage rate in such plant;

(f) The applicant's piece work or hourly wage rates yield average earnings to experienced workers substantially above the minimum wage rate.

2. The subminimum wage rate which may be provided in special learner certificates shall be not less than 35 cents per hour.

3. Authorization to employ a number or percentage of learners for labor turnover in excess of that provided in learner industry regulations, issued pursuant to section 522.4 of the regulations of the Administrator of the Wage and Hour Division and presently in effect, may be granted to the extent of the actual need of an individual applicant, when that need is due to an abnormal labor turnover resulting from the war emergency.

II. These amendments shall be effective on and after March 22, 1943.

III. Certificates presently in effect in these industries shall be amended as of March 22, 1943 insofar as they are inconsistent with paragraph I (2) of this order.

Signed at New York, New York, this 10th day of March, 1943.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1805]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING RELIEF, ETC.

Order amending order granting temporary relief and conditionally providing for final relief in the matter of petition of District Board No. 4 for the revision of the effective minimum prices for the coals of the Apex Mine, Mine Index No. 7, of the Haverhill Coal Company for shipment into Market Areas 20, 21 and 23 for use as off-line railroad fuel.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by District Board No. 4, requesting that the Note added to § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*), by the order issued in Docket No. A–1019 on March 16, 1942, (7 F.R. 2125), be modified by excluding from the operation of this Note, the coals of the Apex Mine, Mine Index No. 7, operated by Haverhill Coal Company, a code member located in Subdistrict 3 of District No. 4, when for shipment into Market Areas 20, 21 and 23, respectively, for use as off-line railroad fuel; and

Temporary and conditionally final relief having been granted in the above-entitled matter by an order issued therein on January 13, 1943 (8 F.R. 839), which amended said Note by adding a proviso thereto; and

It appearing that said proviso should be further amended;

Now, therefore, it is ordered, That said order issued in the above-entitled matter on January 13, 1943, be, and the same hereby is, amended by deleting therefrom the proviso contained in said order, which amended § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*), and inserting in lieu thereof the following matter:

Provided, however, That such increase shall not be applicable to the coals of the Apex Mine, Mine Index No. 7 of the Haverhill Coal Company for movement into Market Areas 20, 21 and 23.

It is further ordered, That said order issued in the above-entitled matter on January 13, 1943, shall, in all other respects, remain in full force and effect.

Dated: March 11, 1943.

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 11 for the establishment of price classifications and minimum prices for the coals of the Penant Mine for all shipments except truck.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Penant Mine, Mine Index No. 739, of the Penant Coal Company, in District No. 11, for all shipments except truck; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 331.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, and § 331.10 (*Special prices: Railroad locomotive fuel*) is amended by adding thereto Supplement R–II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: February 27, 1943.

TITLE 32—NATIONAL DEFENSE

Chapter III—Bureau of Mines

PART 301—CONTROL OF EXPLOSIVES AND THEIR INGREDIENTS IN TIME OF WAR OR NATIONAL EMERGENCY

CERTAIN EXCEPTIONS TO LICENSING

Pursuant to the authority conferred by section 18 of the act of December 26, 1941 (55 Stat. 863), the regulations under the Federal Explosives Act heretofore promulgated [1] are hereby amended as follows:

Section 301.2 (b) is amended by substituting for the words "except as designated in § 301.3 (c) (4)" after the word "Fireworks" the words "all kinds".

Section 301.3 is amended to read as follows:

§ 301.3 *Application of act and regulations; exceptions.* The act and regulations require the licensing of all persons and establishments for operations relating to explosives or ingredients, with the following exceptions:

(a) *Persons and operations excepted*—(1) *Military and naval services and the Federal Bureau of Investigation.* No license is required for the manufacture, distribution, storage, sale, purchase, possession, handling or use of explosives or ingredients by the military or naval services of the United States or the Federal Bureau of Investigation.

(2) *Operations for military and related purposes.* No license is required for arsenals, navy yards, depots, or other establishments owned by the United States and operated by or on behalf of the War or Navy Departments. This exception includes all operations within such establishments and all purchases and shipments which are covered by government bills of lading addressed to or shipped by officers of the military or naval services at such establishments. A license is required for private operators of such establishments who purchase explosives or ingredients for shipment or who ship on other than government bills of lading. A license is also required for persons who manufacture explosives under the authority of the United States for, or sell explosives to, the military or naval services of the United States or the Federal Bureau of Investigation. However, no license applied for by such a private operator or other person shall be denied or revoked in so far as the license is needed for the operations of arsenals, navy yards, depots or other establishments owned by the United States and operated by or on behalf of the War or Navy Departments, or in so far as a license covers the manufacture under the authority of the United States of explosives for, or their sale to, the military or naval services or the Federal Bureau of Investigation. Applicants for licenses and licensees shall not be required to disclose information relating to the operations of the above-described establishments or to the character and quantity of explosives manufactured under the authority of, or sold to, the military or naval services or the Federal Bureau of Investigation, but shall comply with all other requirements of the act and regulations and shall be subject to the criminal penalties of the act for violations of the act or regulations.

(3) *Employees dealing with foreman.* Employees may purchase or accept explosives or ingredients for use in the operations of their employer from another employee of their employer licensed as a foreman, without themselves obtaining licenses.

(4) *Exportation and importation.* No license is required for exportation or importation of explosives or ingredients pursuant to or under the terms of the following acts: Act of January 31, 1922 (42 Stat. 361), prohibiting unrestricted export of arms to certain countries where domestic violence occurs; the Neutrality Act of November 4, 1939 (54 Stat 4); the National Defense Act of July 2, 1940 (54 Stat. 712); and the Lend-Lease Act of March 11, 1941 (55 Stat. 31). However, persons who export or import explosives or ingredients under the above acts, other than the Lend-Lease Act, shall keep a record of such transactions, which shall include the quantity and description of the explosives and ingredients, the dates of shipment and delivery, the name of the vessel used, the name and address of the consignee, consignor, vendor, purchaser, carrier, and other interested parties. This record shall be retained by the exporter or importer until called for by the Director, or until one year after the termination of the present war; and shall be open for inspection at all times by the Director or his authorized representative.

(b) *Explosives and ingredients excepted*—(1) *Ingredients in small quantities.* Ingredients in small quantities and not used or intended to be used in the manufacture of explosives. The term "small quantities" as used in this section, means quantities of four ounces or less.

(2) *Explosives or ingredients in transit.* Explosives or ingredients which are in transit upon vessels, railroad cars, conveyances or aircraft when such transportation is regulated by acts of Congress or rules and regulations of the Interstate Commerce Commission, the Secretary of Commerce, or the Civil Aeronautics Board.

(3) *Cartridges and ships' signals.* Cartridges for small arms or shotguns and ships' signal for emergency equipment.

(4) *Signalling devices.* Flares, colored lights, fusees, and other devices customarily used by railroads and carriers, by airplane or motor vehicle, and torpedoes customarily used by railroads, for signalling purposes.

(c) *Compliance with other laws.* Nothing in these regulations will permit the manufacture, sale, possession, or use of any explosives or ingredients prohibited by local or State laws or by any other Federal law, regulation, or order.

R. R. SAYERS,
Director.

PART 992—LAUNDRY EQUIPMENT

[Limitation Order L-6-c, as Amended March 12, 1943]

In accordance with the provisions of § 992.1, *General Limitation Order L-6*, which the following order supplements, *It is hereby ordered*, That:

§ 992.4 *Supplementary General Limitation Order L-6-c.*

(a) *Prohibition of production of domestic laundry equipment.* (1) Effective April 16, 1942, no Class A or Class B manufacturer shall produce any domestic laundry equipment except upon specific authorization of the Director General for Operations. Effective May 16, 1942, no Class C or Class D manufacturer shall produce any domestic laundry equipment except upon specific authorization of the Director General for Operations.

(2) The Director General for Operations may from time to time specifically authorize one or more manufacturers of any class or combination of classes to produce specified quantities of domestic laundry equipment.

(b) *Restrictions until dates of prohibition of production.* (1) During the period beginning March 16, 1942, and ending April 15, 1942 inclusive:

(i) No Class A manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(*a*) 11,700 units of such equipment, or

(*b*) 90% of the monthly average of his factory sales of such equipment for the twelve months ending June 30, 1941.

(ii) No Class B manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(*a*) 5,625 units of such equipment, or

(*b*) 97½% of the monthly average of his factory sales of such equipment for the twelve months ending June 30, 1941.

(2) During the period beginning March 16, 1942 and ending May 15, 1942:

(i) No Class C manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(*a*) 3,420 units of such equipment, or

(*b*) Two times 112½% of the monthly average of factory sales of such equipment for the 12 months ending June 30, 1941.

(ii) No Class D manufacturer shall produce more than two times 142½% of the monthly average of his factory sales of such equipment for the twelve months ending June 30, 1941.

(c) *Replacement parts.* Nothing in this order shall be construed to prohibit or limit the production of replacement parts for domestic laundry equipment.

(d) *Restrictions on inventory.* (1) Until otherwise ordered by the Director General for Operations no manufacturer shall sell, deliver, or otherwise transfer any part of the inventory of raw materials, semi-processed parts or finished parts which he holds for use in the production of domestic laundry equipment to any other person, or to any other department, division, or section of his concern not engaged in the production of domestic laundry equipment, except on the following conditions:

(i) Raw materials, semi-processed parts, and finished parts may be sold, delivered or otherwise transferred to other manufacturers of domestic laundry equipment for their use in the production of such equipment pursuant to the provisions of paragraph (b);

(ii) Raw materials, semi-processed parts, and finished parts may be sold, delivered or otherwise transferred in connection with the manufacture and sale of repair and maintenance parts for domestic laundry equipment;

(iii) Raw materials, semi processed parts, and finished parts may be sold, delivered, or otherwise transferred to any person (including any other department, division, or section of a manufacturer's concern not engaged in the production of domestic laundry equipment) who is able to supply a preference rating of A-9 or higher;

(iv) Raw materials, semi-processed parts, and finished parts may be sold, delivered, or otherwise transferred to the Defense Supplies Corporation or other corporation, affiliate, or other form of enterprise under the control of the Reconstruction Finance Corporation:

Provided however, That nothing in this paragraph (d) shall be construed to permit any manufacturer to sell, deliver, or otherwise transfer, or any person to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished parts in contravention of the terms of any L or M order including amendments or supplements thereto, or other regulation of the War Production Board, now effective or effective prior to the date of any such sale, delivery, or other transfer.

(2) Each manufacturer shall file with the War Production Board on or before April 1, 1942, an estimate of the inventory of raw materials, by classes of materials, semi-processed parts, and finished parts, which will remain in his hands pursuant to this paragraph after he has completed his production of domestic laundry equipment pursuant to paragraph (b).

(e) *No interference with ordnance production.* No manufacturer shall divert materials, labor, or equipment from the production of war material to enable him to produce his production quota under paragraph (b) hereof.

(f) *Prohibition of acquisition of materials.* No manufacturer of domestic laundry equipment shall purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished parts intended for the production of domestic laundry equipment in excess of quantities required to fulfill the production quotas specified in paragraph (b) hereof; no person shall sell, deliver, or otherwise transfer any such raw materials, semi-processed parts, or finished parts except as so permitted: *Provided however*, That deliveries of raw materials, semi-processed parts, or finished parts actually in transit to the manufacturer on the date of issue of this order may be delivered to the manufacturer.

(g) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such order is entered into before or after March 14, 1942. No person shall be held liable for damages or penalties for any default under any contract or order, which shall result directly or indirectly fro mhis compliance with the terms of this order.

(h) *Appeal.* Any manufacturer who considers that compliance with this order would work an exceptional or unreasonable hardship upon him, or would disrupt or impair a program of conversion to war production may appeal for relief to the Director General for Operations by means of a letter addressed to the Director General for Operations, Ref.: L-6-c, setting forth in such letter all facts pertinent to the appeal. The Director General for Operations may thereupon take such action as he deems appropriate.

Issued this 12th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1103—COAL AND COKE

[General Preference Order M-292]

COKE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of coke for defense, for private account and for export, and it is necessary in the public interest and to promote the national defense to conserve the supply and direct the distribution of coke.

§ 1103.11 *General Preference Order M-292*—(a) *Definitions.* For the purposes of this order, "coke" means coke made from bituminous coal.

(b) *Special instructions.* The Director General for Operations may from time to time issue specific directions as to the source, destination, amount, type, or grade of coke to be delivered by any producer or dealer.

(c) *Reports.* Each producer shall file monthly reports with the United States Bureau of Mines on Form BE or BY of the Bureau.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(e) *Appeals.* Any person deeming himself adversely affected by any provision or application of this order may file an appeal in writing addressed to War Production Board, Washington, D. C. Reference: M-292. Such appeal must set forth in full the relief requested and the grounds on which such appeal is based.

(f) *Applicability of regulations.* Except as hereinabove otherwise provided, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

Issued this 12th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1112—OFFICE MACHINERY

[Conversion Order L-54-a, as Amended March 12, 1943]

TYPEWRITERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of typewriters for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1112.2 *Conversion Order L-54-a*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person manufacturing typewriters, to the extent that he is engaged in such manufacture, and shall include sales and distribution outlets controlled by said manufacturer.

(3) "Dealer" means any wholesaler, retailer or other distributor of typewriters, other than sales and distribution outlets controlled by a manufacturer.

(4) "Typewriter" unless expressly otherwise stated, means non-portable typewriters (including noiseless and electric types) and portable typewriters, and unless expressly otherwise stated, refers only to new typewriters. The term shall not include: billing machines, accounting principle, and collateral equipment; continuous forms handling machines, typewriter principle, having carbon paper handling devices constructed as an integral part of the machine; shorthand writing machines; telegraphically controlled typewriters; braille typewriters; toy typewriters; linotype machines or monotype machines. The term "new typewriter" means any typewriter which has not been delivered to any person acquiring it for use, but does not include rebuilt typewriters. The term "used typewriter" means any typewriter which at any time has been delivered to any person acquiring it for use, and includes rebuilt typewriters.

(5) "Sets of parts" means typewriter parts fabricated at plants in the United States and shipped to foreign countries for assembly into typewriters.

(b) *General restrictions.* (1) On and after November 1, 1942, no manufacturer shall manufacture any non-portable typewriters or parts therefor, or sets of parts for non-portable typewriters, except as otherwise specifically provided in paragraph (c) (4) herein.

(2) On and after August 1, 1942, no manufacturer shall manufacture any portable typewriters, or parts therefor, or sets of parts for portable typewriters.

(3) No person shall hereafter sell, deliver, purchase, or receive delivery of any new or used typewriters in any manner other than as specifically authorized herein or from time to time hereafter by the Director General for Operations, or by any governmental agency authorized by the Chairman of the War Production Board to regulate the distribution of new or used typewriters.

(4) Notwithstanding any of the restrictions of paragraph (b) of this order, the Director General for Operations may from time to time specifically authorize one or more manufacturers to manufacture specified quantities of typewriters, including parts or sets of parts therefor.

(c) *Authorized production quotas*—(1) *Non-portable typewriters.* During the period from July 1, 1942, to October 31, 1942, except as otherwise provided in paragraph (c) (4) below, no manufacturer shall manufacture a number of non-portable typewriters or parts therefor (not including sets of parts for export) in excess of: 12.25 percent of the aggregate number of non-portable typewriters (not including parts therefor or sets of parts for export) billed to customers by such manufacturer during the calendar year 1941; plus the number of non-portable typewriters by which such manufacturer's quota for non-portable typewriters in the period from March 15, 1942, to June 30, 1942, exceeded the production of non-portable typewriters by such manufacturer during that period; or less the number of non-portable typewriters produced by such manufacturer in the period from March 15, 1942 to June 30, 1942, in excess of his authorized quota during that period, whether or not such excess production resulted from the granting of appeals by the War Production Board.

(2) *Portable typewriters.* During the period from July 1, 1942, to July 31, 1942, no manufacturer shall manufacture quantities of portable typewriters or parts therefor (not including sets of parts for export) in excess of 11 percent of the average monthly number of portable typewriters (not including parts therefor or sets of parts for export) billed

to customers by such manufacturer during the calendar year 1941.

(3) *Sets of parts for export.* (i) During the period from July 1, 1942, to October 31, 1942, no manufacturer shall manufacture for export a number of sets of parts for non-portable typewriters in excess of 12.25 percent of the aggregate number of such sets of parts shipped for export from the factories of such manufacturer during the calendar year 1941.

(ii) During the period from July 1, 1942, to July 31, 1942, no manufacturer shall manufacture for export a number of sets of parts for portable typewriters in excess of 11 percent of the average monthly number of such sets of parts shipped for export from his factories during the calendar year 1941.

(iii) The right to produce and export any sets of parts mentioned in this paragraph (c) (3) shall not be construed to authorize the export of such sets unless export license can be secured.

Any manufacturer who is unable to ascertain the physical quantity of sets of parts which he shipped from his factories during 1941 may produce for export: in the case of sets of parts for non-portable typewriters, a dollar value not in excess of 12.25 percent of the aggregate dollar value of such sets shipped for export from his factories during the calendar year 1941; and in the case of sets of parts for portable typewriters, a dollar value not in excess of 11 percent of the average monthly dollar value of such sets so shipped during 1941.

The quantities of sets of parts for non-portable and portable typewriters so produced shall be over and above the production quotas for non-portable and portable typewriters. No manufacturer so producing and exporting sets of parts shall directly or indirectly import any typewriter into the United States.

(4) *Special quota.* Notwithstanding the restrictions on manufacture (but subject to the restrictions on delivery and distribution) imposed by this order, Woodstock Typewriter Company may manufacture, in the period from July 1, 1942, to June 30, 1944, not in excess of 22,701 non-portable typewriters, at a rate not in excess of 1,600 per month, or at such other rate as the Director General for Operations may prescribe from time to time. The Director General for Operations, may also direct, from time to time, the sizes, kinds, and types of non-portable typewriters which shall be produced by Woodstock Typewriter Company.

(5) *Distribution among models and types.* Except as otherwise provided by the Director General for Operations, no manufacturer shall produce a percentage of noiseless typewriters to total non-portable typewriter production in excess of the percentage which the quantity of noiseless typewriters billed to his customers in 1941 is of all non-portable typewriters billed to his customers in 1941. Manufacturers shall produce their production quotas of portable typewriters in accordance with specifications of the Army or Navy of the United States.

(d) *Manufacture and distribution of replacement parts.* The restrictions upon the production of portable and non-portable typewriters and parts therefor shall not be construed to limit the production of parts to be used to service and repair typewriters: *Provided, however,* That no manufacturer shall produce parts in excess of quantities required, under existing circumstances, to maintain a minimum practicable working inventory of such service and repair parts. No person servicing or repairing typewriters shall maintain a stock of such parts in excess of the minimum practicable working inventory, under existing circumstances.

(e) *Revocation of General Limitation Order L–54.* General Limitation Order L–54, and all amendments thereto and interpretations thereof, are revoked as of August 4, 1942: *Provided, however,* That all deliveries expressly authorized thereunder by the Director of Industry Operations may be completed.

(f) *Distribution of typewriters by manufacturers.* Regardless of the terms of any contract of sale or purchase or other commitment, or any preference rating certificate or blanket preference order, no manufacturer shall distribute his production and stock of typewriters except upon authorization of the Director General for Operations.

(g) *Distribution of typewriters by persons other than manufacturers.* In accordance with the terms of Supplementary Directive 1D, stocks of new nonportable and portable typewriters now in the hands of dealers, and all imports of new typewriters, are made available to the Office of Price Administration for rationing; and no dealer shall deliver any such typewriters except in accordance with such rules, regulations and authorizations as may be issued by the Office of Price Administration: *Provided, however,* That any dealer, other than a manufacturer, may deliver new typewriters in stock to any manufacturer willing to accept the same. Such typewriters shall, however, remain subject to rationing rules, regulations and authorizations of the Office of Price Administration.

(h) *Persons entitled to receive new typewriters*—(1) *Persons other than United States agencies and exporters.* In accordance with the terms of Supplementary Directive 1D, persons other than agencies of the United States and other than persons acquiring new typewriters for export may purchase, accept, or otherwise receive delivery of new typewriters only as authorized by the Office of Price Administration.

(2) *Army and Navy.* Typewriters shall be delivered to the Army or Navy of the United States, including the War and Navy Departments, only upon authorization of the Director General for Operations.

(3) *Exporters*—(i) *Lend-lease.* No agency of the United States Government shall purchase, accept delivery of, or otherwise acquire, new typewriters to be delivered to or for the account of the government of any country, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), except upon express authorization of the Director General for Operations. Manufacturers and dealers shall deliver new typewriters to any such agency upon the presentation of an authorization signed by the Director General for Operations. Any dealer may receive any new typewriter to fill any such order from any manufacturer producing such typewriters, and manfacturers shall deliver typewriters to such dealers upon the presentation of any such authorization.

(ii) *Other than lend-lease.* No governmental agency (other than as provided in paragraph (h) (3) (i) above) or other person shall purchase, accept delivery of, or otherwise receive new typewriters for export except upon express authorization of the Director General for Operations. Any such agency or person must first apply to the Office of Export Control, Board of Economic Warfare, Washington, D. C., for an Export License. If the Office of Export Control recommends that an Export License be issued to the applicant, the War Production Board will be notified, and an authorization, on Form PD–365, to acquire a new typewriter may be issued to the applicant or to a person designated by the Board of Economic Warfare for his account. Upon presentation of said Form PD–365, duly signed, any manufacturer or dealer is authorized to deliver a new typewriter. Any dealer may receive any typewriter to fill any such order from any manufacturer producing such typewriters and manufacturers shall deliver typewriters to dealers upon receipt of any such authorization on Form PD–365.

(4) *Other Government agencies.* Except as otherwise provided in subparagraphs (2) and (3) above, no agency of the United States, except the Procurement Division of the Treasury Department, may purchase new typewriters. Once each month the Director General for Operations shall expressly authorize said Procurement Division to acquire specific quantities and brands of new typewriters, and said Procurement Division shall distribute such new typewriters to such agencies of the United States Government (other than the Army, the Navy, and agencies acquiring new typewriters for export) and in such quantities, and brands, as the Director General for Operations shall authorize. Any such agency which believes it will require such new typewriters during any month shall file, on or before the 25th day of the month preceding, Form PD–366 with the Procurement Division of the Treasury Department, which shall forward all such forms to the Director General for Operations. The Director General for Operations shall thereupon authorize said Procurement Division to acquire and distribute such quantities of new typewriters as, in his opinion, shall be necessary or appropriate in the public interest and to promote the national defense. No such agency shall request a new typewriter unless, to the best of its knowledge, such typewriter and all other typewriters possessed by the agency will be actually employed during the succeeding month.

(k) *Appeals.* Any manufacturer affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in his community, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter directed to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(l) *Records.* All manufacturers and dealers affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production, and sales of typewriters.

(m) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as the Board shall from time to time request.

(n) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Service Equipment Division, Washington, D. C. Ref.: L–54–a.

Issued this 12th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1112—OFFICE MACHINERY

[General Limitation Order L–54–c, as Amended March 12, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials used in the production of office machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1112.4 *General Limitation Order L–54–c*—(a) *Definitions.* For the purposes of this order:

(1) "Office machinery" means machinery, including attachments thereto, of the types listed on Lists A, B, C, or D attached to this order as amended from time to time.

(2) "New" office machinery means office machinery which has not been delivered to any person acquiring it for use. The term shall not describe any machine which has been delivered for trial, loan, rental or demonstration at any time prior to March 14, 1942. "Used" office machinery means office machinery other than new office machinery.

(3) "Restricted office machinery" means:

(i) Any new office machinery listed on Lists A, B, and C.

(ii) Any new machines and collateral equipment intended for use for dictating purposes.

(iii) Any used office machinery listed on Lists A, B, and C which on November 11, 1942 is in, or which thereafter comes into, the possession of its manufacturer for any purpose other than mere repair or reconditioning, and the manufacture of which was completed after December 31, 1940, and

(iv) Any used punched card tabulating machinery which on November 11, 1942 is in, or which thereafter comes into, the possession of its manufacturer for any purpose other than mere repair or reconditioning, regardless of its age.

(4) "Manufacturer" means any person manufacturing new office machinery or sets of parts, to the extent that he is engaged in such manufacture, and shall include majority-owned sales, distribution, and manufacturing subsidiaries.

(5) "Dealer" means any wholesaler, retailer or other distributor of restricted office machinery other than a sales or distribution subsidiary of a manufacturer, and shall include any person, firm or corporation normally receiving restricted office machinery on consignment.

(6) "Delivery" includes any physical transfer of restricted office machinery, and includes transfers for trial, loan, rental, demonstration or other use; but the terms shall not include the transfer to the consignee, designated on the shipping documents, of any new restricted office machinery actually in transit on June 1, 1942, or of any other restricted office machinery actually in transit on November 11, 1942.

(7) "Army or Navy of the United States" and "Maritime Commission" include the War Department, the Navy Department, and the Maritime Commission, respectively, but shall not include any privately operated plant, shipyard, training school, or other enterprise controlled or financed by the Army or Navy of the United States, the Maritime Commission, or any other agency of the United States Government, nor any plant or shipyard privately operated on a cost-plus-fixed-fee basis under the control or direction of the Army or Navy of the United States, the Maritime Commission, or any other agency of the United States Government.

(8) "Lend-Lease purchaser" means any person requesting authorization to receive delivery of restricted office machinery for export to any country, the government of which is entitled to the benefits of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States."

(9) "Sets of parts" means parts for office machinery produced at plants in the United States for shipment to foreign countries for assembly into new office machinery of the types listed on Lists A, B, and C.

(b) *Restrictions on production*—(1) *List A and List B quotas.* No manufacturer of any kind of new office machinery listed on List A or List B or of sets of parts for such kinds of machinery shall manufacture any such machinery or sets of parts in excess of the sum of the quotas established by paragraphs (b) (1) (i) and (b) (1) (ii) of this order.

(i) *1942 quotas.* Between June 1, 1942, and December 31, 1942, inclusive, a manufacturer of new office machinery of any kind listed on List A or List B, or of sets of parts for such kind of machinery, may manufacture a total dollar value of new office machinery of such kind (including sets of parts, but excluding special machines to be delivered under paragraph (c) (3) of this order and machines to be delivered free of restrictions pursuant to an election under paragraph (e) (1) (iv) of the original order L–54–c) equal to seven (7) times the percentage specified in Column I of List A or List B of the average monthly dollar value during the calendar year 1941 of the new office machinery of such kind billed to customers by such manufacturer plus the new office machinery of such kind exported in the form of sets of parts.

(ii) *1943 quotas.* Between January 1, 1943 and December 31, 1943, inclusive, a manufacturer of new office machinery of any kind listed on List A or List B, or of sets of parts for such kind of machinery, may manufacture a total dollar value of new office machinery of such kind (including sets of parts, but excluding special machines to be delivered under paragraph (c) (3) of this order and machines to be delivered free of restrictions pursuant to an election under paragraph (e) (1) (iv) of the original order L–54–c) equal to the percentage specified in Column II of List A or List B of the total dollar value of the new office machinery of such kind billed to customers by such manufacturer during the calendar year 1941 plus the new office machinery of such kind exported in the form of sets of parts during the calendar year 1941.

(iii) *Basis of leased machinery.* Any manufacturer whose customary practice has been to lease substantially all of any particular kind of new office machinery shall base his production quota of such kind of new office machinery upon the aggregate of the average monthly number of new units assembled and sets of parts exported during the calendar year 1941. The number of sets of parts exported in 1941 shall be considered as equal to the number of units into which such sets of parts were ultimately assembled.

(iv) *Valuation of production.* The dollar value of assembled new office machinery billed during the calendar year 1941 by the manufacturer to either domestic or foreign customers, and the dollar value of assembled new office machinery manufactured after June 1, 1942, shall be based upon the retail list price of such machinery to domestic customers. The dollar value of sets of parts shall be based upon the retail list price of the same kind of machinery, when assembled, to domestic customers. The number of sets of parts exported shall be considered as equal to the number of

units into which such sets of parts were ultimately assembled.

(2) *Further restrictions on List A production.* (i) No manufacturer shall commence fabrication, or cause fabrication to be commenced, of any material for parts, or contract to purchase parts, for the assembly of any new office machinery listed on List A other than the machinery which he is allowed to produce under the terms of this order.

(ii) After December 31, 1942, no manufacturer shall fabricate, cause to be fabricated, or contract to purchase, parts for the assembly of new office machinery listed on List A.

(iii) After December 31, 1943, no manufacturer shall assemble any of the kinds of new office machinery listed on List A.

(3) *Further restrictions on List B production.* (i) No manufacturer shall commence fabrication, or cause fabrication to be commenced, of any material for parts, or contract to purchase parts, for the assembly of any new office machinery listed on List B other than the machinery which he is allowed to produce under the terms of this order.

(ii) After December 31, 1942, no manufacturer shall fabricate, cause to be fabricated, or contract to purchase, more than 25% of the parts required for the assembly of the new office machinery listed on List B (except calculating and computing machines) which he is permitted to manufacture during the entire period from June 1, 1942, to December 31, 1943.

(iii) After March 31, 1943, no manufacturer shall fabricate, cause to be fabricated or contract to purchase, parts for the assembly of new calculating or computing machines.

(4) *Restrictions on List C production.* (i) No manufacturer shall manufacture any new office machinery listed on List C or sets of parts therefor, except machines to fill orders approved under paragraphs (c) (2) through (c) (5) inclusive of this order, to fill orders of the Army or Navy of the United States or of the Maritime Commission which were actually on hand on November 11, 1942, and to maintain the minimum practicable working inventory under the circumstances.

(ii) No manufacturer shall commence fabrication, or cause fabrication to be commenced, of any material for parts, or contract to purchase parts, for the assembly of any new office machinery listed on List C other than the machinery which he is allowed to produce under the terms of this order.

(5) *Restrictions on List D production.* No manufacturer shall fabricate, cause to be fabricated, or contract to purchase, parts for the assembly of any new office machinery listed on List D. No manufacturer shall assemble any new office machinery listed on List D.

(6) *Repair and service parts.* The restrictions upon the manufacture of new office machinery contained in this paragraph (b) shall not apply to the manufacture of parts to be used to service or repair any kind of office machinery listed on Lists A, B, C, and D.

(7) *Discontinued new office machinery.* No manufacturer shall fabricate parts for any new office machinery or assemble any new office machinery of any kind which he elected to deliver free of all restrictions pursuant to paragraph (e) (1) (iv) of the original order L–54–c.

(8) *Special authorizations.* Notwithstanding the restrictions of paragraph (b) or paragraph (f) of this order, the Director General for Operations may from time to time specifically authorize one or more manufacturers to fabricate, to cause to be fabricated, to contract to purchase, to assemble, or to manufacture in any manner, specified quantities of parts or machinery restricted by paragraph (b) or paragraph (f), or both.

(c) *Restrictions on delivery*—(1) *General restrictions.* Regardless of the terms of any contract of sale or purchase, or other commitment, or of any preference rating, or any blanket preference rating order, no manufacturer or dealer shall deliver any restricted office machinery except as provided in paragraphs (c) (2) to (c) (7) inclusive of this order other than machines which may be delivered free of restrictions pursuant to an election under paragraph (e) (1) (iv) of the original order L–54–c.

(2) *Back orders.* A manufacturer or dealer may deliver restricted office machinery to fill orders of the Army or Navy of the United States which were actually on hand on June 1, 1942.

(3) *Special orders.* Manufacturers or dealers may apply for authorization to deliver special restricted office machinery which, on June 1, 1942, was assembled, or in the process of fabrication and assembly, but which could not otherwise be delivered under the terms of this order. Such application may be made by filing with the War Production Board, in triplicate, plainly marked "Ref: L–54–c", a letter containing a list of all such orders, together with such information as will support the representation of the manufacturer or dealer that the machinery is special. As used in this paragraph, a "special" machine is a machine built to special specification for a customer, with features which render it unusable except by a small class of persons similarly situated.

(4) *Future orders of the Army, Navy and Maritime Commission.* From time to time, the Director General for Operations will notify manufacturers and dealers, on Form PD–423, of quantities of restricted office machinery which may be delivered without further authorization for the use of the Army or Navy of the United States, or the Maritime Commission, in preference to any other deliveries except when specifically instructed otherwise by the Director General for Operations. Manufacturers and dealers may not deliver restricted office machinery on preference rating certificates PD–3 and PD–3a, except to fill back orders of the Army or Navy of the United States pursuant to paragraph (c) (2) of this order.

(5) *Future orders of other persons.* (i) Except as provided in paragraphs (c) (2), (c) (3), (c) (4), and (c) (7) of this order, no manufacturer or dealer shall deliver any restricted office machinery to fill any order unless the order is accompanied by a preference rating certificate PD–1A issued after May 31, 1942 and prior to December 1, 1942, or by an authorization to deliver the machinery on a Form PD–688 signed by the Director General for Operations, surrendered to the manufacturer or dealer. Such preference rating certificate PD–1A, or Form PD–688, may be used to secure restricted office machinery only by the person to whom it was directly issued and only when such office machinery is expressly specified on the certificate.

(ii) Persons entitled to restricted office machinery by virtue of a preference rating certificate PD–1A who do not surrender such certificate, but retain the same, as permitted by Priorities Regulation No. 3, as amended from time to time, shall, in addition to furnishing the endorsement required by such Priorities Regulation No. 3, certify to the manufacturer or dealer from whom the machinery is to be acquired that the certificate was originally issued to such person and that the machinery was expressly specified on the certificate.

(iii) Except when specifically instructed otherwise by the Director General for Operations, the sequence of deliveries of machines authorized on PD–688 certificates shall be determined by the delivery dates specified in the respective certificates. In any case where delivery dates are the same, or it is impossible to make all deliveries on schedule, the sequence of deliveries shall be determined by the respective dates on which the PD–688 certificates were received by the supplier named in such certificates.

(6) *Intracompany deliveries.* Without further authorization, a manufacturer may for the purpose of redelivery, but not for use, deliver restricted office machinery from one branch, division or section of his enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, to another branch, division or section of the same enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, except that he may not deliver to a subsidiary, branch, or other outlet located outside of the United States, its territories, and possessions.

(7) *Delivery to dealers and returns to manufacturers.* Without further authorization, dealers may return restricted office machinery to any manufacturer willing to accept the same and manufacturers may accept all such restricted office machinery from dealers. Without further authorization, manufacturers or dealers may deliver restricted office machinery to dealers in the following instances only:

(i) To fill an order, authorized by the terms of the original order L–54–c or this order L–54–c as amended, already received by such dealer, or to replace restricted office machinery delivered by such a dealer from his inventory to fill an order authorized by the terms of the original order L–54–c or this order L–54–c as amended. In either case, such dealer shall furnish to the manufacturer or to the other dealer a photostat or certified copy of the PD–1A, PD–688, or other authorized basis for delivery of restricted office machinery. Reproduction of any PD–1A, PD–688, or any other document for such purpose is hereby permitted.

(ii) To store or display such restricted office machinery on the dealer's premises in the United States, its territories and possessions, provided that the restricted office machinery so stored or displayed is in the absolute control and ownership of the manufacturer or delivering dealer and may be removed, transferred or shipped by such manufacturer or delivering dealer at any time in his discretion.

(8) *Deliveries under General Conservation Order L–148.* The issuance of an authorization on Form PD–423 or on Form PD–688 to deliver a time stamp machine, a time recording machine, or collateral equipment shall constitute a preference rating of A-1-a or higher within the meaning of § 1095.4, General Conservation Order L–148, for the particular items authorized to be delivered.

(9) *Special authorizations.* Notwithstanding the restrictions of paragraph (c) of this order, the Director General for Operations may from time to time specifically authorize one or more manufacturers or dealers, or both, to deliver specified quantities of restricted office machinery.

(d) *Special procedures and information.* (1) Private contractors engaged in construction work for the Army, Navy, Maritime Commission or Defense Plant Corporation and private operators of any plant, shipyard, training school or other enterprise controlled or financed, on a cost-plus-fixed-fee basis or otherwise, by the Army or Navy of the United States, the Maritime Commission or any other agency of the United States Government shall, when requesting restricted office machinery on Form PD–688, furnish a certification by the Government inspector assigned to the project (1) that no Government equipment is available for use in lieu of the equipment requested, (2) that the contractor or operator has no equipment available from any other source for use in lieu of the equipment requested, and (3) that the equipment requested is to be used exclusively by the contractor's or operator's private personnel for the duration of the project on work which the contractor is required to perform under the terms of his contract.

(2) Lend-Lease purchasers shall accompany their applications on Form PD–688 with a formal recommendation by the Lend-Lease Administration that such request be granted.

(3) Any person, other than the Army or Navy of the United States, the Maritime Commission, or any Lend-Lease purchaser, desiring to acquire restricted office machinery for export from the United States, except to Canada, must first apply to the Office of Export Control, Board of Economic Warfare, Washington, D. C., for an Export License, accompanying such application with an application on Form PD–688 for permission to receive delivery. If the Office of Export Control decides that an Export License should be issued to the applicant, a statement of such decision, together with the application on Form PD–688 and a formal recommendation that the application be granted, is to be forwarded to the War Production Board.

(e) *Sets of parts.* No person shall deliver any sets of parts for export from the United States unless the Director General for Operations has authorized such delivery on Form PD–423. Any person desiring to deliver sets of parts for export shall apply by letter to the War Production Board, enclosing with his application a Form PD–423 duly prepared for authorization. He shall state in his application the number of units of machinery which may be assembled from such sets of parts, the model numbers of such machines, and the equivalent retail price of similar completed machines when sold in the United States. The authorization to produce sets of parts given by paragraph (b) of this order and the authorization to deliver sets of parts for export given by the Director General for Operations on Form PD–423 shall not be construed to authorize the exportation of such sets of parts unless an export license can be secured. No manufacturer so producing and delivering sets of parts for export shall directly or indirectly import any new office machinery of the kinds listed on List A, List B, or List C into the United States.

(f) *Restrictions on types, styles, models, specifications, and use of materials*—(1) *Elimination of models.* The Director General for Operations may, from time to time, order the cessation of production or delivery of any model, style, or type of office machinery, including attachments or repair parts thereof.

(2) *Issuance of schedules.* The Director General for Operations may, from time to time, issue schedules establishing simplified practices with respect to the types, sizes, forms, materials, or specifications of office machinery. After the effective date of any such schedule, no office machinery shall be fabricated or assembled, except such as conforms to the issued schedule and except as specifically permitted by such schedule.

(3) *Elimination of motor driven machines.* (i) On and after November 1, 1942, no manufacturer of new duplicating machines of the spirit, gelatin, or stencil types shall incorporate electric motors in more than 20 percent of the aggregate number of duplicating machines of those kinds that he is permitted to produce under his quotas. The incorporation of electric motors in other types of duplicating machines by their manufacturers shall be discontinued except for those styles of machines where motors are essential to their operation.

(ii) No manufacturer of adding machines shall incorporate any electric motor in a new adding machine except a machine for the assembly of which all the necessary parts, including motors not useful for any other purpose, were available or in process on September 8, 1942.

(g) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time.

(h) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(i) *Records.* All manufacturers and dealers affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production and sales of restricted office machinery, and shall, upon request, make such records available for audit and inspection by duly authorized representatives of the War Production Board.

(j) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and answers to questionnaires as the War Production Board shall from time to time request.

(k) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using materials under priority control and may be deprived of priorities assistance by the Director General for Operations.

(l) *Communications to War Production Board.* All reports required to be filed hereunder, all communications concerning this order, and all applications shall, unless otherwise directed, be addressed to: War Production Board, Services Division, Washington, D. C.; Ref: L–54–c.

Issued this 12th day of March 1943.

PART 1158—INDUSTRIAL MACHINERY

[Limitation Order L-83 as Amended March 12, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the manufacture of industrial machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1158.1 *General Limitation Order L-83*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Critical industrial machinery" means new, used or reconditioned machinery, of the kinds listed, from time to time, in List A. The value of a critical industrial machine shall be the selling price, or in any case where the machine is rented, the cost of production (as indicated by the company's regularly established cost accounting system), excise tax value, or insurance value, whichever is higher. The term "new critical industrial machinery" means any critical industrial machinery which has not been delivered to any person acquiring it for use, and does not include used or reconditioned machinery. The term "used critical industry machinery" means any critical industrial machinery which at any time has been delivered to any person acquiring it for use, but does not include rebuilt machinery. The term "reconditioned critical industrial machinery" means used machinery which has been rebuilt or otherwise conditioned for resale, or reuse.

(3) "Manufacturer" means any person producing critical industrial machinery.

(4) "Distributor" means any person regularly engaged in the business of buying or otherwise acquiring new, used, or reconditioned machinery for resale.

(5) "Order" means any commitment or other arrangement for the delivery of critical industrial machinery, whether by purchase, lease, rental, or otherwise.

(6) "Approved order" means:

(i) Any order for critical industrial machinery, when accompanied by a PD-3A certificate, to be delivered to, or for the account of:

(*a*) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(*b*) The government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom including its Dominions, Crown Colonies, and Protectorates, and Yugoslavia.

(ii) Any order placed by any agency of the United States Government for critical industrial machinery to be delivered to, or for the account of, the government of any country listed above, or any other country, including those in the western hemisphere, pursuant to the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(iii) Any order for critical industrial machinery bearing a preference rating of A-9 or higher assigned by a Preference Rating Certificate PD-3 or PD-3A countersigned prior to May 18, 1942, by a Preference Rating Order in the P-19 series issued prior to May 18, 1942, or by a Preference Rating Certificate PD-1 or PD-1A, a Preference Rating Certificate in the PD-25 or PD-408 Series, or Preference Rating Order P-19-h (PD-200 or 200A) issued at any time. After May 18, 1942, Preference Rating Certificate PD-3A shall be used only to assign preference ratings to approved orders to be delivered to or for the account of the agencies set forth in subdivision (i) hereof. Any preference rating certificate or order of any of the kinds enumerated above may be used to secure critical industrial machinery only by the person to whom it was originally issued and only when such machinery is expressly specified on the certificate or order (or its Form PD-200 or 200A). Any person placing an approved order for critical industrial machinery bearing a rating assigned by any such certificate or order who does not deliver such certificate or order but retains the same, as permitted by Priorities Regulation No. 3, as amended from time to time, or by the terms of the preference rating order shall, in addition to furnishing the endorsement required by such Priorities Regulation No. 3, as amended from time to time, or such preference rating order certify to the person from whom the machinery is to be acquired that the certificate or order was originally issued to him and that the critical industrial machinery ordered was expressly specified on the certificate or order (or its Form PD-200 or 200A).

(iv) Any order which the Director General for Operations authorizes for production or delivery pursuant to paragraph (b) (2) hereof.

(b) *Restrictions on acceptance of orders for, and delivery and acquisition of, critical industrial machinery*—(1) *General prohibitions.* Except as provided in paragraph (b) (4) hereof, no person shall accept any order for critical industrial machinery, or deliver any critical industrial machinery in fulfillment of any order, whether accepted or not; unless such order is an approved order. No person shall accept delivery of any critical industrial machinery except pursuant to an approved order.

(2) *Procedure for authorization of orders on books.* Manufacturers or distributors may apply for authorization to deliver orders which are not approved orders, on their books on May 18, 1942, as it affects classes of critical industrial machinery from time to time, by filing with the War Production Board in triplicate, plainly marked Ref: L-83, a list of all such orders together with the name of the purchaser or lessee, the date of the order, the number of pieces of machinery, a description of the machinery, the value of the machinery, the rating assigned, if any, the preference rating certificate number, if any (or blanket preference rating order and serial number), the specified delivery date, the percentage of completion of the order on May 18, 1942, as it affects any particular kind of machinery, and the expected use to which the machinery will be put. The Director General for Operations may thereupon, if he shall deem it necessary or appropriate in the public interest and to promote the national defense, authorize the delivery of any such orders, or the assignment of preference ratings thereto.

(3) *Auction sales, sales pursuant to court order and similar transactions.* Dispositions of used critical industrial machinery at auction, at sheriff's sale, at tax sales, in liquidations of all or part of a business, and in similar transactions must be approved orders unless such dispositions are made to distributors within the limits specified in paragraph (b) (4) (vii).

(4) *Exempted transactions.* Nothing in this order shall be construed to prohibit any of the following transactions:

(i) The seizure of critical industrial machinery (but not subsequent disposition or use thereof) upon default, by any person pursuant to the terms of a conditional sale agreement, chattel mortgage, pledge, or other security agreement; and the distraint or levy by execution (but not subsequent disposition thereof) by tax authorities.

(ii) The delivery or acquisition of critical industrial machinery (but not subsequent disposition thereof) through a transfer by will or intestacy, or a transfer by operation of law to a trustee, receiver, or assignee for the benefit of creditors, in bankruptcy, insolvency, receivership, or assignment for the benefit of creditors.

(iii) The delivery or acquisition of critical industrial machinery as part of a transaction, such as merger, consolidation, sale and purchase of assets, sale and purchase of stock, or lease of plant, involving the transfer of all or substantially all of the assets of an enterprise, where no liquidation or dismemberment of assets is contemplated.

(iv) The transfer of critical industrial machinery, within a plant, or within a single corporate enterprise (including majority-owned subsidiaries), from one plant or branch to another: *Provided, however,* That nothing in this subdivision (iv) shall be construed to permit transfers from a portion of an enterprise manufacturing, building, or assembling new machinery to a portion using it.

(v) The delivery or acquisition of critical industrial machinery (but not subsequent disposition thereof) as a trade-in, where the machinery to be installed is delivered pursuant to an approved order.

(vi) Deliveries to, and acquisitions by distributors, of new critical industrial machinery in the following two instances only:

(*a*) To fill approved orders for new critical industrial machinery which orders are actually in the hands of such distributors; or

(*b*) To replace new critical industrial machinery delivered by such distributor to fill an approved order.

(vi) Deliveries to, and acquisitions by, distributors of used critical industrial machinery (but not subsequent dispositions thereof) at auction, sheriff's sales, tax sales, liquidations or otherwise.

(viii) Subject to the provisions of paragraph (c), the delivery of critical industrial machinery for repair and return, the return of a repaired machine, and the loan of a machine to the user, for a period not to exceed one month, pending the repair of the damaged machine.

(ix) The delivery and acquisition of critical industrial machinery to be scrapped for its material content.

(x) The unloading, from a vessel, of any imported critical industrial machinery.

(xi) The transfer of any interest in any written instrument evidencing an interest in critical industrial machinery: *Provided, however,* That nothing in this subdivision (xi) shall be construed to permit the physical delivery or use of critical industrial machinery.

(xii) The return of any leased critical industrial machinery by the lessee to the lessor upon the expiration, termination, or cancellation of the lease.

(c) *Non-applicability to repair or maintenance of existing equipment.* The prohibitions of paragraph (b) hereof shall not be construed to restrict any delivery (1) to fill any order or group of orders of less than $1,000, placed with one or more suppliers within any four weeks' period, for parts intended for use in the repair or maintenance of any single existing machine, or a single machine delivered under the terms of this order, or (2) to fill any order of $1,000 or more for repair or maintenance parts when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts, or the like, and the essential repair or maintenance parts are not otherwise available.

(d) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(e) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(f) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref.: L-83.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(h) *Records and reports.* All manufacturers and distributors affected by this order shall keep and preserve for not less than two years accurate and complete records concerning production, deliveries, and orders for industrial machinery. All persons affected by this order shall execute and file with the Director General for Operations, War Production Board, such reports and questionnaires as said Director shall from time to time request. On or before 15 days after May 18, 1942, as to any kind of machinery, every manufacturer of critical industrial machinery shall file in triplicate with the War Production Board, plainly marked Ref.: L-83, a supplementary list of all orders for critical industrial machinery now on his books (in excess of the amounts listed in List A), not reported under paragraph (b) (2), together with the name of the purchaser or lessee, the date of the order, the number of pieces of machinery, a description of the machinery, the value of the machinery, the rating assigned, the preference rating certificate number, if any, (or blanket preference rating order and serial number), the specified delivery date, the percentage of completion of the order, and the expected use to which the machinery will be put. Manufacturers who have previously filed a list under the order need not refile.

Director General for Operations.

List A

1. Packaging and labeling machinery, on orders for a single machine of a value in excess of $200: *Provided, however,* That there shall be excluded from the terms of this order, orders for machinery to which a preference rating has been legally applied pursuant to the terms of Preference Rating Order P-115.
2. Pulp and paper making machinery, on orders for a single machine of a value in excess of $1,000.
3. Paper converting machinery, on orders for a single machine of a value in excess of $200.
4. Printing and publishing machinery, on orders for a single new, or less-than-five-year-old reconditioned or used machine of a value in excess of $200.
5. Bakery machinery, on orders for a single machine of a value in excess of $200.
6. Confectionery machinery, on orders for a single machine of a value in excess of $200.
7. Beverage bottling machinery, on orders for a single machine of a value in excess of $200.
8. Coffee grinding machinery, one horsepower and over, on orders for a single machine of a value in excess of $50.
9. Food slicing and grinding machinery, one horsepower and over, on orders for a single machine of a value in excess of $50: *Provided, however,* That there shall be excluded from the terms of this order orders for machinery to which a preference rating has been legally applied pursuant to the terms of Preference Rating Order P-115.
10. Dairy machinery and equipment, on orders for a single machine or piece of equipment of a value in excess of $300: *Provided, however,* That there shall be excluded from the terms of this order orders for machinery to which a preference rating has been legally applied pursuant to the terms of Preference Rating Order P-118. The term "dairy ma-

chinery and equipment" includes all machinery and equipment used for the processing of milk and milk products into dairy products, except machinery used on a farm for the producing of and handling of milk preparatory to delivery to commercial processors. A processing plant located on a farm is considered, under the terms of this order, to be a commercial processor, and is subject to the limitations hereof.

11. New woodworking, sawmill and logging machinery and equipment, on all orders for a single machine or unit of equipment of a value in excess of $250. The term "new woodworking, sawmill and logging machinery and equipment" means: new borers, dowel machines, edgers, gluing equipment, grinders, jointers, kilns, lathes, matchers, mills, mortisers, moulders, routers, sanders, saws, shapers, surfacers, tenoners, trimmers, veneer and plywood machines; and all other new machinery and equipment normally used in cutting, shaping, gluing, finishing, or otherwise processing wood and wood products, except machinery used for painting, varnishing, lacquering and similar purposes.

INTERPRETATION 1

Paragraph (a) (2) of General Limitation Order L–83 defines "Critical industrial machinery" as new, used, or reconditioned machinery of the kinds listed from time to time in List A of the order, and provides that the value of a critical industrial machine shall be the selling price with certain exceptions. List A specifies the machinery included in the order. In certain instances, the list contains dollar limitations on the value of machines so included. For instance, bakery machinery is covered by General Limitation Order L–83 only on an order for a single machine of a value in excess of $200.

The selling price of a machine would normally establish its value for purposes of this order unless other facts indicated that such selling price was not the actual value placed upon the machinery by the buyer and seller. In any case where a used machine is sold with the understanding by buyer or seller that the machine must be repaired or reconditioned in connection with or in relation to the sale transaction, in order that the machine be an effective instrument, the value of the machine for purposes of this order is to be deemed the aggregate of the selling price of the inoperable machine plus the cost of repairing or reconditioning the machine to the point where it can operate effectively. In other words, the sale of a broken down machine, followed by repairing or reconditioning in order that the machine be in condition to operate, does not avoid the impact of this order merely because the original sale of the inoperable machine is fixed at a value below the limitations established in General Limitation Order L–83; the cost of the repairs necessary to render the machine an effective instrument must be added to such original selling price in order to determine the value for the purposes of the order. (Issued December 17, 1942.)

PART 1174—LAUNDRY EQUIPMENT, DRY CLEANING EQUIPMENT AND TAILORS' PRESSING MACHINERY

[General Limitation Order L–91, as Amended March 12, 1943]

§ 1174.1 *General Limitation Order L–91—(a) Definitions.* For the purposes of this order:

(1) "Manufacturer" means any person fabricating or assembling commercial laundry machinery, commercial dry cleaning machinery or tailors' pressing machinery, or parts designed specifically for any such machinery, to the extent that he is engaged in such manufacture, and shall include sales and distribution outlets controlled by a manufacturer.

(2) "Distributor" means any person in the business of distributing, selling, or dealing in restricted machinery to the extent that he is engaged in such sales, dealing or distribution, other than sales and distribution outlets controlled by a manufacturer.

(3) "Commercial laundry machinery," "commercial dry cleaning machinery," and "tailors' pressing machinery" include, but are not limited to, machinery of the kinds listed from time to time in List A attached to this order. New machinery of such kinds is machinery which has not been previously used or purchased for use. Secondhand machinery of such kinds is machinery which has been previously used or purchased for use, including rebuilt or reconditioned machinery.

(i) "Tailors' pressing machinery" shall include all pressing machinery of the types used by dry cleaning establishments, by custom tailors, or by pressing establishments, but shall not include any pressing machinery designed specifically for use either in the mass production of garments and other textiles, or in other industrial processes, which is not used by dry cleaning establishments, custom tailors, or pressing establishments.

(ii) "Commercial dry cleaning machinery" shall include all dry cleaning machinery of the types used in laundering or cleaning establishments of any kind, such as, but not limited to, rug cleaning establishments, fur cleaning establishments, ships' service departments, and army exchanges, but shall not include electric hand irons, electrically heated steam irons or electrically heated water spray irons of the types which are subject to the limitations of § 1130.1 (General Limitation Order L–65), domestic laundry equipment (i. e., washing machines and ironing machines for home use), and laundry equipment designed specifically for use either in the mass production of garments and other textiles, or in other industrial processes, which is not used by laundering establishments.

(iii) "Commercial laundry machinery" shall include all laundry machinery, except electric hand irons, electrically heated steam irons or electrically heated water spray irons of the types which are subject to the limitations of § 1130.1 (General Limitation Order L–65), domestic laundry equipment (i. e., washing machines and ironing machines for home use), and laundry equipment designed specifically for use either in the mass production of garments and other textiles, or in other industrial processes, which is not used by laundering establishments.

(4) "Restricted machinery" means

(i) Any new commercial laundry machinery, commercial dry cleaning machinery and tailors' pressing machinery, and

(ii) Any secondhand commercial laundry machinery, commercial dry cleaning machinery and tailors' pressing machinery having a value in excess of $100 at the time of sale, lease, delivery, or other transfer: *Provided,* That secondhand machinery which is in such condition at the time of transfer that it cannot be used efficiently for the purposes for which it was designed and which is transferred with the intention that the machinery will be rebuilt or reconditioned by or at the expense of either the transferer or transferee, or both, shall be restricted machinery if its value after such rebuilding or reconditioning will exceed $100.

(5) "Emergency repair loan" means the temporary leasing or lending of restricted machinery to replace similar machinery while the latter is being repaired.

(b) *Restrictions on delivery.* (1) Regardless of the terms of any contract of sale or purchase or other commitment, or of any preference rating certificate, no person shall sell, purchase, lease, deliver, receive delivery of, or otherwise transfer or acquire restricted machinery without authorization by the Director General for Operations on Form PD–418, except as provided in paragraphs (b) (2), (b) (3), (b) (4), (b) (5) and (b) (6) of this order.

(2) The restrictions of paragraph (b) (1) shall not apply if the sale, lease, delivery or other transfer of restricted machinery is to a person acquiring the machinery neither for use nor for export.

(3) The restrictions of paragraph (b) (1) shall not apply if the restricted machinery sold, leased, delivered or otherwise transferred is secondhand and the transfer is by someone other than a manufacturer or distributor to a person acquiring the secondhand restricted machinery for use at the place at which it was last previously used.

(4) The restrictions of paragraph (b) (1) shall not apply to the delivery of restricted machinery from one manufacturer or distributor to another manufacturer or distributor to fill an order or part of an order received by the latter if the filling of the order has been authorized on Form PD–418.

(5) The restrictions of paragraph (b) (1) shall not apply to an emergency repair loan pursuant to written or telegraphic authorization of the Director General for Operations, for a period not in excess of forty-five days, or to the return of any restricted machinery to its owner by the manufacturer or distributor to whom that owner delivered the machinery for repair, rebuilding or reconditioning.

(6) The restrictions of paragraph (b) (1) shall not apply to direct or indirect purchases by the Army of the United States (except purchase orders placed by or for delivery to army exchange services) or by the Navy of the United States (except purchase orders placed by or for delivery to ships' service departments) if the purchase order bears a certification by the person placing the purchase order that notice of intention to place such purchase order has been sent to the War Production Board by such person or by the armed service which ultimately will receive the equipment. For purposes of this paragraph and paragraph (d) (1) an indirect purchase by the Army or Navy is a purchase of restricted equipment by a prime contractor or a sub-contractor of the Army or Navy for ultimate delivery to the Army or Navy, provided that the equipment purchased is constructed in accordance with specifications established by the Army or Navy and the installation of the equipment is to be supervised by the Army or Navy.

(c) *Procedure for deliveries.* (1) All persons making application for an authorization under paragraph (b) (1) of this order shall make such application on Form PD–418. Applicants who secure authorization upon Form PD–418 shall surrender such Form PD–418 to their supplier before completing the transaction authorized. Such authorizations shall expire thirty days after the date of their issuance unless served in the interim upon the supplier named therein. Within five days after their expiration all expired authorization forms shall be returned for cancellation to the War Production Board.

(2) Persons seeking authorization to make emergency repair loans pursuant to paragraph (b) (5) shall apply in writing, either by letter or telegram, to the War Production Board, Washington, D. C.

(3) Any person who purchases, leases, receives delivery of, or otherwise acquires restricted machinery neither for use nor for export, or who acquires second-hand restricted machinery from a person other than a manufacturer or distributor for use at the place at which the machinery transferred was last previously used, shall certify on his purchase order or contract that such is the case. The person receiving such certification shall be entitled to rely on such representation unless he knows or has reason to believe it to be false.

(d) *Prohibition of production of new machinery.* No manufacturer shall fabricate or assemble any new commercial laundry or dry cleaning machinery, or any new tailors' pressing machinery, except as follows:

(1) To fill orders for machinery constructed in accordance with specifications of, and purchased directly or indirectly by, the Army of the United States (except army exchange services) or the Navy of the United States (except ships' service departments),

(2) To fill orders approved on Form PD–418 for, and in accordance with specifications of, the Army or Navy of any country, the government of which is entitled to the benefits of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act),

(3) To fill orders approved on Form PD–418 for the Maritime Commission or the War Shipping Administration,

(4) To fill orders approved on Form PD–418 for machinery to equip a vessel constructed by or for the Navy, Maritime Commission, War Shipping Administration or Office of Lend-Lease Administration, or to equip a cantonment or other Army or Navy base constructed for the use and operation of the Army or Navy of the United States,

(5) To fill orders approved on Form PD–418 for a bag loading or other ordnance plant where the hazard is such that commercial laundry or dry cleaning machinery or tailors' pressing machinery has been certified to be necessary by the Army or Navy, or

(6) To complete the assembly of commercial laundry or dry cleaning machinery or tailors' pressing machinery to fill other orders approved by the Director General for Operations on Form PD–418, if the only operation necessary to complete the machinery for delivery is the final assembly of completely fabricated parts.

(7) Upon specific authorization of the Director General for Operations; the Director General for Operations may from time to time specifically authorize one or more manufacturers to fabricate, to assemble, or both to fabricate and assemble specified quantities of machinery of the types restricted by this paragraph (d).

(e) *Production Requirements Plan.* Unless otherwise authorized by the Director General for Operations, no commercial laundry or dry cleaning machinery, or tailors' pressing machinery, including maintenance or repair parts therefor, shall be manufactured except by a person who has filed an application under Priorities Regulation No. 11 (Production Requirements Plan) on a form of the PD–25 series for his material requirements for such manufacture for which he requires priority assistance.

(f) *Non-applicability to rebuilding, reconditioning, repair or maintenance of existing equipment.* The restrictions of paragraph (b) and paragraph (d) of this order shall not be construed to restrict the manufacture, acquisition, sale, or delivery, in any manner, of parts to be used to rebuild, recondition, repair or maintain existing machinery, or machinery delivered under the terms of this order. The above provision for parts for rebuilding, reconditioning, repair, or maintenance includes replacement parts to be used for such purposes.

(g) *Restrictions on use of materials.* (1) No monel metal, nickel, nickel silver, or nickel chrome steels shall be used in the production of new restricted machinery, except when specified by the Army (not including army exchange services), the Navy (not including ships' service departments) or the Maritime Commission, or the War Shipping Administration of the United States.

(2) No person shall use parts for rebuilding, reconditioning, or repairing commercial laundry machinery, commercial dry cleaning machinery or tailors' pressing machinery which parts have an aggregate weight in excess of forty percent of the weight of the machinery which is repaired, rebuilt, or reconditioned, except when necessary in order to meet specifications of the Army (except army exchanges), the Navy except ships' service departments), the Maritime Commission, or the War Shipping Administration of the United States or when specifically authorized by the Director General for Operations.

(3) Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished products in contravention of the terms of any order or regulation effective at the date of any such sale, delivery or other transfer.

(h) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time, with the exception of Priorities Regulation No. 17.

(i) *Appeals.* Any appeal from this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Records.* Each person affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production, and sales of commercial laundry and dry cleaning machinery and tailor's pressing machinery.

(l) *Reports.* (1) Each person affected by this order shall execute and file with the War Production Board such reports, information, and answers to questionnaires as the War Production Board shall from time to time request.

(2) On or before January 7, 1943, for the month of December 1942, and on or before the seventh day of each month thereafter, for the preceding month, each manufacturer or distributor of commercial laundry or dry cleaning machinery, or tailors' pressing machinery shall file a monthly report on Form PD–419.

(m) *Communications to War Production Board.* All reports and information required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Service Equipment Division, Washington, D. C.; Ref.: L–91.

Issued this 12th day of March 1943.

PART 1206—HORSEHIDE

[General Conservation Order M-141 as Amended March 12, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of horsehide for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

[NOTE: Paragraph (a) was amended March 12, 1943]

§ 1206.1 *General Conservation Order M-141*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Horsehide" means the hide or skin which has been removed from a horse, colt, mule, ass or pony.

(2) "Raw horsehide" means an untanned horsehide before depilation.

(3) "Horsehide front" means that part of the horsehide commercially known as the "front", whether or not attached to the butt.

(4) "Horsehide butt" means that part of the horsehide commercially known as the "butt", whether or not attached to the front or shanks.

(5) "Horsehide shanks" means that part of the horsehide commercially known as the "shanks", whether or not attached to the butt.

(6) "Wet salted horsehide" means any horsehide except those commercially known as "dry South American horsehides" or "dry pony furs."

(7) "Put in process" means to soak in water or solution before depilation.

(8) "Military contract" means a contract for products to be delivered to or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, the government of Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies and Protectorates, or Yugoslavia, or the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(9) "Military specifications" includes any and all United States Army, Navy (including the Bureau of Aeronautics and the Bureau of Ships), Marine Corps and Coast Guard specifications.

(10) "Blue chrome state" means the state after tanning but before fat-liquoring and coloring.

(11) "Converter" means any person who during the three years ending November 4, 1942 has caused, or during the operation of this order causes, more than a sum total of 50 horsehide fronts, horsehide butts or horsehide shanks during any one calendar month to be tanned for his account by others.

(12) "Tanner" means any person who during the three years ending November 4, 1942 has tanned, or during the operation of this order tans, more than a sum total of 50 horsehide fronts, horsehide butts or horsehide shanks during any one calendar month either for his own account, for the account of others, or both.

(13) "Basic monthly quota" means ½ of the number of wet salted horsehide fronts, wet salted and dry horsehide butts, or wet salted and dry horsehide shanks, as the case may be, put into process during the period July 1, 1941 to June 30, 1942, inclusive: *Provided, however,* That no "dry ponies" processed for furs, or any part thereof, shall be included in such quota.

(c) *Restrictions on processing of horsehide fronts, butts and shanks.* (1) No tanner shall put in process, and no converter shall cause to be put in process for his account, a greater percentage of his basic monthly quota of wet salted horsehide fronts, wet salted and dry horsehide butts, or wet salted and dry horsehide shanks, than is specified from time to time in orders supplemental to this order: *Provided, however,* That this restriction shall not apply to the processing of "dry ponies" for furs.

(2) No tanner shall put into process, or continue to process, any horsehide front except into suitable leather meeting any military specification in force at the time, unless in the judgment of his most qualified expert such horsehide front can not be made by him or by any other person into suitable leather meeting any military specification.

(3) [Revoked March 12, 1943]

(4) [Revoked March 12, 1943]

(d) *Restrictions on deliveries, sales and use of raw horsehides and horsehide front leather.* (1) No person shall hereafter sell or deliver any raw horsehide if he knows or has reason to believe such material is to be processed or delivered in violation of this order.

(2) [Revoked March 12, 1943]

[NOTE: Paragraph (3) was amended March 12 1943]

(3) No tanner or converter shall hereafter sell or deliver any horsehide front leather meeting any military specifications except:

(i) To a converter to fill orders held by such converter for leather to be incorporated into products to fill specific existing military contracts, or

(ii) To any other person for incorporation into products to fill specific existing military contracts held by such other person;

and no person shall accept delivery of or use any such horsehide front leather except a converter or other person under the respective conditions mentioned in this subparagraph.

(4) No tanner or converter shall sell or deliver any horsehide front leather or horsehide shanks not meeting any military specification except for incorporation into work gloves, garments for heavy duty workers, footwear, trusses, surgical supports, artificial limbs, orthopaedic products, sporting goods, and no manufacturer shall accept delivery of or use any such horsehide front leather for purposes other than those designated above in this paragraph.

(e) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(f) *Reports.* Any person who puts in process, or causes to be put in process for his account, any horsehides, horsehide fronts, horsehide butts or horsehide shanks, shall file with the War Production Board monthly, beginning May 31, 1942, one copy of report form PD-475; and shall file any additional reports or forms prescribed by the War Production Board from time to time.

Any person who uses horsehide leather shall file reports and forms as prescribed by the War Production Board from time to time.

(g) *Records.* Any person who puts in process horsehides or uses horsehide leather for manufacturing purposes shall preserve such records for not less than two years as will clearly and adequately indicate his compliance with this order.

(h) *Communications to the War Production Board.* All reports, applications, forms or communications required under or referred to in this order, and all communications concerning this order, shall, unless otherwise directed, be addressed to War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Ref: M-141.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control.

Issued this 12th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 3096—PAPER AND PAPERBOARD

[General Conservation Order M-241 as Amended March 12, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply, for defense, for private account and for export, of various materials and facilities required in the manufacture and distribution of paper and paperboard; and the following order is deemed necessary in the public interest and to promote the national defense:

§ 3096.1 *General Conservation Order M-241*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" includes all operations connected with the production of paper and paperboard, including operations in the finishing room and packaging, but does not include processes or operations applied to paper and paperboard after the primary papermaking, such as printing, waxing, gumming, coating, bag manufacture, cup manufacture and envelope manufacture, box and container manufacture, and the fabrication of paper into paper articles.

(3) "Mill" means a congregation of pulp preparation and roll and sheet finishing equipment, paper machines and subsidiary facilities located and operated together as a single producing unit for the production of paper and paperboard.

(4) "Base period" means the six month period from October 1, 1941 through March 31, 1942.

(5) "Paper merchant" means any person regularly engaged in the business of buying and reselling paper and, or paperboard.

(c) *Restrictions on production of paper and paperboard.* (1) Unless specifically authorized by the Director General for Operations pursuant to subparagraph (5) of this paragraph (c), no person or persons shall produce paper or paperboard in any mill which has not produced paper or paperboard since August 1, 1942.

(2) Each manufacturer of paper and/or paperboard shall for each mill operated by him determine quarterly a production quota, calculated as follows:

(i) Determine, separately for each class of paper and paperboard on List A the quantity thereof produced at such mill during the period from October 1, 1941 through March 31, 1942;

(ii) Subtract from the result for each class the quantity produced at such mill during such period of each of the grades of paper or paperboard on List B falling within such class;

(iii) Multiply the remainder for each class by percentage figure set opposite the particular class on List A;

(iv) Add together the several tonnages obtained by (iii), and divide by two.

The quantities shall be measured, to the nearest ton, in tonnage delivered from the paper machine. The method and basis for determining such tonnage shall be that method and basis followed at the particular mill in the past, or any other practicable method and basis, provided the same method and basis are used to determine both current production and production during the base period. If any machine unit of any mill was shut down during the base period for as much as 72 consecutive hours, excluding vacations and holidays, there may be added to (i) for such mill for the class of paper or paperboard principally produced on such machine unit, whatever quantity thereof could have been produced on such machine unit during the down time at the average rate of operation during the preceding month.

The Director General may from time to time by amendment change the classification and or percentages on List A or change List B, specifying a particular date for the change to take effect. Quotas for production after any such date shall be calculated according to Lists A and B as amended, until further amended. If the effective date of any such amendment is other than the first day of a calendar quarter, the quota for the quarter within which such date falls shall be recalculated by adding together (i) the proportion of the old quota which equals the proportion of the quarter preceding such date and (ii) the proportion of the new quota which equals the

proportion of the quarter following such date, including such date.

(3) No person or persons shall during the first calendar quarter of 1943 or any calendar quarter thereafter produce at any mill any quantity of paper and/or paperboard in excess of the quota for such mill for such quarter determined according to subparagraph (2) of this paragraph (c), except:

(i) To the extent and upon the conditions stated in subparagraph (4) of this paragraph (c); or

(ii) To the extent specifically authorized by the Director General for Operations pursuant to paragraph (5) (c) of this order, subject to any conditions imposed by the Director General for Operations in such authorization: and, *Provided*, That,

(i) Within such quota there may be produced at any mill any quantities of any one or several kinds of paper and/or paperboard, provided that the aggregate during any quarter does not exceed such mill's quota for that quarter; and

(ii) Regardless of and over and beyond any such quota, any person may produce at any mill, unless restricted by paragraph (c) (1) or by paragraph (e), any quantity of any kind of paper on List B.

(4) If one person owns only one mill, and such mill is equipped with only one machine unit for the manufacture of paper and/or paperboard, such person may, unless restricted by paragraph (c) (1) or by paragraph (e), produce at such mill during any calendar week any quantity of paper and/or paperboard required to occupy such machine 120 hours during such week: *Provided*, That such person shall in no other week during the same calendar quarter operate such mill in excess of 120 hours.

(5) If any person owns more than one mill, and can show that by combining or exchanging the several quotas of such mills, or parts thereof, significant quantities of critical materials will be saved, transportation reduced, labor released in areas where needed, or other materials or facilities required in the national defense conserved, he may submit to the Director General for Operations, in writing, a plan for such combination or exchange, stating the quantity and kinds of paper and/or paperboard produced at each mill involved during each month of the year from October 1, 1941 through September 30, 1942, the quantity and kinds of paper expected to be produced at each such mill during each quarter under such plan, how long he proposes to operate under such plan, his reasons for desiring to adopt such plan, and the respects wherein he conceives that such plan will accomplish the purposes mentioned. The Director General for Operations may thereupon approve, modify, or disapprove such plan or may impose upon the execution of any such plan whatever conditions he may deem appropriate to this order. Upon receipt from the Director General for Operations of approval in writing of such a plan the proponent may produce at the mills designated in such plan the quantities and kinds of paper and/or paperboard provided for in such plan, subject to any modifications or conditions imposed by the Director General for Operations in his approval. No person shall undertake or attempt to carry into effect any such plan unless and until he receives such approval.

(d) *Reserve production.* Each manufacturer of paper and/or paperboard shall reserve in the production schedule of each of his mills for the month of March, 1943, and for each calendar month thereafter, time and supplies sufficient to produce and deliver within such month, at the order of the Director General for Operations, 2% of such mill's potential production as calculated from Lists A and B appended for the current calendar quarter. In general this should amount to approximately 6% of each month's production. The Director General for Operations may on or before the 15th day of any month, by telegram or letter, direct any manufacturer to employ such reserve to produce any kind of paper and/or paperboard usually produced at such mill, and any quantity thereof, not to exceed in the aggregate for any one month 2% of such mill's potential production for the current quarter, and sell and deliver the same within the month to any person named by the Director General for Operations. The manufacturer may refuse so to produce and deliver only for the reasons specified for the refusal of rated orders in § 944.2 (b) of Priorities Regulation No. 1. If the manufacturer does not on or before the 15th of any month receive from the Director General for Operations directions as to the disposition of such reserve (or has received directions as to the disposition of a part but not of the remainder) he may employ the same (or such remainder) as he may desire, consistent with the other provisions of this order.

(e) *Restrictions on inventory.* Unless specifically authorized by the Director General, by telegram or letter, or excepted by paragraph (e) (5):

(1) No person shall knowingly deliver, and no person shall accept delivery of any quantity of newsprint, if the inventory of newsprint in the hands of the person accepting delivery is, or will by virtue of such acceptance become, either (i) in excess of two carloads or (ii), if in excess of two carloads, greater than seventy five days' supply, on the basis of either his average rate of consuming newsprint for the preceding quarter or his average rate of consuming newsprint as projected for the then current quarter;

(2) No person shall knowingly deliver to any person except a paper merchant and no person except a paper merchant shall accept delivery of, any quantity of any grade of paper or paperboard other than newsprint, if the inventory of such grade in the hands of the person accepting delivery is, or will by virtue of such acceptance become, either (i) in excess of two carloads or (ii), if in excess of two carloads greater than sixty days' supply, on the basis of either his average rate of consuming such grade of paper or paperboard for the preceding quarter or his average rate of consuming such grade of paper or paperboard as projected for the then current quarter;

(3) No person shall knowingly deliver to a paper merchant, and no paper merchant shall accept delivery of, any quantity of any grade of paper or paperboard other than newsprint, if the inventory of such grade in the hands of such paper merchant is, or will by virtue of such acceptance become, either (i) in excess of two carloads or (ii), if in excess of two carloads, greater than ninety days' supply, on the basis of either his average rate of distributing such grade of paper or paperboard for the preceding quarter or his average rate of distributing such grade of paper or paperboard as projected for the then current quarter;

(4) No person shall produce at any mill any quantity of any grade of paper or paperboard other than newsprint, if his inventory of such grade at such mill is, or will by virtue of such production become, in excess of (i) two carloads or (ii), if in excess of two carloads, greater than sixty days' supply, on the basis of either the average rate of shipment of such grade from such mill for the preceding quarter or the average rate of shipment of such grade from such mill as projected for the then current quarter.

(5) The term "grade of paper or paperboard" refers to the classification on United States Department of Commerce (Census) Form WPB-514, as revised November 7, 1942, each caption (except those which are further broken down by following captions) representing a separate grade. If a person's gross inventory of a grade is in excess of two carloads or sixty days' supply, as above, but his inventory of a particular item within that grade is less than thirty days' supply (or, in the case of a paper merchant, less than sixty days' supply), he may accept delivery of or produce, and others may deliver to him, any quantity of such item as may be required to provide him with thirty days' supply (or in the case of a paper merchant sixty days' supply). The restrictions of this paragraph (e) apply equally to paper and paperboard of foreign and domestic origin, and apply to intra company deliveries as defined in § 944.12 of Priorities Regulation No. 1. They do not, however, apply to those papers commonly reported on United States Department of Commerce (Census) Form WPB-514, as revised November 7, 1942, under the captions "Photographic and other sensitized" (07611) and "Cigarette" (08512), or to any paper or paperboard after it is printed or converted beyond waxing or coating, or to inventories held by or for any agency or government referred to in § 944.1 (b) (1) and (2) of Priorities Regulation No. 1, or by or for the United States Government Printing Office.

(f) *Miscellaneous provisions*—(1) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(4) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(6) *Communications.* All communications concerning this order shall unless otherwise directed, be addressed to, War Production Board, Pulp and Paper Division, Washington, D. C. Ref.: M-241.

Issued this 12th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

LIST A

Column 1 lists general classes of paper and paperboard by names common in the trade. Each class includes all the grades of paper or paperboard reported on United States Department of Commerce (Census) Forms OPM-514 (for the last quarter of 1941) and WPB-514 (for the first quarter of 1942) by the code numbers, respectively as indicated, set out under the name. In the calculation of a mill's quota there should first be determined the whole quantity of each class produced at the mill during the base period, then subtracted from the result for each class the quantity produced at the mill during the base period of any kind of paper or paperboard on List B falling within such class, then the remainder multiplied by the percentage in column 2, and the several results added and the total divided by two. (See (c) (2) of Order M-241, as amended.)

Class of paper or paperboard	*Percentage*
Newsprint OPM-514—0100 to 0103, incl. WPB-514—01000 to 01300, incl.	90
Groundwood papers OPM-514—0200 to 0207, incl. WPB-514—02000 to 02900, incl.	80
Book papers OPM-514—0300 to 0340, incl. WPB-514—03000 to 03590, incl.	80
Writings OPM-514—0350 to 0375, incl., 0980 to 0983, incl. WPB-514—04000 to 08009, incl.	90
Wrapping paper (including imitation vegetable parchment, but not including glassine, greaseproof and genuine vegetable parchment) OPM-514—0400 to 0494, incl. (except 0440, 0450 for glassine, and 0460 for genuine vegetable parchment) and 0800	85
WPB-514—09000 to 10900, incl. (except 09600, 09700 for glassine, and 09800 for genuine vegetable parchment) and 19000	
Glassine, greaseproof and genuine vegetable parchment OPM-514—0440, 0450 (glassine only) and 0460 (genuine vegetable parchment only) WPB-514—09600, 09700 (glassine only) and 09800 (genuine vegetable parchment only)	100
Tissue paper OPM-514—0500 to 0516, incl. WPB-514—11000 to 11900, incl. and 12100 to 12990, incl.	100
Absorbent papers OPM-514—0600 to 0607, incl. WPB-514—13000 to 13990, incl.	80
Cardboard OPM-514—0970 to 0974, incl. WPB-514—54000 to 54900, incl.	80

LIST B

Column 1 lists the grades of paper and paperboard which may in general be manufactured without restriction. (See (c) (3) of Order M-241, as amended). The general class within which each falls, according to the classification on List A, is indicated in Column 2. In the calculation of a mill's quota, the amount produced during the base period of each kind of paper and paperboard listed in column 1 is to be subtracted from the total quantity of the corresponding class in column 2 produced during the base period. (See (c) (2) (ii) of Order M-241, as amended). The kinds of paper and paperboard listed in column 1 are further identified by the numbers in parentheses following each, being the code numbers for each on United States Department of Commerce (Census) Forms OPM-514 (for the last quarter of 1941) and WPB-514 (for the first quarter of 1942), respectively as indicated.

Chapter XI—Office of Price Administration

PART 1300—PROCEDURE

[Procedural Reg. 10,[1] Amendment 1]

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Procedural Regulation No. 10 is amended in the following respect:

Section 1300.853 is amended to read as follows:

§ 1300.853 *Procedure where Board member is disqualified.* In the event a Board member is disqualified to act under § 1300.852 the remaining members of the Board shall constitute a quorum to act as the Board. If the Board takes favorable action upon the application made by the disqualified member or in which he has an interest described in § 1300.852 the application, together with all pertinent records, shall be forwarded on or before the tenth day of the following month to the State Director or District Manager who is authorized to hear appeals from the Board under Procedural Regulation No. 9. The State Director or District Manager shall review the matter and shall either confirm, modify or reverse the action of the Board, directing the Board to take such action as may be necessary to give effect to his decision.

This amendment shall become effective March 17, 1943.

(Pub. Law 507, 77th Cong., W.P.B. Directive No. 1, 7 F.R. 562; E.O. 9125, 7 F.R. 2719)

[Ration Order 5C,[2] Amendment 29]

MILEAGE RATIONING GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respect:

Section 1394.7706 (n) is amended to read as follows:

(n) By the following persons for the following purposes:

(1) Any person, including an employer, employer's organization, or labor organization, for the transportation of farm workers, commercial fishermen, seamen, or marine workers to, from or between their places of employment; or

(2) An engineer or technician for transportation between home or lodgings and a radio broadcasting transmission station or between such station and other permanent facilities for radio broadcasting for purposes necessary to the operation of such station, but only if such station, because of its power, is located in a rural or suburban area; or

(3) An engineer or technician for the transportation of non-portable equipment to and from temporary installations for radio broadcasting, if no alternative means of transportation are adequate.

This amendment shall become effective March 17, 1943.

(Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89, 421, 507, 77th Cong.; W.P.B. Dir. No. 1, Supp. Dir. No. 1Q, 7 F.R. 562, 9121; E.O. 9125, 7 F.R. 2719)

PART 1499—COMMODITIES AND SERVICES

[General Maximum Price Regulation[1] as Amended March 11, 1943]

By Amendment 46, § 1499.13 (a) (1) (i) is amended so that the General Maximum Price Regulation shall read as follows:

In the judgment of the Price Administrator the prices of commodities and services generally have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942.

In the judgment of the Price Administrator the maximum prices established by this General Maximum Price Regulation, which apply with certain exceptions to all commodities and services not otherwise subject to regulation, are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act.

So far as practicable the Price Administrator gave due consideration to prices prevailing between October 1 and 15, 1941, and to relevant factors of general applicability. So far as practicable the Price Administrator consulted with representatives of trade and industry.

A statement of the considerations involved in the issuance of this General Maximum Price Regulation is issued simultaneously herewith.[2]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, this General Maximum Price Regulation is hereby issued.

MAXIMUM PRICES

NOTE: The meaning of certain provisions and terms of this General Maximum Price Regulation is further explained and defined in § 1499.20. The explanations and definitions are set forth in alphabetical order.[3] The terms explained and defined are quoted the first time they appear in the text.

§ 1499.1 *Prohibition against dealing in commodities or services above maximum prices.* On and after the effective date of this General Maximum Price Regulation, regardless of any contract or other obligation:

(a) No "person" shall "sell" or deliver any "commodity", and no person shall sell or supply any "service", at a price higher than the maximum price permitted by this General Maximum Price Regulation; and

(b) No person in the course of trade or business shall buy or receive any commodity or service at a price higher than the maximum price permitted by this General Maximum Price Regulation.

[1] With exception of definitions added by amendments.

(c) The provisions of paragraph (b) of this section shall not be applicable to any war procurement agency or any contracting or paying finance officer thereof and any such agency or contracting or paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this General Maximum Price Regulation or by the Emergency Price Control Act of 1942. "War procurement agency" as used in this paragraph, includes the War Department, the Department of the Navy, the United States Maritime Commission, and the Lend-Lease Section of the Procurement Division of the Treasury Department, or any agency of any of the foregoing.

[Paragraph (c) added by Amendment 7, 7 F.R. 4659, effective 6-25-42]

§ 1499.2 *Maximum prices for commodities and services; general provisions.* Except as otherwise provided in this regulation, the "seller's" maximum price for any commodity or service shall be:

(a) The highest price charged by the seller during March 1942:

(1) For the same commodity or service; or

(2) If no charge was made for the same commodity or service, for the similar commodity or service most nearly like it; or

(b) If the seller's maximum price cannot be determined under paragraph (a), the highest price charged during March 1942 by the "most closely competitive seller of the same class":

(1) For the same commodity or service; or

(2) If no charge was made for the same commodity or service, for the similar commodity or service most nearly like it.

Highest Price Charged During March 1942

For the purposes of this General Maximum Price Regulation, the highest price charged by a seller during March 1942 shall be:

(a) The highest price which the seller charged for a commodity "delivered" or service "supplied" by him during March 1942 to a "purchaser of the same class"; or

(b) If the seller made no such delivery or supplied no such service during March 1942, his highest "offering price" for delivery or supply during that month to a purchaser of the same class; or

(c) If the seller made no such delivery or supplied no such service and had no such offering price to a purchaser of the same class, the highest price charged by the seller during March 1942 to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers:

Provided, however, That (1) If before April 1, 1942, the seller raised his prices for a commodity or service to all his classes of purchasers (or to all his classes of purchasers except those to whom he was bound to make delivery or supply during March 1942 pursuant to a firm commitment made before the price rise) and

(2) If during March 1942 he delivered the commodity or supplied the service at the increased price to at least one class of purchasers, then, in order to allow the seller to apply the price rise to any class of purchasers to which no delivery or supply was made during that month after the price rise (except under a firm commitment made before the price rise), the highest price charged during March 1942 shall be deemed to be:

(i) The seller's increased offering price to such class of purchasers for delivery or supply during March 1942, or

(ii) If the seller had no such increased offering price to that particular class of purchasers, the highest price charged during March 1942 to a purchaser of a different class, adjusted to reflect—

(*a*) The seller's customary differential in price between the two classes of purchasers; or

(*b*) If the seller had no such customary differential, the actual percentage differential in price between the two classes of purchasers which existed at the time the seller last entered into a commitment, or, if he did not enter into such a commitment, last submitted an offering price, for delivery or supply to a purchaser of that particular class during March 1942.

No seller shall evade any of the provisions of this General Maximum Price Regulation by changing his customary allowances, discounts or other price differentials.

No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery or supply of any commodity or service, than the seller required purchasers of the same class to pay during March 1942 on deliveries or supplies of the same or similar types of commodities or services.

[Above portion of § 1499.2 amended by Amendments 23 and 38, 7 F.R. 6615, 10155, effective 8-26-42 and 12-10-42, respectively]

Similar Commodities or Services

One commodity shall be deemed similar to another commodity, if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such commodities, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such commodities would ordinarily have been sold, shall not be taken into account. One service shall be deemed similar to another service if the first has the same use and purpose as the second and belongs to a type which would ordinarily be sold for the same or substantially the same price.

Special Provisions

The maximum prices established by this section for certain commodities or services or in certain transactions may be modified by supplementary regulation issued under this section.[4]

[Above paragraph added by Amendment 15, 7 F.R. 5484, effective 7-15-42]

[Note: Supplementary Order No. 34 (7 F.R. 10779) permits special packing expenses to be added to maximum prices on sales to procurement agencies of the United States.]

§ 1499.3 *Maximum prices for commodities and services which cannot be priced under § 1499.2.* The seller's maximum price for a commodity or service which cannot be priced under § 1499.2 of this General Maximum Price Regulation shall be a maximum price in line with the level of maximum prices established by this General Maximum Price Regulation. Such price shall be determined by the seller in accordance with the following procedures:

(a) In the case of a "sale at wholesale or retail" of a commodity, the seller (1) shall select from the same general classification and price range as the commodity being priced under this section, the comparable commodity for which a maximum price is established under § 1499.2 of this regulation and of which the seller delivered the largest number of units during March 1942; (2) shall divide his maximum price for that commodity by his "replacement cost" of that commodity; and (3) shall multiply the percentage so obtained by the cost to him of the commodity being priced under this paragraph. The resulting figure shall be the maximum price of the commodity being priced. Within ten day after determining such maximum price under this paragraph, the seller shall report such price to the "appropriate field office of the Office of Price Administration" upon a form, duly filled out, copied from the form contained in Appendix A of this regulation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(b) In the case of a sale other than at wholesale or retail of a commodity, the maximum price shall be a price determined by the seller after specific authorization from the Office of Price Administration. A seller who seeks an authorization to determine a maximum price under the provisions of this paragraph shall file with the Office of Price Administration in Washington, D. C., an application setting forth (1) a description in detail of the commodity for which a maximum price is sought; and (2) a statement of the facts which differentiate such commodity from other commodities delivered during March 1942 by such seller and by other competitive sellers of the same class. Such authorization will be given in the form of an order prescribing a method of determining the maximum price for the applicant or for sellers of the commodity generally, including purchasers for resale, or for a class of such sellers.

(c) In the case of a sale at wholesale or retail of a commodity which cannot be priced under paragraph (a) of this section, the maximum price shall be a price determined by the seller after specific authorization from the Office of Price Administration or any duly authorized officer thereof. A seller who seeks an authorization to determine a maximum price under the provisions of this paragraph shall file with the regional office of the Office of Price Administration for the region in which his principal place

of business is located an application setting forth (1) a description of the commodity or commodities for which a maximum price is sought; (2) a statement of the reasons why such commodity or commodities cannot be priced under § 1499.2 or § 1499.3 (a) of this General Maximum Price Regulation; and (3) any other facts which the seller wishes to submit in support of the application. The seller shall also submit such additional pertinent information as the regional office may require. Such authorization will be given in the form of an order prescribing a method of determining the maximum price.

(d) In the case of a sale of a commodity the price for which includes the supply of a service of substantial value and which cannot be priced under paragraph (a) of this section, or in the case of a sale of a service, the maximum price shall be a price determined by the seller by applying the first applicable pricing method of the pricing methods stated in § 1499.102 of Maximum Price Regulation No. 165, as amended.[5]

[§ 1499.3 as amended by Amendment 25, 7 F.R. 7093, effective 9-9-42]

§ 1499.4 *Supplemental regulations.* If the maximum prices established for any commodity under the provisions of this General Maximum Price Regulation fail equitably to distribute returns from the sale at retail of such commodity among producers, manufacturers, wholesalers and retailers, the Price Administrator will by supplementary regulation establish such maximum prices for different classes of sellers, or fix such base periods for the determination of their maximum prices, as will insure that each such class of sellers shall receive a fair share of such return.

§ 1499.4a. *Determination of maximum prices by sellers at retail operating more than one retail establishment.* A seller who owns more than one establishment selling commodities at retail and who has had a fixed practice, which prevailed during March 1942, of selling commodities at retail at uniform or at substantially uniform prices in all such establishments or in all such establishments located in a particular area may make written application to the Office of Price Administration, Retail Trade and Services Division, Washington, D. C., for authorization to determine and use uniform maximum prices under this General Maximum Price Regulation in all of such establishments in which it has been the practice to charge uniform or substantially uniform prices. Such application shall state (a) the name and address of the principal office of the seller; (b) the number of separate retail establishments owned by the seller and the address of each such establishment; (c) the kind of merchandise carried in such retail establishments; (d) whether commodities are purchased centrally by the seller and distributed by the seller to such retail establishments or are purchased separately by such establishments; (e) a description of the fixed practice of the seller of selling commodities at uniform or substantially uniform prices in all such retail establishments or in all such retail establishments located in particular areas indicating the length of time during which such practice has been in effect and whether uniform selling prices are determined in a central office; (f) the names and addresses of the seller's most closely competitive sellers of the same class on a national or regional basis; and (g) any other facts which the seller wishes to submit in support of the application. If such authorization is given, it will be accompanied by instructions as to the method by which the seller may determine and use uniform maximum prices under this General Maximum Price Regulation.

[§ 1499.4a added by Amendment 12, 7 F.R. 5365, effective 7-15-42]

§ 1499.4b *Adjustment of maximum prices in cases of special deals.* Any seller, other than a seller at retail, whose maximum price for a commodity to purchasers of a particular class is based on a "special deal" given by him to such purchasers which he can demonstrate was to have terminated not more than 123 days from the date on which it first became effective, may adjust his maximum price to such purchasers to the highest price at which such commodity was delivered by him to a purchaser of that class during the 30 days immediately preceding the date on which the special deal first became effective.

A seller at retail whose maximum price for a commodity to purchasers of a particular class is based on a special deal given by him to such purchasers as the result of a special deal given to him by his supplier may adjust his maximum price to such purchasers to the highest price at which such commodity was delivered by him to a purchaser of that class during the 30 days immediately preceding the date on which the special deal given by him first became effective. Such adjusted maximum price shall not apply to the particular commodities purchased by the retailer under the special deal given to him by his supplier.

The words "special deal," as used in this section, mean any reduction in the price of a commodity to purchasers of a particular class from the price in effect for purchasers of that class on the day immediately preceding the date on which the special deal first became effective, including but not limited to a reduction in such price resulting from offers of free goods, combination sales, and increased quantity and other discounts to purchasers of such class.

A seller who makes an adjustment in his maximum price pursuant to this section shall, within 10 days thereafter, submit a statement to the regional office of the Office of Price Administration for the region in which the seller's place of business is located, except that if the seller makes sales of the commodity in more than one region, the statement shall be submitted to the Office of Price Administration, Washington, D. C. Such statement shall set forth:

(a) The seller's maximum price for the commodity prior to the adjustment permitted by this section;

(b) A description of the special deal given by the seller including all the terms thereof, the class or classes of purchasers to which it was applicable, the dates during which it was in effect, and copies of price lists, advertisements and trade announcements pertaining to such special deal;

(c) In the case of a seller at retail a description of the special deal given to him by his supplier including all the terms thereof, the dates during which it was in effect and copies of price lists and trade announcements pertaining to such special deal;

(d) In the case of a seller other than a seller at retail, detailed evidence demonstrating that the special deal was to have terminated on or before a date not more than 123 days from the date on which the special deal first became effective;

(e) The adjusted maximum price established by the seller pursuant to this section; and

(f) A description of all prices and terms of payment which the seller has had in effect for the commodity since January 1, 1941.

The adjusted maximum price reported by the seller pursuant to this section shall be subject to adjustment at any time by the Office of Price Administration.

[§ 1499.4b added by Amendment 14, 7 F.R. 5565, effective 7-21-42]

§ 1499.5 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after April 28, 1942, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this General Maximum Price Regulation.

§ 1499.6 *Sales for export.* The maximum price at which a person may export any commodity shall be determined in accordance with the provisions of the Maximum Export Price Regulation[6] issued by the Office of Price Administration on April 25, 1942.

§ 1499.7 *Federal and state taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of a commodity, or the supplying of a service, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity or service and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during March 1942.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during March 1942 the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this General Maximum Price Regulation.

(2) In all other cases if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this General Maximum Price Regulation.

(b) *As to a tax or increase in a tax which becomes effective after March 31, 1942.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however,* That the tax on the transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

[§ 1499.7 as amended by Amendments 7 and 30, 7 F.R. 4659, 10454, effective 6-25-42 and 12-17-42, respectively]

§ 1499.8 *Less than maximum prices.* Lower prices than those established by this General Maximum Price Regulation may be charged, demanded, paid or offered.

COMMODITIES AND SERVICES EXCEPTED FROM THIS GENERAL MAXIMUM PRICE REGULATION

§ 1499.9 *Commodities excepted from this general maximum price regulation.* (a) This General Maximum Price Regulation shall not apply to sales or deliveries of the following commodities:

(1) Any "raw and unprocessed agricultural commodity or greenhouse commodity" while it remains in substantially its original state, except that dried fruits and dried berries (other than dried prunes and other than sales or deliveries "in natural condition" by growers to packers), bananas, and dried imported agricultural commodities, shall be governed by this General Maximum Price Regulation.

[Subparagraph (1) as amended by Amendment 4, 7 F.R. 4339, effective 6-5-42]

(2) Eggs and poultry.

(3) All milk products,[7] including butter, cheese, condensed and evaporated milk, except that fluid milk sold at wholesale and retail, cream sold at wholesale and retail, and ice cream shall be governed by this General Maximum Price Regulation.

[Subparagraph (3) as amended by Amendment 21, 7 F.R. 6007, effective 8/7/42 except that the effective date of this amendment with respect to fluid milk and fluid cream sold at wholesale in the Washington market area as defined in Federal Milk Marketing Order No. 45, as amended, issued by the Secretary of Agriculture August 29, 1941, shall be November 2, 1942]

(4) "Flour, cake mixes and flour mixes", except that "packaged" cake mixes and flour mixes shall be governed by this General Maximum Price Regulation.

[Subparagraph (4) as amended by Amendment 2, 7 F.R. 3990, effective 5-29-42]

(5) Mutton and lamb.

(6) Fresh fish and sea food, and game.

(7) Dried prunes, dried edible beans, leaf tobacco (whether dried or green), all nuts and peanuts except cleaned or raw shelled peanuts harvested from the 1941 crop, all salted peanuts and peanut butter, linseed oil, linseed cake, linseed meal, manure, garbage, mixed seeds for house pet birds, and poultry tonics and condiments.

[Paragraph (7) as amended by Amendment 41, 8 F.R. 1204, effective 2-1-43]

(8) Living animals, whether wild or domestic.

(9) Books, magazines, motion pictures, periodicals, newspapers, and materials furnished for publication by any press association or feature service.

[Footnote [7] added by Amendment 45, 8 F.R. 2346, effective 3-22-43]

(10) Blister copper, lead bullion, "ores", and ore concentrates.

[Subparagraph (10) as amended by Amendment 36, 7 F.R. 9616, effective 11-24-42]

(11) Stumpage, logs, and pulpwood.

(12) Stamps and coins; "precious stones" and mountings into which precious stones are set; antiques and knotted oriental rugs; paintings, etchings, sculptures and other objects of art.

[Subparagraph (12) as amended by Amendment 9, 7 F.R. 5027, effective 7-2-42]

(13) Used automobiles.

(14) Wood and gum for naval stores and gum naval stores.

[Subparagraph (14) as amended by Amendment 5, 7 F.R. 4487, effective 6-19-42]

(15) "Securities."

(16) Such other commodities as may be specified by supplementary regulations issued under this section.[8]

(b) This General Maximum Price Regulation shall not apply to the following sales or deliveries:

(1) By a farmer, of commodities grown and processed on his farm, if the total of such sales or deliveries does not exceed $75 in any one calendar month.

(2) By any person, of his used supplies or equipment not acquired or produced by him for the purpose of sale: *Provided, however,* That the exception contained in this subparagraph shall not apply to sales or deliveries of used tin cans sold or delivered to persons authorized or licensed under paragraph (b) (4) of Supplementary Order No. M-72-a,[9] issued by the Director General for Operations, War Production Board.

[Paragraph (2) as amended by Amendment 42, 8 F.R. 1317, effective 2-3-43]

(3) By an owner, of his used personal or household effects or other personal property used by him.

(4) At a bona fide auction of used household or personal effects.

(5) By hotels, restaurants, soda fountains, bars, cafes, caterers, or other similar eating establishments, of meals, servings of food portions customarily served separately or as part of a meal, or beverages mixed or prepared by the seller. This exemption shall not apply to sales of ice cream in cones, dixie cups or similar packages.

[Paragraph (5) as amended by Amendment 44, 8 F.R. 2110, effective 2-20-43]

(6) By a breeder, trapper, or hunter, of pelts, furs, or other parts of wild animals raised by him, or trapped, shot, or killed by him, if the total of such sales or deliveries does not exceed $75 in any one calendar month.

(7) Of commodities sold without private profit in the course of any sale, fair, or bazaar conducted for a period of not more than 15 days by any religious, charitable, or philanthropic organization.

(8) To the United States or any agency thereof of such commodities or in such

[7] *Exception:* Adjusted maximum prices for the milk product known as "ice cream mix," the butterfat content of which is reduced to not less than 8% included in 14% or more [by weight] of milk solids are fixed in subparagraph (1a) of § 1499.73 (a) of Supplementary Regulation No. 14 to the General Maximum Price Regulation. (Amendment No. 119 to Supplementary Regulation No. 14, 8 F.R. 2346).

transactions as may be specified by supplementary regulations issued under this section.[9]

(9) Such other sales and deliveries as may be specified by supplementary regulations issued under this section.

§ 1499.10 *Services excepted from this general maximum price regulation.* The provisions of this General Maximum Price Regulation shall not apply to such services as may be specified by supplementary regulations issued under this section or by any amendments thereto.[11]

[§ 1499.10 as amended by Amendment 8, 7 F.R. 4738, effective 7-1-42]

RECORDS

§ 1499.11 *Base-period records.* Every person selling commodities or services for which, upon sale by that person, maximum prices are established by this General Maximum Price Regulation, shall:

(a) Preserve for examination by the Office of Price Administration all his existing "records" relating to the prices which he charged for such of those commodities or services as he delivered or supplied during March 1942, and his offering prices for delivery or supply of such commodities or services during such month; and

(b) Prepare, on or before July 1, 1942, on the basis of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement showing:

(1) The highest prices which he charged for such of those commodities or services as he delivered or supplied during March 1942 and his offering prices for delivery or supply of such commodities or services during such month, together with an appropriate description or identification of each such commodity or service; and

(2) All his customary allowances, discounts, and other price differentials.

Any person, other than a person selling at retail, who claims that substantial injury would result to him from making such statement available to any other person, may file it with the appropriate field office of the Office of Price Administration. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this General Maximum Price Regulation.

§ 1499.12 *Current records.* Every person selling commodities or services for which, upon sale by that person, maximum prices are established by this General Maximum Price Regulation shall keep, and make available for examination by the Office of Price Administration, records of the same kind as he has customarily kept, relating to the prices which he charged for such of those commodities or services as he sold after the effective date of this General Maximum Price Regulation; and, in addition, records showing, as precisely as possible, the basis upon which he determined maximum prices for those commodities or services.

§ 1499.13 *Maximum prices of cost-of-living commodities: statement, marking or posting.* For the purposes of this section, a cost-of-living commodity is any commodity designated as such by the Price Administrator. A list of the classes of commodities so designated appears in § 1499.25, Appendix B, of this General Maximum Price Regulation.

(a) On and after May 18, 1942, every person offering to sell a cost-of-living commodity at retail shall mark the maximum price of such commodity in a manner plainly visible to, and understandable by, the purchasing public. The maximum price may be marked on the commodity itself or on the shelf, bin, rack, or other holder or container upon or in which the commodity is kept, or it may be posted at the place in the business establishment where the commodity is offered for sale: *Provided*, That whichever of the above methods of posting is adopted, the maximum price of each commodity offered for sale shall be plainly visible to the purchaser at the place in the business establishment where the commodity is offered for sale, and shall not be obscured by the posted prices of other commodities, whether by use of price books or catalogs or layers of price lists or otherwise or in any other manner. The maximum price shall be stated as follows: "Ceiling price $_____;" or "Our ceiling $_____." Any person choosing to post by price-lines the maximum prices of commodities in the classifications marked by asterisks in Appendix B, shall post the maximum price by price-line at the place in the business establishment where the commodities in such price-line are offered for sale, and, in addition, shall mark the selling price of each such commodity on the commodity itself.

[Paragraph (a) as amended by Amendment 18, 7 F.R. 5783, effective 7-30-42]

(1) Every seller making retail sales on the basis of orders received by mail shall post or mark his maximum prices in all catalogs, flyers, leaflets, circulars, booklets, lists or other printed or similar matter issued and distributed by him after the effective date of this amendment for the purpose of obtaining mail orders. One of the following methods of posting or marking shall be used:

(i) State the maximum price for each cost-of-living commodity listed in each of the publications described above at the place in the publication where such commodity is listed. A change in maximum price, which has occurred after a publication has been printed but before it has been distributed, shall be entered either where the cost-of-living commodity has been listed or upon a correction page inserted and attached inside the front cover of the publication. The maximum price shall be stated substantially as follows: "Ceiling price $_____;" or "Our ceiling price $_____;" or,

(ii) Print on the front cover of all catalogs, flyers, leaflets, circulars or booklets, or the front page of all lists or publications not having a cover, at the time they are issued, substantially the following statement signed with the name of the seller:

NOTICE TO CUSTOMERS

No price for any article listed or described herein exceeds the ceiling price for that article as determined under the applicable maximum price regulation issued by the Office of Price Administration. As required by that Office, we will, upon request, furnish you with a statement of our maximum prices on any of the commodities listed about which you inquire.

(Signed) _____

Any seller using this method, shall upon request, furnish a statement of the maximum prices for any commodities listed or described in the publication and about which the customer inquires.

(2) Any seller making retail sales by mail may apply to the Office of Price Administration for permission to deviate from the requirements in subparagraph (1). The application shall state why such requirements are incquitable or inappropriate as applied to the applicant's business, and shall show that the requested method of posting is substantially in line with the requirements of posting for mail order sellers set forth in subparagraph (1).

[Subparagraphs (1) and (2) as amended by Amendment 35, 7 F.R. 9615, effective 11-24-42]

(b) On or before July 1, 1942, every person offering to sell cost-of-living commodities at retail shall file with the "appropriate war price and rationing board" of the Office of Price Administration a statement showing his maximum price for each such commodity, together with an appropriate description or identification of it. Such statement shall be kept up to date by such person by filing on the tenth day of every succeeding month a statement of his maximum price for any cost-of-living commodity newly offered for sale during the previous month, together with an appropriate description or identification of the commodity.

[Paragraph (b) as amended by Amendment 11, 7 F.R. 5192, effective 7-11-42]

(c) No person is required to mark or file the maximum price of any commodity manufactured by him if his only sales at retail of such commodity are made to his employees.

[Paragraph (c) added by Amendment 31, 7 F.R. 8881, effective 11-5-42]

§ 1499.14 *Sales slips and receipts.* Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each commodity or service sold, and the price received for it.

REGISTRATION AND ENFORCEMENT

§ 1499.15 *Registration.* Every person selling at wholesale, and every person who owns, or hereafter becomes the owner of, any business operating an "establishment selling at retail" any commodity or service for which a maximum price is established by this General Maximum Price Regulation or by any other "price regulation" of the Office of Price Administration, shall register with the Office of Price Administration at such time and in such manner as the Adminstrator may hereafter by regulation prescribe, on forms which will be made available by the Office of Price Administration.

[§ 1499.15 as amended by Amendment 7, 7 F.R. 4059, effective 6-25-42]

1499.16 *Licensing*—(a) *License required.* A license as a condition of selling is required of every person selling at wholesale or retail any commodity or service for which a maximum price is established by the General Maximum Price Regulation or by any other price regulation of the Office of Price Administration. No person whose license is suspended in proceedings under § 205 (f) (2) of the Emergency Price Control Act of 1942 shall, during the period of suspension, sell any commodities or services as to which his license to sell is suspended.

(b) *License granted.* Every person selling at wholesale or retail any commodity or service for which a maximum price is established by the General Maximum Price Regulation or by any other price regulation of the Office of Price Administration is by the General Maximum Price Regulation granted a license as a condition of selling any such commodity or service. The provisions of the General Maximum Price Regulation and of every price regulation of the Office of Price Administration to which this section now is or may hereafter become applicable shall be deemed to be incorporated in the license hereby granted, and any violation of any provision so incorporated shall be a violation of the provisions of said license. Such license shall be effective on the effective date of the General Maximum Price Regulation or when any such person becomes subject to the maximum price provisions of this or any other price regulation, and shall, unless suspended in accordance with the provisions of the Emergency Price Control Act of 1942, remain in effect as long as such regulation, or any applicable part, amendment, or supplement remains in effect.

[§ 1499.16 as amended by Amendments 20 and 37, 7 F.R. 6081, 9732, effective 8-8-42 and 11-25-42, respectively]

§ 1499.17 *Penalties.* Persons violating any provision of this General Maximum Price Regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, and proceedings for the suspension of licenses.

PROCEDURE FOR ADJUSTMENT OR AMENDMENT

§ 1499.18 *Adjustment of maximum prices.* The Office of Price Administration, or any duly authorized representative thereof, may adjust any maximum price established under this regulation in the following cases:

(a) In the case of any seller at retail who shows:

(1) That such maximum price is abnormally low in relation to the maximum price of the same or similar commodity or service established for other sellers at retail; and

(2) That this abnormality subjects him to substantial hardship.

No application for adjustment filed after November 30, 1942 will be granted under this paragraph (a).

(b) In the case of any seller, other than a seller at retail, who shows:

(1) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of the same or similar commodities; and

(2) That establishing for him a maximum price, bearing a normal relation to the maximum price established for competitive sellers of the same or similar commodities, will not cause or threaten to cause an increase in the level of retail prices.

No application for adjustment filed after November 15, 1942 will be granted under this paragraph (b).

(c) In the case of any seller or group of sellers when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of a commodity or service which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such commodity or service; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Each Regional Administrator is authorized to make adjustments or act upon applications for adjustment under this paragraph (c).

(d) In the case of any seller at retail who shows:

(1) That his maximum price for any commodity established under this Regulation is less than the minimum price in effect for such commodity during March 1942 pursuant to a contract entered into in accordance with a Fair Trade Act of any state; and

(2) That the commodity was generally sold at retail during March 1942 at such minimum price within the locality in which his selling establishment is located; and

(3) That he has been permanently enjoined by a court from selling the commodity at less than such minimum price. In such a case the maximum price of such seller will be increased to such minimum price.

(e) In such other cases as may be specified by supplementary regulation issued under this section.

Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1.[12]

[§ 1499.18 as amended by Amendment 33, 7 F.R. 8942, effective 11-4-42]

[Note: Procedural Regulation No. 6 (7 F.R. 5087, 5665) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Supplementary Order No. 9 (7 F.R. 5444) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, with the exception of those on scrap, waste, and salvage materials.]

[Note: Supplementary Order No. 28 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

§ 1499.19 *Petitions for amendment.* Any person seeking an amendment of any provision of this General Maximum Price Regulation, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[§ 1499.19 as amended by Supplementary Order 26, 7 F.R. 8948]

DEFINITIONS AND EXPLANATIONS

§ 1499.20 *Definitions and explanations.* This General Maximum Price Regulation, and the terms appearing therein, unless the context otherwise requires, shall be construed as follows:

(a) "Appropriate field office of the Office of Price Administration" means the district office for the district (or in the absence of such district office, the state office for the State) in which is located the seller's place of business from which his sales are made.

(b) "Appropriate war price and rationing board" means the war price and rationing board for the area in which is located the seller's place of business from which the cost-of-living commodities are offered for sale.

(c) "Commodity" includes commodities, articles, products, and materials and contracts to buy, sell, or deliver any of the foregoing.

[Paragraph (c) as amended by Amendment 8, 7 F.R. 4738, effective 7-1-42]

(d) "Delivered." A commodity shall be deemed to have been "delivered" during March 1942, if during such month it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

(e) "Establishment" refers to the physical location of the store, shop or other place of business in which commodities or services are sold. Any such establishment shall be deemed to be

[9] These commodities or transactions are contained in Revised Supplementary Regulation No. 4 and amendments thereto.

[11] These services are contained in Revised Supplementary Regulation No. 11 and amendments thereto.

[12] 7 F.R. 8961.

selling at retail if it has an established practice of making sales at retail.

(f) [Revoked by Amendment 41, 8 F.R. 1204, effective 2-1-43]

(g) "Most closely competitive seller of the same class." "Seller of the same class" means a seller (1) performing the same function (for example, manufacturing, distributing, retailing, processing, storing, installing, or repairing), (2) of similar type (for example, department store, mail order house, chain store, specialty shop, cut-rate store), (3) dealing in the same type of commodities or services, and (4) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (i) is selling the same or a similar commodity or service, and (ii) is closely competitive in the sale of such commodities or services, and (iii) is located nearest to the seller.

[Paragraph (g) as amended by Amendment 7, 7 F.R. 4659, effective 6-25-42]

(h) "Offering price" means the price quoted in the seller's price list, or, if he had no such price list, the price which he regularly quoted in any other manner, except that in the case of sales of commodities by an establishment selling at retail, the offering price shall be the price at which the commodity was offered for sale at the immediate point of sale (for example, the shelves or counters). But "offering price" shall not include a price intended to withhold a commodity or service from the market, or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

(i) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(j) "Price regulation" means a price schedule effective in accordance with the provisions of § 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any order issued pursuant to any such regulation or schedule.

(k) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for commodities or services for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(l) "Raw and unprocessed agricultural commodity or greenhouse commodity." Commodities that are picked, harvested, threshed, ginned, husked, cleaned, dried, baled, boxed, packed, transported, and/or refrigerated, without more, remain "raw and unprocessed." But operations such as slaughtering, freezing, canning, preserving, milling, crushing, straining, centrifuging, shelling of nuts, cooking, distilling, and purifying with heat, constitute processing for this purpose. For the purposes of this General Maximum Price Regulation the following commodities shall be deemed to be raw and unprocessed agricultural commodities: (1) all natural flowers and floral products, whether fresh or dried, (2) all seeds and bulbs as long as they maintain their original identity without being further processed into products commonly designated by other names. Forest products, such as lumber, wood naval stores, and mineral products, whether processed or unprocessed, shall not be deemed to be agricultural commodities.

[Paragraph (l) as amended by Amendment 41, 8 F.R. 1204, effective 2-1-43]

(m) "Records" include books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(n) "Replacement cost" shall be the net price paid by the seller after May 18, 1942, or the net price which the seller would have to pay to replace such commodity after such date.

(o) "Sale at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user except that (1) for the purpose of § 1499.3 of this General Maximum Price Regulation a "sale at retail" shall not include any sale by a producer, manufacturer, or fabricator of any commodity produced, manufactured, or fabricated by him, and (2) for the purpose of §§ 1499.11 and 1499.13 of this General Maximum Price Regulation a "sale at retail" shall not include any sale to the United States, any other government or any of its political subdivisions, any religious, educational or charitable institution, any institution for the sick, deaf, blind, disabled, aged or insane, or any school, hospital, library or any agency of any of the foregoing.

[Paragraph (o) as amended by Amendment 7, 7 F.R. 4659, effective 6-25-42]

(p) "Sale at wholesale" means a sale by a person who buys a commodity and resells it, without substantially changing its form, to any person other than the ultimate consumer, except that (1) for the purposes of § 1499.3 of this General Maximum Price Regulation a sale at wholesale shall include any sale by such person to an industrial or commercial user, and (2) "sold at wholesale" refers to a sale, by any person, of fluid milk or cream in bottles or paper container, ice cream mix whose butterfat content is reduced to not less than 8% included in 14% or more (by weight) of milk solids, and ice cream to any person, including an industrial or commercial user, other than the ultimate consumer.

[Paragraph (p) amended by Amendment 21, 7 F.R. 6007, effective 8/7/42 except that the effective date of this amendment with respect to fluid milk and fluid cream sold at wholesale in the Washington market area as defined in Federal Milk Marketing Order No. 45, as amended, issued by the Secretary of Agriculture August 29, 1941, shall be November 2, 1942, (2) as amended by Amendment 45, effective 2-22-43]

(q) "Securities" includes any note, stock, bond, and interest or instrument commonly known as a "security."

(r) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "seller," "buy," "purchase," and "purchaser," shall be construed accordingly. Nothing in this General Maximum Price Regulation shall be construed to prohibit the making of a contract to sell a commodity or service at a price not to exceed the maximum price at the time of delivery or supply.

(s) "Seller" includes the seller of any commodity or service. Where a seller at retail makes sales or supplies services through more than one selling unit, other than salesmen making sales at uniform prices, each such separate place of business of the seller shall be deemed to be a separate seller. Where a seller other than at retail makes sales or supplies services through more than one selling unit, all selling units whose prices for most of the commodities they sell have customarily been determined centrally by the same office, shall be deemed to be a single seller; but where a seller has by charging different prices for a commodity at his selling units established different classes of purchasers, he will have different maximum prices for the different selling units. For the purposes of Section 16 of this regulation, the owner of a business shall be considered the seller regardless of the number of separate places of business he owns.

[Paragraph(s) as amended by Amendment 43, 8 F.R. 2029, effective 2-18-43]

(t) "Service" includes any service rendered or supplied, otherwise than as an employee, in connection with the processing, distribution, storage, installation, repair, or negotiation of purchase or sale of a commodity, and generally, without limiting the foregoing, all services which preserve or add to the value or utility of a commodity.

(u) "Supplied." A service shall be deemed to have been "supplied" during March 1942, if during such month it was completed or in process.

(v) "Flour" means the flour produced from wheat, rye, buckwheat, rice, corn, oats, barley, soybeans and potatoes. Combinations of flours produced from the said commodities, and bleached, bromated, enriched, phosphated and self-rising flours shall be considered flour. Flour from wheat shall mean:

(1) Any product of the milling of wheat, other than durum wheat, whose ash content is not more than 1 20th of the protein calculated to a moisture-free basis plus .35 except that farina shall not be deemed to be flour from wheat.

(2) Any product of the milling of durum wheat, whose ash content calculated to a moisture-free basis, is not more than 1.5 per cent, except that semolina shall not be deemed to be a flour from wheat.

(3) Whole wheat flour.

(4) Whole durum wheat flour.

(5) Blends of the foregoing flours from wheat.

In determining whether the ash content of bleached, bromated, enriched, phosphated and self-rising flours complies with the above ash requirements, allowances shall be made for the increase in the ash content resulting from the addition of the bleaching, bromating, enriching, phosphating and self-rising ingredients.

[Paragraph (v) added by Amendment 2, 7 F.R. 3990, and amended by Amendment 34, 7 F.R. 9435, effective 5-29-42 and 11-21-42, respectively]

(w) "Cake mixes" and "Flour mixes" means combinations of flour or flours with any other ingredients except those used in making bleached, bromated, enriched, phosphated and self-rising flours.

[Paragraph (w) added by Amendment 2, 7 F.R. 3990, and amended by Amendment 6, 7 F.R. 4659, effective 5-29-42 and 6-22-42, respectively]

(x) "Packaged" as applied to "cake mixes" and "flour mixes" means packaged for sale at retail in a container of any sort holding three pounds or less, where the packaging has been done before arrival at the point of retail sale.

[Paragraph (x) added by Amendment 2, 7 F.R. 3990, effective 5-29-42]

(y) "Ores" means any mineral substance in a crude state used chiefly as a commercial source of metal contained therein. "Ore concentrates" means any ore, as defined above, after the removal of a part of the gangue, or a part of the nonmetallic elements, either by a physical or chemical process.

[Paragraph (y) added by Amendment 17, 7 F.R. 5784, effective 7-30-42]

(z) "Precious stones" means any ruby, sapphire, emerald, natural pearl, or any diamond (other than an industrial diamond) weighing more than 1.00 carat, or any semiprecious stone after sale by the cutter, when the cutter has received more than $100 for the sale of the stone. Synthetic stones and cultured pearls shall not be deemed "precious stones". If two or more diamonds (other than industrial diamonds) with an aggregate weight of 1.50 carats are set in one mounting, the diamonds shall be deemed precious.

[Paragraph (z) added by Amendment 9, 7 F.R. 5027, and amended by Amendment 13, 7 F.R. 5445, effective 7-2-42 and 7-16-42, respectively]

OTHER PRICE REGULATIONS, APPLICABILITY, EFFECTIVE DATE

§ 1499.21 *Effect of other price regulations.* §§ 1499.13, 1499.14, 1499.15, 1499.16 and 1499.25 of this General Maximum Price Regulation shall apply but the other provisions of this General Maximum Price Regulation shall not apply to any sale or delivery for which a maximum price is in effect, at the time of such sale or delivery, under the provisions of any other price regulation issued, or which may be issued, by the Office of Price Administration, unless otherwise provided in any such price regulation.

[§ 1499.21 as amended by Amendment 7, 7 F.R. 4659, effective 6-25-42]

§ 1499.22 *Applicability.* The provisions of this General Maximum Price Regulation shall be applicable to the United States, its territories and possessions, and the District of Columbia.

§ 1499.23 *Effective date.* All the provisions of this General Maximum Price Regulation shall become effective on May 11, 1942, except that:

(a) The provisions of this General Maximum Price Regulation, other than § 1499.11 (a), shall not apply to establishments selling at retail until May 18, 1942;

(b) The provisions of §§ 1499.1 and 1499.2 shall not apply to any sale of services at retail until July 1, 1942; and

(c) The provisions of § 1499.11 (a) shall become effective upon the date of issuance of this General Maximum Price Regulation.

§ 1499.24 *Appendix A: Report of maximum price determined under § 1499.3 (a).*

Form GMPR:2 This form GMPR:2 shall be used for the reporting of a maximum price for sale at wholesale or retail determined under § 1499.3 (a) of the General Maximum Price Regulation. The maximum price for sale at wholesale or retail may be determined under this section only if the seller cannot determine maximum prices under § 1499.2: i. e., if there was no sale or offer to sell of the same or similar commodities by the seller reporting or by a competitor during the month of March, 1942. Any seller who has determined a maximum price under § 1499.3 (a) is required, within 10 days after such determination, to report such price to the appropriate field office of the Office of Price Administration. If the maximum price reported is incorrectly determined or otherwise unreasonable the seller will be required to determine a new maximum price and to file a new report.

The Office of Price Administration has the right at any time for cause to revise the price so reported.

Any seller who under § 1499.4a of the General Maximum Price Regulation has received authorization of the Retail Trade and Services Division to determine uniform maximum prices pursuant to § 1499.3 (a) for a group of stores under its control in which it has been the practice to charge uniform or substantially uniform prices, shall file his report or reports in accordance with and at the place or places designated in the Order issued by the Office of Price Administration authorizing uniform pricing.

Pursuant to § 205 (b) of the Emergency Price Control Act of 1942 it is a criminal offense punishable by a fine of not more than $5000 or by imprisonment for not more than one year, or both, to make any false statement or entry in the above report. This form does not need to be acknowledged before a notary public.

INSTRUCTIONS

The following instructions must be followed in completing this form:

Item 1. Give a brief but complete description of the commodity for which the price is reported. The description should be sufficient to enable any representative of OPA to identify the item. It should include a description of its use, unit, size, packaging, brand name or name of the manufacturer if known, the material of which the item is constructed and any other pertinent information.

Item 2. Indicate how commodity for which price is reported differs from other commodi-

ties sold by the seller, or competitive sellers of the same class, during March 1942. *If the seller or competitive sellers sold similar, though not identical, items during March, 1942, maximum prices may not be established under § 1499.3 (a) but must be determined under § 1499.2 of the General Maximum Price Regulation.*

Item 3. (a) Insert general classification (food, hardware, men's clothing, etc.), in which the seller classes the commodity for which a maximum price is reported.

(b) Insert a brief description of comparable commodity in the same general classification and price range of which the seller delivered the largest number of units during March, 1942. The description should be as complete as under Item 1 above.

Item 4–A. Column 1. Name of comparable commodity.

Column 2. Insert unit of pricing, e. g., pound, quart, garment, dozen, gross, etc.

Column 3. Insert net replacement cost per unit. Net replacement cost shall be net price [1] per unit paid by the seller after May 18, 1942, or the net price which the seller would have to pay to replace the comparable commodity after such date. In no case shall this be higher than suppliers' maximum price.

Column 4. Insert the maximum price per unit established in accordance with § 1499.2 of the General Maximum Price Regulation.

Item 4–B. Insert *net cost* [1] per unit of commodity for which price is reported.

Item 4–C. Calculate maximum price reported per unit as follows: Multiply unit cost (4–B) by percentage (4–A, Column 5).

Item 5. Indicate whether the price reported in 4–C is a price for sale at wholesale or at retail as defined in § 1499.20, items (o) and (p) of the General Maximum Price Regulation.

Item 6. State the date on which the price was effective for sales to purchasers.

[§ 1499.24 as amended by Amendment 19, 7 F.R. 6058, effective 8–6–42]

§ 1499.25 *Appendix B: Commodities designated by the Price Administrator as cost-of-living commodities.*

[NOTE: For the commodity classifications marked by asterisks, maximum prices may be posted by price lines at the place in the business establishment where the commodities are offered for sale, provided that, in addition, the selling price of each commodity in such classification shall be marked on the commodity itself. See § 1499.13 of this General Maximum Price Regulation.]

PART 1499—COMMODITIES AND SERVICES

[MPR 188, Amendment 7]

MANUFACTURERS' MAXIMUM PRICES FOR SPECIFIED BUILDING MATERIALS AND CONSUMERS' GOODS OTHER THAN APPAREL

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Subparagraph (3) is added paragraph (a) of § 1499.161, as set forth below:

§ 1499.161 *Applications for adjustment and petitions for amendment*—(a) *Applications for adjustment.* * * *

(3) The Office of Price Administration, or any duly authorized officer, may by order adjust the maximum prices established by this regulation for any manufacturer in any case in which the manufacturer shows:

(i) That he is the sole manufacturer of an essential commodity such as one, the production and sale of which is affirmatively permitted by regulations or orders issued by the War Production Board.

(ii) That the maximum prices established by this regulation do not permit the recovery of total costs, and

(iii) That the operations of the company are currently being conducted at a loss.

Adjustment in price may be made to an extent sufficient to enable the manufacturer to recover total costs on the article, together with a profit. In a proper case, the manufacturer may charge a price equal to the price requested in the application, provided that he has received a letter from the Office of Price Administration stating that his is a proper case. Such price shall be tentative and refunds shall be made to each purchaser in the event that the application is denied in whole or in part. Applications for adjustment under this paragraph shall be filed in accordance with Revised Procedural Regulation No. 1.

This amendment shall become effective March 11, 1943.

[MPR 137,[1] Amendment 26]

PETROLEUM PRODUCTS SOLD AT RETAIL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1340.91 (g) is amended to read as follows:

(g) *Puerto Rico.* (1) In addition to the maximum price as determined by § 1340.91 (a) (1) and (2), sellers of gasoline at retail establishments in the Territory of Puerto Rico may charge from and after December 1, 1942, 3 cents per gallon inasmuch as the additional excise tax of 3 cents per gallon, which became effective on December 1, 1942, is not collectible, in addition to the maximum price, pursuant to § 1340.82 of this Maximum Price Regulation No. 137. This additional charge may not be collected from the United States Government, its agencies or instrumentalities when sold to them for their exclusive use.

(2) In addition to the maximum price as determined by § 1340.91 (a) (1) and (2) sellers of lubricating oil at retail

PART 1340—FUEL

[RPS 88,[1] Amendment 80]

PETROLEUM AND PETROLEUM PRODUCTS

A statement of the considerations involved in the issuance of this amendment is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1340.164, the headnote and paragraph (a) are amended to read as set forth below:

§ 1340.164 *Taxes*—(a) *Lubricating oils*—(1) *Federal taxes.* Effective November 1, 1942, each seller subject to this Revised Price Schedule No. 88 may collect in addition to his maximum price for a lubricating oil subject to the Federal excise tax on lubricating oils, the amount of the increase in such tax provided by the Revenue Act of 1942 and subsequent increases therein, actually paid by him or an amount equal to the amount of such increase or increases paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, provided the seller states the amount of such increase or increases separately from the purchase price.

(2) *Puerto Rican taxes.* Effective March 5, 1943, each seller in the territory of Puerto Rico subject to this Revised Price Schedule No. 88 may collect in addition to his maximum price for a lubricating oil which is subject to Act No. 25 enacted by the Legislature of Puerto Rico and approved December 4, 1942, the amount of the 3½¢ per gallon increase in such tax effected by the said Act and the amount of subsequent increases in the lubricating oil tax actually paid by him or an amount equal to the amount of such increase or increases paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, provided the seller states the amount of such increase or increases separately from the purchase price.

This amendment shall become effective March 11, 1943.

PART 1351—FOOD AND FOOD PRODUCTS

[Rev. MPR 270,[1] Amendment 2]

DRY EDIBLE BEANS, SALES EXCEPT AT WHOLESALE AND RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 270 is amended in the following respects:

1. Section 1351.1202 is amended as follows:

§ 1351.1202 *Prohibition against sales above the maximum prices.* (a) On and after January 26, 1943 regardless of any contract or other obligation, no person shall sell or deliver dry edible beans at prices higher than the maximum prices established by this regulation, and no person shall buy or receive dry edible beans in the course of trade or business at prices higher than the maximum prices herein established. Lower prices than the maximum prices may be charged and paid.

(b) If any person sells or delivers seed beans, as defined in § 1351.1207 (c) of this regulation, for human consumption, his maximum price for such sales shall be the maximum price set forth in § 1351.1203 of this regulation.

2. Section 1207 (c) is amended to read as follows:

(c) *Sales and deliveries of seed beans.* When used in this section "seed beans" means dry beans which are sold and delivered for planting and which comply with the Federal Seed Act or State seed acts, especially with respect to labeling as to kind and variety, germination, date of germination, and if below Federal standard as set forth in the Federal Seed Act of 1939 plainly marked "below standard".

3. Section 1351.1210 (c) is amended to read as follows:

(c) Each seller of dry beans shall, in addition to the other records which he is required to keep by this regulation, keep for examination by the Office of Price Administration as long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of all sales of seed beans, as defined in § 1351.1207 (c). Such record shall show the amount of seed beans sold, the sales price for each sale, the variety of beans sold, the date of sale and the name and address of the purchaser.

This amendment shall become effective March 11, 1943.

6. Section 1394.5252 (a) is amended to read as follows:

(a) Application for a ration for heat or hot water, or both, may be made to a Board, on or after October 22, 1942; in "Area A", on or after February 8, 1943; or in "Area B", on or after March 17, 1943. Application may be made either by the owner of the premises served by the equipment or by the person controlling the use of the equipment, or by the agent of either of them.

7. In § 1394.5253 (a) the phrase "except that in 'Area A' " is amended to read "except that in 'Area A' or in 'Area B'."

8. Section 1394.5257 (c) is amended to read as follows:

(c) The amount of fuel oil used during the base period for heating the premises shall be multiplied by the percentage specified in column 1 of Table I for the thermal sub-zone in which the premises are located; except that in "Area A", such amount of fuel oil shall be multiplied by the percentage specified in column 1 of Table IA, and in "Area B" by the percentage specified in column 1 of Table IB, for the county in which the premises are located. The product shall for the purposes of paragraph (a) of § 1394.5256, be deemed to be the amount of fuel oil consumed during the base period as adjusted for temperature variations from the norm.

9. Section 1394.5258 (a) (1) is amended to read as follows:

(1) The maximum and minimum number of gallons per square foot of floor area as shown in subcolumn (a) of column (2) of Table I for the thermal sub-zone in which the premises are located (in "Area A" the appropriate subcolumn of column (2) of Table IA, and in "Area B" the appropriate subcolumn of column (2) of Table IB, for the county in which the premises are located), if the application is made for the operation of central heating equipment; or

10. Section 1394.5258 (a) (2) is amended to read as follows:

(2) The maximum and minimum number of gallons per square foot of floor area, as shown in subcolumn (b) of column (2) of Table I for the thermal sub-zone in which the premises are located (in "Area A" the appropriate subcolumn of column (2) of Table IA, and in "Area B" the appropriate subcolumn of column (2) of Table IB, for the county in which the premises are located) if the application is made for a ration for the operation of space heaters, except that if application is made both for space and central heating equipment used for heating the same premises at different times, the maximum and minimum for both types of equipment shall be determined pursuant to the subcolumn entitled 'Central Heating Equipment".

11. Section 1394.5262 (c) is amended to read as follows:

(c) The amount of fuel oil used during the base period for heat, or for both heat and hot water (as determined in accordance with paragraph (a) or (b) of this section) shall be multiplied by the percentage specified in column 1 of Table I for the thermal sub-zone in which the premises are located (in "Area A" column 1 of Table IA, and in "Area B" column 1 of Table IB, for the county in which the premises are located). The product shall, for the purposes of paragraphs (a) and (b) of § 1394.5261, be deemed to be the amount of fuel oil consumed during the base period, adjusted for temperature variations from the norm.

12. Section 1394.5263 (c) is amended to read as follows:

(c) In "Area A", a percentage of the year's ration will be issued as follows: 42% in Zone A, 45% in Zone B, and 43% in Zone C; in "Area B", 20% of the year's ration will be issued.

13. The text of § 1394.5266 (a) is amended to read as follows:

(a) If an application is made on or after November 1, 1942, or on or after March 16, 1943 in "Area A", or on or after April 13, 1943 in "Area B", for heat or both heat and hot water, the allowable ration shall be determined in accordance with § 1394.5256, 1394.5261, or 1394.5270, whichever is applicable. One-fifth of the allowable ration shall be deemed allocable to each thermal period specified in paragraph (c) of this section. The Board shall deduct from the allowable ration:

14. Section 1394.5266 (a) (2) is amended by inserting after the phrase "Area A" the phrase "or in 'Area B'."

15. Section 1394.5266 (c) (8) is added to read as follows:

(8) In Thermal Zone A in "Area B":

Thermal Period No. 5	From March 14, 1943, to September 30, 1943 inclusive.

16. Section 1394.5267 is amended to read as follows:

§ 1394.5267 *Same: Late applications for hot water only.* If application for a ration for hot water (but not for heat) in premises other than private dwellings is made on or after November 1, 1942, or on or after March 16, 1943 in "Area A", or on or after April 13, 1943 in "Area B", the allowable ration shall be determined in the manner provided in paragraph (b) of § 1394.5261. The Board shall deduct from the allowable ration the part thereof corresponding to the part of the heating year which has elapsed between October 1 and date of application, in "Area A" the part which has elapsed between February 1, 1943 and the date of application, and in "Area B" the part which has elapsed between March 14, 1943 and the date of application. The Board shall issue Class 3 coupon sheets containing coupons equal in gallonage value to the allowable ration (after the deduction hereinabove required) less the amount of fuel oil on hand for the operation of such equipment on the date of application.

17. Section 1394.5268 (b) is amended to read as follows:

(b) The allowable ration for the operation of such equipment shall, in such case, be the amount of fuel oil needed for such purpose for the three (3) month period beginning with the date on which the ration is required, or, in the case of an application made prior to November 1, 1942, for the three (3) month period beginning October 1, 1942; or in "Area A", in the case of an application made prior to March 16, 1943, for the three (3) month period beginning February 1, 1943; or in "Area B", in the case of an application made prior to April 13, 1943, for the three (3) month period beginning March 14, 1943.

18. Section 1394.5269 (b) is amended to read as follows:

(b) Application for a ration for such purpose shall be made to a Board, on or after October 22, 1942, or in "Area A", on and after February 8, 1943, or in "Area B", on or after March 17, 1943, on Form OPA R-1102, by the owner or by the person controlling the use of the equipment, or by the agent of either of them. The applicant shall supply the information required by the form.

19. Section 1394.5269 (e) is amended to read as follows: (c) If application is made on or after November 1, 1942, for a ration for heat or both heat and hot water, the Board shall make the deductions from the allowable ration required by paragraph (a) of § 1394.5266 and shall issue coupons in accordance with the provisions of paragraph (b) of that Section. If such application is made on or after March 16, 1943, in "Area A", or on or after April 13, 1943, in "Area B", the Board shall refer to Table IIA for the allowable ration for such applicants.

20. Section 1394.5269 (f) is amended to read as follows:

(f) If application is made on or after November 1, 1942, or in "Area A", on or after March 16, 1943, or in "Area B", on or after April 13, 1943, for a ration for hot water only, the Board shall make the deductions from the allowable ration required by, and shall issue coupons in accordance with, the provisions of § 1394.5267.

21. Section 1394.5302 (a) is amended by inserting after the phrase "on or after March 2, 1943" the phrase "or in 'Area B' on or after April 13, 1943."

22. Section 1394.5352 (a) is amended by inserting after the phrase "February 8, 1943" the phrase "or in 'Area B', on or after March 17, 1943."

23. Section 1394.5401 (b) is amended by inserting after the phrase "February 8, 1943", the phrase "and in 'Area B' on or after March 17, 1943;".

24. Section 1394.5402 (b) is amended by inserting after the phrase "February 8, 1943" the phrase "and in 'Area B' on or after March 17, 1943".

TITLE 7—AGRICULTURE

Chapter IX—Food Distribution Administration

PART 904—MILK IN THE GREATER BOSTON, MASSACHUSETTS, MARKETING AREA

ORDER REGULATING HANDLING OF MILK

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

AUTHORITY: §§ 904.1 to 904.14, inclusive, issued under 48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U.S.C. 1940 ed. 601 et seq.

§ 904.1 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR. 900.1-900.17; 6 F.R. 6570, 7 F.R. 3350), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) Prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of said act, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in this amended order, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(2) This amended order regulates the handling of milk in the same manner as and is applicable only to handlers, defined in a marketing agreement, as amended, upon which a hearing has been held; and

(3) The issuance of this amended order, and all of the terms and conditions thereof tend to effectuate the declared policy of the act.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order, and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this amended order) of at least 50 percent of the volume of milk covered by said amended order, which is marketed within the Greater Boston, Massachusetts, marketing area, refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this amended order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the Greater Boston, Massachusetts, marketing area; and

(3) The issuance of this amended order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of this order and who, during the determined representative period, were engaged in the production of milk for sale in said Greater Boston, Massachusetts, marketing area.

§ 904.2 *Order relating to handling.* It is, therefore, ordered that, from and after the effective date hereof, the handling of milk in the Greater Boston, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of this amended order.

PROVISIONS

§ 904.3 *Definitions*—(a) *Terms.* As used herein the following terms shall have the following meanings:

(1) The term "act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(2) The term "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

(3) The term "Greater Boston, Massachusetts, marketing area," hereinafter called the "marketing area," means the territory included within the boundary lines of the cities and towns of Arlington, Belmont, Beverly, Boston, Braintree, Brookline, Cambridge, Chelsea, Dedham, Everett, Lexington, Lynn, Malden, Marblehead Medford, Melrose, Milton, Nahant, Needham, Newton, Peabody, Quincy, Reading, Revere, Salem, Saugus, Somerville, Stoneham, Swampscott, Wakefield, Waltham, Watertown, Wellesley, Weymouth, Winchester, Winthrop, and Woburn, Massachusetts.

(4) The term "person" means any individual, partnership, corporation, association, or any other business unit.

(5) The term "producer" means any person who, in conformity with the health regulations which are applicable to milk which is sold for consumption as milk in the marketing area, produces milk and distributes or delivers to a handler milk of his own production.

(6) The term "handler" means any person, irrespective of whether such person is a producer or an association of producers, wherever located or operating, who engages in such handling of

[1] 8 F.R. 1470, 2783.

milk which is sold as milk or cream in the marketing area as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in milk and its products.

(7) The term "producer-handler" means any handler who is also a producer and who receives no milk from other producers and who either:

(i) Has milk receipts from his own production which he does not dispose of in bulk and which average less than 1,000 pounds daily, or

(ii) Processes and packages his milk at a plant located on a farm from which he receives at least 25 percent of the total receipts from his own production which he does not dispose of in bulk.

(8) The term "market administrator" means the person designated pursuant to § 904.4 as the agency for the administration hereof.

(9) The term "delivery period" means the current marketing period from the effective date hereof to and including the last day of that month. Subsequent to that month "delivery period" means the current marketing period from the first to and including the last day of each month.

§ 904.4 *Market administrator*—(a) *Selection, removal, and bond.* The market administrator shall be selected by the Secretary and shall be subject to removal by him at any time. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) *Compensation.* The market administrator shall be entitled to such reasonable compensation as may be determined by the Secretary.

(c) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof;

(2) To receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof; and

(3) To prepare and disseminate for benefit of producers, consumers, and handlers such statistics and information concerning the operation of this order as do not reveal confidential information.

(d) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records to examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 15 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to § 904.7 or (ii) made payments pursuant to § 904.10;

(6) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof; and

(7) Pay, out of the funds provided by § 904.12, (i) the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, (ii) his own compensation, and (iii) all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties.

(e) *Responsibility.* The market administrator, in his capacity as such, shall not be held responsible in any way whatsoever to any handler, or to any other person, for errors in judgment, for mistakes, or for other acts either of commission or omission, except for his own willful misfeasance, malfeasance, or dishonesty.

§ 904.5 *Classification of milk*—(a) *Basis of classification.* All milk received by a handler from producers or from his own production shall be classified in the classes set forth in (b) of this section in accordance with its utilization by him: *Provided*, That, subject to (c) of this section, if milk, including skim milk, is moved to the plant of another person who distributes milk or manufactures milk products, classification of such milk may be in accordance with its utilization by such second person. Any utilization of milk claimed by a handler shall be subject to verification by the market administrator.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk the utilization of which is not established as Class II milk.

(2) Class II milk shall be all milk the utilization of which is established:

(i) As being sold, distributed, or disposed of other than as or in milk which contains one-half of 1 percent or more but less than 16 percent of butterfat; and other than as or in chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption; and

(ii) As plant shrinkage not in excess of 2 percent of the volume handled.

(c) *Disposition of milk to other markets.* (1) Milk received by a handler at one of his plants not subject to the provisions hereof from persons reported by him as under contract to have their milk received and paid for as part of his supply for the marketing area shall be considered as received from producers and classified as Class I milk.

(2) Milk or skim milk disposed of by a handler to any plant not subject to the provisions hereof shall be classified as Class I milk, not to exceed the total quantity of Class I milk or skim milk at such plant.

(d) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

§ 904.6 *Minimum class prices*—(a) *Class I prices.* Each handler shall pay producers, in the manner set forth in § 904.10, for Class I milk delivered by them, not less than the following prices:

(1) For milk delivered from producers' farms to such handler's plant located not more than 40 miles from the State House in Boston, the price per hundredweight during each delivery period shall be as set forth in the table in this subparagraph.

92-score butter, wholesale, at New York, average of quotations of the U. S. Department of Agriculture for 30 days immediately preceding the 25th day of each month (cents per pound).	Class I price for the delivery period following the 25th day of each month
	Dollars per hundredweight
Under 40	3.64
40 or over, but under 45	3.87
45 or over	4.10

(2) For milk delivered from producers' farms to such handler's plant located more than 40 miles from the State House in Boston, the price per hundredweight during each delivery period shall be the price effective pursuant to (1) of this paragraph minus the amount set forth in (c) of this section for the railroad freight mileage zone for the distance from the railroad shipping point for such handler's plant to such handler's railroad delivery point in the marketing area, or, if the handler has no plant in the marketing area, for the distance to Boston.

(3) For the purpose of this paragraph, the milk which was sold or distributed during each delivery period by each handler as Class I milk shall be considered to have been first, that milk which was received from producers' farms at such handler's plant located not more than 40 miles from the State House in Boston; then, that milk which was received pursuant to § 904.8 (b) at such handler's plant located not more than 40 miles from the State House in Boston; and then, that milk which was shipped from the nearest plant located more than 40 miles from the State House in Boston, including milk received at such plant pursuant to § 904.8 (b).

(b) *Class II prices.* Each handler shall pay producers, in the manner set forth in § 904.10, for Class II milk delivered by them not less than the following prices per hundredweight:

(1) In the case of milk delivered to a handler's plant located not more than 40 miles from the State House in Boston, the price calculated pursuant to (2) of this paragraph for the 201–250 freight mileage zone plus 29 cents.

(2) Except as provided in (3) of this paragraph, in the case of milk delivered to a handler's plant located more than 40 miles from the State House in Boston, a price which the market administrator shall calculate by combining in one sum such of the following computations as apply:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, as reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply this result by 3.7; and subtract the amount set forth in (c) of this section for the railroad freight mileage zone of the distance from the railroad shipping point for such handler's plant to Boston.

(ii) For any delivery period for which no cream price as described in (i) of this subparagraph is reported, multiply the average price reported for such delivery period by the United States Department of Agriculture for 92-score butter at wholesale in the Chicago market by 1.4; multiply this result by 3.7; and subtract the amount set forth in (c) of this section for the railroad freight mileage zone of the distance from the railroad shipping point for such handler's plant to Boston.

(iii) For all delivery periods, except April, May, and June, compute any plus amount for skim value which results from the following: from the average of all the dry skim milk powder quotations for carlots for "human food products (roller process) in barrels" and for "animal feed products (hot roller) in bags" (using midpoint of any range as one quotation) published during such delivery period by the United States Department of Agriculture for New York City, subtract 4 cents; and multiply this result by 7.5.

(iv) For the April, May, and June delivery periods, compute any plus amount for skim value which results from the average of the skim value computed pursuant to (iii) of this subparagraph and a value obtained as follows: compute the average of all quotations (using midpoint of any range as one quotation) published during the delivery period in the *Oil, Paint, and Drug Reporter*, for domestic 20–30 mesh casein in bags in carlots at New York, subtract 6.6 cents and multiply this result by 2.2; except that if either computation results in a minus amount, the other shall be used in lieu of the average.

(3) In the case of milk, other than route returns, made into butter during the delivery periods from April to September inclusive of each year, at a handler's own plant located more than 40 miles from the State House in Boston, the minimum price shall be computed by the market administrator as follows: from the average price reported for such delivery period by the United States Department of Agriculture for 92-score butter at wholesale in the New York market deduct 5 cents, add 20 percent, and multiply by 3.7: *Provided*, That any plus amount shall be added which results from the skim value as computed in (2) of this paragraph.

(c) *Combined plant handling and transportation differentials.* Differentials provided pursuant to (a) and (b) of this section and pursuant to § 904.10 (c) shall be as set forth in the following table: *Provided*, That in case the rail tariff for the transportation of milk in carlots in tank cars, as published in the New England joint tariff, M–3, is increased or decreased, the differentials set forth in column B shall be adjusted correspondingly to the nearest one-half cent per hundredweight of such change, effective the first complete delivery period in which such change applies.

(d) *Announcement of Class II prices.* On or before the 5th day after the end of each delivery period, the market administrator shall publicly announce the Class II prices in effect for such delivery period.

§ 904.7 *Reports of handlers*—(a) *Periodic reports.* On or before the 8th day after the end of each delivery period each handler who receives milk from producers shall, with respect to milk or cream which was received by such handler during such delivery period, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts at each plant from producers, including the quantity, if any, received from his own production.

(2) The receipts at each plant from any other handler, including any handler who is also a producer.

(3) Receipts at each plant pursuant to § 904.8 (b).

(4) The respective quantities which were sold, distributed, or used, including sales to other handlers, classified pursuant to § 904.5.

(b) *Reports of handlers who receive no milk from producers.* Handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(c) *Reports as to producers.* Each handler shall report to the market administrator:

(1) Within 10 days after the market administrator's request, with respect to any producer for whom such information is not in the market administrator's files, and with respect to a period or periods of time designated by the market administrator: (i) the name, post office address, and farm location, (ii) the total pounds of milk delivered, (iii) the average butterfat test of milk delivered, and (iv) the number of days upon which the deliveries were made;

(2) Within 10 days after any producer begins or resumes milk deliveries: (i) the name, post office address, and farm location of such producer, (ii) the date upon which such producer began or resumed milk deliveries, (iii) the plant at which such producer delivered milk, and (iv) the plant, if known, at which such producer delivered milk immediately prior to the beginning of delivery to such handler;

(3) Within 5 days after any producer has failed to make deliveries for 5 consecutive days: (i) the name, post office address, and farm location of such producer, (ii) the date upon which milk was last received, (iii) the plant at which such producer delivered milk, and (iv) the reason, if known, for such failure to deliver;

(4) Within 10 days after any producer moves from one farm to another: (i) the name, post office address, and location of the respective farms operated by such producer, and (ii) the date upon which milk was first received from the new location; and

(5) On or before the 8th day after the end of each delivery period each handler shall report the names of any persons whose milk he is reporting pursuant to §§ 904.5 (c) and 904.8 (b) and include a certification that these persons have contracts as specified therein.

(d) *Reports of payments to producers.* Each handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the delivery period, his producer pay roll for such delivery period, which shall show for each producer: (i) the daily and total pounds of milk delivered with the average butterfat test thereof and (ii) the net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(e) *Outside cream purchases.* Each handler shall report, as requested by the market administrator, his purchases, if any, of bottling quality cream from handlers who receive no milk from producers, showing the quantity and the source of each such purchase and the cost thereof at Boston.

(f) *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required hereunder or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(1) Verify the information contained in reports submitted in accordance with this section;

(2) Weigh, sample, and test milk and milk products; and

(3) Make such examination of operations, equipment, and facilities as the market administrator deems necessary.

§ 904.8 *Application of provisions*—(a) *Handlers who receive no milk from producers.* The provisions hereof, except

as set forth in § 904.7, shall not apply to a producer-handler nor to a handler whose sole source of milk supply consists of receipts from other handlers.

(b) *Producers for other markets.* Milk received from producers, who are reported by a handler as under contract to have their milk received and paid for as part of that handler's supply for a market other than the marketing area, shall be reported under a separate category, and the provisions of § 904.10 and § 904.11 shall not apply except that such handler shall make payment as provided in § 904.10 (h) and (i).

(c) *Milk received from producer-handlers.* Milk of a producer-handler's own production which is delivered in bulk to another handler shall be considered as being delivered by a producer unless the receiving handler is also a producer-handler.

(d) *Handlers with less than 10 percent of the total receipts as Class I in the marketing area.* In the case of a handler, other than a cooperative association qualified pursuant to § 904.11 (a), who sells or distributes as Class I milk in the marketing area less than 10 percent of his total receipts of milk, the provisions hereof shall not apply except as follows:

(1) The handler shall, with respect to his total receipts and utilization of milk, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(2) The handler shall, with respect to that quantity of milk received from producers and actually sold or distributed as Class I milk in the marketing area, make payments as provided for in § 904.10 (g) and (i), and § 904.12.

(e) *Milk subject to the New York order.* The provisions hereof shall not apply to the handling of milk received at any handler's plant which is subject to the provisions of the order regulating the handling of milk in the New York metropolitan marketing area (Order No. 27), issued by the Secretary effective as of September 1, 1938, as amended, or of any order superseding or amending such order.

§ 904.9 *Minimum blended prices to producers*—(a) *Computation of value of milk for each handler.* For each delivery period the market administrator shall compute, subject to the provisions of § 904.8, the value of milk sold, distributed, or used by each handler, exclusive of milk received from other handlers, or pursuant to § 904.8 (b), in the following manner:

(1) Multiply the quantity of milk in each class by the price applicable pursuant to (a) and (b) of § 904.6; and

(2) Add together the resulting value of each class.

(b) *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each delivery period in the following manner:

(1) Combine into one total the respective values of milk, computed pursuant to paragraph (a) of this section, for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such delivery period, the report for such delivery period and the payments required pursuant to (b) (2), (g), and (h) of § 904.10 for milk received during each delivery period since the effective date of the most recent amendment hereof;

(2) Add the total amount of payments required from handlers pursuant to (g) and (h) of § 904.10;

(3) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the delivery period from payments made to the market administrator by handlers pursuant to § 904.10;

(4) Add the total net amount of the differentials applicable pursuant to § 904.10 (e).

(5) Divide by the total quantity of milk which is included in these computations, except the quantity of milk included in the computation pursuant to § 904.10 (g) and the quantity of milk received pursuant to § 904.8 (b); and

(6) Subtract not less than 5½ cents nor more than 6½ cents for the purpose of retaining a cash balance in connection with the payments and reserves set forth in § 904.10 and § 904.11. This result shall be known as the basic blended price for milk containing 3.7 percent butterfat.

(c) *Announcement of prices.* On the 12th day after the end of each delivery period the market administrator shall mail to all handlers who received milk from producers and shall publicly announce:

(1) Such of these computations as do not disclose information confidential pursuant to the act;

(2) The zone blended price per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to (e) of § 904.10; and

(3) The names of the handlers who received milk from producers, designating those whose milk is not included in the computations.

§ 904.10 *Payments for milk*—(a) *Advance payments.* On or before the 10th day after the end of each delivery period, each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. In no event shall such advance payment be at a rate less than the Class II price for such delivery period.

(b) *Final payments.* On or before the 25th day after the end of each delivery period, each handler shall make payment for the total value of milk received during such delivery period as required to be computed pursuant to § 904.9 (a), as follows:

(1) To each producer at not less than the basic blended price per hundredweight, subject to the differentials set forth in (d) and (e) of this section, for the quantity of milk delivered by such producer; and

(2) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each delivery period, or receiving from the market administrator, on or before the 25th day after the end of each delivery period, as the case may be, the amount by which the payments required to be made pursuant to (1) of this paragraph are less than or exceed the value of milk as required to be computed for such handler pursuant to § 904.9 (a), as shown in a statement rendered by the market administrator on or before the 20th day after the end of such delivery period.

(c) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to (b) (2) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of a less amount than is required by this section, the handler shall make up such payment to the producer not later than the time of making final payment for the period in which such error is disclosed.

(d) *Butterfat differential.* Each handler shall, in making the payments to each producer for milk receive from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent an amount per hundredweight which shall be calculated by the market administrator as follows: divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, subtract 1.5 cents and divide the result by 10: *Provided*, That if no such cream price is reported, multiply the average price reported for such period by the United States Department of Agriculture for 92-score butter at wholesale in the Chicago market by 1.4 subtract 1.5 cents, and divide the result by 10.

(e) *Location differentials.* The payments to be made to producers by handlers pursuant to (b) (1) of this section shall be subject to differentials as follows:

(1) With respect to milk delivered by a producer to a handler's plant located more than 40 miles from the State House in Boston, there shall be deducted, per hundredweight, 13 cents less than the amount set forth in column B of the table in (c) of § 904.6 for the railroad freight mileage zone for the distance from the railroad shipping point from such handler's plant to Boston.

(2) With respect to milk delivered by a producer to a handler's plant located not more than 40 miles from the State House in Boston there shall be added 13 cents per hundredweight.

(3) With respect to milk delivered by a producer whose farm is located more than 40 miles but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the highest Class I price in effect pursuant to (1) of § 904.6 (a), in which event there shall be added an amount which will give as a result such price.

(4) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the State House in Boston or whose farm is located in Barnstable or Plymouth Counties, Massachusetts, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the highest Class I price in effect pursuant to (1) of § 904.6 (a), in which event there shall be added an amount which will give as a result such price.

(f) *Other differentials.* In making the payments to producers set forth in (b) (1) of this section, handlers may make deductions as follows:

(1) With respect to milk delivered by producers to a plant which is located outside the marketing area and more than 14 miles but not more than 40 miles from the State House in Boston, 10 cents per hundredweight.

(2) With respect to milk delivered by producers to a plant located more than 40 miles from the State House in Boston, at which plant the average daily receipts of milk from producers are: (i) less than 17,000 but greater than 8,500 pounds, 4 cents per hundredweight and (ii) 8,500 pounds or less, 8 cents per hundredweight.

(g) *Payments by handlers with less than 10 percent of total receipts as Class I in the marketing area.* Handlers subject to § 904.8 (d) shall pay to producers through the market administrator, on or before the 23d day after the end of the delivery period, the value determined by multiplying the quantity of Class I milk disposed of in the marketing area by the difference between the prices applicable pursuant to § 904.6 (a) and the prices applicable pursuant to (1) and (2) of § 904.6 (b).

(h) *Payments for milk received from producers for other markets.* On or before the 23d day after the end of each delivery period, handlers who received milk pursuant to § 904.8 (b) shall pay to producers through the market administrator the value determined by multiplying the quantities of such milk in each class by the prices applicable pursuant to § 904.6 and subtracting the value of such milk at the Class II prices in effect for the plants at which such milk is received.

(i) *Adjustment of overdue accounts.* Any balance due pursuant to this section to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 11th day of such month.

(j) *Statements to producers.* In making the payments to producers prescribed by (b) (1) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of (b), (d), and (e) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under (f) of this section and § 904.11 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

§ 904.11 *Payments to cooperative associations*—(a) *Eligibility of cooperative associations.* Upon application to the Secretary, any cooperative association duly organized under the laws of any State which he determines, after appropriate inquiry or investigation, to be conforming to the provisions of such laws and of the Capper-Volstead Act, as amended, as to character of organization, voting requirements, dividend payments, dealing in products of nonmembers; to be operating as a responsible producer-controlled marketing association exercising full authority in the sale of the milk of its members; to be systematically checking the weights and tests of milk delivered by its members to plants other than those which may be operated by itself; to guarantee payments to its producers; to be maintaining, either individually or in collaboration with other qualified cooperative associations, a competent staff for dealing with marketing problems and providing information to its members with whom close working relationships are constantly maintained; to be collaborating with other similar associations in activities incident to the maintenance and strengthening of collective bargaining by producers and the operation of a plan of uniform pricing of milk to handlers; and to be complying with all provisions of this order applicable to such cooperative association, shall be entitled to receive payments in the amount and under the conditions herein specified from the date of qualification, as fixed by the Secretary, until it has been found by the Secretary, after notice and opportunity for a hearing, that it has failed to continue to meet any condition or to maintain and exercise the authority or to perform any of the functions required by this section for the receipt of use or such payments. Any such cooperative association shall be eligible for payment, as follows:

(1) At not more than the rate of 1.5 cents per hundredweight of milk marketed by it on behalf of its members in conformity with the provision hereof, the value of which is determined pursuant to § 904.9 (a), and with respect to which a handler has made payments as required by § 904.10 (b) (2) and § 904.12: *Provided*, That the amount paid with respect to milk received at a plant not operated by the cooperative association shall not exceed the amount which handlers are obligated to deduct from payments to members pursuant to (f) of this section. Such monies paid to such a cooperative association are not to be used in paying patronage dividends or other payments to members with respect to milk delivered except in fulfilling the guarantee of payments to producers. In cases where two or more of such cooperative associations participate in the marketing of the same milk, payment under this paragraph shall be available only to the association which the individual producer has made his exclusive agent in the marketing of such milk.

(2) At the rate of 5 cents per hundredweight as provided in (b) of this section on milk received from producers at a plant operated under the exclusive control of member producers or member associations for which it accounts to the market administrator pursuant to § 904.10 (b) (2) and which is sold as Class I to proprietary handlers, except stores, handlers in which the cooperative or any of its members or affiliated associations or any other qualified association has any ownership or control, or a handler with which the cooperative has such sales arrangements that its milk not sold as Class I milk to such handler is not available for sale as Class I milk to other handlers.

(b) *Computation of amount of payment at 5 cents per hundredweight.* The amount due a cooperative association for each delivery period pursuant to (a) (2) of this section shall be computed by the market administrator as follows:

(1) Determine the quantity of Class I milk which is sold to proprietary handlers;

(2) Subtract the quantity of such milk which is not eligible for payment under the provisions of (a) (2) of this section;

(3) Subtract the qantity of milk received by the association other than milk received from producers at plants operated under the exclusive control of member producers or member associations; and

(4) Multiply by 5 cents per hundredweight.

(c) *Payment to qualified cooperative associations.* The market administrator shall, upon notice of the filing of an application, set aside each pay period from the cash balance created pursuant to § 904.9 (b) (6) such sum as he estimates is ample to make payments to the applicant and hold it in reserve until the Secretary has ruled upon said application and shall, upon claim, in form as prescribed by him, received at his office not later than the 10th day of the second month subsequent to the delivery period to which the claim applies or in which the Secretary's ruling is made, make payment for which a cooperative

association is eligible pursuant to (a) of this section or issue credit therefor out of the said cash balance subject to verification of the receipts and other items on which the amount of such payment is based.

(d) *Reports.* Each cooperative association qualified to receive payments pursuant to this section shall, from time to time, as requested by the market administrator, make reports to him with respect to the use of such payments and the performance of any service or function set forth as the basis for such payment and shall file with him a copy of its balance sheet and operating statement at the close of each fiscal year.

(e) *Suspension.* The market administrator shall suspend payments upon request by the Secretary or such officer of the Department of Agriculture as he may designate by giving written notice to such association whenever there is reason to believe that a beneficiary of such payments is no longer qualified. Such suspended payments shall be segregated and held in reserve until the Secretary has, after notice and opportunity for a hearing, ruled upon the performance of the cooperative and either ordered the suspended payment to be paid to it in whole or in part or has disqualified such cooperative, in which event the balance of payments held in reserve shall be added to the cash balance, created pursuant to § 904.9 (b) (6).

(f) *Authorized member deductions.* In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members and which is qualified to receive payments pursuant to this section, each handler shall make such deductions from the payments to be made to such producers pursuant to § 904.10 as may be authorized by such producers and, on or before the 25th day after the end of each delivery period, pay over such deductions to the association in whose favor such authorizations were made.

§ 904.12 *Expense of administration.*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler, except as set forth in § 904.8 (a), shall, on or before the 23d day after the end of each delivery period, pay to the market administrator a sum not exceeding 2.5 cents per hundredweight with respect to all milk received by him during such delivery period from producers and from his own production, the exact sum to be determined by the market administrator subject to review by the Secretary.

(b) *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's prorata share of expense set forth in this section.

§ 904.13 *Effective time, suspension, or termination.*—(a) *Effective time.* The provisions hereof or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary, (ii) from time to time account for all receipts and disbursements, and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct, and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 904.14 *Agents.* (a) The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 11th day of March 1943, to be effective on and after the 15th day of March 1943. Witness my hand and the official seal of the Department of Agriculture.

PART 934—MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

ORDER OF REGULATING HANDLING OF MILK

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

AUTHORITY: §§ 934.1 to 934.14 inclusive, issued under 48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U.S.C. 1940 ed. 601 et seq.

§ 934.1 *Findings and determinations—(a) Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR. 900.1–900.17; 6 F.R. 6570, 7 F.R. 3350), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to secs. 2 and 8 (e) of said act, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in this amended order, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(2) The amended order regulates the handling of milk in the same manner as, and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(3) That the issuance of this amended order and all of the terms and conditions of this amended order tend to effectuate the declared policy of the act.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order, and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this amended order) of at least 50 percent of the volume of milk covered by said amended order which is marketed within the Lowell-Lawrence, Mass., marketing area, refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this amended order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the Lowell-Lawrence, Massachusetts, marketing area; and

(3) The issuance of this amended order is approved or favored by at least three-fourths of the producers who participated in a referendum on the question of the approval of this order and who, during the determined representative period, were engaged in the production of milk for sale in said Lowell-Lawrence, Massachusetts, marketing area.

§ 934.2 *Order relating to handling.* It is, therefore, ordered that, from and after the effective date hereof, the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of this amended order.

PROVISIONS [1]

§ 934.3 *Definitions.*—(a) *Terms.* As used herein the following terms shall have the following meanings:

(1) The term "act" means Public, No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(2) The term "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the power and perform the duties of the Secretary of Agriculture of the United States.

(3) The term "Lowell-Lawrence, Massachusetts, marketing area," hereinafter called the "marketing area," means the territory included within the boundary lines of the cities and towns of Andover, Billerica, Boxford, Chelmsford, Dracut, Dunstable, Lawrence, Lowell, Methuen, North Andover, Tewksbury, Tyngsboro, and Westford, Massachusetts.

(4) The term "person" means any individual, partnership, corporation, association, or any other business unit.

(5) The term "producer" means any person who produces milk which is delivered to a receiving plant from which milk is shipped to, or sold in, the marketing area during any delivery period.

(6) The term "association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(7) The term "handler" means any person who, on his own behalf or as agent for producers, produces milk, or purchases or receives milk from producers, associations of producers, or other handlers, and engages in the handling of such milk, which is sold, distributed, or disposed of as milk or cream within the marketing area, as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products.

(8) The term "producer-handler" means any handler who is also a producer and who receives no milk from other producers and who either (i) has milk receipts from his own production which he does not dispose of in bulk and which average less than 1000 pounds daily, or (ii) processes and packages his milk at a plant located on a farm from which he receives at least 25 percent of the total receipts from his own production which he does not dispose of in bulk.

(9) The term "market administrator" means the person designated pursuant to § 934.4 as the agency for the administration hereof.

(10) The term "delivery period" means the current marketing period from the effective date hereof to and including the last day of that month. Subsequent to that month "delivery period" means the current marketing period from the first to and including the last day of each month.

(11) The term "hundredweight" means one hundred pounds of milk or its volume equivalent, considering 85 pounds of milk and 86 pounds of skim milk per 40-quart can.

(12) The term "receiving plant" means any milk plant currently used for receiving, weighing (or measuring), sampling, and cooling milk received there directly from producers' farms, and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weigh sheets or other records of producers' deliveries.

§ 934.4 *Market administrator.*—(a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof;

(2) To receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof;

(3) To recommend to the Secretary of Agriculture amendments hereto; and

(4) To prepare and disseminate for the benefit of producers, consumers, and handlers such statistics and information concerning the operations hereunder as do not reveal confidential information.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(2) Pay, out of the funds provided by § 934.12, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(3) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same to his successor or to such other person as the Secretary may designate;

(4) Unless otherwise directed by the Secretary, publicly disclose, within 30 days after such nonperformance becomes known to the market administrator, the name of any person who, within 2 days after the date on which he is required to perform such acts, has not (i) made reports pursuant to § 934.7 or (ii) made payments pursuant to § 934.10; and may at any time thereafter so disclose any such name if authorized by the Secretary to do so; and

[1] Underscored words indicate changes from Order No. 34, as amended, effective August 1, 1941, and as further amended by Amendment No. 1, effective November 1, 1941, and Amendment No. 2, effective April 6, 1942.

(5) Promptly verify the information contained in the reports submitted by handlers.

§ 934.5 *Classification of milk*—(a) *Basis of classification.* Subject to verification by the market administrator, all milk received by a handler from producers or from his own production shall be classified in the classes set forth in (b) of this section in accordance with its utilization by him, except as follows:

(1) Subject to (c) of this section, milk or skim milk moved to another handler or to a plant subject to another order of the Secretary may be classified as reported by both the selling and the receiving handler, or by the seller alone if the receiver submits no report or if the two reports do not agree: *Provided*, That no greater quantity shall be classified as Class II milk than the total milk or skim milk utilized by such receiver as Class II milk, unless the receiver is a cooperative association as determined pursuant to § 934.11 (b), in which event the milk shall be classified in the same manner as though it were received by the association directly from producers.

(2) Milk or skim milk disposed of to persons not handlers who distribute milk or manufacture milk products, and exclusive of milk disposed of to a plant subject to another order of the Secretary, shall be Class I milk, not in excess of the total quantity of Class I milk, or skim milk, at such plant.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk, the utilization of which is not established as Class II milk.

(2) Class II milk shall be all milk, the utilization of which is established (i) as being sold, distributed, or disposed of other than as or in milk which contains one-half of 1 percent or more, but less than 16 percent of butterfat; and other than as or in chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption, and (ii) as plant shrinkage not in excess of 2 percent of the volume handled.

(c) *Milk delivered by producers to other markets.* Milk received by a handler at one of his plants not subject to the provisions hereof from persons reported by him as under contract to have their milk received and paid for as part of his supply for the marketing area shall be considered as received from producers and classified (i) as Class II milk if received at a plant of that handler, the handling of milk in which plant is subject to the order regulating the handling of milk for the Greater Boston marketing area, and (ii) as Class I milk if received at a plant of that handler the handling in which plant is not subject to the order regulating the Greater Boston marketing area.

(d) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received by a handler from producers the burden rests upon the handler who receives milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

§ 934.6 *Minimum class prices*—(a) *Class I price to associations of producers.* Each handler shall pay an association of producers, at the time set forth in § 934.10 (a) and subject to the butterfat differential calculated pursuant to § 934.10 (c), for Class I milk delivered in bulk from such association's receiving plant to such handler's plant located within 20 miles of the City Hall in Lowell or Lawrence, not less than the applicable price pursuant to (b) (1) of this section plus 13 cents.

(b) *Class I price to producers.* Each handler shall pay producers, at the time and in the manner set forth in § 934.10, for Class I milk delivered by them, not less than the following prices:

(1) For milk delivered from producers' farms to such handler's plant located within 20 miles from the city hall in Lowell or Lawrence, the price per hundredweight during each delivery period shall be as set forth in the table in this subparagraph.

92-score butter, wholesale, at New York, average of quotations of the U. S. Dept. of Agriculture for 30 days immediately preceding the 25th of each month (cents per pound)	Class I price for the delivery period following the 25th day of each month
	Dollars per cwt.
Under 40	3.64
40 and over, but under 45	3.87
45 or over	4.10

(2) For milk delivered from producers' farms to such handler's plant located beyond 20 miles, but within 40 miles, of the City Hall in Lowell or Lawrence, the price per hundredweight during each delivery period shall be the price effective pursuant to (1) of this paragraph, less 17 cents per hundredweight.

(3) For milk delivered from producers' farms to such handler's plant not located within 40 miles of the City Hall in Lowell or Lawrence the price per hundredweight during each delivery period shall be the price effective pursuant to (1) of this paragraph, less an amount per hundredweight equal to the sum of 13 cents and the average of the freight rates (considering 85 pounds to one 40-quart can), from the railroad shipping point for such handler's plant to Lowell and to Lawrence, calculated according to the lowest applicable rail tariffs for the transportation in carload lots of milk in 40-quart cans.

(4) For the purpose of this paragraph, the milk which was disposed of during each delivery period by each handler as Class I milk from a handler's receiving plant located within 20 miles of the City Hall in Lowell or Lawrence shall be considered to have been, first, that milk which was received directly from producers' farms at such plant, and then that milk which was shipped from the nearest receiving plant not located within 20 miles of the City Hall in Lowell or Lawrence.

(c) *Class II prices.* Each handler shall pay producers, at the time and in the manner set forth in § 934.10, for Class II milk delivered by them not less than the following prices per hundredweight:

(1) For such milk delivered to a handler's receiving plant located within 20 miles of the City Hall in Lowell or Lawrence, the price calculated pursuant to (2) of this paragraph for the 201–250 freight mileage zone plus 14 cents.

(2) For such milk delivered to a handler's receiving plant not located within 20 miles of the City Hall in Lowell or Lawrence, a price which the market administrator shall compute by combining in one sum such of the following computations as apply:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, as reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply this result by 3.7 and subtract the amount set forth in (d) of this section for the railroad freight mileage zone of the average distance from the railroad shipping point for such handler's plant to Lowell and to Lawrence;

(ii) For any delivery period for which no cream price as described in (i) of this subparagraph is reported, multiply the average price reported for such delivery period by the United States Department of Agriculture for 92-score butter at wholesale in the Chicago market by 1.4, multiply this result by 3.7, and subtract the amount set forth in (d) of this section for the railroad freight mileage zone of the average distance from the railroad shipping point for such handler's plant to Lowell and to Lawrence;

(iii) For all delivery periods except April, May, and June, compute any plus amount for skim value which results from the following: From the average of all the dry skim milk powder quotations for carlots for "human food products (roller process) in barrels" and for "animal feed products (hot roller) in bags" (using midpoint of any range as one quotation) published during such delivery period by the United States Department of Agriculture for New York City, subtract 4 cents, and multiply this result by 7.5; and

(iv) For the April, May, and June delivery periods, compute and plus amount for skim value which results from the average of the skim value computed pursuant to (iii) of this subparagraph and a value obtained as follows: compute the average of all quotations (using midpoint of any range as one quotation) published during the delivery period in the *Oil, Paint, and Drug Reporter*, for domestic 20–30 mesh casein in bags in carlots at New York, subtract 6.6 cents and multiply this result by 2.2; except that if either computation results in a minus amount, the other shall be used in lieu of the average.

(d) *Combined plant handling and transportation differentials.* Differentials provided pursuant to (c) of this section shall be as set forth in the following table:

Freight zones miles:	Class II (cents per cwt.)
21–100	23.0
101–150	26.5
151–200	27.5
201–250	28.0
251–300	28.5

§ 934.7 *Reports of handlers*—(a) *Periodic reports.* On or before the 8th day after the end of each delivery period, each handler who receives milk from producers shall, with respect to milk or cream which was received by such handler during such delivery period, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts at each plant from producers, including the quantity, if any, received from his own production;

(2) The receipts at each plant from any other handler, including any handler who is also a producer;

(3) Receipts at each plant pursuant to § 934.8 (c); and

(4) The respective quantities of milk which were sold, distributed, or used, including sales to other handlers, classified pursuant to § 934.5.

(b) *Reports of handlers who receive no milk from producers.* Handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(c) *Reports as to producers.* (1) Each handler shall submit to the market administrator within 10 days after his request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name, post office address, and farm location, (ii) the total pounds of milk delivered, (iii) the average butterfat test of milk delivered, and (iv) the number of days on which deliveries were made.

(2) Each handler shall submit to the market administrator, within 10 days after his request, made not earlier than 15 days after the end of the delivery period, his producer pay roll for such delivery period, which shall show for each producer (i) the daily and total pounds of milk delivered with the average butterfat test thereof and (ii) the net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(3) On or before the 18th day after each handler becomes subject to the provisions hereof, he shall report to the market administrator a schedule of the transportation rates which were charged and paid for the transportation of milk from the farm of each producer to such handler's receiving plant, and such information with respect to distances involved as the market administrator may require.

(4) On or before the 18th day after any changes are made in the schedule filed in accordance with (3) of this paragraph, a copy of the revised schedule with the effective dates of such changes as may appear in the revised schedule.

(5) On or before the 8th day after the end of each delivery period, each handler shall report the names of any persons whose milk such handler is reporting pursuant to § 934.5 (c) and § 934.8 (c) and include a certification that these persons have contracts as specified therein.

(d) *Announcement of transportation rates.* On or before the 30th day after the end of each delivery period, the market administrator shall mail to all handlers who receive milk from producers and shall publicly announce the rate or rates of such deductions made by each handler, as reported, pursuant to (3) and (4 of paragraph (c) of this section, and such information with respect to the distances involved and so reported as the market administrator may deem advisable.

(e) *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required hereunder or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(1) Examine those records which are necessary for the verification of the information contained in such reports;

(2) Weigh, sample, and test milk and milk products; and

(3) Make such examination of operations, equipment, and facilities as the market administrator deems necessary.

§ 934.8 *Application of provisions*—(a) *Handlers who receive no milk from producers.* The provisions hereof, except as set forth in § 934.7, shall not apply to a producer-handler nor to a handler whose sole source of milk supply consists of receipts from other handlers.

(b) *Milk received from producer-handlers.* Milk of a producer-handler's own production which is delivered in bulk to another handler shall be considered as being delivered by a producer unless the receiving handler is also a producer-handler.

(c) *Producers for other markets.* Milk received from producers, who are reported by a handler as under contract to have their milk received and paid for as part of that handler's supply for a market other than the marketing area, shall be reported under a separate category, and the provisions of § 934.10 and § 934.11 shall not apply.

(d) *Milk subject to the Greater Boston order.* The provisions hereof shall not apply, except as provided in § 934.5, to the handling of milk received at any handler's receiving plant which is subject to the provisions of the order of the Secretary regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, unless such handler, not including a cooperative association as qualified pursuant to § 904.11 (a) of such order, sells, distributes, or disposes of less than 10 percent of his total receipts of milk as Class I milk in the Greater Boston marketing area.

§ 934.9 *Minimum composite prices to producers.*—(a) *Computation of value of milk for each handler.* For each delivery period the market administrator shall compute, subject to the provisions of § 934.8, the value of milk disposed of by each handler, in the following manner:

(1) Subtract from the quantity of such handler's Class I milk the quantity of milk received pursuant to § 934.8(c) from producers who are reported as having contracts applying to the Greater Boston marketing area;

(2) Subtract from the quantity of such handler's Class I milk or of his Class II milk, according to the classification thereof as the same is reported and classified pursuant to § 934.5, the quantity of milk received by such handler from other handlers;

(3) Subtract from the quantity of such handler's Class II milk the quantity of milk received pursuant to § 934.8 (c) from producers who are reported as having contracts applying to markets other than the Greater Boston marketing area; and

(4) Multiply the remainder of the quantity of milk in each class by the price applicable pursuant to § 934.6 (b) and § 934.6 (c) and add together the resulting value of each class.

(b) *Computation of composite prices.* The market administrator shall compute for each handler the composite price per hundredweight of milk received from producers during each delivery period in the following manner:

(1) Add to the total value computed pursuant to (a) of this section the amount of the differential applicable pursuant to § 934.10 (d);

(2) Subtract any amounts required to be paid under the order regulating the handling of milk in the Greater Boston marketing area pursuant to § 934.8 (d); and

(3) Divide the value remaining after subtraction pursuant to (2) of this paragraph by the total quantity of milk included in the computation made pursuant to (a) (4) of this section. This result shall be known as the handler's composite price for milk containing 3.7 percent butterfat.

(c) *Announcement of composite prices.* The market administrator shall mail to all handlers who receive milk from producers and shall publicly announce prices resulting from the computations pursuant to (a) and (b) of this section, and other related information, as follows:

(1) On or before the 12th day after the end of the delivery period, he shall announce the composite price, the Class II price, and the butterfat differential.

(2) On or before the last day of the month after the end of the delivery period, he shall announce the total quantity and value of Class I milk and Class II milk included in such computations.

over and above the amounts necessary

(2) The prices calculated to give milk

Louisiana, marketing area shall be in

§ 934.10 *Payments to producers*—(a) *Time and method of payments.* On or before the 18th day after the end of each delivery period, each handler shall make payment, subject to the differentials set forth in this section, for the total value of milk received by him from producers during such delivery period, as computed in accordance with § 934.9 (a), as follows:

(1) To each producer, except as provided in (2) of this paragraph, at not less than the composite price per hundredweight computed for such handler pursuant to § 934.9 (b);

(2) To producers who are members of an association of producers, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers under (1) of this paragraph.

(b) *Correction of errors in payments.* Errors in making any of the payments required by this section shall be corrected not later than the date for making payments next following the determination of such errors. Any correction affecting all producers delivering to any handler during the period in which such error occurred shall be corrected as the market administrator shall determine to be equitable, either by (i) adjustment of the account of each individual producer who delivered during such period on the basis of a recomputation of the price of such handler or (ii) addition or subtraction of the amount of such correction to or from the value of all milk received by such handler in the delivery period during which such error was determined, computed as set forth in § 934.9 (a).

(c) *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day, inclusive, of the delivery period during which such milk is delivered, subtract 1.5 cents, and divide the result by 10: *Provided*, That if no such cream price is reported, multiply the average price reported for such period by the United States Department of Agriculture for 92-score butter at wholesale in the Chicago market by 1.4, subtract 1.5 cents, and divide the result by 10.

(d) *Country receiving plant and freight differential.* The payments to be made by handlers, pursuant to (a) of this section, for milk delivered by producers at a receiving plant located 20 miles from the City Hall in Lowell or Lawrence, shall be subject to a deduction of 13 cents plus the average of the lowest freight rates from the railroad shipping point for such handler's plant to Lowell and Lawrence, according to the tariff currently approved by the Interstate Commerce Commission for the transportation in carload lots of milk in 40-quart cans (considering 85 pounds of milk per 40-quart can).

(e) *Statement to producers.* In making the payments required by this section, each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of (a), (c), and (d) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under § 934.11, together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

§ 934.11 *Marketing services*—(a) *Marketing service deduction.* In making payments to producers pursuant to § 934.10, each handler shall, with respect to all milk delivered by each producer during each delivery period, except as set forth in paragraph (b) of this section, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 18th day after the end of such delivery period, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producer. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

(b) *Marketing service deductions with respect to members of a producers' cooperative association.* In the case of producers who are members of an association of producers which is actually performing the services set forth in (a) of this section, each handler shall, in lieu of the deductions specified in (a) of this section, make such deductions from payments made pursuant to § 934.10 as may be authorized by such producers and pay over, on or before the 18th day after the end of each delivery period, such deduction to such associations.

§ 934.12 *Expense of administration*—(a) *Payments by handlers.* As his prorata share of the expense of administration hereof, each handler, except as set forth in § 934.8(a), shall, on or before the 18th day after the end of each delivery period, pay to the market administrator 4 cents per hundredweight or such lesser amount as the market administrator shall determine to be sufficient, with respect to all milk received by him during such delivery period, from producers and from his own production, except that this assessment shall not be deemed to duplicate any amount paid to the market administrator under a separate agreement by the Massachusetts Milk Control Board for cost of administration.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's prorata share of expense set forth in this section.

§ 934.13 *Effective time, suspension, and termination of order*—(a) *Effective time.* The provisions hereof or any amendments hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Termination of order.* The Secretary may terminate this order whenever he finds that this order obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handlers, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

The market administrator, or such other person as the Secretary may designate, (i) shall continue in such capacity until discharged by the Secretary, (ii) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 934.14 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 11th day of March 1943, to be effective on and after the 15th day of March 1943. Witness my hand and the official seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

Approved: March 11, 1943.

PART 942—MILK IN THE NEW ORLEANS, LOUISIANA, MARKETING AREA

ORDER REGULATING HANDLING OF MILK

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

§ 942.0 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR. 900.1–900.17; 6 F.R. 6570, 7 F.R. 3350), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The aforesaid order, as amended and as hereby amended, and all of the terms and conditions of said order, as amended and as hereby amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the New Orleans, Louisiana, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to §§ 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, the available supplies of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in the aforesaid order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The aforesaid order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the aforesaid tentatively approved marketing agreement, as amended, upon which a hearing has been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order, and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by the aforesaid order, as amended and as hereby further amended) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the New Orleans, Louisiana, marketing area, refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, further amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the New Orleans, Louisiana, marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of this order and who, during the determined representative period, were engaged in the production of milk for sale in said New Orleans, Louisiana, marketing area.

It is, therefore, ordered, That, from and after the effective date hereof, the handling of milk in the New Orleans, Louisiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended in the following respects:

1. Delete § 942.1 (a) (1) and substitute therefor the following:

(1) The term "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

2. Delete from § 942.5 (a) (1) the following phrase "2.75 per hundredweight for the delivery periods of May, June, and July; $3.15 per hundredweight for the delivery periods from August 1942 through March 1943, inclusive; and $2.75 per hundredweight thereafter" and substitute therefor the following phrase "$3.67 per hundredweight through March 1944, and $2.74 per hundredweight thereafter."

3. Delete § 942.5 (a) (2) and substitute therefor the following:

(2) *Class II milk.* $3.00 per hundredweight through March 1944, and $2.07 per hundredweight thereafter.

4. Delete § 942.5 (a) (3) and substitute therefor the following:

(3) *Class III milk.* The price per hundredweight resulting from the following computation by the market administrator: add 9 cents to the average wholesale price per pound of 92-score butter at Chicago, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and multiply the resulting sum by 4.

5. Delete from § 942.8 (d) the following phrase "an amount equal to one-fortieth of the price for Class III milk computed pursuant to § 942.5 (a) (3)" and substitute therefor the following phrase "an amount computed as follows: add 20 percent to the price per pound of butter described in § 942.5 (a) (3), subtract 2 cents, and divide the net result by 10."

6. Add as § 942.12 the following:

§ 942.12 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States Government, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

PART 947—MILK IN THE FALL RIVER, MASSACHUSETTS, MARKETING AREA

ORDER REGULATING HANDLING OF MILK

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

§ 947.0 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR. 900.1–900.17; 6 F.R. 6570, 7 F.R. 3350), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8c (50 Stat. 246; 7 U.S.C. 1940 ed. 602, 608c), are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(2) The order, as amended by this amendment, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(3) The issuance of this amendment to the order, as amended, and all of the terms and conditions of the order, as so amended, tend to effectuate the declared policy of the act.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order, and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by the aforesaid order, as amended and as hereby further amended) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the Fall River, Massachusetts, marketing area, refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the Fall River, Massachusetts, marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of this order and who, during the determined representative period, were engaged in the production of milk for sale in said Fall River, Massachusetts, marketing area.

ORDER RELATING TO HANDLING

It is, therefore, ordered that, from and after the effective date hereof, the handling of milk in the Fall River, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended in the following respects:

1. Delete § 947.1 (a) (2) and substitute therefor the following:

(2) The term "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

2. Add a new subparagraph to § 947.2 (b) as follows:

(4) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation of this order as do not reveal confidential information.

3. Delete § 947.3 (a) (2) (ii) and substitute therefor the following:

(ii) All milk accounted for as actual plant shrinkage not in excess of 2 percent of milk received from producers including milk of the handler's own production.

4. From § 947.4 (a) delete the words "for delivery periods prior to April 1, 1943, and thereafter $3.42 per hundredweight," and delete the present table of prices and substitute therefor the following:

92-score butter, wholesale, at New York, average of quotations of the U. S. Department of Agriculture for 30 days immediately preceding the 25th day of each month (cents per pound)	Class I price for the delivery period beginning the 26th day of each month
	Dollars per hundredweight
Under 40	4.18
40 or over but under 45	4.11
45 or over	4.34

5. Delete the proviso in § 947.4 (b) and substitute therefor the following:

Provided, That for all delivery periods, except April, May, and June, any plus amount for skim value shall be added which results from the following computation: compute the average for all the dry skim milk powder quotations for carlots for "human food products (roller process) in barrels" and for "animal feed products (hot roller) in bags," (using midpoint of any range as one quotation), published during such delivery period by the United States Department of Agriculture for New York City, subtract 4.0 cents, and multiply by 7.5; and that for the delivery periods of April, May, and June, compute any plus amount for skim value which results from the average of the skim value computed above and a value obtained as follows: compute the average of all quotations (using midpoint of any range as one quotation), published during the delivery period in the "Oil, Paint, and Drug Reporter" for domestic 20–30 mesh casein in bags in carlots at New York, subtract 6.6 cents and multiply by 2.2: *Provided further*, That if either computation results in a minus amount, the other shall be used in lieu of the average.

6. Add a new paragraph to § 947.3 as follows:

(e) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

7. Delete § 947.3 (b) and substitute therefor the following:

(b) *Sales of milk from handlers to other handlers or nonhandlers.* Milk disposed of from one handler to another handler, to persons who distribute milk or manufacture milk products, or milk disposed of in other ways outside of the marketing area shall be classified, subject to verification by the market administrator, as follows:

(1) Disposition from a handler to a producer-handler shall be Class I.

(2) Disposition from a handler to another handler or to a plant subject to another order of the Secretary, except as provided in (1) of this paragraph, shall be Class I: *Provided*, That if such milk or skim milk is reported as having been utilized as Class II by the person who received it or by the disposing handler, it shall be classified accordingly.

(3) Disposition from a handler to persons not handlers or producer-handlers who distribute milk or manufacture milk products, and exclusive of milk disposed of to a plant subject to another order of the Secretary, shall be Class I, not to exceed the total quantity of Class I milk, or skim milk, at such plant.

8. Delete § 947.3 (c) (2).

9. Delete § 947.7 (b) (1) (iii) and (2) (iv) and substitute therefor the following as (iii) and (iv) respectively:

Add the cash balance, if any, in his hands from payments made by handlers, during the delivery period next preceding, to meet the obligations arising out of § 947.9 (d).

10. In § 947.9 (c) and § 947.11 (a) delete the words "13th day" and substitute therefor the following "15th day."

11. In § 947.9 (d) delete the words "15th day" and substitute therefor the following "16th day."

12. In § 947.10 (a) preface the present language with the words, "on or before the 15th day after the end of each delivery period," and delete the words "On or before the end of such delivery period."

13. In § 947.10 (b) preface the present language with the words, "On or before the 17th day after the end of each delivery period," and delete the words "On or before the end of each delivery period."

14. The following section shall also be a part of the order, as amended, in addition to §§ 947.1 through 947.12 of said order, as amended:

§ 947.13 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

(48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U.S.C. 1940 ed. 601 et seq.)

Issued at Washington, D. C., this 10th day of March 1943, to be effective on and after the 15th day of March 1943. Witness my hand and the official seal of the Department of Agriculture.

(ii) *Savage, Minnesota.* (Upper area) The restricted area extends from approximately mile 14.1, upstream to approximately mile 14.5, on the Minnesota River. The area includes the entire river and the abutments of the Minnesota-Southern Railway Bridge at mile 14.3.

(c) *The regulations.* (1) No vessel shall enter, anchor, moor, or pass through the restricted areas as above set forth in § 7.9–55 (a) and (b), between the hours of sunset and sunrise, unless previous permission in writing has been granted by the captain of the port within whose jurisdiction such restricted area lies: *Provided*, That this requirement shall not apply to:

(i) Tows, towboats with tows, tankers and tank barges in tow, dredges under tow, or any other commercial vessel whose overall length exceeds sixty-five feet.

(ii) Vessels primarily engaged in the transportation of passengers for hire over regularly scheduled routes, in accordance with instructions and regulations issued by the captain of the port.

(2) Vessels passing through restricted areas may, at any time, be boarded and inspected. When ordered by a Coast Guard patrol, such vessel shall immediately slow down and come to a complete stop until permission to continue the voyage is granted by the Officer in Charge.

(3) All commercial vessels included under subparagraphs (1) (i) and (1) (ii) above are required to have a special license issued by the Captain of the Port in order to enter or pass through a restricted area. When operating in accordance with the terms of such license, but at no other time, the vessel shall fly the International Flag "I", in such a manner as to be clearly visible at all times within a reasonable distance.

(4) No vessels shall be operated in a restricted area at a speed in excess of 6 miles per hour except that vessels with barges in tow may, consistent with safe practices, be operated down stream at a speed not to exceed 11 miles per hour.

(5) Fishing, hunting, trapping, or related activities within a restricted area are prohibited.

(6) No pictures shall be taken of restricted areas. The master, owner or operator of commercial vessels shall cause an appropriate notice to be posted in a conspicuous place on the vessel, stating that all cameras, firearms or visual aids such as binoculars shall be deposited with the purser or other appropriate officer for the duration of the voyage. On vessels engaged in hauling passengers for hire the notice shall be posted at the passenger entrance. No cameras shall be carried on pleasure craft unless prior permission has been obtained from the captain of the port.

(7) No person shall have firearms, explosives, or highly inflammable materials in his possession on board any vessel without a permit from the captain of the port, except in the cases specified below.

(i) Licensed pilots, masters, mates, engineers, and certificated tankermen on documented vessels may carry a pistol for the purpose of protection: *Provided*, That written permission has been obtained from the owner or operator of the vessel.

(ii) Hunters proceeding through restricted areas in undocumented or unnumbered vessels may carry shotguns to and from hunting grounds that are outside of said restricted areas: *Provided*, That the provisions of federal and local law and regulations applicable to hunting are complied with.

No person who has been arrested and convicted of a crime involving violence or destruction shall carry firearms without a permit issued by the captain of the port.

(8) Nothing contained in these rules and regulations shall be construed as relieving any vessel, common carrier, owner, shipper, master of a vessel, person in charge thereof, or other person from any liability or penalty incurred by reason of the violation or breach of any other regulation or of any law.

(9) Nothing contained in this section shall be construed to apply to vessels owned or operated by the U. S. Government, to agents or representatives of the U. S. Government engaged in the execution of official duties, nor to any vessels engaged by them and devoted solely to the performance of such duties.

By adding to Subpart C:

§ 6.4–12 *Delaware River, Del.; anchorage area in vicinity of Reedy Point.* (a) An area on the northerly side of the Chesapeake and Delaware Canal entrance, bounded by straight lines connecting the following points:

Point A, 325 yards 76° true from flashing red light on north jetty of Chesapeake and Delaware Canal Entrance.
Point B, 1450 yards 322°30' true from flashing red light on north jetty of Chesapeake and Delaware Canal Entrance.
Point C, 1650 yards 342° true from flashing red light on north jetty of Chesapeake and Delaware Canal Entrance.
Point D, 750 yards 52° true from flashing red light on north jetty of Chesapeake and Delaware Canal Entrance.

(b) (1) Vessels shall be so anchored within this anchorage area that no portion of the hull or rigging shall at any time extend outside the boundaries of the anchorage area.

(2) Every vessel whose crew may be reduced to such number that it will not have sufficient men on board to weigh anchor at any time shall be anchored with two anchors, with mooring swivel put on before the crew shall be reduced or released.

(3) The position of any vessel within this anchorage area may be shifted whenever the maritime or commercial interests of the United States so require. A vessel upon being notified to move or shift its position must get under way at once and change position as directed with reasonable promptness.

(4) Nothing in these rules and regulations shall be construed as relieving the owner or person in charge of any vessel or plant from the penalties of the law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the navigation laws in regard to lights, fog signals, or for otherwise violating law.

(5) The anchoring of vessels in this anchorage area shall be subject to supervision and approval of the Captain of the Port.

§ 6.7–20 *Waters of Lake George, Florida; U. S. Naval Air Corps, Aerial Practice Bombing Area, in Lake George, Volusia County, Florida*—(a) *The danger zone.* (1) An area approximately 2.75 miles wide and 8.2 miles long in Lake George, Florida, bounded as follows:

	Latitude	Longitude
N. E. corner	29°20'22" North	81°36'17" West.
N. W. corner	29°19'31" North	81°38'42" West.
S. E. corner	29°13'57" North	81°32'42" West.
S. W. corner	29°12'56" North	81°35'08" West.

The danger zone will be marked by appropriate warning signs on piles or buoys at the four corners and the midpoints of the two longer sides.

(b) *The regulations.* (1) The danger area is open to navigation except when target practice is being conducted, when no vessel or other craft shall enter or remain within these areas except as provided in paragraph (b) (4).

(2) Advance notice shall be given of the date on which the first bombing practice shall begin. At intervals of not more than three months thereafter, notice will be sent out that bombing practice is continuing. Such notices will appear in the local newspapers and in the "Notice to Mariners".

(3) Prior to the conduct of each bombing practice the area will be patrolled by naval aircraft which will warn navigation to leave the area by "zooming" a safe distance to the side. Upon receiving this signal any watercraft within the danger zone shall leave it and no craft shall enter this area until practice has ceased.

(4) These regulations shall not deny passage through Lake George of commercial craft proceeding through the project channel. In case of the presence of any such vessels in the danger area, the Officer in Charge of bombing operations shall cause the cessation or postponement of such practice until the vessel has cleared the area, or until there is adequate safety distance between the moving target and such vessel. The vessel shall proceed on its normal course and shall not delay its progress.

(5) These regulations shall be enforced by the Captain of the Port and the Commandant, United States Naval Air Station, Jacksonville, Florida, and such agencies as may be designated.

§ 6.8–46 *Waters of Mississippi Sound; U. S. Merchant Marine Cadet Basic School, Henderson Point, Mississippi*—(a) *The danger zone.* The area is triangular, bearing 232°, 4.7 miles, from the water rank on Henderson Point, thence 98°, 3.8 miles, thence 3.5 miles to the water tank. (Bearings true).

(b) *The regulations.* (1) No vessel or other craft shall enter or remain within the area during its use for firing practice. Firing will ordinarily take place between the hours of 8:00 a. m. and 4:00 p. m., Monday through Friday of each week.

(2) Prior to the conduct of each firing practice a red flag will be displayed from the water tank on Henderson Point and watercraft in the vicinity will be warned by patrol boats.

(3) Any such watercraft shall, upon being so warned, immediately vacate the area and shall remain outside the area until the conclusion of firing practice.

(4) These regulations shall be enforced by the Captain of the Port and by the Commanding Officer, U. S. Merchant Marine Cadet Basic School and such agencies as he may designate.

§ 6.13–7 *Lake Washington, Seattle, Washington; restricted seaplane operating area*—(a) *The area.* (1) Beginning at a point No. 18° W, 2,800 yards from the northwest corner of the operations tower at the U. S. Naval Air Station,

Sand Point, thence N 13° W, 2,000 yards; thence N 77° E, 500 yards; thence S 13° E, 2,000 yards; thence S 77° W, 500 yards to the point of beginning.

(2) The area will be marked by special pneumatic buoys as follows: Seven on the easterly line, equally spaced, and eight on the westerly line, equally spaced, thus forming two parallel rows 500 yards apart. The end buoys in each row mark the corners of the area above described. Each corner buoy will be equipped with a green light, the next in line at either end of each row will be equipped with a red light, and the remaining ones with amber lights. These lights are controlled by radio and will be lighted only during night flying operations. Each buoy will be marked in addition by black and yellow vertical stripes.

(b) *The regulations.* (1) The area, heretofore described, shall be restricted to seaplanes for use in landing.

(2) No vessel shall operate or anchor in the said area excepting those attendant upon seaplane operations.

(3) All other watercraft shall exercise due caution in navigating across the lake in the waters to the north and to the south of the restricted area, as there may be danger from planes about to land.

§ 6.13–10 *Wrangell Narrows, Alaska; use, administration, and navigation.* (a) The term "Wrangell Narrows" includes the entire body of water shown on the U. S. Coast and Geodetic Survey Chart No. 8170 lying between Bell Buoy 46 and Midway Rock Light.

(b) *Tow channel.* (1) The following route will be taken by all tows passing through Wrangell Narrows when the towboat has a draft of 9 feet or less:

Northbound (read down).
Southbound (read up).
East of Battery Islets.
East of S1TC and S3TC.
West of S2TC.
West of Spike Rock Light 3 FG.
West of S4TC.
East of S5TC.
East of S7TC.
West of Burnt Island.
West of S6TC.
West of S8TC.
East of South Ledge Beacon 9.
West of South Ledge East Side Light 8 FR.
West of S10TC.
East of North Ledge.
East of S9TC.
East of Colorado Reef West Light 15 FG.
West of Blind Slough Light 17 FG.
West of Woody Island Shoal Light 21A FG.
East of S11TC.
West of Vexation Rock Light 23 FG. in main ship channel.
West of Green Rocks.
East of all aids on North Flat whenever stage of tide permits.
West of Blunt Point Reef Light 34 FR.
East of Turn Point Lighted Buoy 36.
East of Turn Point Shoal Lighted Buoy 38
East of Petersburg Bar Lighted Buoy 40, proceeding to west side of channel and leaving Wrangell Narrows to westward of Prolewy Rock Lighted Buoy 43.

(2) For towboats drawing more than 9 feet, application will be made to the Captain of the Port, Seattle, Washington, for authority to use the ship channel for each trip.

[Docket No. 1875-FD]

SOUTHERN COAL CO., INC.

ORDER OF THE DIRECTOR

In the matter of the application of Southern Coal Company, Incorporated, for permission to receive sales agents' commissions and distributors' discounts on coal sold by it to Bannon Coal and Ice Company.

Upon the basis of the Findings of Fact and Conclusions of Law set forth in the opinion of the Director filed simultaneously herewith, wherein it appears that the affiliation or relationship which presently exists between petitioner, Southern Coal Company, Incorporated, a registered distributor (Registration No. 8561), and the Bannon Coal and Ice Company of Memphis, Tennessee, does not prohibit the allowance of distributors' discounts or sales agents' commissions which petitioner is entitled to accept or retain on coal sold by petitioner to Bannon Coal and Ice Company; and pursuant to § 317.10 (c) (*Miscellaneous provisions*) of the Rules and Regulations for the Registration of Distributors, § 318.2 (j) (*Sales agents*) of the Marketing Rules and Regulations and the provisions of the Bituminous Coal Act of 1937;

It is hereby determined that the acceptance or retention of distributors' discounts or sales agents' commissions on coal sold by petitioner, Southern Coal Company, Incorporated to Bannon Coal and Ice Company, otherwise permitted by the Bituminous Coal Act of 1937 and the Rules and Regulations issued thereunder, are not prohibited by § 317.10 (c) (*Miscellaneous provisions*) of the Rules and Regulations for the Registration of Distributors, § 318.2 (j) (*Sales agents*) of the Marketing Rules and Regulations, and that the relief prayed in the petition, as amended, should be granted.

It is so ordered.

UNIVERSAL POWDER COMPANY, INC.

PROCEEDING FOR REVOCATION OF LICENSE

Universal Powder Company, Inc., Dexter Horton Building, Seattle, Washington. Director's order adjudging violations and imposing conditions for suspension of revocation.

Proceedings for revocation of licenses issued under the Federal Explosives Act of December 26, 1941 (55 Stat. 863) to Universal Powder Company, Inc., were begun on November 3, 1942, by the filing of a specification of charges setting forth violations of the act and the regulations thereunder by Universal Powder Company, Inc. The licensee denied the charges in an answer dated November 17 and demanded a hearing in Seattle, Washington. The hearing was held on December 7, 8 and 9, 1942, before a hearing officer duly designated by me, at which hearing the licensee, with its counsel, was heard, and evidence was adduced bearing upon the charges.

The report of the hearing officer was forwarded to the Director of the Bureau of Mines and to the licensee on January 14, 1943, and received by the licensee on January 18. Upon the basis of the entire record in the hearing, including the testimony heard and the exhibits submitted, and upon observation of the witnesses, the hearing officer found that the licensee had sold explosives to persons not licensed under the Federal Explosives Act, that the licensee had not kept full, detailed and accurate records of its transactions in explosives, and that the licensee had failed and refused to furnish to an authorized representative of the Director of the Bureau of Mines information concerning its business relating to explosives. The hearing officer concluded that the licensee had violated the Federal Explosives Act and the regulations thereunder and recommended that licenses issued to Universal Powder Company, Inc., under the Federal Explosives Act be revoked.

Universal Powder Company, Inc., through its attorneys, excepted to the hearing officer's report, submitted a brief in support of its exceptions, and by letter dated February 4, 1943, requested an oral hearing before the Director of the Bureau of Mines. This request was withdrawn by a letter dated February 16, 1943.

Now, therefore, by virtue of the authority vested in me by sections 8 and 18 of the Federal Explosives Act and section 301.22 of the regulations issued pursuant thereto (7 F.R. 5901), I, R. R. Sayers, Director of the Bureau of Mines, having personally read and carefully considered the transcript of the testimony at the hearing, the hearing officer's report, and the licensee's exceptions and brief, and having ascertained thereby that the licensee's exceptions are without merit and are not supported by the evidence, that the licensee has sold explosives to persons not licensed under the Federal Explosives Act, that the licensee has not kept full, detailed and accurate records of its transactions in explosives, and that the licensee failed and refused to furnish to one of my authorized representatives information concerning its business relating to explosives, and having concluded that the licensee violated the Federal Explosives Act and the regulations thereunder as more fully described in a memorandum opinion of this date, and having considered that no further hearing is necessary for the presentation or decision of any of the issues in this case,

ORDER

That the licensee's exceptions to the hearing officer's findings, conclusions and recommendations be and they are hereby overruled;

That the licensee is found to have violated the Federal Explosives Act and regulations duly issued pursuant thereto;

That pursuant to sections 5 and 10 of the Federal Explosives Act and § 301.14 (d) of the regulations thereunder, the licensee shall, on or before the 10th day of each and every month beginning with the 10th day of April, 1943, and continuing thereafter until the termination of the war or until otherwise ordered by me, furnish to me a sworn copy of its records of transactions in explosives and ingredients for the preceding month, prepared in accordance with the requirements of § 301.14 (d) of the regulations, as amended February 1, 1943 (8 F.R. 1343);

That the entry of an order revoking its license will be suspended as long as the licensee (1) continues to furnish me with sworn copies of its records as required by this order, (2) scrupulously obeys the Federal Explosives Act and the regulations issued pursuant thereto in all respects, and (3) does not sell explosives through a salesman, sales agent or broker who, to the knowledge of the licensee, has since March 16, 1942 sold or caused to be sold or has participated in the sale of explosives to a person not licensed under the Federal Explosives Act.

Dated: March 5th, 1943.

[Public Land Order 94]

IDAHO

WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT FOR MILITARY PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9146 of April 24, 1942, and to section 1 of the act of June 28, 1934, as amended, 48 Stat. 1269 (U.S.C., title 43, sec. 315), *It is ordered*, As follows:

Subject to valid existing rights, the public lands in the following-described areas are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the War Department for military purposes:

BOISE MERIDIAN

T. 10 S., R. 27 E.,
Secs. 2, 3, 10, and 11.
T. 4 S., R. 30 E.,
Secs. 26, 34, 35, and 36.
T. 5 S., R. 30 E.,
Secs. 1 to 4, inclusive, secs. 8 to 11, inclusive, secs. 15 to 21, inclusive, and sec. 29.

The areas described, including both public and non-public lands, aggregate 15,421.88 acres.

This order shall take precedence over, but shall not rescind or revoke, the withdrawal of public lands containing vanadium deposits for use in connection with the prosecution of the war, made by Public Land Order No. 35, of August 27, 1942, so far as such order affects any of the above-described lands.

The orders of November 3, 1936, of the Secretary of the Interior, establishing Idaho Grazing Districts Nos. 2 and 3, are hereby modified to the extent necessary to permit the use of the lands as herein provided.

It is intended that the lands described herein shall be returned to the administration of the Department of the Interior, when they are no longer needed for the purpose for which they are reserved.

ABE FORTAS,
Acting Secretary of the Interior.

LEARNER EMPLOYMENT CERTIFICATES

NOTICE OF AMENDMENT

In the matter of amendment of the certificates applying to the employment of learners under section 14 of the Fair Labor Standards Act in the Hosiery Industry, Women's Apparel Industry, Single Pants, Shirts and Allied Garments Industry, Textile Industry, Knitted and Men's Woven Underwear and Commercial Knitting Industry, Knitted Outerwear Industry, Gloves and Mittens Industry, and the Sportswear and Other Odd Outerwear and the Belts Divisions of the Apparel Industry.

Notice is hereby given that effective March 22, 1943, all special certificates heretofore issued pursuant to regulations and determinations governing the employment of learners at subminimum wage rates in the Hosiery Industry, Women's Apparel Industry, Single Pants, Shirts and Allied Garments Industry, Textile Industry, Knitted and Men's Woven Underwear and Commercial Knitting Industry, Knitted Outerwear Industry, Gloves and Mittens Industry, and the Sportswear and Other Odd Outerwear and the Belts Divisions of the Apparel Industry, are hereby amended to provide for the employment of learners in accordance with the terms of Administrative Order No. 181 (*supra*), effective March 22, 1943. On and after March 22, 1943, all learners employed under such special certificates shall be paid wages at a rate not less than 35 cents per hour. In establishments where experienced workers are paid on a piece rate basis, learners shall be paid the same piece rates that experienced workers engaged in the same occupations are paid and earnings of learners shall be based on those piece rates if in excess of the subminimum rates of pay established for learners.

Each holder of a certificate in these industries will be sent a copy of the amended terms of the certificate. Any holder who has not received the amendment by March 22, 1943 should apply to the Exemptions Branch, Wage and Hour Division, New York, New York, for his copy.

Signed at New York, New York, this 10th day of March 1943.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6304]

AMERICAN BROADCASTING CORPORATION OF KENTUCKY (WLAP)

ORDER DENYING PETITION

In re application of American Broadcasting Corporation of Kentucky (WLAP), Lexington, Kentucky, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 9th day of March, 1943;

The Commission having under consideration the petition of American Broadcasting Corporation of Kentucky, filed July 27, 1942, requesting the Commission to grant the above-entitled application insofar as it requests a change in frequency from 1450 to 630 kc., and being fully informed in the premises;

It is ordered, That the said petition be, and it is hereby, denied; and

It is further ordered, That the issues specified in the Commission's Order of July 14, 1942, be, and they are hereby, superseded by the following issues to be determined at the hearing upon the above-entitled application:

1. To determine whether the granting of the above-entitled application, either in its complete form or only insofar as it requests a change in frequency, would be consistent with the Commission's policy announced by its Memorandum Opinion of April 27, 1942, as modified on September 22, 1942.

2. To determine the areas and populations which would gain primary service from WLAP operating on 630 kc either with 1 kw power as proposed, or with 250 watts power with the station's present antenna, as suggested by the above-described petition, and what other broadcast service is available to these areas and populations.

3. To determine the extent of any electrical interference which would result from the simultaneous proposed operation of WLAP on 630 kc, with 1 kw power, using a directional antenna, with Stations WMAL (Washington, D. C.), KXOK (St. Louis, Missouri), WHKC (Columbus, Ohio), and CFCO (Chatham, Ontario, Canada), and the extent of any interference which would result from the si-

multaneous suggested 250 watt power operation of WLAP on this frequency with these stations, excepting WHKC.

4. To determine the areas and populations which may be expected to lose primary service from stations WMAL, KXOK, and WIIKC should WLAP operate with 1 kw power as proposed, and the areas and populations which would lose service from these stations, excepting WHKC, should WLAP operate with its present facilities on 630 kc, and what other broadcast service is available to these areas and populations.

5. To determine whether the existing radiating system of WLAP would comply with the Commission's Standards of Good Engineering Practice for the suggested 250 watt power operation on 630 kc, particularly with reference to the length of the radials.

6. To determine whether the suggested operation of WLAP with 250 watts power on 630 kc involves engineering conflict with the applications of Stations WCKY (B2–P–3227) and WKRC (B2–P–3390), which were pending since February 22, 1942.

7. To determine whether the granting of the application with authority to operate on 630 kc with 250 watts power, using the present WLAP antenna, would be consistent with the Standards of Good Engineering Practice and proper allocation of broadcast facilities (See Footnote 4, Page 3, Standards of Good Engineering Practice).

8. To determine whether the granting of the above-entitled application either in its complete form, or with authority to operate on 630 kc with 250 watts power using the station's present antenna would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934 as amended.

9. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience, or necessity would be served by the granting of the application either in its complete form or only insofar as it requests a change in frequency.

By the Commission.

ALLEGHENY BROADCASTING CORP. (WJRM)

NOTICE OF HEARING

In re application of Allegheny Broadcasting Corporation, (WJRM), dated December 17, 1942, for modification of Construction Permit; class of service, broadcast; class of station, broadcast; location, Elkins, West Virginia; Operating assignment specified: Frequency, 1240 kc.; power, 250 w.; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing for the following reasons.

1. To determine the cost of completing the construction authorized in Permit No. B2–P–3328 and the financial outlay, if any, incurred in connection therewith by the applicant, prior to April 27, 1942.

2. To determine when the construction heretofore authorized in Permit No. B2–P–3328 was actually commenced.

3. To determine what materials and equipment the applicant has on hand or available for the construction authorized by Permit No. B2–P–3328 and the additional materials and equipment, if any, necessary for the completion thereof.

4. To determine whether the granting of this application would be consistent with the policy announced by the Commission in its Memorandum Opinion dated April 27, 1942.

5. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of §1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of §1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows: Allegheny Broadcasting Corporation, Radio Station WJRM, c/o Jas. A. Wilverding, 422 Randolph Avenue, Elkins, West Virginia.

CLASSIFICATION OF SPECIFIED CONTRACTS

Order 1 under § 1397.53 (f) of Maximum Price Regulation 251—Construction and Maintenance Services and Sales of Building and Industrial Equipment and Materials on an Installed or Erected Basis.

An opinion accompanying Order No. 1 under § 1397.53 (f) of Maximum Price Regulation 251 has been issued simultaneously herewith and filed with the Division of the Federal Register.

(a) *Classification of specified contracts of the Defense Plant Corporation.* The plan filed by the Defense Plant Corporation with the Office of Price Administration on January 29, 1943, for the negotiation of cost-plus-a-fixed-fee prime contracts to which it is a party, and cost-plus-a-fixed-fee subcontracts under such prime contracts, is hereby accepted by the Office of Price Administration as a proper filing under § 1397.53 (f) of Maximum Price Regulation 251.

(b) On and after October 30, 1942, neither Maximum Price Regulation 251 nor any other maximum price regulation shall apply to the sale or supply of any construction service or any building or industrial equipment or materials on an installed or erected basis pursuant to any cost-plus-a-fixed-fee prime contract with the Defense Plant Corporation, or any cost-plus-a-fixed-fee subcontract under such prime contracts: *Provided*, That the Defense Plant Corporation certifies to the Office of Price Administration, Washington, D. C., and to the contractor or subcontractor that the contract or subcontract has been negotiated in accordance with the plan accepted by this Order No. 1.

(c) On and after October 30, 1942, neither Maximum Price Regulation 251 nor any other maximum price regulation shall apply to the sale or supply of any construction service or any building or industrial equipment or materials on an installed or erected basis pursuant to a prime contract or subcontract thereunder with the Defense Plant Corporation which has been or will be performed on the basis of cost only, with no margin of profit in addition to cost.

(d) This Order No. 1 may be revoked or amended by the Price Administrator at any time by reason of any change in the plan filed by the Defense Plant Corporation, described in paragraph (a) of this order, which, in the judgment of the Price Administrator, affects the control exercised by that agency over sales and services which, except for the exclusion now provided, would be subject to Maximum Price Regulation 251.

This Order No. 1 shall become effective March 12, 1943.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 9th day of March A. D. 1943.

Notice is hereby given that a declaration or application (or both) was filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Utility Service Company, a registered holding company, on September 9, 1941 which was the subject of a "Notice Regarding Filing, Subject to Rule U-23" dated September 11, 1941, that thereafter the aforesaid company requested that the Commission indefinitely postpone action on said declaration or application; and that an amendment to said declaration or application was filed on February 17, 1943 with a request that an order be issued thereon. All interested persons are referred to said declaration or application and amendment thereto, which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Utility Service Company, a wholly owned subsidiary of Manufacturers Trust Company, proposes to:

(1) Accept from its parent, for cancellation and retirement, its demand notes in the principal amount of $1,218,000 which notes will be surrendered as a capital contribution;

(2) Convey to its parent all of its assets remaining after the payment of or provision for the payment of all of its liabilities;

(3) To acquire and retire all of its outstanding shares of capital stock; and

(4) To dissolve.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said declaration or application (or both), and that said declaration or application (or both) shall not become effective or be granted except pursuant to further order of the Commission.

It is ordered, That a hearing on said declaration or application (or both) under the applicable provisions of the Act and the rules of the Commission thereunder be held on March 24, 1943 at 10:00 a. m., e. w. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing-room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Charles S. Moore or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a Trial Examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of the issues presented by said declaration or application (or both), particular attention will be directed to the following matters:

1. Whether the action proposed to be taken will be detrimental to the public interest or the interest of investors.

2. What terms and conditions, if any, are necessary to be imposed to insure compliance with the requirements of the Public Utility Holding Company Act of 1935 or any rules, regulations or orders promulgated thereunder.

It is further ordered, That any other person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the Secretary of the Commission, on or before March 20th, 1943 his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this order to Utility Service Company by registered mail; and that notice of said hearing be given to all persons by publication of this order in the Federal Register.

By the Commission.

ASSOCIATED ELECTRIC CO. AND PANHANDLE PUBLIC SERVICE CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of March 1943.

Notice is hereby given that an application and declaration has been jointly filed by Associated Electric Company, a registered holding company, and its wholly owned subsidiary, Panhandle Public Service Company; and

All interested persons are referred to the said application-declaration which is on file in the office of the said Commission for a statement of the transactions therein proposed which are summarized below:

Panhandle Public Service Company proposes to sell to Northwestern Electric Cooperative, Inc., a non-affiliate, all its physical properties and certain other assets for a base cash consideration of $175,000. Panhandle Public Service Company will then deposit the sum of $174,801.25 with the Pennsylvania Company for Insurances on Lives and Granting Annuities, trustee under the mortgage securing its First Mortgage Bonds, Series A, 6%, due December 1, 1945, in full satisfaction of principal and call premium on the total amount of such bonds outstanding. Associated Electric Company, which presently owns $173,500 principal amount of Panhandle

bonds, will then tender all of said bonds to the said trustee, receiving the sum of $174,801.25 in full payment thereof. Panhandle Public Service Company will then dissolve and transfer its remaining assets (subject to existing liabilities) to Associated Electric Company, which will surrender to Panhandle Public Service Company all the stock of, and claims against, that company. In connection with such dissolution, Panhandle Public Service Company will transfer to Associated Electric Company 50 shares of the capital stock of Atlantic Utility Service Corporation.

The said application-declaration contains a request that the Commission enter an order reciting in substance that the conveyance of the properties which are being sold by Panhandle Public Service Company is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935; and

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matter;

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the Rules of the Commission thereunder be held on March 24, 1943, at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Paul Littlefield, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commisison under section 18 (c) of the said Act and to a trial examiner under the Commisison's Rules of Practice.

It is further ordered, That any other person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the Secretary of the Commission, on or before March 22, 1943, his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That, without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at such hearing to the following matters:

1. Whether the consideration to be received from the sale of the properties and assets of Panhandle Public Service Company is fair and reasonable;

2. Whether the proposed acquisition by Associated Electric Company of the capital stock of Atlantic Utility Service Corporation complies with the provisions of sections 9 and 10 of the Act, and specifically whether it will serve the public interest by tending toward the economical and efficient development of an integrated public-utility system;

3. The propriety of the proposed accounting treatment of each phase of the proposed transactions on the books of the applicants-declarants;

4. Whether the action proposed to be taken is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935;

5. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors;

6. Whether the action proposed to be taken complies with all the provisions and requirements of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder, and is not detrimental to the public interest or the interest of investors or consumers.

By the Commission.

ASSOCIATED ELECTRIC CO. AND MISSOURI SOUTHERN PUBLIC SERVICE CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of March 1943.

Notice is hereby given that joint applications-declarations have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Associated Electric Company, a registered holding company, and its wholly owned subsidiary, Missouri Southern Public Service Company.

All interested persons are referred to said joint applications-declarations, which are on file in the office of the said Commission, for a statement of the transactions therein proposed, which are summarized below:

Missouri Southern Public Service Company, a public utility operating in Missouri, proposes to sell all its physical properties (located in the counties of Barry, McDonald and Newton, Missouri) and certain other assets to New-Mac Electric Cooperative, Inc. (a cooperative corporation incorporated in the State of Missouri) for a base cash consideration of $170,000. Upon the sale of such assets, it is proposed that Missouri Southern Public Service Company transfer its then remaining assets, subject to its liabilities, to Associated Electric Company, which will then surrender all its holdings of stock of and its claims against Missouri Southern Public Service Company. Missouri Southern Public Service Company will then be dissolved. In connection with such acquisition, Associated Electric Company will acquire from Missouri Southern Public Service Company 40 shares of the common stock of Atlantic Utility Service Corporation, the stock of which is held by various companies in the Associated Gas and Electric Company holding company system.

The said joint applications-declarations state that the proposed transactions are necessary to enable Associated Electric Company to comply with the provisions of section 11 (b) (1) of the said Act. It is further stated that The Public Service Commission of the State of Missouri has jurisdiction over the proposed sale by Missouri Southern Public Service Company of its utility assets; and

It appearing that sections 9 (a), (b), 10, 11 (b), 12 (c), 12 (d), and 12 (f) of the Act, and Rules U-42, U-43, and U-44 promulgated thereunder, are applicable to the proposed transactions; and

It appearing to the Commission that it is appropriate and in the public interest and the interest of investors and consumers that a hearing be held with respect to said matter and that said applications-declarations shall not be granted or become effective except pursuant to further order of this Commission;

It is hereby ordered, That a hearing on such matters, under the applicable provisions of the said Act and the rules of the Commission thereunder be held on March 24, 1943 at 11:00 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

At such hearing cause shall be shown why such joint applications-declarations shall be granted or become effective. Notice is hereby given of said hearing to the above-named applicants declarants and to all interested persons.

It is further ordered, That any person desiring to be heard in connection with the proceeding or proposing to intervene herein shall file with the Secretary of the Commission, on or before March 22, 1943, his request or application therefor, as provided by Rule XVII of the Rules of Practice of this Commission.

It is further ordered, That Paul Littlefield, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of the issues presented by said declarations, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed transactions are appropriate and in the public interest and the interest of investors and consumers;

(2) Whether the proposed transactions are necessary and appropriate to effectuate the provisions of section 11 (b) of the Act;

(3) Whether the proposed sale price is adequate;

(4) The propriety of the proposed accounting treatment of the transactions on the books of the applicants-declarants;

(5) Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors and consumers;

(6) Whether the proposed transactions comply with the provisions of the Public Utility Holding Company Act of 1935 and all Rules and Regulations promulgated thereunder, and is not detrimental to the public interest or the interest of investors or consumers.

By the Commission.

ELECTRIC BOND AND SHARE COMPANY

NOTICE OF FILING OF AMENDMENT NO. 2 AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of March, A. D., 1943.

Notice is hereby given that an amendment to a declaration has been filed with this Commission by Electric Bond and Share Company ("Bond and Share"), a registered holding company, pursuant to the Public Utility Holding Company Act of 1935. All interested persons are referred to said document which is on file in the office of this Commission, for a statement of the transaction therein proposed, which is summarized as follows:

On December 30, 1941 Bond and Share filed a declaration under which it proposed to expend $5,000,000 for the purchase of its preferred stock on the New York Curb Exchange. On February 20, 1942 the Commission issued its Findings, Opinion and Order permitting said declaration to become effective in part, to the extent of the use of $2,000,000 for the proposed purpose, and reserving jurisdiction to the Commission with respect to the remaining $3,000,000 pending formulation by the company of a plan or plans for distribution of assets by exchange or otherwise.

Bond and Share on September 1, 1942 filed an application under section 11 (e) for the exchange of cash and common stock of American Gas and Electric Company, a registered holding company and a subsidiary of Bond and Share, for the outstanding preferred stock of Bond and Share, which said application, however, did not set forth the basis of the proposed exchange, stating that the terms thereof would be submitted by amendment to the said application.

The present amendment states that Bond and Share has found the exchange plan described in the preceding paragraph to be impracticable and has been unable to formulate any alternative plan for distribution of assets by exchange or otherwise. It therefore proposes that Bond and Share be authorized to use the $3,000,000 in cash with respect to which the Commission reserved jurisdiction in its Order of February 20, 1942, together with additional cash in the amount of $12,000,000, or a total of $15,000,000 from its treasury; for the purpose of acquiring its preferred stock by purchase in the open market over a period not to exceed nine (9) months from the date the amendment is permitted to become effective by the Commission. The amendment states that the shares acquired under this program will not be reoffered for sale.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors that a hearing be held with respect to such matters, that said amendment shall not become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on March 29, 1943, at 10:00 a. m., e. w. t., in such room in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, as the hearing room clerk in Room 318 will at that time advise. At such hearing, cause shall be shown why such amendment shall become effective. Notice is hereby given of said hearing to Electric Bond and Share Company and to all interested persons, said notice to be given to declarant by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That any persons who desire to be heard in connection with the said proceeding, or propose to intervene herein, shall file with the Secretary of the Commission on or before March 22, 1943, their requests or applications therefor as provided by Rule XVII of the Rules of Practice of this Commission.

It is further ordered, That Edward C. Johnson, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of issues presented by said amendment otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed reacquisition by Bond and Share of shares of its outstanding preferred stock is in the public interest and the interest of investors.

2. Whether the method proposed by Bond and Share for the reacquisitions of said shares is appropriate and in the public interest and the interest of investors.

3. Whether the proposed reacquisition is in conformity with the standards of section 12 (c) and, particularly, whether it is detrimental to the carrying out of the provisions of section 11 of the Act or tends to circumvent any provisions of the Act, or any rules, regulations or orders of the Commission.

4. Whether it is necessary or appropriate to impose any terms or conditions in the public interest or for the protection of investors.

By the Commission.

PEOPLES LIGHT AND POWER CO., ETC., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING, ETC.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 9th day of March 1943.

In the matter of Peoples Light and Power Company and subsidiary companies, applicants, File No. 54-67; Peoples Light and Power Company, California Public Service Company, Texas Public Service Company, Texas Public Service Farm Company, West Coast Power Company, Western States Utilities Company, respondents, File No. 59-64.

Notice of filing and order for hearing on a plan filed pursuant to section 11 (e); notice of and order for hearing pursuant to sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935 and order consolidating proceedings.

Notice is hereby given that Peoples Light and Power Company ("Peoples"), a registered holding company, has filed an application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for approval of a Plan for the purpose of enabling the company and its subsidiaries to comply with the provisions of sections 11 (b) (1) and 11 (b) (2) of said Act. All interested persons are referred to said Plan which is on file at the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

(1) Peoples proposes to simplify the corporate structure of its holding company system and to redistribute the voting rights of its stockholders so that the interests of Peoples' three classes of stockholders in its system will be as follows: Cumulative Convertible Preferred Stock 95%, Class A Common Stock 2.1% and Class B Common Stock 2.9%. It is proposed that these three classes of stock be exchanged for interests in one class of stock (hereinafter referred to as "new stock") in one or more of the following ways:

(a) Through a reclassification of the capitalization of Peoples into a single class of stock, such stock to be issued in exchange for the present capital stocks of Peoples.

(b) The organization of a successor corporation which will have one class of stock outstanding and will issue such stock in exchange for the existing capital stocks of Peoples.

(c) The merger of Peoples into West Coast Power Company, one of its subsidiary companies, which presently has outstanding a single class of capital

stock. Such merged company will increase its authorized and issued capital stock to an appropriate number of shares and will distribute such shares in exchange for the existing capital stocks of Peoples.

(2) It is further proposed that Peoples will cause the distribution of its assets to its stockholders either separately or as a part of any of the foregoing steps set forth in (a), (b) and (c) above.

(3) The proposed new stock, if issued by Peoples, a successor company, or the merged company, will have full voting rights and will be without par value. It is proposed that 291,909 shares of such stock be issued with a stated value of $3,648,862.50, equivalent to $12.50 per share.

(4) Holders of the present preferred stock of Peoples will receive 3⅓ shares of new stock for each share, or a total of 95% of such new stock. Holders of the present Class A and Class B Common Stocks will receive 1/10 of a share of new stock for each share of such common stock. Through the proposed exchanges, holders of Class A and Class B Common Stocks will receive 2.1% and 2.9%, respectively, of the issued amount of new stock. In lieu of fractional shares, Scrip will be issued, which, in combination with other Scrip, will be exchangeable into full shares. Scrip not so exchanged within two years will become void.

(5) In the event that Peoples distributes its assets directly to its stockholders, as described in subparagraph (2), such distribution will be made on the basis of 95% to holders of the present preferred stock, 2.1% to holders of the Class A Common Stock and 2.9% to the holders of the present Class B Common Stock.

(6) Holders of the presently issued Purchase Warrants of Peoples will not participate in the Plan and their present rights will be extinguished.

(7) West Coast Power Company will sell its electric properties in Oregon to two Public Utility Districts for a total consideration of approximately $885,000 in cash. Such properties are presently under contracts of sale, subject to the ability of the respective Districts to sell revenue bonds to finance the purchases. West Coast Power Company will use part of the proceeds of such sales to retire 108,000 principal amount of its First Mortgage Bonds, and will distribute $754,400 in cash to Peoples as a partial liquidating dividend unless Peoples and West Coast Power Company are previously merged.

(8) When and if the transactions described in subparagraph (7) have been completed, Peoples (or the merged company) will invest $1,000,000 cash in additional shares of the capital stock of Texas Public Service Company, one of its subsidiary companies. The latter company will use such funds either to retire a portion of its own bonds or to acquire other gas utility properties in Texas.

If the Commission approves the proposed Plan, Peoples proposes, to the extent deemed necessary, to solicit its stockholders for proxies approving the Plan and authorizing its consummation. In such event, Peoples will request that the Commission issue a report on the Plan in order that such report may be submitted to stockholders. Peoples further proposes to request that the Commission apply to a Federal Court pursuant to the provisions of sections 11 (e) and 18 (f) of the Act to enforce and carry out the terms and provisions of the Plan.

In connection with the above described Plan, Peoples proposes to use its best efforts to dispose of its investments in the capital stocks of its utility subsidiaries or to cause such subsidiaries to dispose of their properties and assets. Peoples also has under consideration the sale by Texas Public Service Company of its irrigation and water properties at Beaumont, Texas, and in connection with any such sale it will also undertake to sell its investment in Texas Public Service Farm Company. Efforts will also be made to sell the electric, water and ice properties of Texas Public Service Company at La Grange, Texas.

II

The Commission having examined the corporate structure of Peoples and its subsidiary companies, the relationships among the companies in the holding-company system of Peoples, the character of the interests thereof and the properties owned or controlled thereby, and having examined the files and records of the Commission relating thereto, and said examination having disclosed data establishing or tending to establish the following:

(1) Peoples is a registered holding company incorporated under the laws of Delaware, having its principal executive office in Jersey City, New Jersey.

(2) Peoples presently controls five subsidiary companies through ownership of all their voting securities. The names of all companies included in Peoples' holding company system, together with the states in which such companies are incorporated and the businesses in which such companies are engaged, are as follows:

Name of company	State of incorporation	Kind of business
Peoples Light and Power Co.	Delaware	Holding company
California Public Service Co.	California	Electric and water utility.
Texas Public Service Co.	Texas	Gas, electric and water utility, irrigation and manufacture and sale of ice
Texas Public Service Farm Co.	Texas	Rice farming.
West Coast Power Co.	Delaware	Electric and water utility.
Western States Utilities Co.	Delaware	Electric and water utility.

(3) Electric service is rendered by four of the above subsidiary companies in the States of California, Oregon, Idaho, Nevada, Wyoming and Texas; one of the subsidiary companies, namely, Texas Public Service Company, is engaged in the retail distribution of natural gas in addition to its electric and other businesses, all of which businesses are conducted in Texas.

(4) No interconnections exist between the electric properties of any two or more subsidiary companies.

(5) Each of the subsidiary companies is engaged in one or more businesses other than those of an electric or gas utility company; the business of one subsidiary, Texas Public Service Farm Company, is entirely non-utility.

(6) The presently outstanding securities of Peoples were issued pursuant to a Reorganization Plan dated June 1, 1936. Such securities (including minor amounts still issuable under that plan) are as follows:

	Amount
Cumulative Convertible Preferred Stock, $3 Dividend, $25 par value, 83,201 shares, at liquidating preference of $50 per share[1]	$4,160,050
Class A Common Stock, 62,520 shares, $1 par value	62,520
Class B Common Stock, 83,201 shares, $1 par value	83,201
Warrants—entitling holders to purchase 108,376⅓ shares of Class B Common Stock at $20 per share until December 31, 1945	

[1] Dividends on the preferred stock were in arrears on January 1, 1943 in the amount of $1,692,984 or $20.35 per share.

(7) The preferred stock has no voting rights as to the election of directors; all such voting rights are vested in the Class A and Class B Common Stocks.

III

It being the duty of the Commission, pursuant to section 11 (b) (1) of the Act, to require, by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such action as the Commission shall find necessary to limit the operations of the holding company system, of which said company is a part, to a single integrated public utility system and to such other businesses as are reasonably incidental or economically necessary or appropriate to the operations of such an integrated public utility system and to such additional integrated public utility system or systems as the Commission finds to be permissible under the standards of subsections (A), (B) and (C) of section 11 (b) (1); and

It further being the duty of the Commission, pursuant to section 11 (b) (2) of said Act, to require by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such steps as the Commission shall find necessary to ensure that the corporate structure or continued existence of any company in the holding company system does not unduly or unnecessarily complicate the corporate structure, or unfairly or inequitably distribute voting power among security holders of such holding-company system; and

The Commission being required by the provisions of section 11 (e) of said Act, before approving any plan thereunder, to find, after notice and opportunity for hearing, that such plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11, and is fair and equitable to the persons affected by such plan; and

It tentatively appearing to the Commission that the holding company system of Peoples is not confined in its operations to those of a single integrated public utility system within the meaning of the Act, or to those of a single integrated public utility system, together with such additional systems and other businesses as can be retained under the standards of section 11 (b) (1); and

It tentatively appearing to the Commission that the corporate structure of Peoples' holding company system is unduly and unnecessarily complicated and that voting power is unfairly and inequitably distributed among the security holders thereof; and

It therefore appearing appropriate to the Commission that notice be given and a hearing held for the purpose of determining what action should be ordered under sections 11 (b) (1) and 11 (b) (2), and with respect to the proposed Plan filed under section 11 (e) of the Act; and it further appearing that these matters involve common questions of law and fact and should be heard together;

It is hereby ordered, That proceedings under sections 11 (b) (1) and 11 (b) (2) of the Act be instituted and consolidated with the proceedings relating to the Plan filed under section 11 (e), and that a hearing on such matters under the applicable provisions of the Act and the rules of the Commission thereunder be held on the 1st day of April 1943 at 10:00 o'clock a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the Hearing Room Clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Robert P. Reeder or any other officer or officers designated by the Commission to preside at such hearing, shall exercise all powers granted to the Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, Without limiting the scope of the issues presented by the pending application or by the proceedings hereby instituted, that evidence having particular bearing on the following matters shall be adduced:

(1) Whether the transactions involved in the proposed Plan filed pursuant to section 11 (e) comply with all of the requirements of the applicable provisions of the Act and the Rules promulgated thereunder.

(2) Whether such proposed Plan is necessary to effectuate the provisions of section 11 (b) of the Act, whether such Plan is fair and equitable to the persons affected thereby, and whether such Plan should be approved.

(3) Whether, and to what extent, the investment account of Peoples and the property accounts of its subsidiaries, as stated on their respective books, include intangibles, write-ups or other inflationary items, and whether the property accounts of any of the subsidiaries include property which is not used or useful, and, if so, whether, and the extent to which, approval of the Plan may require that such amounts or items be eliminated from the property or investment accounts of said companies; whether expenditures for maintenance and provisions for depreciation or retirements by the subsidiary companies are adequate and whether their present reserves for depreciation or retirements are sufficient and whether, and the extent to which, approval of the Plan may require readjustment of such charges or reserves.

(4) Whether the allegations contained in section II hereof are true and correct.

(5) What action is necessary to limit the operations of Peoples' holding company system to a single integrated public utility system and such additional systems or other businesses as are retainable under the standards of section 11 (b) (1) of the Act.

(6) Whether the corporate structure or continued existence of Peoples in the holding company system unduly or unnecessarily complicates the structure of such holding company system or distributes voting power unfairly or inequitably among security holders thereof and, if so, whether the corporate structure of Peoples in the holding company system should be revised, and whether Peoples should be eliminated from the system.

(7) What further orders, if any, should be entered pursuant to sections 11 (b) (1) and 11 (b) (2) of the Act, to require Peoples and its subsidiaries to take such steps as the Commission shall find necessary to comply with the provisions of said sections.

It is further ordered, That any person desiring to be heard in connection with these proceedings or to intervene therein shall, on or before the 30th day of March 1943, file with the Secretary of the Commission his written request or application, as required by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this Order to Peoples and its various subsidiaries, the Public Utility Commissions of the States of Idaho, Nevada, Oregon, and Wyoming, and the Railroad Commissions of California and Texas, not less than 20 days prior to the date hereinbefore fixed as the date of the hearing; and that notice of said hearing is hereby given to Peoples and its subsidiaries, to their security holders, and to all consumers of Peoples' subsidiary companies, to all states, municipalities, and political subdivisions of States within which are located any of the physical assets of said companies or under the laws of which any of said companies is incorporated, all State Commissions, State Securities Commissions, and all agencies, authorities and instrumentalities of one or more states, municipalities, or other political subdivisions having jurisdiction over Peoples or its subsidiaries or any of the businesses, affairs or operations of any of them; that such notice shall be given further by a general release of the Commission, distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this Order in the FEDERAL REGISTER not later than ten days prior to the date hereinbefore fixed as the date of the hearing.

It is further ordered, That jurisdiction be and hereby is reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, the proceedings instituted by this Order under sections 11 (b) (1) and 11 (b) (2) of the Act and the application for approval of said Plan filed under section 11 (e).

By the Commission.

VOLUME 8 NUMBER 52

Washington, Tuesday, March 16, 1943

The President

PROCLAMATION 2577

I AM AN AMERICAN DAY, 1943

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Public Resolution No. 67, approved May 3, 1940 (54 Stat. 178), provides in part:

"That the third Sunday in May each year be, and hereby is, set aside as Citizenship Day and that the President of the United States is hereby authorized and requested to issue annually a proclamation setting aside that day as a public occasion for the recognition of all who, by coming of age or naturalization, have attained the status of citizenship, and the day shall be designated as 'I Am An American Day'.

"That the civil and educational authorities of States, counties, cities, and towns be, and they are hereby, urged to make plans for the proper observance of this day and for the full instruction of future citizens in their responsibilities and opportunities as citizens of the United States and of the States and localities in which they reside."

AND WHEREAS during the past year our country has been strengthened through the voluntary association with us, by naturalization, of many thousands of men and women from other lands and through our youth who, by coming of age, have attained full citizenship:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby designate Sunday, May 16, 1943, as "I Am An American Day"; I urge that that day be set aside as a public occasion for the recognition of all our citizens who have attained their majority or who have been naturalized during the past year; and I call upon Federal, State, and local officials, and patriotic, civic, and educational organizations to take part on or about May 16 in exercises designed to assist our citizens, both native-born and naturalized, to understand more fully the duties and opportunities of citizenship and its special responsibilities in a Nation at war.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done at the City of Washington this 12th day of March in the year of our Lord nineteen hundred and forty-three and of the Independence of the United States of America the one hundred and sixty-seventh.

[SEAL]

FRANKLIN D ROOSEVELT

By the President:

SUMNER WELLES,
Acting Secretary of State.

PART 1410—LIVESTOCK AND MEATS

MEATS REQUIRED TO BE SET ASIDE

Pursuant to the authority vested in me by Food Distribution Order 28, dated March 5, 1943, issued pursuant to Executive Order No. 9280, dated December 5, 1942, and to effectuate the purposes of such orders, *It is hereby ordered*, As follows:

§ 1410.5 *Meats required to be set aside.* (a) Each slaughterer subject to the provisions of Food Distribution Order 28 (8 F.R. 2787) shall set aside, reserve and hold for delivery to governmental agencies or authorized processors, as defined in that order, the following quantities of meat:

(1) An amount of each class of meat equivalent to the percentages set forth in paragraph (b) hereof of all inventories of meats, chilled, frozen, cured, and in the process of being cured (other than canner and cutter beef), on hand at the close of business on March 14, 1943, wherever stored, except meats in transit to or located in distributing branch houses and intended for immediate sale; and

(2) An amount of each class of meat equivalent to the percentages set forth in paragraph (b) hereof of all meats derived from the slaughter of cattle, calves, sheep, lambs, and swine, during the period from March 15 to April 30, 1943, inclusive.

(b) The percentages to be used in computing the amounts of meat required to be set aside are as follows:

Beef:	*Percent*
Canner and cutter grades (steers, heifers, and cows)	80
All other beef	40
Veal	30
Lamb and mutton	35
Pork	45

(c) The quantities of meat to which the percentages set forth in paragraph (b) hereof are to apply shall be determined in accordance with Food Distribution Order 28, § 1410.2 (c) (1), (2), (3), and (4).

(d) The quantities of meats set aside shall be held subject to the provisions of Food Distribution Order 28.

(e) This order shall become effective on the date of its issuance.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Amendment 20–4, Civil Air Regulations]

PART 20—PILOT CERTIFICATES

MILITARY COMPETENCE

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 8th day of March 1943.

Effective March 8, 1943, Part 20 of the Civil Air Regulations is amended as follows:

1. By amending § 20.129 to read as follows:

§ 20.129 *Military competence.* An applicant, who within the preceding sixty days has been on active duty with flying status for a period of not less than six months as a member of the Army, Navy, Marine Corps, or Coast Guard of the United States or the armed service of any Government allied with the United States, shall be deemed to have met the aeronautical knowledge, experience, and skill requirements of the Civil Air Regulations for the issuance of a pilot certificate of appropriate type and grade:

(a) If he submits to an inspector of the Administrator written proof of an honorable discharge or return to inactive reserve status together with a certificate from the appropriate military officer in charge of flying showing that the applicant was, at the time of separation from the service, on solo flying status as a rated military pilot; and setting forth the pilot rating held by him and the type, class, and horsepower of aircraft he has been found competent to pilot;

(b) If the requirements for the military pilot rating held are at least equivalent to the requirements of the Civil Air Regulations for the type and grade of pilot certificate sought; and

(c) If he passes the written examination on the Civil Air Regulations required of applicants for the type and grade of certificate sought.

2. By amending § 20.149 to read as follows:

§ 20.149 *Military competence.* Same as § 20.129.

PART 238—CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

APPLICATIONS FOR CERTIFICATES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 17th day of February, 1943.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 401 thereof, and deeming its action necessary to carry out the provisions of said Act and to exercise its powers and perform its duties thereunder, hereby makes and promulgates the following regulation:

Effective March 19, 1943, § 238.1 of the Economic Regulations is hereby amended in its entirety to read as follows:

§ 238.1 *Applications for certificates of public convenience and necessity.*—(a) *Formal requirements of applications.* Applications for certificates of public convenience and necessity or amendments thereof, shall meet the requirements set forth in § 285.3 of the Economic Regulations as to (1) execution, number of copies and service; (2) verification; and (3) formal specifications of papers. All pages of an application shall be consecutively numbered and the application shall clearly describe and identify each exhibit by a separate number or symbol. All exhibits shall be deemed to constitute a part of the application to which they are attached.

(b) *Amendments to application.* If, after receipt of any application, the Board shall request the applicant to supply it with additional information, such information shall be furnished in the form of an amendment to the original application. All amendments to applications shall be consecutively numbered and shall comply with the requirements of this Regulation as to form, number of copies, verification, and in all other essential respects. In the event that any application shall be amended so as to alter the route or routes, the terminal or intermediate points, or the classes of traffic covered by such application, the amendment shall contain a statement that notice of such amendment has been served upon such persons, in such form and manner, and containing such information as is required by subparagraph 6 of paragraph (d) of this section for the service of notice of transmittal to the Board of an original application.

(c) *Incorporation by reference.* In general it is desirable that incorporation by reference shall be avoided. However, where two or more applications are filed by a single carrier, lengthy exhibits or other documents attached to one may be incorporated in the others by reference if that procedure will substantially reduce the cost to the applicant.

(d) *General provisions concerning contents.* The statements contained in an application shall be restricted to significant and relevant facts. They shall be free from argumentation or from expressions of opinion, except such as may be required by this regulation.

Each application shall give full and adequate information with respect to each of the items set forth in this paragraph. In addition, the application may contain such other information and data as the applicant shall deem necessary or appropriate in order to acquaint the Board fully with the particular circumstances of its case. Among other things, every such application shall give the following information:

(1) The full name and address of the applicant, the nature of its organization (individual, partnership, corporation, etc.), and the name of the state under the laws of which it is organized.

(2) A statement that the applicant is a citizen of the United States, as defined by section 1 (13) of the Act. It is not required that the application shall contain all the evidence which the applicant is prepared to present at the hearing or otherwise in support of such statement, but the application shall at least indicate the nature and result of its investigations in that matter and the character of the evidence it will be prepared to present in support of citizenship.

(3) An adequate identification of each route for which a certificate is desired, specifying the type or types of service (mail, passengers, and property) to be rendered on each route, and whether or not such services are to be rendered in scheduled operations. The identification of each route shall name every terminal and intermediate point to be included in the certificate for which application is made.

(4) A map (which may be attached as an exhibit) drawn approximately to scale showing all terminal and intermediate points to be served, giving the approximate mileages between all adjacent points, and the principal over-all distances. This map should also indicate all of such points which are now served by air carriers, indicating by arrows the directions flown by such interconnecting carriers and stating their principal terminals, for example, "to Dallas" or "to Chicago."

(5) State the type of aircraft applicant proposes to use in the new service and whether such aircraft is presently owned by the applicant.

(6) State that the applicant has caused a notice of the filing of such application to be served upon each person named in the most recently issued List of Holders of Certificates of Public Convenience and Necessity Issued by the Civil Aeronautics Board and of Applicants for Such Certificates (Except Those Relating to Alaska). If the application involves service to or from Alaska, the notice shall also be served on each person named in the most recently issued List of Alaskan Air Carriers and Applicants for Certificates Involving Service to, From, or Within Alaska. If the application involves transportation solely within the territory of Alaska, the application need only state that the notice has been served on the persons named in the last-mentioned list. The notice shall contain a brief statement of the authorization requested, the date on which the application was or will be filed with the Board, and may be served personally or by mail. The application shall set forth the notice and indicate the list or lists of persons upon whom it was served.

(7) If applicant does not hold a certificate of public convenience and necessity authorizing air transportation, state the name and type of business of any affiliate, subsidiary, or principal stockholder of applicant engaged in any form of transportation as a common carrier or engaged in any phase of aeronautical activity.

(c) *Applications for operations other than between fixed points.* An application for a certificate authorizing operations other than between fixed points, or not having terminal or intermediate points capable of precise description, need comply with the provisions of subparagraphs (3) and (4) of paragraph (d) of this regulation only to the extent that it shall clearly describe the authorization sought by the applicant.

(Sec. 401, 52 Stat. 987; 49 U.S.C., 481)

By the Civil Aeronautics Board.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Albee Studio, Docket 4871, March 5, 1943]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of March, A. D. 1943.

In the matter of G. S. Proper, individually, and trading as Albee Studio.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondent, in which answer respondent admits all of the material allegations of fact set forth in the complaint and states that he waives all intervening procedure and further hearing as to the facts; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, G. S. Proper, individually, and trading as Albee Studio, or trading under any other name, and his agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of photographs, including tinted or colored photographs and enlargements or miniatures thereof, in commerce as commerce is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that tinted or colored photographs including enlargement and miniatures made from a photographic base are "oil paintings", or are handpainted portraits, or are genuine works of art produced by the skill and brush of a painter;

2. Requiring holders of coupons which entitle such holders to receive one picture, miniature or enlargement at a stipulated price to purchase additional pictures, enlargements or miniatures as a condition to respondent's fulfillment of the undertaking specified in such coupons;

3. Permitting respondent's agents or salesmen to represent to prospective purchasers of coupons which entitle the holders thereof to a specified number of pictures, miniatures or enlargements at a stipulated price that the respondent does not enforce the provisions written on such coupons relative to limiting the number thereof to one coupon per person and to one coupon per family unless additional pictures are ordered;

4. Attempting to enforce restrictions written into coupons offered for sale by respondent's agents when respondent knows or has reason to believe that such agents represent to prospective purchasers that such restrictions are not enforced by the respondent and may be disregarded by prospective purchasers in purchasing such coupons;

5. Using the term "Silk Vitiva", or any other term containing the word "silk", to in any way describe or refer to pictures which are not in fact printed on silk;

6. Representing as the customary, regular or studio prices for respondent's pictures, enlargements or miniatures, any prices or values which are in fact in excess of the prices at which said pictures, enlargements or miniatures are customarily offered for sale and sold in the normal and usual course of respondent's business;

7. Representing through the medium of coupons or in any other manner, that offers terminate on, or are limited to, a certain date when such offers are not actually terminated or withdrawn at, or limited to, the date stated;

8. Using the expression "Gold-Tone" alone or in conjunction with any other word or words, to describe, designate or indicate any sepia or other finish which is not the result of a toning or developing bath or process employing chloride of gold salts.

It is further ordered, That the respondents shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING ACT OF 1935

LOANS, EXTENSIONS OF CREDIT, DONATIONS AND CAPITAL CONTRIBUTIONS TO ASSOCIATE COMPANIES

Acting pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9, 12, and 20 (a) thereof, and finding that such action is necessary and appropriate in the public interest and in the interest of investors and consumers, the Securities and Exchange Commission hereby amends subparagraph (6) of : 250.45 (b) [Rule U-45 (b)] so that the same shall read as follows:

(6) A loan or extension of credit or an agreement of indemnity arising out of a consolidated tax return filed by a holding company (or other parent company) and its subsidiaries: *Provided*, That the top company in the group assumes primary responsibility for the payment of any tax liability involved, subject to the right to contribution from the several members of the group in an amount not exceeding as to any company that percentage of the sum of the normal tax, surtax and excess profits tax on a consolidated basis which the sum of the normal tax, surtax and excess profits tax of such company if paid on a separate return basis is of the aggregate amount of normal, surtax and excess profits taxes of the individual companies based upon separate returns. In each instance the amount of excess profits tax shall be computed less the amount of the post-war refund. In computing each company's tax on a separate return basis, allowance shall be made for loss carryover and other adjustments as if the company had always filed its tax return on a separate return basis. The amount of post-war refund bonds which the consolidated group will acquire (under section 780 of the Internal Revenue Code) and the liability therefor shall be allocated to the several members of the group in the ratio that the post-war refund bonds each company would acquire on a separate return basis bears to the sum of the post-war refund bonds which all of the companies would acquire on the basis of separate tax returns.

Effective March 12, 1943.

By the Commission.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T.D. 50830]

PART 8—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

DAIRY COWS

Cattle dutiable at the rate of 1½ cents per pound without quota restrictions until thirty days after the President has proclaimed the end of the abnormal situation with respect to cattle and meats. Article 484, Customs Regulations of 1937, suspended. (This document affects 19 CFR 8.78.)

Pursuant to the concession granted under item 701 of the trade agreement concluded on November 17, 1938, between the United States and Canada (49 Stat. 3980), the duty imposed by paragraph 701 of the Tariff Act of 1930 on cows weighing 700 pounds or more each, imported specially for dairy purposes, was reduced to 1½ cents per pound. As other cattle of the same weights were subject to quota restrictions, regulations for the determination of the facts necessary to the classification of cows as having been imported specially for dairy purposes were published in article 484, Customs Regulations of 1937.

Pursuant to item 701 of the trade agreement between the United States and Mexico (1943—T.D. 50797), the duty imposed by paragraph 701 of the Tariff Act of 1930 on cattle of all weights, except cows weighing 700 pounds or more each and imported specially for dairy purposes, has been reduced to 1½ cents per pound without quota restrictions, effective on and after January 30, 1943, and until thirty days after the President has proclaimed the end of the abnormal situation with respect to cattle and meats.

In view of the foregoing, cattle of the classes referred to are now dutiable at the rate of 1½ cents per pound without regard to quota restrictions. Accordingly, the provisions of article 484, Customs Regulations of 1937 [19 CFR 8.78], shall be inoperative with respect to cattle entered for consumption or withdrawn from warehouse for consumption on or after January 30, 1943, and before the effective date of the proclamation of the President made pursuant to item 701 of the trade agreement with Mexico.

[SEAL] W. R. JOHNSON,
Commissioner of Customs.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess Profits Taxes

[T.D. 5242]

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

MISCELLANEOUS AMENDMENTS

Regulations 109 amended to conform to amendments to Supplement A and other portions of chapter 2E of the Code, relating to the excess profits tax, made by certain sections of the Revenue Act of 1942.

In order to conform Regulations 109 (Part 30, Title 26, Code of Federal Regulations, 1941 Sup.) to sections 205 (g) (2), 212, 214, 215, 216, 223, 224, 225, and 228 of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 30.712–1, the following:

SEC. 212. APPLICATION OF EXCESS PROFITS TAX TO CERTAIN FOREIGN CORPORATIONS. (Revenue Act of 1942, Title II.)

(a) Section 712 (b) (relating to the excess profits credit of foreign corporations) and section 724 (relating to invested capital in the case of foreign corporations and corporations entitled to benefits of section 251) are amended by striking out "or having an office or place of business therein", wherever occurring therein and section 712 (b) is amended by striking out "or had an office or place of business therein".

* * * * *

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

SEC. 224. EXCESS PROFITS TAX RETURNS. (Revenue Act of 1942, Title II.)

* * * * *

(b) Sections 712 (c) and 741 (b) (relating to disclaimer of excess profits credit) are repealed.

(c) The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1939.

SEC. 228. RULES FOR INCOME CREDIT IN CONNECTION WITH CERTAIN EXCHANGES. (Revenue Act of 1942, Title II.)

* * * * *

(e) *Amendments to Excess Profits Tax made necessary by amendments to Supplement A.*

(1) *Cross-reference.* Section 712 (relating to allowance of excess profits credit) is amended by inserting at the end thereof the following new subsection:

(d) *Special rule in connection with certain reorganizations.* For the existence of taxpayer through component corporation see section 740 (f).

* * * * *

(f) *Taxable years to which amendments applicable.* The amendments made by this section shall be applicable only to the computation of the tax for taxable years beginning after December 31, 1941, except that (1) the last sentence of section 740 (c), as added by subsection (a) of this section shall be applicable to the computation of the tax for all taxable years beginning after December 31, 1939, and (2) if a taxpayer, within the time and in the manner and subject to such regulations as the Commissioner with the approval of the Secretary prescribes, elects to have such amendments (except those which by their terms are limited to taxable years beginning after December 31, 1941, and except that referred to in clause (1)) apply retroactively to all taxable years of the taxpayer beginning after December 31, 1939, such amendments shall also be applicable to the computation of the tax for taxable years beginning after December 31, 1939.

PAR. 2. Section 30.712–1, as amended by Treasury Decision 5045, approved May 3, 1941, is further amended to read as follows:

§ 30.712–1 *Excess profits credit: allowance.* (a) Two methods are provided for computing the excess profits credit: (1) The income method under which the credit is computed as provided in section 713, and (2) the invested capital method under which the credit is computed as provided in section 714.

(b) For taxable years beginning after December 31, 1941, the excess profits credit of the following corporations for any such taxable year shall be the credit based upon income, computed as provided in section 713, or the credit based on invested capital, computed as provided in section 714, whichever credit results in the lesser tax for the taxable year for which the tax is being computed:

(1) A domestic corporation which was actually in existence before January 1, 1940.

(2) A domestic corporation which was not actually in existence before January 1, 1940, but which, as an acquiring corporation within the meaning of section 740 of Supplement A, was constructively in existence before January 1, 1940. (For computation of excess profits credit based on income in the case of an acquiring corporation, see sections 740 to 744.)

(3) A foreign corporation (i) which is engaged in trade or business within the United States; (ii) the first taxable year of which for the purposes fo the excess profits tax begins on any day in 1940; (iii) which was in existence on the date 48 months prior to such date; and (iv) which, at any time during each of the taxable years in such 48 months, was engaged in trade or business within the United States. As to what constitutes being engaged in trade or business within the United States, see § 19.231–1 of Regulations 103.

(c) For taxable years beginning after December 31, 1939, and before January 1, 1942, the excess profits credit of the following corporations for any such taxable year shall be the credit based upon income, computed as provided in section 713, or the credit based on invested capital, computed as provided in section 714, whichever credit results in the lesser tax for such taxable year:

(1) A domestic corporation which was actually in existence before January 1, 1940.

(2) A domestic corporation which was not actually in existence before January 1, 1940, but which, as an acquiring corporation within the meaning of section 740 of Supplement A, was constructively in existence at the beginning of its base period. (For computation of excess profits credit based on income in the case of an acquiring corporation, see sections 740 to 744, prior to amendment by the Revenue Act of 1942.)

(3) A domestic corporation which is an acquiring corporation within the meaning of section 740 of Supplement A and which was actually or constructively in existence before January 1, 1940, if such corporation elects, in accordance with the provisions of § 30.742–2 (c), to have the amendments made by section 228 of the Revenue Act of 1942 apply to its taxable years beginning after December 31, 1939, and before January 1, 1942. (For computation of excess profits credit based on income in the case of an acquiring corporation, see sections 740 to 744.)

(4) A foreign corporation (i) which is engaged in trade or business within the United States, or has an office or place of business therein, at any time during the taxable year; (ii) the first taxable year of which for the purposes of the excess profits tax begins on any day in 1940; (iii) which was in existence on the date 48 months prior to such date; and (iv) which, at any time during each of the taxable years in such 48 months, was engaged in trade or business within the United States, or had an office or place of business therein. As to what constitutes being engaged in trade or business within the United States, see § 19.231–1 of Regulations 103.

(d) The following corporations are required to compute their credit under the invested capital method provided in section 714:

(1) For all excess profits tax taxable years, a domestic corporation which is not an acquiring corporation within the meaning of section 740 of Supplement A and which was not actually in existence before January 1, 1940.

(2) For taxable years beginning after December 31, 1941, a domestic corporation which is an acquiring corporation within the meaning of section 740 of Supplement A and which was not actually or constructively in existence before January 1, 1940.

(3) For taxable years beginning after December 31, 1939, and before January 1, 1942, a domestic corporation which is an acquiring corporation within the meaning of section 740 of Supplement A and which was only constructively in existence before January 1, 1940, but not constructively in existence at the beginning of its base period, unless such corporation elects, under § 30.742–2 (e), to have the amendments made by section 228 of the Revenue Act of 1942 apply to such taxable years.

(4) For taxable years beginning after December 31, 1941, a foreign corporation which does not meet the requirements of paragraph (b) (3) above.

(5) For taxable years beginning after December 31, 1939, and before January 1, 1942, a foreign corporation which does not meet the requirements of paragraph (c) (4) above.

PAR. 3. There is inserted immediately preceding § 30.713–1 the following:

SEC. 214. INTEREST ON CERTAIN FEDERAL OBLIGATIONS. (Revenue Act of 1942, Title II.)

(a) *Computation of income deficit.* Section 713 (c) (relating to definition of deficit) is amended to read as follows:

(c) *Deficit in excess profits net income.* For the purposes of this section the term "deficit in excess profits net income" with respect to any taxable year means the amount by which the deductions plus the credit for dividends received and the credit provided in section 26 (a) (relating to interest on certain obligations of the United States and its instrumentalities) exceeded the gross income. For the purposes of this subsection in determining whether there was such an excess and in determining the amount thereof, the adjustments provided in section 711 (b) (1) shall be made.

(b) *Cross references.* For amendments to Supplement A on computation of base period income in case of certain reorganizations, see section 228 of this Act.

SEC. 215. BASE PERIOD NET INCOME OF LOWEST YEAR IN BASE PERIOD. (Revenue Act of 1942, Title II.)

Section 713 (e) (1) (relating to exclusion of deficit year from computation of average base period net income) is amended to read as follows:

(1) By computing the aggregate of the excess profits net income for each of the taxable years of the taxpayer in the base period, reduced by the sum of the deficits in excess profits net income for each of such years. If the excess profits net income (or deficit in excess profits net income) for one taxable year in the base period divided by the number of months in such taxable year is less than 75 per centum of the aggregate of the excess profits net income (reduced by deficits in excess profits net income) for the other taxable years in the taxpayer's base period divided by the number of months in such other taxable years (herein called "average monthly amount") the amount used for such one year under this paragraph shall be 75 per centum of the average monthly amount multiplied by the number of months in such one year, and the year increased under this sentence shall be the year the increase in which will produce the highest average base period net income.

SEC. 216. CAPITAL REDUCTION IN CASE OF MEMBERS OF CONTROLLED GROUP. (Revenue Act of 1942, Title II.)

Section 713 (g) (relating to adjustments in excess profits credit on account of capital changes) is amended by adding at the end thereof the following new paragraph:

(5) If, on any day of the taxable year, the taxpayer and any one or more other corporations are members of the same controlled group, then the daily capital reduction of the taxpayer for such day shall be increased by whichever of the following amounts in the lesser:

(A) The aggregate of the adjusted basis (for determining loss upon sale or exchange) of stock in such other corporation (or if more than one, in such other corporations) acquired by the taxpayer after the beginning of the taxpayer's first taxable year under this subchapter, minus the aggregate of the adjusted basis (for determining loss upon sale or exchange) of stock in such other corporation (or if more than one, in such other corporations) disposed of by the taxpayer prior to such day and after the beginning of the taxpayer's first taxable year under this subchapter; or

(B) The excess of the aggregate of the adjusted basis (for determining loss upon sale or exchange) of stock in all domestic corporations and of obligations described in section 22 (b) (4), held by the taxpayer at the beginning of such day over the aggregate of the adjusted basis (for determining loss upon sale or exchange) of stock in all domestic corporations and of obligations described in section 22 (b) (4), held by the taxpayer at the beginning of its first taxable year under this subchapter.

If any stock or obligations described in subparagraph (A) or (B) was disposed of prior to such day, its basis shall be determinded under the law applicable to the year in which so disposed of. The excluded capital of the taxpayer for such day shall be reduced by the amount by which the taxpayer's daily capital reduction for such day is increased under this paragraph. As used in this paragraph, a controlled group means one or more chains of corporations connected through stock ownership with a common parent corporation if (i) more than 50 per centum of the total combined voting power of all classes of stock entitled to vote, or more than 50 per centum of the total value of shares of all classes of stock, of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations and (ii) the common parent corporation owns directly more than 50 per centum of the total combined voting power of all classes of stock entitled to vote, or more than 50 per centum of the total value of shares of all classes of stock, of at least one of the other corporations.

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

SEC. 228. RULES FOR INCOME CREDIT IN CONNECTION WITH CERTAIN EXCHANGES. (Revenue Act of 1942, Title II.)

(e) *Amendments to excess profits tax made necessary by amendments to Supplement A.*

* * * * *

(2) *Technical amendment.* Section 713 (a) (1) (A) (relating to amount of credit for income method) is amended to read as follows:

(A) 95 per centum of the average base period net income, .

(f) *Taxable years to which amendments applicable.* The amendments made by this section shall be applicable only to the computation of the tax for taxable years beginning after December 31, 1941, except that (1) the last sentence of section 740 (c), as added by subsection (a) of this section shall be applicable to the computation of the tax for all taxable years beginning after December 31, 1939, and (2) if a taxpayer, within the time and in the manner and subject to such regulations as the Commissioner with the approval of the Secretary prescribes, elects to have such amendments (except those which by their terms are limited to taxable years beginning after December 31, 1941, and except that referred to in clause (1)) apply retroactively to all taxable years of the taxpayer beginning after December 31, 1939, such amendments shall also be applicable to the computation of the tax for taxable years beginning after December 31, 1939.

PAR. 4. Section 30.713–1, as amended by Treasury Decision 5045, is further amended as follows:

(A) By changing paragraph (b) as follows:

By changing the first sentence thereof (including (1), (2), (3), and (4) following the colon) to read as follows:

The following steps are required for the computation of the average base period net income under the general average method (for computation of excess profits net income for portions of its base period during which the corporation was not in existence, see paragraph (d) of this section, and for certain limitations upon the average base period net income of a component corporation (as defined in section 740 (b)), see § 30.740–2):

(1) The excess profits net income, or deficit in excess profits net income, for each of the taxable years in the base period (years beginning after December 31, 1935, and before January 1, 1940) is to be determined as provided in section 711 (b), except that for the purpose of the tax for taxable years beginning before January 1, 1942, the credit for interest received allowed by section 26 (a), though taken into account in computing excess profits net income, is not taken into account in computing a deficit in excess profits net income. By "deficit in excess profits net income" is meant the excess of deductions plus the credit for dividends received plus, for the purposes of the tax for taxable years beginning after December 31, 1941, the credit for interest received allowed by section 26 (a) over gross income. For the purpose of the tax for taxable years beginning after December 31, 1941, if the amount for one taxable year in the base period for which the excess profits net income or the deficit in excess profits net income, as the case may be, when divided by the number of months in such year, is less than 75 percent of the average monthly amount (for the other taxable years in the base period), there shall be substituted for the amount for such one year an amount equal to 75 percent of such average monthly amount multiplied by the number of months in such year. The year to be increased under this provision is the year the increase in which will produce the highest average base period net income. The "average monthly amount" referred to is the aggregate of the excess profits net income (reduced by deficits in excess profits net income) for the other taxable years in the taxpayer's base period divided by the number of months in such other taxable years.

(2) The aggregate of the excess profits net income for the taxable years in the base period, determined with respect to each year as provided in (1) above, disregarding any taxable year for which (after the application of (1) above) the excess profits net income is less than zero, is to be computed.

(3) From such aggregate amount there is to be deducted, for the purposes of the tax for taxable years beginning after December 31, 1941, the sum of the deficits in excess profits net income, excluding a deficit for which an amount of income has been substituted as provided in (1) above, and for the purposes of the tax for taxable years beginning before January 1, 1942, the sum of the deficits in excess profits net income, excluding the greatest.

(4) Such aggregate amount as so reduced is to be divided by the number of months in the taxable years in the base period and the quotient so obtained is to be multiplied by 12. In no case shall the average base period net income be less than zero.

2. By changing the introductory clause to the example to read as follows:

The computation of the average base period net income for the purpose of the tax for taxable years beginning before January 1, 1942, may be illustrated by the following example:

3. By striking from item (a) in the example "713 (b) (1)" and by inserting in lieu thereof "713 (e) (1)".

4. By striking from item (b) in the example "713 (b) (1) and (4)" and by inserting in lieu thereof "713 (c) and (e) (1)".

5. By inserting immediately after the example, the following paragraphs:

For the purpose of the tax for taxable years beginning after December 31, 1941, if the base period is composed solely of four taxable years of 12 months each, the base period year which may be adjusted under section 713 (e) (1) is the year of the lowest amount, i. e., the lowest excess profits net income or the greatest deficit. If the base period is more or less than 48 months, or is composed of more than four taxable years, the base period year the increase in the amount of which will produce the highest average base period net income and which may be adjusted accordingly under section 713 (e) (1) must be determined by a test upon the facts of the case.

The computation of the average base period net income for the purpose of the tax for taxable years beginning after December 31, 1941, may be illustrated by the following examples:

Example (1). Assume the same facts as in the example just above, except that the computation is being made for the purpose of the tax for a taxable year of the X Corporation beginning in 1942. For such purpose, the average base period net income of the corporation is $21,875, computed as follows:

(a) Amount (excess profits net income or deficit) for taxable year in which increase under section 713 (e) (1) will produce highest average base period net income (calendar year 1937)	−$100,000
(b) Average monthly deficit for 1937 ($100,000÷12)	−8,333
(c) Aggregate for other taxable years in base period of excess profits net income reduced by deficits in excess profits net income ($100,000+$30,000−$60,000)	$70,000
(d) 75 percent of average monthly amount ($70,000÷36, the number of months in the taxable years in the base period other than 1937) multiplied by the number of months in 1937. This amount is the substitute amount for 1937. (75 percent of $\frac{\$70,000}{36}\times 12$)	17,500
(e) Aggregate of excess profits net income for taxable years in base period (other than those years for which there is a deficit in such income) before reduction required by section 713 (e) (1). ($100,000+$17,500−$30,000)	147,500
(f) Amount item (e) above is to be reduced as required by section 713 (c) and (e) (1), i. e., deficit in excess profits net income for 1938	$60,000
(g) Aggregate of excess profits net income for taxable years in base period as reduced (item (e) minus item (f))	87,500
(h) Average base period net income, $87,500 (item (g)) divided by 48 (total number of months in taxable years in base period), multiplied by 12, or $\frac{\$87,500}{48}\times 12$	21,875

Example (2). The excess profits net income (or deficit in excess profits net income), credit for interest received, credit for dividends received, deductions, and gross income (all computed by making the adjustments provided in section 711 (b)) of the Y Corporation (a domestic corporation), for its taxable years beginning in the base period (the calendar years 1936 and 1937, the short-period year January 1, 1938, through June 30, 1938, resulting from a change from the calendar year to a fiscal year, and the fiscal years ending June 30, 1939, and June 30, 1940) are as follows:

	Calendar year 1936	Calendar year 1937	Short period year 1938	Fiscal year 1939	Fiscal year 1940
Excess profits net income	$100,000	−$60,000	−$60,000	−$40,000	$25,200
Credit for interest received	10,000	10,000	5,000	10,000	10,000
Credit for dividends received	20,000	27,000	15,000	20,000	20,000
Deductions	60,000	170,000	100,000	130,000	141,800
Gross income	190,000	125,000	60,000	120,000	200,000

The average base period net income of the corporation is $6,800.00, computed as follows:

(a) Amount (excess profits net income or deficit) for taxable year in which increase under section 713 (e) (1) will produce highest average base period net income (calendar year 1937)	−$60,000
(b) Average monthly deficit for 1937 (−$60,000÷12)	−5,000
(c) Aggregate for other taxable years in base period of excess profits net income reduced by deficits in excess profits net income ($100,000+$25,200−$60,000−$40,000)	25,200
(d) Average monthly amounts ($25,200÷42 (total number of months in taxable years in base period other than 1937))	600
(e) 75 percent of amount in (d)	450
(f) Amount of excess profits net income to be used for 1937 (12×$450)	5,400
(g) Aggregate of excess profits net income for taxable years in base period (other than those years for which there is a deficit in such income), before reduction required by section 713 (e) (1) ($100,000+$5,400+$25,200)	130,600
(h) Amount item (g) above is to be reduced as required by section 713 (c) and (e) (1), i. e., sum of deficits in excess profits net income $60,000+40,000)	100,000
(i) Aggregate of excess profits net income for taxable years in base period as reduced (item (g) minus item (h))	30,600
(j) Average base period net income, $30,600 (item (i)), divided by 54 (total number of months in taxable years in base period), multiplied by 12, or $\frac{\$30,600}{54}\times 12$	6,800

(B) By changing paragraph (c) as follows:

1. By changing the last sentence of subparagraph (2) to read as follows:

In making this computation, no deficit in excess profits net income shall be excluded, nor any substitute amount of excess profits net income, or deficit, used, for any year as in the case of the general average method under section 713 (e) (1).

2. By inserting at the end of subparagraph (6) thereof the following sentence:

For restrictions upon this limitation in the case of a component corporation (as defined in section 740 (b)) which continues in existence after a Supplement A transaction, for the purpose of computing the excess profits credit of such component corporation for a taxable year beginning after December 31, 1941, see § 30.740–2.

PAR. 5. Section 30.713–2 is amended as follows:

(A) By changing the fifth sentence to read as follows:

Capital reductions are (1) distributions since the beginning of the first excess profits tax taxable year which are not out of earnings and profits; and (2), in the case of taxable years beginning after December 31, 1941, increased holdings since the beginning of the first excess profits tax taxable year of stock in another corporation which is a member of a controlled group of corporations of which the taxpayer is also a member, limited as provided in section 713 (g) (5) (B).

(B) By inserting at the end thereof the following new paragraph:

Section 713 (g) (5) applies only to taxable years beginning after December 31, 1941. It provides that, if on any day of the taxable year a taxpayer and one or more other corporations are members of the same controlled group, the increase in the taxpayer's holdings in the stock of such other corporation or corporations since the beginning of the taxpayer's first excess profits tax taxable year and before the beginning of such day shall be a daily capital reduction of the taxpayer for such day, except as limited by (b), below. The amount of such daily capital reduction for the amount by which the taxpayer's daily capital reduction for such day is to be increased) on account of such stock is the lesser of the amounts determined by two rules:

(a) The first rule provides that the amount of such increase shall equal the aggregate of the adjusted basis (for determining loss upon sale or exchange) of the stock in such other corporation or corporations acquired by the taxpayer after the beginning of the taxpayer's first excess profits tax taxable year, minus the aggregate of the adjusted basis (for determining loss upon sale or exchange) of the stock in such other corporation or corporations disposed of by the taxpayer prior to such day and after the beginning of the taxpayer's first excess profits tax taxable year.

(b) The second rule provides that the amount of such increase shall equal the excess of the aggregate of the adjusted basis (for determining loss upon sale or exchange) of stock in all domestic corporations and of obligations described in section 22 (b) (4), held by the taxpayer at the beginning of its first excess profits tax taxable year.

In applying these rules, if any stock or obligations referred to therein were disposed of prior to the day for which the computation is being made, the basis shall be determined under the law applicable to the year in which disposed of.

The excluded capital of the taxpayer for the day for which the computation is being made shall be reduced by the amount by which the taxpayer's daily capital reduction for such day is increased by the application of such rules.

For definition of the term "controlled group", as here used, see section 713 (g) (5).

The effect of section 713 (g) (5), as added by the Revenue Act of 1942, may be illustrated by the following example:

Example. Corporation A and Corporation B compute their income taxes on the calendar year basis. Corporation B has 10,000 shares of capital stock outstanding. Corporation A engages in the following transactions with respect to the following items:

With Respect to Stock of B Corporation

Jan. 1, 1932, acquired 1,000 shares (10%) with a basis of $10,000.

Sept. 30, 1941, acquired 4,500 shares (45%) with a basis of $45,000.

Aug. 31, 1942 sold 1,000 shares (10%) with a basis of $10,000.

With respect to bonds of Sale of X

Jan. 1, 1939, acquired bonds with a basis of $40,000.

March 31, 1941, acquired bonds with a basis of $50,000.

April 30, 1942, sold bonds with a basis of $75,000.

With respect to capital additions

June 30, 1941, capital stock issued (to others than B) for $75,000 cash.

The daily capital additions and reductions of A for 1941 and 1942 are as follows:

CAPITAL ADDITIONS FOR 1941

(1) For each day in period—	(2) Cumulative additions to capital	(3) Increase in excluded capital since Dec. 31, 1939	(4) Capital additions (item (2), minus item (3), but not less than zero)
(a) Jan. 1–Apr. 30	$75,000 (stock issued)	$50,000 ($95,000 minus $45,000 capital reduction in (b))	$25,000
(b) May 1–Aug. 31	$75,000 (stock issued)	0 ($20,000 minus $20,000 capital reduction in (c) below)	$75,000
(c) Sept. 1–Dec. 31	$75,000 (stock issued)	$10,000	$65,000

CAPITAL REDUCTIONS FOR 1942

(1) For each day in period—	(2) Basis of stock in B held	(3) Lesser of basis of stock in B acquired since Dec. 31, 1939, or of increase in excluded capital since Dec. 31, 1939	(4) Capital reduction (amount in col. (2) or col. (3), if 50% or more)
(a) Jan. 1–Apr. 30	$55,000 (55%)	$45,000 (stock in B)	$45,000
(b) May 1–Aug. 31	$55,000 (55%)	$20,000 (excluded capital)	$20,000
(c) Sept. 1–Dec. 31	$45,000 (45%)	----------	0

Note to (c) and (g)

Excluded capital May 1, 1942: $75,000 basis of X plus $55,000 basis of B plus 10,000 basis of B $130,000
Excluded capital Jan. 1, 1942: $75,000 basis of X plus $50,000 stock of B 125,000
Increase in excluded capital as of May 1, 1942 5,000

Note to (d)

Excluded capital Sept. 1, 1942: $75,000 basis of X plus $45,000 stock of B 120,000
Excluded capital Jan. 1, 1942: $50,000 basis of X plus $30,000 stock of B 80,000
Increase in excluded capital as of Sept. 1, 1942 40,000

SEC. 212 APPLICATION OF EXCESS PROFITS TAX TO CERTAIN FOREIGN CORPORATIONS. (Revenue Act of 1942 Title II.)

(a) Section 712 (b) (relating to the excess profits credit of foreign corporations) and section 724 (relating to invested capital in the case of foreign corporations and corporations entitled to the benefits of section 251) are amended by striking out "or having an office or place of business therein." wherever occurring therein and section 712 (b) is amended by striking out "or had an office or place of business therein".

* * * * *

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 7. Section 30.724–1 is amended by changing that portion of the first sentence thereof preceding the colon to read as follows:

In the case of a foreign corporation engaged in trade or business within the United States (or, if the tax is being computed for taxable years beginning before January 1, 1942, having an office or place of business therein) and in the case of a corporation entitled to the benefits of section 251 (on account of deriving a large portion of its gross income from possessions of the United States),

(a) *Amendments to section 740.* Section 740 is amended to read as follows:

SEC. 740. DEFINITIONS.

(a) EXCESS PROFITS CREDIT BASED ON INCOME.—For the purposes of this subchapter, the excess profits credit based on income for any taxable year shall be an amount equal to the sum of—

(1) 95 per centum of the average base period net income, plus

(2) 10 per centum of the excess of the adjusted capital for the taxable year over the sum of the capital credit for the taxable year and the average base period net income.

(b) EXCESS PROFITS CREDIT BASED ON INVESTED CAPITAL.—For the purposes of this subchapter, the excess profits credit based on invested capital for any taxable year shall be an amount equal to the sum of—

(1) 6 per centum of the invested capital credit for the taxable year, plus

(2) 10 per centum of the excess of the adjusted capital for the taxable year over the invested capital credit for the taxable year.

(c) INVESTED CAPITAL CREDIT.—For the purposes of this subchapter, the invested capital credit for any taxable year shall be an amount equal to the average invested capital for the taxable year.

(d) AVERAGE BASE PERIOD NET INCOME.—For the purposes of this subchapter, the average base period net income for any taxable year shall be an amount equal to the average annual net income of the taxpayer for the base period, computed by adding to the net income for each taxable year in the base period the amount of the unused excess profits credit carry-over and the unused excess profits credit carry-back for such year, if any, and dividing the sum by the number of taxable years in the base period. For the purposes of this subsection, the net income for any taxable year in the base period shall be the net income computed under section 711 (a) (2) (A) (i) and (ii) (relating to adjustments of net income), except that (1) the net income for any taxable year beginning after December 31, 1941, shall be computed under section 711 (a) (2) (A) (i) and (ii) (relating to adjustments of net income) as if the tax imposed by this chapter for such year were the tax imposed by section 11 (relating to normal tax and surtax) and (2) the net income for any taxable year beginning before January 1, 1942, shall be computed under section 711 (a) (2) (A) (i) and (ii) (relating to adjustments of net income) as if the tax imposed by this chapter for such year were the tax imposed by section 13 (relating to normal tax and surtax) and such other taxable years.

the invested capital for any taxable year shall be invested capital as provided in sections 715, 716, 717, and 720, with the following exceptions:

PAR. 8. There is inserted immediately preceding § 30.725–1, the following:

SEC. 223 EXEMPT CORPORATIONS. (Revenue Act of 1942, Title II.)

* * * * *

(b) *Personal service corporation not exempt if consolidated return filed.* Section 725 (b) (relating to exemption of personal service corporations) is amended by inserting at the end thereof the following new sentence: "Such corporation shall not be exempt for such year if it is a member of an affiliated group of corporations filing consolidated returns under section 141."

* * * * *

SEC 201 TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 9. Section 30.725–1 is amended by changing the second sentence thereof to read as follows:

Such an election may not be exercised by a corporation filing a consolidated return under section 141 for a taxable year beginning after December 31, 1941. If a corporation is exempt by reason of the exercise of such an election, the provisions of Supplement S (sections 391 to 396, inclusive) shall apply to the shareholders in such corporation who were such shareholders on the last day of the taxable year of the corporation.

PAR. 10. Section 30.725–3 is amended by changing the first sentence thereof to read as follows:

The election as to taxability provided for in section 725 (b) and the exemption from tax, where such is allowable, have application only to the excess profits tax on domestic corporations imposed under Subchapter E of Chapter 2.

PAR. 11. There is inserted immediately preceding § 30.727–1 the following:

SEC 212 APPLICATION OF EXCESS PROFITS TAX TO CERTAIN FOREIGN CORPORATIONS (Revenue Act of 1942, Title II.)

* * * * *

(b) Section 727 (f) (relating to exempt corporations) is amended by striking out "and not having an office or place of business therein".

SEC. 223 EXEMPT CORPORATIONS. (Revenue Act of 1942, Title II.)

(a) *Not exempt if consolidated returns filed.* So much of section 727 as reads "The following corporations shall be exempt from the tax imposed by this subchapter" is amended to read as follows: "The following corporations, except a member of an affiliated group of corporations filing consolidated returns under section 141, shall be exempt from the tax imposed by this subchapter".

* * * * *

(c) *Exemption of regulated investment companies.* Section 727 (c) and (d) (relating to exemption of certain investment companies from excess profits tax) are amended to read as follows:

(c) Regulated investment companies as defined in section 361 without the application of section 361 (b) (4).

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. Revenue Act of 1942, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 12. Section 30.727–1 is amended by inserting immediately after paragraph (d) thereof the following new paragraph:

(e) If any corporation described in subsection (a), (b), (c), (d), (e), (f), (g), or (h) of section 727 is a member of an affiliated group of corporations filing consolidated returns under section 141 for any taxable year beginning after December 31, 1941, such corporation shall not be exempt under section 727 for such year.

PAR. 13. There is inserted immediately preceding § 30.729–1 the following:

SEC 205. COMPUTATION OF EXCESS PROFITS AND INVESTED CAPITAL OF INSURANCE COMPANIES. (Revenue Act of 1942, Title II.)

* * * * *

(g) *Specific exemption and returns of interinsurers and reciprocal underwriters.*

* * * * *

(2) *Returns.* Section 729 (b) (2) is amended by inserting before the period at the end thereof the following: "or, in the case of a mutual insurance company (other than life or marine) which is an interinsurer or reciprocal underwriter, is not greater than $50,000".

SEC. 224 EXCESS PROFITS TAX RETURNS. (Revenue Act of 1942, Title II.)

(a) Section 729 (b) (1) (relating to double computation on returns) is repealed.

(c) The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1939.

SEC. 225 CONSOLIDATED RETURNS. (Revenue Act of 1942, Title II.)

* * * * *

(b) *Cross reference.* Section 729 (b) (relating to returns) is amended by adding at the end thereof the following new paragraph:

(3) *Consolidated returns.* For provisions relating to consolidated returns, see section 141.

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 14. Section 30.729–1 as amended by Treasury Decision 5131, approved March 31, 1942, is further amended by striking out the last paragraph and by inserting in lieu thereof the following paragraphs:

Any taxpayer which is entitled to have its excess profits credit computed under section 713 or section 714, whichever credit results in the lesser excess profits tax, is required to file a return on Form 1121 (revised), and such return shall contain all the information required by such form and by these regulations with respect to computation of such tax. The return, however, requires the computation of the tax with only the credit which results in the lesser tax, and a return so filed meets the requirements of the statute. Thus a taxpayer may omit from the return the computation and information with respect to the excess profits credit under section 713 or section 714 which does not result in the lesser excess profits tax and may omit the computation and information with respect to the excess profits net income otherwise to be computed with such omitted credit. A return filed in this manner shall be audited as filed, regardless of whether it may be determined that the use of the omitted credit would result in a lesser tax. Any disclaimer of the use of an excess profits credit and of the method of determining the tax thereunder, filed under the law applicable to taxable years beginning in 1940 and 1941, is rendered ineffective by the amendments made by section 224 of the Revenue Act of 1942. A corporation which files a return is not, by reason of the fact that only one method is employed or (for taxable years beginning in 1940 and 1941) that only one method was used and the other was disclaimed, precluded from using the other method in the computation of its excess profits tax for such taxable year and, if an overpayment results, from filing a claim for the refund of such overpayment within the applicable period of limitation.

For provisions relating to consolidated returns for taxable years beginning after December 31, 1941, see section 141 and the regulations prescribed thereunder.

PAR. 15. There is inserted immediately preceding § 30.730–1 the following:

SEC. 225. CONSOLIDATED RETURNS. (Revenue Act of 1942, Title II.)

(a) *Section 730 not applicable.* Section 730 (relating to consolidated excess profits tax returns) shall not apply with respect to any taxable year beginning after December 31, 1941.

* * * * *

PAR. 16. Section 30.730–1 is amended to read as follows:

§ 30.730–1 *Consolidated excess profits tax returns of affiliated corporations.* Regulations prescribed in this section, §§ 30.730–2, 30.730–3, and 30.730–4, and in Regulations 110 are applicable to the making of consolidated excess profits tax returns by affiliated corporations for taxable years beginning after December 31, 1939, and before January 1, 1942, and to the determination, computation, assessment, collection, and adjustment of tax liabilities under consolidated returns for such years. As to the making of consolidated excess profits tax returns for taxable years beginning after December 31, 1941, and the determination, computation, assessment, collection, and adjustment of tax liabilities under consolidated returns for such years, see the regulations prescribed under section 141 (and in separate regulations authorized thereunder). For definition of taxable year, see section 48.

PAR. 17. There is inserted immediately preceding § 30.740–1 the following:

SEC. 228. RULES FOR INCOME CREDIT IN CONNECTION WITH CERTAIN EXCHANGES (Revenue Act of 1942, Title II.)

(a) *Amendments to section 740.* Section 740 is amended to read as follows:

SEC. 740. DEFINITIONS.

For the purposes of this Supplement—

(a) *Acquiring corporation.* The term "acquiring corporation" means—

(1) A corporation which has acquired—

(A) substantially all the properties of another corporation and the whole or a part of the consideration for the transfer of such properties is the transfer to such other corporation of all the stock of all classes (except qualifying shares) of the corporation which has acquired such properties, or

(B) substantially all the properties of another corporation and the sole consideration for the transfer of such properties is the transfer to such other corporation of voting stock of the corporation which has acquired such properties, or

(C) before October 1, 1940, properties of another corporation solely as paid-in surplus or a contribution to capital in respect of voting stock owned by such other corporation, or

(D) substantially all the properties of a partnership in an exchange to which section 112 (b) (5), or so much of section 112 (c) or (e) as refers to section 112 (b) (5), or to which a corresponding provision of a prior revenue law, is or was applicable.

For the purposes of subparagraphs (B) and (C) in determining whether such voting stock or such paid-in surplus or contribution to capital is the sole consideration, the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded. Subparagraph (B) or (C) shall apply only if the corporation transferring such properties is forthwith completely liquidated in pursuance of the plan under which the acquisition is made, and the transaction of which the acquisition is a part has the effect of a statutory merger or consolidation.

(2) A corporation which has acquired property from another corporation in a transaction with respect to which gain or loss was not recognized under section 112 (b) (6) of Chapter 1 or a corresponding provision of a prior revenue law;

(3) A corporation the result of a statutory merger of two or more corporations; or

(4) A corporation the result of a statutory consolidation of two or more corporations.

(b) *Component corporation.* The term "component corporation" means—

(1) In the case of a transaction described in subsection (a) (1), the corporation which transferred the assets;

(2) In the case of a transaction described in subsection (a) (2), the corporation the property of which was acquired;

(3) In the case of a statutory merger, all corporations merged, except the corporation resulting from the merger; or

(4) In the case of a statutory consolidation, all corporations consolidated, except the corporation resulting from the consolidation; or

(5) In the case of a transaction specified in subsection (a) (1) (D), the partnership whose properties were acquired.

(c) *Income of certain component corporations not included.* For the purposes of section 712, section 742, and section 743 in the case of a corporation which is a component corporation in a transaction described in subsection (a)—

(1) Except as provided in paragraph (2), for the purpose of computing, for any taxable year beginning after December 31, 1941, the excess profits credit of such component corporation or of an acquiring corporation of which the acquiring corporation in such transaction is not a component, except in the application of sections 713 (f) and 742 (h), other than the limitation on the amount of average base period net income or Supplement A average base period net income, as the case may be, determined thereunder), no account shall be taken of the excess profits net income of such component corporation for any period before the day after such transaction, or of the excess profits net income for any period before the day after such transaction of its component corporations in any transaction before such transaction, and no account shall be taken of the capital addition or capital reduction of such component corporation either immediately before such transaction or for any prior period, or of the capital addition or capital reduction either immediately before such transaction or for any prior period of its component corporations in any transaction before such transaction.

(2) In case such transaction occurred in a taxable year of such component corporation beginning after December 31, 1941, for the purpose of computing the excess profits credit of such component corporation for such taxable year, the amount of its average base period net income or Supplement A average base period net income, as the case may be, shall be limited to an amount which bears the same ratio to such average base period net income or Supplement A average base period net income, as the case may be (computed without regard to this paragraph but with the application of paragraph (1) in case of a prior transaction described in subsection (a) with respect to such component corporation or a component corporation thereof), as the number of days in such taxable year before the day after such transaction bears to the total number of days in such taxable year.

For the purposes of section 742, in the case of a corporation which is a component corporation in a transaction described in subsection (a), in computing for any taxable year the Supplement A average base period net income of the acquiring corporation in such transaction or of a corporation of which such acquiring corporation becomes a component corporation, no account shall be taken of the excess profits net income of such component corporation for any period beginning with the day after such transaction.

(d) In the case of a taxpayer which is an acquiring corporation the base period shall be the four calendar years 1936 to 1939, both inclusive, except that, if the taxpayer became an acquiring corporation prior to September 1, 1940, the base period shall be the same as that applicable to its first taxable year ending in 1941.

(e) *Base period years.* In the case of a taxpayer which is an acquiring corporation its base period years shall be the four successive twelve-month periods beginning on the same date as the beginning of its base period.

(f) *Existence of acquiring corporation.* For the purposes of section 712 (a), if any component corporation of the taxpayer was in existence before January 1, 1940, the taxpayer shall be considered to have been in existence before such date.

(g) *Component corporations of component corporations.* If a corporation is a component corporation of an acquiring corporation, under subsection (b) or under this subsection, it shall (except for the purposes of section 742 (d) (1) and (2) and section 743 (a) (1), (2), and (3)) also be a component corporation of the corporation of which such acquiring corporation is a component corporation.

(h) *Sole proprietorship.* For the purposes of sections 740 (a) (1) (D), 740 (b) (5), and 742 (g), a business owned by a sole proprietorship shall be considered a partnership.

* * * * *

(f) *Taxable years to which amendments applicable.* The amendments made by this section shall be applicable only to the computation of the tax for taxable years beginning after December 31, 1941, except that (1) the last sentence of section 740 (c), as added by subsection (a) of this section shall be applicable to the computation of the tax for all taxable years beginning after December 31, 1939, and (2) if a taxpayer, within the time and in the manner and subject to such regulations as the Commissioner with the approval of the Secretary prescribes, elects to have such amendments (except those which by their terms are limited to taxable years beginning after December 31, 1941, and except that referred to in clause (1)) apply retroactively to all taxable years of the taxpayer beginning after December 31, 1939, such amendments shall also be applicable to the computation of the tax for taxable years beginning after December 31, 1939.

PAR. 18. Section 30.740–1, as amended by Treasury Decision 5045, is further amended as follows:

(A) By striking from the fifth sentence of paragraph (a) "743 (a)" and inserting in lieu thereof "743 (a) (1), (2), and (3)".

(B) By striking from paragraph (a) the sixth sentence (relating to qualified component corporation) and inserting in lieu thereof the following:

For the purposes of the excess profits tax for taxable years beginning after December 31, 1939, and before January 1, 1942, the concept of a qualified component corporation is employed in determining the component corporations the base period experience of which may be taken into account by the acquiring corporation. Under such concept, a component corporation is a qualified component corporation if it or one of its component corporations was actually in existence at the beginning of the acquiring corporation's base period. For the purposes of the excess profits tax for taxable years beginning after December 31, 1941, such concept is not used, except for the limited purposes of section 742 (d). Moreover, in the case of taxable years beginning after December 31, 1939, and before January 1, 1942, the concept of a qualified component corporation is not employed (except for the limited purposes of section 742 (d)) if the acquiring corporation elects, in accordance with the provisions of § 30.742–2 (e), to have the amendments made by section 228 of the Revenue Act of 1942 apply to taxable years beginning after December 31, 1939.

(C) By changing clause (2) of the first sentence of paragraph (b) to read as follows:

(2) that a corporation composed in whole or in part of component corporations of the prescribed class may compute its excess profits credit in the light of the base period experience of the entire enterprise.

(D) By striking out the part of paragraph (b) following the first sentence and inserting in lieu thereof the following:

In the case of taxable years beginning after December 31, 1939, and before January 1, 1942, the component corporations the base period experience of which may be taken into account are confined to "qualified component cor-

porations", as defined in paragraph (a) of this section, except that, if the acquiring corporation makes the election provided in § 30.742–2 (e), the rule applicable to taxable years beginning after December 31, 1941, shall apply. In the case of taxable years beginning after December 31, 1941, the component corporations the base period experience of which may be taken into account are component corporations which were actually in existence before the close of the taxpayer's base period, as defined in section 740 (d). Accordingly, an acquiring corporation which was not actually in existence before the close of its base period is given the right to use the excess profits credit based on income: *Provided*, That it has a component corporation of the prescribed class in existence before January 1, 1940.

In the case of an acquiring corporation which uses an excess profits credit based on income:

(1) For taxable years beginning after December 31, 1939, and before January 1, 1942, if it was not actually in existence before January 1, 1940, its average base period net income must be computed under Supplement A, and in every other case its average base period net income may, at the taxpayer's election made in its return, be computed under Supplement A; except that, if it makes the election provided in § 30.742–2 (e), the rule applicable to taxable years beginning after December 31, 1941, shall apply; and

(2) For taxable years beginning after December 31, 1941, its average base period net income must be computed under section 713 or Supplement A, whichever method results in the greater average base period net income.

In the case of taxable years beginning after December 31, 1939, and before January 1, 1942, an acquiring corporation is required to add to its daily capital addition or reduction the net capital addition or reduction of each component corporation, unless it elects, as provided in § 30.742–2 (e), to apply the rule applicable to taxable years beginning after December 31, 1941. The rule for taxable years beginning after December 31, 1941, is that an acquiring corporation is not required or permitted to take into account the net capital addition or reduction of any component corporation unless it computes its average base period net income under Supplement A.

PAR. 19. Section 30.740–2, as amended by Treasury Decision 5045, is further amended by inserting at the end thereof the following new paragraph:

(c) The purposes of section 740 (c), as amended by the Revenue Act of 1942, are fourfold:

(1) In general, it confines the base period experience of a component corporation for the period before the day after the Supplement A transaction and its capital changes immediately before such transaction and for any prior period to the acquiring corporation in such transaction or to an acquiring corporation of which the first acquiring corporation is a component corporation. This rule applies only to the computation of the excess profits tax for taxable years beginning after December 31, 1941.

(2) It permits a component corporation which does not terminate its existence in connection with the Supplement A transaction to take into account its entire base period experience including that for the day of and the period before such transaction) for the purposes of sections 713 (f) and 742 (h), except that its experience for the period before the day after the transaction cannot be taken into account for the purpose of applying the limitation prescribed in such sections as to the maximum amount of average base period net income. This rule also applies only to the computation of the excess profits tax for taxable years beginning after December 31, 1941. (See further § 30.742–2 (c).)

(3) It limits a component corporation which does not terminate its existence in connection with the Supplement A transaction, for the purpose of its credit under section 713 or section 742 in computing its excess profits tax for the taxable year in which the transaction occurs, to the proportionate part of its base period experience (after the application of section 740 (c) (1) as explained in (1) and (2) above in case of a prior transaction) which the number of days in such taxable year before the day after such transaction bears to the total number of days in such taxable year. This rule applies only to the computation of the excess profits tax for taxable years beginning after December 31, 1941. If the component corporation goes out of existence on the day of the Supplement A transaction in a taxable year of such component which begins after December 31, 1941, and ends on the day of the Supplement A transaction (by reason of the termination of its existence, or for any other reason), it is entitled, subject to these regulations, to use its entire average base period net income for the purpose of computing its excess profits credit to be applied for such year. (For a corresponding provision in the case of the acquiring corporation in a Supplement A transaction occurring during its excess profits tax taxable year and an illustration of the application of such corresponding provision and section 740 (c) (2), see section 742 (f) (2) and § 30.742–2 (b) (3) (ii) (C).)

(4) It prevents a corporation acquiring a component corporation which does not terminate its existence in connection with the transaction from taking into account the base period experience of the component corporation after such transaction for the purpose of computing its excess profits credit based on income. This rule applies to the computation of the excess profits tax for any taxable year beginning after December 31, 1939.

The operation of section 740 (c), from the standpoint of the purpose described in (1) above, is as follows: If a corporation is a component corporation in, for example, a transaction described in section 740 (a) (1) (A), occurring within the base period, and if the existence of such corporation is not terminated in connection with such transaction, its base period experience for the period before the day after such transaction is, for the purposes of the excess profits tax for taxable years beginning after December 31, 1941, given to the acquiring corporation in such transaction or to an acquiring corporation of which the first acquiring corporation is a component corporation. Consequently, assuming that such component corporation remains in existence and continues business with properties acquired after such transaction, for the purpose of the excess profits tax for taxable years beginning after December 31, 1941 (other than for a limited purpose in computing average base period net income under section 713 (f) or section 742 (h)), it will not receive any benefit from its experience on the day of and prior to such transaction, nor can its experience on the day of and prior to such transaction be passed on to another acquiring corporation in a subsequent Supplement A transaction in which it is the component corporation. The same rule is applicable to each successive Supplement A transaction to which such corporation is a party as a component corporation and in connection with which its existence is not terminated. Section 740 (c) applies to all types of Supplement A transactions, whether or not complete liquidation of the component corporation is specifically required in connection therewith.

If a Supplement A transaction occurred in a taxable year of the component corporation beginning in the base period, the excess profits net income of such component corporation for the portion of the taxable year after the transaction and for the prior portion of the taxable year (which is to be taken into account only by the acquiring corporation in such transaction) shall be computed on the basis of its income as shown by its books if the accounts are so kept that excess profits net income for each of such portions can be clearly and accurately determined. If the accounts are not so kept, the excess profits net income for the portion of the taxable year after the transaction shall be considered to be an amount which bears the same ratio to the excess profits net income for such taxable year as the number of days in such taxable year after such transaction bears to the total number of days in such taxable year, and the excess profits net income for the prior portion of such taxable year shall be considered to be the balance of the excess profits net income for such taxable year. However, if items of income and deduction are clearly and accurately determined to be attributable to particular portions of the taxable year, such items may be eliminated before the above proration is made, and after the proration is made such items will be added to (if items of income) or deducted from (if deductible items) the excess profits net income determined by the proration for the period to which such items are attributable.

The application of the provisions of section 740 (c), as amended by the Revenue Act of 1942, may be illustrated by the following example:

Example. A, B, and C, corporations which have always made their income tax returns on the calendar year basis, were in existence on January 1, 1936, and have continued in existence at all times since that date. On December 31, 1938, B acquired the properties of A in a transaction described in section 740 (a) (1) (A). A converted into cash the stock in B which it received in such transaction, and with the proceeds of such conversion acquired new properties. It operates such properties continuously down to the time C acquires such properties from A on October 19, 1943, in a transaction described in section 740 (a) (1) (A). A continues in business throughout 1943, operating properties which it purchased with the proceeds of the conversion of the stock in C received in the second transaction. The operation of section 740 (c) under circumstances outlined in this example is as follows:

(a) *As to B.* In determining its average base period net income under Supplement A for the purposes of the excess profits taxes for 1942 and 1943, B takes into account A's base period experience for 1936, 1937, and 1938. Inasmuch as the transaction involving B occurs within the base period, there is no capital addition or reduction of A to be transferred to B. See section 743.

(b) *As to A.* In determining its average base period net income under the general average method for the purposes of its excess profits tax for 1942, A takes into account its base period experience for 1939, but is denied the right to use its base period experience for 1936, 1937, and 1938. However, in determining its average base period net income under the growth formula, for purposes of its excess profits tax for 1942, A takes into account its base period experience for 1936, 1937, 1938, and 1939, except that such average cannot exceed its excess profits net income for 1939. When A determines its excess profits tax for 1943, it takes into account for the purpose of its average base period net income under the general average method only four-fifths (the ratio of the number of days in January 1, 1943—October 19, 1943, inclusive (292), over the number of days in 1943 (365)) of its base period experience for 1939; for the purpose of the growth formula it takes into account only four-fifths of its average base period experience determined under such formula. It does not take into account for the purpose of its tax for 1943 any of its capital addition or reduction attributable to the time immediately before the transaction. A will be entitled, however, to use the credit based on invested capital.

(c) *As to C.* Section 740 (c) is first applicable to C with respect to 1943. In determining its average base period net income under Supplement A for the purposes of its excess profits tax for that year, under the general average method C takes into account one-fifth of A's base period experience for 1939, and for the purpose of the growth formula (except in computing for such purpose the limitation as to the year of the highest excess profits net income) it takes into account one-fifth of A's average base period net income determined under such formula. See section 742 (f) (2). In determining C's average base period net income under Supplement A for the purposes of its excess profits tax for 1944, C takes into account all of A's base period experience for 1939 if the general average method is used, or all of A's base period experience for the purpose of the growth formula (except the limitation under such formula with respect to the year of the highest excess profits net income). Moreover, as the transaction involving C occurs after the close of the base period, A's daily capital addition and reduction as of the time immediately before the transaction are transferred to C. See section 743.

PAR. 20. Section 30.740–3 is amended as follows:

(A) By inserting immediately preceding the first sentence the following:

(a) *For taxable years beginning before January 1, 1942.*

(B) By changing the first sentence to read as follows:

For the purposes of the excess profits tax for any taxable year beginning before January 1, 1942, the base period of an acquiring corporation, unless it elects, as provided in § 30.742–2 (e), to apply the rule applicable to taxable years beginning after December 31, 1941, is the period of 48 months beginning on the date in 1936 corresponding to the date on which begins the acquiring corporation's taxable year for which the excess profits tax is being computed.

(C) By inserting at the end thereof the following new paragraph:

(b) *For taxable years beginning after December 31, 1941.* For the purposes of the excess profits tax for any taxable year beginning after December 31, 1941, (and for all taxable years beginning after December 31, 1939, if the taxpayer so elects as provided in § 30.742–2 (e)), the base period of the taxpayer is:

(1) The four calendar years 1936, 1937, 1938, and 1939, except in cases to which (2) applies, or

(2) If the taxpayer became an acquiring corporation prior to September 1, 1940, the same base period as that applicable to its first taxable year ending in 1941, determined under paragraph (a).

The base period once determined under this subsection for purposes of Supplement A is not affected by the fact that the taxpayer subsequently changes its taxable year.

PAR. 21. Section 30.740–4, as added by Treasury Decision 5045, is amended as follows:

(A) By changing the heading to read as follows:

§ 30.740–4 *Partnerships and sole proprietorships under Supplement A.*

(B) By changing the second sentence to read as follows:

In determining the excess profits tax under the rules for any taxable year beginning before January 1, 1942, a partnership (or a business owned by a sole proprietorship) is a qualified component corporation only if it was actually in existence at the beginning of the taxpayer's base period.

PAR. 22. There is inserted immediately preceding § 30.741–1 the following:

SEC. 224. EXCESS PROFITS TAX RETURNS. (Revenue Act of 1942, Title II.)

* * * * * *

(b) Sections 712 (c) and 741 (b) (relating to disclaimer of excess profits credit) are repealed.

(c) The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1939.

SEC. 228. RULES FOR INCOME CREDIT IN CONNECTION WITH CERTAIN EXCHANGES. (Revenue Act of 1942, Title II.)

* * * * * *

(b) *Repeal of section 741 (a).* Section 741 (a) is repealed

* * * * * *

(f) *Taxable years to which amendments applicable.* The amendments made by this section shall be applicable only to the computation of the tax for taxable years beginning after December 31, 1941, except that (1) the last sentence of section 740 (c), as added by subsection (a) of this section, shall be applicable to the computation of the tax for all taxable years beginning after December 31, 1939, and (2) if a taxpayer, within the time and in the manner and subject to such regulations as the Commissioner with the approval of the Secretary prescribes, elects to have such amendments (except those which by their terms are limited to taxable years beginning after December 31, 1941, and except that referred to in clause (1)) apply retroactively to all taxable years of the taxpayer beginning after December 31, 1939, such amendments shall also be applicable to the computation of the tax for taxable years beginning after December 31, 1939.

PAR. 23. Section 30.741–1, as amended by Treasury Decision 5045, is further amended as follows:

(A) By inserting immediately preceding the first sentence thereof the following new sentences:

This section is applicable only for the purposes of determining the excess profits credit of an acquiring corporation for taxable years beginning before January 1, 1942, and, moreover, is applicable for such purposes only if no election is made under § 30.742–2 (e). For rules for determining the excess profits credit of an acquiring corporation for taxable years beginning after December 31, 1941, or for prior years if an election is made under § 30.742–2 (e), see § 30.712–1.

(B) By striking out the last paragraph thereof.

PAR. 24. There is inserted immediately preceding § 30.742–1, as amended by Treasury Decision 5045, the following:

SEC. 228. RULES FOR INCOME CREDIT IN CONNECTION WITH CERTAIN EXCHANGES. (Revenue Act of 1942, Title II.)

* * * * * *

(c) *Amendments to section 742.* Section 742 is amended to read as follows:

SEC. 742. SUPPLEMENT A AVERAGE BASE PERIOD NET INCOME.

In the case of a taxpayer which is an acquiring corporation, its average base period net income (for the purpose of the credit computed under section 713) shall be the amount computed under section 713 or the amount of its Supplement A average base period net income, whichever is the greater. The Supplement A average base period net income shall be the amount computed without regard to subsection (h) of this section or computed under subsection (h) of this section, whichever is the greater. The Supplement A average base period net income shall be computed as follows:

(a) By ascertaining with respect to each of its base period years—

(1) The amount of its and each of its component corporation's excess profits net

income for each of its and such component corporation's taxable years beginning with or within such base period year; or, in the case of each such taxable year of the taxpayer or of such component corporation, as the case may be, in which the deductions plus the credit for dividends received and the credit provided in section 26 (a) (relating to interest on certain obligations of the United States and its instrumentalities) exceeded the gross income, the amount of such excess;

(2) (A) The aggregate of the amounts of excess profits net income ascertained under paragraph (1); (B) the aggregate of the excesses ascertained under paragraph (1); and (C) the difference between the aggregates found under clause (A) and clause (B). If the aggregate ascertained under clause (A) is greater than the aggregate ascertained under clause (B), the difference shall for the purposes of subsection (b) be designated a "plus amount", and if the aggregate ascertained under clause (B) is greater than the aggregate found under clause (A), the difference shall for the purposes of subsection (b) be designated a "minus amount".

If, in the case of the taxpayer or any component corporation of the taxpayer, one and only one taxable year of the taxpayer or such component corporation, as the case may be, begins with or within such base period year and such taxable year is less than twelve months, the amount of the excess profits net income, or the amount of such excess of deductions plus the credit for dividends received and the credit provided in section 26 (a) (relating to interest on certain obligations of the United States and its instrumentalities) over gross income, as the case may be, for such taxable year, shall be placed on an annual basis in the same manner as is provided in section 711 (a) (3). If more than one taxable year of the taxpayer or such component corporation, as the case may be, begins with or within such base period year, the aggregate of the amounts of excess profits net income minus the aggregate of the excesses of deductions plus the credit for dividends received and the credit provided in section 26 (a) (relating to interest on certain obligations of the United States and its instrumentalities) over gross income, or the aggregate of such excesses minus the aggregate of the amounts of excess profits net income, as the case may be, for such taxable years shall be adjusted to such extent as the Commissioner, under regulations prescribed by him with the approval of the Secretary, prescribes as necessary in order that such base period year shall reflect income for a period of twelve months. For the purposes of this section, a taxable year of a component corporation beginning within the base period which also begins with or within the taxable year of the acquiring corporation in which the acquisition occurred, or which also begins with or within the same base period year with which or within which began such taxable year of the acquiring corporation, shall be considered a taxable year of the acquiring corporation, and such taxable year shall be considered to have begun in the base period year with which or within which such taxable year of the acquiring corporation began.

(b) By adding the plus amounts ascertained under subsection (a) (2) for each year of the base period; and

(1) If the tax under this subchapter is being computed for a taxable year not beginning after December 31, 1941, by subtracting from such sum, if for two or more years of the basis [sic] period there was a minus amount, the sum of the minus amounts, excluding the greatest; or

(2) If the tax under this subchapter is being computed for a taxable year beginning after December 31, 1941, by subtracting from such sum the sum of the minus amounts. If the amount used under the preceding sentence for the lowest year is less than 75 per centum of the sum of the plus amounts reduced by the sum of the minus amounts for the other years in the base period divided by three, the amount which shall be used for such lowest year shall be 75 per centum of the amount last ascertained.

(c) By dividing the amount ascertained under subsection (b) by four.

(d) In no case shall the average base period net income be less than zero. In the case of a taxpayer which becomes an acquiring corporation in any taxable year beginning after December 31, 1939, if, on September 11, 1940, and at all times until the taxpayer became an acquiring corporation—

(1) the taxpayer owned not less than 75 per centum of each class of stock of each of the qualified component corporations involved in the transaction in which the taxpayer became an acquiring corporation; or

(2) one of the qualified component corporations involved in the transaction owned not less than 75 per centum of each class of stock of the taxpayer, and of each of the other qualified component corporations involved in the transaction, the average base period net income of the taxpayer shall not be less than (A) the average base period net income of that one of its qualified component corporations involved in the transaction the average base period net income of which is greatest, or (B) the average base period net income of the taxpayer computed without regard to the base period net income of any of its qualified component corporations involved in the transaction. As used in this subsection, the term "qualified component corporation" means a component corporation which was in existence on the date of the beginning of the taxpayer's base period.

(e) For the purposes of subsection (a) (1) of this section—

(1) If neither the taxpayer corporation nor any of its component corporations was actually in existence on December 31, 1936, the excess profits net income of each such corporation for each base period year at no time during which any of such corporations was actually in existence, shall (except in the case of a corporation which became a component corporation of its acquiring corporation before the beginning of the acquiring corporation's first taxable year which began in 1940) be an amount equal to 8 per centum of the excess of—

(A) in the case of any such corporation to which paragraph (2) is not applicable, the daily invested capital of such corporation for the first day of its first taxable year under this subchapter beginning in 1940 over

(B) an amount equal to the same percentage of such daily invested capital as would be applicable under section 720 in reduction of the average invested capital of such component corporation for the twelve-month period ending with the preceding day if such twelve-month period constituted a taxable year and such section had been applicable to such taxable year.

(3) In case any corporation described in paragraph (1) owned stock in any other such corporation on the first day of such owning corporation's first taxable year under this subchapter beginning in 1940, the amounts computed under subparagraphs (A) and (B) of paragraphs (1) and (2) with respect to such corporations shall be adjusted under regulations prescribed by the Commissioner with the approval of the Secretary to such extent as may be necessary to prevent the excess profits net income of such corporations for the base period years described in paragraph (1) from reflecting money or property having been paid in by either of such corporations to the other for stock or as paid-in surplus or as a contribution to capital, or from reflecting stock of either having been paid in for stock of the other or as paid-in surplus or as a contribution to capital. For the purposes of this paragraph, stock in either such corporation which has in the hands of the other corporation a basis determined with reference to the basis of stock previously acquired by the issuance of such other corporation's own stock shall be deemed to have been paid in for the stock of such other corporation.

(4) In determining whether, for any taxable year, the deductions plus the credit for dividends received and the credit provided in section 26 (a) (relating to interest on certain obligations of the United States and its instrumentalities) exceeded the gross income, and in determining the amount of such excess, the adjustments provided in section 711 (b) (1) shall be made.

(f) (1) If, after December 31, 1935—

(A) the taxpayer acquired stock in another corporation, and thereafter such other corporation became a component corporation of the taxpayer, or

(B) a corporation (hereinafter called "first corporation") acquired stock in another corporation (hereinafter called "second corporation"), and thereafter the first and second corporations became component corporations of the taxpayer,

then to the extent that the consideration for such acquisition was not the issuance of the taxpayer's or first corporation's, as the case may be, own stock, the Supplement A average base period net income of the taxpayer shall be reduced, and the transferred capital addition and reduction adjusted, in respect of the income and capital addition and reduction of the corporation whose stock was so acquired and in respect of the income and capital addition and reduction of any other corporation which at the time of such acquisition was connected directly or indirectly through stock ownership with the corporation whose stock was so acquired and which thereafter became a component corporation of the taxpayer, in such amounts and in such manner as shall be determined in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. For the purposes of this paragraph, stock which has, in the hands of the taxpayer or first corporation, as the case may be, a basis determined with reference to the basis of stock previously acquired by the issuance of the taxpayer's or first corporation's, as the case may be, own stock, shall be considered as having been acquired in consideration of the issuance of the taxpayer's or first corporation's, as the case may be, own stock.

(2) If during the taxable year for which tax is computed under this subchapter the taxpayer acquires assets in a transaction which constitutes it an acquiring corporation, the amount includible under subsection (a), attributable to such transaction, shall be limited to an amount which bears the same ratio to the amount computed without regard to this subsection as the number of days in the taxable year after such transaction bears to the total number of days in such taxable year.

(g) In the case of a partnership which is a component corporation by virtue of section 740 (b) (5), the computations required by this Supplement shall be made, under rules and regulations prescribed by the Commissioner with the approval of the Secretary, as if such partnership had been a corporation. For the purpose of such computations, in making the adjustment for income taxes required by section 711 (b) (1) (A), the partnership so regarded as a corporation shall be considered as having distributed all its net income as a dividend.

(h) *Increased earnings in last half of base period*

(1) *General rule.* The Supplement A average base period net income determined under this subsection shall be computed by ascertaining for each half of the base period the sum of the plus amounts determined under subsection (a) reduced if for any year in such half a minus amount was determined by the minus amount for such year. If the amount ascertained for the second half exceeds the amount ascertained for the first half, the Supplement A average base period net income shall be the sum, divided by two, of the amount so ascertained for the second half plus one-half of such excess, except that it shall not exceed the largest plus amount determined under subsection (a) with respect to any base period year.

(2) *Limitation on amount includible for certain taxable years ending after May 31, 1940.* For the purposes of this subsection the excess profits net income of any corporation for any taxable year beginning in 1939 and ending after May 31, 1940, shall in no case exceed an amount computed as follows:

(A) By reducing the excess profits net income by an amount which bears the same ratio thereto as the number of months after May 31, 1940, bears to the total number of months in such taxable year; and

(B) By adding to the amount ascertained under subparagraph (A) an amount which bears the same ratio to the excess profits net income for the last preceding taxable year as such number of months after May 31, 1940, bears to the number of months in such preceding year. The amount added under this subparagraph shall not exceed the amount of the excess profits net income for such last preceding taxable year.

(C) If the number of months in such preceding taxable year is less than such number of months after May 31, 1940, by adding to the amount ascertained under subparagraph (B) an amount which bears the same ratio to the excess profits net income for the second preceding taxable year as the excess of such number of months after May 31, 1940, over the number of months in such preceding taxable year bears to the number of months in such second preceding taxable year.

(i) *Taxable years to which amendments applicable.* The amendments made by this section shall be applicable only to the computation of the tax for taxable years beginning after December 31, 1941, except that (1) the last sentence of section 740 (c), as added by subsection (a) of this section shall be applicable to the computation of the tax for all taxable years beginning after December 31, 1939, and (2) if a taxpayer, within the time and in the manner and subject to such regulations as the Commissioner with the approval of the Secretary prescribes, elects to have such amendments (except those which by their terms are limited to taxable years beginning after December 31, 1941) and except that referred to in clause (1)) apply retroactively to all taxable years of the taxpayer beginning after December 31, 1939, such amendments shall also be applicable to the computation of the tax for taxable years beginning after December 31, 1939.

PAR. 25. Section 30.742–1, as amended by Treasury Decision 5045, is further amended as follows:

(A) By striking out *Average base period net income—(a) General.* and by inserting in lieu thereof the following:

§ 30.742–1 *Average base period net income for purposes of tax for taxable years beginning before January 1, 1942.* The regulations prescribed in this section are applicable only for the purpose of computing the tax for taxable years beginning before January 1, 1942, but shall not be applicable in computing the tax for such years if the taxpayer elects, as prescribed in § 30.742–2 (e), to have the amendments made by the Revenue Act of 1942 applicable in computing the tax for all of such years, in which case the regulations prescribed in § 30.742–2 shall be applicable.

(a) *General.* * * *

(B) By inserting in subparagraph (5) of the second paragraph of paragraph (b) and immediately after "section 711 (b) (1) (A)" the following:

(for taxable years beginning before January 1, 1941)

PAR. 26. There is inserted immediately after § 30.742–1, as amended by Treasury Decision 5045, the following new section:

§ 30.742–2 *Average base period net income for purposes of tax for taxable years beginning after December 31, 1941.* The regulations prescribed in this section are applicable only for the purpose of computing the tax for taxable years beginning after December 31, 1941, but shall be applicable in computing the tax for taxable years beginning prior thereto if the taxpayer elects, as prescribed in § 30.742–2 (e), to have the amendments made by the Revenue Act of 1942 applicable in computing the tax for all excess profits tax taxable years beginning after December 31, 1939.

(a) *Introductory.* In the case of an acquiring corporation which was actually in existence before January 1, 1940, its average base period net income, for the purposes of the excess profits credit based on income, shall be (1) the amount computed under section 713 with reference to its base period experience but without reference to the base period experience of its component corporations; or (2) the amount of its Supplement A average base period net income, computed under section 742 with reference to its base period experience and also with reference to the base period experience of its component corporations, whichever of such amounts is the greater. In the case of an acquiring corporation which was not actually in existence before January 1, 1940, but which was constructively in existence before such date through a component corporation, its average base period net income, for the purposes of such credit, shall be its Supplement A average base period net income, computed under section 742.

In the case of an acquiring corporation which desires to compute its average base period net income under Supplement A, section 742 is not intended to require such corporation to include in its return the computations of base period income under section 713 for the purpose of showing that the computations under Supplement A result in the greater average base period net income. A return setting forth one set of computations of base period income shall be acceptable. A return filed in this manner shall be audited as filed, regardless of whether the omitted computation of average base period net income would result in a lesser tax. If a corporation files a return which contains only one set of computations of base period income, it is not thereby precluded from establishing that the computations used resulted in an overpayment of the excess profits tax or from filing a claim for the refund thereof.

The Supplement A average base period net income of an acquiring corporation shall be (1) the amount computed under section 742 without regard to subsection (h) of such section, or (2) the amount computed under such subsection, whichever of such amounts is the greater. If neither the acquiring corporation nor any of its component corporations was in existence at any time during a base period year, then, in computing the Supplement A average base period net income of the acquiring corporation, section 742 (e) (1), (2), and (3) is applicable regardless of whether the computation is made under section 742 (h) or without regard to such section.

(b) *General average method*—(1) *In general.* The following steps are required for the computation of the Supplement A average base period net income under section 742 without regard to subsection (h) of such section (for computation of excess profits net income for base period years during which neither the taxpayer nor any of its component corporations was in existence at any time, see paragraph (d) of this section):

(i) The excess profits net income or the excess of deductions plus the credit for dividends received and the credit provided in section 26 (a) over gross income (hereinafter referred to as "deficit in excess profits net income") of the acquiring corporation and each component corporation for each taxable year beginning with or within a base period year of the acquiring corporation must be determined.

(ii) The group excess profits net income or group deficit in excess profits net income for each base period year of the acquiring corporation, i. e., the aggregate of the amounts determined with respect to each corporation separately for taxable years beginning with or within such base period year, must be determined as provided in subparagraph (3) of this section.

(iii) The taxpayer's Supplement A average base period net income is then ascertained by determining the aggregate of the group excess profits net incomes and deficits in excess profits net

income (with adjustment in certain cases of the amount for the lowest year) and dividing by 4, as provided in subparagraph (4) of this section.

(2) *Determination of excess profits net income or deficit in excess profits net income of acquiring corporation and each component corporation.* The first step in computing the average base period net income of an acquiring corporation is the determination of the excess profits net income or deficit in excess profits net income of the acquiring corporation and each component corporation for each taxable year beginning with or within a base period year of the acquiring corporation. Such excess profits net income or deficit in excess profits net income shall be computed with the adjustments provided in section 711 (b).

In the case of a component corporation which is a partnership or a business owned by a sole proprietorship, its excess profits net income or deficit in excess profits net income for each taxable year in the base period shall be determined as though such partnership or business owned by a sole proprietorship had been a corporation for each such year. Among the adjustments which are necessary in computing the excess profits net income or deficit in excess profits net income are the following:

(i) A reasonable deduction for salary or compensation to each partner or the sole proprietor for personal services actually rendered shall be allowed;

(ii) The credit for dividends received provided by section 26 (b) and section 711 (b) (1) (G) shall be allowed;

(iii) The treatment of capital gains and losses shall be that applicable to corporations;

(iv) The deduction for charitable contributions shall be that allowed by section 23 (q);

(v) The income taxes allowed as a deduction under section 23 (c) (or under section 711 (b) (1) (A) for taxable years beginning before January 1, 1941) shall be computed as though the partnership or business owned by a sole proprietorship were a corporation and in computing such taxes the partnership or business owned by a sole proprietorship shall be deemed to have distributed all its net income as a dividend.

(3) *Determination of group excess profits net income or deficit in excess profits net income*—(i) *General.* The group excess profits net income or deficit in excess profits net income of an acquiring corporation for each base period year is determined by adding together the excess profits net incomes of the several corporations determined under subparagraph (2) of this paragraph for each taxable year beginning with or within such base period year and subtracting from such sum the sum of the deficits in excess profits net income so determined for each such taxable year, with the exceptions and limitations set forth in subdivision (ii) below. If the sum of the excess profits net incomes for such base period year exceeds the sum of the deficits in excess profits net income for such base period year, the difference is the group excess profits net income for such base period year. If the sum of the deficits in excess profits net income exceeds the sum of the excess profits net incomes, the difference is the group deficit in excess profits net income for such base period year. This paragraph may be illustrated by the following examples:

Example (1). The X Corporation, which was organized prior to 1936, and which has always made its income tax returns on the calendar year basis, is computing its excess profits tax for the calendar year 1942. In 1939 it became an acquiring corporation of the Y Corporation and the Z Corporation, both of which were organized prior to January 1, 1936. The Y Corporation made its income tax returns on the basis of the fiscal year beginning July 1, and the Z Corporation made its income tax returns on the calendar year basis. For the calendar year 1936 the X Corporation had an excess profits net income of $50,000, and the Z Corporation had an excess profits net income of $20,000. For the fiscal year beginning July 1, 1936, the Y Corporation had an excess profits net income of $30,000. For its first base period year, i.e., the calendar year 1936, the group excess profits net income of X, the acquiring corporation, is $100,000, computed as follows:

Excess profits net income of X Corporation for 1936	$50,000
Plus:	
Excess profits net income of Z Corporation for 1936	20,000
Excess profits net income of Y Corporation for fiscal year beginning July 1, 1936	30,000
Group excess profits net income for 1936	100,000

The Y Corporation's fiscal year ending June 30, 1936, cannot be taken into account since it is a taxable year which did not begin with or within the first base period year.

Example (2). If, in the case of the same corporations as in example (1), for the calendar year 1937 the X Corporation had an excess profits net income of $75,000 and the Z Corporation had an excess profits net income of $30,000 and if the Y Corporation for the fiscal year beginning July 1, 1937, had a deficit in excess profits net income of $5,000, the X Corporation would have a group excess profits net income for its second base period year, i. e., the calendar year 1937, of $100,000, computed as follows:

Excess profits net income of X Corporation for 1937	$75,000
Plus: Excess profits net income of Z Corporation for 1937	30,000
Total	105,000
Less: Deficit in excess profits net income of Y Corporation for fiscal year beginning July 1, 1937	5,000
Group excess profits net income for 1937	100,000

Example (3). If for the calendar year 1938 the X Corporation had an excess profits net income of $40,000 and the Z Corporation had a deficit in excess profits net income of $50,000, and if the Y Corporation had an excess profits net income of $5,000 for the fiscal year beginning on July 1, 1938 (which ended before the acquisition in 1939), the X Corporation would have a group deficit in excess profits net income for its third base period year, i. e., the calendar year 1938, of $5,000, computed as follows:

Deficit in excess profits net income of Z Corporation for 1938		$50,000
Less:		
Excess profits net income of X Corporation for 1938	$40,000	
Excess profits net income of Y Corporation for fiscal year beginning July 1, 1938	5,000	45,000
Group deficit in excess profits net income for 1938		5,000

(ii) *Exceptions and limitations.* The amount of excess profits net income or deficit in excess profits net income of an acquiring corporation or a component corporation for a taxable year beginning with or within a base period year which may be included in computing the group excess profits net income or deficit in excess profits net income for such base period year is to be determined subject to the following exceptions and limitations:

(A) Section 742 (a) requires adjustment where an acquiring corporation or component corporation has one or more taxable years beginning with or within a base period year other than one taxable year of 12 months.

If the taxpayer or a component corporation has only one taxable year beginning with or within a base period year and such taxable year is less than 12 months, or if the taxpayer or a component corporation has two or more taxable years beginning with or within a base period year, the experience of the taxpayer or of such component for such short taxable year or for such taxable years shall be adjusted to reflect 12 months' experience by either of two methods described in this subdivision. The first method is hereafter referred to as the daily average method and the second method is hereafter referred to as the actual experience method. The second method may be used only if the taxpayer establishes to the satisfaction of the Commissioner that the actual experience method will more clearly reflect actual group excess profits net income (or deficit) for the base period year. In either case, the adjustment is to be made only as provided in this subdivision of the regulations under the heading "daily average method" or "actual experience method", whichever method is applicable. Only one method may be used for the same base period year. Under either method, any period, the experience of which is not to be included in the average base period net income of the taxpayer under the rules provided in section 740 (c), is not to be considered any part of a taxable year of the acquiring corporation or the component.

If only one taxable year of the taxpayer or of a component begins in a base period year and such taxable year is less than 12 months, or if two or more taxable years of the taxpayer or of a component begin in a base period year, the following adjustment shall be made if the Supplement A transaction did not occur in such base period year or in a taxable year of the acquiring corporation beginning in such base period year:

Daily average method. Under this method, the aggregate of the amounts of excess profits net income minus the aggregate of the amounts of deficit in excess profits net income, or vice versa, as the case may be, for the period to be adjusted (i. e., such short taxable year or such two or more taxable years, as the case may be) shall be placed on an annual basis by dividing by the number of days in such period and by multiplying by the number of days in the base period year.

Actual experience method. Under this method, the actual excess profits net income (or deficit) for the period of 12 months beginning with the first day of the period to be adjusted (i. e., such short taxable year or such two or more taxable years, as the case may be) shall be considered the total excess profits net income (or deficit) of the acquiring corporation or of the component, as the case may be, which is to be attributed to the base period year under section 742 (a) (1). If such 12-month period ends after May 31, 1940, or with or after a month in which a Supplement A transaction occurs, the experience after such date or such month, whichever first occurs, shall not be used. In such case, there shall be added to the experience used the experience for as many consecutive months immediately preceding the beginning of the period of months used as will produce an aggregate period of 12 months. If 12 months' experience cannot be obtained by either of the above rules, the actual experience method may not be used.

If two or more taxable years of a component corporation or if two or more taxable years of the taxpayer (including as such any year of the component, as provided in the following sentence) begin in a base period year and if the Supplement A transaction occurs in such base period year or in a taxable year of the acquiring corporation beginning in such base period year, adjustment shall be made in the two categories of cases described below and in the manner set forth below. For this purpose, section 742 (a) provides that a taxable year of a component corporation:

Which begins within the base period and which also begins with or within the taxable year of the acquiring corporation in which the acquisition occurred, or

Which begins with or within the same base period year with which or within which began the taxable year of the acquiring corporation in which the acquisition occurred,

shall be treated as a taxable year of the acquiring corporation and as if it began in the base period year with which or within which such taxable year of the acquiring corporation began. The adjustment to be made is as follows:

In the first category are cases in which, in a base period year, the first taxable year of each corporation, which became a component in any taxable year of the acquiring corporation beginning in such base period year, began on the same date, if (1) the acquiring corporation's first taxable year in such base period year also began on such date, or (2) the acquiring corporation's first taxable year upon its coming into existence began on the date of a Supplement A transaction in such base period year.

Daily average method. In such cases, a group excess profits net income or group deficit in excess profits net income, as the case may be, for only the acquiring corporation and any such component corporations shall be determined for such base period year, in the manner provided in (b) (3) (i) of this section. This amount shall be the excess profits net income or deficit in excess profits net income, as the case may be, of such acquiring corporation (including such component corporations) for such base period year, unless the period from the beginning of the first taxable year of any such component corporation beginning in such base period year to the end of the last taxable year of such acquiring corporation beginning in such base period year, inclusive, is not a period of 12 months. In such latter case, the amount thus determined shall be placed on an annual basis by dividing by the total number of days in such period and by multiplying by the number of days in such base period year. The rules applicable in this first category may be illustrated by the following examples:

Example (1). The A Corporation computes its income tax on the calendar year basis. On July 1, 1936, the A Corporation is reorganized into the B Corporation in a Supplement A transaction. The B Corporation computes its income tax on the basis of the fiscal year beginning July 1 until it goes on a calendar year basis beginning January 1, 1937. Although A's short period is considered a taxable year of B, since the total period of both taxable years is 12 months, the excess profits net income, or the deficit in excess profits net income, of the B Corporation for 1936 is computed by reference to the total experience of A and B for the calendar year 1936.

Example (2). The C Corporation and the D Corporation compute their income taxes on the calendar year basis. On July 1, 1937, C and D merged in a Supplement A transaction to form the E Corporation which thereafter computed its income tax on a fiscal year basis beginning July 1 (until 1940 when it went on a calendar year basis). The excess profits net income, or the deficit in excess profits net income, of E for the base period year 1937, is determined by computing the excess of the aggregate of the excess profits net incomes of C and D for the period January 1, 1937–July 1, 1937, inclusive, and of E for the period July 1, 1937–June 30, 1938, over the deficit in excess profits net income of C, D, and E, if any, for each of their respective periods, or the excess of the deficits, as the case may be; by dividing such excess by the number of days in the period January 1, 1937, through June 30, 1938; and by multiplying the resulting quotient by 365.

Example (3). The F, G, and H Corporations were in existence prior to 1936 and all computed their income tax on a fiscal year basis beginning March 1. On July 1, 1937, the F Corporation transfers its assets to the H Corporation in a Supplement A transaction and continues in existence with new assets acquired in exchange for the stock of H. On December 31, 1937, the H Corporation acquires the assets of the G Corporation in a Supplement A transaction and the G Corporation goes out of existence. The H Corporation changes to a calendar year basis beginning January 1, 1938. Assuming the figures shown below, the excess profits net income of the H Corporation for the base period year 1937 is $365,000, computed as follows:

(1) Excess profits net income of—	
G, for period March 1, 1937–Dec. 31, 1937	$200,000
H, for period March 1, 1937–Dec. 31, 1937	186,000
(2) Aggregate excess profits net incomes for taxable years beginning in base period	386,000
(3) Deficit in excess profits net income of F, for period March 1, 1937–July 1, 1937 (deficit)	80,000
(4) Excess of (2) over (3)	306,000
(5) Number of days in period March 1, 1937–Dec. 31, 1937	306
(6) Excess Profits net income placed on an annual basis ($306,000 ÷ 306 × 365)	365,000

Actual experience method. The treatment under this method in cases in the first category applies only if it would be necessary under the daily average method to place the experience for the taxable years on an annual basis, as provided above under such method. Under this method, the actual excess profits net income (or deficit) of the corporations falling within this category for the period of 12 months beginning with the first day of the first taxable year in such base period year of any such component corporation shall be considered the total (or group) excess profits net income (or deficit) of such corporations for all their taxable years beginning in such base period year. If such 12-month period ends after May 31, 1940, or with or after a month in which a Supplement A transaction occurs in a taxable year of the acquiring corporation not beginning in such base period year, the experience after such date or such month, whichever first occurs, shall not be used. In such case, there shall be added to the experience used the experience for as many consecutive months immediately preceding the beginning of the period of months used as will produce an aggregate period of 12 months. The first rule may be illustrated by example (2) above, where, under the actual experience method, the actual experience of the C, D, and E Corporations for the calendar year 1937 would be used. The second rule may be illustrated by example (3) above, if it is assumed that the first rule is not applicable by reason of another Supplement A transaction occurring in January 1938. In such case, under the actual experience method, the actual experience of the F, G, and H Corporations for the period of 12 months ending with December 31, 1937, is to be used.

In the second category of cases under section 742 (a), previously referred to, are all cases not falling within the first category and in which more than one taxable year of the acquiring corporation is, by reason of the last sentence of section 742 (a), considered to begin in a base period year. Since such taxable years include taxable years of component corporations, a group excess prof-

its net income or group deficit in excess profits net income, as the case may be, is determined for 12 months, in a manner similar to that in the first category above. However, in this second category not all of such components' first taxable years in the base period year begin on the same day as the acquiring corporation's first taxable year in such base period year, as in cases in the first category, and, therefore, the following adjustments are prescribed:

Daily average method. Before applying the daily average method as in the first category, it is necessary in cases falling within this second category to develop conditions equivalent to those existing in the first category by adjusting the experience of any such components to a period beginning on the same day as the beginning of the acquiring corporation's first taxable year in such base period year. This development and the adjustment to be made in this category under the daily average method are shown in the following examples:

Example (1). The A Corporation, which computed its income tax on the calendar year basis, was reorganized on July 1, 1936, in a Supplement A transaction into the B Corporation, which thereafter computed its income tax on a fiscal year basis beginning July 1, (until 1940, when it changed to a calendar year basis). The C Corporation which computed its income tax on a fiscal year basis beginning March 1 was in existence prior to 1936. The B Corporation acquired all of the assets of C in a Supplement A transaction on October 31, 1936. The excess profits net incomes (or deficits) of A and C for such of their taxable years in 1936 as begin before July 1, 1936, are to be adjusted to the period beginning July 1, 1936. Thus, the excess profits net income (or deficit) of A for the period of January 1, 1936–July 1, 1936, is to be divided by 182 (the number of days in the period January 1, 1936–July 1, 1936, inclusive) and the resulting quotient is to be multiplied by 1 (the number of days in the period beginning July 1 and in such taxable year of A beginning before July 1). The excess profits net income (or deficit) of C for the period March 1, 1936–October 31, 1936, is to be placed on the basis of the period July 1, 1936–October 31, 1936. Thus, if the excess profits net income of C for the period March 1, 1936–October 31, 1936, is $49,000, such amount when adjusted will be $24,600, computed by dividing $49,000 by 245 (the number of days in the period March 1, 1936–October 31, 1936, inclusive) and by multiplying the resulting quotient of $200 by 123 (the number of days in the period July 1, 1936–October 31, 1936, inclusive). The amount of $24,600 is to be added to the amounts of excess profits net incomes (or deficits) of the A Corporation, as previously adjusted to the basis of one day, and of the B Corporation for the period July 1, 1936–June 30, 1937. No further adjustment is necessary in this case because the resulting sum is the excess profits net income of the acquiring corporation, B (including A and C), for a period of 12 months which is to be attributed to the base period year 1936.

Example (2). The D Corporation computes its income tax on a fiscal year basis beginning March 1. In 1937, it changed to a fiscal year beginning July 1 (which it continued to use until 1940 when it changed to a calendar year basis). D acquired the assets of corporations in Supplement A transactions as follows: the E Corporation, August 1, 1937; the F Corporation, December 31, 1937; and the G Corporation, May 31, 1938. Assume that the excess profits net incomes or deficits in excess profits net income for the pertinent periods are as follows (the first date at the left indicating the beginning of a taxable year):

D: March 1, 1937–June 30, 1937	$12,200
D: July 1, 1937–June 30, 1938	54,700
E: February 1, 1937–August 1, 1937	18,200
F: April 1, 1937–December 31, 1937 (deficit)	27,500
G: May 1, 1937–April 30, 1938	36,500
G: May 1, 1938–May 31, 1938	3,100

The first day of the first taxable year of the acquiring corporation, D, beginning in 1937 is March 1, 1937. Therefore, the excess profits net income of the E Corporation for its taxable year beginning prior to such date (i. e., beginning on February 1, 1937) must be adjusted to a period beginning on March 1, 1937. The deficit in excess profits net income of the F Corporation for its taxable year beginning after such date (i. e., on April 1, 1937) must be adjusted to the period beginning March 1, 1937. Similarly, the first taxable year of the G Corporation to be taken into account begins after March 1, 1937 (i. e., on May 1, 1937) and, therefore, the excess profits net income for such year must be adjusted to the period beginning March 1, 1937. The following computations result:

E: Excess profits net income for taxable period Feb. 1, 1937–Aug. 1, 1937		$18,200
Divided by number of days in period ($18,200÷182)		100
Multiplied by number of days in period Mar. 1, 1937–Aug. 1, 1937 (154×$100)		15,400
F: Deficit in excess profits net income for taxable period Apr. 1, 1937–Dec. 31, 1937	(deficit)	27,500
Divided by number of days in period ($27,500÷275)	(deficit)	100
Multiplied by number of days in period Mar. 1, 1937–Dec. 31, 1937 (306×$100)	(deficit)	30,600
G: Excess profits net income for taxable period May 1, 1937–Apr. 30, 1938		36,500
Divided by number of days in period ($36,500÷365)		100
Multiplied by number of days in period Mar. 1, 1937–Apr. 30, 1938 (426×$100)		42,600

The excess profits net income of the taxpayer for 1937 therefore will be $73,000, computed in the same manner as in the first category, as follows:

(1) Excess profits net incomes for taxable years beginning in 1937 (the first taxable year in each case beginning on the same day, March 1, 1937):		
D Corporation ($12,200+$54,700)		$66,900
E Corporation		15,400
G Corporation ($42,600+$3,100)		45,700
Total		128,000
(2) Deficit in excess profits net income for taxable year beginning in 1937: F Corporation (March 1, 1937–Dec. 31, 1937)	(deficit)	30,600
(3) Excess of aggregate excess profits net incomes over deficit in excess profits net income		97,400
(4) Amount in (3) divided by number of days in total period (March 1, 1937–June 30, 1938) ($97,400÷487)		2,000
(5) Amount in (4) multiplied by number of days in 1937 ($2,000×365)		73,000

Actual experience method. Under this method, the actual excess profits net income (or deficit) of the corporations falling within this category for the period of 12 months beginning with the first day of the first taxable year in such base period year of the acquiring corporation shall be considered the total (or group) excess profits net income (or deficit) of such corporations for all their taxable years beginning in such base period year. If such 12-month period ends after May 31, 1940, or with or after a month in which a Supplement A transaction occurs in a taxable year of the acquiring corporation not beginning in such base period year, the experience after such date or such month whichever first occurs, shall not be used. In such case, there shall be added to the experience used the experience for as many consecutive months immediately preceding the beginning of the period of months used as will produce an aggregate period of 12 months.

The first rule in this category under the actual experience method may be illustrated by example (1) above in this category, where, under the actual experience method, the total (or group) excess profits net income (or deficit) of the A, B, and C Corporations, for the base period year 1936, would be determined from their actual experience for the 12-month period beginning with July 1, 1936. It will be noted that under this rule no excess profits net income is included with respect to A for the period January 1, 1936–June 30, 1936, or with respect to C for the period March 1, 1936–June 30, 1936. The same rule may be applied similarly to example (2) above in this category.

If the taxpayer desires to use the actual experience method for any base period year, as prescribed in this subdivision, it shall file with its return or claim in which it determines its excess profits tax under the provisions of Supplement A a statement showing the computations of its total (or group) excess profits net income (or deficit) for the taxable years in each of such base period years, together with such explanation as it believes necessary to establish that the total (or group) excess profits net income under this method more clearly reflects actual group excess profits net income (or deficit) for such base period years than does the daily average method. If the total (or group) excess profits net income for any such base period year is finally determined under the actual experience method, or if permission is granted by the Commissioner before a final determination by the Commissioner, the taxpayer, in computing its excess profits tax under Supplement A in any return required to be filed thereafter, may, without the filing of such statement but with reference to the statement as to which the final determination had been made or permission given, use such total (or group) excess profits net income, except as further adjustment may be necessary in the case of the taxpayer under the rules of section 711 (b) (1) (K) (iii).

(B) Section 742 (f) (1) is designed to prevent certain duplications in base period income and transferred capital additions and reductions in certain cases where after December 31, 1935, assets of the taxpayer (or of a corporation which later becomes its component) were transferred for stock in another corporation which later becomes a component of the taxpayer. Section 742 (f) (1) contemplates that, after the Supplement A transaction, the part of the component's base period experience which is attributable to the acquired stock and which occurred before the acquisition of its stock shall under regulations prescribed herein be excluded in determining the taxpayer's Supplement A average base period net income. The adjustment under section 742 (f) (1) shall be made in the cases described in this subdivision, and in all other cases to which section 742 (f) (1) may be applicable, in a manner consistent with the principles underlying such described cases. Except to the extent duplication of experience occurs, no adjustment is necessary under section 742 (f) (1) with respect to stock which the acquiring corporation acquired directly from the corporation whose stock was acquired.

The rules for the application of section 742 (f) (1) for the purpose of computing Supplement A average base period net income under the general average method and under the growth formula (see § 30.742–2 (c)) are set forth in this subdivision. As to determination of excess profits net income for such purpose under the limitations of section 742 (f) (1) for any "vacant" base period year, see § 30.742–2 (d). As to adjustment of daily capital addition or reduction in case of such stock acquisition prior to the Supplement A transaction, see § 30.743–2 (b).

The general application of section 742 (f) (1) may be illustrated by the following examples:

Example (1). The A and B Corporations were in existence on January 1, 1936, and have at all times made their income tax returns on the calendar year basis. On January 1, 1937, A purchased for cash all of the stock in B from the stockholders of B. On December 31, 1939, A acquired all of the assets of B in a Supplement A transaction. In determining A's Supplement A average base period net income, the excess profits net income of A for 1936, 1937, 1938, and 1939 and of B for 1937, 1938, and 1939 will be included and that of B for 1936 will be excluded.

Example (2). The C and D Corporations were in existence on January 1, 1936, and have at all times made their income tax returns on the calendar year basis. On January 1, 1941, C acquired for cash all of D's stock from D's stockholders. On December 31, 1941, C acquired all of the assets of D in a Supplement A transaction. In such a case, section 742 (f) (1) requires the exclusion of D's entire base period experience in computing C's Supplement A average base period net income. (D's capital additions and reductions in 1940 are also required to be excluded. See § 30.743–2 (b).)

In cases in which the taxpayer does not at one time or at any time prior to the Supplement A transaction acquire all of the other corporation's stock, only that part of the component's base period experience before the acquisition which is attributable to the stock so acquired is to be excluded in computing the taxpayer's Supplement A average base period net income. In cases in which the component had only one class of stock outstanding at the time of the Supplement A transaction, the portion of the component's experience to be excluded under section 742 (f) (1) with respect to any part of the base period is an amount which bears the same ratio to the whole of the component's experience for such part as the number of shares of such stock acquired by the taxpayer after such part, and not disposed of prior to the Supplement A transaction, bears to the aggregate number of such shares outstanding at the time of the acquisition of such stock. If any of such shares of stock, whether acquired before or after the beginning of the base period, were disposed of prior to the Supplement A transaction, the shares disposed of shall, for the purpose of this computation, be deemed to be those most recently acquired. The adjustment under section 742 (f) (1) in cases described in this paragraph may be illustrated by the following examples:

Example (1). The E and F Corporations were in existence on January 1, 1936, and have at all times made their income tax returns on the calendar year basis. The outstanding capital stock of F consists of 1,000 shares, all of one class. On January 1, 1937, E purchased for cash 510 shares of such stock from the stockholders of F. On December 31, 1941, E issued stock in exchange for the balance of the stock of F and acquired all of the assets of F in a Supplement A transaction. For the purpose of computing E's Supplement A average base period net income for the tax for 1942 and thereafter, 51 percent of F's excess profits net income or deficit in excess profits net income for 1936 is to be excluded under section 742 (f) (1).

Example (2). Assume the same facts as in example (1) just above and the additional fact that on January 1, 1938, E purchased for cash 340 additional shares of F from the stockholders of the latter, making its total stockholdings in F 850 shares prior to the issuance of its (E's) own stock for the balance of the stock of F and prior to the Supplement A transaction. In such case, there shall be excluded under section 742 (f) (1) an amount equal to 85 percent of F's excess profits net income, or deficit, for 1936 and 34 percent of its excess profits net income, or deficit, for 1937.

Example (3). Assume the same facts as in example (2) just above and the additional fact that on January 1, 1939, E sold 350 shares of the F Corporation stock to various individuals. Accordingly, immediately prior to the issuance of its (E's) own stock for the balance of the stock of F and prior to the Supplement A transaction, E will own 500 shares of the stock of F acquired for assets since December 31, 1935. Therefore, 50 percent of F's excess profits net income, or deficit, for 1936 will be excluded under section 742 (f) (1). No portion of such experience for 1937, 1938, or 1939 will be excluded since the 350 shares sold are presumed to include all of the 340 shares acquired on January 1, 1938, (as in example (2)) and only 10 shares of the 510 shares acquired on January 1, 1937.

Example (4). Assume the same facts as in examples (1), (2), and (3), except that the original acquisition of 510 shares of F's stock occurred prior to January 1, 1936. In such case, no adjustment will be necessary under section 742 (f) (1) because the 350 shares disposed of on January 1, 1939, are deemed to be out of the most recently acquired shares, including in this case all of the shares acquired since December 31, 1935, that is, the 340 shares acquired on January 1, 1938.

Where the corporation whose stock is acquired has at the time of such acquisition more than one class of stock outstanding and the taxpayer does not, prior to the Supplement A transaction, acquire all of the stock of all classes for assets (other than its own stock), the base period experience of the component which is to be excluded under section 742 (f) (1) must be determined upon the basis of the earnings which may be attributed to each class of stock. Where preferred stock is nonvoting and is also limited and preferred as to dividends, the base period excess profits net income may be allocated first to the preferred stock on the basis of the prescribed dividend rate per share. If the only other class is common stock, the balance of such excess profits net income may be allocated to the common stock. The portion of such base period excess profits net income which is attributable to the stock owned by the acquiring corporation is that portion of such base period excess profits net income allocated to the class to which such stock belongs proportionate to the number of shares of such class acquired by the acquiring corporation after December 31, 1935. This rule may be illustrated by the following example:

Example. The G Corporation was in existence on January 1, 1936, and has at all times made its income tax returns on the calendar year basis. It has had outstanding at all times the following shares:

5,000 shares of nonvoting preferred stock of a par value of $100 per share, limited and preferred as to dividends to the extent of $6.00 per share annually.

10,000 shares of no-par value common stock possessing sole voting power.

On January 1, 1938, the H Corporation acquired for cash 6,000 shares of G's common stock from the stockholders of G. The excess profits net income of G for 1936 and 1937 was $100,000 each year. Of this amount, $30,000, representing the prescribed dividend rate of $6.00 a share on 5,000 shares, is allocable to the preferred stock. Of the balance of $70,000 which is allocable to the common stock, 60 percent (the ratio of the 6,000 shares of common stock acquired by H since December 31, 1935, to the total of 10,000 shares of such stock outstanding), or $42,000, will be considered attributable to the stock so acquired by H. Therefore, if H subsequently acquired all of the assets of G in a Supplement A transaction (no stock of G having been purchased or disposed of in the interval), $42,000 of G's excess profits net income for 1936 and 1937 is to be excluded under section 742 (f) (1) in computing the Supplement A average base period net income of H. If G had a deficit in excess profits net income for either 1936 or 1937, or for both, such deficit would be considered attributable solely to the common stock for purposes of determining the portion to be excluded under section 742 (f) (1).

The acquisition of stock by the acquiring corporation may occur on a day in a taxable year of the acquiring corporation other than the first day of such year, as in the cases previously discussed in this subdivision. If such stock acquisition occurred in a taxable year of the acquiring corporation beginning in a base period year, the amount of the component's excess profits net income (or deficit) for its taxable year or years beginning in such base period year to be excluded shall be determined upon the basis of the ratio which the number of days in such acquiring corporation's taxable year or years up to the date of such stock acquisition bears to the total num-

ber of days in such acquiring corporation's taxable year or years. If the stock acquisition occurred in an excess profits tax taxable year for which the tax is being computed and later in such year the Supplement A transaction occurred, the amount of the component's base period experience to be excluded shall be determined upon the basis of the ratio which the number of days in such excess profits tax taxable year of the acquiring corporation up to the date of such stock acquisition bears to the total number of days in such year. This rule may be illustrated by the following examples (in which it is assumed that the base period years are calendar years):

Example (i). The J Corporation purchased for cash all of the stock of the K Corporation from the latter's stockholders on July 2, 1936, and on December 31, 1942, acquired the assets of the K Corporation in a Supplement A transaction. The J Corporation made its income tax returns on the calendar year basis.

(i) If the K Corporation made its income tax returns on the calendar year basis, one-half of K's excess profits net income or deficit in excess profits net income (the ratio which the number of days in the period January 1 through July 1, 1936, (183 days) bears to the total number of days in 1936 (366)) is to be excluded under section 742 (f) (1) in computing J's Supplement A average base period net income.

(ii) If the K Corporation made its income tax returns on the basis of a fiscal year ending July 31, the excess profits net income or deficit in excess profits net income of K for the fiscal year ending July 31, 1937, would otherwise be includible in the group excess profits net income (or deficit) for 1936. Although the stock acquisition occurred before the beginning of such taxable year of K (but after December 31, 1935), nevertheless one-half of such experience of K for its taxable year ended July 31, 1937, is to be excluded under section 742 (f) (1).

(iii) If the K Corporation made its income tax returns on the basis of the fiscal year ending July 31 and then received permission to make its income tax returns on the calendar year basis after the close of its taxable year ending July 31, 1936, K has a short taxable year in 1936 for the period August 1 through December 31, 1936, inclusive. The excess profits net income or deficit in excess profits net income for such short taxable year is to be adjusted to represent 12 months' experience, as provided above in subdivision (A) of paragraph (b) (3) (ii) of this section, and of the amount thus determined, one-half is to be excluded under section 742 (f) (1) in computing the group excess profits net income (or deficit) for 1936.

(iv) If the K Corporation had made its income tax returns on a calendar year basis and then received permission to make such returns on the basis of a fiscal year beginning August 1, 1936, the experience for the two taxable years, January 1, 1936, through July 31, 1936, and August 1, 1936, through July 31, 1937, are to be adjusted to represent 12 months' experience, as provided in § 30.742-2 (b) (3) (ii) (A). Of the amount thus determined, one-half is to be excluded under section 742 (f) (1) in computing the group excess profits net income (or deficit) for 1936.

Example (2). Assume the same facts as in example (1) (including the variations in (i), (ii), (iii), and (iv) thereof) except that J, the acquiring corporation, received permission to make its income tax returns on a fiscal year basis beginning May 1, 1936, and filed its returns on such basis until 1940 when it changed back to a calendar year basis, and that J purchased for cash all of the stock of K from the latter's stockholders on August 31, 1936 (instead of July 2, 1936, as in example (1)). In such case, J has two taxable years beginning in 1936, the taxable year January 1, 1936–April 30, 1936, and the taxable year May 1, 1936–April 30, 1937. The excess profits net income (or deficit) for such two taxable years is to be placed on an annual basis as provided in subdivision (A) of paragraph (b) (3) (ii) of this section. Nevertheless, one-half of the experience of the K Corporation is to be eliminated in computing group excess profits net income for 1936, just as in example (1). This is determined from the ratio of the number of days in such taxable years prior to August 31, 1936, (243, the number of days in the period January 1, 1936–August 30, 1936) to the total number of days in both taxable years (486, the number of days in the period January 1, 1936–April 30, 1937).

Example (3). The L Corporation, which makes its income tax returns on the calendar year basis, on March 2, 1944, purchases for cash all of the stock of the M Corporation from the stockholders of M. On July 2, 1944, L acquires all of the assets of M in a Supplement A transaction. In such case, one-sixth (the ratio of the number of days in the period January 1, 1944–March 1, 1944, 61 days, to the total number of days in 1944, 366 days) of M's experience for each base period year is to be eliminated under section 742 (f) (1) in computing the Supplement A average base period net income of L for the purpose of the excess profits credit to be applied in computing the tax for 1944. For further limitation upon the average base period net income computed after this limitation, see section 742 (f) (2) and subdivision (C) immediately following. In computing the Supplement A average base period net income of L for the purpose of the tax for 1945, the entire base period experience of M is to be eliminated. As to limitations upon the use of M's capital additions and reductions, see § 30.743-2 (b).

Section 742 (f) (1) does not apply where stock of one corporation is acquired by another corporation solely in exchange for the latter's stock. In case stock is acquired in exchange partly for the acquiring corporation's own stock and partly for other property, section 742 (f) (1) is applicable only to the extent that the acquisition is attributable to such other property. Stock which has, in the hands of the taxpayer, a basis determined with reference to the basis of stock previously acquired by the issuance of the taxpayer's own stock shall be considered as having been acquired in consideration of the issuance of the taxpayer's own stock. These rules may be illustrated by the following examples:

Example (1). Corporation N acquires, after December 31, 1935, stock in Corporation O in exchange solely for the stock of N. In a subsequent nontaxable reorganization, N receives new shares of O in exchange for the original shares. If the new shares take the basis of the original shares, the new shares are considered, for the purposes of section 742 (f) (1), to have been acquired for the stock of N, and such section is inapplicable.

Example (2). The P and Q Corporations were in existence prior to January 1, 1936. On January 1, 1937, P acquired all the stock of Q from the latter's stockholders in exchange for stock of P. On January 1, 1938, in a nontaxable reorganization, the X Corporation was organized and acquired all the assets of Q in exchange for its (X's) stock. In connection with this reorganization, P exchanged its stock in Q for the stock in X, and Q was dissolved. On December 31, 1939, P acquired all of the assets of X in a Supplement A transaction. For the purposes of section 742 (f) (1), the stock in X acquired by P is regarded as having been acquired for its own stock and, therefore, no adjustment is required under section 742 (f) (1).

Section 742 (f) (1) applies also in cases in which a component (referred to as the "first corporation") of the taxpayer transfers assets for stock in a corporation (referred to as the "second corporation") and both corporations become components of the taxpayer (the second corporation becoming a component either directly or as a component of the first corporation). The exclusion of a portion of the second corporation's base period experience by reason of the acquisition after December 31, 1935, of its stock for assets by the first corporation is to be made in accordance with the rules previously set forth for excluding the experience of a component when its stock is acquired after December 31, 1935, for assets by the taxpayer. The application of these rules in such cases may be illustrated by the following examples:

Example (1). The R, S, and T Corporations were in existence on January 1, 1936, and have at all times made their income tax returns on the calendar year basis. On January 1, 1937, S purchased for cash all of the stock of T from the latter's stockholders. On January 1, 1938, R purchased for cash all of the stock of S from the latter's stockholders. On December 31, 1939, S acquired all of the assets of T in a Supplement A transaction. On December 31, 1940, R acquired all of the assets of S in a Supplement A transaction. In computing the Supplement A average base period net income of R, there is to be excluded under section 742 (f) (1) the experience of T for 1936 and of S for 1936 and 1937.

Example (2). Assume the same facts as in example (1) above except that the S Corporation made the acquisition of the T Corporation's stock on January 1, 1939, (after the acquisition by R of the stock of S). In such a case there is to be excluded under section 742 (f) (1) the experience of T for 1936, 1937, and 1938 and the experience of S for 1936 and 1937.

(C) Section 742 (f) (2) imposes a limitation in case a corporation becomes an acquiring corporation in an excess profits tax taxable year. In such case only a proportionate amount of the excess profits net income or deficit in excess profits net income of any component corporation acquired upon such transaction may be included in computing the taxpayer's average base period net income for purposes of the excess profits credit for such taxable year. The amount thereof which may be included with respect to each base period year is an amount which bears the same ratio to the total amount of the excess profits net income or deficit in excess profits net income of such component corporation otherwise includible in such base period year as the number of the days in the taxable year after the acquisition takes place bears to the total number of days in the taxable year. In the computation of the excess profits credit based on income for subsequent taxable years, the average base period net income shall, unless otherwise limited, reflect the full amount of the base period excess profits net income or deficit in excess profits net income of such component corporation. Section 742 (f) (2) may be illustrated by the following example:

Example. On October 19, 1942, the X Corporation acquires all of the assets of the Y Corporation in a transaction described in section 740 (a). Both the X Corporation and the Y Corporation were in existence on January 1, 1936, and both corporations have always filed their income tax returns on the calendar year basis. The Y Corporation had an excess profits net income of $100,000 for the calendar year 1936, a deficit in excess profits net income of $10,000 for the calendar year 1937, an excess profits net income of $70,000 for the calendar year 1938, and an excess profits net income of $50,000 for the calendar year 1939. In computing its average base period net income for purposes of the excess profits credit for the calendar year 1942, the X Corporation may include only one-fifth (i. e., 73/365) of the above amounts, i. e., $20,000 for 1936, minus $2,000 for 1937, $14,000 for 1938, and $10,000 for 1939. In computing the excess profits credit for 1943 and subsequent years, however the X Corporation may include the full amount of the base period excess profits net incomes and deficit in excess profits net income of the Y Corporation.

A similar limitation applies in the case of a component corporation for the purpose of computing its excess profits credit for a taxable year of such component beginning after December 31, 1941, and in which the Supplement A transaction occurs. See section 740 (c) (2). In such case, however, the proportionate amount of the average base period net income or Supplement A average base period net income, as the case may be, to be taken into account for the purpose of the component corporation's excess profits credit for such taxable year is in the ratio which the number of days in such taxable year before the day after the transaction bears to the total number of days in such taxable year. Thus, in the above example, in computing the average base period net income or the Supplement A average base period net income, as the case may be, of the Y Corporation (assuming it continues in existence after the transaction) for the purpose of its excess profits credit for 1942, the amounts to be taken into account will be $80,000 for 1936, minus $8,000 for 1937, $56,000 for 1938, and $40,000 for 1939.

(d) *Determination of average base period net income.* The average base period net income of an acquiring corporation, in general, is the sum of the group excess profits net incomes for the base period years for which there were group excess profits net incomes, reduced by the sum of the group deficits in excess profits net income for the base period years for which there were group deficits in excess profits net income, the remainder being divided by four. However, in cases in which the lowest amount for any base period year is less than 75 percent of the average for the other three years, there shall be substituted for such lowest amount an amount of excess profits net income equal to 75 percent of such average, and then the average base period net income shall be computed for the four base period years as under the general rule. This provision as to the lowest base period year is applicable only for the purpose of computing the tax for taxable years beginning after December 31, 1941 (regardless of the election provided in § 30.742-3 (e)). In no case shall the average base period net income be less than zero. This paragraph may be illustrated by the following example:

Example. The group net income or group deficit in excess profits net income of the P Corporation for each of its base period years is as follows (a group deficit in excess profits net income being preceded by a minus sign):

First base period year	$100,000
Second base period year	−50,000
Third base period year	−25,000
Fourth base period year	75,000

The average base period net income of the P Corporation is $46,875, computed as follows:

(1) Group deficit in excess profits net income for lowest year	$50,000
Average for other 3 years (($100,000 − $25,000 + $75,000) ÷ 3)	50,000
75% of average for other 3 years	37,500
(2) Group excess profits net income for first year	100,000
Plus: Group excess profits net income for second year (as determined above for lowest year)	37,500
Plus: Group excess profits net income for fourth year	75,000
Total	212,500
Less: Group deficit in excess profits net income for third year	25,000
Remainder	187,500
Average base period net income ($187,500 ÷ 4)	46,875

Section 742 (d) provides for a minimum average base period net income in the case of a taxpayer which becomes an acquiring corporation in a transaction taking place in a taxable year beginning after December 31, 1939, if, on September 11, 1940, and at all times thereafter until the transaction takes place, either the taxpayer owns at least 75 percent of each class of stock of each qualified component corporation involved in the transaction, or one of such qualified component corporations owns at least 75 percent of each class of stock of the taxpayer and each of the other qualified component corporations. In such case the average base period net income of the taxpayer shall be determined as provided in section 742 (d). The term "qualified component corporation", as used in this paragraph, means a component corporation which was in existence on the date of the beginning of the taxpayer's base period. For the purposes of this paragraph section 740 (g) is not applicable.

(e) *Computation under section 742 (h); increased earnings in last half of base period.* The determination of the Supplement A average base period net income under the method provided in section 742 (h) is operative only if the sum of the group excess profits net incomes of the taxpayer for the second half of its base period, reduced by the sum of its deficits in excess profits net income for such half, is greater than such sum so reduced for the first half and the average base period net income determined under section 742 (h) is greater than the amount determined under section 742 without regard to subsection (h) of such section. The following steps are required for the computation of the Supplement A average base period net income under the method provided in section 742 (h):

(1) The excess profits net income or deficit in excess profits net income of the acquiring corporation and of each component corporation for each taxable year beginning with or within each base period year of the acquiring corporation is determined as provided in paragraph (b) of this section of the regulations.

(2) The group excess profits net income or group deficit in excess profits net income of the acquiring corporation for each of its base period years is determined as provided in paragraph (b).

(3) There is computed for each half of the base period the sum of the group excess profits net incomes for the base period years in such half, reduced, if for one or more of such years there was a group deficit in excess profits net income, by the sum of such group deficits. In making this computation, the lowest amount for any base period year is not adjusted as in the case of the computation under the general average method described in paragraph (b).

(4) The excess of the amount ascertained for the second half over the amount ascertained for the first half is divided by two.

(5) The amount ascertained under subparagraph (4) is added to the amount ascertained under subparagraph (3) for the second half of the base period.

(6) The amount found under subparagraph (5) is divided by two.

(7) The amount ascertained under subparagraph (6) shall be the Supplement A average base period net income determined under the method provided in section 742 (h), except that the Supplement A average base period net income so determined shall in no case be greater than the highest group excess profits net income for any base period year. For the purposes of this limitation, in the case of a corporation which became a component corporation in a Supplement A transaction occurring in a taxable year beginning in the base period, no account shall be taken of its excess profits net income before the day after such transaction or of any of its component corporations acquired before the day after such transaction. (See section 740 (c) (1).)

The computation of the Supplement A average base period net income under the method provided in section 742 (h) may be illustrated by the following examples:

Example (1). The X Corporation, an acquiring corporation, has the following amounts of group excess profits net incomes for the base period years in its base period: 1936, $100,000; 1937, $200,000; 1938, $300,000; and 1939, $400,000. Its Supplement A average base period net income under the method provided in section 742 (h) is $400,000, computed as follows:

(i) Sum of group excess profits net incomes for second half of base period ($300,000 plus $400,000)	$700,000
(ii) Sum of group excess profits net incomes for first half of base period ($100,000 plus $200,000)	300,000
(iii) Excess of item (i) over item (ii)	400,000
(iv) One-half of item (iii) ($400,000 divided by 2)	200,000
(v) Sum of item (i) plus item (iv) ($700,000 plus $200,000)	900,000
(vi) Item (v) divided by 2 ($900,000 divided by 2)	450,000
(vii) Highest group excess profits net income for any base period year (1939)	400,000
(viii) Supplement A average base period net income (item (vii) since such item is less than item (vi))	400,000

Example (2). The X Corporation was in existence throughout its base period and has always made its income tax returns on the calendar year basis. On July 1, 1938, it transferred its property to another corporation in a transaction described in section 740 (a) (1) (A). It immediately exchanged the stock received in such transaction for other assets and continued in business. On December 31, 1938, it acquired all of the assets of the Y Corporation in a Supplement A transaction. The Y Corporation was in existence on January 1, 1936, and made its income tax returns on the calendar year basis. The excess profits net incomes of the X Corporation for 1936, 1937, and 1938 were, respectively, $75,000, $125,000, and $350,000. With respect to the last amount, $200,000 thereof is attributable to the part of 1938 after the transaction in which the X Corporation was a component corporation and $150,000 is attributable to the prior part of such year. The excess profits net incomes of the Y Corporation for 1936, 1937, and 1938 were, respectively, $25,000, $75,000, and $200,000. The excess profits net income of the X Corporation for 1939 was $300,000. In applying the method provided in section 742 (h), the X Corporation is required to take into account its excess profits net incomes for the period before the date of the transaction in which it was a component corporation, but, for the purposes of the limitation as to the maximum amount of Supplement A average base period net income, it is not permitted to take into account such income. (See section 740 (c) (1).) Accordingly, its group excess profits net incomes for the base period years are, respectively, $100,000, $200,000, $550,000, and $300,000, and its Supplement A average base period net income is $400,000, computed as follows:

(i) Sum of group excess profits net incomes for second half of base period ($550,000 plus $300,000)	$850,000
(ii) Sum of group excess profits net incomes for first half of base period ($100,000 plus $200,000)	300,000
(iii) Excess of item (i) over item (ii)	550,000
(iv) One-half of item (iii) ($550,000 divided by 2)	275,000
(v) Sum of item (i) plus item (iv) ($850,000 plus $275,000)	1,125,000
(vi) Item (v) divided by 2 ($1,125,000 divided by 2)	562,500
(vii) Highest group excess profits net income for any base period year for purposes of limitation as to maximum average income (1938). (Effective income for 1938 for purposes of limitation is $400,000 after excluding $150,000 attributable to part of year preceding July 2, 1938)	$400,000
(viii) Supplement A average base period net income (item (vii) since such item is less than item (vi))	400,000

The restriction upon the limitation illustrated in the last example applies also in the case of a component corporation computing the average base period net income under section 713 (f) and not under section 742 (h), for the purpose of its credit for a taxable year beginning after December 31, 1941 (see section 740 (c) (1)). Thus, if in example (2) above, the X Corporation had continued in existence without acquiring the assets of the Y Corporation and, as in the example, its excess profits net income for 1939 was $300,000, its average base period net income computed under section 713 (f) (without the benefit of the experience of Y Corporation) would be limited to $300,000. The otherwise highest amount of excess profits net income, $350,000 for 1938, would be reduced under the restriction in section 740 (c) to $200,000 by the elimination of $150,000 attributable to the part of the taxable year preceding July 2, 1938.

For the purpose of computing the Supplement A average base period net income under the method provided in section 742 (h), section 742 (h) (2) provides certain limitations on the amount of the excess profits net income for any taxable year of the taxpayer or a component corporation beginning in 1939 and ending after May 31, 1940.

Section 742 (h) (2) (A) and (B) may be illustrated by the following example:

Example. The X Corporation makes its income tax returns on the basis of a fiscal year ending September 30. It had an excess profits net income of $400,000 for the fiscal year ended September 30, 1939. Its excess profits net income for the fiscal year ended September 30, 1940, before the application of section 742 (h) (2) (A) and (B), is $600,000. Four months of the latter fiscal year are after May 31, 1940. Under section 742 (h) (2) (A) and (B) the excess profits net income of the corporation for the fiscal year ended September 30, 1940, is $533,333.33, computed as follows:

(i) Excess profits net income before application of section 742 (h) (2) (A) and (B)	$600,000.00
(ii) Amount by which item (i) is to be reduced under section 742 (h) (2) (A) ($^4/_{12}$ of $600,000)	200,000.00
(iii) Item (i) less item (ii) ($600,000 minus $200,000)	400,000.00
(iv) Amount to be added to item (iii) under section 742 (h) (2) (B) ($^4/_{12}$ of $400,000, the amount of excess profits net income for the fiscal year ended September 30, 1939)	133,333.33
(v) Excess profits net income for fiscal year ended September 30, 1940, after application of section 742 (h) (2) (item (iii) plus item (iv), or $400,000 plus $133,333.33)	533,333.33

If on December 31, 1940, the X Corporation acquired the Y Corporation in a Supplement A transaction, and if the Y Corporation had made its income tax returns on the calendar year basis and had an excess profits net income for the calendar year 1939 of $100,000, the X Corporation's group excess profits net income for 1939 would be $633,333.33 ($533,333.33 plus $100,000).

Section 742 (h) (2) (C) may be illustrated by the following example:

Example. The last three taxable years in the base period of the Z Corporation and the number of months in, and the excess profits net income for, such taxable years are as follows:

Taxable years		Number of months	Excess profits net income, not annualized
Beginning—	Ending—		
July 1, 1938	June 30, 1939	12	$400,000
July 1, 1939	Sept. 30, 1939	3	75,000
Oct. 1, 1939	Sept. 30, 1940	12	(600,000)

Under section 742 (h) (2) the excess profits net income of the corporation for the fiscal year ended September 30, 1940 is $508,333.33, computed as follows:

(i) Excess profits net income before application of section 742 (h) (2) (A) and (B)	$600,000.00
(ii) Amount by which item (i) is to be reduced under section 742 (h) (2) (A) 4/12 of $600,000	200,000.00
(iii) Item (i) less item (ii) ($600,000 minus $200,000)	400,000.00
(iv) Amount to be added to item (iii) under section 742 (h) (2) (B) (4/12 of $75,000 but not in excess of $75,000)	75,000.00
(v) Amount to be added to item (iii) under section 742 (h) (2) (C) (1/12 of $400,000)	33,333.33
(vi) Excess profits net income for fiscal year ended September 30, 1940, after application of section 742 (h) (2) (sum of items (iii), (iv), and (v), or $400,000 plus $75,000 plus $33,333.33)	508,333.33

The Z Corporation's excess profits net incomes for the two taxable years beginning in 1939 are required to be placed on an annual basis in order to determine its excess profits net income for the base period year 1939. (See section 742 (a).) For this purpose, its excess profits net income for the taxable year beginning October 1, 1939, and ending September 30, 1940, is the amount as reduced by the application of section 742 (h) (2). If on December 31, 1941, the Z Corporation acquired a component corporation in a Supplement A transaction, and if the component corporation had made its income tax returns on the calendar year basis, Z Corporation's group excess profits net income for the base period year 1939 would be the sum of (A) the excess profits net income of the component corporation for the calendar year 1939 plus (B) the amount resulting from placing Z Corporation's actual excess profits net income for the short taxable year beginning on July 1, 1939, and its excess profits net income for the fiscal year ending September 30, 1940 (as reduced under section 742 (h) (2)) on an annual basis.

(d) *Computation of excess profits net incomes for base period years during which neither taxpayer nor any component corporation was in existence; applicable under both general average method and increased earnings method*—(1) *General.* The base period of an acquiring corporation is composed of four successive 12-month periods, whether or not there is one or more of such base period years during the whole of which neither the acquiring corporation nor any of its component corporations was in existence (although, of course, either the acquiring corporation or one of its components must have been actually in existence prior to January 1, 1940, in order for Supplement A to apply). Section 742 (e) (1) provides a method for determining the excess profits net incomes of the several corporations for a base period year during which none of such corporations was actually in existence.

In the case of an acquiring corporation which acquired its component corporation in a Supplement A transaction occurring before the beginning of such acquiring corporation's last taxable year which began in 1939, the following steps are required for the computation of its excess profits net income for a base period year during which neither the acquiring corporation nor the component corporation was at any time in existence:

(i) The daily invested capital of the acquiring corporation for the first day of its first excess profits tax taxable year is determined.

(ii) There is determined the percentage of such daily invested capital which would be applicable under section 720 in reduction of the average invested capital of the acquiring corporation on account of inadmissible assets for its last taxable year beginning in 1939, in the same manner as if section 720 had been applicable to such year.

(iii) The amount determined under (i) is reduced by an amount equal to the same percentage of such daily invested capital as the percentage determined under (ii).

(iv) 8 percent of the amount found under (iii) is determined.

The amount determined under (iv) is the excess profits net income of the acquiring corporation for such base period year. In such case, no excess profits net income is to be built up for the component corporation for such base period year.

In the case of an acquiring corporation which acquired a component corporation in a Supplement A transaction occurring before the beginning of such acquiring corporation's last taxable year beginning in 1939, the excess profits net income of the acquiring corporation for a base period year during which neither of such corporations was at any time in existence is determined in the manner prescribed in the preceding paragraph, except that, in determining the percentage figure under section 742 (e) (1) (B), the acquiring corporation is considered to have held the admissible and inadmissible assets held by the component corporation (and at the time so held by it) immediately prior to the transaction and during any part of such taxable year of the acquiring corporation. In such case, no excess profits net income is to be built up for the component corporation for such base period year.

In case the Supplement A transaction by which a corporation became a component corporation of its acquiring corporation occurred in the last taxable year of such component corporation beginning in 1939 but on a day in a taxable year of such acquiring corporation beginning in 1940, the following steps are required for the computation of the excess profits net income with respect to such component corporation for a base period year during which neither of such corporations was at any time in existence:

(i) The daily invested capital of the component corporation for the day of the transaction is determined.

(ii) There is determined the percentage of such daily invested capital which would be applicable under section 720 in reduction of the average invested capital of the component corporation on account of inadmissible assets for the 12-month period ending with the day preceding the day of the transaction, in the same manner as if such 12-month period constituted a taxable year and section 720 had been applicable to such taxable year.

(iii) The amount determined under (i) is reduced by an amount equal to the same percentage of such daily invested capital as the percentage determined under (ii).

(iv) 8 percent of the amount found under (iii) is determined.

The amount determined under (iv) is the excess profits net income of the component corporation for such base period year.

In the case of an acquiring corporation which acquired all of the assets of a component corporation after the beginning of both corporations' first excess profits tax taxable year, the excess profits net income for each corporation for a base period year during which neither was at any time in existence is determined in the manner prescribed in the second paragraph of this subsection.

The application of the foregoing rules under section 742 (e) (1) and (2) may be illustrated by the following examples (examples (1) and (2) covering subsection (e) (1) in general; example (3) dealing with the application of subsection (e) (1) (B), and example (4) covering subsection (e) (2)):

Example (1). The F Corporation, on the calendar year basis, was organized on January 1, 1937. The G Corporation was organized on December 1, 1936. It has at all times used a fiscal year ending November 30. On January 1, 1942, the F Corporation acquired the properties of G Corporation in a Supplement A transaction. Since the G Corporation was actually in existence in the base period year 1936, section 742 (e) (1) is not applicable and therefore the F Corporation will not be permitted to build up any income for the first 11 months in 1936.

Example (2). The H Corporation and the J Corporation came into existence on January 1, 1937, and January 1, 1938, respectively. Both corporations have at all times been on the calendar year basis. On January 1, 1942, the H Corporation acquires all of the assets of the J Corporation in a Supplement A transaction. Although the J Corporation was not actually in existence in 1937, the H Corporation was actually in existence in such year. Therefore, no excess profits net income may be built up with respect to such year. However, since neither corporation was actually in existence in 1936, income may be built up for such year. Such income is the excess profits net income built up for each corporation for 1936. In the case of each corporation the built up income is an amount equal to 8 percent of the excess of—

(i) the daily invested capital of the corporation for January 1, 1940, over

(ii) an amount which is the same percentage of such capital as the percentage determined as provided in section 742 (e) (1) (B) under the rules of section 720 by reference to its last taxable year beginning in 1939.

Example (3). The M Corporation came into existence on November 1, 1937. It has at all times used a fiscal year ending October 31. The N Corporation, on the calendar year basis, came into existence on January 1, 1937. On October 1, 1940, the M Corporation acquired all of the assets of the N Corporation in a Supplement A transaction. Here the date of the transaction fell within the M Corporation's last taxable year beginning within 1939, but within the N Corporation's first excess profits tax taxable year. In building up excess profits net income for 1936 (the year in which neither corporation was in existence), there is taken into account only the M Corporation's daily invested capital—for November 1, 1940. The N Corporation's daily invested capital is reflected in the M Corporation's daily invested capital for such day. In determining the percentage figure as provided in section 742 (e) (1) (B) under the rules of section 720 by reference to its taxable year ended October 31, 1942 (to be used in reducing the M Corporation's daily invested capital), the M Corporation is treated as if it had held the admissible and inadmissible assets which the N Corporation held during the period November 1, 1939, through September 30, 1940.

Example (4). The K Corporation, on the calendar year basis, came into existence on January 1, 1937. The L Corporation was organized on July 1, 1937. It has at all times used a fiscal year ending June 30. On March 1, 1940, the K Corporation acquired all of the assets of the L Corporation in a Supplement A transaction. The date of the transaction fell, accordingly, within the K Corporation's first excess profits tax taxable year, but within the L Corporation's last taxable year beginning in 1939. In building up excess profits net income for each corporation for 1936 (the year in which neither corporation was in existence), there is taken into account the K Corporation's daily invested capital for January 1, 1940, and the L Corporation's daily invested capital for March 1, 1940.

(2) *Limitations.* The determination of excess profits net income for vacant base period years is subject to each of the following limitations:

(i) Section 742 (e) (3) acts as a limitation on subsections (e) (1) and (2). The cases generally covered by it are those in which there was cross-ownership of stock between such corporations prior to the Supplement A transaction, but it also covers cases where property or stock of either corporation has been transferred to the other as paid-in surplus or as a contribution to capital. As such, the primary purpose of section 742 (e) (3) is to prevent doubling up on the factor of the daily invested capital carried into the first excess profits tax taxable year as the factor upon which the constructive income allowed under subsections (e) (1) and (2) is computed.

Briefly stated, section 742 (e) (3) provides that in case any corporation described in section 742 (e) (1) owned stock in any other such corporation on the first day of such owning corporation's first excess profits tax taxable year beginning in 1940, then the invested cap-

ital factor, upon which the constructive income allowed under section 742 (e) (1) and (2) with respect to such corporations is computed, shall be adjusted to such extent as may be necessary to prevent such constructive income from reflecting money or property paid in by either of such corporations to the other for stock or as paid-in surplus or as a contribution to capital; or from reflecting stock of either paid in for stock of the other or as paid-in surplus or as a contribution to capital. For this purpose, stock in either such corporation which has in the hands of the other corporation a basis determined with reference to the basis of stock previously acquired by the issuance of such other corporation's own stock shall be deemed to have been paid in for the stock of such other corporation. For certain limitations in other cases of cross-ownership of stock not covered by section 742 (e) (3), see section 742 (f) (1) and § 30.742–2 (b) (3) (ii) (B).

The following example illustrates the nature of the adjustment to be made in cases to which section 742 (e) (3) applies:

Example. The O Corporation and the P Corporation are both on the calendar year basis. The O Corporation came into existence on January 1, 1938. The P Corporation was organized on December 31, 1938, and on that date it issued all of its capital stock to the O Corporation in exchange for assets of the latter. The O Corporation holds this stock continuously until December 31, 1941, at which time it acquires the P Corporation in a transaction described in section 740 (a) (2). Each corporation is entitled under section 742 (e) (1) to a constructive income for the years 1936 and 1937. This constructive income is computed at 8 percent of the excess of its daily invested capital for January 1, 1940, over an amount which is the same percentage of such invested capital as the percentage determined under section 720—generally known as the inadmissible ratio. In the event that the reduction under section 720 in the O Corporation's daily invested capital for January 1, 1940, attributable to the stock in P is an amount which is less than the basis of such stock to the O Corporation, a further adjustment shall be made in its invested capital in order to eliminate duplication of the same invested capital. Assuming that the basis of the P stock to the O Corporation under section 718 (a) (2) is $50,000, that on December 31, 1938, and December 31, 1939, it owned shares in other domestic corporations having a basis of $10,000; and that the O Corporation's daily invested capital for January 1, 1940, is $450,000 (section 742 (c) (1) (A)), the computation of the adjustment required under section 742 (e) (3) may be illustrated as follows:

(i) Total inadmissible assets (based upon computation under section 720)		$60,000
(ii) Total admissible and inadmissible assets computed under section 720 with reference to the aggregate of both classes of assets (§ 30.720–1)		600,000
(iii) Percentage which the total inadmissible assets is of total admissible and inadmissible assets—percent		10
(iv) Daily invested capital of the O Corporation for January 1, 1940, as stated above		450,000
(v) Amount of reduction in the O Corporation's daily invested capital for January 1, 1940, for inadmissible assets under section 742 (e) (1) (B)—10 percent of item (iv)		45,000
(vi) Reduction in the daily invested capital of the O Corporation for January 1, 1940, which is attributable to the stock in the P Corporation $\frac{(50,000 \times 45,000)}{60,000}$		37,500
(vii) Basis of the P Corporation stock to the O Corporation		50,000
(viii) Adjustment to be made in the O Corporation's daily invested capital for January 1, 1940, in order to arrive at the invested capital factor under section 742 (e) (3) upon which constructive income is computed		12,500
(ix) Daily invested capital for January 1, 1940		450,000
Adjustment for inadmissibles under section 720 (item (vi) above)	$45,000	
Adjustment under section 742 (e) (3)	12,500	57,500
(x) Invested capital as adjusted under section 742 (e) (3) upon which constructive income of the O Corporation is computed		392,500

(ii) Section 742 (f) (1) requires the exclusion from Supplement A average base period net income of all or a part of the base period experience of a component which is determined under section 742 (e) for "vacant" base period years, if the taxpayer (or any corporation which later became a component of the taxpayer) acquired for assets (other than its own stock) the stock of such component after such vacant base period year. See § 30.742–2 (b) (3) (ii) (B).

The adjustment necessary under section 742 (f) (1) where excess profits net income for "vacant" base period years would otherwise be determined under section 742 (e) is illustrated by the following example:

Example. The A and B Corporations were both organized on January 1, 1937, and have at all times made their income tax returns on the calendar year basis. On January 1, 1938, A purchased for cash all of the stock of B from the latter's stockholders. On December 31, 1940, A acquired all of the assets of B in a Supplement A transaction. Under section 742 (e), the excess profits net incomes of A and B for 1936 are to be determined separately. However, by reason of section 742 (f) (1), the experience of B prior to January 1, 1938, is to be excluded, and therefore no excess profits net income need be determined for B for 1936.

The application of section 742 (f) (1) in other cases described in section 742 (e) but not illustrated above is to be determined in accordance with the above principles and those of § 30.742–2 (b) (3) (ii) (B).

(e) *Election to have amendments to Supplement A made by Revenue Act of 1942 apply to taxable years beginning after December 31, 1939, and before January 1, 1942.* A taxpayer may elect to have the amendments to Supplement A made by the Revenue Act of 1942 apply retroactively (with the exceptions indicated below) to all its taxable years beginning after December 31, 1939, and before January 1, 1942. If a taxpayer elects to have such amendments so apply, each such amendment shall be applicable to such taxable years, except such of the amendments as by their terms are limited to taxable years beginning after December 31, 1941. The election does not apply to the last sentence of section 740 (c), as added by the Revenue Act of 1942, or to the repeal of section 741 (b), which amendments by their terms are retroactive to all taxable years beginning after December 31, 1939. The amendments which by their terms are limited to taxable years beginning after December 31, 1941, and therefore are also not subject to the election are the provisions of section 740 (c) (except the last sentence thereof) and section 742 (b) (2).

If the taxpayer desires to make the election described in the preceding paragraph, the election must be made on or before whichever one of the following applicable dates occurs first:

(1) June 15, 1943, if an excess profits tax return for a taxable year beginning after December 31, 1941, is filed for such year and if such return is filed on or before June 15, 1943,

(2) The date of the filing of the taxpayer's excess profits tax return for its first taxable year beginning after December 31, 1941, for which an excess profits tax return is filed if such return is filed after June 15, 1943, or

(3) The date of expiration of 30 months after the filing of the excess profits tax return (or, if no such return was filed, after the date on which such return was due or would have been due if such return were required to be filed) for the taxpayer's first taxable year beginning after December 31, 1939.

The election once made shall be irrevocable and shall apply to all taxable years of the taxpayer beginning before January 1, 1942.

In order to make such election, the taxpayer shall, within the time prescribed, file with the collector the following:

(i) A statement that the taxpayer elects to have such amendments apply to each of the taxable years beginning after December 31, 1939, and before January 1, 1942, and

(ii) A statement with respect to each such taxable year setting forth (A) the Supplement A average base period net income for such taxable year, computed under Supplement A as amended by such amendments, (B) the excess profits credit for such year based upon the Supplement A average base period net income for such year so computed, and (C) the excess profits tax or unused excess profits credit (as defined in section 710 (c) (2)), if any, as the case may be, for such year resulting from the use of the excess profits credit so computed. Such statement shall not constitute a claim for credit or refund. If the application of the amendments made by the Revenue Act of 1942 results in an overpayment in the amount of tax for any taxable year, a timely claim for credit or refund on Form 843 should be filed in the usual manner. For limitations upon credits and refunds generally, see section 322.

PAR. 27. There is inserted immediately preceding § 30.743–1 the following:

SEC. 228. RULES FOR INCOME CREDIT IN CONNECTION WITH CERTAIN EXCHANGES. (Revenue Act of 1942, Title II.)

* * * * * *

(d) *Amendments to Section 743.* Section 743 is amended to read as follows:

SEC. 743. NET CAPITAL CHANGES.

(a) *Taxpayer using this supplement.* For the purposes of section 713 (g), if the transaction which constitutes the taxpayer an acquiring corporation occurs in a taxable year of the taxpayer which begins after December 31, 1939, and the taxpayer's average base period net income is computed under section 742, the following rules shall apply in computing the daily capital addition and reduction of the taxpayer for each day after such transaction:

(1) The transferred capital addition or reduction of the component corporation shall be treated as if it were a capital addition or reduction, as the case may be, of the taxpayer.

(2) The transferred capital addition of the component corporation shall be its daily capital addition as of the time immediately before the transaction (computed under section 713 (g), but without regard to its reduction under the fourth sentence of paragraph (3) on account of excluded capital, but with the application of paragraph (6) of this subsection).

(3) The transferred capital reduction of the component corporation shall be its daily capital reduction as of the time immediately before the transaction (computed under section 713 (g) but with the application of paragraph (7) of this subsection).

(4) In computing the daily capital addition of the taxpayer, money or property paid in to the taxpayer by any of its component corporations, and property consisting of stock in any such component corporation paid in by shareholders of such component corporation, shall be disregarded.

(5) In computing the daily capital reduction of the taxpayer, distributions by the taxpayer to any of its component corporations not out of earnings and profits shall be disregarded.

(6) In computing the transferred capital addition of the component corporation, money or property paid in to such component corporation by the taxpayer or any other component corporation and property consisting of stock in the taxpayer or any other component corporation paid in by shareholders of the taxpayer or other component corporation, shall be disregarded.

(7) In computing the transferred capital reduction of the component corporation, distributions by such component corporation to the taxpayer or any other component corporation shall be disregarded.

(8) The daily capital addition of the taxpayer to which any amount is added under paragraph (1) shall be the amount thereof computed before its reduction under the fourth sentence of section 713 (g) (3) on account of excluded capital.

(b) *Rule where acquiring corporation is component of taxpayer.* In cases where an acquiring corporation is a component of the taxpayer, and the transaction which constitutes such corporation an acquiring corporation occurs in a taxable year of such corporation which begins after December 31, 1939, for the purpose of determining the daily capital addition or reduction of the taxpayer the above rules shall be applied in a similar manner to determine the daily capital addition or reduction of such acquiring corporation for each day after such transaction.

* * * * * *

(f) *Taxable years to which amendments applicable.* The amendments made by this section shall be applicable only to the computation of the tax for taxable years beginning after December 31, 1941, except that (1) the last sentence of section 740 (c), as added by subsection (a) of this section shall be applicable to the computation of the tax for all taxable years beginning after December 31, 1939, and (2) if a taxpayer, within the time and in the manner and subject to such regulations as the Commissioner with the approval of the Secretary prescribes, elects to have such amendments (except those which by their terms are limited to taxable years beginning after December 31, 1941, and except that referred to in clause (1) apply retroactively to all taxable years of the taxpayer beginning after December 31, 1939, such amendments shall also be applicable to the computation of the tax for taxable years beginning after December 31, 1939.

PAR. 28. Section 30.743–1, as amended by Treasury Decision 5045, is further amended by striking out the heading and the first sentence and by inserting in lieu thereof the following:

§ 30.743–1 *Net capital changes for purposes of tax for taxable years beginning before January 1, 1942.* The regulations prescribed in this section are applicable only for the purpose of computing the tax for taxable years beginning before January 1, 1942, but shall not be applicable in computing the tax for such years if the taxpayer elects, as prescribed in § 30.742–2 (e), to have the amendments made by the Revenue Act of 1942 applicable in computing the tax for all of such years, in which case the regulations prescribed in § 30.743–2 shall be applicable.

No capital addition or reduction shall result to an acquiring corporation from the acquisition of a component corporation, except to the extent such component corporation has a net capital addition or reduction upon the date the transaction takes place.

PAR. 29. There is inserted immediately after § 30.743–1 the following new section:

§ 30.743–2 *Net capital changes for purposes of tax for taxable years beginning after December 31, 1941*—(a) *In general.* The regulations prescribed in this section are applicable only for the purpose of computing the tax for taxable years beginning after December 31, 1941, but shall be applicable in computing the tax for taxable years beginning prior thereto if the taxpayer elects, as prescribed in § 30.742–2 (e), to have the amendments made by the Revenue Act of 1942 applicable in computing the tax for all excess profits tax taxable years beginning after December 31, 1939.

If a taxpayer acquires a component corporation in a Supplement A transaction occurring in a taxable year of the taxpayer beginning after December 31, 1939, and if for the particular taxable year the taxpayer computes its average base period net income under section 742 for the purposes of its excess profits credit, the transferred capital addition of the component corporation is added to the taxpayer's daily capital addition for each day after such transaction and the transferred capital reduction of the component corporation is added to the daily capital reduction of the taxpayer for each such day.

The transferred capital addition of such component corporation is the daily capital addition of such component as of the time immediately before the transaction. Such daily capital addition is computed in accordance with the provisions of section 713 (g) except that it is not reduced on account of the excluded capital of the component corporation. In determining such daily capital addition of the component corporation, there is disregarded (1) money or property paid in to such component corporation by the taxpayer or any other component corporation of the taxpayer and (2) property consisting of stock in the taxpayer or any other component corporation of the taxpayer paid in by shareholders of the taxpayer or other component corporation.

The transferred capital reduction of such component corporation is the daily capital reduction of such component as of the time immediately before the transaction. Such daily capital reduction is computed in accordance with the provisions of section 713 (g). But in determining such daily capital reduction, there is disregarded distributions by such component corporation to the taxpayer or any other component corporation of the taxpayer.

The daily capital addition of the taxpayer to which the transferred capital addition of such component corporation is to be added is its daily capital addition computed in accordance with the provisions of section 713 (g), but before reduction on account of excluded capital. The taxpayer's excluded capital after the transaction, which is taken into account in making the reduction required by section 713 (g), will embrace the excluded capital of the component corporation which is carried over to the taxpayer in the transaction. In computing the daily capital addition of the taxpayer, there is disregarded (1) money or property paid in to the taxpayer by any of its component corporations and (2) property consisting of stock in any such component corporation paid in by the shareholders of that component corporation.

In computing the daily capital reduction of the taxpayer, there are disregarded distributions by the taxpayer to any of its component corporations not out of earnings and profits.

If an acquiring corporation is a component corporation of a taxpayer and if the transaction constituting such corporation an acquiring corporation occurred in a taxable year of such corporation beginning after December 31, 1939, then, for the purpose of determining the daily capital addition or reduction of the taxpayer, the provisions of this section shall be applied in a similar manner in order to determine the daily capital addition or reduction of such acquiring corporation for each day after such transaction.

This section may be illustrated by the following example:

Example. On March 1, 1942, the X Corporation, in exchange solely for its voting stock, acquires all the assets of the Y Corporation, having an adjusted basis for computing loss in the hands of the Y Corporation of $100,000. Immediately after the exchange, the Y Corporation distributes the stock of the X Corporation in complete liquidation. Both corporations make their income tax returns on a calendar year basis. Among the assets of the Y Corporation transferred in the Supplement A exchange were $30,000 of State bonds which it had purchased in 1938 for $32,000. The only money or other property paid into and distributions made by the Y Corporation from January 1, 1940, to March 1, 1942, were as follows:

January 15, 1942, $5,000 was paid into Y Corporation for stock by persons other than the X Corporation or any component thereof.

March 1, 1942, the day of the Supplement A transaction, but at a time prior to the transaction, the Y Corporation distributed $10,000 to shareholders (not including the X Corporation or any component thereof), of which only $7,000 was out of earnings and profits. If, for 1942, the X Corporation computes its average base period net income under Supplement A, it will have for March 2, 1942, and for each day thereafter, $5,000 of capital addition computed without regard to excluded capital, $32,000 of excluded capital (assuming the State bonds are retained for the balance of the year), and $3,000 of capital reduction. Such amounts will be added to the X Corporation's own capital additions, excluded capital, and capital reductions for 1942 in computing its capital additions and reductions under section 713 (g) for the purpose of its excess profits credit. No portion of the $100,000 paid in for stock on March 1, 1942, may be taken into account.

(b) *Limitation under section 742 (f) (1).* Section 742 (f) (1) requires the exclusion from transferred capital addition or reduction of any capital addition or reduction (determined as provided in section 743) of a component corporation attributable to stock of such component acquired for assets (other than its own stock) of the acquiring corporation before the Supplement A transaction. Necessarily this rule applies only in case the acquisition of such stock occurred on or after the beginning of the first excess profits tax taxable year of the component corporation, after such capital additions and reductions occurred, and before the Supplement A transaction. Such capital additions and reductions are to be attributed to such stock acquisitions in accordance with the principles of § 30.742–2 (b) (3) (ii) (B) and the purposes of section 742 (f) (1). No adjustment is necessary under section 742 (f) (1) with respect to stock which was acquired by the acquiring corporation directly from the corporation whose stock was acquired, unless duplication results and such duplication is not corrected under section 743.

[T.D. 5243]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

WAGE AND SALARY PAYMENTS

Regulations 103 amended to conform to § 4001.10 (a) of the regulations prescribed by the Economic Stabilization Director under the Act of October 2, 1942, entitled "An Act to amend the Emergency Price Control Act of 1942, etc.," and approved by the President, and to conform to § 1002.28 of Treasury Decision 5186 promulgated under the former section.

Section 5 (a) of the Act of October 2, 1942, entitled "An Act to amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes" (Public No. 729, 77th Congress, 2d session) provides that no employer shall pay, and no employee shall receive, wages or salaries in contravention of the regulations promulgated by the President under this Act. This section further provides that the President shall also prescribe the extent to which any wage or salary payment made in contravention of such regulations shall be disregarded by the executive departments and other governmental agencies in determining the costs or expenses of any employer for the purposes of any other law or regulation. Section 4001.10 (a) of the regulations relating to wages and salaries prescribed by the Economic Stabilization Director under this Act and approved by the President on October 27, 1942 (7 F.R. 8748) provides in effect that the entire amount of any wage or salary payment made in contravention of the above-mentioned Act, or the regulations, rulings, or orders promulgated thereunder, as determined by the National War Labor Board or the Commissioner of Internal Revenue, as the case may be, shall be disregarded by the executive departments and all other agencies of the Government for the purpose of calculating deductions under the revenue laws of the United States. That section further provides what amount of the wage or salary payment is to be disregarded for this purpose in the case of wage and salary decreases, wage and salary increases, and excessive salary payments, made in contravention of such Act, or of the regulations, rulings, or orders promulgated thereunder. The extent to which such wage and salary payments shall be disregarded is further described in § 1002.28 of Treasury Decision 5186, approved December 2, 1942, which constitutes the regulations promulgated by the Commissioner under the foregoing Act and regulations.

Section 3791 (a) of the Internal Revenue Code provides in effect that the Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of the Code, and may make all such regulations, not otherwise provided for, as may have become necessary by reason of any alteration of law in relation to internal revenue.

Pursuant to the provisions of the last-mentioned section of the Code and in order to conform Regulations 103 to the provisions of the Act of October 2, 1942, and to the provisions of the regulations promulgated thereunder, Regulations 103 are amended as follows:

PARAGRAPH 1. There is inserted immediately after § 19.23 (a)–15 the following new section:

§19.23 (a)–16 *Wage and salary payments in contravention of wage and salary limitations not deductible*—(a) *General.* In any case in which a wage or salary payment, for which a deduction would otherwise be allowable under section 23 (a), is determined by the National War Labor Board, by the Secretary of Agriculture, or by the Commissioner to have been made in contravention of the Act of October 2, 1942, entitled "An Act to amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes" (Public No. 729, 77th Congress, 2d session) or of the regulations, orders, or rulings promulgated thereunder, the entire amount of such payment shall be disallowed as a deduction under section 23 (a). Such a payment will not be allowed for this purpose notwithstanding that the same payment is also disallowed (1) for the purpose of determining costs or expenses of an employer for the purpose of some other law or regulation, either heretofore or hereafter promulgated, including the Emergency Price Control Act of 1942, or any maximum price regulation thereof; or (2) for the purpose of determining costs or expenses under any contract made by or on behalf of the United States.

(b) *Amount of illegal wage or salary payment not deductible*—(1) *Unauthorized wage or salary increases.* In the case of a wage or salary increased in contravention of the Act, or of the regulations, rulings, or orders referred to under paragraph (a) of this section, the amount which is not to be allowed as a deduction under this section is the amount of the wage or salary actually paid or accrued by the employer at the increased rate and not merely an amount representing the increase in such wage or salary. Thus, if, for example, on November 1, 1942, a weekly salary rate of $100 or a wage rate of $2 an hour is unjustifiably increased for the remainder of 1942 to $150 or $3, respectively, then the amounts not deductible under this section are the total weekly amounts of $150 or the total hourly amounts of $3, as the case may be. Also, if, for example, on February 1, 1943, a weekly salary rate of $100 or a wage rate of $2 an hour is increased without prior required approval to $150 or $3, respectively, but is restored on June 1, 1943, after formal disapproval, to $100 or $2, respectively, then the amounts not deductible under this section are the total weekly amounts of $150 or the total hourly amounts of $3, as the case may be, paid from February 1, 1943 to June 1, 1943, inclusive.

(2) *Unauthorized wage or salary decreases.* In the case of a wage or salary decreased in contravention of the Act, or of the regulations, rulings, or orders referred to under paragraph (a) of this section, the amount which will not be allowed as a deduction under this section is the amount of the wage or salary actually paid or accrued by the employer at the reduced rate. Thus, if, for example, on November 1, 1942, a weekly salary rate of $100 or a wage rate of $2 an hour has been unjustifiably reduced for the remainder of the calendar year 1942 to $90 or $1.80, respectively, the amounts not deductible under this section are the total weekly amounts of $90 or the total hourly amounts of $1.80, as the case may be.

(3) *Excessive salaries.* In the case of a salary in excess of the amount allowable under the Act, or the regulations, orders, or rulings referred to under paragraph (a) of this section, which is paid to, authorized to be paid to, or accrued to the account of an employee during his taxable year (as distinguished from the taxable year of his employer) in contravention of such Act, or of such regulations, orders, or rulings, the amount which is not to be allowed as a deduction under this section is the full amount of the salary so paid, authorized, or accrued, and not merely the amount representing the excess over the amount allowable under such Act, or under such regulations, orders, or rulings. Thus, if, for example, under such Act, or under such regulations, orders, or rulings an employee would be entitled to receive a total salary during his taxable year of $67,200 for services rendered in such year, but actually receives $100,000 for such services, then the entire amount of $100,000 is not deductible under this section.

PAR. 2. Wage or salary payments otherwise deductible under any section of chapter 1 of the Code, including sections 23 (p), 201, and 207, shall not be deductible under such section unless they would, if otherwise deductible under section 23 (a), be deductible under the foregoing paragraph.

Commissioner of Internal Revenue.

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That said petitions be, and the same hereby are, consolidated;

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petitions in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: February 25, 1943.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amendment 137, 2d Ed.]

PART 627—APPEAL TO BOARD OF APPEAL

TRANSFER OF APPEAL IN OCCUPATIONAL CASES

By virtue of the provisions of the Selective Training and Service Act of 1940 (54 Stat. 885, 50 U.S.C., Sup. 301-318, inclusive); E.O. No. 8545, 5 F.R. 3779, E.O. No. 9279, 7 F.R. 10177, and the authority vested in me by the Chairman of the War Manpower Commission in Administrative Order No. 26, 7 F.R. 10512, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by adding a new section to be known as § 627.71 to read as follows:

Transfer of Appeal in Occupational Cases

§ 627.71 *Request for transfer.* When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed provided all of the following conditions are met (but not otherwise):

(1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;

(2) the written request states in what respect an occupational question is involved; and

(3) the written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

2. Amend the regulations by adding a new section to be known as § 627.72 to read as follows:

§ 627.72 *Procedure when request for transfer is made.* (a) When a request for transfer of appeal has been made under the provisions of § 627.71, the local board shall forward the registrant's file to its State Director of Selective Service.

(b) When the State Director of Selective Service receives the file of a registrant which has been forwarded under the provisions of paragraph (a) of this section, he shall forward the file either (1) to the board of appeal in his State which has jurisdiction over the registrant's place of employment when such place of employment is within his State, or (2) to the State Director of Selective Service for the State in which the registrant is employed for transmittal to the board of appeal having jurisdiction over such place of employment. The transfer board of appeal shall act on the appeal in the same manner and make the same entries in its records as it makes in the case of an appeal from a local board whose records it normally reviews except that all entries will be made in red ink.

(c) When the transfer board of appeal has acted upon such an appeal, it shall return the file to its State Director of Selective Service who will forward the file either (1) to the local board of origin when it is located within his State, or (2) to the State Director of Selective Service of the State in which the local board of origin is located for transmittal to such local board of origin.

3. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

PART 628—APPEAL TO THE PRESIDENT

APPEAL TO THE PRESIDENT IN OCCUPATIONAL TRANSFER CASES

By virtue of the provisions of the Selective Training and Service Act of 1940 (54 Stat. 885, 50 U.S.C., Sup. 301-318, inclusive); E.O. No. 8545, 5 F.R. 3779, E.O. No. 9279, 7 F.R. 10177, and the authority vested in me by the Chairman of the War Manpower Commission in Administrative Order No. 26, 7 F.R. 10512, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by adding a new section to be known as § 628.1-1 to read as follows:

§ 628.1-1 *Appeal to the President in occupational transfer cases.* When, under the provisions of §§ 627.71 and 627.72, a registrant's case has been transferred to a board of appeal having jurisdiction over the area in which the registrant is employed, and such board of appeal is in a different State from the local board of origin, either the State Director of Selective Service of the State in which the local board of origin is located or the State Director of Selective Service of the State in which the transfer board of appeal is located may appeal to the President from the determination of the transfer board of appeal if he deems it to be in the national interest or necessary to avoid an injustice.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

[Limitation Order L-1-e, as Amended March 13, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rubber, steel and other materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 976.15 *Supplementary General Limitation Order L-1-e—*(a) *Prohibition of production of trucks and off-the-highway motor vehicles.* Except to the extent that operations are permitted under paragraphs (b) and (c) of this order, after April 11, 1942 no producer of medium and/or heavy motor trucks and/or off-the-highway motor vehicles shall manufacture any such vehicles, irrespective of any orders issued by the Director of Priorities or the Director of Industry Operations prior to April 11, 1942, and regardless of any contracts or other commitments entered into by such producers prior to April 11, 1942.

(b) *February and March quotas.* Nothing in this order shall prevent any producer from completing production of vehicles authorized under quotas established for February, 1942 by Amendment No. 2 to Limitation Order L-1-a, and established for March, 1942 by Amendment No. 3 to Limitation Order L-1-a, as such production has been modified or otherwise affected by the following:

(1) *As to February quotas:*

Telegram dated February 21, 1942 from Director of Industry Operations, authorizing the completion by March 31, 1942 of quotas for medium and heavy motor trucks established for February by Amendment No. 2 to Supplementary General Limitation Order L-1-a.

Telegram dated February 23, 1942 from Director of Industry Operations, supplementing telegram of February 21, 1942, permitting equipment with tires, casings and tubes, of medium and heavy motor trucks authorized for February quotas, on which production was continued into March by authority of the telegram of February 21, 1942, referred to above.

Supplementary Limitation Order L-1-f, extending time for completion of February quotas to April 30, 1942.

(2) *As to March quotas:*

Telegram dated March 18, 1942 from Director of Industry Operations, authorizing producers to equip with tires, casings and tubes, off-the-highway motor vehicles of 24,000 pounds, gross vehicle weight, and over, as reported in balanced units as on hand February 28, 1942, produced under March quotas and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

Amendment No. 4 to Limitation Order L-1-a, prohibiting production under March quotas for motor trucks with a gross vehicle weight of less than 16,000 pounds; and limiting production of March quotas for trucks over 16,000 pounds gross vehicle weight to those produced from semi-fabricated and fabricated materials reported as on hand February 28, 1942.

Amendment No. 6 to Limitation Order L-1-a, authorizing production of medium and heavy motor trucks, in either knock-down or built-up form, from materials assembled for the production of March quotas, in semi-fabricated or fabricated condition, for vehicles under 16,000 but not less than 9,000 pounds gross vehicle weight, as reported as on hand February 28, 1942; but only to fill contracts and orders for delivery to or for the account of the Army, Navy and certain agencies (and export) which must supply tires, casings, and tubes.

Supplementary Limitation Order L-1-f, extending time for completion of March quotas to May 31, 1942.

(c) *War orders not affected.* The prohibition on production imposed by this order shall not apply to any medium and/or heavy motor truck or off-the-highway motor vehicles produced under contracts or orders for delivery to or for the account of:

(1) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Offices of Scientific Research and Development;

(2) The government of any of the following countries: the United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia;

(3) Any agency of the United States Government, for material or equipment to be delivered to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to promote the defense of the United States." (Lend-Lease Act)

(d) *Definitions.* For the purposes of this order:

(1) "Off-the-highway motor vehicle" means a motor truck, truck-tractor and/or trailer, operating off the public highway, normally on rubber tires and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

(2) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of off-the-highway motor vehicles.

(e) *Authorized production of off-the-highway motor vehicles.* Irrespective of the provisions of paragraph (a), producers may manufacture off-the-highway motor vehicles beginning July 1, 1942 not in excess of a total of five hundred (500) units, for essential civilian and indirect military requirements, and for export, in such quantities and of such types as heretofore have been, or as may hereafter be, from time to time, specifically authorized by the Director General for Operations.

(f) *Protection of production schedules.* Producers of off-the-highway motor vehicles under the terms of this order may, notwithstanding the provisions of Priorities Regulation No. 1 (Part 944), schedule their production of such vehicles as if the orders therefor bore a rating of AA-2X.

Issued this 13th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1169—MAHOGANY, PHILIPPINE MAHOGANY AND ALBARCO

[General Conservation Order M–122 as Amended March 13, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage of mahogany, Philippine mahogany and Albarco for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1169.1 *General Conservation Order M–122*—(a) *Definitions.* For the purposes of this order:

(1) "Mahogany" means the wood of the several species of the genus Swietenia and the wood of the several species of the genus Khaya, both of the Meliaceae family.

(2) "Philippine mahogany" means the wood of the several species of the genera Shorea, Parashorea and Pentacme of the Dipterocarpaceae family, otherwise known as tanguile, red lauan, tiaong, almon, bagtikan, mayapis and white lauan.

(3) "Albarco," sometimes referred to as Colombian mahogany, means the wood of the genus Carlaniana.

(4) "War-use mahogany, war-use Philippine mahogany and war-use Albarco," means mahogany, Philippine mahogany and Albarco in the form of logs, flitches, knife cut veneer and lumber in all thicknesses of the grades of Firsts and Seconds and Selects (except such highly figured and cross-grained mahogany, Philippine mahogany and Albarco as is not suitable for plywood and parts for aircraft, boats and ships, or for patterns and models), also Firsts and Seconds Wormy, N. O. Wormy, and No. 1 Common (N) Wormy, suitable for patterns and models. The grades of mahogany and Philippine mahogany referred to are those specified in National Hardwood Lumber Association Rule Book in effect on February 15, 1943. Albarco shall be graded in the same way and according to the same standards as mahogany and Philippine mahogany.

(5) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(6) "Importer" means any person who imports mahogany, Philippine mahogany or Albarco.

(7) "Dealer" means any person who purchases mahogany, Philippine mahogany or Albarco for resale.

(8) "Fabricator" means any person who uses war-use mahogany, war-use Philippine mahogany or war-use Albarco in any form in the manufacture of semi-finished or finished products consisting wholly or partly of mahogany, Philippine mahogany or Albarco.

(9) "Converter" means any person who manufactures or re-manufactures mahogany, Philippine mahogany or Albarco in the form of logs, sections of logs, blocks, flitches, timbers or lumber, into lumber or veneer or other forms utilizable by fabricators.

(b) *Restrictions on sales and deliveries.* After February 15, 1943, no person, other than an importer acting as such, shall buy or accept delivery of war-use mahogany, war-use Philippine mahogany or war-use Albarco, and no dealer, importer, fabricator or converter shall sell or deliver war-use mahogany, war-use Philippine mahogany or war-use Albarco, except upon the following categories of orders:

(1) Orders specifying delivery to or for the account of any of the agencies or governments specified in paragraph (b) (1) or (b) (2) of § 944.1, Priorities Regulation No. 1, as amended from time to time;

(2) Orders placed by converters, dealers, and fabricators for uses limited to those enumerated in paragraph (d) hereof to satisfy orders by or in behalf of any of the agencies or governments specified in paragraph (b) (1) or (b) (2) of § 944.1, Priorities Regulation No. 1, as amended from time to time;

(3) Orders placed by any person for use in making patterns and models used in the manufacture of products bearing a preference rating of AA–1 or higher; *Provided, however,* That such orders are not for Firsts and Seconds or Selects.

(4) Orders placed by dealers to replace an equal number of board feet of war-use mahogany, war-use Philippine mahogany or war-use Albarco delivered subsequent to May 26, 1942, for the uses specified in paragraph (d), subparagraph (2), of this order: *Provided, however,* That such orders are not for Firsts and Seconds or Selects.

War-use mahogany, war-use Philippine mahogany, and war-use Albarco replaced in dealers' stocks pursuant to the provisions of this paragraph (b), subparagraph (4), shall be delivered only for the purposes specified in paragraph (d), subparagraph (2), of this order;

(5) Orders placed by importers.

The restrictions in this paragraph (b) on sale or delivery of war-use mahogany, war-use Philippine mahogany, and war-use Albarco shall not apply to the sale or delivery by any person who on May 26, 1942, had in his inventory not in excess of one hundred board feet of war-use mahogany, war-use Philippine mahogany or war-use Albarco, as to such one hundred feet or less of war-use mahogany, war-use Philippine mahogany or war-use Albarco in inventory.

(c) *Restrictions on production.* No converter or fabricator shall process logs into flitches, lumber or veneer, nor further process flitches, as the case may be, unless such logs or flitches are so processed to produce the maximum of war-use mahogany, war-use Philippine mahogany and war-use Albarco obtainable therefrom, in the form desired.

(d) *Restrictions on use.* Except as authorized by paragraph (e) hereof, no person shall consume any war-use mahogany, war-use Philippine mahogany or war-use Albarco in the production of any product or equipment except those hereinafter specified, namely:

(1) Plywood and parts for aircraft, boats and ships to the extent that mahogany, Philippine mahogany or Albarco is specifically permitted by the controlling specifications;

(2) Patterns and models used in the manufacture of products bearing a preference rating of AA–1 or higher; *Provided, however,* That Firsts and Seconds and Selects shall not be used for such purposes.

(e) *Exceptions.* A fabricator acting as such on May 26, 1942, may continue to process stocks of war-use mahogany, war-use Philippine mahogany and war-use Albarco in his possession on that date without regard to the limitations contained in paragraph (d) hereof.

(f) *Allocations.* The Director General for Operations may allocate specific quantities of war-use mahogany, war-use Philippine mahogany and war-use Albarco to specific persons. He may also direct the specific manner and quantities in which delivery shall be made to particular persons, and direct or prohibit particular uses of war-use mahogany, war-use Philippine mahogany and war-use Albarco, or the production by any person of particular items of war-use mahogany, war-use Philippine mahogany and war-use Albarco. He may also direct the manner in which war-use mahogany, war-use Philippine mahogany and war-use Albarco shall be processed to satisfy the categories of orders specified in paragraph (b) above. Such allocations and directions will be made to insure the satisfaction of war requirements in the United States, both direct and indirect, and they may be made in the discretion of the Director General for Operations, without regard to any preference ratings assigned to particular purchase orders or contracts. The Director General for Operations may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill war and essential civilian requirements.

(g) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time, except to the extent that paragraph (b) hereof is in conflict with the provisions of Priorities Regulations Nos. 1 and 3 to which extent the provisions of this order shall be controlling.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time.

(4) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the Lumber and Lumber Products Division, War Production Board, Washington, D. C. Ref.: M–122.

(5) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 13th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 8]

PRODUCTION REQUIREMENTS OF CONTROLLED MATERIALS PRODUCERS

§ 3175.8 *CMP Regulation 8*—(a) *Purpose and scope.* It is the purpose of this regulation to provide procedures under which controlled materials producers may obtain controlled materials, Class A products, Class B products and other products and materials required as production materials for the production of controlled materials.

(b) *Definition.* The following definition shall apply for the purposes of this regulation:

"Production material" means, with respect to any controlled materials producer, any material or product which will be physically incorporated in his product, and includes the portion of such material normally consumed or converted into scrap in the course of processing. It does not include any items purchased by him as manufacturing equipment or for maintenance, repair or operating supplies as defined in CMP Regulation No. 5.

(c) *Applications for allotments by controlled materials producers.* (1) Subject to the provisions of subparagraph (4) of this paragraph (c), where a controlled materials producer requires delivery after March 31, 1943, of controlled materials or of Class A products to be incorporated in a controlled material produced by him, he may apply for an allotment on Form CMP–4B or such other form as may be prescribed for the purpose. In the case of aluminum required for deoxidizing and alloying purposes, thermit reaction, chemical uses and wire for armoring cable, Form CMP–13 shall be used in making applications for allotments under this paragraph (c).

(2) Applications on Form CMP–4B made pursuant to this paragraph (c) should be directed to the Controlled Material Division charged with supervision over the operations of the controlled materials producer, even if a different controlled material is involved. For example, a copper wire mill requiring steel wire (a controlled material) for the production of steel armored copper cable (a controlled material) should direct his Form CMP–4B application for steel to the Copper Division, War Production Board, Washington, D. C. Applications on Form CMP–13 should, however, in all cases, be directed to the Aluminum Division, War Production Board, Washington, D. C. In the case of applications filed pursuant to this paragraph (c) on Form CMP–4B, Sections A, D and E of such form should be left blank.

(3) Allotments of controlled materials will be made to controlled materials producers applying under this paragraph (c), in the same manner as provided in CMP Regulation No. 1 with respect to allotments made for the production of Class A and Class B products; and controlled materials producers applying for and receiving such allotments shall be subject to the same obligations and entitled to the same rights with respect thereto as provided in CMP Regulation No. 1 in the case of other persons applying for and receiving allotments: *Provided,* That a controlled materials producer receiving allotments under this paragraph (c) will receive from his Controlled Materials Division production directions or authorizations in lieu of authorized production schedules.

(4) Where the controlled material required is made out of the same basic metal as that produced by the controlled materials producer and where no Class A product is required, requirements of the controlled materials producer for controlled materials not produced by him will be filled only by directions issued pursuant to paragraph (t) (3) (iii) of CMP Regulation No. 1, in which case Form CMP–4B is not required. The provisions of paragraph (t) (8) of CMP Regulation No. 1 shall not apply where the controlled material required is made of a different basic metal from that produced by the controlled materials producer involved or where Class A products are required by him as production materials.

(d) *Assignment of preference rating and allotment symbol to controlled materials producers for production materials*—(1) *Preference rating.* Preference rating AA–1 is hereby assigned to deliveries of production materials, other than controlled materials, required for the production of controlled materials by any controlled materials producer who has applied for, and received, specific authorization from the appropriate Controlled Materials Division to operate under this regulation and no controlled materials producer shall use the rating or allotment symbol assigned by this regulation in the absence of such authorization. Such application may be made by letter directed to the appropriate Controlled Materials Division.

(2) *Allotment symbol.* The allotment symbol X–1 is hereby assigned to each controlled materials producer authorized to operate under this regulation, solely for use with the preference rating assigned by paragraph (d) (1) of this regulation, which symbol shall constitute an "allotment symbol" for the purposes of CMP Regulation No. 3. The assignment of such symbol does not constitute the making of an allotment, and such symbol shall not be used to obtain controlled materials.

(3) *Use of rating and allotment symbol for production materials required to fulfill production directives.* A controlled materials producer authorized to operate under this regulation who has received a production directive or other authorization to produce controlled materials, may use the preference rating hereby assigned with the appropriate allotment symbol to acquire production materials, other than controlled materials, in the minimum practicable amounts required to fulfill such production or to replace such production materials in his inventory, subject to the restrictions of paragraph (c) (2) of Priorities Regulation No. 3. He may not use such rating or allotment symbol for any other purpose.

(e) *No extension of customers' allotments or ratings by controlled materials producers.* (1) An authorized controlled material order shall not constitute an allotment of controlled materials to the controlled materials producer with whom it is placed but such order shall be filled in the manner provided in CMP Regulation No. 1.

(2) No controlled materials producer shall, in connection with the production of controlled materials, extend any preference rating received from a customer.

(3) No controlled materials producer shall, in connection with the production of controlled materials, use any allotment received from a customer.

(4) Hereafter, no consumer shall include in any bill of materials or application for allotment, requirements for controlled materials which are required for the production of the controlled material to be included in his product. For example, a consumer requiring steel armored copper cable, shall not state in his bill of materials or application for allotment covering such cable, the steel which will be required by the copper wire mill for the manufacture thereof. The copper wire mill will obtain its requirements of steel wire under the procedures provided for in this regulation. However, in those cases where a consumer has actually received an allotment of controlled materials required for the production of any controlled material, or Class A product to be incorporated therein, he shall, notwithstanding the provisions of this paragraph (e), make an allotment thereof to the controlled materials producer from whom he is to acquire such controlled material, and the controlled materials producer receiving such allotment shall cancel the same and report such cancellation within 15 days to the appropriate Controlled Materials Division. For example, if a consumer requiring steel armored copper cable has received an allotment of steel required for the production of such cable, he must, at the time of placing his order with the copper wire mill, make an allotment of the steel required to produce such cable and the copper wire mill shall not use such allotment but shall cancel the same

and report such cancellation to the Copper Division.

(f) *Use of allotment numbers on delivery orders.* Each controlled materials producer shall place on each delivery order for production materials, other than controlled materials, rated pursuant to this regulation, the allotment symbol assigned by this regulation or by the related allotment certificate, and shall accompany or endorse the same with a certification in substantially the form provided in CMP Regulation No. 3 (in lieu of the certification provided in Priorities Regulation No. 3) or in the optional standard form provided in CMP Regulation No. 7, signed manually or as provided in Priorities Regulation No. 7.

Issued this 13th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-251]

M. MINTZ AND J. HURWITZ REALTY CO.

M. Mintz and J. Hurwitz Realty Company, a partnership of M. Mintz and J. Hurwitz, operating in New Orleans, Louisiana, is engaged in the general real estate business. About December 14, 1942, they began the construction and remodelling of a one story brick building located at 319 Exchange Place, New Orleans, Louisiana, which had formerly been used for the storage of second hand furniture. The construction and remodelling was to convert this building into two apartments. Prior to beginning construction, an application on Form PD-406 was filed for priorities assistance, but without waiting for it to be acted on, the respondents began construction, the estimated cost of which was a minimum of $1800. This was a violation of Conservation Order L-41. The respondents had had previous experience in seeking priorities assistance for the remodelling of old buildings.

The beginning of this construction by these parties constituted a wilful violation of Conservation Order L-41 which has impeded and hampered the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.251 *Suspension Order S-251.* (a) Neither M. Mintz and J. Hurwitz Realty Company nor M. Mintz, J. Hurwitz, or any other person shall order, purchase, accept delivery of, withdraw from inventory or in any other manner secure or use material or construction plant to continue or complete construction of the remodelling of the premises situated at 319 Exchange Place, New Orleans, Louisiana except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve M. Mintz and J. Hurwitz Realty Company or M. Mintz or J. Hurwitz, from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on March 13, 1943.

Issued this 13th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

PART 1068—CANS

[Conservation Order M-81, as Amended March 12, 1943 [1]]

§ 1068.1 *Conservation Order M-81*—(a) *Definitions.* (1) "Can" means any unused container which is made in whole or in part of tinplate, terneplate, blackplate, or waste, and which is suitable for packing any product. The term includes any container closure or fitting made in whole or in part of tinplate, terneplate, blackplate, or waste, but does not include a closure or fitting to be used on or as a part of a glass container. The term does not include fluid milk shipping containers, as defined in Conservation Order M-200.

(2) "Tinplate" means any sheet steel coated with tin and includes "primes", "seconds", "waste-waste" (except "electrolytic waste-waste"), and all other forms of tinplate except waste.

(3) "Terneplate" means sheet steel coated with a lead-tin alloy, and includes "primes", "seconds", "waste-waste", and all other forms of terneplate except waste.

(4) "Blackplate" means any sheet steel 29-gauge or lighter, other than tinplate or terneplate. The term includes "blackplate rejects" and "electrolytic waste-waste", and all other forms of blackplate except waste.

(5) "Waste" means scrap tinplate, terneplate, and blackplate, produced in the ordinary course of manufacturing cans.

(6) "Pack", unless particularly specified, means the quantity, by area measurement of tinplate, terneplate, and blackplate required for the manufacture of all sized cans used by a person for packing a particular product during the base period specified.

(b) *Restrictions upon manufacture, sale, and delivery of cans.* (1) No person shall sell or deliver any can except under a purchase order or contract validated by a delivery to such person of a purchaser's certificate, manually signed by the purchaser or an authorized official of the purchaser, in substantially the form attached hereto as Exhibit A. No person shall manufacture, sell, or deliver any can which he knows or has reason to believe will be used in violation of any provision of this order.

(2) No person shall manufacture any can smaller than 5 gallons, with ears, bails, or handles.

(c) *Restrictions upon purchase, acceptance of delivery, and use of cans.* (1) No person shall, during the calendar year 1943 (or the seasonal year 1942–1943, when specified), purchase, accept delivery of, or use for packing a product any can except to the extent permitted in Schedules I, II, and III, attached to this order: *Provided, however,* That a jobber or retail store may obtain and sell cans in conformity with the provisions of this order.

(2) The schedules attached to this order list the only products permitted to be packed in cans, packing quotas, sizes of cans, and the kinds of plate permitted for the manufacture of cans.

The calendar year basis shall obtain except for products for which a seasonal year is specified. A seasonal year for a particular product represents a twelve months' period beginning in one calendar year and ending in the next.

The sizes of the can specified for a particular product indicate the only sized cans which may be used for packing that product, except that such product may, subject to all other restrictions imposed by this order, be packed in cans larger than the largest size specified therefor.

When tinplate is specified for the manufacture of cans for packing a particular product, the coating indicated represents the maximum weight of tin coating per single base box. When SCMT is specified, Special Coated Manufacturers' Terneplate is referred to. When blackplate is specified, the specification includes chemically treated blackplate (CTB).

(3) No product packed in a can shall be repacked for sale in a can or any other container by the same or a different person in the same or a different form except to the extent specifically permitted in the schedules attached to this order or pursuant to Conservation Order M-104.

(4) No dried or frozen fruit or vegetable shall be packed in a can, except to the extent specifically permitted in the schedules attached to this order.

(d) *Exceptions.* (1) The restrictions imposed by this order shall not apply to the purchase, acceptance of delivery, or use of the following cans:

(i) Cans for packing any product which is not to be sold.

(ii) Fiber or paper bodied cans with ends made of waste, for packing any food product for human consumption, and antiseptic or medicinal powders.

(iii) Cans for packing any product not listed in the schedules attached to this order, when such cans were completely manufactured on or before December 9, 1942, or when all the component parts for such cans were cut to individual size or were partially assembled before said date: *Provided,* That this paragraph (d) (1) (iii) shall not apply when such cans can be used for any products otherwise permitted by this order, and provided that this paragraph (d) (1) (iii) shall not apply to open-top sanitary cans made of tinplate.

(iv) Cans for packing any product not listed in Schedules I and II attached to this order, when such cans are to be delivered pursuant to a letter of intent approved by, or a purchase order or contract negotiated for or with the Army, Navy, Marine Corps, Maritime Commission, or War Shipping Administration of the United States.

(2) Notwithstanding the restrictions pertaining to the size of cans or the materials from which cans may be manufactured, but subject to quota restrictions imposed by this order, a person may use for packing any product listed in the schedules attached to this order, any cans which were completely manufactured on or before December 9, 1942, or any cans for which all component parts were lithographed, cut, or otherwise prepared for assembly, on or before said date.

(3) No certificate shall be required for the sale or delivery of cans to any purchaser who has already filed a certificate with his seller under Conservation Order M-81.

(e) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(3) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: Containers Division, War Production Board, Washington, D. C. Ref.: M-81.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further delivery of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *1942 Calendar year pack.* Until December 31, 1942, no person packing on a calendar year basis shall purchase, accept delivery of, or use any can for packing any product except in accordance with Conservation Order M-81, as amended June 27, 1942, (including amendments thereto).

Issued this 12th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

EXHIBIT A

PURCHASER'S CERTIFICATE

One copy of this certificate is to be delivered to each person from whom purchases are made of cans made in whole or in part of tinplate, terneplate, blackplate, or waste. Such certificate shall cover all purchases present and future so long as Conservation Order M-81, in its present form or as it may be amended from time to time, remains in effect.

The undersigned purchaser hereby certifies to the seller herein and to the War Production Board that he is familiar with Conservation Order M-81, as heretofore amended, and that during the life of such order he will not use or sell any can purchased from

SCHEDULE I—FOOD CANS

NOTE: The introduction and Schedule I were amended in entirety March 12, 1943.

(1) Packing quotas specified in this Schedule I indicate total packs of the respective products listed, for all purposes including cans required by any order of the Director General for Operations, the Department of Agriculture, or the Director of Food Distribution, to be set aside for purchase by a government agency. The designation FDO-22 indicates that cans may be used for packing only the quantity of product required to be set aside by Food Distribution Order No. 22 and orders supplementary thereto, as same may be amended from time to time. Such quantity is hereinafter sometimes referred to as "set aside quotas."

(2) All persons manufacturing cans shall, to the greatest extent available, use 0.50 tinplate wherever the single asterisk appears, in columns (4) or (5), and chemically treated blackplate wherever the double asterisk appears. All persons using cans marked with the asterisk, are hereby required to accept from the manufacturer making delivery, to the greatest extent available, cans made as specified of 0.50 tinplate wherever the single asterisk appears; and cans made as specified of chemically treated blackplate wherever the double asterisk appears. Wherever the double asterisk appears, to the extent that chemically treated blackplate is not available, 0.50 tinplate is to be used by manufacturers, and cans made therefrom accepted by users, to the greatest extent available, in preference to 1.25 tinplate.

(3) Wherever the triple asterisk appears in Column (3) for any product, every canner who possesses No. 10-size can equipment shall pack his entire set-aside quota in No. 10 cans, if the fullest practicable use of that equipment provides sufficient capacity. If such use does not provide sufficient capacity, he shall pack as much of the set-aside quota in No. 10 size cans as such capacity does permit and shall pack the balance of that quota in the other sizes of cans permitted for the particular product.

SCHEDULE II—FOOD CANS

NOTE. Items 11 and 16 were amended March 12, 1943.

(1) Packing quotas specified in this Schedule II indicate permitted packs of the respective products listed, for all purposes except for the Army, Navy, Marine Corps, Maritime Commission, War Shipping Administration of the United States, or for any agency of the United States purchasing for a foreign country, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend Lease Act). While restrictions pertaining to can sizes and can materials are applicable to such cans, cans used for packing the respective products listed shall be in addition to the specified quotas, when delivered pursuant to a letter of intent approved by, or a contract or purchase order negotiated with or for, any of the foregoing agencies. The word "none" indicates that no cans shall be used for packing the applicable product except for the above-mentioned agencies. When determining a quota for packing a product listed in this Schedule II, cans packed during the base period (1942) for the above-mentioned agencies shall be excluded.

(2) All persons manufacturing cans shall, to the greatest extent available, use 0.50 tinplate wherever the single asterisk appears, and chemically treated blackplate wherever the double asterisk appears. All persons using cans marked with the asterisk, are hereby required to accept from the manufacturer making delivery, to the greatest extent available, cans made as specified of 0.50 tinplate wherever the single asterisk appears; and cans made as specified of chemically treated blackplate wherever the double asterisk appears.

Wherever the double asterisk appears, to the extent that chemically treated blackplate is not available, 0.50 tinplate is to be used by manufacturers and cans made therefrom accepted by users, to the greatest extent available, in preference to 1.25 tinplate.

INTERPRETATION 1

Frozen tinplate, terneplate or blackplate means only tinplate, terneplate or blackplate which, since prior to December 9, 1942, has been held in the inventory of a can manufacturer (or in the inventory of a supplier of such plate, having been produced for the account of a can manufacturer) because it had been so processed, or was of such size, gauge or grade, that it was not suitable for the manufacture of cans for which tinplate, terneplate or blackplate are specified, without qualifications, in the "Can Material" columns of the schedules attached to the said order. (Issued February 22, 1943.)

SCHEDULE III—NON-FOOD CANS

NOTE: Paragraph (1) of the introduction to Schedule III and items 24 and 29 were amended March 12, 1943.

(1) Packing quotas specified in this Schedule III indicate permitted packs of the respective products listed, for all purposes except for the Army, Navy, Marine Corps, Maritime Commission, War Shipping Administration of the United States, or for any agency of the United States purchasing for a foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act). Cans used for packing the respective products listed shall be in addition to the specified quotas, when delivered pursuant to a letter of intent approved by, or a contract or purchase order negotiated with or for, any of the foregoing agencies. The word "none" indicates that no cans shall be used for packing the applicable product listed in this Schedule III, cans packed during the quota period (1942) for the above-mentioned agencies shall be excluded.

(2) Whenever blackplate is specified for making the body or ends of a can for packing a product listed in this Schedule III, Special Coated Manufacturers' Terneplate, may be substituted for making any part or fitting of the can which is required to be soldered.

(3) No compound containing crude rubber, latex, or synthetic rubber as defined in Order M-15-b, shall be used in the manufacture of cans for packing any product listed in this Schedule III.

PART 3056—PETROLEUM COKE

[Conservation Order M-212, as Amended March 15, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of petroleum coke for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3056.1 *Conservation Order M-212*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including but not limited to natural gas.

(3) "Raw petroleum coke" means any solid, infusible, carbonaceous residue produced by the destructive distillation of petroleum, when the residue equals or exceeds 5 pounds for every barrel (of 42 gallons) of petroleum processed by destructive distillation.

(4) "Calcined petroleum coke" means raw petroleum coke after being calcined or graphitized.

(5) "Petroleum coke" means raw petroleum coke or calcined petroleum coke.

(c) *Limitations on delivery and use of petroleum coke within the United States.* Subject to the exceptions in paragraph (d) of this order, no person shall deliver petroleum coke within the United States, and no person shall accept delivery of petroleum coke within the United States or use petroleum coke within the United States except where

(1) It is to be incorporated within the United States into the following materials and articles, or it is to be used within the United States in packing the following materials and articles for baking and graphitizing purposes during manufacture:

Anodes
Arc carbons
Bearings
Blocks (for other than fuel purposes)
Bricks (for other than fuel purposes)
Bushings
Cathodes
Diffusers
Dry battery electrodes
Dry battery mixes
Electrical contacts
Electrodes

Welding plates
Welding rods, or

(2) It is to be incorporated within the United States into silicon carbide abrasives, or

(3) It is to be used within the United States after receipt of the written authorization of the Director General for Operations authorizing the specific use. Applications for such authorization should be made by the prospective user by letter filed in duplicate addressed to the War Production Board, Aluminum and Magnesium Division, Washington, D. C., Ref.: M-212, which letter should state:

(i) His name and address,

(ii) The quantity and specifications of petroleum coke he proposes to use in the ensuing three months,

(iii) Why he believes no other material may be used instead of petroleum coke,

(iv) The quantity of petroleum coke in his inventory on the date of the letter,

(v) The quantity, if any, of petroleum coke he desires permission to acquire, and

(vi) The name and address of the supplier, if any, from whom he wishes to acquire the petroleum coke.

(d) *Exceptions.* (1) Any person who had in his possession or under his control not in excess of 100 short tons of petroleum coke (exclusive of briquets) on October 10, 1942, may deliver or use within the United States, free from the restrictions of paragraph (c) hereof, any petroleum coke from such stocks; and any person may accept delivery of any petroleum coke from such stocks and thereafter such petroleum coke shall be free from the restrictions of paragraph (c) hereof if used within the United States.

(2) Any person may deliver or use within the United States free from the restrictions of paragraph (c) hereof and any person may accept delivery of or use within the United States free from the restrictions of paragraph (c) hereof, petroleum coke already manufactured into briquets for fuel purposes on October 10, 1942.

(3) Any person may deliver within the United States, and any person may accept within the United States delivery of petroleum coke for export to the Dominion of Canada, free from the restrictions of paragraphs (c) and (e) hereof.

(e) *Limitations on delivery of petroleum coke for export (except to Canada).* No person shall deliver within the United States petroleum coke for export outside of the United States (except to the Dominion of Canada) unless and until he has been specifically authorized by the Director General for Operations to make the specific delivery. Applications for such authorization should be made by the person making delivery by letter filed in duplicate addressed to the War Pro-

PART 3163—VEGETABLE TANNING MATERIALS

[General Conservation Order M-277 as Amended March 15, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain imported and domestic vegetable tanning materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3163.1 *General Conservation Order M-277*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all the applicable provisions of all the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Vegetable tanning materials" means the materials and extracts (including blends and combinations thereof) on the following list:

Domestic raw materials and extracts

[NOTE: "Cellulose sulphite by-products" deleted March 15, 1943]

California oak bark
Chestnut oak bark
Chestnut wood
Hemlock bark
Sumac

Foreign raw materials and extracts

Algarobilla (pods)
Divi-divi (pods)
Gambier
Hemlock bark
Mangrove bark
Myrobalans (nuts)
Quebracho wood
Sumac
Tara pods
Tara powder
Urunday
Valonia beards and cups
Wattle or mimosa bark

(3) "Processor" means any person who consumed during 1942, or who hereafter consumes, more than 2,500 tan units of vegetable tanning materials during any one calendar month for the production of leather, furs, pharmaceuticals, crude petroleum oil or any product for treating water, or for any other purpose.

(4) "Inventory" means a processor's vegetable tanning materials within the continental United States (the 48 States and the District of Columbia), including materials in customs bond destined for use in the continental United States, except:

(i) Tan yard liquors.

(ii) Domestic wood, bark or other extract producing raw materials not yet delivered to the purchaser thereof.

(5) "Tan unit" means one pound of 100% tannin as determined by the analytical methods of the American Leather Chemists Association.

(6) "Tan yard liquor" means an aqueous infusion of vegetable tanning materials currently being used in contact with hides and skins to produce leather.

(c) *Non-applicability of inventory restrictions in other regulations and orders.* No person shall be subject to any inventory restriction contained in any other regulation or order issued by the Director of Priorities of the Office of Production Management or by the Director of Industry Operations or the Director General for Operations of the War Production Board in making or accepting deliveries of vegetable tanning materials: *Provided, however,* That except as permitted under paragraph (g) below, no processor shall sell or deliver any part of his present or future inventory of vegetable tanning materials to any person other than the Defense Supplies Corporation or such other agency of the United States as may be designated by the Director General for Operations.

(d) *Restrictions on the use of tanning materials.* Except as specifically permitted by the Director General for Operations, (1) No processor shall use any vegetable tanning material for any purpose other than the following:

(i) The processing of leather.

(ii) The manufacture of pharmaceutical products.

(iii) The manufacture of tannic, gallic and pyrogallic acid.

(iv) The manufacture of water treatment materials (not containing chestnut extract).

(v) The drilling of wells by the petroleum industry (using only quebracho or urunday extract).

(2) No processor shall consume, during any calendar quarter beginning with the first quarter of 1943, a quantity of tan units in excess of one-quarter of the number of tan units consumed by him during 1942 multiplied by the percentage shown in Schedule A.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(f) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Reference: M-277.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales.

(i) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time.

Issued this 15th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

Chapter XI—Office of Price Administration

PART 1300—PROCEDURE

[Procedural Reg. 12]

REPLACEMENT OF LOST, STOLEN, DESTROYED, MUTILATED, OR WRONGFULLY WITHHELD RATION BOOKS OR COUPON SHEETS

Pursuant to the authority conferred upon the Administrator by Executive Order 9125, by War Production Board Directive No. 1, and by Food Directive No. 3 of the Secretary of Agriculture, the following rules are hereby prescribed for the replacement of lost, stolen, destroyed, mutilated or wrongfully withheld ration books or coupon sheets.

§ 1300.951 *Purpose of this regulation.* This regulation establishes a uniform procedure for the replacement of ration books which have been lost, stolen, destroyed, mutilated, or wrongfully withheld from the persons to whom they were issued. It applies to all ration books or coupon sheets containing stamps or coupons.

§ 1300.952 *Application for replacement.* An application for replacement of a ration book shall be made to the war price and rationing board having jurisdiction to issue the ration book ought to be replaced. Application shall be made on OPA Form No. R-194 by the person in whose name the ration book was issued, or his agent.

§ 1300.953 *Mutilated or destroyed ration books.* (a) A ration book is mutilated if:

(1) One or more of the unexpired stamps or coupons or the validating stamp have been accidentally detached, or

(2) The commodity, amount, issuing board, name of the person to whom the book was issued, the serial number or other necessary entries cannot be determined or are missing.

(b) The board shall examine the facts presented by the applicant concerning the ration book and if it finds it necessary, may require the applicant to appear before it and to present additional proof. If the board finds that the ration book sought to be replaced was issued to the applicant and that the destruction or mutilation which occurred was not wilful on the part of the applicant, it shall note its decision upon the application and issue a new ration book.

(c) The applicant must surrender the mutilated ration book to the board before a replacement is issued.

§ 1300.954 *Lost or stolen ration books.* (a) An applicant seeking to replace a lost or stolen ration book shall fill out OPA Form No. R-194 in duplicate. The board shall forward the duplicate to the enforcement section in the State or district office for investigation; it shall advise the applicant of that fact and that he is to return to the board ten (10) days later for further action on the application. The board shall examine the facts presented by the applicant concerning the ration book and if it finds it necessary may require the applicant to appear at a hearing before it and to present additional proof. The board shall give notice to the applicant of the time and place of the hearing. The board may require the applicant to report the loss or theft of a ration book to the police before considering his application.

(b) If the board finds from all the evidence that the ration book sought to be replaced was issued to the person seeking such replacement, that the loss or theft occurred, and that the applicant was unable to recover the book after a careful search, it shall note its decision upon the application and issue a new book marked "replacement." However, the board may withhold replacement of a lost or stolen ration book for a period of not more than sixty (60) days if it finds that the applicant's negligence was a contributing factor in the loss or theft.

(c) The State director or district manager may from time to time prescribe such additional rules as they may deem necessary without varying any of the mandatory provisions of this section.

(d) If, after the board replaces a lost or stolen ration book, the book is recovered by the applicant, the recovered ration book must be surrendered to the board.

§ 1300.955 *Wrongfully withheld ration books.* (a) If the applicant claims that his ration book is being wrongfully withheld from him by another person, the board shall hold a hearing. It shall give notice of the time and place to the applicant when he applies for replacement. Furthermore, the board shall give three days' notice by mail to the alleged wrongful holder to appear at the hearing and to bring the applicant's ration book with him.

(b) If the board finds at the hearing that the ration book sought to be replaced is being wrongfully held by a person other than the person in whose name the ration book was issued, it shall order the wrongful holder to surrender it to the applicant. If the wrongful holder fails to appear at the hearing or refuses to surrender the ration book, the board shall issue the new ration book to the applicant and notify the district or State office of the wrongful holder's action.

§ 1300.956 *Newly issued ration book.* The newly issued ration book shall contain the same number and kind of coupons or stamps and the same expiration date as the original ration book at the time of the loss, theft, destruction, mutilation, or wrongful withholding, less the stamps or coupons which expired before the replacement.

§ 1300.957 *Records by the board.* The board shall file the applications for replacement in alphabetical order.

§ 1300.958 *Effective date of Procedural Regulation No. 12.* Procedural Regulation No. 12 (§§ 1300.951 to 1300.958, inclusive) shall become effective March 29, 1943.

Issued this 12th day of March 1943.

PRENTISS M. BROWN,
Administrator.

PART 1303—ZINC

[MPR 3]

ZINC SCRAP MATERIALS AND SECONDARY SLAB ZINC

The title and preamble are amended, and the sections of Revised Price Schedule No. 3 are renumbered and amended to read as set forth herein.

In the judgment of the Price Administrator it is necessary and proper to revise Revised Price Schedule No. 3. The Price Administrator has given due consideration to the prices of zinc scrap materials and secondary slab zinc prevailing between October 1, and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with respresentative members of the industry which will be affected by this regulation.

The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with the provisions of Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 3 is hereby issued.

Sec.

1303.1 Maximum prices for zinc scrap materials.
1303.2 Maximum prices for secondary slab zinc.
1303.3 Less than maximum prices.
1303.4 Adjustable pricing.
1303.5 Evasion.
1303.6 Toll or conversion agreements.
1303.7 Records and reports.
1303.8 Enforcement.
1303.9 Petitions for amendment.
1303.10 Export sales.
1303.11 Idle or frozen materials.
1303.12 Definitions.
1303.13 Appendix A: Maximum prices for zinc scrap materials.
1303.14 Appendix B: Maximum prices for secondary slab zinc.
1303.15 Appendix C: Terms of sale.
1303.16 Effective Date.

AUTHORITY: §§ 1303.1 to 1303.16 inclusive issued pursuant to Public Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1303.1 *Maximum prices for zinc scrap materials.* On and after March 18, 1943, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer zinc scrap materials to a consumer, and no con-

sumer in the course of trade or business shall buy, offer to buy, or accept delivery of zinc scrap materials at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1303.13.

§ 1303.2 *Maximum prices for secondary slab zinc.* On and after March 18, 1943, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer secondary slab zinc, and no person in the course of trade or business shall buy, offer to buy, or accept delivery of secondary slab zinc at prices higher than the maximum prices set forth in Appendix B hereof, incorporated herein as § 1303.14. *Provided*, That contracts entered into prior to March 18, 1943, under the terms of and at prices in conformance with Revised Price Schedule No. 3, may be carried out at contract price until April 17, 1943.

§ 1303.3 *Less than maximum prices.* Lower prices than those set forth in §§ 1303.13 and 1303.14, Appendices A and B of Maximum Price Regulation No. 3, may be charged, demanded, paid or offered.

§ 1303.4 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1303.5 *Evasion.* (a) The price limitations set forth in Maximum Price Regulation No. 3 shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of zinc scrap materials or secondary slab zinc, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege or by tying-agreement or other trade understanding, or otherwise.

(b) Any purchase, sale, delivery, or transfer of secondary slab zinc in quantities less than requested by the buyer in order to enable the seller to obtain a higher less-than-carload-lot differential shall be considered to be an evasion of Maximum Price Regulation No. 3, provided that the buyer is willing to accept delivery thereof in a single shipment.

§ 1303.6 *Toll or conversion agreements.* (a) Any agreement or transaction in connection with which zinc scrap materials are sold, delivered, or transferred by the owner of such scrap materials to any person for processing or treatment on toll by smelting, remelting, distillation or any other method shall be considered to be an evasion of Maximum Price Regulation No. 3 unless the total of the maximum prices for such scrap established by this Maximum Price Regulation No. 3, the charge for processing or treating the material, and all other charges in connection with the processing, treatment, handling, and delivery of said material in order to obtain slab zinc therefrom does not exceed on a per pound basis, the maximum prices established by Maximum Price Regulation No. 3 for the processed material.

(b) Every smelter processing or treating on toll, by a process of melting, remelting, distillation or any other method, to obtain secondary slab zinc therefrom, any zinc scrap materials in accordance with the terms of an agreement or transaction entered into before March 18, 1943, shall file with the Office of Price Administration on or before April 6, 1943, full details of such agreement or transaction, including a copy thereof. Every smelter entering into such an agreement or transaction on or after March 18, 1943, shall, within 5 days thereafter file with the Office of Price Administration full details of such agreement or transaction, including a copy thereof.

§ 1303.7 *Records and reports.* (a) Every person making a sale to a consumer, and every consumer making a purchase in the course of trade or business of zinc scrap materials after March 17, 1943, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such sale or purchase, showing: The date thereof; the name and address of the buyer or the seller; the price paid or received, f. o. b. point of shipment; the disposition of freight charges, and the quantity of each kind or grade purchased or sold.

(b) Every person making a sale, and every person making a purchase in the course of trade or business of secondary slab zinc after March 17, 1943, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such sale or purchase showing: The date thereof; the name and address of the buyer or seller; the price paid or received; the quantity in pounds or tons of each grade purchased or sold, and whether the quantity so sold or purchased was shipped, delivered, carried away or received in carload or less than carload lots.

(c) All records of the purchase, sale, delivery, or transfer of zinc scrap materials or secondary slab zinc after March 17, 1943, shall refer thereto, in addition to such other classification as may be employed by the maker or keeper of said records, to the terms in which they are respectively classified in Maximum Price Regulation No. 3.

(d) In addition to or in substitution for such records and reports as are herein required, every person subject to this Maximum Price Regulation No. 3, shall submit such reports and keep such other records as the Office of Price Administration may from time to time require.

§ 1303.8 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 3 are subject to criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violations of this Maximum Price Regulation No. 3 or any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state or regional office of the Office of Price Administration, or its principal office in Washington, D. C.

(c) The provisions of Supplementary Order No. 5[2]—Licensing—are applicable to every dealer subject to this Maximum Price Regulation No. 3, selling, offering to sell, delivering, or transferring at a price, zinc scrap materials to a consumer.

§ 1303.9 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 3 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1303.10 *Export sales.* Export sales of any commodity covered by this Maximum Price Regulation No. 3 shall be subject to the provisions of the Revised Maximum Export Price Regulation,[3] issued by the Office of Price Administration.

§ 1303.11 *Idle or frozen materials.* The maximum price at which any person may sell or deliver idle or frozen zinc scrap materials and secondary slab zinc shall be determined in accordance with the provisions of Maximum Price Regulation No. 204[4] on idle or frozen materials sold under Priorities Regulation No. 13.

§ 1303.12 *Definitions.* When used in Maximum Price Regulation No. 3, the term:

(a) "Consumer" means any person who processes any zinc scrap materials otherwise than by sorting, cleaning, baling, compressing or reducing in size by any means.

(b) "Dealer" means an individual, corporation, partnership, association, or any other organized group of persons, or the legal successor or representative of any of the foregoing, whose business includes the acquisition of any material for the purpose of sale as waste, scrap or salvage materials.

(c) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of the foregoing.

[4] 7 F.R. 6479, 7366, 8948.

(d) "Producer" means any person who produces slab zinc.

(e) "Secondary slab zinc" means slab zinc more than 50% of the zinc content of which shall be obtained from scrap materials by distillation, remelting, electrolysis or any other method.

(f) "Single shipment" means all deliveries made to a buyer by any one seller within a period of three consecutive days, excluding Sundays and legal holidays.

(g) "Zinc scrap materials" means the kinds and grades of zinc scrap materials set forth in § 1303.13, Appendix A, of Maximum Price Regulation No. 3.

§ 1303.13 *Appendix A: Maximum prices for zinc scrap materials*—(a) *Maximum prices.*

Grade of zinc scrap material:	*Maximum price (cents per pound, f. o. b. point of shipment)*
New zinc clippings and trimmings	7.25
Engravers' and lithographers' plates	7.25
Old zinc scrap	5.75
Unsweated zinc dross	5.80
Die cast slab	5.80
New die cast scrap	4.95
Radiator grilles, old and new	4.95
Old die cast scrap	4.50

The maximum prices established herein are the maximum prices to be paid for the zinc scrap materials enumerated above, after proper deduction has been made for free iron or other foreign materials contained therein, according to the established practice of the trade.

(b) *Quantity premiums.* To the maximum prices set forth above, a premium o. one-half cent (½¢) per pound may be added:

(1) On single shipments of 10,000 pounds or more of any one of the following grades, or combinations thereof:

New zinc clippings and trimmings.
Engravers' and lithographers' plates.
Old zinc scrap.

(2) On single shipments of 20,000 pounds or more of any one of the following grades or combinations thereof:

New die cast scrap.
Radiator grilles, old and new.
Old die cast scrap.

The weight of material necessary for a quantity premium shall be the actual net weight after deduction has been made for free iron and other foreign material.

§ 1303.14 *Appendix B: Maximum prices for secondary slab zinc*—(a) *Base prices.*

Grade:	*Base price (cents per pound)*
Prime Western	8.25
Selected	8.35
Brass special	8.50
Intermediate and higher grades	8.75

(b) *Sold and delivered or shipped in carload lots.* The term "base price" referred to in this paragraph means the price listed in paragraph (a) of this section for the respective grade of slab zinc.

Grade:	*Maximum price per pound (delivered, buyer's receiving point)*
Prime Western	Base price plus lowest carload freight from E. St. Louis to buyer's receiving point.
Selected	Base price plus lowest carload freight from E. St. Louis to buyer's receiving point.
Brass special	Base price plus lowest carload freight from E. St. Louis to buyer's receiving point.
Intermediate and higher grades	Base price plus lowest carload freight from E. St. Louis to buyer's receiving point.

The minimum quantity making up a carload lot for the purposes of Maximum Price Regulation No. 3 shall be the minimum quantity required to obtain railroad carload lot rates from the point of shipment to the point of destination.

(c) *Sold and delivered, shipped or carried away in less than carload lots.* The term "base price" referred to in this paragraph means the price listed in paragrph (a) of this section for the respective grade of slab zinc.

(1) *Sales of secondary slab zinc by the producer of the zinc sold.*

For sales in lots of:	*Maximum price per pound (f. o. b. point of shipment)*
20,000 pounds and less than a carload	Base price plus .15¢ plus lowest carload freight from E. St. Louis to buyer's receiving point, minus lowest carload freight from point of shipment to buyer's receiving point.
10,000 pounds and less than 20,000 pounds	Base price plus .25¢ plus lowest carload freight from E. St. Louis to buyer's receiving point, minus lowest carload freight from point of shipment to buyer's receiving point.
2,000 pounds and less than 10,000 pounds	Base price plus .40¢ plus lowest carload freight from E. St. Louis to buyer's receiving point, minus lowest carload freight from point of shipment to buyer's receiving point.
Less than 2,000 pounds	Base price plus .50¢ plus lowest carload freight from E. St. Louis to buyer's receiving point, minus lowest carload freight from point of shipment to buyer's receiving point.

(2) *Sales by all persons except producers.*

For sales in lots of:	*Maximum price per pound (f. o. b. point of shipment)*
20,000 pounds and less than a carload	Base price plus .65¢ plus lowest carload freight from E. St. Louis to point of shipment.
10,000 pounds and less than 20,000 pounds	Base price plus .75¢ plus lowest carload freight from E. St. Louis to point of shipment.
2,000 pounds and less than 10,000 pounds	Base price plus 1.00¢ plus lowest carload freight from E. St. Louis to point of shipment.
Less than 2,000 pounds	Base price plus 1.50¢ plus lowest carload freight from E. St. Louis to point of shipment.

(d) *Specifications.* The grades of secondary slab zinc specifically referred to above shall conform to the following chemical requirements:

MAXIMUM IMPURITIES—PERCENT

Grade	Lead	Iron	Cadmium	Total not over
Intermediate*	0.20	0.03	0.50	0.50
Brass Special*	0.60	0.03	0.50	1.00
Selected*	0.80	0.04	0.75	1.25
Prime Western	1.60	0.08	.....	.....

*Shall be free of aluminum.

Secondary slab zinc which fails to meet the standards of Prime Western grade shall be sold below the maximum price established herein for that grade.

§ 1303.15 *Appendix C: Terms of sale.* The maximum prices set forth in this Maximum Price Regulation No. 3 are f. o. b. point of shipment, except in the case of secondary slab zinc sold in carload lots, the maximum price for which is delivered, buyer's receiving point. Any other commodity covered by Maximum Price Regulation No. 3 may, however, also be sold, offered for sale, delivered or transferred at prices delivered, buyer's receiving point. In such cases, the maximum delivered price shall not exceed the f. o. b. point of shipment price plus whichever of the following transportation charges is applicable:

(a) When transportation to the buyer's receiving point is by public (common or contract) carrier, the actual transportation charge incurred;

(b) When transportation to the buyer's receiving point is by vehicle owned or controlled by the seller or is by private carrier not owned or controlled by the buyer, an amount not in excess of the following:

For distances of more than 300 miles, an amount not in excess of the charge computed at the lowest railroad carload rate applicable to shipments of any commodity covered by Maximum Price Regulation No. 3, from the railroad siding nearest the point of shipment to the railroad siding nearest the point of delivery.

(1) For distances of 300 miles or less, all bridge, tunnel, and ferry tolls actually incurred may be added to the amount set forth in the table above.

(2) The distance shall be computed on the basis of the shortest public highway route available for the transportation of the shipment in question from point of shipment to buyer's receiving point. In the event of partial loading of a truck at each of two or more pickup points, the transportation charge for each portion of the load delivered to the buyer shall be separately computed in accordance with the provisions of this paragraph (b).

(c) The seller shall furnish to the consumer on the invoice, or on a separate statement, the point or points of shipment, the amount of the load picked up at each point, the charge for delivery of that portion of the load picked up at each point, the mileage upon which each such portion of the charge is based, and the total delivery charge.

(d) When used in this § 1303.15, the term "point of shipment" means the point at which any commodity covered by Maximum Price Regulation No. 3 is loaded on a conveyance for transportation directly to the buyer's receiving point. This is usually the seller's plant, warehouse, or yard, but, where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment.

§ 1303.16 *Effective date.* This Maximum Price Regulation No. 3 (§§ 1303.1 to 1303.16 inclusive) shall become effective March 18, 1943, for the forty-eight States and the District of Columbia, and shall not apply to the Territories and Possessions of the United States.

Issued this 12th day of March 1943.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RPS 66,[1] as Amended, Amendment 1]

RETREADED AND RECAPPED RUBBER TIRES AND THE RETREADING AND RECAPPING OF RUBBER TIRES

A statement of the consideration involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

A new subparagraph (11) is added to § 1315.1213 (a); paragraphs (a) and (b) in § 1315.1215 are amended, as set forth below:

§ 1315.1213 *Definitions.* (a) * * *

(11) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for sales to different purchasers or kinds of purchasers (for example, wholesaler, jobber, retailer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

* * * * *

§ 1315.1215 *Appendix A: Maximum prices for retreaded and recapped rubber tires and the retreading and recapping of rubber tires*—(a) *To purchasers for use*—(1) *Retreading and recapping (tire carcass furnished by purchaser).* The maximum price for retreading or recapping a tire for a purchaser who is not in the business of selling retreading or recapping service is the price set forth for retreading or recapping such tire in the following tables.

(2) *Retreaded and recapped tires (tire carcass not furnished by purchaser).* The maximum price for a retreaded or recapped tire to a purchaser who is not in the business of selling such tires is the sum of the maximum price for retreading or recapping such tire plus the price set forth in the extreme right hand column of the table as the amount to be added when the tire carcass is not furnished by the purchaser.

(b) *To purchasers for resale.* (1) The maximum price for retreading or recapping a tire for a purchaser who is in the business of selling retreading or recapping service shall be determined by deducting the following discount from the maximum price fixed by paragraph (a) (1), and the maximum price for any sale or delivery of a retreaded or recapped tire to a purchaser who is in the business of selling such tires shall be determined by deducting the following discount from the maximum price fixed by paragraph (a) (2):

(i) 20% of the maximum price set forth in the appropriate table for retreading or recapping, exclusive of the amount set forth to be added for furnishing the tire carcass, is the discount to be deducted if the seller did not have a greater percentage discount in effect to a purchaser of the same class on December 1, 1942, for the same type of retreading or recapping or for the same type of retreaded or recapped tires.

(ii) If on December 1, 1942, the seller had in effect to a purchaser of the same class for the same type of retreading or recapping or for the same type of retreaded or recapped tires, a percentage discount greater than 20%, the discount to be deducted shall also be a percentage of the maximum price set forth in the appropriate table for retreading or recapping, exclusive of the amount set forth to be added for furnishing the tire carcass. That percentage shall be the percentage discount which the seller had in effect to a purchaser of the same class on December 1, 1942, for that type of retreading or recapping or for that type of retreaded or recapped tires: *Provided,* That in no case shall the discount required to be deducted by this paragraph be greater than 35%.

(iii) "Type", when used in subdivision (i) or (ii), refers to the types of tread for which separate categories are established in Tables I to IV.

(2) Notwithstanding any other provision of this schedule, the maximum prices to purchasers for resale fixed by this paragraph (b) shall be f. o. b. the seller's place of business.

This amendment shall become effective March 18, 1943.

PART 1347—PAPER AND PAPER PRODUCTS

[MPR 257,[1] Amendment 1]

PULPWOOD PRODUCED IN AND SOLD INTO THE STATES OF MINNESOTA, MICHIGAN AND WISCONSIN

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 257 is amended in the following respects:

1. § 1347.358 (a) (13) is amended to read as follows:

(13) A "cord" of pulpwood means an amount of pulpwood (whether peeled, rossed or rough) which, when properly stacked, contains not less than 128 nor more than 133 cubic feet, or, when pulpwood is sold in the form of logs, means 500 feet board measure as determined by the appropriate log scale.

2. § 1347.360 (a) is amended to read as follows:

(a) (1) Maximum prices per cord of pulpwood shall not exceed the following, delivered by the seller or at his expense at the mill yard, on board railway cars, in a lake or stream, or on board a vessel.

Species	Rough	Peeled or rossed
(i) Spruce wood	$14.00	$17.00
(ii) Balsam wood	12.00	14.00
(iii) Jack-pine wood	9.50	12.00
(iv) Hemlock wood	9.00	11.50
(v) Poplar wood	8.00	[1]11.50 [2]10.00

[1] For 147 cubic feet of properly piled wood in 55" lengths.
[2] For 133 cubic feet of properly piled wood in 100" lengths.

(2) Sales may be made at points other than those mentioned above. In all such cases the actual costs per cord for transportation to and for loading on the railway cars, vessel or stream by which the wood is to be delivered to the mill, or, in the case of wood to be trucked to the mill at the buyer's expense, the costs per cord of such trucking, shall be deducted from the appropriate maximum price set forth above.

This amendment shall become effective March 18, 1943.

PART 1377—WOODEN CONTAINERS

[MPR 342]

NAIL KEG STAVES AND HEADINGS

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

AUTHORITY: §§ 1377.251 to 1377.261, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E. O. 9250, 7 F. R. 7871.

§ 1377.251 *Sales of nail keg staves and headings at higher than maximum prices prohibited.* (a) On and after March 18, 1943 regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any nail keg staves or nail keg headings at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

§ 1377.252 *Products covered.* This regulation covers, under the name of "nail keg staves and headings", sawed southern pine staves $\frac{3}{8}$" thick and in lengths ranging from 15" to 21½", and circled southern pine headings of $\frac{7}{16}$" thickness and of diameters ranging from 9¼" to 12½", used in the manufacture of nail kegs.

§ 1377.253 *Maximum f. o. b. mill prices.* The maximum f. o. b. mill prices for nail keg staves and headings shall be as follows:

Staves

Length:	Per bundle of 400 inches
15" to 16½"	$1.00
16⅝" to 17⅞"	1.05
18" to 18⅞"	1.08
19" to 20⅞"	1.13
21" to 23"	1.20

Headings

Diameter:	Per thousand sets
9" to 9½"	$60.00
9⅝" to 10½"	63.00
10⅝" to 11½"	67.00
11⅝" to 12½"	72.00

§ 1377.254 *Delivered prices.* The maximum delivered price shall be a price not higher than the f. o. b. mill price in the preceding section plus the actual transportation charges paid or incurred by the seller in making shipments directly from the mill to the point of delivery.

§ 1377.255 *Basic maximum prices for keg staves and headings not specifically priced.* Southern pine nail keg staves and headings not specifically priced are nevertheless subject to this regulation. The basic price for such staves and headings may be determined by using the most similar product for which a specific price is given as a yardstick. To the price of this yardstick product may be added or subtracted the dollars and cents differential which existed between the yardstick product and the product to be priced in March 1942. The result is the manufacturer's basic maximum price for the product. This price, with a complete description of the product and the method by which the price was computed must be reported to the Office of Price Administration, Washington, D. C. Unless such price is disapproved within 20 days of receipt of the report, it is approved.

If a manufacturer cannot figure a maximum price under this section, he should write to the Lumber Branch, Office of Price Administration, Washington, D. C., giving a complete description of the product to be priced, his requested price, and any facts supporting his request. The Office of Price Administration will then by letter give him a specific basic maximum price or a method of computing it. No deliveries may be made at the requested price until it has been approved by the Office of Price Administration.

§ 1377.256 *Adjustable pricing.* A price may be made adjustable to a price not higher than the maximum price in effect at the time of delivery. If a petition for amendment or adjustment has been filed which requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1377.257 *Application for adjustment or petition for amendment*—(a) *Government contracts.* The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States." It also includes any subcontract under this kind of contract. Any person who has made or intends to make a "government contract" and who thinks that a maximum price established in this regulation is impeding or threatens production of nail keg staves and headings which are essential to the war program and which are or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6[1] issued by the Office of Price Administration.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[2] issued by the Office of Price Administration.

§ 1377.258 *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars and cents price is as much of a violation of this regulation as an outright overceiling price. This applies to devices

[1] 7 F.R. 5087, 5664.
[2] 7 F.R. 8961.

making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

§ 1377.259 Records. All persons making sales covered by this regulation must keep records which will show a complete description of the staves and headings sold, the name and address of the buyer, the date of the transaction, and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought one or more carloads of staves, headings or a combination of the two. They must be kept for two years for inspection by the Office of Price Administration.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Ration Order 3, Amendment 46]

SUGAR RATIONING REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Rationing Order No. 3 is amended in the following respect:

Section 1407.105 (d) is added to read as follows:

(d) A registering unit may apply for a temporary increase in its allowable inventory in an amount not to exceed fifty percent of the allowable inventory permitted such registering unit pursuant to paragraph (b) or (c). If it is registered as retailer, it may also apply for a temporary increase not to exceed fifty percent of any permanent increase in its allowable inventory authorized by the Office of Price Administration. Application for the increase shall be made by the registering unit to the Board on OPA Form No. R-315. The board shall issue a certificate to the registering unit in weight value equal to the increase applied for if it is not in excess of the amount permitted pursuant to this paragraph; *Provided, however,* That if the registering unit has not surrendered stamps or certificates to the board for cancellation in weight value equal to its excess inventory, as described in § 1407.107, and in weight value equal to any temporary increase in its allowable inventory previously authorized by the Office of Price Administration, the board shall grant the application and reduce the excess inventory and any previously authorized temporary increase, and, if the increase granted pursuant to this paragraph exceeds the weight value of such stamps and certificates required to be surrendered a certificate shall be issued to the registering unit in weight value equal to the difference. Increases granted pursuant to this paragraph may be cancelled by the Office of Price Administration. If such increases are cancelled, registering units to which they have been granted shall, before accepting any deliveries of sugar, surrender to the board for cancellation stamps or certificates in weight value equal to such increases. Thirty days notice of any such cancellation will be given.

This amendment shall become effective March 18, 1943.

(50) *Soybean, cottonseed and peanut oil meals and oil cakes.* (i) The maximum prices for the sale or delivery of domestic soybean, cottonseed and peanut oil meals and oil cakes shall be as follows:

(a) *Sales by a processor in carload lots.* The maximum price for the sale or delivery of soybean, cottonseed and peanut oil meals or oil cakes by a processor in carload lots shall be highest price which he is permitted to charge on such sales or deliveries under and pursuant to contract heretofore executed between said processor and the Commodity Credit Corporation.

The highest price permitted by such processor's contract for the 1942 crop shall be the maximum price permitted by this regulation for all oil meal or oil cake produced by such processor whether made from cottonseed, soybeans or peanuts of the 1942, 1941 or any other crop heretofore grown.

(b) *Sales by a processor in less than carload lots.* The maximum price for the sale or delivery of soybean, cottonseed and peanut oil meals or oil cakes by a processor in less than carload lots shall be: (a) In the case of sales to other than ultimate consumers, $1.00 per ton over his above specified maximum price for sales in carload lots; and (b) in case of sales to ultimate consumers, $3.00 per ton over his above specified maximum price for sales in carload lots.

(c) *Sales by a grinder.* The maximum price for the sale or delivery of soybean, cottonseed or peanut oil meals by a grinder shall be the maximum price of the processor (from whom the soybean, cottonseed or peanut oil cake was obtained) for a like sale of such oil meal (that is, the maximum price of the processor determined under paragraph (a) or (b) above, as the case may be, dependent on the quantity sold) plus an addition at the rate of 50 cents per ton plus actual or reasonable transportation charges, if any, incurred by the seller in respect to the lot sold.

(d) *Sales by a jobber.* The maximum price that a jobber may charge for the sale or delivery of soybean, cottonseed and peanut oil meals or oil cakes in carload lots shall be 50 cents per ton (maximum markup) and in less than carload lots shall be $1.00 per ton (maximum markup) over the maximum price which he could lawfully have paid a processor for the quantity and quality purchased together with actual or reasonable transportation charges incurred by the seller in respect to the lot sold.

(e) *Sales by a wholesaler.* The maximum price that a wholesaler may charge for the sale or delivery of soybean, cottonseed and peanut oil meals or oil cakes shall be $2.50 per ton (maximum markup) over the maximum price which he could lawfully have paid the processor or jobber from whom he purchased (or if he purchased from any other class of person, over the maximum price which he could lawfully have paid a processor) for the quantity or quality purchased together with actual or reasonable transportation charges incurred by the seller in respect to the lot sold.

(f) *Sales by a retailer.* The maximum price that a retailer may charge for the sale or delivery of soybean, cottonseed and peanut oil meals and oil cakes shall be $5.50 per ton (maximum markup) over the maximum price which he could lawfully have paid to the processor, jobber or wholesaler from whom he purchased (or if he purchased from any other class of persons, over the maximum price which he could lawfully have paid a processor) for the quantity and quality purchased together with actual or reasonable transportation charges incurred by the seller in respect to the lot sold.

(g) *Sales by others.* No ultimate consumer shall sell or deliver soybean, cottonseed or peanut oil meal or oil cake at a higher price than that of a retailer for a like sale or delivery: *Provided,* That No grower or ginner of cottonseed and no grower of soybeans or peanuts shall sell or deliver soybean, cottonseed or peanut oil meal or oil cake obtained from a processor in exchange for soybeans, cottonseeds or peanuts at a higher price than the maximum price of the processor with whom he traded for a like sale or delivery.

The maximum price for the sale or delivery of soybean, cottonseed and peanut oil meals and oil cakes by: (a) Any person of a class not hereinbefore specifically mentioned and provided for; and (b) any person of a class hereinbefore specifically mentioned and provided for who purchased the same from a person of a like class, shall be the maximum price which his seller could lawfully have charged for a like sale or delivery.

(ii) *Maximum prices for sales of imported cottonseed, and peanut oil meals and oil cakes.* No person shall sell or deliver imported cottonseed or peanut oil meals or oil cakes at a higher price than could lawfully be charged for a like sale or delivery by a like class of seller of domestic cottonseed or peanut oil meals or oil cakes: *Provided,* That in the case of the first sale within the United States the seller can charge no more than he could lawfully charge if he had purchased the meal or cake in question from that domestic processor located at or nearest to the port of entry of the meal or cake in question.

(iii) Whenever any person buys soybean, cottonseed or peanut oil meal or oil cake unsacked and resells the same sacked he may add to his maximum price as hereinbefore specified the replacement value of the sacks not exceeding $3.50 per ton.

* * * * *

(v) For the purposes of this subparagraph (50) the following terms shall have the following meanings:

"Grinder" means a person who buys soybean, cottonseed or peanut oil cake and processes or procures the processing of such cake into soybean, cottonseed or peanut oil meal and sells such oil meal.

"Jobber" means a person other than a grinder who buys soybean, cottonseed or peanut oil meal or oil cake whether in car lots or less than car lots and resells the same without unloading into a warehouse.

"Processor" means a person who by expeller, extraction or hydraulic process removes oil from soybeans, cottonseeds or peanuts and in that process produces soybean, cottonseed or peanut oil cake or oil meal.

"Retailer" means a person other than a grinder who buys soybean, cottonseed or peanut oil meal or oil cake and resells the same to an ultimate consumer.

"Soybean, cottonseed and peanut oil meals or oil cakes" means the oil meal or oil cake produced in the manner hereinbefore described under the definition of processor.

"Ultimate consumer" means a person who buys soybean, cottonseed or peanut oil meal or oil cake for the purposes of feeding the same to animals or poultry. It shall not include a grinder, a mixed feed manufacturer, or a mineral mixed feed manufacturer.

"Wholesaler" means a person other than a grinder who buys soybean, cottonseed, or peanut oil meal or oil cake and unloads his purchase into a warehouse and resells the same, except at retail.

All other terms used in this subparagraph (50) shall have the meanings ascribed to them in § 1499.20 of this General Maximum Price Regulation.

"Transportation charges" shall include the tax imposed by section 620 of the Revenue Act of 1942 (Pub. Laws 753, 77th Cong., approved October 21, 1942) and said tax shall be deemed to be a part of and shall be included in said charges with like effect as if it were a like increase in the rate or amount charged by the carrier for the transportation in question. The provisions of Supplementary Order No. 31 issued by the Office of Price Administration on November 26, 1942, (Document No. 7632) shall have no application to this subparagraph (50) of § 1499.73 (a) of this General Maximum Price Regulation.

This amendment shall become effective March 18, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 12th day of March 1943.

PART 1305—ADMINISTRATION

[General Ration Order 5,[1] Amendment 5]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order No. 5 is amended in the following respects:

1. A new Article XXVI and Sec. 26.1 are added to read as follows:

Article XXVI—Allotment for Certain Employers

SECTION 26.1 *Allotments for certain employers.* (a) Regardless of any other provision of this Order, any person who in the conduct of his business is about to feed, or, on and after March 1, 1943, has fed, rationed foods (after they have been rationed by an order of the Office of Price Administration), to employees whom he hires (or hired) temporarily for a period of less than thirty (30) days, may apply for allotments of rationed foods for that purpose. However, Group II and III institutional users may not apply for allotments pursuant to this section.

(b) Application must be made on OPA Form R-315 to the Board. Persons who are not institutional users may apply to the Board for the area in which such rationed foods are required. An application to replenish rationed foods already served to such employees, must be made within five (5) days after the end of the thirty (30) day period in which such service was made. The application must show the name, address and business of the applicant, and the number of such employees he will serve (or has served) during the thirty (30) day period. (In estimating the number of employees served, an employee is counted separately for each occasion on which he will be (or was) served. However, no one employee may be counted more than three (3) times on any one day.

(c) If the Board finds that the applicant needs an allotment of rationed food for the purposes described in paragraph (a) above, it shall grant the application and give him an allotment for each rationed food required (or used), computed in the following way: It shall multiply the number of such employees which it estimates or finds he will serve (or has served) during the thirty (30) day period by the allowance per person for the rationed food. If, at the time application is made, the applicant is not under an obligation to surrender stamps or certificates to a Board, the Board shall issue a certificate for the amount of the allotment. If he is under an obligation to surrender stamps or certificates, that obligation shall be cancelled to the amount of the allotment granted under this Section. Where the amount of the allotment is greater than his obligation, the Board shall issue a certificate for the difference.

(d) Where an applicant was granted an allotment prior to feeding his employees, he shall within five (5) days after the end of the thirty (30) day period, report to the Board the number of such employees served by him during that period. If the number is less than the number the Board estimated he would serve, the difference shall be multiplied by the allowance per person for the rationed food and stamps or certificates in an amount equal to the result obtained must be surrendered to the Board in accordance with such arrangement as may be made with the Board.

(e) An employee specified in paragraph (a) who lives in the place where food is served to him (or in premises maintained in connection with that place) for seven consecutive days or more, and who takes eight or more meals a week there, must turn over all his War Ration books to his employer, in the manner described in paragraph (a) of Sec. 17.1 during the period for which his employer has received allotments of rationed foods pursuant to this section. The duties of the employer with respect to the War Ration Books which are turned over to him are the same as those specified for institutional users in paragraphs (c), (d), (e) and (f) of Sec. 17.1.

This amendment shall become effective March 12, 1943.

PART 1351—FOOD AND FOOD PRODUCTS

[RPS 91,[1] Amendment 5]

TEA

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Price Schedule 91 is amended in the following respects:

1. Section 1351.251 is amended by deleting the phrase "except as provided in § 1351.254 hereof".

2. Section 1351.254 is hereby revoked.

3. Section 1351.256 (a) is hereby revoked.

4. Section 1351.259 (d) is added to read as follows:

(d) Qualified distributors shall be those named by the Department of Agriculture.

5. Section 1351.261 (a) is amended by inserting as the first phrase thereof the following:

(a) As to tea not imported by the Commodity Credit Corporation. * * *

6. Section 1351.261 (b) is amended by inserting as the first phrase thereof the following:

(b) As to tea not imported by the Commodity Credit Corporation. * * *

7. Section 1351.261 (c) is amended by inserting as the first phrase thereof the following:

(c) As to tea not imported by the Commodity Credit Corporation. * * *

8. Section 1351.261 (d) is amended by inserting as the first phrase thereof the following:

(d) As to tea not imported by the Commodity Credit Corporation. * * *

9. Section 1351.261 (e) is amended by inserting as the first phrase thereof the following:

(e) As to tea not imported by the Commodity Credit Corporation. * * *

10. Section 1351.261 (h) is amended to read as follows:

(h) The maximum prices at which a person may export this tea shall be determined in accordance with the provisions of the Maximum Export Price Regulation, as amended, issued by the Office of Price Administration.

11. Section 1351.262 is added to read as follows:

§ 1351.262 *Maximum prices for tea imported by Commodity Credit Corporation.*—(a) *Sales by the Commodity Credit Corporation.* As to tea imported and sold by the Commodity Credit Corporation the maximum prices shall be as follows:

[Cents per pound net cash, ex warehouse, port of entry]

	Fair	Medium	Fine
India:

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Ration Order 13,[1] Amendment 6]

PROCESSED FOODS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 13 is amended in the following respect:

1. Section 2.9 is added, to read as follows:

SEC. 2.9. *Consumers who must have more processed foods for their subsistence may apply for more points.* (a) Consumers (including those who eat in group one institutional establishments, as defined in General Ration Order 5) may apply for additional points if they cannot get enough fruits or vegetables to meet minimum nutritional needs for such foods, because (1) supplies of such foods are not reasonably accessible to them, except at infrequent intervals, and (2) they have no facilities for storing such foods long enough and in the quantities required to supply their needs.

(b) Any consumer who needs more processed foods for the reasons set forth in paragraph (a) of this section, may apply to his board, in person or by mail, on OPA Form R-315. He must submit his war ration book two with his application. One application may be made covering more than one consumer, but the name of each shall be listed on the application, and the war ration book two of each person included in the application must be submitted with it. The application must state in detail:

(1) Why the persons included therein cannot obtain enough fruits or vegetables to meet minimum nutritional standards;

* Copies may be obtained from the Office of Price Administration.

(2) How many pounds of processed foods they will need;

(3) For how long a period;

(4) How many pounds of processed foods (including home canned) they have, at the time of application; and

(5) How many pounds of fresh fruits or vegetables (excluding potatoes) will be available to them during the period covered by the application.

(c) All regional offices are authorized to rule on applications under this section, and to authorize boards or district offices (or, where there are none, state offices) to rule on them. A board or district (or state) office may rule on such an application only if the regional office for the area where it is located has given it such authority. If the board has not been given such authority, it shall forward the application with its recommendation to the district (or state) office. If the district (or state) office has been given such authority, it shall indicate what action is to be taken, and return the file to the board. If the district (or state) office has not been given such authority, it shall forward the file to the regional office. The regional office shall then indicate what action is to be taken, and return the file to the board. All certificates to be issued under this section shall be issued by boards.

(d) The regional office, or board or district (or state) office which is authorized to rule on such applications, may issue or authorize the issuance of one or more certificates for the number of points that it finds should be allowed. No board or district (or state) or regional office shall issue or authorize the issuance of a certificate unless it finds that the applicants will be unable to get enough fruits or vegetables, during the period covered by the application, to meet minimum nutritional needs for such foods because (1) supplies of such foods are not reasonably accessible to them, except at infrequent intervals, and (2) they have no facilities for storing such foods long enough and in the quantities required to supply their needs. In determining how many points to allow, consideration shall be given to the amount of processed foods, and fresh fruits or vegetables (excluding potatoes) which will be available to the applicants during the period covered by the application. In addition, the board or district (or state) office shall be governed by any further conditions established by the regional or Washington office.

(e) Any board which issues certificates under this section shall keep a record of the number of points which it has issued. It shall, within five (5) days after the end of each month, send to the district (or state) office a statement of the total number of points issued each month. The district (or state) office shall forward such statements to the regional office. The regional office shall forward such statements to the Washington office.

This amendment shall become effective March 12, 1943.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Ration Order 3,[1] Amendment 47]

SUGAR RATIONING REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Rationing Order No. 3 is amended in the following respects:

1. Section 1407.142 (b) is amended to read as follows:

(b) A registering unit or primary distributor to which stamps are surrendered by a consumer must paste the stamps on OPA Form No. R-304 (War Ration Stamp Card), or upon a similar card; only stamps bearing the same number may be affixed to the card. When a registering unit surrenders a card for the purpose of authorizing a delivery of sugar to it, the name and address of the registering unit surrendering the card and the name and address of the registering unit, Collector of Customs, or primary distributor to whom the card is being surrendered shall be written on the face or back of the card by the one surrendering the card. Before a card may be surrendered for the purpose of deposit, the person surrendering the card shall, if he affixed the stamps to the card, endorse it by writing his name and address on its face or shall, if he received the card with stamps affixed, endorse it by writing his name on its back.

2. Section 1407.170 (b) is amended to read as follows:

(b) The Collector of Customs may deliver sugar received by him to a consumer, registering unit or an institutional user establishment upon receipt of stamps or certificates in weight value equal to the sugar delivered or an authorization by the Office of Price Administration to such registering unit or institutional user establishment authorizing it to take delivery of such sugar. Stamps or certificates received by the Collector of Customs shall be delivered, at least once each calendar month, to the State Director having jurisdiction over the area in which such point of entry is located. Authorizations received by the Collector of Customs shall be delivered, at least once each calendar month, to the Office of Price Administration.

This amendment shall become effective March 18, 1943.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[MPR 346]

CORN

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order 9250, issued by the President on October 3, 1942, that maximum prices for the sale of corn be established by a maximum price regulation to replace Temporary Maximum Price Regulation 25, as amended,[1] issued by the Office of Price Administration.

In the judgment of the Price Administrator, the maximum prices established by this regulation are generally fair and equitable, and will effectuate the purposes of the said act, as amended, and of the said executive order. The maximum prices established by this regulation will reflect to producers of corn the highest of the prices required by the provisions of the Emergency Price Control Act of 1942 as amended, and by Executive Order 9250, after making appropriate deductions from the parity price for payments made under the Soil Conservation and Domestic Allotment Act, as amended, parity payments made under the Agricultural Adjustment Act of 1938, as amended, and governmental subsidies. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In fixing the maximum prices established by this regulation, the Price Administrator has given adequate weighting to farm labor. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

§ 1439.352 *Maximum prices for corn.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 as amended, and Executive Order 9250, Maximum Price Regulation 346 (Corn), which is annexed hereto and made a part hereof, is hereby issued.

SECTION 1 *To what transactions and kinds of corn this regulation applies, and the relation to other regulations*—(a) *Kinds of corn to which regulation applies.* This regulation applies to all sales and deliveries of shelled corn, whole corn, ear corn and snapped corn.

(b) *Kinds of corn exempted.* This regulation does not apply to sales and deliveries of seed corn, popcorn, grain-sorghums, sweet corn, broom corn, ground corn, cracked corn, and corn used for canning purposes.

(c) *Geographic applicability.* The provisions of this regulation apply to the forty-eight states of the United States and to the District of Columbia.

(d) *Export sales.* The maximum prices at which a person may export corn shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

(e) *Effect on Temporary Maximum Price Regulation 25,[3] as amended.* This regulation supersedes Temporary Maximum Price Regulation 25 as amended, issued by the Office of Price Administration.

SEC. 2 *Prohibition against dealing in corn at prices above the maximum.* On and after March 12, 1943, regardless of any contract or obligation, no person shall sell or deliver corn at prices above the maximum prices established by this regulation, and no person shall buy or receive corn, in the course of trade or business, at prices above the maximum prices established by this regulation, nor shall any person agree, offer, solicit, or attempt to do any of these things. However, prices lower than the maximum prices established by this regulation may be charged and paid.

SEC. 3 *Maximum prices for No. 2 yellow corn at terminal price basing points, in carload and less than carload quantities*—(a) *In carload quantities.* The term "terminal price basing point" means any point within the switching limits of the cities listed below. The maximum prices per bushel for No. 2 yellow corn at the terminal price basing points, in carload quantities, shall be:

Chicago	$1.02
Milwaukee	1.02
Duluth and Superior	1.01¼
Minneapolis and St. Paul	.98
Peoria	1.01
St. Louis and East St. Louis	1.02¼
Kansas City	.99
St. Joseph, Mo.	.99
Omaha and Council Bluffs	.95
Sioux City	.94

(b) *In less than carload quantities.* The maximum prices set forth in the preceding paragraph shall also be the maximum prices for less than carload quantities at the terminal price basing points.

SEC. 4 *Maximum prices for yellow corn on track at interior points in Area A, in carload quantities.* The maximum price for yellow corn on track at any interior point, in carload quantities, shall be the maximum price for No. 2 yellow corn at the appropriate terminal price basing point, less one cent per bushel and less freight charges from the interior point to the terminal price basing point.

The appropriate terminal price basing point is that point whose use in the above calculation results in the highest price at the interior point.

An interior point is any point in the corn producing area, which is described as Area A in Appendix A, from which corn is shipped in carload quantities to, or sold basis, a terminal price basing point.

Price on track means the price for corn loaded in a railway car.

Example of maximum price on track at interior point: A is an interior point in Illinois. The freight rate to Chicago per bushel of corn is assumed to be 7 cents. The freight rate to St. Louis per bushel of corn is also assumed to be 7 cents. The maximum price per bushel at A, calculated on the Chicago price, is $1.02, less 7 cents, less 1 cent, or $.94. The maximum price per bushel at A, calculated on the St. Louis price, is $1.02¼, less 7 cents, less 1 cent, or $.94¼. St. Louis is the appropriate terminal price basing point, and the maximum price on track at A is $.94¼.

SEC. 5 *Maximum prices for sales by producers of yellow corn in Area A*—(a) *To another farmer.* The maximum price for the sale by a producer to another farmer of yellow corn produced on a farm operated by the seller shall be the maximum price on track at the interior point nearest to the point of production.

(b) *To any other purchaser.* The maximum price for the sale by a producer of yellow corn to any other purchaser shall be the maximum price on track at the interior point nearest to the point of production, less two cents.

Examples of producer's maximum prices: The maximum price on track at the interior point nearest to the point of production is assumed to be $1.02 (Chicago price) less 1 cent, less 7 cents freight, or $.94 per bushel. The maximum price for sale by the producer to another farmer is $.94, the track price.

If the corn is sold to a trucker, or any other purchaser, the maximum price is $.94, the track price at the interior point nearest to the point of production, less 2 cents, or a price of $.92.

SEC. 6 *Maximum prices for sales to local users of yellow corn stored at interior points, and sales of yellow corn by truckers, in Area A*—(a) *Sales of corn stored at interior points.* (1) When yellow corn purchased from a producer is stored at an interior point and is thereafter sold to a farmer or other local user, the maximum price shall be the maximum price on track at the interior point, plus 5 cents per bushel.

(2) If the corn is sold to a trucker, the maximum price shall be the maximum price on track at the interior point.

Example: A local elevator purchases corn from a farmer at an assumed maximum price of $.96. The track price is 2 cents higher, or $.98. The corn is thereafter sold to a farmer or a feed mixer. The maximum price for this sale is 5 cents above the track price, or $1.03. If the corn is sold to a trucker, the maximum price is the track price, or $.98.

(b) *Sales by truckers.* When yellow corn is moved by truck within Area A, as described in Appendix A, or from a point within Area A to any point outside of such area, but not to or through a terminal price basing point, the maximum price for the sale of the corn shall be the purchase price paid by the trucker, plus actual transportation costs incurred in the shipment, at rates not higher than the lowest applicable common carrier rates, plus 2 cents per bushel. The trucker shall furnish to the purchaser a statement showing the place and date of purchase, the name of the person from whom the corn was purchased, the price paid, and the amount of transportation charges.

Example: A producer sells corn to a trucker, at a maximum price assumed to be $.92 per bushel. The trucker sells the corn to a farmer after a haul for which applicable common carrier rates amount to 5 cents per bushel. The maximum price for resale is $.92, plus 5 cents plus 2 cents, or $.99 per bushel.

(c) *Sales by retail dealers who purchase from truckers.* When corn is sold by a trucker to a retail dealer, the maximum price at which the retail dealer may resell the corn to local users shall be the price at which he purchased the corn, plus 5 cents per bushel.

[1] 7 F.R. 5059, 7242, 8829, 9000, 10530.

[2] 8 F.R. 567, 1459.

Area A, when shipped from another interior point or from a terminal price basing point—(a) *Track price.* When No. 2 yellow corn is shipped in carload quantities to an interior point, from another interior point or from a terminal price basing point, the maximum price on track, delivered at the interior point, shall be the maximum price at the point from which the shipment is made, plus freight charges from that point.

(b) *Resale at interior point.* Upon a resale of such corn by a retail dealer at the interior point of delivery, the seller may charge the maximum price specified in paragraph (a) of this section, plus 5 cents per bushel.

Example: A seller in Omaha sells a carload of corn to a local elevator at an interior point in Nebraska. The freight to the interior point, from Omaha, is assumed to be 4 cents per bushel. The highest price at which the sale may be made, for delivery at the interior point, is the Omaha price of $ 95, plus 4 cents, or $.99. When the elevator resells the corn to a farmer or to a feed mixer, the highest price that may be charged is $ 99 plus 5 cents, or $1.04 per bushel.

(c) *Sales by producers not affected.* The provisions of this section shall not affect sales by a producer in Area A, maximum prices for which are established under Sec. 5 of this regulation.

SEC. 8 *Maximum prices for sales by producers and truckers of yellow corn in Areas I to X*—(a) *Sales by producers.* The maximum prices for the sale by a producer of yellow corn in Areas I to X, which are described in Appendix A and which comprise the entire United States outside of Area A, shall be the maximum prices for No. 2 yellow corn, in carload quantities, delivered on track at the railway station nearest the farm of the producer.

The maximum price at the railway station may be calculated by reference to the freight rates from the respective terminal price basing points, as set forth in Sec. 9 of this regulation.

(b) *Sales by truckers.* In any case in which yellow corn is moved by truck within Areas I to X, as described in Appendix A, the maximum price for the sale by the trucker shall be the maximum price for No. 2 yellow corn, in carload quantities, delivered on track at the railway station nearest the point of delivery. The trucker shall furnish to the purchaser a statement showing the place and date of purchase, and the name of the person from whom the corn was purchased.

However, the maximum price for sale of yellow corn moved from Area A into a point in Areas I to X by a trucker is calculated under the provisions of Sec. 6 (b) of this regulation.

Examples: At point B in Ohio, the freight from Chicago to the local railway station is assumed to be 7 cents per bushel. The track price for No. 2 yellow corn is the Chicago price of $1.02, plus 7 cents, or $1.09. This is also the highest price at which a producer near A may sell yellow corn.

If a trucker brings corn into point B, which he purchased at some other point within Areas I to X, the highest price at which he may resell the corn is $1.09.

SEC. 9 *Maximum prices for delivery at destination points in Areas I to X*—(a) *Area I.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area I, described in Appendix A, shall be $1.02, the maximum price at Chicago, plus the lowest proportional all-rail rate from Chicago to the point of destination.

Examples:	
Albany	$1.17⅛
Baltimore and Virginia Cities	1.16
Boston	1.18¾
New York	1.17⅝
Philadelphia	1.16½

This provision is subject to the following exceptions:

(1) When shipment is made to Louisville or Cincinnati, destined for the Southeast or Carolina territories, the maximum price at these points shall be $1.06¼ per bushel. At transit points such as Indianapolis, Decatur, Illinois and Kankakee, Illinois, the maximum price shall be $1.16½ per bushel basis Philadelphia, or $1.06¼ per bushel basis Louisville, or Cincinnati when destined to the Southeast or Carolina territories, or when destined to Louisville or Cincinnati proper. The Southeast and Carolina territories are described as Area II in Appendix A.

When corn originating West of the Mississippi River is shipped to Louisville or Cincinnati, the maximum price for the corn if resold for local use shall be $1.11, provided that the billing covering such shipment is cancelled.

(2) When shipment is made to Evansville, Indiana, or Cairo, Illinois, destined for the Southeast or Carolina territories, the maximum price at Evansville or Cairo shall be $1.04½ per bushel.

(3) When shipment is made to Buffalo by water, the maximum price shall be $1.09 per bushel, C. I. F. Buffalo.

(b) *Area II.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area II, described in Appendix A, shall be $1.02¾, the maximum price at St. Louis, plus the lowest proportional all-rail rate from St. Louis to the point of destination.

Examples:	
Atlanta	$1.23½
Charlotte	1.25¼
Columbia	1.27
Memphis	1.09¾
Meridian	1.18½
Montgomery	1.21¾
Nashville	1.15¼
New Orleans	1.17½

(c) *Area III.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area III, described in Appendix A, shall be $.99, the maximum price at Kansas City, plus the lowest proportional all-rail rate, or local rate where no proportional rate is published, from Kansas City to the point of destination.

Examples:	
Fort Worth	$1.12
Houston	1.15½
Little Rock	1.10¼

(d) *Area IV.* The maximum prices per hundredweight for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area IV, described in Appendix A, shall be the equivalent in cents per hundred pounds of a price of $.95, the maximum price per bushel at Omaha, plus the freight rate of $.59½ per hundredweight. This equals a price of $2.31 per hundredweight delivered at any point in Area IV.

(e) *Area V.* The maximum prices per hundredweight for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area V, described in Appendix A, shall be the equivalent in cents per hundred pounds of a price of $.94, the maximum price per bushel at Sioux City, plus the freight rate of $.59½ per hundredweight. This equals a price of $2.29 per hundredweight delivered at any point in Area V.

(f) *Area VI.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area VI, described in Appendix A, shall be $.98, the maximum price at Minneapolis, plus the local freight rate from Minneapolis to the point of destination.

(g) *Area VII.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area VII, described in Appendix A, shall be $.95, the maximum price at Omaha, plus the local freight rate from Omaha to the point of destination.

(h) *Area VIII.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area VIII, described in Appendix A, shall be $.98, the maximum price at Minneapolis, plus the intra-state proportional freight rate from Minneapolis to the point of destination.

(i) *Area IX.* The maximum prices per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area IX, described in Appendix A, shall be $.98, the maximum price at Minneapolis, plus the proportional freight rate, or local freight rate where no proportional rate is published, from Minneapolis to the point of destination.

(j) *Area X.* The maximum price per bushel for No. 2 yellow corn, in carload quantities, for delivery at destination points located within Area X, described in Appendix A, shall be $1.02.

SEC. 10 *Effect of barge or other river transportation on maximum prices.* The maximum prices set forth in this regulation shall not be altered or affected in any way in any case in which corn is shipped by barge or other river transportation.

SEC. 11 *Maximum prices for other grades, classes and kinds of corn*—(a) *Yellow corn.* The maximum prices for No. 1 yellow corn at all points shall be the same as the maximum prices for No. 2 yellow corn. The maximum prices for other grades of yellow corn, at all points for which prices are established for No. 2 yellow corn by this regulation, shall be the respective prices per bushel for No. 2 yellow corn less the amounts set forth below.

	Cents
No. 3 yellow	½
No. 4 yellow	1
No. 5 yellow	1½
Sample yellow	2

The prices established by this paragraph for No. 3 yellow, No. 4 yellow, No. 5 yellow, and sample yellow corn are maximum prices for these grades at the lowest moisture content permissible under the Official Grain Standards of the United States. For each one-half percent, or fraction thereof, of moisture in excess of 15½ percent, the maximum price for each of these grades shall be reduced by three-fourths of one cent per bushel.

(b) *White corn.* (1) The maximum prices per bushel for each grade of white corn in carload quantities, or in less than carload quantities, at the terminal price basing points, shall be:

Chicago	$1.23½
Milwaukee	1.23½
Duluth and Superior	1.21¼
Minneapolis and St. Paul	1.18
Peoria	1.22½
St. Louis and East St. Louis	1.21¼
Kansas City	1.14
St. Joseph, Mo.	1.14
Omaha and Council Bluffs	1.14
Sioux City	1.14

White corn for the purpose of this regulation shall include mixed corn which contains 95 percent or more of white corn.

(2) The maximum prices for white corn, for all types of sales for which maximum prices are established by Secs. 4, 5, 6 and 7 of this regulation, shall be calculated in the same way as the maximum prices for the corresponding sales of yellow corn, except that the maximum prices for these sales of white corn shall be based upon the maximum prices for white corn at the respective terminal price basing points, set forth in paragraph (b) (1) of this section.

(3) The maximum prices for white corn, for all types of sales for which maximum prices are established by sections 8 and 9 of this regulation, shall be calculated in the same way as the maximum prices for the corresponding sales of yellow corn, except that the maximum prices for these sales of white corn shall be based upon the maximum prices for white corn at the respective terminal price basing points, set forth in paragraph (b) (1) of this section.

Examples:	
Philadelphia	$1.38
Boston	1.40¼
Nashville	1.33¾

(c) *Mixed corn.* The maximum prices per bushel for mixed corn, at all points, shall be the maximum prices at such points for the corresponding grade of yellow corn. The maximum prices for mixed corn which contains 95 per cent or more of white corn, however, are calculated under the provisions of paragraph (b) of this section, which provides the method for calculating prices for white corn.

(d) *Ear corn and snapped corn.* The maximum prices for ear corn and snapped corn shall be the maximum prices for yellow corn, provided that for the purpose of calculating the maximum price for ear corn or snapped corn, a bushel shall not be less than 68 pounds in weight.

SEC. 12 *Carrying charges and seasonal price advances*—(a) *Carrying charges.* In addition to the maximum prices for corn established under the provisions of this regulation, a carrying charge, not exceeding 1/15th of a cent a day per bushel, may be charged by a seller to a buyer from the date of the expiration of free time under a contract of sale, to the date selected by the buyer as the date on which shipment shall be made, or to the date on which shipment is actually made, whichever is earlier: *Provided,* That

(1) The seller may in all cases have five days from the date of receipt of instructions within which to make shipment, and may charge carrying charges accordingly; and

(2) The buyer shall not increase his maximum price for resale to any purchaser because such carrying charges have been incurred.

(b) *Seasonal price advances.* All maximum prices established by this regulation shall be increased by one-half cent per bushel on the first day, and one-half cent per bushel on the fifteenth day, of each of the months of May, June, July, August and September. The maximum prices established on September 15, shall continue to and including October 31. On November 1, the maximum prices for corn shall revert to the maximum prices that existed on May 31.

SEC. 13 *Maximum prices for future contracts*—(a) *Transactions in May contracts.* The maximum prices per bushel at which future contracts for delivery of corn in May may be made shall be the maximum prices for No. 2 yellow corn on May 31, 1943, established under this regulation, at the respective Exchanges, less 2 cents.

(b) *Transactions in July contracts.* The maximum prices per bushel at which future contracts for delivery of corn in July, 1943, may be made shall be the maximum prices at which contracts for May, 1943, delivery may be made, at the respective Exchanges, plus 2 cents.

(c) *Transactions in September contracts.* The maximum prices per bushel at which future contracts for delivery of corn in September, 1943, may be made shall be the maximum prices at which contracts for July, 1943, delivery may be made, at the respective Exchanges, plus 2 cents.

(d) *Transactions in December contracts.* The maximum prices per bushel at which future contracts for delivery of corn in December 1943, may be made, shall be the maximum prices at which contracts for May 1943, delivery of corn may be made, at the respective Exchanges.

SEC. 14 *Merchandising and elevation charges*—(a) *Merchandising charges.* To all maximum prices established under this regulation, there may be added two merchandising charges of 1¼ cents each per bushel, but only one such charge may be made by any one merchandiser. No merchandising charge may be made unless merchandising services are actually performed.

A merchandiser is any person who buys and resells corn in carload quantities:

(1) At a terminal price basing point, for shipment out of such market; or

(2) At a subterminal point, basing on a terminal price basing point, for shipment out of such market; or

(3) At a destination point located within the Areas I to X described in Appendix A; or

(4) At an interior point for shipment to a destination point located within the Areas I to X described in Appendix A, excluding shipment through a terminal price basing point.

(b) *Elevation charges.* In any case in which corn is handled through a terminal or a sub-terminal elevator, there may be added to all maximum prices established under this regulation any elevation charges that may lawfully be made, but the total elevation charges that may be added to the price to any purchaser shall not exceed two cents per bushel.

(c) *Purchases from producers.* The charges provided for by this section may not be added on corn purchased directly from producers. Such charges are provided for by Sec. 5 (a) of this regulation.

(d) *Meaning of terminal elevator, subterminal elevator, and subterminal point.* A terminal or a subterminal elevator means any elevator which receives corn by rail or water shipment in carload quantities. A subterminal point is a point at which a subterminal elevator is located.

(e) *Invoicing charges.* All merchandising and elevation charges permitted by this section may be charged to any purchaser at a later stage of distribution of the corn. These charges shall be separately stated on the invoice to any purchaser.

SEC. 15 *Retail dealers' margins at points outside of Area A.* The maximum prices for corn sold by retail dealers in less than carload quantities, at points in Areas I to X, described in Appendix A, shall be the maximum prices for corn in carload quantities at the point of sale, plus 8 cents per bushel. The charge permitted by this section does not apply to any of the sales covered by Secs. 5, 6, 7 and 8 of this regulation.

SEC. 16 *Sales of corn in sacks.* When corn is sold in sacks furnished by the seller, there may be added to the maximum prices at the point of sale an amount equal to the replacement cost of the sacks plus a sacking charge of 2 cents per bushel.

SEC. 17 *Tax on transportation of property.* The three per cent tax on the transportation of property imposed by section 620 of the Revenue Act of 1942 shall, for the purpose of this regulation, be treated as though it were an increase of three per cent in the amount charged by every person engaged in the business of transporting property for hire.

SEC. 18 *Selection by purchaser of receiving point.* Nothing in this regulation shall be construed to prohibit any person from purchasing and receiving corn at any point at the maximum price at that point as calculated under the provisions of this regulation, and shipping from such point to any other point at his own expense, although the price paid at the point of purchase plus the cost of transportation to the point of destination may exceed the maximum price at the point of destination as calculated under the provisions of this regulation: *Provided*, That if the corn so purchased and shipped is resold, the maximum price for the resale shall be the maximum price at the point of resale as calculated under the provisions of this regulation.

SEC. 19 *Records, reports and posting of prices*—(a) *Current records.* Every person selling corn for which maximum prices are established by this regulation shall keep, and make available for examination by the Office of Price Administration, records of the same kind that he has customarily kept, relating to the prices which he charges for corn that he sells after the effective date of this regulation, and such additional records as the Office of Price Administration may from time to time require.

(b) *Reports.* Every person selling corn for which maximum prices are established by this regulation shall submit such reports as the Office of Price Administration may from time to time require.

(c) *Posting of prices.* (1) Every person who purchases corn from a producer, and who has a regularly established place of business, shall post at a conspicuous place in the place of business his ceiling price on track, as calculated under Sec. 4 of this regulation, the maximum prices that he is permitted to pay to the producer for each class and grade of corn, and the maximum prices that he is permitted to charge for sales to local users of each class and grade of corn.

(2) Every person who sells corn to ultimate users in less than carload quantities, and who has a regularly established place of business, shall post at a conspicuous place in the place of business the maximum prices that he is permitted to charge for each class and grade of corn.

SEC. 20 *Evasive practices.* The price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt, of or relating to corn, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement, or other trade understanding, or by any other means.

SEC. 21 *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages, and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942 as amended. Persons having evidence of any violation of this regulation are urged to communicate with the nearest field, state, or regional office of the Office of Price Administration, or with the principal office in Washington, D. C.

SEC. 22 *Registration and licensing.* The registration and licensing provisions contained in §§ 1499.15 and 1499.16 of the General Maximum Price Regulation,[1] issued by the Office of Price Administration are hereby made a part of this regulation and are made applicable to every person subject to this regulation, except that these provisions do not apply to any farmer who sells corn produced by him.

SEC. 23 *Petition for amendment.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[2] issued by the Office of Price Administration.

SEC. 24 *Definitions.* When used in this regulation, the term:

"Carload quantity" means 60,000 pounds or more.

"Corn" means any grain which consists of 50 per cent or more of shelled corn of the dent or flint varieties, and may contain not more than 10 per cent of other grains for which standards have been established under the provisions of the United States Grain Standards Act.

"Less than carload quantity" means less than 60,000 pounds.

"Person" means an individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political subdivisions, and any agencies of any of the foregoing.

"Retail dealer" means any person who buys corn and resells it to a feeder or ultimate user.

PART 1499—COMMODITIES AND SERVICES

[Amendment 133 to Supp. Reg. No. 14[1] of GMPR[2]]

FLUID MILK IN DALLAS REGIONAL AREA

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1499.73 (a) (1) (vi) is amended to read as follows:

(vi) *Maximum prices for approved fluid milk sold and delivered in the Dallas regional area.* This subdivision (vi) of Supplementary Regulation No. 14 establishes maximum prices for approved fluid milk delivered within the geographical boundaries of Region V, including the states of Arkansas, Kansas, Louisiana, Missouri, Oklahoma and Texas. Specific maximum prices are established for out-of-store sales, home-delivery and all other sales in containers of one gallon or less. Prices are stated for six types of areas in Region V. These areas are geographically defined in the appendix. Specific maximum prices are also stated for approved milk in containers larger than one gallon sold to stores, hotels, restaurants, and institutions. Prices are also provided for sales of approved milk by restaurants, hotels, and similar eating establishments.

A formula is provided by which persons who sold premium milk during December 1942 may determine a premium to be added to the prices set out, provided they file a required report. No other person may add any premium for such milk unless he first obtains a price from the Dallas Regional Office of the Office of Price Administration. There is also a special method of determining maximum prices for deliveries of approved milk to the Army or Navy.

This subdivision takes the place of the seller's former ceiling prices as determined under the General Maximum Price Regulation, Maximum Price Regulation No. 280, relating to bulk sales of fluid milk to stores, hotels, restaurants and institutions, and supplementary and adjustment orders issued by the Office of Price Administration pertaining to the sale and delivery of approved milk in Region V, for all deliveries of approved fluid milk in the Dallas Regional area for which specific prices, or for which pricing formulae are provided by this subdivision of Supplementary Regulation No. 14. The listed maximum prices apply only to fluid sweet milk. They are not applicable to buttermilk and chocolate or other flavored milk, maximum prices for which remain as determined under § 1499.2, General Provisions of the General Maximum Price Regulation.

(*a*) *Maximum prices.* The maximum prices set forth below are the maximum prices for "approved fluid milk" delivered to the buyer in the respective size containers set forth below, in the respective areas set out in the Appendix, regardless of the quantities sold or delivered, the seller's classification of purchasers, or the material from which the container was made.

(*1*) *Table of prices* (on sales in containers larger than one gallon the price stated is per gallon. In all other instances the price stated is determined by the container used assuming that the container is full. Maximum prices for sales to Army and Navy are set forth in subdivision (5) below.)

(*i*) *Containers of one gallon or smaller*—(A) *Retail out-of-store sales or home deliveries.*

Size of container	Areas A	Areas 1A	Areas 1	Areas 2A	Areas 2	Areas 3
	Cents	*Cents*	*Cents*	*Cents*	*Cents*	*Cents*
More than one gallon	50	48	46	44	42	40
Gallon	58	56	54	52	50	48
½ gallon	30	29	28	27	26	25
Quart	15½	15	14½	14	13½	13

(B) *Sales to stores and all other sales including wholesale or retail (except Army or Navy).*

Size of container	Areas A	Areas 1A	Areas 1	Areas 2A	Areas 2	Areas 3
	Cents	*Cents*	*Cents*	*Cents*	*Cents*	*Cents*
Gallon	52	50	48	46	44	42
½ gallon	27	26	25	24	23	22
Quart	13½	13	12½	12	11½	11
Pint	7	6¾	6½	6¼	6	5¾
⅓ quart	5	4⅚	4⅔	4½	4⅓	4
½ pint	4	3¾	3¾	3½	3½	3¼

(*ii*) *Containers larger than one gallon.* (A) The maximum prices for sales to stores, hotels, restaurants, and institutions in containers larger than one gallon (except Army or Navy sales) are:

	Areas A	Areas 1A	Areas 1	Areas 2A	Areas 2	Areas 3
Per gallon	*Cents* 50	*Cents* 48	*Cents* 46	*Cents* 44	*Cents* 42	*Cents* 40

(*iii*) *Sales of milk by restaurants, hotels, and other eating establishments for consumption on the premises.* The seller may use his established maximum price under the General Maximum Price Regulation, or he can determine his maximum price by adding to the wholesale price established herein three cents per pint, two and one-half cents per ⅓ quart, or two cents per ½ pint.

(*2*) *Premium milk.* (*i*) A person who sold premium milk during December, 1942 shall determine the maximum price for such milk as follows:

Take the highest price (before all discounts or quantity differentials have been deducted) at which he sold each different kind, grade, quality, or quantity of premium milk during December, 1942 at wholesale, out-of-retail-store, or delivered-to-the-home, respectively.

Next, subtract from each of these prices the highest price (before discounts or quantity differentials have been deducted) at which he sold other approved fluid milk during December 1942 in containers of the same size at wholesale, out-of-retail-store or delivered-to-the-home. The differentials thus obtained shall be the premium for each size container and type of sale. These premiums may then be added to the specific maximum prices for non-premium milk fixed by this area adjustment: *Provided*, That the seller, on or before April 10, 1943, shall file a report with the Regional Office of the Office of Price Administration, Dallas, Texas, showing:

(A) The total quantity, expressed in quarts, of approved fluid milk sold by such seller during December, 1942;

(B) The types of premium milk sold by such seller during December, 1942;

(C) The differential at which he sold each type of such milk during December, 1942; and

(D) The total quantity, expressed in quarts, of each type of premium milk which he sold during December, 1942.

The Regional Office of the Office of Price Administration, Dallas, Texas, may correct the prices so reported and may revise any such prices if the differential reported is higher than that generally

*Copies may be obtained from the Office of Price Administration.

prevailing during December, 1942, in the local market area or an adjoining area.

(*ii*) A seller of approved fluid milk who did not sell premium milk, or who sold only premium milk during December, 1942, may not add any premium to the maximum prices established under this area adjustment unless he first files an application in writing with the Regional Office of the Office of Price Administration, Dallas, Texas, for permission to sell such premium milk at prices requested, and has been granted a price at which to sell such premium milk under an appropriate order issued by such Regional Office.

(*iii*) No seller of fluid milk who during December, 1942, sold premium milk may add any premium to the maximum prices established pursuant to this subdivision if he increases the volume of premium milk sold in any calendar month more than 5% above the volume of such premium milk sold by him during December, 1942, unless he shall first file an application with the Regional Office of the Office of Price Administration, Dallas, Texas, for permission to increase the volume of such premium milk sales, and has been granted such permission under an appropriate order issued by such Regional Office.

Any application filed pursuant to the foregoing subdivisions (*ii*) or (*iii*) shall contain the following:

(A) If the application is made by a seller who sold premium milk during December, 1942 it shall contain a copy of the report required by the foregoing subdivision (2) (*i*);

(B) A description of the different types of premium milk sold in the area in which the applicant desires to establish maximum prices for premium milk, or in which the applicant desires to increase the volume of premium milk which he sells, as the case may be. If no premium milk is sold in the area served by the seller, the application shall so state.

(C) The maximum prices of such premium milk established pursuant to the foregoing subdivision (2) by the applicant or other sellers of premium milk in the area served by the applicant;

(D) A specific description of the kind, grade, and quality of the premium milk or milks concerning which the application is made;

(E) A full and complete statement of the reasons justifying the application for classifying such milk as premium milk, or for an increase in the volume of sale of an already established premium milk, as the case may be. It shall include a full statement showing that a denial of the application will result in substantial hardship to the applicant, and that a shortage or threatened shortage of a type of milk necessary to a standard of living consistent with the prosecution of the war will result from such denial;

(F) If the applicant was not selling premium milk during December 1942, the application shall show the total quantity of approved fluid milk, expressed in quarts, sold by him in December, 1942, together with the quantity of premium milk which the applicant proposes to sell and the premium, expressed in cents per quart, which he desires to add to the maximum price established pursuant to this subdivision. If the applicant was not in the business of selling fluid milk during December, 1942, he shall additionally show the total quantity of approved fluid milk, expressed in quarts, sold by him during the last calendar month preceding the application.

(3) *Certain sales in adjoining areas where higher maximum prices are established within Region V.* A seller who distributes 50% or more of the total volume of approved fluid milk handled by him in any area for which the listed specific maximum price for containers of one gallon or less for a particular type of sale is higher than that for another area into which he delivers less than 50% of his milk may charge the maximum prices applicable to the higher priced area; *Provided*, That the milk is approved for sale for human consumption under the sanitary, health and other local requirements of the area in which more than 50% of his total sales occur; *Provided, further*, That such seller shall within 30 days after the effective date of this Regulation file with the Regional Office of the Office of Price Administration, Region V, Dallas, Texas, a report giving the location of such sellers' plant or establishment, a statement showing that he does sell 50% or more of his approved fluid milk in such area, and a list of all cities, towns, or communities outside of such area into which he delivers such milk.

A seller who purchases approved fluid milk in containers of one gallon or less in one area for which the applicable listed maximum prices are higher than for another area in which he makes deliveries may charge purchasers of such milk the maximum resale prices applicable to the area from which he receives his supply. The seller shall file the name and address of his supplier and the names of each city, town, community in which he resells.

Any retailer purchasing such milk for resale may likewise use the maximum price established for the area where the supplier sells 50% or more of his approved fluid milk.

(4) *Maximum prices for sales in West Memphis, Arkansas, and Marion, Arkansas.* The maximum prices for the sale of approved fluid milk in West Memphis, Arkansas, and Marion, Arkansas shall be the maximum prices established by any regulation or order of the Office of Price Administration for any comparable seller of approved fluid milk in the City of Memphis, Tennessee.[1]

(5) *Sales to Army and Navy.* Unless the seller has entered into a contract prior to March, 1943[2] and commenced deliveries under such contract prior to that date, the maximum price for sales or deliveries to the Army or Navy in the Dallas Regional area shall be:

(*i*) *Where the seller is located within the Dallas Regional area.* The maximum price shall be the foregoing listed maximum price for a particular size container applicable to sales to stores in the area wherein such plant is situated, plus a premium of ½¢ per quart, or a proportionate amount for a part of a quart or, at the election of such seller, the actual transportation costs from such plant to destination not to exceed lowest common carrier rates. In the event the seller elects to add the transportation costs in lieu of the ½¢ premium he shall, within 10 days after entering into any contract with the Army or Navy, or the making of the first delivery to a camp, post, or other Army or Navy destination, where no contract is entered into, file with the Regional Office of the Office of Price Administration, Dallas, Texas, a statement showing the transportation charges which he proposes to add, together with the method of computing them, the location of the plant, and the destination of such milk.

(*ii*) *Where the plant of the seller is located outside of the Dallas Regional Area.* The maximum price shall be the maximum wholesale price for sales to stores, hotels, restaurants, and institutions established for the particular seller by an applicable regulation or order issued by the Office of Price Administration, plus ½¢ per quart, or, at the election of such seller, such wholesale price plus the actual transportation cost from the seller's plant to destination not to exceed the lowest common carrier rates. In the event the seller elects to use such wholesale price plus transportation costs, he shall, within 10 days after entering into any Army or Navy contract or making the first delivery to a particular camp, post, or other Army or Navy destination, where no contract is entered into, file with the Regional Office of the Office of Price Administration, Dallas, Texas, a statement showing such wholesale price, and the transportation charges which he proposes to add to such price, together with the method of computing them, the location of his plant, and the destination of such milk.

(*iii*) The ½¢ per quart premium provided for Army or Navy sales shall apply to any type of container in which the "approved fluid milk" is delivered.

(*iv*) The Regional Office of the Office of Price Administration, Dallas, Texas, may correct any price so determined.

(6) *Fractional cents.* On sales of one unit, wherein the price specified in this subdivision of Supplementary Regulation No. 14, contains a fractional cent, the seller may adjust the price upward to the nearest cent. On sales of more than one unit, where the unit price is expressed in a fraction of a cent, the exact price established by this subdivision shall be multiplied by the number of units. If such computations result in a fractional cent, the total shall be adjusted up or down to the nearest cent, and in such adjustment a half-cent may be adjusted upward to the nearest cent. "Home-deliveries" shall be considered multiple sales unless separate collections are made for single units delivered.

[1] *Sales in Memphis, Tennessee*—Maximum prices for sales in the City of Memphis, Tennessee are not provided for in this subdivision of Supplementary Regulation No. 14.

[2] *Sales and deliveries to Army or Navy under contract entered into prior to March, 1943*—Maximum prices for deliveries under such contracts are not affected by this subdivision.

(*b*) *Definitions.* (1) "Approved fluid milk" means fluid cow's milk, whether raw or pasteurized, meeting the minimum butter fat content, sanitary and health requirements for fluid milk for human consumption in the particular area wherein it is delivered, including standards set by the Army or Navy purchasing officer making purchases for the Armed Forces of the United States.

(2) "Premium milk" means any of the following: Certified milk, Homogenized milk whose Vitamin D content has been artificially increased, any other approved fluid milk for which the particular seller customarily charged a premium during December 1942 in excess of such seller's established maximum price for his standard approved fluid milk, or any other such milk as may be classified as premium milk by any order issued by the Dallas Regional Office of the Office of Price Administration.

(3) "Sales to the Army or Navy" shall include deliveries in the Dallas Regional area to the Armed Forces of the United States, including deliveries to Post Exchanges, Officers' Messes and Ship-stores.

(4) "Dallas Regional Area" means the territory lying within the geographical boundaries of the following states: Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas.

(5) "City, town, county, parish and township" means all of and only the territory lying within the geographical boundaries of a named city, town, county, parish or township, as the case may be. "City, Town" shall include incorporated and unincorporated cities, towns, and villages.

(6) "Area," unless the context manifestly otherwise requires, means the territory lying within the geographical boundaries of any city, town, or other community listed in the appendix.

(*c*) *Exemptions.* The maximum prices set by this subdivision do not apply to buttermilk and chocolate or other flavored milk. The listed maximum prices are applicable only to fluid sweet milk.

(*d*) *Adjustment of maximum prices.* The Regional Office of Region V of the Office of Price Administration, Dallas, Texas, may, upon application of any seller or on its own motion, adjust any maximum price established under this subdivision of Supplementary Regulation No. 14 where it appears:

(1) That a shortage in the supply of approved fluid milk in a particular locality exists or threatens to exist;

(2) That such a local shortage will be substantially reduced or eliminated by adjusting the maximum price of such seller and of like sellers; and

(3) That such adjustment will not create or tend to create a shortage or a need for increase in prices in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Such application shall be filed in accordance with Revised Procedural Regulation No. 1,[4] issued by the Office of Price Administration.

PART 1306—IRON AND STEEL

[RPS 43,[1] as Amended, Amendment 2]

USED STEEL DRUMS, PAILS AND CONTAINERS

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

The heading of this revised price schedule is amended to read as set forth above; §§ 1306.202, 1306.203, 1306.204 (a), 1306.206 (a), 1306.207, 1306.208, 1306.209 (a) (3) and (6) and 1306.212 (a) (1) and (b) are amended, a new paragraph (c) is added to § 1306.201, a new subparagraph (10) is added to § 1306.209 (a) and a new § 1306.213 is added, as set forth below:

§ 1306.201 *Maximum prices for used steel drums, used steel pails and used steel containers.* • • •

(c) On and after March 18, 1943, no person shall sell and deliver used steel containers, and no person shall, in the course of trade or business, buy or receive used steel containers at prices higher than the maximum prices set forth in Appendix C, incorporated herein as § 1306.213.

§ 1306.202 *Less than maximum prices.* Lower prices than those set forth in § 1306.211, Appendix A, § 1306.212, Appendix B, and § 1306.213, Appendix C, may be charged, demanded, paid or offered.

§ 1306.203 *Evasion.* The price limitations set forth in Revised Price Schedule No. 43, as amended, shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to a used steel drum, a used steel pail or a used steel container, alone or in conjunction with any other commodity or by way of any commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1306.204 *Records and reports.* (a) Every person making purchases or sales of used steel drums and/or used steel pails after June 10, 1942, or of used steel containers after March 17, 1943, shall keep for inspection by the Office of Price Administration for a period of not less than two years, complete and accurate records of (1) each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the quantity of each kind or grade purchased or sold, and (2) the quantity of used steel drums, used steel pails and/or used steel containers (i) on hand, and (ii) on order, as of the close of each calendar month.

• • • • •

§ 1306.206 *Petitions for amendment or exception.* (a) Persons seeking any modification of this schedule may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[3] issued by the Office of Price Administration.

• • • • •

§ 1306.207 *Sales for export.* The maximum price at which a person may export used steel drums, used steel pails or used steel containers shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[4] issued by the Office of Price Administration.

§ 1306.208 *Licensing.* The provisions of Supplementary Order No. 17[5], licensing of iron and steel products, are applicable to every person selling used steel drums, used steel pails or used steel containers for which maximum prices are established by this schedule. Said order provides in substance that a license is required for every person selling used steel drums, used steel pails or used steel containers for which maximum prices are established by this schedule, that every person subject to this schedule is granted a license as a condition of selling used steel drums, used steel pails or used steel containers hereunder, and that every such person may, in the future, be required to register with the Office of Price Administration at such time and in such manner as the Administrator may prescribe. Licensees violating any of the provisions of this schedule or of said license are subject to the license suspension proceedings provided in the Emergency Price Control Act of 1942, as amended.

§ 1306.209 *Definitions.* (a) When used in Revised Price Schedule No. 43, as amended, the term:

• • • • •

(3) "Drum" means a barrel or drum of heavier than 22 U. S. Standard gauge steel of a capacity of 14 to 16 gallons, inclusive, or 29 to 33 gallons, inclusive, or 50 to 58 gallons, inclusive.

• • • • •

(6) "Pail" means an open headed steel bucket or container of any gauge, of a capacity of 2, 3, 5 or 5½ gallons.

• • • • •

(10) "Used container" means a container, other than a drum or pail, made of 22 U. S. Standard gauge steel or lighter, of any capacity; *Provided*, That such container is suitable for reuse with or without reconditioning and is sold to a filler.

• • • • •

§ 1306.212 *Appendix B: Maximum prices for used steel pails and accessories*—(a) (1) *Maximum prices for reconditioned pails.* The maximum prices for reconditioned pails subject to the deductions required, as stated in paragraph (a) (2) of this section, delivered to the purchaser, shall be as follows:

5½ gallons	$0.57
5 gallons	.45
3 gallons	.36
2 gallons	.31

• • • • •

(b) *Maximum prices for raw used pails and covers.* The maximum prices for raw used pails and covers, f. o. b. the place where the pail and cover are sold, shall be as follows:

Pails and covers	Capacities			
	2 gallon	3 gallon	5 gallon	5½ gallon
Pail with cover	$0.10	$0.15	$0.20	$0.25
Pail without cover	.05	.07	.10	.12
Cover alone	.03	.04	.05	.06

§ 1306.213 *Appendix C: Maximum prices for used containers purchased direct from the person who empties the containers.* The maximum prices for used containers, purchased direct from the person who empties the containers, f. o. b. the place where the container is emptied, shall be $0.15 for used containers of 20 gallon capacity or less and $0.25 for used containers of greater than 20 gallon capacity.

This amendment shall become effective March 18, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 13th day of March 1943.

PART 1309—COPPER

[RPS 12,[1] Amendment 5]

BRASS MILL SCRAP

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The heading and paragraph (b) of § 1309.18 are amended to read as set forth below:

§ 1309.18 *Definitions.* When used in Revised Price Schedule No. 12, the term:

• • • • •

(b) "Brass mill scrap" includes all kinds and grades of nonferrous scrap materials which are a waste or by-product of any kind of fabrication of new sheet, tube, rod or other brass mill products. It also includes any unused sheet, tube, rod or other brass mill products sold to a brass mill for remelting whether such brass mill products are in the form originally sold by the brass mill or have been further fabricated, processed, altered or assembled. However, it does not include any material which meets the foregoing provisions of this definition but is unsuitable for brass mill use.

• • • • •

This amendment shall become effective this 22d day of March 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 13th day of March 1943.

PART 1309—COPPER

[MPR 20]

COPPER SCRAP AND COPPER ALLOY SCRAP

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The title, preamble and §§ 1309.61 to 1309.73, inclusive of Revised Price Schedule No. 20, as amended,[1] are renumbered and amended to read as set forth below:

In the judgment of the Price Administrator the prices of copper scrap and copper alloy scrap have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942, as amended. The Price Administrator has ascertained and given due consideration to the prices of copper scrap and copper alloy scrap prevailing between October 1 and October 15, 1941 and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Act.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order 9250, and in accordance with Revised Procedural Regulation No. 1,[2] issued by the Office of Price Administration, Maximum Price Regulation No. 20 is hereby issued:

AUTHORITY: §§ 1309.61 to 1309.72, inclusive, issued under Pub. Laws 421 and 729, 77th Congress, and E.O. 9250, 7 F.R. 7871.

§ 1309.61 *Prohibitions against sales or deliveries at prices higher than the maximum prices.* On and after March 22, 1943, regardless of any contract, agreement or other obligation, no person shall sell or deliver copper scrap or copper alloy scrap to a consumer, and no consumer shall buy or receive copper scrap or copper alloy scrap, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1309.70; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That contracts entered into prior to March 22, 1943, un-

*Copies may be obtained from the Office of Price Administration.

[2] 7 F.R. 8961.

der the terms of, and at prices in conformance with, Revised Price Schedule No. 20, as amended, may be carried out at the contract prices until April 12, 1943.

§ 1309.62 *Less than maximum prices.* Lower prices than the maximum prices established by this regulation may be charged, demanded, paid or offered.

§ 1309.63 *Adjustable pricing.* It is permitted under this regulation to provide in a contract that the price shall be adjustable to a price not higher than the maximum price in effect at the time of delivery.

§ 1309.64 *Prohibited practices*—(a) *General.* Any practice or device which is an attempt to get the effect of a price higher than the maximum without actually charging a higher price is prohibited and is as much a violation of this regulation as an outright excessive price. This applies to devices involving commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) No consumer shall pay and no person shall accept payment from any consumer for a greater amount of copper scrap or copper alloy scrap, or both, than is actually received by a consumer at his plant.

(2) No person shall invoice to any consumer any copper scrap or copper alloy scrap, or both, as being entitled to any one or more of the special preparation premiums provided for in § 1309.70 (d) when such scrap is not, upon receipt by the consumer, in fact eligible, under the provisions of this regulation, for settlement at such premium price, nor shall any person demand, claim or request in any fashion whatsoever that any consumer pay a special preparation premium for any such scrap unless such scrap is, upon receipt by the consumer, in fact eligible under the provisions of this regulation for settlement at such premium price.

(3) No consumer may store, hold or otherwise deal in copper scrap or copper alloy scrap, or both, either at his plant or elsewhere, for the account of any person other than himself; however, this provision shall not prohibit any consumer from purchasing such scrap at prices not in excess of the maximum prices established by this regulation and reselling such scrap as a dealer.

(4) No person shall offer, solicit or agree to sell any copper scrap or copper alloy scrap, or both, to any consumer conditioned on the buyer's willingness to accept any other materials which are not subject to price control.

§ 1309.65. *Records.* Every person who makes or has made sales of copper scrap or copper alloy scrap to a consumer, and every consumer who makes or has made purchases of copper scrap or copper alloy scrap, on or after February 27, 1942, shall keep for inspection by the Office of Price Administration, for as long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such purchase or sale, showing (a) the date thereof, (b) the name and address of the buyer or seller, (c) the quantity in pounds of each grade purchased or sold, (d) the quantity and description of each rejection, (e) the price paid or received f. o. b. point of shipment, (f) the method of delivery and delivery charges paid or received and (g) the dates of settlement and method of payment.

§ 1309.66. *Reports.* (a) On or before the tenth day of April, 1943, and on or before the tenth day of each month thereafter, each consumer shall submit to the Office of Price Administration Revised Form 120: 7a, set forth in Appendix B hereof and incorporated herein as § 1309.71 filled out as required by the instructions which accompany such forms, and which are set forth in § 1309.71.

(b) On or before the tenth day of April, 1943, and on or before the tenth day of each month thereafter, each consumer shall submit to the Office of Price Administration a report on Revised Form 120:7b, set forth in Appendix C hereof and incorporated herein as § 1309.72, covering each receipt of any grade of copper scrap or copper alloy scrap for which the consumer made settlement during the preceding calendar month. However, receipts which meet the following two conditions need not be reported on Revised Form 120:7b, or in any other manner:

(1) An individual receipt settled for with any one person is for $200 or less, and

(2) The total value of all settlements for copper scrap and copper alloy scrap with the same person does not exceed $1,000 during the month.

(c) Persons affected by this regulation shall submit such additional reports to the Office of Price Administration as it may from time to time require.

(d) The provisions of § 1309.70 (e) (2) (iv) requiring certain shipping information to be furnished to consumers, the provisions of § 1309.70 (g) (4) requiring brass and bronze ingot manufactures to furnish certain information in applications for adjustment to obtain permission to pay special preparation premiums for copper scrap in briquettes or in crucible shape, the provisions of § 1309.65 requiring certain records to be kept, the provisions of § 1309.66 requiring certain reports to be filed, the provisions of §§ 1309.71 and 1309.72 prescribing the form of such reports and setting out the instructions which shall be observed in filling out the reports, all have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§1309.67 *Enforcement.* (a) Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this regulation or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, State or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(c) The provisions of Supplementary Order No. 5—Licensing,[3] are applicable to every dealer subject to this regulation. As used in this paragraph (c), "dealer" shall have the meaning given to it by Supplementary Order No. 5.

§ 1309.68 *Petitions for Amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

§ 1309.69 *Definition.* (a) When used in this regulation, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of the foregoing.

(2) "Consumer" includes any person whose business consists, in whole or in part, of smelting, refining, melting, or otherwise processing copper scrap or copper alloy scrap into a form other than scrap or of having such scrap so processed for his account by another person under a toll or conversion agreement. Any parent or subsidiary of a consumer and any person owned, operated, affiliated with, under common control with, or otherwise controlled by, a consumer, and any person owned, operated, or otherwise controlled by an officer, director, partner, or proprietor of a consumer, shall also be considered to be a consumer for the purposes of this regulation.

(3) "Scrap" includes all materials which are the waste or by-product of any kind of metal working and also all articles which have been discarded from their original use because of obsolescence, failure, or other reasons. It does not include copper bearing material, nor does it include articles which are still useful in their existing state for their original purpose when purchased for reuse in such state for such purpose.

(4) "Copper bearing material" includes ashes, skimmings, buffings, grindings, spatters, washings, mud and all other similar residues which contain copper. It also includes irony brass and any similar material which does not meet the specifications for any grade of copper scrap or copper alloy scrap.

(5) "Copper scrap" refers to the grades of scrap preceded by "Group Number 1" in § 1309.70 (b) (2).

(6) "Copper alloy scrap" refers to the grades of scrap preceded by "Group Numbers 2, 3, 4, and 5" in § 1309.70 (b) (2).

[3] 7 F.R. 3403, 6077, 9723; 8 F.R. 605.

(7) "Point of shipment" means the point at which copper scrap or copper alloy scrap is loaded on a conveyance for transportation directly to the consumer's receiving point. This is usually the seller's plant, warehouse or yard; but if the scrap is shipped directly to the consumer's receiving point from some point other than the seller's plant, warehouse or yard, such other point is the point of shipment. In the case of scrap shipped by water from outside the limits of the continental United States, the point of shipment means the place within the limits of the continental United States where the material is loaded on a conveyance for transportation directly to the consumer's receiving point. In the case of scrap brought into the continental United States by overland shipment from Mexico or Canada, the point of shipment means the freight station in the continental United States at or nearest the point on the boundary between the United States and Mexico or Canada, as the case may be, at which the scrap first entered the United States.

(8) "Received at the consumer's receiving point" means that the copper scrap or copper alloy scrap has arrived at the consumer's plant and is ready for unloading.

(9) "Shipment at one time" includes all copper scrap or copper alloy scrap, or both, which, under a single contract of purchase or other agreement, and within any three consecutive calendar days excluding Saturdays, Sundays and legal holidays, is (i) received at one or more points of shipment by the public carrier transporting such scrap to the consumer's receiving point, or (ii) loaded on the consumer's conveyance at one or more points of shipment, or (iii) received at the consumer's receiving point from one or more points of shipment when delivery is made by other than a public carrier or the consumer's conveyance.

(10) "Lot" means all of the copper scrap or copper alloy scrap, or both, included in a shipment at one time: *Provided*, That where a seller has physically segregated a portion or portions of a shipment, and has indicated the grade of each segregated portion, a lot means each such segregated portion. However, all the containers or bales indicated as containing the same principal grade shall be deemed to compose one lot. Also all briquettes sold or invoiced as one grade shall be deemed to compose one lot.

(11) "Principal grade" means that grade of copper scrap or copper alloy scrap which the seller has indicated as being contained in a lot. If the seller has not indicated what grade is contained in a lot, principal grade means that grade having a weight greater than any other grade.

(12) "Rejection" means all material in a lot (except a lot composed exclusively of borings or a lot settled for as refinery brass) other than the principal grade. However,

(i) Any material having the same group number as and a higher maximum price than the principal grade, unless settled for at a higher price than the maximum price for the principal grade, and

(ii) The insulation or lead covering on any insulated or lead-covered copper wire or cable settled for as the principal grade, and

(iii) The excess iron on any red brass breakage or automobile radiators settled for as the principal grade, and

(iv) The moisture, oil, grease, dirt, pulp and other nonmetallics adhering to the principal grade of scrap in any lot for which this regulation requires the maximum price to be reduced, need not be considered a rejection.

(13) "Group" means those grades of copper scrap or copper alloy scrap which are preceded by the same group number in § 1309.70 (b) (2). However, if a lot contains less than 10% rejections, all of the copper scrap and copper alloy scrap in such lot may be considered to be of the same group as the principal grade.

(14) "Representative sample of borings" means the sample obtained by the following method:

(i) All the containers composing one lot of borings are to be emptied.

(ii) The material shall then be shoveled through and every tenth shovel full shall be set aside.

(iii) The material so set aside shall then be thoroughly mixed and a quantity convenient for melting shall be taken out. This quantity of material is the representative sample.

(15) "Button" means the metal obtained, exclusive of slag, by melting down with a proper and sufficient flux a representative sample of scrap from which the free iron, oil and moisture have first been removed.

(16) "Button analysis" means the percentages showing the proportion of each element contained in the button.

(17) "Metallic yield" shall be determined as follows:

(i) The representative sample shall be weighed.

(ii) A button shall be made.

(iii) The button plus the free metal contained in the slag which results from making the button shall be weighed.

(iv) This weight shall then be divided by the weight of the representative sample; the result, expressed as a percentage, is the metallic yield.

(18) "Wet or natural analysis" means the button analysis multiplied by the metallic yield.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used in this regulation.

§ 1309.70 *Appendix A: Maximum prices*—(a) *Introductory.* This regulation applies to all copper scrap and copper alloy scrap, except

(1) Cupro-nickel scrap, other than copper nickel bronze solids and borings, maximum prices for which are established by Revised Price Schedule No. 8,[4] and

(2) Brass mill scrap, maximum prices for which are established by Revised Price Schedule No. 12.[5] However, material which except for the fact that it is unsuitable for brass mill use would meet the definition of brass mill scrap shall be deemed to be copper scrap and copper alloy scrap.

(b) *Maximum base prices f. o. b. point of shipment.* (1) No consumer may pay, in addition to the maximum prices established by this regulation, a commission, fee, brokerage or similar charge to the seller or to a third person, other than his own employee who is not also employed by any other consumer. However, a consumer may pay a deposit charge of not more than $1.00 for each steel drum in which copper scrap or copper alloy scrap is packed if delivery is made by other than a public (common or contract) carrier. No such deposit charge may be paid if the material is packed in other than a steel container or if delivery is made by a public (common or contract) carrier.

(2) The following are maximum base prices, f. o. b. freight cars, trucks or other means of transportation at the point of shipment. Any copper scrap or copper alloy scrap sold "where is" shall be sold at a price less than the applicable maximum price by an amount reflecting the cost of loading the material for shipment to the consumer. These prices may be paid only for that quantity of copper scrap and copper alloy scrap which actually arrives at the consumer's receiving point. Effect shall be given to the provisions of paragraph (b) (4) of this section before the maximum price shall be known as the maximum base price.

TABLE OF PRICES

Group No.	Grade	Maximum price in cents per pound of material	Specifications
1	No. 1 Copper Wire and No. 1 Heavy Copper.	9.75 A deduction of 0.15 cents per pound shall be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length.	Shall consist of unalloyed clean, uncoated copper wire, cable and pieces, which have a copper content of not less than 98.5%, and shall be free of wire and cable smaller than 16 B.& S. wire gauge, auto wrecked cable, lead wire and cable which is leaded, lead brazed, soldered, tinned, plated, and painted material.
1	No. 1 Tinned Copper Wire and No. 1 Tinned Heavy Copper.	9.75 A deduction of 0.15 cents per pound shall be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length.	Shall consist of clean, bright, tinned and tin-alloyed copper wire, cable and pieces, shall have a copper content of not less than 98.5%, and shall be free of [illegible] and cable which is smaller than 16 B & S wire gauge.

TABLE OF PRICES—Continued

Group No.	Grade	Maximum price in cents per pound of material	Specifications
1	No. 2 Copper Wire and Mixed Heavy Copper.	8.75 A deduction of 0.15 cents per pound shall be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length. If by an analysis, other than inspection, the copper content is found to exceed 96%, an addition of 0.11775 cents shall be made for each 1% of such additional copper content with proportionate adjustments for fractional variations of 1%.	Shall consist of copper wire and pieces, shall have a copper content of not less than 95%, and shall be free of silicon bronze and copper-nickel alloys.
1	Copper Tuyeres	8.75 Subject to a deduction of .0875 cents for each 1% or fraction thereof of adhering iron in excess of 5%.	Shall consist of Copper Tuyeres, including Bosh plates.
1	Light Copper	7.75 If by an analysis, other than by inspection, the copper content is found to exceed 96%, an addition of 0.11775 cents shall be made for each 1% of such additional copper content with proportionate adjustments for fractional variations of 1%.	Shall consist of miscellaneous copper, shall have a copper content of not less than 90%, and shall be free of radiators, bronze and brass screens, readily removable iron, lead-coated copper, and electrotype shells.
1	Copper Borings	9.75 Subject to the deduction provided for in footnote 1.	Shall consist exclusively of unalloyed copper borings and turnings, which in a button analysis shall have a copper content of not less than 98.5%, and shall be free of all other materials and contamination other than free iron, oil, moisture, and non-metallics.
1	Lead-covered Copper Wire and Cable.	(*) *The maximum price shall be calculated as follows: (A) Multiply the weight of the Lead-covered Copper Wire and Cable, less the weight of the lead covering and any insulation, by the above maximum price for the applicable grade of copper wire; (B) divide the resulting product by the weight of the Lead-covered Copper Wire and Cable, and (C) deduct from the resulting quotient 0.15 cents. This result is the maximum price. In addition to this maximum price, payment may be made for the lead covering at the maximum price established by Maximum Price Regulation No. 70.** The maximum price for a lot of Lead-covered Copper Wire and Cable may be determined by applying the foregoing computation to a representative sample.	Shall consist of tinned and untinned copper wire and cable covered with a sheathing of lead, may contain rubber, fabric and paper insulation, but shall be free of steel-armored and other metallically-armored material.
1	Insulated Copper	(*) *The maximum price shall be calculated as follows: (a) Multiply the weight of the Insulated Copper, less the weight of the insulation, by the above maximum price for the applicable grade of copper. (b) Divide the resulting product by the weight of the Insulated Copper; and (c) Deduct from the resulting quotient 0.15 cents. This result is the maximum price. The maximum price for a lot of Insulated Copper may be determined by applying the foregoing computation to a representative sample.	Shall consist of tinned and untinned copper wire, cable and pieces covered with rubber, paint, enamel, fabric, and other insulation but shall be free of steel-armored and other metallically-armored material, asbestos covering, and porcelain.

**8 F. R. 611.

[1] Whenever a reference in the foregoing table is made to "Footnote 1," the maximum price shall be reduced by 1% for each 1% of the following, singly or combined: Moisture, oil, grease, free iron, dirt, pulp, and other free non-metallics. Proportionate adjustment shall be made for fractional variations of 1%.

TABLE OF PRICES—Continued

Group No.	Grade	Maximum price in cents per pound of material	Specifications
2	Bell Metal	15.50 Subject to the deduction provided for in footnote 2.	Shall have a copper content of not less than 86%, a tin content of not less than 10%, and a lead content of not more than 1%.
2	High Grade Bronze Gears.	13.25 Subject to the deduction provided for in footnote 2.	Shall have a copper content of not less than 87%, a tin content of not less than 9%, and a lead content of not more than 1%.
2	High Grade Bronze Solids.	(*) *The maximum price shall be calculated by the application of section 1369.70 (b) (3) to an analysis, other than by inspection, of the material. As an alternative to payment on the analysis basis, the consumer, if he receives less than 5,000 pounds in a shipment at one time, may determine by inspection that the material meets the specification, but in such case the maximum price shall be 10.75 cents. In either event the maximum price shall be subject to the deduction provided for in footnote 2.	Shall have a copper content of not less than 83%, a tin content of not less than 5.5%, a lead content of not more than 3%, and total other impurities, exclusive of zinc and nickel, of not more than 0.75%, and shall be free of Bell Metal, High Grade Bronze Gears, and Rod Trolley Wheels.
2	High Grade—Low Lead Bronze Borings.	(*) *The maximum price shall be calculated by the application of section 1369.70 (b) (3) to a wet or natural analysis, after a button analysis has determined the proper classification, of the material. As an alternative to payment on the analysis basis, the consumer, if he receives less than 2,000 pounds in a shipment at one time, may determine by inspection that the material meets the specification, but in such case the maximum price shall be 10.00 cents, subject to the deduction provided for in footnote 1.	Shall consist of borings and turnings which in a button analysis shall have a copper content of not less than 70%, a tin content of not less than 2.75%, and a lead content of not more than 3%, but in all cases the tin content must be higher than the lead content. The combined silicon, aluminum, manganese, and alloyed iron shall not exceed 1.25%, and no one of them shall exceed 0.50%.
2	Babbitt Lined Brass Bushings.	13.00 Subject to the deduction provided for in footnote 2.	Shall consist of bushings and bearings from automobiles and other machinery, shall contain not less than 15% genuine babbitt, and shall be free of iron-backed bearings.
2	High Lead Bronze Solids.	(*) *The maximum price shall be calculated by the application of the following method to an analysis, other than by inspection, of the material: If zinc content is:— 0.00% to 1.25%—Copper content × 9.25¢ + tin content × 33.00¢. 1.26% to 4.00%—Copper content × 9.00¢ + tin content × 32.00¢. 4.01% or more—Copper content × 8.50¢ + tin content × 30.00¢. However, 0.01 cent per pound of material shall be added or deducted for every 0.01% of antimony below .25% or above .75%. As an alternative to payment on the analysis basis, the consumer, if he receives less than 40,000 pounds in a shipment at one time, may determine by inspection that the material meets the specification, but in such case the maximum price shall be 9.50 cents. In either event the maximum price shall be subject to the deduction provided for in footnote 2.	Shall have a copper content of not less than 70%, a tin content of not less than 5.5%, a lead content of not less than 6%, and total impurities, exclusive of zinc, antimony and nickel, of not more than 0.75%, and shall be free of Lined and Unlined Standard Red Car Boxes.

[2] Whenever a reference in the foregoing table is made to "Footnote 2," the maximum price shall be reduced by 1% for each 1% of the following, singly or combined: Adhering moisture, oil, grease, dirt, pulp, and other non-metallics. Proportionate adjustments shall be made for fractional variations of 1%.

TABLE OF PRICES—Continued

Group No.	Grade	Maximum price in cents per pound of material	Specifications
1	High Lead Bronze Borings	(*) *The maximum price shall be calculated by the application of the same method as that used for determining the maximum price of High Lead Bronze Solids to a wet or natural analysis, after a button analysis has determined the proper classification and the zinc content, of the material. As an alternative to payment on the analysis basis, the consumer, if he receives less than 5,000 pounds in a shipment at one time, may determine by inspection that the material meets the specification, but in such case the maximum price shall be 9.25 cents, subject to the deduction provided for in footnote 1.	Shall consist of borings and turnings which in a button analysis shall have a copper content of not less than 70%, a tin content of not less than 5.5%, a lead content of not less than 6%, and total impurities, exclusive of zinc, antimony and nickel, of not more than 0.75%.
2	Red Trolley Wheels.	10.75 Subject to the deduction provided for in footnote 2.	Shall consist of red trolley wheels, free of bushings.
	Tinny Bronze (Phosphor Bronze) Borings.	10.50 Subject to the deduction provided for in footnote 1.	Shall consist of borings and turnings which in a button analysis shall have a copper content of not less than 88%, a tin content of not less than 3% and not more than 5.5%, a lead content of not more than 1% and a combined silicon, manganese and aluminum content of not more than 0.1%.
2	Copper-Nickel Solids and Borings.	9.25 Subject to the deductions provided for in footnotes 1 and 2.	Shall consist of solids, borings, and turnings which shall have a copper content of not less than 95%, balance nickel.
2	Bronze Paper Mill Wire Cloth.	9.50 Subject to the deduction provided for in footnote 2.	Shall consist of genuine Fourdrinier wire cloth and screen, shall have a copper content of not less than 82%, a tin content of not less than 3%, and a lead content of not more than 1%.
2	Aluminum Bronze Solids.	9.00 Subject to the deduction provided for in footnote 2.	Shall consist of aluminum bronze castings and other solids, including Ford gears, shall have a copper content of not less than 80%, an aluminum content of not less than 7%, and a combined zinc, tin, lead, and silicon content of not more than 0.50%.
2	Soft Red Brass (No. 1 Composition).	9.00 Subject to the deduction provided for in footnote 2.	Shall consist of miscellaneous red brass castings, shall have a copper content of not less than 81%, a tin content of not less than 3.5%, and a lead content of not less than 3%, and shall be free of silicon bronze, manganese bronze and aluminum bronze, burnt brass, Cocks and Faucets, and Lined and Unlined Standard Red Car Boxes.
2	Soft Red Brass Borings (No. 1 Composition Borings).	9.00 An addition or a deduction of 0.1 cent per pound shall be made for each 1% that the copper content, as determined in the button analysis, is above 84.00% or below 82.00% respectively, and an addition or a deduction of 0.4 cent per pound shall also be made for each 1% that the tin content, as determined in the button analysis, is above 5.50% or below 4.50% respectively, with proportionate adjustments for fractional variations of 1%. The price as thus adjusted shall be subject to the deduction provided for in footnote 1. As an alternative to payment on the analysis basis, the consumer, if he receives less than 5,000 pounds in a shipment at one time, may determine by inspection that the material meets the specification, but in such case the price shall be 8.50 cents, subject to the deduction provided for in footnote 1.	Shall consist of turnings and borings which in a button analysis shall have a copper content of not less than 70%, a tin content of not less than 3%, a lead content of not less than 3% and not more than 10%, but shall not include any turnings and borings which meet the specification for High Lead Bronze Borings. The combined silicon, aluminum, manganese and alloyed iron shall be not more than 1.25%, and no one of them shall exceed 0.5%.

2	Contaminated Gilding Metal Turnings	8.50 Subject to the deduction provided for in footnote 1.	Shall consist of turnings and borings which in a button analysis shall have a copper content of not less than 88%, balance zinc.
2	Unlined Standard Red Car Boxes	8.25 Subject to the deduction provided for in footnote 2.	Shall consist of unlined railroad boxes and unlined car journal bearings, free of yellow boxes and iron-backed boxes.
2	Lined Standard Red Car Boxes.	7.75 Subject to the deduction provided for in footnote 2.	Shall consist of lined railroad boxes and lined car journal bearings, free of yellow boxes and iron-backed boxes.
2	Cocks and Faucets	7.75 Subject to the deduction provided for in footnote 2.	Shall consist of clean mixed red and yellow cocks and faucets, shall contain a minimum of 35% red cocks and faucets, and shall be free of gas cocks and die cast cocks and faucets.
2	Mixed Brass Screens	7.75 Subject to the deduction provided for in footnote 2.	Shall consist of all copper and brass screens other than Bronze Paper Mill Wirecloth, and shall have a copper content of not less than 75%
2	Red Brass Breakage (Irony Composition).	7.50 Subject to the deduction provided for in footnote 2. A further deduction of 0.075 cents shall be made for each 1% or fraction thereof of adhering iron in excess of 10%.	Shall consist of irony red brass castings, including carburetors.
2	Old Nickel Silver Solids	6.25 Subject to the deduction provided for in footnote 2.	Shall consist of nickel silver castings and other solids, shall have a copper content of not less than 55% and a nickel content of not less than 8%, and shall be free of yellow brass and cupro-nickel scrap which contains no zinc.
2	Old Nickel Silver Borings.	6.25 Subject to the deduction provided for in footnote 1.	Shall consist of nickel silver borings and turnings which shall have a copper content of not less than 55% and a nickel content of not less than 8%.
2	Copper-Lead Solids	6.25 Subject to the deduction provided for in footnote 2.	Shall have a copper content of not less than 65%, balance lead, tin and antimony, except that impurities shall not exceed 1%.
2	Copper-Lead Borings.	6.25 Subject to the deduction provided for in footnote 1.	Shall consist of borings and turnings which in a button analysis shall have a copper content of not less than 65%, balance lead, tin and antimony, except that impurities shall not exceed 1%.
3	Zincy Bronze Borings	8.00 Subject to the deduction provided for in footnote 1.	Shall consist of borings and turnings which in a button analysis shall have a copper content of not less than 78%, a tin content of not more than 2.75%, a lead content of not more than 0.5%, and a combined silicon, aluminum and manganese content of not more than 0.75%.
3	Fired Rifle Shells	8.25 Subject to the deduction provided for in footnote 2.	Shall consist of fired rifle shells, free of gun powder and bullets.
3	Brass Pipe	8.00 Subject to the deduction provided for in footnote 2.	Shall consist of brass pipe and tubing, free of soldered, tinned, plated, corroded, and aluminum-painted material, Muntz metal, Admiralty tubing, and material with cast brass connections.
3	Old Rolled Brass	7.75 Subject to the deduction provided for in footnote 2.	Shall consist of old sheet brass, free of soldered, tinned, plated, corroded, and aluminum-painted material, and Muntz metal.
3	Admiralty Condenser Tubes.	8.00 Subject to the deduction provided for in footnote 2.	Shall consist of Admiralty condenser tubing which may be plated or unplated, free of nickel silver, aluminum-alloyed and corroded material.

NOTE.—Long dash (—) in the column headed "Base" indicates that the button analysis shall not be used for the purpose of determining the base price for the copper content of the material. When the figure in the column headed "Base" is followed by a plus (+) sign, the base price for the copper content of the material shall be determined by the copper content of the button analysis and the price factor for copper as set forth in the column headed "Copper". When the figure in the column headed "Base" is followed by a minus (−) sign, the base price for the copper content of the material shall be determined by the copper content of the button analysis and the price factor for copper as set forth in the column headed "Copper".

(a) In column I find the base price for the copper content of the button analysis.

(b) From columns II, III, IV, V, VI, VII, VIII, IX, and X find the column giving the tin content shown in the button analysis. Add the price factor for copper and for tin in the column found in (b), or the base found in (a), and multiply the total price for the percentage of copper shown in the wet or natural analysis and the price factor for tin by the percentage of tin shown in the wet or natural analysis.

(c) Add the resulting products. This sum is the maximum price in cents per pound of material for the purposes of § 1309.70 (b) (2).

(4) *Rejections.* (i) The consumer shall examine and sort the scrap contained in each lot in order to determine the rejections contained therein, except when the lot consists exclusively of borings or when it is settled for as refinery brass. The maximum base price for each grade of copper scrap and copper alloy scrap contained in such lot shall then be determined as follows:

(a) If the lot contains less than 10% rejections by weight, the maximum base price for each grade shall be the maximum price established by § 1309.70 (b) (2).

(b) If the lot contains 10% or more rejections by weight, the maximum base price for each grade shall be the higher of the following:

(1) The maximum price established by § 1309.70 (b) (2) for the lowest-priced grade contained in such lot: Except, that if the maximum price for each of the grades contained in such lot is the same, a deduction of 0.25¢ per pound of material must be made, or

(2) The maximum price for each grade established by § 1309.70 (b) (2), reduced by 0.25¢ per pound of material.

TABLE OF PARTS—(Continued)

Grade	Maximum price in cents per pound of material	Specifications
1 Manila Yellow Rod and Tube	7.50	Subject to the deduction provided for in footnote 2	Shall consist of Manila or old rod, tube or clippings having a base of approximately 70% copper, the balance of which shall be principally zinc, free of tinning, silver, aluminum-alloyed and corroded material.
3 Plated Brass Shell Cases and Bullet Jackets	7.50	Subject to the deduction provided for in footnote 2	Shall consist of plated brass shell cases, bullet jackets, and similar plated, stamped, and drawn articles, free of tinning, silver, aluminum-alloyed, corroded, and other foreign material. Must have metal and Admiralty cuttings, and material with rust stains contained therein.
3 Magnesium Bronze Castings	7.25 if the lead content is 0.50% or less; 6.25 if the lead content is over 0.50% but not more than 1.00%	Subject to the deduction provided for in footnote 2	Shall have a percentage of not less than 90% nor more than 92%, a lead content of not more than 1%, and shall be free of brass, forgings, sheet brazed, aluminum bronze and manganese bronze.
3 Manganese Bronze Borings	6.50	Subject to the deduction provided for in footnote 2	Shall consist of borings, turnings and short pieces of rods and sheets from manganese bronze castings.
4 Automobile Radiators	7.00	Subject to the deduction provided for in footnote 2	Shall consist of mixed unsweated automobile radiators.
3 Yellow Brass Cast Borings	6.25	Subject to the deduction provided for in footnote 2	All lots of such material must be chemically analyzed.
5 Refinery Brass	8.00	Multiplied by the dry copper content	Shall consist of all scrap which has a dry copper content of 64% or more but which is not suitable for direct use by the consumer without further preparation. Specifications for refinery brass is settled for as follows:

Subject to the deduction provided for in footnote 2

If the dry copper content is 70% or more but less than 75%, the price shall be reduced by 0.25¢ per pound of material.

If the dry copper content is 65% or more but less than 70%, the price shall be reduced by 0.50¢ per pound of material.

If the dry copper content is 64% or more but less than 65%, the price shall be reduced by 0.75¢ per pound of material.

Not to include turnings, drillings, millings, or borings. Not to contain more than 0.50% iron, 0.50% aluminum, 0.50% nickel, 0.50% antimony, 0.50% phosphorus, 0.50% zinc, 0.50% tin, 0.50% lead, 0.50% manganese, 0.50% silicon, 0.50% arsenic, 0.50% sulphur, 0.50% magnesium, 0.50% cadmium, 0.50% beryllium, 0.50% chromium, 0.50% zirconium, 0.50% titanium, 0.50% tungsten, 0.50% molybdenum, 0.50% vanadium, 0.50% columbium, 0.50% tantalum, 0.50% cobalt, 0.50% bismuth, 0.50% boron, 0.50% selenium, 0.50% tellurium, 0.50% calcium, 0.50% silver, 0.50% gold, 0.50% platinum, 0.50% metals of the platinum group, 0.50% total of all other elements, and 0.50% total of all other impurities.

(ii) In determining whether a lot contains 10% or more rejections by weight, the net weight of the lot after deducting the weight of all containers, dunnage and other tare shall be used.

(c) *Quantity premiums.* (1) To the maximum base price there may be added the applicable one of the following quantity premiums:

(i) For the shipment at one time by one person of 60,000 pounds or more of any one group other than Group 4 (automobile radiators) or Group 5 (refinery brass)—0.75 cents per pound;

(ii) For the shipment at one time by one person of 40,000 pounds or more of any one or two groups—0.50 cents per pound;

(iii) For the shipment by one person in one railroad car of 60,000 pounds or more of material eligible for the 0.75 cents per pound premium provided for in subdivision (i) of this paragraph (c) and, in the same railroad car, 20,000 pounds or more of any one other group—0.50 cents per pound for the material composing such other group in addition to 0.75 cents per pound for the 60,000 pound group.

(2) In computing the weight of material necessary for a quantity premium:

(i) There must first be deducted from the total weight of the shipment, the weight of (*a*) all containers, dunnage, and other tare, (*b*) all insulation and lead covering on Insulated Copper Wire and Cable or Lead-covered Copper Wire and Cable when settled for as the principal grade, (*c*) all rejections which are not either copper scrap or copper alloy scrap, (*d*) all other rejections in any lot containing 10 percent or more rejections, and (*e*) all copper scrap and copper alloy scrap for which any special preparation premium provided for in paragraph (d) of this section is paid;

(ii) The actual weight, at the consumer's plant, of the remaining material must be used, and the applicable quantity premium may be paid only on that weight.

(3) No quantity premium may be added to the maximum base price if any special preparation premium, permitted by paragraph (d) of this section, is added to such price.

(d) *Special preparation premiums*—(1) *Special preparation premiums for copper scrap.* (i) To the maximum base price for No. 1 copper wire and No. 1 heavy copper, No. 1 tinned copper wire and No. 1 tinned heavy copper, copper borings, or No. 2 copper wire and mixed heavy copper, the applicable one of the following crucible shape or briquetting premiums may be added. However, no crucible shape or briquetting premium may be added on the sale or delivery of any such copper scrap to a copper refinery or a brass and bronze ingot manufacturer:

	Cents per pound
No. 1 Copper Wire and No. 1 Heavy Copper in briquettes or in crucible shape	1.25
No. 1 Tinned Copper Wire and No. 1 Tinned Heavy Copper in briquettes or in crucible shape	1.25
Copper Borings in briquettes or in crucible shape	1.25
No. 2 Copper Wire and Mixed Heavy Copper in briquettes or in crucible shape	1.00

(ii) To the maximum base price for any grade of copper scrap, a special use premium of 1.25 cents per pound may be added: *Provided*, That the scrap has been prepared to meet the consumer's specifications and is suitable for his direct use without further preparation. However, no special use premium may be added on the sale or delivery of any such copper scrap to a copper refiner, a brass and bronze ingot manufacturer, a ferrous or non-ferrous foundry, or a brass mill.

(iii) A "briquette" means any compressed, self-adhering bundle whose measurements do not exceed 16 x 10 x 12 inches.

(iv) "Crucible shape" means either (*a*) that copper scrap is in lengths not exceeding 16 inches and is in a shape suitable for direct charging into the consumer's crucible or furnace, or (*b*) that copper borings or turnings are completely free of oil, other moisture, free iron, and other free impurities.

(2) *Special preparation premiums for copper alloy scrap.* (i) To the maximum base price for any grade of copper alloy scrap a crucible shape premium of 1.25 cents per pound may be added: Except, that in the case of manganese bronze solids the premium may be 2.50 cents per pound. However, no crucible shape premium may be added on the sale or delivery of any copper alloy scrap to a copper refiner or a brass and bronze ingot manufacturer.

(ii) "Crucible shape" means either (*a*) clean, heavy copper alloy scrap of uniform alloy content containing no free iron or other harmful material, and suitable for direct use by the consumer without further preparation, or (*b*) copper alloy borings or turnings of uniform alloy content completely free of oil, other moisture, free iron, and other free impurities.

(3) No special preparation premium may be added to the maximum base price if any quantity premium, permitted by paragraph (c) of this section, is added to such price.

(4) No special preparation premium may be added to the maximum base price for any grade of copper scrap or copper alloy scrap unless such scrap is invoiced by the seller as being in briquettes or in crucible shape, and unless such scrap when received by the consumer, is packed in separate containers or bales or is otherwise physically segregated by the seller, and unless a lot of such scrap contains less than 2% rejections by weight: Except, that in the case of the special use premium permitted by subparagraph (1) (ii) of this paragraph a lot of such scrap may contain up to 10% rejections by weight.

(5) For the purposes of this paragraph (d) any briquette which fails to meet the specifications for that grade of copper scrap at which it is invoiced shall be deemed to be a rejection.

(6) No special preparation premium may be added to the maximum base price for any grade except the principal grade in the lot.

(e) *Delivery charges.* (1) If copper scrap or copper alloy scrap is delivered to the consumer's receiving point by a public (common or contract) carrier, the maximum delivery charge which the consumer may pay in addition to the established maximum price f. o. b. point of shipment shall be the actual transportation charge made by such carrier.

(2) If copper scrap or copper alloy scrap is delivered to the consumer's receiving point by a vehicle owned or controlled by the seller or by a private carrier not owned or controlled by the consumer, the maximum delivery charge which the consumer may pay in addition to the established maximum price f. o. b. point of shipment shall be an amount not in excess of the following:

[1] An amount not in excess of the charge computed at the lowest railroad carload rate applicable to shipments of copper scrap or copper alloy scrap from the railroad siding nearest the point of shipment to the railroad siding nearest the consumer's receiving point.

(i) For distances of 300 miles or less, all bridge, tunnel and ferry tolls actually incurred may be added to the amount set forth in the above table.

(ii) The distance in miles shall be computed on the basis of the shortest public highway route available for the transportation of the shipment in question from the point of shipment to the consumer's receiving point.

(iii) In the event of partial loading of a truck at each of two or more pick-up points, the transportation charge for each portion of the load delivered to the consumer shall be separately computed in accordance with the provisions of this paragraph (e).

(iv) The seller shall furnish to the consumer on the invoice, or on a separate

statement, the point or points of shipment, the amount of the load picked up at each point, the charge for delivery of that portion of the load picked up at each point, the mileage upon which each such portion of the charge is based, and the total delivery charge.

(3) Anything hereinbefore contained to the contrary notwithstanding, if a quantity premium permitted by paragraph (c) of this section is paid on copper scrap or copper alloy scrap shipped from more than one point of shipment by any of the following means of transportation, the maximum delivery charge which the consumer may pay, in addition to the established maximum price f. o. b. point of shipment, shall be an amount not in excess of the applicable one of the following limitations:

(i) Entirely by railroad—the carload rate from that one of the several points of shipment which has the lowest carload rate to the consumer's receiving point.

(ii) Entirely by public carrier truck—the established truckload rate for the lowest minimum weight from that one of the several points of shipment which has the lowest truckload rate to the consumer's receiving point.

(iii) Entirely by vehicle owned or controlled by the seller or private carrier not owned or controlled by the consumer—the rate set forth in subparagraph (2) of this paragraph (e) from that one of the several points of shipment which has the lowest rate to the consumer's receiving point.

(iv) Partly by railroad, partly by public carrier truck, partly by vehicle owned or controlled by the seller, or a private carrier not owned or controlled by the consumer, or any combination of the foregoing—the lowest of the rates set forth in the preceding subdivisions of this subparagraph (3). However, in making the computation required by this subparagraph (3) (iv) the rate governing any method of shipment not actually employed may be disregarded.

(f) *Credit charges*—An amount not to exceed ½ of 1% per month for the extension of credit beyond thirty days after delivery may be charged over and above the maximum prices established by this regulation.

(g) *Exceptions*—(1) *Conversion of railroad scrap.* Nothing in this regulation or in the General Maximum Price Regulation[1] shall apply to the sale, delivery or transfer of copper scrap or copper alloy scrap to a foundry by a person owning, operating or maintaining rolling stock: *Provided*, That:

(i) The copper scrap and copper alloy scrap results from such person's use or processing of castings or other articles of the type produced by the foundry;

(ii) The foundry converts such copper scrap and copper alloy scrap into castings or other articles of the type from which the scrap resulted; and

(iii) Such person delivers the scrap to the foundry and the foundry returns an equivalent amount of castings or other articles of the type from which the scrap resulted in accordance with the terms of a written agreement approved by the War Production Board.

(2) *Metals Reserve Company purchases.* Nothing in this regulation, or in the General Maximum Price Regulation, shall apply to sales or deliveries of copper scrap or copper alloy scrap by any person to the Metals Reserve Company, the Copper Recovery Corporation, or their agents, pursuant to Salvage Program IRB–8 with respect to idle and excessive inventories of copper and copper base alloy products, adopted and announced by the War Production Board, Division of Industry Operations, by a letter dated May 11, 1942, or any supplement thereto, nor shall anything in this regulation, or in the General Maximum Price Regulation, apply to the sale or delivery to the Metals Reserve Company or its agents of any copper scrap or copper alloy scrap which is located at a point outside the continental United States at the time the contract of sale is entered into. However, the provisions of this regulation shall apply to all sales, deliveries or transfers of copper scrap or copper alloy scrap to a consumer by the Metals Reserve Company, the Copper Recovery Corporation, or their agents.

(3) *Intra-organization transactions.* Nothing in this regulation, or in the General Maximum Price Regulation, shall apply to sales or deliveries of copper scrap or copper alloy scrap between a parent corporation and a wholly-owned subsidiary corporation, or between two or more subsidiary corporations wholly owned by the same parent corporation. For the purposes of this subparagraph, a subsidiary corporation shall be deemed to be wholly owned by a parent corporation only if the parent corporation owns all of the capital stock of the subsidiary corporation: Except, that if required by the law of the state of incorporation of the subsidiary corporation, necessary qualifying shares may be owned by persons other than the parent corporation.

(4) *Briquetted and crucible copper scrap sold or delivered to a brass and bronze ingot manufacturer.* Any brass and bronze ingot manufacturer may file an application for adjustment under Revised Procedural Regulation No. 1 requesting permission to pay the premiums for briquetted and crucible shape copper scrap provided in § 1309.70 (d) (1) (i). (All brass and bronze ingot manufacturers heretofore authorized by Orders No. 1, 2, 3, 5, 6 and 7 issued under Revised Price Schedule No. 20, as amended, to purchase copper scrap in briquettes and to pay the premiums therefor provided in § 1309.70 (d) (1) (i) are hereby authorized to pay such premiums for copper scrap in briquettes or crucible shape.) Only the National Office of the Office of Price Administration may grant such applications and that Office may impose such conditions on the granting of permission under this subparagraph as it deems necessary to prevent evasion of the provisions of this regulation. No application will be granted under this subparagraph unless the applicant establishes that:

(i) In the three calendar months directly preceding the month in which the application is filed, the applicant produced a total of less than 600,000 pounds of brass and bronze ingot. In this connection, the applicant must state:

(*a*) His production in pounds of brass and bronze ingot for each such calendar month.

(*b*) His production in pounds of all other non-ferrous products, in which copper scrap was used, for each such calendar month.

(ii) In the calendar month directly preceding the month in which the application is filed the applicant was unable to purchase the amount of No. 1 and No. 2 copper scrap allocated to him by the War Production Board pursuant to Copper Supplementary Order M–9–b, as amended, or, if able to purchase such scrap, was unable to briquette or put into crucible shape a sufficient amount of it to permit efficient operation of his melting equipment. In this connection the applicant must state:

(*a*) The amount of No. 1 and No. 2 copper scrap allocated to him for such calendar month.

(*b*) The amount of No. 1 and No. 2 copper scrap purchased by him in such calendar month.

(*c*) The reasons for his inability to briquette or put into crucible shape a sufficient amount of copper scrap to permit efficient operation of his melting equipment.

(iii) The applicant regularly purchased copper scrap in briquettes or crucible shape in the six-month period from January 1, 1941 to July 1, 1941. If the applicant did not regularly purchase copper scrap in briquettes or crucible shape during the period January 1, 1941 to July 1, 1941, he must explain in detail why he now desires to purchase copper scrap in briquettes or crucible shape. In this connection the applicant must state:

(*a*) The total amount of copper scrap received between January 1 and July 1, 1941.

(*b*) The total amount of copper scrap received in briquettes or crucible shape between January 1 and July 1, 1941.

(*c*) What changes, if any, have occurred in the applicant's plant or production and how, if at all, they have affected his demands for copper scrap in briquettes or crucible shape.

(5) *Copper bearing material.* Nothing in this regulation, or in the General Maximum Price Regulation, shall control the price at which copper bearing material may be sold or delivered.

INSTRUCTIONS

(1) You may obtain copies of Revised Form 120:7a or Revised Form 120:7b from any district, State or regional office of the Office of Price Administration or from its principal office in Washington, D. C. You may reproduce the form on paper 8 x 10½ inches in size and make such changes or additions as may be necessary in order to use the form for a credit memorandum or settlement sheet with the person from whom you purchase scrap. However, you may not change the general appearance of the form or omit any of the information that appears on it, except "Budget Bureau Approval No. 08–R243," "Credit Memo. No." or "Sellers Invoice No."

If you use the form as a credit memorandum or settlement sheet, you may file carbon copies of the contents of the form.

(2) Report all receipts of copper scrap or copper alloy scrap (except brass mill scrap) settled for during the previous calendar month unless an individual receipt settled for with any one person is $200 or less and the total value of all settlements for copper scrap or copper alloy scrap with the same person does not exceed $1,000 during the month.

(3) Report each individual receipt on a separate form and give it a separate report number. However, all the receipts constituting a "shipment at one time" must be reported under the same OPA report number; in this case you must use a separate report form for each receipt from each separate point of shipment but all receipts from the same point of shipment may be reported on the same form. Number the report forms consecutively under "OPA Report No." beginning each month with No. 1

(4) Under "Date or dates received" enter the date or dates of shipment as shown on the bill of lading or other shipping documents or your own records. If the scrap was received by public carrier or your own conveyance. Otherwise, enter the date or dates when the scrap arrived at your receiving point.

(5) Identify each grade by the grade name used in § 1309.70 (b) (2) of Maximum Price Regulation No. 20.

(6) Enter the name of the principal grade contained in each lot in capital letters at the left margin of the "Grade" column. Opposite the grade name, enter the gross weight of the lot in the "Gross" column. Enter the weight of containers, dunnage, etc., in the "Tare" column. In the "Net" column enter the net weight of the principal grade alone.

(7) List all rejections sorted out of each principal grade underneath the principal grade. Indent each kind of rejection and describe it as in Instruction No. (5), whenever possible. Enter the net weight of each kind of rejection in the "Net" column.

(8) Indicate fully all factors for which Maximum Price Regulation No. 20 requires a deduction in the "Grade" column; for example, state variations in metal content, excessive iron, oil, moisture or dirt, unremoved insulation, inferior quality, lots containing more than 10% rejections, etc.

(9) If a special preparation premium has been paid, in the "Grade" column, indicate plainly the form in which the material was received.

(10) If any of the scrap was purchased "where is," report the fact in the "Grade" column and state the amount of the deduction you have made from the maximum price.

(11) Under "Purchase price" state the price, f. o. b. point of shipment, for each grade of material in cents per pound and by total paid. Each rejection must be stated separately.

(12) If the price of any of the material is determined on the basis of analysis, give all controlling analyses, including metallic yield when that factor is used, and the computation of the price in full.

(13) If the seller has borne or advanced the freight charges, state the amount under "Delivery charge due seller." Otherwise, enter freight paid under "Freight paid direct to public carrier."

By section 205 (b) of the Emergency Price Control Act of 1942, as amended, it is made a criminal offense, punishable by a fine of not more than $5,000 or imprisonment for not more than one year, or both, for any person to make, in this Revised Form 120:7b, any statement which is false in any material respect.

No. 52——9

EFFECTIVE DATE

This regulation shall become effective March 22, 1943.

Issued this 13th day of March 1943.

PART 1341—CANNED AND PRESERVED FOODS

[MPR 227,[1] Amendment 2]

DRIED FRUITS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1341.352 (a) (5) (ii) and (iii) are added and § 1341.362 (a) (3) is amended as set forth below.

§ 1341.352 *Packer's maximum prices for dried fruits.* (a) • • •

(5) • • •

(ii) The maximum price of pitted prunes, per ton, f. o. b. factory, shall be as follows:

	Large		Medium		Small	
	Gov't sales	Other sales	Gov't sales	Other sales	Gov't sales	Other sales
Free flow	$271.[illegible]	$285.00	$247.[illegible]	$260.00	$223.[illegible]	$235.00
Regular	256.07	269.00	242.86	255.00	223.81	235.00

(iii) Pitted prunes made from prunes of 70 count or larger shall be "large"; of 100 count or larger, but not within the "large" group, shall be "medium"; and of 101 count or smaller, shall be "small." "Regular" pitted prunes are double run pitted prunes substantially matted. "Freeflow" pitted prunes are pitted prunes which substantially maintain their separate identity and are easily separated.

§ 1341.362 *Definitions.* (a) • • •

(3) "Dried fruits" means the following fruits or portions thereof, from which the major portion of moisture has been removed by natural or artificial drying:

Apricots
Figs
Peaches (including nectarines)
Pears
Prunes
Grapes (raisins)

• • • • • •

This amendment shall become effective March 19, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

NEW COTTON, LINEN AND UNDERWEAR CUTTINGS

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of new cotton, linen and underwear cuttings by a specific maximum price regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250.

So far as practicable the Price Administrator has ascertained and given due consideration to the prices prevailing between October 1 and October 15, 1941 and to relevant factors of general applicability, and has advised and consulted with members of the industry which will be affected by this regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Revised Procedural Regulation No. 1 [1] issued by the Office of Price Administration, Maximum Price Regulation No. 344 is hereby issued.

Appendix A: Maximum prices for new cotton, linen and underwear cuttings.

AUTHORITY: Sections 1347.751 to 1347.763, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1347.751 *Prohibitions.* (a) On and after March 19, 1943, regardless of any contract or other obligation:

(1) No person shall sell or deliver any new cotton, linen or underwear cuttings at higher prices than the maximum prices set forth in Appendix A of this regulation.

(2) No person shall buy or receive new cotton, linen or underwear cuttings in the course of trade or business at higher prices than the maximum prices set forth in Appendix A of this regulation.

(3) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

(b) This regulation shall not apply to sales or deliveries of unsorted new cotton, linen or underwear cuttings to a purchaser other than a consumer. In connection with every such sale, however, the purchaser must warrant in writing to the seller that he will not use the material as a consumer thereof; these warranties must be kept in the seller's records in the manner provided in § 1347.757 of this regulation. Where unsorted new cotton, linen or underwear cuttings are sold to a consumer, the maximum price shall not exceed the lowest maximum price prescribed by this regulation for any grade contained in the assortment.

§ 1347.752 *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid, or offered.

§ 1347.753 *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight states of the United States and the District of Columbia, but shall not be applicable to the territories and possessions of the United States.

§ 1347.754 *Applicability of the General Maximum Price Regulation.* [2] The provisions of this regulation supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation.

§ 1347.755 *Imports.* This regulation shall apply to the importation of new cotton, linen and underwear cuttings as well as to the sale of such new cotton, linen and underwear cuttings after importation.

§ 1347.756 *Export sales.* The maximum price at which a person may export new cotton, linen and underwear cuttings shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation [3] issued by the Office of Price Administration.

§ 1347.757 *Records and reports.* (a) Every person making purchases or sales aggregating ten tons or more of new cotton, linen and underwear cuttings in April 1943, or any one month thereafter shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each purchase or sale of new cotton, linen, or underwear cuttings made during such month and each month thereafter, showing the following:

(1) Date of purchase or sale.

(2) Name and address of the buyer or seller. (3) Grade of new cotton, linen or underwear cuttings purchased or sold.

(4) Quantity of each grade purchased or sold.

(5) Prices including discounts paid or received, including all other direct or indirect considerations given or received and rebates made or taken.

(6) Warranties, if any, received or given.

(7) Origin and destination of the shipment, means of transportation used, and amount of transportation charges, insofar as known to the person keeping the record.

(b) Persons required to keep records shall submit such reports to the Office of Price Administration and shall keep such other records in addition to or in place of the records required in paragraph (a) of this § 1347.757 as the Office of Price Administration may from time to time require or permit, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 1347.758. *Licensing.* The provisions of Supplementary Order No. 5 [4] (§ 1305.7) licensing dealers selling waste, scrap, and salvage materials shall be applicable to every dealer or broker subject to this regulation, selling, offering to sell, delivering or transferring at a price new cotton, linen or underwear cuttings to a consumer.

§ 1347.759 *Evasion.* The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods in connection with an offer, solicitation, agreement, delivery, purchase, or receipt of or relating to any new cotton, linen or underwear cuttings, alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement, or other trade understanding, or otherwise.

§ 1347.760 *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses as provided by the Emergency Price Control Act of 1942, as amended.

§ 1347.761 *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.[5]

§ 1347.762 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In appropriate situations where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission in writing to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1347.763 *Definitions.* (a) When used in this regulation, the term:

(1) "Person" means an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representatives of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "New cotton, linen and underwear cuttings" include all kinds and grades of new cotton, linen and underwear cuttings, regardless of the use for which they are sold, excepting, however, pound goods and similar materials when sold for reuse as new textiles.

(3) "Consumer" means a person who acquires new cotton, linen or underwear cuttings for his own use.

(4) "Dealer" means a person who acquires, collects, sorts, packs and offers for sale in the course of trade or business new cotton, linen or underwear cuttings.

(5) "Broker" means any person who purchases from a dealer and sells to a consumer new cotton, linen or underwear cuttings not packed by such person and purchased by such person in the condition in which they are to be delivered to the consumer.

(6) "Foreign materials" include every substance, other than new cotton, linen or underwear cuttings, as the case may be.

(7) "Tare" means the covering on a bale, including wires.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

APPENDIX A: MAXIMUM PRICES FOR NEW COTTON, LINEN AND UNDERWEAR CUTTINGS

(a) The respective maximum prices set forth below are established for the listed grades of new cotton, linen, and underwear cuttings. These maximum prices are per pound, delivered to buyer's usual receiving point; in the case of sales for the account of the Lend-Lease Administration, delivery shall be to the point specified by the Lend-Lease Administration. All grades as defined herein must be clean, dry, and free of rubber, leather, slasher, wool, silk and rayon rags, wood, paper, muss, pasted stock, paint, acetate, grease, oil, paraffine, latex, or other waterproofed materials and other foreign materials, unless otherwise specified. Tare weight in excess of 3% must be deducted from the weight of the bale in computing the maximum price for the bale.

(b) The maximum price for any grade of new cotton, linen or underwear cuttings not listed in paragraph (a) of this Appendix A shall be a price in line with the maximum prices enumerated in that paragraph for the nearest related grades of new cotton, linen, or underwear cuttings. A maximum price for an unlisted grade so determined by a seller need not be reported to and confirmed by the Office of Price Administration except where the sale is to a consumer. Upon sales of such an unlisted grade to a consumer, however, seller must obtain confirmation from the Office of Price Administration that the price determined by him is in line with these enumerated maximum prices. If this confirmation is not obtained prior to the time of making the sale, seller must agree to refund the purchaser any amount paid in excess of the maximum price finally confirmed. Confirmation of a maximum price determined under this paragraph shall be obtained as follows:

Either before or at the time of making such a sale of an unlisted grade to a consumer, seller must submit to the Office of Price Administration in Washington, D. C. representative samples of the material, together with a statement setting forth all of the relevant facts including the following:

(1) Name of grade and of purchaser.

(2) Detailed statement of characteristics of the grade. This statement shall show how uniform the characteristics of this grade have been in past purchases and sales of this grade by the seller.

(3) Maximum delivered price per pound at which the seller proposes to sell such grade.

(4) Detailed statement concerning all purchases and sales of this grade by seller since January 1, 1941, including name of buyer or seller, date of transaction, price paid or received, and quantity purchased or sold.

A copy of the above statement or a certification that the same has been mailed to the Office of Price Administration shall be furnished by seller to purchaser. If the price proposed to be charged by the seller is not in line with the maximum prices enumerated in paragraph (a) of this Appendix A for the nearest related grades of new cotton, linen, or underwear cuttings, it shall not be confirmed until adjusted into line with those enumerated maximum prices. Where the maximum price as proposed is not disapproved by the Office of Price Administration within twenty days, it shall be considered confirmed.

After the maximum price for sales of a particular listed grade has been confirmed, the seller to whom such confirmation has been given may make future sales of that grade at the approved maximum price without reporting such sales or submitting the above described data.

(c) *Special packing, packaging or services.* Except as otherwise specifically provided for in this regulation, there may not be added to any maximum price established herein any additional amount or differential for any special packing, packaging or services.

(d) *Brokerage.* (1) Where sales are made to a consumer by a "broker", as defined in paragraph (a) (5) of § 1347.763, there may be added to the maximum prices set forth in this Appendix A an amount for brokerage not in excess of 5% of such maximum prices. No brokerage may be charged by any person for new cotton, linen, or underwear cuttings packed by him. No person may receive brokerage on the pack of another person pursuant to any contract, agreement, or understanding of any sort whatsoever between the two whereby each is to sell, and charge brokerage, upon the pack of the other. In no event may brokerage be charged unless the following requirements are met:

(i) The broker must keep a record, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, of the name or names of his supplier or suppliers of the new cotton, linen, and underwear cuttings, the quantity thereof purchased by him, the prices paid by him, the name of his purchaser, the method of shipment to the purchaser, and the price paid by the purchaser.

(ii) The broker must have taken title to the material and have sold it and passed the title thereto to the consumer. The materials must have been commercially sorted and baled by a person other than the broker. Where the material has been sorted and the material bought by the broker and another person, the broker may charge an allowance only with respect to the tonnage of cuttings sorted and baled by such other person.

(iii) The broker must guarantee the merchantable quality of the material.

(iv) The broker's allowance must be shown as a separate item in the billing or invoice. The billing or invoice shall contain a statement that the material has not been packed by the broker.

(v) The broker's allowances must not be split or divided with any other person, nor may any brokerage payment inure directly or indirectly to the benefit of any person other than the broker making the sale.

(vi) Brokerage may not be accepted or paid on new cotton, linen, or underwear cuttings shipped directly from the textile factory producing them to a consuming mill.

This Maximum Price Regulation No. 344, shall become effective March 19, 1943.

Issued this 13th day of March 1943.

Ration Order 5C is amended in the following respects:

1. Section 1394.7851 (b) (3) (ii) is hereby revoked.

2. Section 1394.7851 (b) (3) (iii) is hereby revoked.

3. Section 1394.7851 (b) (5) is added to read as follows:

(5) For use with a motor vehicle or motorboat for any of the following purposes: *Provided*, That a ration issued hereunder for use with a motor vehicle may not provide mileage in excess of two hundred (200) miles:

(i) To move such vehicle or boat after a bona fide sale or a transfer by gift or inheritance, or pursuant to a bona fide lease of more than ninety (90) days, to a place selected by the person entitled to the possession of such vehicle or boat;

(ii) To move such vehicle or boat to a place of storage selected by a person who has acquired title or right to possession of such vehicle or boat by virtue of a lien or security contract, or to move such vehicle or boat to a place of storage upon seizure by government authority;

(iii) To return such vehicle or boat, upon recovery after theft, to its customary garage or station.

4. Section 1394.7851 (c) (4) is amended to read as follows:

(4) If application is made pursuant to paragraph (b) (1) (i) or paragraph (b) (2) (i), (ii) or (iii), or for use with a motorboat in the gasoline shortage area pursuant to paragraph (b) (5) (i), (ii) or (iii) of this section, the alternative means of transportation which are available and the reasons, if any, why such alternative means are not reasonably adequate for the purpose.

This amendment shall become effective March 19, 1943.

Cong., as amended by Pub. Law 89, 77th Cong., and by Pub. Law 507, 77th Cong., Pub. Law 421, 77th Cong., WPB Dir. 1, Supp. Dir. No. 1-M, 7 F.R. 562, 7234.

§ 1407.901 *Definitions.* (a) "Controlled meat" means the dressed carcasses of cattle, calves, sheep, lambs, and swine (hereinafter also called beef, veal, mutton, lamb and pork, respectively) and any processed or unprocessed edible part, cut or trimmings thereof, regardless of how prepared or packaged; excluding, however, canned meats, sausage, scrapple, souse, and other similar products, offal, oils, lards, rendering fats, raw leaf, casings, by-products not ordinarily used for human consumption, and skins of swine when prepared for use in leather, glue and gelatin.

(b) "Conversion weight" means the weight of the live animal, the carcass or the controlled meat derived therefrom multiplied by the applicable conversion factor as set forth in § 1407.913.

(c) "Cutter and canner grades of beef" means controlled meat conforming to the specifications for cutter and canner grades of steer, heifer, and cow carcass beef set forth in Service and Regulatory Announcements No. 99, Official United States Standards for Grades of Carcass Beef, United States Department of Agriculture, Agricultural Marketing Administration, reprinted with amendments March, 1942.

(d) "Deliver" means to transfer physical possession of controlled meat to any other person. The transfer of controlled meat by a slaughterer or non-quota slaughterer to a unit or department of the slaughterer or non-quota slaughterer for use in the preparation, manufacture, or production of any product or commodity other than controlled meat shall be deemed a transfer of physical possession to a person other than the slaughterer or non-quota slaughterer. In the case of a slaughterer or non-quota slaughterer who uses controlled meat for such purposes without any such transfer, the use of controlled meat in the preparation, manufacture or production of any product or commodity other than controlled meat shall, for the purposes of Restriction Order No. 1, have the same effect as a transfer of physical possession to a person other than the slaughterer or non-quota slaughterer.

[Paragraph (d) as amended by Amendment 3, 7 F.R. 9247]

(e) "Dressed carcass" means the carcass in the following state:

(1) In the case of beef, with the kidney knob in.

(2) In the case of veal, with the hide on or off.

[Paragraph (2) as amended by Amendment 6, 7 F.R. 10258]

(3) In the case of pork, with the leaf fat and kidney out and the head off.

(4) In the case of lamb and mutton, with pluck out.

(f) "Federally inspected" means slaughtered, dressed and passed in a plant subject to federal inspection pursuant to the Act of Congress of March 4, 1907 (Federal Meat Inspection Act, 34 Stat. 1260).

(g) "Non-quota slaughterer" means any person, other than a slaughterer as herein defined, who slaughters cattle, calves, sheep, lambs, or swine and delivers the controlled meat derived therefrom.

[Paragraph (g) as amended by Amendment 3, 7 F.R. 9247]

(h) "Person" means any individual, partnership, corporation, or association, and includes the United States, or any agency thereof, the states or any political subdivision or agencies thereof, and any other government or any agency thereof.

(i) "Sausage" means any ground, chopped, or cut meat or offal of cattle, calves, sheep, lambs, or swine mixed with condiments or other materials and prepared in loaf or sausage-type form, with or without casings.

(j) "Slaughterer" means: (1) Any person who slaughtered during the first nine months of 1942 cattle, calves, sheep, lambs, or swine which produced controlled meat having an aggregate conversion weight in excess of 1,500,000 pounds, and

(2) Any person who slaughters during any quota period cattle, calves, sheep, lambs, or swine which produce controlled meat having an aggregate conversion weight in excess of 500,000 pounds.

(k) "Veal" means controlled meat derived from calves, graded or classified during any quota period by the same standards used by the slaughterer or non-quota slaughterer with respect to controlled meat of such type during the corresponding base period: *Provided*, That during any quota period no dressed carcass as defined in paragraph (e) (2) of this section shall be deemed veal, for the purposes of Restriction Order No. 1, unless it has the veal or calf characteristics defined by the United States Department of Agriculture (A.M.A. Reg. 114, Official U. S. Standards for Grades of Veal and Calf Carcasses (1940)), and weighs with the hide off not more than 275 pounds.

[Paragraph (k) added by Amendment 3, 7 F.R. 9247; amended by Amendment 6, 7 F.R. 10258]

§ 1407.902 *Deliveries of slaughterers restricted.* (a) Notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no slaughterer shall, except as provided in Restriction Order No. 1, deliver during any quota period, more controlled meat of any type than his quota for such type of controlled meat for such period.

(b) Any slaughterer may, during Quota Period 2, deliver controlled meat against any unused portion of his quota for such type of controlled meat for Quota Period 1 in an amount not exceeding 10% of such quota and any slaughterer may, during Quota Period 1, deliver controlled meat against his quota for such type of controlled meat (other than beef) for Quota Period 2 in an amount not exceeding 10% of his quota for Quota Period 1.

[Paragraph (b) as amended by Amendment 9, 7 F.R. 10704]

(c) A person who becomes a slaughterer during a quota period shall not thereafter during the balance of such period deliver controlled meat of any type in an amount which, together with the amount of such type of controlled meat previously delivered by him during such period, would exceed his quota for such controlled meat for such period.

(d) No slaughterer shall, on or after November 7, 1942, make any delivery of controlled meat of beef which, when taken together with the amount of such meat previously delivered by him during Quota Period 1, would cause his total deliveries of such meat during such period to exceed 70% of his quota base for such meat for such period.

[Paragraph (d) added by Amendment 4 7 F.R. 9250]

(e) Any deliveries of any type of controlled meat by a slaughterer in excess of his quota for such type of controlled meat for any quota period shall be charged against his quota for such type of controlled meat for the subsequent quota period and in addition thereto shall subject the slaughterer to such other actions, penalties or proceedings as may be prescribed by law or imposed pursuant to Restriction Order No. 1.

[Paragraph (e) added by Amendment 4, 7 F.R. 9250, and amended by Amendment 10 8 F.R. 375]

§ 1407.903 *Quotas established.* (a) The quota of a slaughterer for each type of controlled meat for Quota Period 1 shall be the conversion weight obtained by multiplying the quota base for such type of controlled meat by the percentage set forth below:

Type of controlled meat:	Percentage
Beef	70
Veal	100
Lamb and mutton	95
Pork	75

The quota of a slaughterer for each type of controlled meat for Quota Period 2 shall be the conversion weight obtained by multiplying the quota base for such type of controlled meat by the percentage set forth below:

Type of controlled meat:	Percentage
Beef	70
Veal	70
Lamb and mutton	70
Pork	70

[Paragraph (a) as amended by Amendment 9, 7 F.R. 10704]

(b) Any incorporated slaughterer may apply to the Office of Price Administration for consolidation of its quotas with the quotas of any one or more of its wholly-owned subsidiaries.

§ 1407.904 *Deliveries of non-quota slaughterers restricted.* (a) Notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no non-quota slaughterer shall, during any quota period, deliver more controlled meat of any type resulting from his own slaughter than he delivered of such type resulting from his own slaughter during the corresponding base period. For the purposes of this section cutter and canner grades of controlled meat of beef shall be regarded as a separate type of controlled meat. Deliveries during a quota period to persons referred to in, and in accordance with the procedure prescribed by § 1407.912a (a), (b), (c), (d) or (j), shall not be subject to the restrictions of this section. The serving of controlled meat in meals by an exempt purchaser designated in § 1407.912 (a) (4) shall not be subject to the restrictions of this section.

[Paragraph (a) as amended by Amendments 3, 6, 10, and 12; 7 F.R. 9247, 10258, 8 F.R. 375, 1279]

(b) Any deliveries by a non-quota slaughterer of any type of controlled meat resulting from his own slaughter in excess of deliveries permitted by paragraph (a) of this section for any quota period shall be charged against his restricted deliveries of such type of controlled meat for the subsequent quota period, and in addition thereto shall subject the non-quota slaughterer to such other actions, penalties or proceedings as may be prescribed by law or imposed pursuant to Restriction Order No. 1.

[Paragraph (b) added by Amendment 10, 8 F.R. 375]

(c) A non-quota slaughterer, in computing the conversion weight of controlled meat resulting from his own slaughter delivered during Base Period 1 and Quota Period 1, shall use the conversion factors specified in § 1407.913 (b), and in computing the conversion weight of controlled meat resulting from his own slaughter delivered during subsequent base periods and quota periods, shall use the conversion factors specified in § 1407.913 (c).

[Paragraph (c) added by Amendment 11, 8 F.R. 926, 1204]

§ 1407.904a. *Restriction on deliveries during Quota Period 2.* (a) During Quota Period 2, no slaughterer shall deliver, before any date set forth below, more controlled meat of any type than the percentage of his quota for that type shown opposite such date:

Date:	Percentage
January 1, 1943	[1] 10
February 1, 1943	40
March 1, 1943	70
April 1, 1943	100

[1] This 10% is applicable only to a slaughterer or non-quota slaughterer who elects to begin Quota Period 2 at 12:01 A. M., on December 20, 1942, pursuant to § 1407.905.

(b) The percentages in paragraph (a) of this section shall be computed on the basis of the quota of a slaughterer remaining after deducting therefrom all charges, if any, required by paragraphs (b) or (c) of § 1407.902, or by any adjustment, exception or authorization granted by the Office of Price Administration, Washington, D. C.

(c) During Quota Period 2, no non-quota slaughterer shall deliver, prior to any date set forth in paragraph (a) of this section, more controlled meat of any type resulting from his own slaughter than the percentage shown opposite that date, of his deliveries of controlled meat of that type resulting from his own slaughter during Base Period 2.

(d) For the purposes of this section, the transfer or shipment of controlled meat to any branch or branch house of a slaughterer or non-quota slaughterer shall constitute a delivery.

(e) Deliveries made by a slaughterer, without charge against quota, in accordance with the procedure prescribed by § 1407.912a, and deliveries by a non-quota slaughterer which are not subject to the restrictions of § 1407.904, shall not be subject to the restrictions of this section.

[§ 1407.904a added by Amendment 9, 7 F.R. 10704, 8 F.R. 179]

§ 1407.905 *Base and quota periods established.* (a) There are hereby established the following quota periods:

(1) Quota Period 1: October 1, 1942 to December 31, 1942, inclusive.

(2) Quota Period 2: January 1, 1943, to March 31, 1943, inclusive.

(3) Quota Period 3: April 1, 1943, to June 30, 1943, inclusive.

(4) Quota Period 4: July 1, 1943, to September 30, 1943, inclusive.

However, any slaughterer or non-quota slaughterer may elect to have Quota Period 1 end and Quota Period 2 begin, with respect to his operations, at 12:01 A. M., December 20, 1942. Such election shall be effective only if made in writing, addressed to the Office of Price Administration, attention Food Rationing Division, Washington, D. C., and delivered or postmarked on or before December 24, 1942.

A slaughterer who makes such an election shall take an inventory of his stocks of controlled meat as of 12: 01 A. M. December 20, 1942. Furthermore, a slaughterer or non-quota slaughterer who makes such election, shall file with the Office of Price Administration, Washington, D. C., a statement in writing signed by him, by a partner (if a partnership), an officer (if a corporation) or by a manager of the slaughterer or non-quota slaughterer, setting forth the amount of each type of controlled meat delivered by him during the period from October 1, 1942, to December 19, 1942, inclusive.

In the case of a slaughterer, such deliveries shall be computed in the manner prescribed by paragraph (a) of § 1407.907 and his statement shall set forth, separately, figures covering each of the subparagraphs of that paragraph.

In the case of a non-quota slaughterer, the statement shall show, separately, the conversion weight of:

(i) Controlled meat of each type resulting from his own slaughter delivered by him to persons referred to in and in accordance with the procedure prescribed by § 1407.912a (a), (b), (c) or (d) and

(ii) All other controlled meat resulting from his own slaughter delivered by him.

Statements required by this section shall be filed on or before December 31, 1942, unless an extension is granted by the Director of the Food Rationing Division.

[Paragraph (a) as amended by Amendment 9, 7 F.R. 10704]

(b) The corresponding base period shall be as follows:

(1) Base Period 1: October 1, 1941, to December 31, 1941, inclusive.

(2) Base Period 2: January 1, 1941, to March 31, 1941, inclusive.

(3) Base Period 3: April 1, 1941, to June 30, 1941, inclusive.

(4) Base Period 4: July 1, 1941, to September 30, 1941, inclusive.

[Paragraph (b) as amended by Amendment 3, 7 F.R. 9247]

§ 1407.906 *Method of computing quota bases.* (a) The quota base of a slaughterer for each type of controlled meat for each quota period shall be computed as follows: From the sum of

(1) In the case of pork: the conversion weight of live animals slaughtered by him during the corresponding base period determined from the average live purchase weight of such animals. In the case of beef, veal, lamb, and mutton: the conversion weight of the chilled dressed carcasses of animals slaughtered during the corresponding base period.

(2) The conversion weight of his inventory of such type of meat at the beginning of the corresponding base period, and

(3) The conversion weight of all meat of such type delivered to him during the corresponding base period,

the following shall be subtracted:

(4) The conversion weight of his inventory of such type of meat at the close of the base period, and

(5) The conversion weight of meat of such type delivered by him to other slaughterers in deliveries of more than 5,000 pounds each or pursuant to any contract calling for delivery of more than 5,000 pounds, and

(6) Fifty percent of the conversion weight of meat of such type delivered directly, or contained in canned meat delivered directly, by him to the Army, Navy, Marine Corps, Coast Guard, or to any agency of the United States to be delivered to, or for the account of, the government of any country pursuant to the Act of March 11, 1941 (Lend-Lease Act.)

[Paragraph (b) revoked and paragraph (c) redesignated (b) by Amendment 8, 7 F.R. 10621]

(b) The Office of Price Administration upon application may fix for a slaughterer a quota base for a quota period for any type of controlled meat not delivered by such slaughterer during the corresponding base period.

§ 1407.907 *Method of computing deliveries during quota period.* (a) The amount of each type of controlled meat delivered by a slaughterer during a quota period and charged against his quota shall be computed as follows: From the sum of

(1) In the case of pork: the conversion weight of live animals slaughtered by him during the quota period determined from the average live purchase weight of such animals. In the case of beef, veal, lamb and mutton: the conversion weight of the chilled dressed carcasses of animals slaughtered during the quota period.

(2) The conversion weight of his inventory of such type of meat at the beginning of the quota period, and

(3) The conversion weight of all meat of such type delivered to him during the quota period,

the following shall be subtracted:

(4) The conversion weight of his inventory of such type of meat at the close of the quota period, and

(5) The conversion weight of meat of such type delivered by him to other slaughterers in deliveries of more than 5,000 pounds each or pursuant to any contract calling for delivery of more than 5,000 pounds, and

(6) Fifty percent of the conversion weight of meat of such type delivered directly, or contained in canned meat delivered directly, by him to the Army, Navy, Marine Corps, Coast Guard, or to any agency of the United States to be delivered to, or for the account of, the government of any country pursuant to the Act of March 11, 1941 (Lend-Lease Act.)

[Paragraph (a) as amended by Amendment 9, 7 F.R. 10704]

(b) The corresponding quota period shall be as follows:

(1) Quota Period 1: October 1, 1942, to December 31, 1942, inclusive.

(2) Quota Period 2: January 1, 1943, to March 31, 1943, inclusive.

(3) Quota Period 3: April 1, 1943, to June 30, 1943, inclusive.

(4) Quota Period 4: July 1, 1943, to September 30, 1943, inclusive.

[Paragraph (b) as amended by Amendment 3, 7 F.R. 9247]

§ 1407.908 *Method of computing quota deliveries.* (a) The quota delivery of a slaughterer for each type of controlled meat for each quota period shall be computed as follows: From the sum of

(1) In the case of pork: the conversion weight of live animals slaughtered by him during the corresponding base period determined from the average live purchase weight of such animals. In the case of beef, veal, lamb, and mutton: the conversion weight of the chilled dressed carcasses of animals slaughtered during the corresponding base period.

(2) The conversion weight of his inventory of such type of meat at the beginning of the corresponding base period, and

(3) The conversion weight of all meat of such type delivered to him during the corresponding base period,

the following shall be subtracted:

(4) The conversion weight of his inventory of such type of meat at the close of the base period, and

(5) The conversion weight of meat of such type delivered by him to other slaughterers in deliveries of more than 5,000 pounds each or pursuant to any contract calling for delivery of more than 5,000 pounds, and

(6) Fifty percent of the conversion weight of meat of such type delivered directly, or contained in canned meat delivered directly, by him to the Army, Navy, Marine Corps, Coast Guard, or to any agency of the United States to be delivered to, or for the account of, the government of any country pursuant to the Act of March 11, 1941 (Lend-Lease Act.)

[Paragraph (b) revoked and paragraph (c) redesignated (b) by Amendment 8, 7 F.R. 10621]

(b) The Office of Price Administration upon application may fix for a slaughterer a quota delivery for a quota period for any type of controlled meat not delivered by such slaughterer during the corresponding base period.

§ 1407.909 *Method of computing quota deliveries during quota period.* (a) The amount of each type of controlled meat delivered by a slaughterer during a quota period and charged against his quota shall be computed as follows: From the sum of

(1) In the case of pork: the conversion weight of live animals slaughtered by him during the quota period determined from the average live purchase weight of such animals. In the case of beef, veal, lamb and mutton: the conversion weight of the chilled dressed carcasses of animals slaughtered during the quota period.

(2) The conversion weight of his inventory of such type of meat at the beginning of the quota period, and

(3) The conversion weight of all meat of such type delivered to him during the quota period,

the following shall be subtracted:

(4) The conversion weight of his inventory of such type of meat at the close of the quota period, and

(5) The conversion weight of controlled meat of such type delivered by him during the quota period without charge against quotas in accordance with § 1407.912a.

[Paragraph (5) as amended by Amendment 3, 7 F.R. 9247]

§ 1407.908 *Accounting procedures and inventories.* (a) A slaughterer in determining his inventories for the purposes of §§ 1407.906 and 1407.907 shall disregard controlled meat held at or in transit to his branches or branch houses, and controlled meat held in a unit or department of the slaughterer for use in the preparation, manufacture, or production of any product or commodity other than controlled meat.

(b) If the accounting periods used by a slaughterer during 1941 do not correspond to the base and quota periods established by Restriction Order No. 1, he may substitute such accounting periods for such base and quota periods: *Provided*, That:

(1) The accounting periods used for base periods shall contain the same number of calendar days as the accounting periods used for the quota periods.

(2) The accounting periods so used shall end on Saturday or Sunday, and begin and end with seven (7) days of the beginning and end of the corresponding periods established by Restriction Order No. 1.

(3) Inventories taken at the beginning and end of such accounting periods shall be used in computing deliveries during the base and quota periods.

(c) If the records in the possession of the slaughterer on the effective date of Restriction Order No. 1 are not sufficient for the determination of the data required for the computation of quota bases, he may apply to the Office of Price Administration for permission to adopt an alternative method of computing quota bases.

[Paragraphs (a), (b) and (c) as amended by Amendment 3, 7 F.R. 9247]

§ 1407.909 *Deliveries of cutter and canner grades of beef further restricted.* (a) No slaughterer shall, during any quota period, deliver to persons other than those referred to in § 1407.912a, more than 20% of the total conversion weight of all controlled meat of cutter and canner grades of federally inspected beef delivered by him during such period. Such 20 per centum shall include all deliveries of such beef after rejection thereof for failure to meet the specifications of exempt purchasers referred to in § 1407.912 (a), or of slaughterers, and shall also include all deliveries of such beef other than in accordance with the procedure prescribed in § 1407.912a.

During Quota Period 1, a slaughterer may, however, deliver such beef to the extent of his inventory thereof as of October 1, 1942, free from the restrictions of this paragraph.

[Paragraph (a) as amended by Amendments 6 and 8, 7 F.R. 10258, 10621]

(b) No slaughterer shall during any quota period deliver more than 25% of his quota for beef for such period in cutter or canner grades of non-federally inspected beef, unless an adjustment be granted to him pursuant to the provisions of § 1407.917. Deliveries without charge against quota made in accordance with the procedure prescribed by § 1407.912a, shall not be subject to the restrictions of this paragraph.

[Paragraph (b) as amended by Amendment 6, 7 F.R. 10258]

§ 1407.910 *When delivery takes place; transfers of possession for carriage or storage.* (a) Controlled meat transferred to a carrier or loaded aboard a vehicle or vessel (whether or not owned or controlled by the slaughterer) for shipment to a person other than the slaughterer shall be deemed to be delivered when so transferred or loaded, regardless of whether the slaughterer reserves title or consigns the shipment to his own order for security purposes only.

(b) A delivery shall not be deemed to take place when controlled meat is placed in a public warehouse solely for storage purposes, but the withdrawal of such meat from any such warehouse by any person other than the slaughterer who placed it there shall be deemed a delivery.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, controlled meat shall be deemed to be delivered, for the purposes of § 1407.906 (a) (3) and (5), on the date of the invoice covering such controlled meat.

[Paragraph (c) added by Amendment 2, 7 F.R. 8524]

§ 1407.911 *Persons becoming slaughterers and slaughterers owning retail outlets.* (a) In the case of a person who owns five or more establishments selling controlled meat principally at retail and who is also a slaughterer and in the case of a person who became or becomes a slaughterer after October 1, 1942, the operation of the slaughtering plant or plants operated by him shall be deemed to be separate from all his other activities for the purposes of Restriction Order No. 1, including the determination of the applicable quota base and quotas. Deliveries to such person shall be deemed made without charge against quotas only if made to such plant or plants, and only inventories of, and deliveries to and from such plant or plants shall be included in any computations required by Restriction Order No. 1. The restrictions in §§ 1407.902 and 1407.909 shall apply to such person only with respect to deliveries of controlled meat from, and the use of controlled meat in, such plant or plants.

[§ 1407.911 as amended by Amendment 3, 7 F.R. 9247]

§ 1407.912 *Exempt purchasers.* (a) The following are designated exempt purchasers:

(1) The Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, War Shipping Administration, Maritime Commission, Panama Canal, Advisory Committee for Aeronautics, Office of Scientific Research and Development and Defense Supplies Corporation, and any agency of the United States or of any foreign government, to the extent that controlled meat is delivered to it for export to any foreign country or any territory or possession of the United States other than the District of Columbia. Controlled meat contained in meals served to Army, Navy, Marine Corps or Coast Guard personnel messed separately under an officer's command shall be deemed delivered to the agency of which such personnel are members: *Provided*, That delivery to post exchanges, sales commissaries, service men's clubs, ship service stores and similar organizations shall not be deemed to constitute delivery to any such agency.

[Paragraph (1) as amended by Amendment 7, 7 F.R. 10258]

(2) Any person, to the extent that controlled meat is delivered to him for export to any foreign country or any territory or possession of the United States other than the District of Columbia.

(3) Any person operating an ocean-going vessel engaged in the transportation of cargo or passengers in foreign, coastwise or intercoastal trade, to the extent that controlled meat is delivered to him as ships' stores for consumption aboard such vessel.

(4) Any hospital, asylum, orphanage, prison, or other similar institution, which is operated by any federal, state or local government or agency thereof, other than an agency listed in paragraph (a) (1) of this section, which took delivery of controlled meat in the year 1941 under contracts awarded upon the basis of competitive bids.

(5) Any person, to the extent that the delivery of controlled meat to him, without charge against quotas, has been specifically authorized by the Director of the Food Rationing Division of the Office of Price Administration.

[Paragraphs (2) through (5) as amended by Amendment 3, 7 F.R. 9247]

§ 1407.912a *Deliveries permitted without charge against quotas*—(a) *Deliveries by slaughterers to U. S. government agencies, covered by written contract.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him, or contained in canned meat or sausage delivered by him, during such period to an exempt purchaser designated in § 1407.912 (a) (1), if such delivery was covered by a written contract between him and such exempt purchaser: *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless he retains the contract in his files and, not later than the close of the quota period in which the controlled meat, canned meat or sausage was delivered, attaches to such contract receipts or bills of lading evidencing such delivery, the invoices relating thereto, and a certification signed by him referring to such contract and stating the conversion weight of each type of controlled meat delivered, or contained in canned meat or sausage delivered, by him during such quota period.

(b) *Deliveries by slaughterers to persons holding written contracts with U. S. government agencies.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him, or contained in canned meat or sausage delivered by him, during such period to any person who is required to deliver, or has on or after October 1, 1942, delivered, either controlled meat, or canned meat or sausage made therefrom, to an exempt purchaser designated in § 1407.912 (a) (1), if the delivery of controlled meat, sausage or canned meat to the exempt purchaser is covered by a written contract between such person and such exempt purchaser: *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless he obtains from such person, either before or after delivery to the exempt purchaser, but in any event not later than the close of the quota period in which controlled meat, canned meat or sausage was so delivered to such person, a certification signed by such person referring to such contract by date and number and setting forth the following:

(1) The name of such person;

(2) The name of the exempt purchaser;

(3) The total weight of each type of controlled meat, canned meat or sausage covered by such certification, a description thereof permitting conversion in accordance with the provisions of § 1407.913, and the date or dates of delivery to such person;

(4) A statement that the quantity of controlled meat of any type covered by all certifications signed by such person and referring to such contract, does not exceed the quantity of controlled meat of such type required for the performance of the contract.

The person holding the contract with the exempt purchaser shall retain it in his files and shall attach thereto receipts or bills of lading evidencing the delivery of such meat, the invoices relating thereto, copies of all certifications referring to such contract and, in addition thereto, a certification signed by him stating the conversion weight of each type of controlled meat delivered by him pursuant to the contract during each quota period, or in the case of a contract calling for the delivery of canned meat or sausage, the conversion weight of controlled meat used in the preparation of the canned meat or sausage delivered by him pursuant to the contract during each quota period.

(c) *Deliveries by slaughterer directly to exempt purchasers other than U. S. government agencies, to other slaughterers, and to U. S. government agencies if not covered by written contract.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him during such period to any exempt purchaser designated in §1407.912 (a) (2) to (5) inclusive, or to any exempt purchaser designated in § 1407.912 (a) (1) when such delivery was not covered by written contract, or to another slaughterer whose deliveries are subject to the quota provisions of Restriction Order No. 1, and may also include the conversion weight of controlled meat contained in canned meat or sausage delivered by him during such period to any such exempt purchaser (but not to other slaughterers): *Provided, however,* That no slaughterer shall so incude the conversion weight of such controlled meat unless, not later than the close of the quota period in which such delivery is made, he obtains from the exempt purchaser or slaughterer to whom such controlled meat, canned meat or sausage is delivered, a certification signed by such exempt purchaser or slaughterer, acknowledging delivery of the controlled meat, canned meat or sausage, and satisfying the following requirements:

(1) The certification shall state the name and address of the slaughterer or, in the case of a certification pursuant to paragraph (d) or (j) of this section, the name and address of the person who delivered the controlled meat, canned meat or sausage to the exempt purchaser, and the date or dates of delivery; the name and address of the exempt purchaser or slaughterer to whom delivery was made; the total weight of each type of controlled meat, canned meat, or sausage covered by such certification; and a description thereof permitting conversion in accordance with the provisions of § 1407.913.

[Paragraph (1) as amended by Amendment 10, 8 F.R. 375]

(2) If the exempt purchaser is an exporter designated in § 1407.912 (a) (2), there shall be attached to such certification a Shipper's Export Declaration bearing the notation of an authorized customs official to the effect that, to the best of his knowledge and belief, the amount of controlled meat, canned meat or sausage therein stated has been exported.

(3) If the exempt purchaser is a person operating a vessel as provided in § 1407.912 (a) (3), there shall be attached to such certification a statement signed by the collector of customs or his deputy authorizing the delivery of such controlled meat as ships' stores and evidencing the fact that such delivery has been made.

(4) If the exempt purchaser is an institution referred to in § 1407.912 (a) (4), the certification shall state that such purchaser took delivery of controlled meat in the year 1941 under contracts awarded upon the basis of competitive bids, and that the controlled meat described in the certification will be used solely by such institution.

(5) If the exempt purchaser is a person to whom quota-free delivery of controlled meat has been authorized by the Director of the Food Rationing Division of the Office of Price Administration, he shall attach to the certification a copy of such authorization.

(6) If canned meat or sausage is covered by the certification signed by an exempt purchaser, the slaughterer shall attach thereto a statement signed by him setting forth, on the basis of the formula for such canned meat or sausage (which need not be set forth in full), the conversion weight of controlled meat of each type contained therein.

(d) *Deliveries by slaughterers to persons other than exempt purchasers, to replace inventory delivered to U. S. government agencies, to vessels, or for export.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him, or contained in canned meat or sausage delivered by him, during such period to any person other than a slaughterer to replace in the inventory of such person controlled meat, canned meat or sausage delivered by, or contained in canned meat or sausage delivered by, such person on or after October 1, 1942, to an exempt purchaser designated in § 1407.912 (a) (1) if such delivery was not covered by a written contract, or to an exempt purchaser designated in § 1407.912 (a) (2), (3), or (5): *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless, not later than the close of such period, he obtains from such person a certification signed by such exempt purchaser, acknowledging delivery of controlled meat, canned meat or sausage, and containing the statements and attachments provided for in paragraph (c) of this section, and in the case of an exempt purchaser designated in § 1407.912 (a) (1), also stating that such delivery was not covered by a written contract.

(e) *Deliveries to boners.* Any person who desires to deliver, or has on or after October 1, 1942, delivered controlled meat, canned meat or sausage to an exempt purchaser designated in § 1407.912 (a) (1) pursuant to a written contract between such person and such exempt purchaser, may sign and transmit to the boner who boned or will bone the controlled meat for him, a certification containing the statements and information provided for in paragraph (b) of this section. The boner to whom any such certification is so transmitted may endorse and deliver it to the slaughterer who delivered or delivers such controlled meat to him. In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of the controlled meat delivered by him during such period to such boner, if covered by such certification transmitted to him during the quota

period. For the purposes of this paragraph, "boner" means a person to whom carcasses or primal cuts of beef, veal, lamb, mutton or pork are delivered, and by whom boneless controlled meat and trimmings are delivered.

(f) *Deliveries by slaughterers to any person, for storage in anticipation of government contracts.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him to any person for storage in anticipation of contracts with exempt purchasers designated in § 1407.912 (a) (1), if such delivery, quota-free, is specifically authorized by the Director of the Food Rationing Division of the Office of Price Administration: *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless, not later than the close of such period, he obtains from such person a copy of the authorization and a certification signed by such person, referring to such authorization by date, and stating that such controlled meat has been segregated for use pursuant to a contract with an exempt purchaser, and that the quantity of controlled meat of any type covered by all certifications referring to such authorization does not exceed the quantity of controlled meat of such type the delivery of which has been specifically authorized thereby.

Any person to whom a specific authorization is issued shall retain together in his files the original authorization, copies of all certifications referring thereto, any contract with an exempt purchaser designated in § 1407.912 (a) (1), pursuant to which controlled meat or canned meat or sausage is subsequently delivered, the invoices relating thereto, and receipts or bills of lading evidencing deliveries against such contract.

(g) *Duplication prohibited.* No controlled meat shall be included more than once by a slaughterer in computing the conversion weight of controlled meat delivered during a quota period without charge against quotas.

(h) *Military information of a secret character.* If any of the information required by paragraphs (a) to (f) inclusive of this section is military information of a secret character, such information may be omitted.

(i) *Form of certification.* The certifications required by this section and the statements which are required to be attached thereto may be in the form of receipts with appropriate notations thereon and do not require verification or acknowledgment, but no certification shall be valid for the purposes of this section unless it bears the required attachments. An authorized agent or employee of the person by whom any certification or statement is required to be signed may sign such certification or statement in behalf of such person.

[§ 1407.912a added by Amendment 8, 7 F.R. 9247]

(j) *Deliveries through intermediate persons.* Any person other than a slaughterer, who desires to deliver, or has delivered controlled meat, canned meat or sausage to an exempt purchaser may obtain the certification required by paragraph (b), (c) or (d) of this section, whichever is applicable. Such certification may be passed through one or more persons to a slaughterer. Each person through whom such certification passes shall endorse thereon his name and address. In computing the conversion weight of controlled meat delivered during a quota period subsequent to Quota Period 1 without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him during such period, or contained in canned meat or sausage delivered by him during such period, to any person from whom during such period he obtains such an endorsed certification covering the delivery.

[Paragraph (j) added by Amendment 10, 8 F.R. 375]

§ 1407.913 *Conversion weight factors.* (a) For the purposes of §§ 1407.906 and 1407.907, the conversion weigh of swine slaughtered during a period shall be determined exclusively by computing the average live purchase weight of all swine slaughtered (less condemnations) and multiplying the total live purchase weight of such swine by the conversion factor set forth below for the weight range within which the average live purchase weight falls:

Weight range:	*Conversion factor*
200 lbs., and under	.55
201-240 lbs	.57
241-300 lbs	.59
301 lbs. and over	.61

[Paragraph (a) as amended by Amendment 3, 7 F.R. 9247]

(b) For the purpose of computing the quota base for each quota period, pursuant to § 1407.906, and for the purpose of computing deliveries charged against quota during Quota Period 1, pursuant to § 1407.907, the conversion weight of carcasses, and of cuts and trimmings of controlled meat derived therefrom, and of sausage and canned meat produced therefrom, shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

BEEF

Dressed carcasses and cuts not boned, fresh (chilled) or frozen	1.00
Boned beef and trimmings, fresh (chilled) or frozen	1.41
Cured other than dried	1.05
Dried (including smoked)	2.00

VEAL

Dressed carcasses hide off, and cuts, not boned, fresh (chilled) or frozen	1.00
Dressed carcasses hide on, fresh (chilled) or frozen	.90
Boned, fresh (chilled) or frozen	1.41

LAMB AND MUTTON

Dressed carcasses pluck out, and cuts, not boned, fresh (chilled) or frozen	1.00
Dressed carcasses pluck in, fresh (chilled) or frozen	.90
Boned, fresh (chilled) or frozen	1.41

PORK

Dressed carcasses (with cutting fats on), fresh (chilled) or frozen	83

Cuts:	*Not boned*	*Boned*
Fresh (chilled)	1.00	1.15
Wiltshire sides, fresh or cured	1.00	
Cured	1.00	1.10
Smoked	1.10	1.20
Cooked	1.20	1.35
Trimmings:		
Fresh (chilled) or frozen		1.10

The conversion weight of controlled meat of each type used in the preparation of sausage or canned meat shall be computed by determining, on the basis of the manufacturing formula, the net weight of controlled meat of such type used in the processing thereof, and multiplying such net weight by 1.41 in the case of boned beef, veal, lamb and mutton, and 1.10 in the case of pork. The net weight of controlled meat which is cooked and used in the preparation of canned meat shall be the weight thereof before cooking.

(c) For the purpose of computing deliveries charged against quota during quota periods subsequent to Quota Period 1, pursuant to § 1407.907, the conversion weight of carcasses, and of cuts and trimmings of controlled meat derived therefrom, and of sausage and canned meat produced therefrom, shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

Type of controlled meat and description of product	*Conversion factor (multiplier)*
BEEF	
Dressed carcasses and cuts, not boned, fresh (chilled) or frozen	1.00
Boned beef and trimmings, fresh (chilled) or frozen	1.41
Cured other than dried—not boned	.95
Cured other than dried—boned	1.34
Dried (including smoked)	2.20
VEAL	
Dressed carcasses hide off, and cuts, not boned, fresh (chilled) or frozen	1.00
Dressed carcasses hide on, fresh (chilled) or frozen	.90
Boned, fresh (chilled) or frozen	1.41
LAMB AND MUTTON	
Dressed carcasses pluck out, and cuts, not boned, fresh (chilled) or frozen	1.00
Dressed carcasses pluck in, fresh (chilled) or frozen	.90
Boned, fresh (chilled) or frozen	1.41
Telescoped carcass lambs (shanks off)	1.03
Telescoped carcass sheep (shanks off, kidney out)	1.05
PORK	
Dressed carcasses (with cutting fats on), fresh (chilled) or frozen	83
Cuts:	*Not boned* / *Boned*
Fresh (chilled)	1.00 / 1.15
Wiltshire sides, fresh or cured	1.00
Cured	1.00 / 1.10
Smoked	1.10 / 1.20
Cooked	1.20 / 1.35
Pork loins	---- / 1.33
Fatted, skinless hams and shoulders	---- / 1.33
Fatted, skinless picnics	---- / 1.45
Trimmings:	
Fresh (chilled) or frozen	---- / 1.00
CANNED MEATS PRODUCED FROM CONTROLLED MEAT	
Chopped ham	1.28
Luncheon meat	1.35
Corned pork	2.22
Tushonka	1.80
Issue bacon	1.18
Sliced bacon	1.25
Dehydrated pork (10% maximum moisture content)	4.75
Dehydrated beef (10% maximum moisture content)	5.00

The conversion weight of controlled meat of any type used in the preparation of sausage, or in the preparation of canned meat not specified above, shall be computed by determining, on the basis of the manufacturing formula, the net weight of controlled meat of such type used in the processing thereof, and multiplying such net weight by the applicable conversion factor set forth above for such type of controlled meat. The net weight of controlled meat which is cooked and used in the preparation of canned meat not specified above shall be the weight thereof before cooking.

(d) In paragraphs (b) and (c) of this section, "boned" describes cuts from which 50 per cent or more of the bone by weight has been removed by the process of boning, and "not boned" describes cuts from which none, or less than 50 percent, of the bone by weight has been removed, and primal cuts which contain no bone.

[Paragraph (b), (c), and (d) as amended by Amendment 11, 8 F.R. 926, 1204]

§ 1407.914 *Registration of slaughterers.* (a) No slaughterer who during the first nine months of 1942 slaughtered cattle, calves, sheep, lambs, or swine which produced controlled meat having an aggregate conversion weight in excess of 1,500,000 pounds shall deliver controlled meat on or after November 15, 1942, unless he shall have filed with the Office of Price Administration a registration statement, executed in duplicate on OPA Form No. RSO1:1 and completed, except that information with reference to the second and third quarters of 1941 need not be supplied. Both copies of such registration statement shall be signed by the slaughterer, a partner (if a partnership), an officer (if a corporation), or a manager of the slaughterer. No such slaughterer shall deliver controlled meat on or after December 13, 1942, unless he shall have filed with the Office of Price Administration on such form a supplemental registration statement covering the second and third quarters of 1941, executed and signed in duplicate by the slaughterer, a partner (if a partnership), an officer (if a corporation), or a manager of the slaughterer. The Director of the Food Rationing Division of the Office of Price Administration may, for good cause shown, extend the time for filing a registration statement pursuant to the provisions of this paragraph.

[Paragraph (a) as amended by Amendments 3 and 5, 7 F.R. 9247, 9639]

(b) No person who becomes a slaughterer by reason of the fact that he slaughters, during a quota period, cattle, calves, sheep, lambs or swine which produce controlled meat having an aggregate conversion weight in excess of 500,000 pounds shall deliver controlled meat on or after the tenth day following the date on which he became a slaughterer unless he shall have filed with the Office of Price Administration a registration statement on such form as the Office of Price Administration may hereafter prescribe, executed and signed as required in paragraph (a) of this section.

[Paragraph (b) as amended by Amendment 5, 7 F.R. 9639]

(c) The duplicate of such registration form, bearing the date of registration and a registration number will be returned to the slaughterer and shall be kept at the place designated by him in his registration statement for the keeping of records.

(d) The registration number of the slaughterer shall appear on all reports submitted by him to the Office of Price Administration.

§ 1407.914a *Statements of deliveries from other slaughterers on non-quota slaughterers required.* (a) Every slaughterer shall prepare for each other slaughterer or non-quota slaughterer a statement of all controlled meat delivered to him by such other slaughterer or non-quota slaughterer during 1941 in deliveries of more than 5,000 pounds each or pursuant to any contract calling for delivery of more than 5,000 pounds. Such statement shall list the deliveries to each location of the slaughterer chronologically according to invoice date and shall show with respect to each delivery the following:

(1) The date and number of the invoice accompanying such delivery;

(2) Descriptions of the controlled meat of each type included in such delivery permitting conversion in accordance with the provisions of § 1407.913, the weight and conversion weight of controlled meat of each description contained therein, and the total conversion weight of controlled meat of each type in such delivery.

(3) The location of the plant or branch house from which such meat was delivered; and

(4) The location of the plant or branch house to which such meat was delivered.

(b) Such statement shall be prepared in two parts. Part 1 shall include deliveries during Base Periods 1 and 2. Part 2 shall include only deliveries during Base Periods 3 and 4. On or before November 2, 1942, every slaughterer required to prepare a statement pursuant to paragraph (a) of this section shall send by registered mail, return receipt requested, the original of Part 1 of each statement to the slaughterer or non-quota slaughterer who made the deliveries described therein. On or before November 30, 1942, every such slaughterer shall send by registered mail, return receipt requested, the original of Part 2 of each statement to the slaughterer or non-quota slaughterer who made the deliveries described therein. If deliveries during Base Periods 3 and 4 are included in any statement mailed on or before November 2, 1942, the portions of such statement relating to deliveries during Base Periods 1 and 2 shall be deemed Part 1 thereof and the portions relating to deliveries during Base Periods 3 and 4 shall be deemed Part 2.

(c) Every slaughterer shall attach to a duplicate of each statement sent by him the return receipt for the original of such statement, and shall file Part 1 of all such duplicate statements with the Office of Price Administration together with the registration statement filed or or before November 15, 1942, pursuant to § 1407.914. Every slaughterer shall file Part 2 of all such duplicate statements with the Office of Price Administration either with such registration statement or with the supplemental registration statement filed on or before November 30, 1942, pursuant to such section.

[Paragraphs (b) and (c) as amended by Amendment 3, 7 F.R. 9247]

(d) No slaughterer, in computing his quota bases, shall include the conversion weight of any controlled meat delivered to him by another slaughterer or non-quota slaughterer unless he shall have complied with the provisions of this section with respect to such delivery.

(e) Every slaughterer, in computing his quota bases, shall use as the conversion weight of controlled meat delivered by him to other slaughterers during any base period as required in § 1407.906 (a) (5), the total conversion weight of controlled meat of each type delivered by him to other slaughterers as set forth in all statements sent to him pursuant to the provisions of this section.

(f) Within 14 days after receipt of any statement from a slaughterer pursuant to this section, a slaughterer or non-quota slaughterer may send to such slaughterer by registered mail, return receipt requested, a demand for a written statement correcting any inaccuracy claimed to exist therein. Unless such demand is sent by him within such period, a slaughterer receiving such statement shall, for the purpose of computing his own quota bases, be deemed to have delivered controlled meat as stated therein. If the slaughterer to whom a demand is sent makes such correction, the slaughterer or non-quota slaughterer claiming such inaccuracy shall forward the written statement correcting it to the Office of Price Administration and shall, if a slaughterer, adjust his quotas accordingly. If a slaughterer fails to make such correction within 10 days after his receipt of a demand therefor, the slaughterer or non-quota slaughterer who sent the demand may, within 20 days after sending any such demand, apply in writing to the Office of Price Administration for a determination of the facts concerning the contested delivery. Upon receipt of such application, the Office of Price Administration will notify all parties to such dispute of the manner in which evidence shall be submitted and the time allowed therefor. The Office of Price Administration will determine such dispute, and will notify the parties thereto of such determination and of any quota adjustments resulting therefrom. Unless such application is made by him

within 20 days after sending such demand, a slaughterer receiving such statement shall, for the purpose of computing his own quota bases, be deemed to have delivered controlled meat as set forth in the statement.

[Paragraph (f) as amended by Amendment 6, 7 F.R. 10258]

[§ 1407.914a added by Amendment 2, 7 F.R. 8524]

§ 1407.915 *Reports.* (a) Every slaughterer shall furnish such information to, and execute and file such reports with, the Office of Price Administration, as it may from time to time require.

§ 1407.916 *Records.* (a) Every slaughterer shall keep accurate records from which the following may be determined for each quota period:

(1) The conversion weight of controlled meat of each type on hand at the commencement of the quota period.

(2) The conversion weight of controlled meat of each type delivered to the slaughterer.

(3) The conversion weight of controlled meat of each type produced from animals slaughtered.

(4) The conversion weight of controlled meat of each type delivered without charge against quotas, separately stated for each class of exempt purchasers in accordance with the arrangement of such purchasers into paragraphs in § 1407.912 (a).

(5) The conversion weight of controlled meat of each type on hand at the close of the quota period.

(6) The conversion weight of beef of cutter and canner grades slaughtered during such period.

(7) The conversion weight of beef of cutter and canner grades delivered without charge against quotas, separately stated for each class of exempt purchasers in accordance with the arrangement of such purchasers into paragraphs in § 1407.912 (a).

(b) Every non-quota slaughterer shall keep an accurate record, by quota periods, of live purchase weight and chilled dressed carcass weight of all cattle, calves, sheep and lambs slaughtered by him and of live purchase weight of all swine slaughtered by him.

(c) All records required by Restriction Order No. 1 shall be kept and preserved for not less than 2 years after the effective date hereof at an office of the slaughterer designated by him in his registration, and shall at all reasonable times be open to audit and inspection by duly authorized representatives of the Office of Price Administration.

(d) Every person who slaughters cattle, calves, sheep, lambs or swine and every person who sells, transfers, or delivers controlled meat shall preserve for examination by the Office of Price Administration all of his existing records relating to such slaughter, sales, transfers, and deliveries since January 1, 1941, unless authorized to dispose thereof by the Office of Price Administration.

§ 1407.917 *Application for adjustment or exception.* (a) Any person who considers that an adjustment or exception should be made in his case to facilitate procurement by persons referred to in § 1407.912 (a), prevent spoilage of meat, relieve transportation facilities, adjust quotas which have been affected by unusual occurrences during the base period, or promote greater efficiency and dispatch in the war effort, may apply in writing to the Office of Price Administration, setting forth the pertinent facts, the reasons why he considers that an adjustment or exception should be made, and the precise nature of the adjustment or exception desired.

[Paragraph (a) as amended by Amendments 1 and 3, 7 F.R. 8217, 9247]

(b) In cases of emergency, application may be made by the most convenient means of communication and a written application may be filed at such time thereafter as the Office of Price Administration may direct.

(c) Upon receipt of such application, the Office of Price Administration may take such action as it shall deem necessary or appropriate.

§ 1407.918 *Certification deemed a representation.* (a) Any certification delivered to or made by a slaughterer pursuant to the provisions of § 1407.912a shall be held by the slaughterer for delivery to the Office of Price Administration upon request by it.

(b) Statements contained in or accompanying any such certification shall be deemed representations to an agency of the United States.

[§ 1407.918 as amended by Amendment 3, 7 F.R. 9247]

§ 1407.919 *Prohibited acts.* (a) No person shall deliver, or offer to deliver, to any person, and no person shall accept or offer to accept delivery from any person, or use, any controlled meat with knowledge or reason to believe that such delivery or use is or will be in violation of Restriction Order No. 1, or in violation of or contrary to any of the statements contained in any certification or authorization furnished or provided as required in § 1407.912a.

[Paragraph (a) as amended by Amendment 3, 7 F.R. 9247]

(b) No person shall, or shall cause another person to, alter or falsify any registration certification, or statement, or to falsify, conceal or fail to disclose any fact, statement or information in any application, registration, report or other statement required to be made, kept, furnished or disclosed by Restriction Order No. 1.

(c) No person shall offer, solicit, attempt or agree to do any act in violation of any provision of Restriction Order No. 1.

§ 1407.919a *Allocation orders.* (a) The District Manager of the Office of Price Administration or, where there is none, the State Director, having jurisdiction over any meat allocation area, may issue allocation orders requiring any person who is engaged in the business of selling or delivering controlled meat in or from within that area, to deliver any controlled meat, which he has in or brings into the area, to such persons within the area, at such times and in such quantities as the District Manager or the State Director may direct. Such allocation order may be issued only if the District Manager (or State Director) finds it to be in the public interest to do so by reason of the fact that the person to whom the order requires deliveries to be made has been unable to secure a reasonable quantity of controlled meat for delivery, or for service to consumers, and that, as a result, consumers are unable to acquire a reasonable amount of controlled meat. However, no such order shall require delivery of controlled meat to individual consumers.

[Paragraph (a) as amended by Amendment 14, 8 F.R. 2498]

(b) Any person to whom an allocation order has been issued under this section shall make deliveries in accordance with the order, notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, and shall make such deliveries at a price not in excess of the applicable maximum price established pursuant to any order of the Office of Price Administration.

(c) An allocation order issued pursuant to this section shall set forth the name and address of the person directed to make delivery; the name and address of the person to whom deliveries are to be made; the type and amount of controlled meat to be delivered; and the date on or before which such deliveries are to be made. An allocation order may be modified or revoked by the District Manager or State Director who issued it.

(d) An allocation order may be personally served on the person to whom it is directed or may be sent by registered mail either to his business address within the area or, if he has none there, to his principal business address. An allocation order shall be effective upon service, or, if mailed, twenty-four hours after mailing, or at such later time as may be specified therein.

(e) No person who fails to comply with an allocation order shall make any deliveries of controlled meat.

(f) The territory located within the State of Rhode Island and within each of the following districts of the Office of Price Administration shall constitute a meat allocation area:

San Francisco, California
Los Angeles, California
San Diego, California

[§ 1407.919a added by Amendment 13, 8 F.R. 2274 and Amendment 15, issued 3-19-43 and effective 3-19-43]

§ 1497.920 *Criminal prosecutions* (a) Any person who knowingly falsifies an application, certification, registration form or any other record, report or document made pursuant to or required by the terms of Restriction Order No. 1 or who otherwise knowingly furnishes false information to any agent, employee or officer of the Office of Price Administration or falsifies or conceals or covers up by any trick, scheme or device a material fact, or makes or causes to be made any false or fraudulent statement or representation, in any matter within the jurisdiction of the Office of Price Administration, may upon conviction be fined not more than $10,000 or imprisoned for not more than ten years, or both, and shall be subject to such other penalties or actions as may be prescribed by law. Any person who conspires with another person to perform any of the foregoing acts or to violate any provision of Restriction Order No. 1 may upon conviction be fined not more than $10,000 or imprisoned for not more than two years, or both, and shall be subject to such other penalties or actions as may be prescribed by law.

(b) Any person who wilfully performs any act prohibited, or wilfully fails to perform any act required, by any provision of Restriction Order No. 1 may upon conviction be fined not more than $10,000 and imprisoned for not more than one year, or both, and shall be subject to such other penalties or actions as may be prescribed by all applicable statutes.

§ 1407.921 *Suspension orders.* Any person who violates this Restriction Order No. 1 may by administrative suspension order be prohibited from receiving any transfers or deliveries of, or selling or using or otherwise disposing of, any controlled meat or other rationed product. Such suspension order shall be issued for such period as in the judgment of the Administrator, or such person as he may designate for such purpose, is necessary or appropriate in the public interest and to promote the national defense.

§ 1407.922 *Scope of order.* Restriction Order No. 1 shall apply within the 48 states of the United States and within the District of Columbia.

§ 1407.923 *Communications.* All registration statements and reports required to be filed hereunder, and all communications concerning Restriction Order No. 1 shall be addressed to: Office of Price Administration, Att: Food Rationing Division, Washington, D. C.

§ 1407.924 *Effective date.* Restriction Order No. 1 shall become effective October 1, 1942. [Issued October 1, 1942.]

PART 1499—COMMODITIES AND SERVICES

[Order 325 Under § 1499.3 (b) of GMPR [1]]

MAXIMUM PRICES FOR NONFERROUS MILL PRODUCTS

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register,* and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, Executive Order No. 9250,[2] and section 3 (b) of the General Maximum Price Regulation, *It is hereby ordered:*

§ 1499.1761 *Methods of determining maximum prices for nonferrous mill products which cannot be priced under § 1499.2 of the General Maximum Price Regulation*—(a) *Authorization: applicability.* (1) Sellers of nonferrous mill products which cannot be priced under § 1499.2 of the General Maximum Price Regulation are hereby specifically authorized to determine their maximum prices for such products by the applicable one of the two methods set out in paragraphs (b) and (c) of this order.

(2) This order is applicable only to nonferrous mill products which are subject to the General Maximum Price Regulation rather than to a specific maximum price regulation or schedule, and, further, is applicable only if the seller cannot determine his maximum price for the product under § 1499.2 of the General Maximum Price Regulation.

(3) The provisions of this order do not apply to sales at wholesale or at retail.

(4) The term "mill products" includes all rough and machined nonferrous products produced by rolling, drawing, stamping, forging, or extrusion. However it does not include such products when sold by a person performing only a machining operation thereon, nor does it include finished parts and subassemblies.

(5) The term "nonferrous mill products" includes all mill products, as defined in paragraph (a) (4), made of aluminum, antimony, beryllium, bismuth, cadmium, cobalt, copper, lead, magnesium, nickel, tin, zinc and their alloys, if any one, or any combination of two or more, of the above metals equals or exceeds 50 percent (by weight) of the total metal content.

(b) *First method: March 1942 formula or pricing method.* (1) The seller shall apply the formula or pricing method which he used in March 1942 for comparable products, and shall arrive at a net price by making his customary adjustments for extra charges, cash discounts or other allowances. "Comparable product" means a product which, while not the same commodity as the nonferrous mill product to be priced nor a "similar commodity" within the meaning of § 1499.2 of the General Maximum Price Regulation, is produced by the same process (e. g., rolling, drawing, stamping, forging or extrusion), is made of the same nonferrous metal, or of an alloy having the same base, and involves relationships between elements of cost sufficiently similar that the formula or pricing method employed for such product may reasonably be applied to the product to be priced. For example, a manufacturer sells a $\frac{1}{8}$" wire solder composed of 85% lead and 15% tin. Neither he nor his competitors sold or offered this product, or a "similar" product, for sale in March 1942. However, in March 1942 he manufactured a $\frac{1}{8}$" wire solder containing 70% lead and 30% tin, which he priced in that month by adding 4 cents per pound to the cost of the metals contained. Assuming that the change in composition does not substantially affect manufacturing costs (as distinguished from metal costs), the 70-30 solder made in March is a "comparable product," and the maximum price for the new product should be determined by

[2] 7 F.R. 7871.

applying the same formula (i. e., cost of metals contained plus 4 cents per pound), and making adjustment for customary extra charges, cash discounts or other allowances.

(2) The seller shall apply his formula or pricing method as follows:

(i) *Metal costs.* To the extent that metal costs are included in the formula or pricing method, the seller shall use as the per pound cost of metal his actual delivered per pound cost, determined in accordance with the method which he normally employed in March 1942 as indicated in his pricing formula. Of course, this delivered cost must not exceed the maximum delivered cost (including any freight or delivery charges actually paid by the seller) which the seller is permitted to incur under applicable maximum price regulations issued by the Office of Price Administration.

(ii) *Direct labor costs.* To the extent that direct labor costs are included in the formula or pricing method the seller shall use labor costs figured and applied as follows:

(*a*) If actual labor rates, rather than machine hour, piece or average rates were used in March 1942, the seller shall use straight time and overtime rates no higher than those used in that month for each class of labor, and shall include no larger percentage of overtime than he included in that month.

(*b*) If machine hour, piece or average rates were used in March 1942 the seller shall use machine hour, piece or average rates no higher than those used by him in that month.

(*c*) In deciding whether items of labor cost are to be applied as separate items in figuring the price or are to be treated as overhead, the seller shall follow his March 1942 practice as indicated in his formula or pricing method. Thus, if a seller treated cleaning labor as an item of overhead in March 1942 he must continue so to treat it in figuring the maximum price.

(iii) *Overhead or burden rates.* To the extent that overhead or burden is included in the formula or pricing method the seller shall apply overhead or burden rates or factors no higher than those used in March 1942 and shall make no changes in the method of application that would result in a higher price.

(iv) *Set-up or die charges.* If the seller included set-up or die charges in his formula or pricing method in March 1942 he shall use the same method of figuring such charges as he used in that month. The seller must show any such charges separately on his quotation or invoice.

(v) *Other factors.* The seller shall employ no cost factors in addition to those which he used in March 1942 and shall make no changes in the method of application of those factors which would result in a higher price.

(vi) *Profit margin or mark-up.* To the extent that profit margin or mark-up is included in the formula or pricing method, the seller shall use no higher profit margin or mark-up than he used in March 1942 and shall make no change in the method of application that would result in a higher price.

(c) *Second method: sellers who cannot apply March 1942 formula or pricing method.* (1) If a seller cannot determine his maximum price by applying the formula or pricing method which he used in March 1942 for comparable products because he was not in business on that date, or because he had at that time no formula or pricing method for a comparable product, or because the plant in which the product is produced was not in operation in March 1942, he shall submit to the Office of Price Administration at Washington, D. C., a proposed formula or method of determining his maximum price, which shall reflect, so far as practicable, the pricing method and the rates which the seller would have employed for the product in March 1942. He should base his proposed formula or pricing method upon actual current metal costs, and, as far as practicable, should relate other factors in the formula or pricing method to conditions prevailing during March 1942. For example, if he was not doing business during March 1942 in the locality in which the product is to be produced he should take as the basis for his calculation of labor costs the wage rates prevailing in that locality during March 1942; and if he has no customary practice as to extra charges, allowances and discounts he should relate his proposed pricing method to the practice prevailing in the appropriate industry during that month.

(2) In submitting his formula or pricing method the seller must explain the reasons for his inability to use the method of maximum price determination set out in paragraph (b) of this order, must fully describe the product to be priced, and should illustrate the application of the proposed pricing method. The formula or pricing method submitted must be set forth in such detail that the Office of Price Administration, if given the values attached to the variable factors, will be able to arrive at the same price as the seller.

(3) Before filing his proposed method of determining the maximum price the seller may enter into contracts or offer or agree to enter into contracts for the sale of the product at a price determined or to be determined in accordance with the method to be proposed. However, he must file his proposal with the Office of Price Administration in Washington, D. C., before making any deliveries at the proposed price and before accepting any payment. When he has filed his proposal with the Office of Price Administration, he may sell, deliver, and accept payment for nonferrous mill products at prices determined in accordance with the method proposed by him, but shall not charge any higher price.

(4) The seller shall, upon request, supply to the Office of Price Administration any additional information that may be required to enable the Office to determine whether the formula or pricing method and rates submitted by the seller will result in prices which are in line with the general level of maximum prices established by the General Maximum Price Regulation. If the Office of Price Administration determines that the formula or pricing method and rates proposed will not result in such prices, the proposed formula or pricing method and rates may be disapproved.

(5) If the formula or pricing method submitted by the seller is disapproved by the Office of Price Administration notice to that effect will be given to the seller by letter, together with an approved price or pricing method.[1] On and after the date of such notice the seller shall be prohibited from selling, delivering or offering to sell or deliver the product at a price higher than the price thus authorized by the Office of Price Administration. In no event will disapproval of the pricing method submitted affect deliveries made by the seller prior to the date of notice of disapproval, if the proposal was appropriately filed under this paragraph. However, the Office of Price Administration may direct that on and after the date of notice of disapproval, or on and after any subsequent date which may be specified in the notice, all sales and deliveries shall be made in compliance with the maximum price, or the method of determining the maximum price, authorized by the Office of Price Administration, regardless of existing contracts or other obligations.

(6) "Date of notice of disapproval", as used in this order, means the date on which such notice is mailed by the Office of Price Administration in Washington.

(d) *Application of formulas or pricing methods; values to be given variable factors.* (1) In applying the formula or pricing method used by him in March 1942 for comparable products, or the formula or pricing method proposed by him in accordance with the provisions of paragraph (c) of this order, the seller, if he has had actual experience in the production of the product to be priced, shall assign values to the variable factors in the formula or pricing method (such as the amounts of time and material required) based upon actual production requirements as demonstrated by his experience.

(2) If the seller has had no experience in the production of the product to be priced, he shall use his best estimates of the amounts of time and materials required, and of the values to be given to other variable factors in the formula or pricing method. However, on subsequent contracts for the sale of the same product, made after actual production experience has been acquired, the seller shall recompute the maximum price, assigning values to the variable factors in his formula or pricing method based upon actual production requirements as demonstrated by his experience.

(3) In any case in which a seller recomputes the maximum price in accordance with subparagraph (2) of this paragraph with the result that the maximum price so computed is higher than the maximum price previously determined, he shall file a report with the Office of Price Administration at Washington, D. C., containing (i) a full description of the product, (ii) the maxi-

mum price previously calculated, (iii) the new maximum price, and (iv) an explanation of the higher price in terms of the formula or pricing method and of the cost factors reflected in the formula or pricing method.

(4) After the maximum price has been recomputed in accordance with subparagraph (2) of this paragraph on the basis of production experience sufficient to enable him to determine his costs with reasonable accuracy, the seller may file the specific maximum price so determined with the Office of Price Administration together with a request that such price be deemed to be his maximum price and that he be relieved of the requirement that the maximum price be recomputed for subsequent sales. This request will be approved if the Office of Price Administration finds that the specific price submitted is in line with the level of maximum prices established by the General Maximum Price Regulation. Unless and until such a finding is made the seller shall continue to recompute the maximum price for each sale in accordance with subparagraph (2) of this paragraph. On and after the date on which the request is approved the seller shall not be required to recompute the maximum price, but the specific price filed and approved shall be his maximum price for the product.

(e) *Records and reports.* As long as the Emergency Price Control Act of 1942, as amended, is in effect, every person selling nonferrous mill products pursuant to this order shall keep for inspection by the Office of Price Administration full and complete records of the formulas or pricing methods used by him, and of all cost data used in the application of such formulas or pricing methods. Except as required by paragraphs (c) and (d) of this order, it is not necessary to file formulas or pricing methods with the Office of Price Administration, nor to report maximum prices determined in accordance with this order, unless the Office of Price Administration specifically requests that such information be submitted.

(f) *Relation to Order No. 46—Brass mill products.* Order No. 46 under § 1499.3 (b) of the General Maximum Price Regulation, authorizing a method by which brass mills may determine maximum prices for brass mill products which cannot be priced under § 1499.2 of the General Maximum Price Regulation, is superseded by this order.

(g) *Provision for revocation or amendment of this order.* This order may be revoked or amended by the Administrator at any time, but its revocation or amendment shall have no effect upon prior sales or deliveries, except that prior contracts may be affected from the date of revocation or amendment or from such subsequent date as the Administrator may specify.

This order shall become effective March 13, 1943.

Issued this 13th day of March 1943.

PRENTISS M. BROWN,
Administrator.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[RPS 85, Amendment 10]

NEW PASSENGER AUTOMOBILES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously

7 F.R. 1361, 1675, 2134, 2172, 2648, 2697, 7100, 7436, 7942, 8948, 9899, 8 F.R. 1450, 2040.

herewith and filed with the Division of the Federal Register.*

Section 1360.63 is amended to read as follows:

§ 1360.63 *Appendix C: Standard delivery operations*—(a) *General purpose.* The operations set forth in the checklist below are identical with those established by Conservation Order M-216-A, as amended, issued by the War Production Board. Before any vehicle is delivered into the hands of a buyer, it shall be processed according to the provisions and instructions contained in the following checklist. This checklist is purposely detailed so as to discourage omissions of necessary operations. The sequence of the items listed is based on the fact that serious damage may result if certain operations are done out of turn. Accordingly, this list is arranged so that each operation is done only after the necessary preparatory work has been completed. The purpose of this checklist is to set forth the step-by-step procedure for conditioning every vehicle so that it will give maximum service when put to use. The procedure as outlined in the following pages is intended to be used as a checklist. A responsible person should be charged with the duty of seeing that the order of operations is followed strictly, and that each item is checked only after it is completed. Vehicles should be processed for delivery as near the storage location as practicable.

GENERAL INSTRUCTIONS

1. Under no circumstances should a reserve vehicle be operated under its own power, until the Standard Delivery Operations numbered 1–13, inclusive, have been performed upon it.

2. With respect to change of location of reserve vehicles in storage, the following conditioning operations must be performed:

Before being towed by crane truck or rigid bar, Items Nos. 1 a, b; and 2 b.

Before being towed by loose linkage (rope or chain), Items Nos. 1 a, b; and 2 b, e, f, g.

(b) *Checklist of operations performed to prepare the following vehicle for use.*

Item No. 1. *Tires.*

a. If tires are unmounted, inspect the rims and remove all rust. Mount tires and inflate them to tire manufacturer's recommended pressure.

b. If tires are mounted, inflate them to tire manufacturer's recommended pressure.

Item No. 2. *Brake System and Front Wheel Lubricant.*

a. Remove all wheels and drums and thoroughly clean rust from all braking surfaces. Also examine anchor pins to make sure their bearings are free so that springs return shoes to released position. *Do not work brake pedal* with brake drums off.

b. Repack front wheel bearings with new lubricant if necessary.

c. Check hydraulic master cylinder fluid level, adding approved fluid if necessary. See that filler cap vent is open.

d. Inspect brake system for leaks and repair any defects.

e. Work brake pedal several times to make sure system is operating. Jack up each wheel (if blocks were removed) and apply brakes. Check to see that they operate and then release fully so wheel can turn freely with no drag.

f. Check brake pedal-floor clearance and adjust if necessary.

g. With respect to conditioning vacuum booster, electric, and compressed air brake equipment, follow equipment manufacturer's recommendations.

NOTE: Remove outside body and window coverings. Protect upholstery while conditioning vehicle. If another location is required for remaining work, vehicle must not be run under its own power until ready for preliminary road test. (See General Instructions above.)

Item No. 3. *Fuel System.*

a. Replace gasoline tank drain plug.

b. Thoroughly clean fuel line, fuel pump sediment bowl and filter screen, and carburetor. Reinstall.

c. Check all fuel connections, including carburetor flange nuts or cap screws.

d. Put gasoline in tank, adding ½ pint of SAE engine oil to each 5 gallons of gasoline. Replace filler cap, making sure vent is free.

e. Check accelerator, throttle and choke linkages, idle and wide open positions.

f. Remove seal from air cleaner; and add oil if necessary.

Item No. 4. *Ignition System.*

a. Clean and adjust spark plugs. Leave them out so cylinders can be lubricated later.

b. Check distributor, adjust points, clean rotor and contact points.

c. Lubricate cam and rocker bearing surface.

d. Clean wire connections and push wires firmly into their sockets in distributor and coil.

Item No. 5. *Valve Compartment (overhead valve engines).*

a. Remove cover and remove oil soaked rags if any.

b. Spray valve mechanism with suitable light oil. Leave cover off for observation of valve action later.

Item No. 6. *Seals.*

a. Remove seal from tail pipe opening.

b. Remove seals from oil filler tube, crankcase breather tube, and any other opening. Clean and replace covers.

Item No. 7. *Clutch.*

a. Remove block used to keep clutch disengaged and make sure there is correct amount of free pedal movement at top of travel.

Item No. 8. *Preparing Engine for Service.*

a. Tighten all cooling system, heater hose and defroster connections, replacing any defective hose. If cooling system was stored full, add sufficient coolant to make up for evaporation. If cooling system was stored empty, close drain cocks and replace drain plugs. Fill with clean water and check for leaks.

b. Drain oil from crankcase.

c.[1] Drop oil pan, thoroughly clean pan, inside of crankcase and pump screen. Replace pan using new gasket.

d. Fill crankcase with flushing oil. Pour 2 ounces of SAE–10 engine oil into each spark plug hole. Leave spark plugs out.

e. Lubricate generator, starter, and water pump.

f. Clean battery carrier, repainting if necessary. Install securely a fully charged battery (spec. gravity of 1.280 or above at 60 degrees F.; water level ¼" to ⅜" above plates). Clean cables and connections, tighten, and coat terminals with vaseline or approved corrosion preventive. Test battery hookup by turning on headlights (ammeter should show discharge).

g. With ignition switch off and clutch disengaged crank engine for 30 seconds with starter in order to exercise reciprocating parts and bearings. While cranking engine listen carefully for indications of trouble. Remedy any trouble (such as engine failing to turn over or starter being stuck) before proceeding further. Reinstall spark plugs using new gaskets if necessary.

h. Start engine (clutch disengaged) and run at idle speed for five minutes.

i. Adjust automatic choke control if necessary.

j. Set engine idle speed according to manufacturer's recommendations.

k. Turn off engine. Drain flushing oil immediately from crankcase.

l.[1] If engine oil filter is sealed type, replace it with a new one. If it is replaceable element type, clean out filter chamber and install new element.

m. Fill crankcase to correct level with engine oil of proper SAE viscosity for temperature conditions under which vehicle will operate. Start engine and run at idle speed.

Item No. 9. *While engine is running,* check the following items for proper operations, making all necessary adjustments and repairs:

a. All instruments (oil, gas, temperature, and ammeter).

b. Windshield wipers, with blades installed.

c. Horn.

d. Every switch position of every light on vehicle.

e. Heater, climatizer, defroster.

f. Cigar lighter, radio, clock and other accessories.

g.[1] Automatic top on convertibles.

h. Charging rate, and voltage and current regulator.

i. Manifold heater valve.

j. Inspect all water hose connections, oil and fuel lines for leakage.

k. Check and if necessary adjust valve tappets according to vehicle manufacturer's recommendations.

Item No. 10. *After shutting off engine,* perform the following operations: Before any sediment in coolant has time to settle, make the following check of the cooling system:

a. If coolant carries little or no anti-freeze, completely drain entire cooling system, examining coolant for presence of rust or other foreign matter.

b. If coolant carries a considerable amount of anti-freeze, drain a quart from bottom of radiator. If liquid is clear return sample to radiator.

c. If coolant shows rusty and dirty, completely drain entire cooling system, reverse flush radiator and engine block to remove sediment, using a combination water-air flushing nozzle. (Follow manufacturer's recommendations with respect to thermostats and water pumps before flushing the block).

d. Fill cooling system (if not already done) with clean water and rust inhibitor, adding anti-freeze according to seasonal requirements. Watch for leaks at hose ends and pump, and correct any that develop.

e. While engine is still hot, tighten cylinder head nuts in recommended order.

f. Tighten manifold studs.

g. Tighten bolts at connection between exhaust manifold and pipe to muffler.

h. Replace valve compartment cover (overhead valve engines).

i. Check all belt adjustments and replace belts if necessary.

Item No. 11. *Lubrication.*

a. Lubricate every fitting and check the lubricant level of every reservoir according to vehicle manufacturer's lubrication chart, excepting those taken care of above. Flush out all gear boxes in which rust inhibitor was used during storage. Fill to correct level with new lubricant.

b. While lubricating, inspect underside of chassis and body for loose or damaged parts, and make any necessary adjustments or replacements.

Item No. 12. *Check, and if needed tighten,* the following items:

a. Nuts on spring U-bolts.

b. All steering connections.

c. Front and rear sway eliminator or stabilizer bolts.

d. Body bolts.

e. Front and rear bumper bolts.

f. Gas tank straps.

g. Shock absorber bolts.

Item No. 13. *Front end and wheels.*

a. Check front wheel toe-in.

b. Test steering adjustments and connections. Check amount of wheel turn to stop on left and right.

c. Check steering wheel for correct amount of play.

Item No. 14. *Preliminary Road Test.*

NOTE: Before road test, remove any stickers that obstruct vision, and wash windshield.

Road test every vehicle by driving it at least three miles and checking the operation of the following items:

a. All gear positions, and operation of gear shift lever.

b. Accelerator.

c. Service brakes.

d. Hand brake.

e. All instruments; oil, gas, temperature, ammeter, speedometer, and odometer.

f. Set spark advance or octane selector at correct adjustment for economical performance, idling, pick-up in each forward gear, and ping in the acceleration.

g. Springs and shock absorbers.

h. Locate squeaks, rattles, and unusual noises.

i. Special equipment such as overdrives, 2-speed axles, hill-holding devices, and transmissions other than conventional type.

j. Note any other items upon which work needs to be done.

Item No. 15. *Return Vehicle to Shop* and do the following operations:

a. Focus headlights.

b. Do any work on clutch, service brakes and hand brake for which road test showed need.

c. Reinspect all water hose connections, oil and fuel lines for leakage.

d. Clean fuel filters at carburetor and fuel pump.

e. Make necessary repairs or adjustments of any other items which road test showed to need attention.

f. Check all tire pressures again and if necessary replace valve core and inspect innertube and tire casing.

Item No. 16. *Final Road Test.*

a. Make further road tests if necessary to see that all equipment is operating satisfactorily.

b. Check for leaks under engine, transmission, and rear axle.

c. Clean and remove rust and dirt from engine and its accessories and other chassis parts. Touch up with paint of appropriate color if originally painted.

Item No. 17. *Body.*

a. Remove wax or grease from interior chrome, clean upholstery, carpets, and floor mats and repair any damaged places. Use solvent cleaner which will not damage finish or upholstery.

b. Remove plugs or screening from holes in floorboards or dash.

c. Check and lubricate front seat adjustment.

d. Check operation of all windows, ventipanes, cowl ventilator and sun visors. Clean windows and windshield inside and outside and repair any defects.

e. Check operation of all doors from inside and outside, trunk lid, hood, and glove compartment.

f. Check operation of all keys and locks on doors, glove compartment and trunk.

g. Check and clean tools in kit.

h. Re-cement any sponge rubber seal strips which may have pulled loose, replacing any which have deteriorated.

i. Inspect paint finish and repair or touch up any defects or damage.

j. Clean and polish vehicle body and chrome trim.

NOTE: Owner should drain engine crankcase at about 250 miles and refill to the full mark with a good grade of engine oil of proper SAE viscosity for temperature conditions under which vehicle will operate.

PART 1401—SYNTHETIC TEXTILE PRODUCTS

[MPR 339,[1] Amendment 1]

WOMEN'S RAYON HOSIERY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 339 is amended in the following respects:

1. Section 1401.104 (d) is amended to read as follows:

(d) *Classes of sellers*—(1) *The general rule.* A seller is any person who sells or offers to sell rayon hosiery. Factories, stores, selling establishments and other selling units owned by the same person or commonly owned are considered to be the same seller.

(2) *Classes of retail sellers of full-fashioned hosiery.* For the purpose of determining the "class" of retail outlet or the "class" of purchaser to which a seller of full-fashioned hosiery belongs, an exception to the general rule is made in the case of a person who operates two or more establishments selling at retail or two or more departments within an establishment selling at retail. In that case, each separate establishment is considered a separate seller. If, however, there are two or more separate departments within the establishment, each department is considered a separate seller. Retail sellers of women's full-fashioned hosiery are classified as follows:

(i) *Class I retail women's hosiery outlet.* Every seller at retail who is a "Class I purchaser" (excepting house-to-house sellers) is a "Class I retail women's hosiery outlet."

(ii) *Class II retail women's hosiery outlet.* Every seller at retail who is (*a*) a "house-to-house" seller, (*b*) a Class II purchaser or (*c*) a Class III purchaser, is a "Class II retail women's hosiery outlet."

2. In § 1401.104 (e) the headnote is amended to read as follows:

(e) *Classes of purchasers of women's full-fashioned hosiery.*

3. § 1401.104 (e) (1) is amended to read as follows:

(1) "Class I purchaser" means the following persons:

(i) Every "manufacturer" and every "wholesaler" as defined in this section.

(ii) Every retail seller whose business is owned, controlled or operated by a "manufacturer" or "wholesaler" or by a person who owns, controls, or operates the business of a "manufacturer" or "wholesaler."

(iii) Every retail seller whose business was operated under both of the following conditions:

(*a*) *First condition.* The seller, or the central buying organization to which the seller belonged, made total annual sales of women's full-length hosiery exceeding $250,000.00 in any year from 1939 to 1942, inclusive.

(*b*) *Second condition.* The seller, or the central buying organization to which the seller belonged, had an average percentage of initial mark-up on women's full-length hosiery of 34% or less in any year from 1939 to 1942, inclusive. To determine this mark-up percentage, the seller must (*i*) compute the total of the

initial retail prices at which *all* purchases of this hosiery were marked during a given year, (*ii*) compute the total of all invoice charges on purchases of the hosiery during the same year (figured after all discount deductions, and including all transportation costs), and (*iii*) subtract the total secured in (*ii*) from the total secured in (*i*) and divide the remainder by the total obtained in (*i*).

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

This amendment will become effective March 13th, 1943.

PART 1499—COMMODITIES AND SERVICES

[Order 34 to Supp. Reg. 15]

MILLER TRANSFER CO.

Order No. 34 under § 1499.75 (a) (3) of Supplementary Regulation No. 15 of the General Maximum Price Regulation—Docket No. GF3-1884.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1334 *Adjustment of maximum prices for contract carrier services furnished by Lloyd E. Miller d b a Miller Transfer Company.* (a) Lloyd E. Miller, of Irwin, Pennsylvania, d b a Miller Transfer Company, may sell and furnish contract carrier services from, to and between points in Maryland, New Jersey, New York and Pennsylvania at prices not to exceed 6% above the maximum prices established by him in March, 1942.

(b) All requests of the application not granted herein are denied.

(c) This Order No. 34 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 34 (§ 1499.1334) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(e) This Order No. 34 (§ 1499.1334) shall become effective March 15, 1943.

PART 1305—ADMINISTRATION

[Gen. Ration Order 5, Amendment 6]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order No. 5 is amended in the following respects:

1. A new Article XXVII and Sec. 27.1 are added to read as follows:

Article XXVII—Special Allotments

SECTION 27.1 *Certain group III users may get special allotments of Processed Foods.* (a) A Group III institutional user may apply for a special allotment of processed foods if he needs additional processed foods to feed his employees, or to food employees of another person pursuant to a contract, if he cannot get enough fruits or vegetables to meet the minimum nutritional needs of such employees for such foods because:

(1) The place where he feeds such employees is so located, or his business or occupation is of such a nature that a source of supply of fresh fruits and vegetables is not reasonably accessible; and

(2) He has no facilities for preserving such foods long enough, and in the quantities required, to meet such needs. (A Group I institutional user may not apply for a special allotment under this Section. Consumers eating in Group I establishments are permitted, under similar circumstances, to apply for additional points under Ration Order No. 13.)

(b) Application shall be made to the Board on OPA Form R-315, in person or by mail. A separate application must be made for each allotment period for which the special allotment is needed. The application must state in detail:

(1) Where his employees are fed;

(2) The nearest source of supply of fresh fruits and vegetables;

(3) A description of the facilities he has for preserving fresh fruits and vegetables;

(4) The amount of processed foods (in pounds) on hand on the date of application;

(5) The number of pounds of fresh fruits and vegetables, excluding potatoes, which the applicant can get and use during the period covered by the application; and

(6) The amount of his allotment (in points) of processed foods for the current allotment period.

(c) The regional administrator may authorize boards, district offices and State offices in his region to rule on applications. If the board has not been given such authority, it shall forward the application, with its recommendation, to the district office (or, where there is none, to the State office). If the district (or State) office has not been authorized to act on such application it shall transmit the file to the regional office.

(d) If the regional office or an authorized board, district or State office finds that the applicant meets the tests set out in paragraph (a), it shall grant a special allotment in the amount required. In determining the amount of the allotment, consideration shall be given to the amount of fresh fruits and vegetables, excluding potatoes, which will be available to the applicant during the period covered by the application. The Washington office and the regional administrators may issue further instructions governing the granting of special allotments.

(e) Any board which grants an allotment under this section shall keep a record of the number of points issued each month. It shall, within five (5) days after the end of each month, send to the district (or State) office a statement of the total number of points issued each month. The district (or State) office shall forward such statement to the regional office along with a statement of the number of points it has issued, if any. The regional office shall forward such statements to the Washington office along with a statement of the number of points it has issued, if any.

(f) A certificate shall be issued for the amount of the special allotment. However, if the applicant has an excess inventory of processed foods, no certificate shall be issued to him but an amount of the excess inventory equal to the allotment shall be cancelled. If the excess inventory is less than the allotment a certificate for the difference shall be issued.

2. Sec. 21.1 is amended by adding to the list of definitions the following:

"Washington office" means the National headquarters of the Office of Price Administration, in Washington, D. C.

This amendment shall become effective March 13, 1943.

(2) *Maximum prices in cents per net ton for shipment by truck or wagon to all destinations for all uses.* The maximum prices for shipment by truck or wagon shall be the applicable effective minimum price as of October 1, 1942, plus a sum not exceeding 65 cents per net ton.

(3) *Maximum prices in cents per net ton for railroad locomotive fuel.* The maximum prices for all railroad (online and off-line) locomotive fuel shall be $2.35 per net ton f. o. b. transportation facilities at the mine for mine run, modified mine run, lump and double screened coals; $1.80 per net ton f. o. b. transportation facilities at the mine for screenings not larger than 2",

Special price instructions. (i) The above prices shall not be subject to any adjustments on account of price exceptions and/or freight differentials, but shall not affect the permission to substitute on railroad locomotive fuel orders as provided in the Effective Minimum Price Schedule for District No. 11.

(ii) All special definitions of sizes appearing in the railroad locomotive fuel section of the Effective Minimum Price Schedule for District No. 11 shall be applicable in determining maximum prices for railroad locomotive fuel.

(iii) An additional charge of 15 cents per net ton may be added to the above maximum prices for railroad locomotive fuel when railroad locomotives are coaled at mine tipples.

(4) In the event any specific maximum price has been adjusted prior to March 15, 1943 (except the adjustments made in Amendment No. 7, effective June 22, 1942 to Maximum Price Regulation No. 120 in Price Groups 5 and 10) the effective maximum price in such case shall not be determined by reference to subparagraphs 1, 2 and 3 above, but must be computed by adding to such adjusted price the following sum:

(A) For the methods of shipment and uses indicated in (1) above.

Price Groups 1, 2, 3, 4, 7, 8, 9, 10, 11, 12, 18 and 19, No increase in Size Groups 1 to 8 inclusive; Twenty (20) cents in Size Groups 9 to 34 inclusive.

Price Groups 5, 6, 13, 14, 15, 16, 17 and 20; Twenty (20) cents in all Size Groups.

(B) For the methods of shipment and uses indicated in (2) above; Twenty (20) cents in all Size Groups.

(C) For use indicated in (3) above; Twenty (20) cents.

This Amendment No. 48 shall be effective as of March 13, 1943.

[Docket No B-32]

RED BIRD NUMBER 5 COAL COMPANY

MEMORANDUM OPINION AND ORDER TO CEASE AND DESIST

On January 28, 1943, after notice and hearing, Joseph D. Dermody, a duly designated Examiner of the Division submitted a Report in which he found that code member, Red Bird Number 5 Coal Company, a partnership, operating the Red Bird Number 5 Coal Company Mine, Mine Index No. 648, in Sullivan County, Indiana, in District 11, willfully violated:

a. Section 4 II (e) of the Act and the corresponding section of the Code by selling 63.56 tons of 3/8" lump coal, at a price of $1.80 per net ton f. o. b. the mine, whereas the effective minimum price for such coal was $2.20 per net ton, f. o. b. the mine;

b. Section 4 II (i) (8) of the Act, the corresponding section of the Code, Rule 8 of section XIII and Rule 2 of section XII of the Marketing Rules and Regulations by intentionally misrepresenting on its records as mine run coal, a coal from which some or all of the fines had been removed; and

c. Order No. 307, dated December 11, 1940 and Order No. 312, dated February 24, 1941, by failing to keep on file the information required by such Orders. The Examiner recommended that an order be entered requiring code member to cease and desist from selling coal at prices below the applicable minimum prices established by the Division or from otherwise violating the Act, the Code and orders, rules and regulations issued thereunder.

Opportunity was afforded to all parties to file exceptions to the Examiner's Report. No exceptions have been filed.

I have considered the Report of the Examiner and I find that it adequately and accurately reflects the evidence disclosed in the record. Upon the basis of the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation set forth in the Report and upon the entire record in this proceeding,

It is hereby ordered, That the Proposed Findings of Fact and the Proposed Conclusions of Law of the Examiner are approved and adopted as the Findings of Fact and Conclusions of Law of the Director.

It is further ordered, That Isaac Whiteside, James Reeves, David Swan, Oliver Beasley, Ernest Haney, Raymond Jones, Alva Jones, and Everett Killion, individually and as copartners doing business under the name and style of the Red Bird No. 5 Coal Company, operating the No. 5 Coal Company Mine (Mine Index No. 648) in Sullivan County, Indiana, their agents, employees, representatives, successors and assigns, and all persons acting or claiming to act on their behalf or interest, cease and desist from violating sections 4 II (e) and 4 II (i) (8) of the Act, the corresponding sections of the Code, Rule 8 of section XIII and Rule 2 of section XII of the Marketing Rules and Regulations, Order No. 307, dated December 11, 1940 and Order No. 312, dated February 24, 1941, or from otherwise violating the provisions of the Act, the Code or orders, rules and regulations issued thereunder.

Notice is hereby given that upon failure or refusal to comply with this order, the Division may apply to an United States Circuit Court of Appeals for the enforcement thereof, or may otherwise proceed as authorized by the Act.

Dated: March 12, 1943.

DISTRICT BOARD 2

ORDER DENYING TEMPORARY RELIEF AND NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 2 for increases in the minimum prices heretofore established for the coals produced by Grippo Coal Company at its Grippo Mine, Mine Index No. 851.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party:

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on April 13, 1943, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 7, 1943.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 2 that the Schedule of Effective Minimum Prices for District No. 2 for Truck Shipments be amended by increasing the minimum prices heretofore established therein for the coals produced by Grippo Coal Company at its Grippo Mine, Mine Index No. 851, in Size Groups 1 to 11, inclusive, for truck shipment.

It is further ordered That the request for temporary relief be, and the same hereby is, denied without prejudice to the renewal of such request for temporary relief, upon further showing or upon the basis of the record to be made at the hearing to be held herein.

Dated: March 13, 1943.

COSHOCTON COAL CO.

ORDER DIRECTING CODE MEMBER TO CEASE AND DESIST

In the matter of W. B. Shepherd, Eugene Brill and H. S. Gander, individually and as copartners doing business under the name and style of Coshocton Coal Company, Code Members.

Upon the basis of the findings of fact and conclusions of law set forth in the Opinion of the Director, filed simultaneously herewith, wherein it appears that code members wilfully violated Orders Nos. 307 and 309, and pursuant to sections 4 II (j), 5 (b) and other provisions of the Bituminous Coal Act of 1937;

It is ordered, That W. B. Shepherd, Eugene Brill and H. S. Gander, individually and as copartners, doing business under the name and style of Coshocton Coal Company, code members, operating the Dickerson Mine, Mine Index No. 1465, located in Coshocton County, Ohio, in Subdistrict 4 of District 4, their agents, representatives, employees, successors, or assigns, and any persons acting or claiming to act for or on their behalf, cease and desist from violating Orders Nos. 307 and 309, or from otherwise violating the provisions of the Act, the Code, and the rules and regulations thereunder.

Notice is hereby given that upon failure or refusal to comply with this Order, the Division may apply to a Circuit Court of Appeals for the enforcement thereof, or may take other appropriate action as authorized by the Act.

[Docket No. B-284]

HOME FUEL AND SUPPLY COMPANY

MEMORANDUM OPINION AND ORDER TO CEASE AND DESIST

On October 23, 1942, after notice and hearing, Charles O. Fowler, a duly designated Examiner of the Division submitted a Report in which he found that code member, Home Fuel and Supply Company, a corporation, operating the Bowen Mine (Mine Index No. 294) Subdistrict 7 of District 17, in Las Animas County, Colorado, willfully violated section 4 II (e) of the Bituminous Coal Act of 1937 and the corresponding section of the Bituminous Coal Code by selling:

a. Approximately 83.95 net tons of 1/4" x 0 coal produced at said mine, to the Trinidad Electric Railway Transmission and Gas Company, Trinidad, Colorado, from October 1, 1940 to January 17, 1941, both dates inclusive, and approximately 3.5 net tons of 1/4" x 0 coal, likewise produced at said mine, to L. L. Cunningham, Trinidad, Colorado, on or about November 14, 1940, at $1.50 per net ton delivered, whereas the effective minimum

price for such coal was $2.25 per net ton f. o. b. said mine;

b. Approximately 156.88 net tons of $^7/_8$'' x $^1/_4$'' coal, produced at said mine, to various purchasers from October 7, 1940 to November 3, 1941, at $2.25 per net ton f. o. b. said mine, whereas the effective minimum price for such coal was $3.15 per net ton f. o. b. said mine; and

c. Approximately 4.05 net tons of $^1/_4$'' x 0 coal, produced at said mine, to Frank Inman, Trinidad, Colorado, on or about December 20, 1940, at $1.50 per net ton f. o. b. said mine, whereas the effective minimum price for such coal was $2.25 per net ton f. o. b. said mine.

The Examiner recommended that an order be entered requiring code member to cease and desist from selling coal at prices below the applicable minimum prices established by the Division or from otherwise violating the Act, the Code and rules and regulations issued thereunder.

Opportunity was afforded to all parties to file exceptions to the Examiner's Report. No exceptions have been filed.

I have considered the Report of the Examiner and I find that it adequately and accurately reflects the evidence disclosed in the record. Upon the basis of the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation set forth in the Report and upon the entire record in this proceeding,

It is hereby ordered, That the Proposed Findings of Fact and the Proposed Conclusions of Law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director.

It is further ordered, That code member, Home Fuel and Supply Company, its agents, employees, representatives, successors and assigns, and all persons acting or claiming to act on its behalf or interest, cease and desist from violating section 4 II (e) of the Act, or from otherwise violating the provisions of the Act, the Code or rules and regulations issued thereunder.

Notice is hereby given that upon failure or refusal to comply with this Order, the Division may apply to a United States Circuit Court of Appeals for the enforcement thereof, or may otherwise proceed as authorized by the Act.

Dated: March 12, 1943.

[Docket No. B-371]

EARL BYERS

NOTICE OF AND ORDER FOR HEARING

A. Under provisions of the Bituminous Coal Act of 1937 as amended (the "Act"), district boards are authorized in appropriate cases to file complaints of violations of the Act, the Bituminous Coal Code (the "Code"), and rules and regulations of the Bituminous Coal Division (the "Division").

B. The Division, on October 10, 1942, referred to District Board No. 2 information in its possession bearing on whether violations of the Act, the Code, Orders and rules and regulations promulgated thereunder; and particularly Section 4 Part II (e) and (g) of the Act and Part II (e) and (g) of the Code and Rule 1 (F) of section VII of the Marketing Rules and Regulations, have been committed by Earl Byers, the code member above mentioned (hereinafter referred to as the "code member"), R. F. D. No. 1, Petrolia, Pennsylvania, whose code membership became effective as of September 2, 1937, operator of the Earl Byers Mine, Mine Index No. 816, located in Butler County, Pennsylvania, District No. 2, in connection with the sale and delivery by truck of coal produced at the aforesaid mine as follows:

1. By selling and delivering, subsequent to September 30, 1940, coal produced at the aforesaid mine at prices below the effective minimum prices established for said coal, as set forth in Schedule No. 1 of Effective Minimum Prices for District No. 2 For Truck Shipments, as amended, plus the transportation charges, handling charges or incidental charges from the transportation facilities at the mine to the point from which all such charges were assumed and directly paid by the purchasers, including the following transactions:

(a) The sale and delivery during the period from October 1, 1940 through January 1942, both dates inclusive, of approximately 387 tons of run of mine coal, (Size Group 8) to the Karns City Borough and the Fairview Township Schools in Butler County, Pennsylvania, a distance of approximately three miles from said mine, at a delivered price of $2.35 per net ton, whereas, the effective minimum f. o. b. mine price of said coal, as set forth in said Schedule was $2.30 per net ton, plus an amount, at least equal as nearly as practicable to the transportation charges, handling charges, or incidental charges, from the transportation facilities at the mine to said Karns City Borough and Fairview Township Schools, as required by Price Instruction No. 6 as amended and contained in Supplement No. 2 to said Schedule; and

(b) The sale and delivery during the period from October 1, 1940 through the month of January 1942, both dates inclusive, of approximately 1841.8 net tons of run of mine (Size Group 8) coal to the Ultra-Penn Refining Company, Bruin, Pennsylvania, a distance of approximately 12 miles from said mine at delivered prices ranging from $2.35 to $2.40 per net ton, whereas the effective minimum f. o. b. mine price of said coal, as set forth in said Schedule was $2.30 per net ton plus an amount at least equal as nearly as practicable to the transportation charges, handling charges, or incidental charges from the transportation facilities at the mine to the said Ultra-Penn Refining Company, as required by Price Instruction No. 6 as amended and contained in Supplement No. 1 to said Schedule, resulting in violations of section 4 Part II (e) and (g) of the Act and Part II (e) and (g) of the Code.

2. By selling and delivering subsequent to September 30, 1940, coal produced at the aforesaid mine, including the following transactions:

By accepting payments from said Ultra-Penn Refining Company in the transactions described in Items 1 (b) above in the form of petroleum products manufactured by said purchaser in lieu of payment in full in United States currency or funds equivalent thereto as is required by Rule 1 (F) of section VII of the Marketing Rules and Regulations.

C. By letter dated February 12, 1943, the Division notified said District Board No. 2 that unless it took action in this matter, the Division would take such action in lieu of the Board as it deemed necessary.

D. District Board No. 2 has not taken any action in this matter.

E. Section 6 (a) of the Act provides in part that in the event a district board shall fail for any reason to take action authorized or required by the Act, then the Division may take such action in lieu of the district board.

F. District Board No. 2 having failed to take action as authorized or required by the Act on the matters hereinabove described, the Division finds it necessary in the proper administration of the Act to take action thereon in lieu of the Board, as in this Notice of and Order for Hearing provided pursuant to section 6 (a) and other pertinent provisions of the Act for the purpose of determining:

1. Whether the code member has wilfully violated section 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code and Rule 1 (F) of section VII of the Marketing Rules and Regulations; and

2. Whether in the event that the code member is found to have violated the Act, the Code, and orders, rules and regulations promulgated thereunder, an order should be entered revoking the code membership of said Earl Byers, or directing said code member to cease and desist from violating the Act, the Code, and orders, rules and regulations promulgated thereunder.

It is hereby ordered, That a hearing pursuant to sections 4 II (j), 5 (b) and 6 (a), and other pertinent provisions of the Act be held on April 10, 1943, at 10 a. m., at a hearing room of the Division, 9th Floor, Bar Assn. Rooms, City County Building, Pittsburgh, Pennsylvania, to determine whether the aforementioned code member has committed the violations in the respects heretofore described and whether the code membership of said code member and the code member's right to an exemption from the tax imposed by section 3520 (b) (1) of the Internal Revenue Code, should be revoked or an order should be entered directing the code member to cease and desist from violating the Act, the Code, and orders, rules and regulations of the Division promulgated thereunder.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time and to

such places as he may direct by announcement at said hearing or any adjourned hearing, or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said code member and to all other parties herein and to all persons or entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act may file a petition for intervention not later than five (5) days before the date set for hearing herein.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the code member of this Notice of and Order for Hearing.

Notice is hereby given that answer setting forth the position of the code member with reference to the matters hereinbefore described must be filed with the Division at its Washington Office or with one of the Statistical Bureaus of the Division within twenty (20) days after the date of service of a copy hereof on the code member; and that any failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission by the code member of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern in addition to the charges specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 12, 1943.

BUREAU OF MINES

JOSEPH H. KANN

ORDER REVOKING LICENSE AND DIRECTING SURRENDER THEREOF

To: Joseph H. Kann, Licensee, 271 Twelfth Street, Oakland, California.

Proceedings for the revocation of the Federal explosives license, issued under the Federal Explosives Act of December 26, 1941 (55 Stat. 863), to the above-named licensee, were begun on October 29, 1942, by the issuance of Specification of Charges and Notice of Hearing setting forth violations of the act and regulations thereunder by the licensee. After due reply received from the licensee, denying any and all charges and requesting a hearing, a hearing was held on December 15, 1942, at Berkeley, California, before the Hearing Officer duly designated by me, at which hearing the licensee appeared in his own behalf. Testimony was heard and evidence was adduced bearing on the charges made.

The Report of the Hearing Officer, dated January 16, 1943, made findings of fact and reached conclusions that the licensee had violated certain provisions of the act and regulations, and recommended the revocation of the license. The licensee was allowed 15 days from the date of receipt of the Report within which to file with me such exceptions to the report or to any other part of the records or proceedings as he might desire. Exceptions and a brief in support thereof were filed and, after due consideration by me, have been found to be without merit. Accordingly, by my decision of this date, I have found the charges to be adequately sustained by the record and have held that this order should issue.

Now, therefore, by virtue of the authority vested in me by sections 8 and 18 of the Federal Explosives Act and § 301.22 of the regulations issued pursuant thereto (7 F.R. 5901), I, R. R. Sayers, Director of the Bureau of Mines, Order, That the Hearing Officer's Report, including his findings, conclusions and recommendation be, and they are hereby, approved and adopted as my own;

That Purchaser's License No. 464.602, and any and all other Federal explosives licenses heretofore issued to Joseph H. Kann, pursuant to the Federal Explosives Act, be, and they are hereby, revoked as of 12:01 a. m., March 22, 1943;

That the license or licenses contemplated in the preceding paragraph shall be surrendered by delivering them to me on or before March 22, 1943, or by depositing them on or before that date in the United States mail with postage paid and addressed to me.

That prior to 12:01 a. m., March 22, 1943, Mr. Kann shall use or sell to properly licensed persons all explosives which he has on hand, and shall, immediately after March 22, 1943, furnish the engineer in charge of the office of the United States Bureau of Mines, 422 Acheson Building, Berkeley, California, with a sworn statement showing the manner of disposition of said explosives, and the persons, if any, to whom said explosives have been sold, and the amounts thereof, together with the numbers of the explosives licenses held by such persons.

Dated: March 9th, 1943.

Director, Bureau of Mines.

AUTHORIZATION OF ADMINISTRATOR TO APPROVE SALES OF REAL PROPERTY AND EXECUTE DEEDS

By virtue of the authority vested in the Secretary of Agriculture by R.S. 161 (5 U.S.C. 1940 ed. 22), *It is hereby ordered*, That:

1. The Administrator of the Farm Security Administration is authorized to approve sales and conveyances of real property or interests therein held by the United States of America and under the jurisdiction of the Farm Security Administration, including real property held in trust for any State rural rehabilitation corporation, and to execute, on behalf of the United States of America, all deeds or other instruments necessary in connection therewith.

2. Sales of economic farm units to persons eligible for assistance from the Farm Security Administration shall be at prices based on the earning capacity of the farms. The purchase price for such farms shall be payable over a period not in excess of 40 years, and the unpaid portion of the purchase price shall bear interest at the rate of three per cent.

3. Sales of subsistence units shall be for prices consistent with the income of the purchasers. The purchase price shall be payable over a period not in excess of 40 years, and the balance of the purchase price shall bear interest at three per cent.

4. Sales of land to persons not eligible for Farm Security Administration as-

sistance shall be at the maximum prices obtainable and on the terms most favorable to the Government.

5. All sales and conveyances shall conform to all applicable requirements of law and all applicable regulations of this Department.

6. In the absence of the Administrator of the Farm Security Administration, the authority hereby conferred may be exercised by the person who acts in his place and stead as the Acting Administrator of the Farm Security Administration.

7. This authority may be delegated to Regional Directors of the Farm Security Administration.

Done at Washington, D. C., this 15th day of March, 1943. Witness my hand and the seal of the Department of Agriculture.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO SOUTHERN ATLANTIC CO., INC.

Notice of issuance of Special Certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective March 15, 1943.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificate. Any person aggrieved by the issuance of these certificates may seek a review of reconsideration thereof.

[Docket No. 6493]

PLAINS RADIO BROADCASTING CO.

NOTICE OF HEARING

In re application of Plains Radio Broadcasting Co. (KGNC), dated December 5, 1942, for modification of license; class of service, broadcast; class of station, broadcast; location, Amarillo, Texas; operating assignment specified: Frequency, 860 kc.; power, 500 w. night; 5 kw. day; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing for the following reasons:

1. To determine whether the granting of this application would be consistent with the policy set forth in the Commission's Memorandum Opinion dated April 27, 1942 or as modified September 22, 1942.

2. To determine whether the granting of this application would be consistent with the provisions of the North American Broadcasting Agreement (Appendix I, Table I, NARBA).

3. To determine the areas and populations wherein the reception of the secondary services of Stations KOA and WWL would be precluded by the proposed operation of Station KGNC and what other broadcast services would be available to these areas and populations.

4. To determine the extent of any interference which would result from the simultaneous operation of Station XEMO, (Tiajuana, Mexico) and Station KGNC, as proposed.

5. To determine the areas and populations which would gain primary service by the operation of Station KGNC, as proposed, and what other broadcast services are available to these areas and populations.

6. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by Section 307 (b) of the Communications Act of 1934, as amended.

7. To determine the areas and populations now receiving primary service from Station KFYO, Lubbock, Texas which would also receive similar service from Station KGNC, operating as proposed.

8. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the proposed service of Station KGNC.

9. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience or necessity will be served by the grant of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of Section 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of Section 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows: Plains Radio Broadcasting Company, Radio Station KGNC, 8th and Harrison Streets, Amarillo, Texas.

Dated at Washington, D. C., March 12, 1943.

By the Commission.

[Vesting Order 469]

SAJI TRADING COMPANY, LTD.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Yorisuke Matsudo (alien detention camp), Kameniro Kame (alien detention camp) and Tanejiro Saji (whose last known address was represented to the undersigned as being Tokyo, Japan), Japanese citizens, are nationals of a designated enemy country (Japan);

2. Finding that said Yorisuke Matsudo, Kameniro Kame and Tanejiro Saji are the owners of 540 shares, 30 shares, and 548 shares respectively, of $10 par value common capital stock of Saji Trading Company, Ltd., a California corporation, Los Angeles, California, which is a business enterprise within the United States and which shares constitute a substantial part (namely, 31.03%) of all outstanding capital stock of, and represent an interest in, said business enterprise;

3. Determining, therefore, that said business enterprise is a national of a designated enemy country (Japan);

4. Determining that to the extent that such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Japan);

5. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

6. Deeming it necessary in the national interest;

hereby (i) vests in the Alien Property Custodian the property described in subparagraph 2 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States, and (ii) undertakes the direction, management, supervision and control of such business enterprise to the extent deemed necessary or advisable from time to time by the undersigned.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof or to indicate that compensation will not be paid in lieu thereof or to vary the extent of such direction, management, supervision or control or to terminate the same, if and when it should be determined that any of such action should be taken.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national," "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C. on December 9, 1942.

T. SAJI COMPANY, LTD.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Yorisuke Matsudo (alien detention camp), Kameniro Kame (alien detention camp) and Tanejiro Saji (whose last known address was represented to the undersigned as being Tokyo, Japan), Japanese citizens, are nationals of a designated enemy country (Japan);

2. Finding that said Yorisuke Matsudo, Kameniro Kame and Tanejiro Saji are the owners of 69 shares, 3 shares, and 100 shares respectively, of $100 par value common capital stock of T. Saji Company, Ltd., a California corporation, Los Angeles, California, which is a business enterprise within the United States and which shares constitute a substantial part (namely, 34.68%) of all outstanding capital stock of, and represent an interest in, said business enterprise;

3. Determining, therefore, that said business enterprise is a national of a designated enemy country (Japan);

4. Finding that all right, title and interest and claim of any name or nature whatsoever of said Tanejiro Saji in and to all indebtedness, contingent or otherwise and whether or not matured, owing to him by said T. Saji Company, Ltd., including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness, is an interest in the aforesaid business enterprise held by a national of an enemy country and also is property within the United States owned or controlled by a national of a designated enemy country (Japan);

5. Determining that to the extent that such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Japan);

6. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

7. Deeming it necessary in the national interest;

hereby (i) vests in the Alien Property Custodian the property described in subparagraphs 2 and 4 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States, and (ii) undertakes the direction, management, supervision and control of such business enterprise to the extent deemed necessary or advisable from time to time by the undersigned.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof or to indicate that compensation will not be paid in lieu thereof, or to vary the extent of such direction, management, supervision or control or to terminate the same, if and when it should be determined that any of such action should be taken.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

[Vesting Order 526]

ASSOCIATED IMPORTERS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Associated Importers is a partnership having its principal place of business at Tientsin, China and is composed of Wallace M. Larson and J. R. Johansson, the last known addresses of which partners were represented to the undersigned as being Tientsin, China, enemy-occupied territory;

2. Determining that said partnership is controlled by a designated enemy country (Japan) or a person within such country;

3. Determining that to the extent that said partnership is a person not within a designated enemy country, the national interest of the United States requires that it be treated as a national of the aforesaid designated enemy country (Japan);

4. Determining, therefore that said partnership is a national of such designated enemy country (Japan);

5. Finding, therefore, that certain personal property now in storage at the Great Western Manufacturing Company, Leavenworth, Kansas and particularly described in Exhibit A attached hereto and made a part hereof and belonging to said partnership, is property within the United States owned by a national of a designated enemy country (Japan);

6. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

7. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property described in subparagraph 5 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C. on December 18, 1942.

PERSONAL PROPERTY OWNED BY SALE AND COMPANY, LTD.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Sale and Company, Ltd., having its principal place of business at its last known address, Tokyo, Japan, is a corporation organized under and existing by virtue of the laws of Japan and is a national of a designated enemy country (Japan);

2. Finding that the 1,542 pieces of steel tubing presently located in the warehouse of Babcock and Wilcox Tube Company, Beaver Falls, Pennsylvania, which steel tubing is more particularly described in Exhibit A attached hereto and made a part hereof, are owned by said Sale and Company, Ltd., and therefore are property within the United States owned or controlled by a national of a designated enemy country (Japan);

3. Determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Japan);

4. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

5. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property described in subparagraph 2 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

GEBRUEDER MEYER

Re: Personal property owned by, and certain obligations owing to, Gebrueder Meyer.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Gebrueder Meyer is a partnership organized under the laws of Germany, whose principal place of business is at 26 Poststrasse, Koeln, Germany, and is a national of a designated enemy country (Germany);

2. Finding that Gebrueder Meyer is the owner of the property described in subparagraph 3 hereof;

3 Finding that the property described as follows:

a. 218½ pounds of tortoise shell now in the possession of Adam Bernhard, 45 East 17th Street, New York, New York; and

b. All right, title, interest and claim of any name or nature whatsoever of Gebrueder Meyer in and to all obligations, contingent or otherwise and whether or not matured, owing to Gebrueder Meyer by Adam Bernhard, including but not limited to all security rights in and to any and all collateral for any or all such obligations and the right to sue for and collect such obligations,

is property within the United States owned or controlled by a national of a designated enemy country;

4. Determining that the property described in subparagraph 3-b hereof is necessary for the maintenance or safeguarding of other property (namely, that hereinbefore described in subparagraph 3-a) belonging to the same national of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to Section 2 of said Executive Order;

5. Determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Germany);

6. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

7. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C. on February 18, 1943.

[Vesting Order 932]

MINING MACHINERY OWNED BY SOCIETE MINERE DE PETROSANI

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Societe Minere de Petrosani, a corporation organized under and existing by virtue of the laws of Rumania, with its principal place of business in Bucharest, Rumania, is a national of a designated enemy country (Rumania);

2. Finding that said Societe Minere de Petrosani is the owner of the property hereinafter described in subparagraph 3;

3. Finding that the property now stored at the Claremont, New Hampshire, Warehouse of the Sullivan Machinery Company, Michigan City, Indiana, and described as follows:

a. Four Sullivan Hoists type B-111 with toggle type brake and clutch levers, equipped with government approved 25 horsepower electric motors, 380 volts, 3 phase, 50 cycle, 1,450 RPM, complete with regular equipment, shop Nos. 12685-7-8-9, and

b. Four Westinghouse 11-200 S 2 permissible line-starter with built-in pushbutton, but without headlight switch, for use with motors attached to the above-mentioned Sullivan Hoists;

is property within the United States owned or controlled by a national of a designated enemy country (Rumania);

4. Determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Rumania);

5. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

6. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C. on February 22, 1943.

[Order 8 Under MPR 127]

FINISHED PIECE GOODS

GRANTING EXCEPTION TO PETITIONS

Separate petitions listed in paragraph (f) Appendix A, of this Order No. 8 were filed pursuant to § 1400.82 (i) (3) of Maximum Price Regulation No. 127. Inasmuch as the petitions listed therein were filed pursuant to the same provision and request the same type of relief, the Price Administrator deems it appropriate to consolidate the said petitions for the purpose of their determination.

Consideration has been given to the petitions and an opinion in support of this Order No. 8 has been issued and filed with the Division of the Federal Register.* For the reasons set forth in the opinion, under the Authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, *It is hereby ordered:*

(a) Each of the petitioners named in paragraph (f), below, is granted an exception from the provisions of § 1400.82 (i) (2) (v) of Maximum Price Regulation No. 127 and may insofar as it purchases finished piece goods and acts as a jobber thereof, charge a markup on such jobbing sales not in excess of that provided for wholesalers and jobbers under § 1400.82 (i) (1) of the said regulation.

(b) The permission granted to the petitioners is subject to the following conditions:

(1) During the period between July 1, 1942 and June 30, 1943, and for each corresponding 12 month period thereafter, the proportion of goods sold at a markup above cost by each of such petitioners as a jobber, to its total sales of finished piece goods subject to Maximum Price Regulation No. 127 shall not exceed the percentage directly opposite the name of the Petitioner as listed in paragraph (f) below. *Provided*, That if any petitioner acts as a converter-jobber for less than any such twelve month period, the proportion of such jobbing sales to its total sales of such finished piece goods, from the beginning of the 12-month period to the time when it ceases to act as a converter-jobber shall not exceed the applicable percentage appearing in paragraph (f).

(2) The restrictions imposed by § 1400.82 (i) (2) (ii) and (i) (2) (iv) of Maximum Price Regulation No. 127 are specifically made applicable to the jobbing sales made by each petitioner under the permission granted by this Order No. 2.

(3) Said petitioners may not charge such jobber's markup with respect to finished piece goods purchased from a person controlling, controlled by or under common control with such petitioner.

*Copies may be obtained from the Office of Price Administration.
